R 408.30764 to R 408.30776c shall apply to hospitals and the above mentioned facilities. Plumbing systems serving these facilities shall conform not only to the requirements of R 408.30764 to R 408.30776c but also to the requirements contained in other parts of this code.

Refer to Michigan department of health rules and regulations governing hospitals, nursing homes, and homes for the aged.

History: 1954 ACS 91, p. 56, Eff. June 16, 1977.

R 408.30765 Special fixtures.

Rule 765. Section P-1402.0 of the code is added to read as follows:

P-1402.0. Special fixtures. Fixtures which are designed for any special use, therapy, special cleansing, or disposal of waste materials, or for combinations of such uses, shall be of smooth, impervious, corrosion-resistant materials, and if subjected to temperatures in excess of 180 degrees Fahrenheit, shall be able to withstand without damage, higher temperatures as may be specified.

History: 1954 ACS 91, p. 56, Eff. June 16, 1977.

R 408.30765a Special equipment.

Rule 765a. Section P-1402.11 of the code is added to read as follows:

P-1402.11. Special equipment. All devices, appurtenances, appliances, and apparatus intended to serve some special function, such as sterilization, distillation, processing, cooling, storage of ice or foods, etc., which may be connected to either the water supply or drainage systems, shall be provided with protection against back-siphonage, backflow, flooding, fouling, or any possibility of contaminating any portion of the water supply system, or the stoppage of any drain through normal use.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30765b Acceptance.

Rule 765b. Section P-1402.12 of the code is added to read as follows:

P-1402.12. Acceptance. All special plumbing fixtures, equipment, devices and apparatus shall be submitted to the construction code commission for its review and acceptance prior to installation.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30765c Clinic sink; design.

Rule 765c. Section P-1402.2 of the code is added to read as follows:

P-1402.2. Clinic sink, design. A clinic sink shall have an integral trap with a visible trap seal. The fixture shall be designed so as to permit complete removal of the contents by siphonic action, blowout action, or both, and to reseal the trap. A flushing rim shall provide water to cleanse the interior surface. The fixture shall have flushing and cleansing characteristics similar to those of a water closet.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30765d Accessibility.

Rule 765d. Section P-1402.3 of the code is added to read as follows:

P-1402.3. Accessibility. Concealed piping in connection with special fixtures which contain steam traps, valves, relief valves, check valves, vacuum breakers, or other similar items that require periodic inspection, servicing, or both, shall be accessible for inspection, maintenance, or repair. Concealed piping which requires periodic inspection shall be accessible for inspection, maintenance, or repair.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30765e Sterilizer piping.

Rule 765e. Section P-1402.4 of the code is added to read as follows:

P-1402.4. Sterilizer piping.

a. Steam supply. Steam supplies to sterilizers, including those connected by pipes from overhead mains or branches, shall be drained to prevent any excess moisture from reaching the sterilizer. The condensate drainage from the steam supply shall be discharged by gravity.

b. Steam condensate return. Steam condensate return from sterilizers shall not be connected to pressure or vacuum return systems; only gravity returns shall be acceptable. Steam condensate returns from sterilizers shall not be connected to overhead mains or branches.

c. Condensers. Pressure sterilizers should be equipped with an acceptable means of condensing and cooling the exhaust steam vapors.

d. Gas-fired equipment. Gas-fired equipment, or apparatus requiring either water or drainage connections, or both, should meet standards of the American gas association.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30766 Vacuum system stations.

Rule 766. Section P-1402.50 of the code is added to read as follows:

P-1402.50. Vacuum system stations. Vacuum system stations shall be located according to convenience and practical use. The stations should be built into cabinets or recesses, but also shall be readily accessible. Vacuum stations should include a shut-off valve, vacuum regulator, and gauge. However, where bottle receptors are used, these devices may be a part of a bottle assembly.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30766a Vacuum system stations; cleanouts.

Rule 766a. Section P-1402.51 of the code is added to read as follows:

P-1402.51. Vacuum system stations, cleanouts. In order to provide cleanout facilities, each outlet connector valve, or assembly of valves, shall be removable at the connection of the valve, or assembly of valves, with the vacuum piping branch or main.

History: 1954 ACS 91, p. 57, Eff. June 16, 1977.

R 408.30766b Bottle (dry) systems.

Rule 766b. Section P-1402.52 of the code is added to read as follows:

P-1402.52. Bottle (dry) systems. A vacuum, or fluid suction, system intended for use as a bottle, or dry, system, shall specifically designate receptacles or an assembly of receptacles, which are equipped with an overflow preventive device, at each vacuum outlet station. Each vacuum outlet station should be equipped with a secondary safety receptacle, in series with the collecting receptacle, as an additional safeguard against fluids, other than air, entering the vacuum piping

system. No secondary receptacle installed in series with a collecting receptacle shall be considered a stand-by or reserve receptacle. Where a stand-by or reserve receptacle is desired, it may be connected and valved in parallel with the collecting receptacle, but shall not bypass a secondary receptacle.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30766c Central system equipment.

Rule 766c. Section P-1402.53 of the code is added to read as follows:

P-1402.53. Central system equipment. A system equipped with collecting tanks, interceptors, or other means of collecting and or disposal to the sanitary waste system, shall provide for draining and cleaning while the system is in operation.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30766d Vacuum pump discharge.

Rule 766d. Section P-1402.54 of the code is added to read as follows:

P-1402.54. Vacuum pump discharge. The exhaust discharge from a vacuum pump used in connection with a vacuum, or fluid suction, system shall not create a nuisance, a hazard, or both, within, without, around, or about the premises.

The exhaust from a vacuum pump shall be piped separately to the outer atmosphere, and wherever practical to do so, above the highest roof. The exhaust discharge terminal shall be a minimum of 4 inches in diameter from at least 1 foot below the roof to its terminal not less than 1 foot above the roof.

Unless the exhaust is washed, filtered, or both, so as to eliminate any possibility of nuisance, hazard, or both, the exhaust terminal shall be a minimum distance of 25 feet from any door, window, air intake, or opening in a building, and a minimum distance of 20 feet above the ground, if side wall discharge.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30767 Radioactive materials.

Rule 767. Section P-1402.6 of the code is added to read as follows:

P-1402.6. Radioactive materials. Hospital plumbing used for radioactive materials shall conform to the requirements of R 408.30725a.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30767a Special elevations.

Rule 767a. Section P-1402.7 of the code is added to read as follows:

P-1402.7. Special elevations. Control valves, vacuum outlets, and devices which protrude from a wall shall be located at an elevation which will preclude bumping against the device.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30768 Recess rooms.

Rule 768. Section P-1403 of the code is added to read as follows:

P-1403. Recess rooms. Rooms which contain the recessed or concealed portions of sterilizing equipment, sterilizing stills, or both, shall be of sufficient size to provide adequate clear space for installation, service, and maintenance.

Recess rooms shall be accessible through a door or doors located on the floor level from which the sterilizing equipment is operated. The door or doors shall provide access to all portions of the recess and shall be large enough to permit passage of an average person without crawling under or climbing over any object or equipment and shall be large enough to permit removal, replacement, or both, of the largest piece of equipment contained in the room which is not removable through the end wall panel. The door or doors shall be located so as to permit

entrance to, or exit from, the recess room without interfering with activity in an adjoining room.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30768a Floor drain required.

Rule 768a. Section P-1403.1 of the code is added to read as follows:

P-1403.1. Floor drain required. In all recess rooms containing the recessed or concealed portions of sterilizers, not less than 1 acceptable floor drain, connecting to the drainage system, shall be installed in a manner which will drain the entire floor area.

A recess room shall have a waterproof floor.

History: 1954 ACS 91, p. 58, Eff. June 16, 1977.

R 408.30768b Recess room floor drains; trap seal maintenance.

Rule 768b. Section P-1403.11 of the code is added to read as follows:

P-1403.11. Recess room floor drains, trap seal maintenance. The recess room floor drain waste and trap shall be a minimum diameter of 3 inches. It shall receive the drainage from at least 1 sterilizer within the recess room to assure maintenance of the floor drain trap seal. The sterilizer drain shall be installed on a branch taken off between the floor drain trap and the drain head. An individual sterilizer waste trap shall not be required on this type of installation.

History: 1954 ACS 91, p. 59, Eff. June 16, 1977.

R 408.30769 Ordinary fixtures.

Rule 769. Section P-1404.1 of the code is added to read as follows:

P-1404.1. Ordinary fixtures. Clear space about ordinary fixtures shall be in accordance with article 12 of the code.

History: 1954 ACS 91, p. 59, Eff. June 16, 1977.

R 408.30769a Clear space about special fixtures or equipment.

Rule 769a. Section P-1404.11 of the code is added to read as follows:

P-1404.11. Clear space about special fixtures or equipment. Clear space about special fixtures or equipment shall be as follows:

Fixtures	Front	Side	Rear
Bedpan washers (with door open)	42″	6″	6″ U 3″ V
Sinks, clinic	42″	12″	3″ W
Sinks, scrub-up	42″	4″ W	
Sinks, utility room	42″	4″ W	
Sterilizers, pressure (Free standing)	24″ Y	20″	10″
Sterilizers, pressure (Recessed)	24″ Y	20″	20″
Sterilizers, pressure instrument washer-sterilizer (Free standing)	24″ Y	20″	10″
Sterilizers, pressure instrument washer-sterilizers (Recessed)	24″ Y	20″	20″

U—Concealed type
V—Exposed type
W—If not flush with wall
X—In double door installations each door shall be considered the front
Y—Plus length of rack
Z—The administrative authority may permit 1 end of the table to be located closer to a water supply control panel, or a service or clinic sink. Embalming tables not directly connected to the waste system may be located with 1 end over a clinic sink.

History: 1954 ACS 91, p. 59, Eff. June 16, 1977.

R 408.30769b Battery assemblies.

Rule 769b. Section P-1404.12 of the code is added to read as follows:

P-1404.12. Battery assemblies. Only in exposed installations of battery assemblies or combination groups of sterilizers may the clear space requirements on each adjoining side of the individual sterilizers be reduced, but there shall be provided not less than the space required to clean, inspect, repair, and maintain the equipment, and in no case shall there be less than 6 inches.

In a concealed or recessed installation of battery assemblies or combination groups of sterilizers, the clear space requirements for individual sterilizers shall apply.

History: 1954 ACS 91, p. 59, Eff. June 16, 1977.

R 408.30769c Mortuary preparation and autopsy rooms.

Rule 769c. Section P-1404.13 of the code is added to read as follows:

P-1404.13. Mortuary preparation and autopsy rooms. Portable mortuary preparation tables and autopsy tables shall discharge their wastes into a clinic sink. See article 14, section 1402.2 of the code. Stationary mortuary preparation tables and autopsy tables shall discharge their wastes through a trap directly connected to the drainage system.

History: 1954 ACS 91, p. 59, Eff. June 16, 1977.

R 408.30770 Material.

Rule 770. Section P-1405.1 of the code is added to read as follows:

P-1405.1. Material. Material for local vents serving bedpan washers and vents serving sterilizers shall be brass, copper, galvanized steel, galvanized wrought iron, or such other satisfactory rustproof and corrosion-resistant alloys or materials acceptable to the construction code commission. Connections of dissimilar metals should be avoided.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30770a Direction.

Rule 770a. Section P-1405.2 of the code is added to read as follows:

P-1405.2. Direction. A local vent stack, sterilizer vent stack, or both, shall be run vertically and separately through the roof of the building with not more than 1 offset of not more than 45 degrees with the vertical. Connections with any other piping system shall not be permitted, except as herein stated for drainage and trap seal supply. The roof terminal shall be a minimum of 4-inch diameter pipe from a point above 1 foot below the roof. A local vent stack, sterilizer vent stack, or both, except the increase at the roof terminal, shall be full size throughout its length.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30770b Vent connections prohibited.

Rule 770b. Section P-1405.3 of the code is added to read as follows:

P-1405.3. Vent connections prohibited. Connections shall not be made between local vents serving bedpan washers, sterilizer vents serving sterilizer apparatus, or normal sanitary plumbing systems or combinations thereof. Furthermore, only 1 type of apparatus shall be served by a given vent. Interconnection of gas exhaust vents and steam exhaust vents from combination gas and steam sterilizers is prohibited.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771 Required.

Rule 771. Section P-1405.41 of the code is added to read as follows:

P-1405.41. Required. Bedpan washers shall be vented to the outer atmosphere above the roof by means of 1 or more local vents.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771a Size.

Rule 771a. Section P-1405.42 of the code is added to read as follows:

P-1405.42. Size. The diameter of a local vent pipe for a bedpan washer shall not be less than 2 inches. A local vent serving a single bedpan washer may drain to the fixture served.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771b Multiple installation.

Rule 771b. Section P-1405.43 of the code is added to read as follows:

P-1405.43. Multiple installation. Where bedpan washers are located above each other on more than 1 floor, a local vent stack may be installed to receive the local vent on the various floors. Not more than 3 bedpan washers shall be connected to a 2-inch local vent stack, 6 to a 3-inch local vent stack, and 12 to a 4-inch local vent stack.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771c Vent connections.

Rule 771c. Section P-1405.431 of the code is added to read as follows:

P-1405.431. Vent connections. In multiple installations, the connections between a bedpan washer local vent and a local vent stack shall be made by use of the tee or tee-wye sanitary pattern drainage fittings, installed in an upright position.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771d Trap required.

Rule 771d. Section P-1405.432 of the code is added to read as follows:

P-1405.432. Trap required. The base of the local vent stack, except when serving only 1 bedpan washer, shall be drained by means of a trapped and vented waste connection to the plumbing sanitary drainage system. The trap and waste shall be the same size as the local vent stack. See sections 1405.42, 1405.433 and 1406.6.1 of the code.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30771e Trap seal maintenance.

Rule 771e. Section P-1405.433 of the code is added to read as follows:

P-1405.433. Trap seal maintenance. On the discharge or fixture side of the vacuum breaker a water supply pipe of not less than ¼ inch minimum tubing shall be taken from the flush supply pipe of each bedpan washer. This tubing shall be trapped to form not less than a 3-inch seal, and connected to the local vent stack on each floor. This water supply shall be installed so as to provide sufficient water to the local vent stack for cleansing, and for trap seal maintenance each time a bedpan washer is flushed.

History: 1954 ACS 91, p. 60, Eff. June 16, 1977.

R 408.30772 Required.

Rule 772. Section P-1405.51 of the code is added to read as follows:

P-1405.51. Required. Sterilizer vents and stacks are required to serve pressure sterilizing equipment except when acceptable condensing apparatus is provided.

History: 1954 ACS 91, p. 61, Eff. June 16, 1977.

R 408.30772a Reduction of sizes prohibited.

Rule 772a. Section P-1405.52 of the code is added to read as follows:

P-1405.52. Reduction of sizes prohibited. The sterilizer vent, exhaust opening, or both, provided by the manufacturer should not be reduced in diameter.

History: 1954 ACS 91, p. 61, Eff. June 16, 1977.

R 408.30772b Connections.

Rule 772b. Section P-1405.53 of the code is added to read as follows:

P-1405.53. Connections. Multiple installations of pressure sterilizers shall have their vent connections to the sterilizer vent stack made by means of inverted wye fittings.

History: 1954 ACS 91, p. 61, Eff. June 16, 1977.

R 408.30772c Drainage.

Rule 772c. Section P-1405.54 of the code is added to read as follows:

P-1405.54. Drainage. The connection between sterilizer vent, exhaust openings, or both, and the sterilizer vent stack shall be designed and installed to drain to the funnel or basket-type waste fitting. In multiple installations the sterilizer vent stack shall be drained separately to the lowest sterilizer funnel or basket-type waste fitting or receptor.

History: 1954 ACS 91, p. 61, Eff. June 16, 1977.

R 408.30772d Pressure sterilizers.

Rule 772d. Section P-1405.551 of the code is added to read as follows:

P-1405.551. Pressure sterilizers. Pressure sterilizer vent stacks shall be 1½ inches minimum diameter; those serving combinations of pressure sterilizer exhaust connections shall be based on the following table:

TABLE P-1405.551
Pressure Sterilizers
Number of Connections of Various Sizes
Permitted to Various Sized Vent Stacks

Stack Size	Connection Size ¾"		1"		1¼"		1½"
•-1½"	3	or	2	or	1

R 408.30772e Pressure instrument washer-sterilizer.

Rule 772e. Section P-1405.552 of the code is added to read as follows:

P-1405.552. Pressure instrument washer-sterilizer. The minimum size of a pressure instrument sterilizer vent stack serving an instrument washer-sterilizer shall be 2 inches in diameter. Not more than 2 sterilizers shall be installed on a 2-inch stack, and not more than 4 on a 3-inch stack.

History: 1954 ACS 91, p. 61, Eff. June 16, 1977.

R 408.30773 Water service.

Rule 773. Section P-1406.1 of the code is added to read as follows:

P-1406.1. Water service. All hospitals shall have dual services installed in a manner to provide an uninterrupted supply of water in case of a water main break.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30773a Hot water mandatory.

Rule 773a. Section P-1406.2 of the code is added to read as follows:

P-1406.2. Hot water mandatory. All fixtures, devices, appliances, and appurtenances normally equipped for hot water shall be provided with an adequate supply of potable hot water.

All patients' handwashing and bathing facilities shall be provided with hot water in a temperature range of 110 to 120 degrees Fahrenheit.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30773b Hose connections.

Rule 773b. Section P-1406.3 of the code is added to read as follows:

P-1406.3. Hose connections. For ordinary hose connections the maximum height at which a hose is to be used shall be treated as its flood level.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30773c Prohibited water closet and clinic sink supply.

Rule 773c. Section P-1406.4 of the code is added to read as follows:

P-1406.4. Prohibited water closet and clinic sink supply. Jet or water-supplied orifices, except those supplied by the flush connections, shall not be located in, connected with, or both located in and connected with, a water closet bowl or clinic sink. This section shall not prohibit an acceptable bidet installation.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30773d Bedpan washer hose.

Rule 773d. Section P-1406.5 of the code is added to read as follows:

P-1406.5. Bedpan washer hose. A bedpan washer hose shall be equipped with wall-mounted, foot-operated valve. An acceptable vacuum breaker shall be located downstream from the control valve. The elevation of the vacuum breaker shall not be less than 5 feet above the toilet room or bathroom floor. A hose of sufficient length for use in cleansing a bedpan or urinal over the water closet or clinic sink shall be provided and shall be equipped with a spray nozzle. Unless the water closet combination is provided with a receptacle for draining and retaining the bedpan washer hose, a rack or hook shall be provided not less than 12 inches below the vacuum breaker for supporting the hose nozzle when the hose is not in use.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30774 Bedpan washers.

Rule 774. Section P-1406.61 of the code is added to read as follows:

P-1406.61. Bedpan washers. A hot or cold water supply to a bedpan washer shall be equipped with an acceptable vacuum breaker installed between the flushometer valve and the fixture at an elevation as specified in the vacuum breaker acceptance. Should the hot and cold water supplies be interconnected, each supply branch to the fixture shall be equipped with a check valve. For steam and water interconnection see section P-1605.119 of the code. See R 408.30771e for local vent trap seal maintenance.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30774a Electrically heated pressure sterilizers.

Rule 774a. Section P-1406.62 of the code is added to read as follows:

P-1406.62. Electrically heated pressure sterilizers. In an electrically heated pressure sterilizer installation, the water supply to the steam generator shall be equipped with an acceptable vacuum breaker. The vacuum breaker shall be installed on the discharge side of the control valve and at the elevation above the top of the sterilizer specified in the vacuum breaker acceptance. A check valve shall be installed between the vacuum breaker and the steam generator. A sediment separator with a screen of a minimum of 20 mesh per inch shall be installed between the check valve and the steam generator.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30774b Clinical, hydrotherapeutic, and radiological equipment.

Rule 774b. Section P-1406.63 of the code is added to read as follows:

P-1406.63. Clinical, hydrotherapeutic, and radiological equipment. Clinical, hydrotherapeutic, radiological, or any equipment, whether mentioned or not, which is water supplied or discharges to the waste system, or which is both water supplied and discharges to the waste system, shall meet the requirements of article 16 of the code covering cross-connections and article 7 of the code regarding indirect waste.

History: 1954 ACS 91, p. 62, Eff. June 16, 1977.

R 408.30774c Aspirator for vacuum (fluid suction) use.

Rule 774c. Section P-1406.64 of the code is added to read as follows:

P-1406.64. Aspirator for vacuum (fluid suction) use. Aspirators which create a vacuum for fluid suction shall be equipped with an acceptable vacuum breaker in the water supply between the control valve and the aspirator vacuum fitting. The elevation of the vacuum breaker shall be not less than 6 feet 6 inches above the floor, and the minimum distance between the bottom of the vacuum breaker, and the aspirator vacuum inlet shall not be less than the elevation as specified in the vacuum breaker acceptance.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30774d Vacuum (fluid suction) systems.

Rule 774d. Section P-1406.65 of the code is added to read as follows:

P-1406.65. Vacuum (fluid suction) systems. Water supply to a vacuum (fluid suction) system, except as provided for aspirators in R 408.30774c shall be protected against back siphonage by means of an acceptable air gap.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30774e Autopsy and embalming tables.

Rule 774e. Section P-1406.66 of the code is added to read as follows:

P-1406.66. Autopsy and embalming tables. The water supply to autopsy tables and embalming tables, including the sink compartments, flush device, aspirator, hose, or any similar water connection, shall be designed and installed to prevent back siphonage, backflow, or both, by means of an acceptable air gap, vacuum breaker installation or both.

Vacuum breakers on hose connections serving this type of equipment shall be not less than 6 feet 6 inches above the floor.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30774f Exhaust condensers.

Rule 774f. Section P-1406.67 of the code is added to read as follows:

P-1406.67. Exhaust condensers. Pressure sterilizers, if provided with a means of condensing the exhaust vapors, shall have the exhaust connected to a condensing chamber designed to permit cold water to condense all vapors. The vacuum breaker shall be installed on the discharge side of the water supply control valve at the elevation specified in the vacuum breaker acceptance. A check valve shall be installed between the vacuum breaker and the condenser. A fixed orifice flow control valve shall be installed before connecting to the condenser chamber.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30775 Bedpan washers and clinic sinks.

Rule 775. Section P-1407.1 of the code is added to read as follows:

P-1407.1. Bedpan washers and clinic sinks. Bedpan washers and clinic sinks shall be connected to the soil pipe system and follow the venting requirements as applied to water closets, except that bedpan washers require additional local vents. See R 408.30771.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30775a Indirect wastes required.

Rule 775a. Section P-1407.21 of the code is added to read as follows:

P-1407.21. Indirect wastes required. All sterilizers and stills shall be provided with individual and separate indirect wastes. Such wastes shall discharge through a fixed air gap of not less than 2 diameters of the waste tailpiece measured from the spill rim of the funnel or basket type waste fitting.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30775b Battery assemblies.

Rule 775b. Section P-1407.22 of the code is added to read as follows:

P-1407.22. Battery assemblies. A battery assembly of not more than 3 sterilizer wastes may drain to 1 trap, subject to the following:

1. The waste from each sterilizer shall discharge through a fixed air gap as required by R 408.30775a.

2. The trap and waste piping shall be sized according to the combined fixture unit rating and the trap shall be located immediately below one of the indirect waste connections.

3. The developed distance of a branch shall not exceed 8 feet from the trap to the most distant air gap fitting.

4. All changes of direction in the branch shall be made by means of tee-wye or wye pattern fittings.

History: 1954 ACS 91, p. 63, Eff. June 16, 1977.

R 408.30775c Sterilizer exhaust condensers.

Rule 775c. Section P-1407.23 of the code is added to read as follows:

P-1407.23. Sterilizer exhaust condensers. If an exhaust condenser is used, the drain from the condenser shall be installed according to section 1407.21 of the code. A condenser drain shall be designed and installed so that the receptor, waste funnel, basket, or pan type indirect waste connection shall not overflow. Furthermore, the release of vapors and pressures shall not create excessive temperatures, a nuisance or hazard to personnel, the plumbing system, other equipment, or the surrounding area.

History: 1954 ACS 91, p. 64, Eff. June 16, 1977.

R 408.30775d Pressure sterilizers and pressure instrument washer-sterilizers.

Rule 775d. Section P-1407.24 of the code is added to read as follows:

P-1407.24. Pressure sterilizers and pressure instrument washer-sterilizers. In addition to the requirements of R 408.30775a and R 408.30775b, pressure sterilizer and pressure instrument washer-sterilizer drainage piping shall be designed, installed, and maintained in a manner to preclude the possibility of chamber negative pressure aspirating moisture into the chamber, interfering with sterilizing procedure or endangering the chamber contents.

History: 1954 ACS 91, p. 64, Eff. June 16, 1977.

R 408.30776 Aspirators.

Rule 776. Section P-1407.32 of the code is added to read as follows:

P-1407.32. Aspirators. Where aspirators are installed for removing blood, pus, or other fluids, the discharge from an aspirator shall be indirectly connected to a trapped waste of not less than 1½ inch pipe size with a tubular trap.

History: 1954 ACS 91, p. 64, Eff. June 16, 1977.

R 408.30776a Wastes.

Rule 776a. Section P-1407.321 of the code is added to read as follows:

P-1407.321. Wastes. The waste from a central vacuum (fluid suction) system, except station bottles, shall be directly connected to the sanitary drainage system through a trap.

History: 1954 ACS 91, p. 64, Eff. June 16, 1977.

R 408.30776b Piping.

Rule 776b. Section P-1407.322 of the code is added to read as follows:

P-1407.322. Piping. The piping of a central vacuum (fluid suction) system shall be brass, copper, galvanized steel, or galvanized wrought iron, or such other satisfactory rustproof and corrosion-resistant alloys or materials acceptable to the construction code commission. The minimum size branch shall be ½ inch. The minimum size main shall be 1 inch. The pipe sizing shall be based on the following:

1. Velocities of air flow are to be limited to 5,000 feet per minute (83.4 feet per second) to hold line noise to a reasonable level and avoid excessive pressure drop.

2. Pressure drops because of friction in piping systems are to be limited to 1 inch Hg (Mercury) per 100 feet of pipe or equivalent, and 4 inches Hg (Mercury) is the maximum allowable pressure drop for the entire system.

3. See formula for calculating pipe size and tables P-1407.322a, P-1407.322b and P-1407.322c of the code.

All piping shall be provided with accessible cleanout facilities at each 90 degree change of direction on mains and at branch connections. All piping should be accessible for inspection, maintenance, and replacement.

All piping shall be supported in a manner to prevent sags, dips, and traps. A zone control station or change in direction shall not interfere with drainage of the piping system.

Piping systems shall be installed with pitch to provide gravity drainage toward the lowest portion of the system. So called "wet" disposal systems shall pitch toward the discharge connection to the sanitary drainage system. Systems specifically intended as non-disposal "dry" systems, and not equipped with a low elevation sanitary drainage connection, shall be provided with replaceable drip pocket cleanout facilities at the base of each main riser. Where impractical to avoid station outlet branch drops, pitch shall be from the high point of such drops. The formula for calculating pipe size in central vacuum systems is as follows:

$$V = 58 \sqrt{\frac{PD^5}{WL}}$$

Where:

V = Volume in cubic feet per minute
P = Difference in pressure in pounds per square inch
D = Inside diameter of pipe in inches
W = Weight of air in pipe in pounds per cubic foot
L = Length of pipe in feet

Note: This equation is derived from Fanning's equation using values in units of measurement as indicated.

This formula is the basis for sizing at 15 inches Hg. Vacuum, as provided in table P-1407.322c. It is a designer's prerogative to use a different design, pressure, and size according to the formula, if his results are within the established limits. The manufacturers will probably include this information in the engineering data for their equipment, and may also include ratio conversion factors or charts for sizing at various pressures.

TABLE P-1407.322a
Design Criteria for Hospital and Clinical
Central Vacuum Systems
Outlet Ratings

Location of Outlet	Allowance Per Outlet, Cubic Foot/Minute of Air at 15" Hg. Vacuum	Equivalent Allowance Per Outlet, Cubic Feet/ Minute of Air at Atmosphere	Percentage of Simultaneous Use Factor
Operating rooms, general medical	2	1	100%
O.B. rooms	2	1	100%

R 408.30776c Prohibited location of soil and waste piping in specialized area.

Rule 776c. Section P-1407.5 of the code is added to read as follows:

P-1407.5. Prohibited location of soil and waste piping in specialized area. Exposed soil or waste piping shall not be located above any areas used for pharmaceutical preparation, clean or sterile goods preparation, or storage.

History: 1954 ACS 91, p. 66, Eff. June 16, 1977.

R 408.30777 Scope.

Rule 777. Section P-1600.1 of the code is amended to read as follows:

P-1600.1. Scope. The provisions of this article shall control the design and installation of water supply systems, both hot and cold.

Refer to Michigan department of public health rules for additional requirements on water supply systems pertaining to establishments subject to regulation, licensure, or both, by that department.

History: 1954 ACS 91, p. 66, Eff. June 16, 1977.

R 408.30777a Water hammer.

Rule 777a. Section P-1603.3 of the code is amended to read as follows:

P-1603.3. Water hammer. All building water supply systems shall be provided with devices to absorb high pressures so as to eliminate water hammer. These pressure absorbing devices shall be either air chambers or approved mechanical devices.

Water pressure absorbers shall be placed as close as possible to the fixture and at the ends of long runs of piping and near batteries of fixtures.

a. Air chambers. Where air chambers are installed, they shall be provided with a means of restoring the air in event the chamber becomes waterlogged.

b. Air chamber size. The diameter of air chambers located at the tops of water supply risers, vertical fixture branches, or both, shall be not less than the diameter of the pipe served by the air chamber. If less than 15 inches in length, the air chamber shall be at least 1 pipe size larger than the riser, branch, or both, and shall be of a length sufficient to provide a volume equivalent to that of an air chamber 15 inches in length.

c. Air chambers, location. Air chambers shall be installed at the tops of each hot and cold water supply riser. A single pair of air chambers may be provided for the

water supplies to a bathroom group. Air chambers shall be installed at all automatic washer connections, fixtures equipped with quick closing valves and on all supplies equipped with solenoid water control valves.

d. Mechanical devices. Where mechanical devices are used, the manufacturer's specifications shall be followed as to location and method of installation.

History: 1954 ACS 91, p. 66, Eff. June 16, 1977.

R 408.30777b Prohibited location of potable supply tanks.

Rule 777b. Section P-1604.2.8 of the code is amended to read as follows:

P-1604.2.8. Prohibited location of potable supply tanks. Potable water gravity tanks or manholes of potable water pressure tanks shall not be located directly under any soil or waste piping or other source of contamination.

History: 1954 ACS 91, p. 67, Eff. June 16, 1977.

R 408.30778 Connections to boilers.

Rule 778. Section P-1605.7 of the code is amended to read as follows:

P-1605.7. Connections to boilers. Potable water connections to high pressure boilers and boiler feed water systems in which boiler water conditioning chemicals are introduced shall be made through an air gap or provided with an approved reduced pressure zone backflow preventer located in the potable water line where such chemicals are introduced.

Low pressure boilers not subject to chemical treatment shall be equipped with a double check valve assembly or other approved device in the water supply line to the boiler.

For the purpose of this section, a high pressure boiler is one whose pressure relief valve is set for more than 15 p.s.i.g. if steam, or more than 30 p.s.i.g. if a water boiler.

History: 1954 ACS 91, p. 67, Eff. June 16, 1977.

R 408.30778a Boiler treatment chemicals.

Rule 778a. Section P-1605.7.1 of the code is added to read as follows:

P-1605.7.1. Boiler treatment chemicals. Chemical treatment shall not be added to a previously untreated boiler feed water system without first securing a plumbing permit and providing protection to the water supply by the installation of an air gap or a reduced pressure zone backflow preventer in the water suppply line to the boiler.

History: 1954 ACS 91, p. 67, Eff. June 16, 1977.

R 408.30778b Protection required for water supplies to closed recirculating systems used for heating and cooling.

Rule 778b. Section P-1605.7.2 of the code is added to read as follows:

P-1605.7.2. Protection required for water supplies to closed recirculating systems used for heating and cooling. A potable water piping connected to a closed recirculating system used for heating and cooling shall be protected against backflow by either an air gap and surge tank or by a backflow preventer of the reduced pressure zone type, except when the following conditions are met:

a. No additives introduced into the system.

If the recirculated water is only potable water without any additives, a double check valve assembly may be substituted for the protection specified above. However, the owner of the building in which the system is located shall submit an affidavit to the effect that no additives will be used.

R 408.30779 Pressure filter protection.

Rule 779. Section P-1605.8 of the code is added to read as follows:

P-1605.8. Pressure filter protection. If city water is to be passed through a pressure filter using granular or suspended media such as sand, zeolite, ion exchange resins, carbon, etc., in order to remove dissolved or suspended matter, not less than a single check valve shall be installed between the filter and the nearest upstream branch or point of use.

History: 1954 ACS 91, p. 67, Eff. June 16, 1977.

R 408.30779a Automatically regenerated water softeners.

Rule 779a. Section P-1605.8.1 of the code is added to read as follows:

P-1605.8.1. Automatically regenerated water softeners. Ion exchange resin water softeners of the automatically regenerated type, the operation of which requires that the brine tank water supply branch be directly connected to or submerged in the brine tank, shall be water supplied through a double check valve assembly installed upstream from the softener bypass.

History: 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30779b Deionizers and demineralizers.

Rule 779b. Section P-1605.8.2 of the code is added to read as follows:

P-1605.8.2. Deionizers and demineralizers. Deionizers and demineralizers which are regenerated with solutions of mineral acids and alkalies, shall have the water supply protected in accordance with the following:

a. Regenerating solutions applied by injectors. Where the regenerating solutions are applied to the resin beds by city water-operated injectors, a pressure type vacuum breaker shall be installed at the required elevation above the highest point in the deionized water system. If such an elevation for the protective device is not practicable, a reduced pressure zone type backflow preventer shall be installed in the city water branch supplying the system.

b. Regenerating solutions pumped. Where the regenerating solutions are pumped through the resin beds, as in mixed bed deionizing, a reduced pressure zone type backflow preventer shall be installed in the water supply branch to the system.

History: 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30780 Water supplies to refrigeration equipment.

Rule 780. Section P-1605.9 of the code is amended to read as follows:

P-1605.9. Water supplies to refrigeration equipment. A water control valve, either manually or automatically operated, shall not be installed on the water discharge piping from a refrigerant containing a component of a refrigerating system which is, for example, shell-and-tube condensers, double-pipe condensers, water-jacketed compressor cylinders, etc., supplied with potable water in such a way that there would be direct contact between potable water and the refrigerant upon leakage through the wall separating the 2 fluids.

History: 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30780a Manifolded water supplies to refrigeration equipment.

Rule 780a. Section P-1605.9.1 of the code is added to read as follows:

P-1605.9.1. Manifolded water supplies to refrigeration equipment. If 2 or more refrigerants containing components are served in parallel from a common water supply pipe and it is necessary to connect the water discharge piping into a common discharge manifold, valves may be installed on the individual discharge

pipes between the components and the manifold, if a check valve is installed in the common water supply pipe upstream from all refrigerant containing components.

Also adjacent to and at the outlet side of the check valve, an approved pressure relief valve, set to relieve at 5 p.s.i. above the maximum water pressure at the point of installation shall be provided if the refrigeration units contain more than 20 pounds of refrigerants.

History: 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30781 Used water return prohibited.

Rule 781. Section P-1605.10 of the code is amended to read as follows:

P-1605.10. Used water return prohibited. Water used for cooling of equipment or other processes shall not be returned to the potable water system. The water shall be discharged into a drainage system through an air gap or may be used for nonpotable purposes.

History: 1954 ACS 81, p. 105, Eff. May 19, 1975; 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30781a Water outlets.

Rule 781a. Section P-1605.11.1 of the code is amended to read as follows:

P-1605.11.1. Water outlets. A potable water system shall be protected against backflow and backsiphonage by providing at each outlet (a) an air gap as specified herein between the potable water outlet and flood level rim of the fixture it supplies, or between the outlet and any other source of contamination, or, where an air gap is impracticable, (b) a backflow prevention device approved as hereinafter provided.

Distilled or deionized water systems shall be protected against backflow and backsiphonage the same as any other potable water supply. A distilled or deionized water system shall not be considered a secondary water system.

History: 1954 ACS 91, p. 68, Eff. June 16, 1977.

R 408.30781b Installation of devices.

Rule 781b. Section P-1605.11.5 of the code is amended to read as follows:

P-1605.11.5. Installation of devices.

a. Vacuum breakers. Vacuum breakers shall be installed with the critical level at least 6 inches above the flood level or rim of the fixture they serve, and on the discharge side of the last control valve to the fixture. No shut-off valve or faucet shall be installed downstream from the vacuum breaker. For closed equipment and vessels, such as pressure sterilizers, the top of the equipment or vessel shall be treated as the flood level rim. A check valve shall be installed on the discharge side of the vacuum breaker on pressure vessels.

b. Reduced pressure zone backflow preventer. A reduced pressure zone type backflow preventer may be installed subject to full static line pressure.

c. Pressure type vacuum breaker. Pressure type vacuum breakers may be installed so that they are continually subject to static line pressure; that is to say, a valve may be installed downstream from the vacuum breakers.

Pressure type vacuum breakers shall be installed a minimum of 12 inches above the equipment or piping served, whichever is the higher.

d. Devices of all types. Backflow and backsiphonage preventing devices shall be accessibly located preferably in the same room with the fixture they serve. Installation in utility or service spaces, provided they are readily accessible, is also permitted.

History: 1954 ACS 91, p. 69, Eff. June 16, 1977.

R 408.30781c Connections subject to back pressure.

Rule 781c. Section P-1605.11.6 of the code is added to read as follows:

P-1605.11.6. Connections subject to back pressure. Where a potable water connection is made to a line, fixture, tank, vat, pump, or other equipment with a hazard of backflow or backsiphonage and the water connection is subject to back pressure, such connection shall be made by means of an air gap with a surge tank and pump. Where this method is not feasible, the use of a reduced pressure zone backflow preventer may be allowed if the system design is submitted to the administrative authority for approval prior to installation.

History: 1954 ACS 91, p. 69, Eff. June 16, 1977.

R 408.30781d Cross connections where protective devices are required and critical level (C-L) settings for backflow preventers.

Rule 781d. Section P-1605.11.7a of the code is amended to read as follows:

P-1605.11.7a. Cross connections where protective devices are required and critical level (C-L) settings for backflow preventers.[1]

Fixture or Equipment	Method of Installation
Aspirators and ejectors	C-L at least 6 inches above flood level of receptacle
Cup beverage vending machines	C-L at least 12 inches above flood level of machine
Dental units	On models without built-in vacuum breakers C-L at least 6 inches above flood level rim of bowl
Dishwashing machines	C-L at least 6 inches above flood level of machine
Flushometers (closet & urinal)	C-L at least 6 inches above top of fixture supplied
Garbage can cleaning machine	C-L at least 6 inches above flood level of machine
Hose outlets	C-L at least 6 inches above highest point on hose line
Laundry machines	C-L at least 6 inches above flood level of machine
Lawn sprinklers	C-L at least 12 inches above highest sprinkler or discharge outlet
Steam tables	C-L at least 6 inches above flood level
Tank and vats	C-L at least 6 inches above flood level rim or line
Trough urinals	C-L at least 30 inches above perforated flush pipe
Flush tanks	Equip with an approved float valve. In all cases the float valve shall be located above the overflow level of the tank and the outlet terminated 1 inch above the overflow or provided with a back-flow preventer located at least 1 inch above the overflow.

Fixture or Equipment	Method of Installation
Hose bibs (where aspirators or ejectors could be connected).....	C-L at least 6 inches above flood level of receptacle served

[1]Critical Level (C-L) is defined as the level to which the backflow preventer (vacuum breaker) may be submerged before backflow will occur. Where C-L marking is not shown on the preventer, the bottom of the device shall be taken as the C-L.

Connections subject to back pressure—Where a potable water connection is made to a line, fixture, tank, vat, pump, or other equipment with a hazard of backflow or backsiphonage where the water connection is subject to back pressure, and an air gap or backflow preventer cannot be installed the administrative authority may require the use of an approved reduced pressure zone backflow preventer, and in extreme situations, may also require an approved pressure type vacuum breaker. A partial list of such connections is shown in table P-1605.11.8, partial list of cross connections subject to back pressure.

Note: The flood level indicated above shall be the spill rim of a fixture, the highest portion of piping downstream from a vacuum breaker, or the point of introduction of potential contamination, whichever is the highest. For hose connections the maximum height at which a hose is to be used shall be treated as its flood level.

For devices, fixtures, or equipment not listed, the installation heights shall be governed by the administrative authority.

History: 1954 ACS 91, p. 69, Eff. June 16, 1977.

R 408.30781e Water and steam interconnections protection.

Rule 781e. Section P-1605.11.9 of the code is amended to read as follows:

P-1605.11.9. Water and steam interconnections protection. If potable water and steam piping are interconnected for mixing and heating of the water, there shall be a vacuum breaker and check valve in the water line adjacent to the point of connection, and there shall be no shut-off valve in the common line downstream from the point of connection. The check valve shall be located on the discharge side of the vacuum breaker.

History: 1954 ACS 91, p. 70, Eff. June 16, 1977.

R 408.30782 Pressure relief valves.

Rule 782. Section P-1606.3.1 of the code is amended to read as follows:

P-1606.3.1. Pressure relief valves. The valves shall have a relief rating adequate to meet the pressure conditions in the equipment served. They shall be installed in the cold water supply line to the heating equipment served, except where scale formation from hard water may be encountered, in which case they may be installed in the hot water supply line from the heating equipment served. There shall be no shut-off valve between the pressure relief valve and the tank. The pressure relief valve shall be set to open at not less than 25 p.s.i. above the street main pressure, or not less than 25 p.s.i. above the setting of any house water pressure regulating valve. The setting shall not exceed the tank working pressure. The minimum size of both the inlet and discharge connections shall be ¾-inch pipe size except that relief valves protecting water heating systems with input of not more than 15,000 BTU per hour may have inlet and discharge connections of ½-inch pipe size.

History: 1954 ACS 81, p. 105, Eff. May 19, 1975; 1954 ACS 91, p. 70, Eff. June 16, 1977.

R 408.30783 Temperature relief valves.

Rule 783. Section P-1606.3.2 of the code is amended to read as follows:

P-1606.3.2. Temperature relief valves. Temperature relief valves shall be of adequate relief rating, expresed in BTU/hr., for the equipment served. They shall be installed so that the temperature sensing element is immersed in the hottest water within the top 6 inches of the tank. The valve shall be set to open when the stored water temperature is 210 degrees Fahrenheit or less. The minimum size of both the inlet and discharge connections shall be ¾-inch pipe size except that relief valves protecting water heating systems with input of not more than 15,000 BTU per hour may have inlet and discharge connection of ½-inch pipe size.

History: 1954 ACS 81, p. 105, Eff. May 19, 1975; 1954 ACS 91, p. 71, Eff. June 16, 1977.

R 408.30784 Combination pressure-temperature relief valves.

Rule 784. Section P-1606.3.3 of the code is amended to read as follows:

P-1606.3.3. Combination pressure-temperature relief valves. Combination pressure-temperature relief valves shall comply with the applicable requirements for individual pressure and individual temperature relief valves and shall be installed so that the temperature sensing element is immersed in the hottest water within the top 6 inches of the tank. The minimum size of both the inlet and discharge connections shall be ¾-inch pipe size, except that relief valves protecting water heating systems with input of not more than 15,000 BTU per hour may have inlet and discharge connections of ½-inch pipe size.

History: 1954 ACS 81, p. 106, Eff. May 19, 1975; 1954 ACS 91, p. 71, Eff. June 16, 1977.

R 408.30785 Installation of relief valves.

Rule 785. Section P-1606.3.5 of the code is amended to read as follows:

P-1606.3.5. Installation of relief valves. A check valve or shut-off valve shall not be installed between a safety device and the hot water equipment used, nor shall there be a shut-off valve in the discharge pipe from the relief valve. Relief outlets, when connected to the building drainage system, shall be indirectly connected. A relief outlet or relief pipe shall not discharge so as to be a hazard or a potential cause of damage, or to otherwise be a nuisance. Relief piping shall be made of corrosion resistant material and shall drain continuously downward to the outlet.

Discharge tubes from relief valves shall terminate atmospherically not more than 4 inches from the floor with an unthreaded end. A discharge tube from a relief valve shall not terminate outdoors or in an unheated space.

History: 1954 ACS 91, p. 71, Eff. June 16, 1977.

R 408.30788 Drainage and vent systems.

Rule 788. Section P-1802.5.1 of the code is amended to read as follows:

P-1802.5.1. Drainage and vent systems.

1. Rough plumbing: Except for outside leaders and perforated or open jointed drain tile, the piping of plumbing drainage and venting systems shall be tested upon completion of the rough piping installation by water or air and proved watertight. The administrative authority may require the removal of any cleanout plugs to ascertain if the pressure has reached all parts of the system. Either of the following methods shall be used.

a. Water test: The water test shall be applied to the drainage system either in its entirety or in sections after rough piping has been installed. If applied to the entire system, all openings in the piping shall be tightly closed, except the highest opening, and the system filled with water to point of overflow. If the system is

tested in sections, each opening shall be tightly plugged except the highest opening of the section under test, and each section shall be filled with water, but a section shall not be tested with less than 10 foot head of water. In testing successive sections, at least the upper 10 feet of the next preceding section shall be tested, so that a joint or pipe in the building (except the uppermost 10 feet of the system) shall not have been submitted to a test of less than a 10 foot head of water. The water shall be kept in the system or in the portion under test for at least 15 minutes before inspection starts; the system shall then be tight at all points.

b. Air test: The air test shall be made by attaching an air compressor testing apparatus to any suitable opening, and, after closing all other inlets and outlets to the system, forcing air into the system until there is a uniform gauge pressure of 5 pounds per square inch (psi) or sufficient to balance a column of mercury 10 inches in height. This pressure shall be held without introduction of additional air for a period of at least 15 minutes.

2. Finished plumbing: After the plumbing fixtures have been set and their traps filled with water, their connections shall be tested and proved gas and water tight. The following test method shall be employed:

a. Final test for gas and water tightness—The final test for sewer gas and water tightness of the completed drainage system shall be made by an operational test with all fixtures operative under normal water pressure and visible to the eye of the inspector inspecting for leaks.

History: 1954 ACS 91, p. 71, Eff. June 16, 1977.

R 408.30788a Water supply system.

Rule 788a. Section P-1802.5.3 of the code is amended to read as follows:

P-1802.5.3. Water supply system. Upon completion of a section or of the entire water supply system, it shall be tested and proved tight under a pressure not less than the working pressure under which it is to be used. If water is used for tests it shall be obtained from a potable source of supply.

History: 1954 ACS 91, p. 72, Eff. June 16, 1977.

R 408.30791 Definitions.

Rule 791. As used in R 408.30791 to R 408.30796:

(a) "Authorized master plumber" means a person who has met the qualifications to obtain plumbing permits from an administrative authority.

(b) "Building sewer permit" means a permit issued by an administrative authority for a building sewer.

(c) "Plumbing permit" means a permit issued by an administrative authority for plumbing and a plumbing system.

(d) "Private sewer permit" means a permit issued by an administrative authority for a private sewer.

History: 1954 ACS 81, p. 108, Eff. May 19, 1975; 1954 ACS 91, p. 72, Eff. June 16, 1977.

R 408.30792 Authorized master plumbers.

Rule 792. (1) To obtain plumbing permits, an applicant shall:

(a) Be an authorized licensed master plumber in this state.

(b) Be active in the business of serving the public as a master plumber in a county, city, village, or township in this state.

(c) Represent only 1 firm, which may operate 1 or more branches in this state bearing the same firm name, when a licensed master plumber is in charge and has the responsibility of supervision at each branch. A firm may have 1 or more authorized master plumbers to obtain permits. The names of the authorized

master plumbers representing a firm shall be on record with the state plumbing board.

(2) To become an authorized master plumber, an application shall be made on a form furnished by the state plumbing board and filed with the board at Lansing, Michigan. An incomplete application will be returned to the applicant.

History: 1954 ACS 81, p. 106, Eff. May 20, 1975; 1954 ACS 91, p. 72, Eff. June 16, 1977.

R 408.30793 Plumbing permits.

Rule 793. (1) An applicant for a permit shall be an authorized master plumber.

(2) An application for a permit shall be made in writing on a form provided by an administrative authority. An incomplete application shall be returned to the applicant. The application shall contain:

(a) Name of authorized master plumber.

(b) Master plumber license number.

(c) Name of the plumbing firm.

(d) Name of place of business.

(e) Name and address of the owner or agent for whom the work is being done.

(f) Location of work by city or township, county, street and number, or lot and block number when street number is not available.

(g) Type of building.

(h) Number and type of fixtures or devices to be installed or nature of construction, alteration or repair.

(3) An authorized master plumber is responsible for completion of the plumbing for which he has an active permit. Permits issued to an authorized master plumber representing a plumbing firm are valid for the firm to complete the plumbing upon his death. However, work shall be done under the supervision of a master plumber.

(4) If the authorized master plumber who signs an application for a permit does not desire to do the work covered by it, either in part or in its entirety, he shall notify the administrative authority in writing, requesting that he be released from responsibility for that part of the work which he does not desire to do. However, he will be held responsible for the work which he has completed. The administrative authority's record shall indicate the extent of the completed work and the responsibility.

(5) When an emergency requires a plumbing permit, the authorized master plumber shall apply for a permit within 72 hours.

(6) An administrative authority may refuse to issue new permits to an authorized master plumber who has failed to correct violations or to any authorized master plumber representing a firm which has failed to correct violations.

History: 1954 ACS 81, p. 106, Eff. May 20, 1975; 1954 ACS 91, p. 72, Eff. June 16, 1977.

R 408.30795 Building sewer and private sewer permits.

Rule 795. (1) An application for a permit shall be made in writing on a form provided by an administrative authority. An incomplete application shall be returned to the applicant. The application shall contain:

(a) Name of the applicant.

(b) Name of the applicant's firm.

(c) Address of place of applicant's business.

(d) Name and address of the owner or agent for whom the work is being done.

(e) Location of work by city or township, county, street and number, or lot and block number when street number is not available.

(f) Type of building.

R 408.30796 Homeowner.

Rule 796. A homeowner installing his own plumbing, building sewer or private sewer and having knowledge of the plumbing code rules shall:

(a) Apply for the appropriate permit.

(b) Furnish a statement that all work will be performed by himself and by no one else.

(c) Pay the required fee.

(d) Apply for inspection by, and approval of, the administrative authority.

History: 1954 ACS 81, p. 107, Eff. May 20, 1975; 1954 ACS 91, p. 73, Eff. June 16, 1977.

PART 8. ELECTRICAL CODE

R 408.30801 National electrical code; incorporation by reference; inspection; purchase.

Rule 801. Rules governing the installation, replacement, alteration, relocation, and use of electrical systems or materials shall be those rules contained in the national electrical code, 1975 edition, as published by the national fire protection association, except as modified by these rules, with the exceptions noted. The national electrical code is incorporated in this part by reference, and is available for inspection at the Lansing office of the Michigan department of labor. The code may be purchased from the National Fire Protection Association, 470 Atlantic Ave., Boston, Mass. 02210, or from the Bureau of Construction Codes, 7150 Harris Drive, Lansing, Michigan 48926, at a cost of $5.50 each, plus mailing costs.

History: 1954 ACS 91, p. 73, Eff. Nov. 12, 1977.

R 408.30805 Rescission.

Rule 805. Rules 41 through 77 of the rules of the electrical administrative board, being R 338.1041 to R 338.1077 of the Michigan Administrative Code, are rescinded.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30806 Portion of the national electrical code not incorporated by reference.

Rule 806. Article 551, part A. recreational vehicles; except for section 551-2 and figure 551-13(c), is not incorporated in this part by reference.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30807 Title.

Rule 807. Title. This part shall be known as the Michigan electrical code, hereinafter referred to as the code.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

AMENDMENTS AND ADDITIONS TO ELECTRICAL CODE

R 408.30810 Scope.

Rule 810. Section 90-2 (a) (1) and 90-2 (b) (1) of the code is amended to read as follows:

90-2. Scope.

(a) Covered. This code covers:

(1) Electrical conductors and equipment installed within, or on, public and private buildings or other structures, including mobile homes, as well as other premises, such as yards, carnival, parking, and other lots, and industrial substations.

(b) Not covered. This code does not cover:

(1) Installations of electrical equipment in automotive vehicles, other than mobile homes, ships, watercraft, railway rolling stock, or aircraft.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30812 Enforcement.

Rule 812. Section 90-4 of the code is amended to read as follows:

90-4. Enforcement. The administrative authority shall make interpretations of the rules, deciding upon approval of listed equipment and materials, and shall grant any special permission required by these rules. In industrial establishments and in research and testing facilities, the administrative authority may waive specific requirements in this code, or may permit alternate methods, where it is assured that equivalent objectives can be achieved by establishing and maintaining effective safety and maintenance procedures.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30815 Maintenance of existing wiring.

Rule 815. Section 90-8 of the code is added to read as follows:

90-8. Maintenance of existing wiring. Every building, structure, or part thereof shall be kept in good electrical repair by the owner.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30816 Responsibility of persons.

Rule 816. Section 90-9 of the code is added to read as follows:

90-9. Responsibility of persons. A person shall not install, alter, maintain, service, or repair, or cause or permit the installation, altering, maintaining, servicing, or repairing of electrical equipment in or on any building, structure, or part thereof, or on any premises, if by the person's action the work does not conform to the provisions of the code.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30817 Disconnection of dangerous electrical equipment.

Rule 817. Section 90-10 of the code is added to read as follows:

90-10. Disconnection of dangerous electrical equipment. When the use of any electrical equipment is found imminently dangerous to human life or property, the administrative authority is hereby empowered to condemn it or disconnect it

from its source of electric supply, except that the service entrance equipment or utility service drop wires shall not be disconnected unless such entrance equipment or utility wires in themselves constitute a hazard to life or property. When such equipment is so condemned or disconnected, a red tag shall be placed thereon listing the causes for the condemnation or disconnection and the penalty under the act for the unlawful use thereof. Written notice of condemnation or disconnection, and the causes therefore, shall be given to the owner or the occupant of the building, structure, or premises. A person shall not remove the tag or reconnect the electrical equipment to its source of electric supply, or use or permit to be used electrical current in any such electrical equipment, until such causes for the condemnation or disconnection are remedied and a permit for the electrical repairs thereof is obtained from the administrative authority.

History: 1954 ACS 91, p. 74, Eff. Nov. 12, 1977.

R 408.30818 Permits and certificates.

Rule 818. Sections 90-11, 90-12, 90-13, 90-14, 90-15, 90-16, 90-17, 90-18, 90-19, and 90-20 of the code are added to read as follows:

90-11. Permits and certificates. A person shall not equip a building with electrical equipment or make an alteration of, change in, or addition to electrical equipment without receiving a written permit to do the work described. When such electrical equipment, changes, or additions thereto are found to conform to the provisions of the code, and the work has passed inspection of the administrative authority, the administrative authority shall issue a certificate of final electrical inspection upon request of the permit holder to whom the permit was issued, that the provisions of the code have been complied with. However, such certificate shall not be granted until the electrical equipment is made to conform to the code. This section shall not apply to installations referred to in R 538.887.

90-12. Persons to whom permits shall be issued:

(1) A holder of a class 1 license.

(2) A person employing a licensed electrical journeyman to actively supervise the new installation of electrical equipment on premises owned or occupied, and used, by the applicant in the conduct of his business, and at which premises the licensed electrician performs his duties in those instances where business or industrial procedure requires the regular employment of a licensed electrical journeyman. However, an affidavit form furnished by the administrative authority shall be signed by both the employer and the licensed journeyman. This affidavit shall be kept on file in the offices of the administrative authority, and shall contain the following:

(a) Name and business address of the person employing the licensed electrical journeyman.

(b) Name, address, and current license number of the licensed electrical journeyman.

(c) License numbers of 2 previous years, and the name of licensing authority in order to establish the holding of a license for not less than 2 years.

(d) Statement to the effect that the employer and the licensed electrical journeyman will comply with the provisions of the code regulating installation of electrical equipment in the state. A new affidavit shall be filed before permits are issued if the licensed electrical journeyman terminates his employment.

(3) A homeowner who comes under the jurisdiction of the code.

90-13. Permit application forms. Applications for a permit under the code shall be on forms furnished by the administrative authority and shall be signed by the electrical contractor or his authorized agent.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

90-14. Revocation of permits. A permit issued in violation of the laws of this state, or as a result of false or fraudulent information or misinterpretation of conditions, is subject to revocation at the direction of the administrative authority. The person holding the permit shall be notified to appear and show cause why the permit should not be revoked. Failure to appear shall be deemed sufficient grounds for revocation of the permit.

90-15. Lapsed and expired permits. If work for which a permit is issued is not started within 6 months of the date of issue, or if work is abandoned for a period of 6 months, the permit shall lapse and cease to be in effect. The administrative authority may reinstate an expired permit within 1 year of its date of issue. A permit which has expired, lapsed, or been abandoned 1 year or more may be reinstated only by action of the bureau of construction codes in each case.

90-16. Permit holder quitting installation. If a person to whom a permit is issued for the installation and inspection of electrical equipment quits the installation for any reason, that person shall notify the administrative authority.

90-17. Partial completion of work. If an installation is partially completed, the permit holder, upon quitting the installation, shall notify the administrative authority and request an inspection. Acceptance of, or violations against, the work installed shall be recorded by the inspector on the permit record according to the findings of the inspector. A refund shall not be granted to the permit holder of the permit fee covering electrical equipment installed and inspected.

90-18. Owner hiring another licensed contractor to complete work. If a permit holder quits an installation after the electrical equipment is installed, and fails to notify the administrative authority, the owner or his agent may notify the administrative authority and request inspection. Upon inspection, the permit holder shall be sent a notice of any violation. The owner may then secure another licensed contractor to proceed with the work, when properly covered by a permit.

90-19. Transfer of electrical permit. If the permit holder gives written permission, or appears in person with another licensed contractor and grants permission, the permit shall be transferred to the licensed contractor. If permission is not granted by the original permit holder, the licensed contractor who completes the installation shall secure a permit covering the work he does and such licensed contractor shall be responsible in either case for all work done under his supervision.

90-20. Additional permits. Additional permits shall be required as follows:

(1) If more than 1 inspection is necessary on any violation notice.

(2) For special inspections required for the investigation of a violation of the code.

(3) For additional work not included on the original permit.

History: 1954 ACS 91, p. 75, Eff. Nov. 12, 1977.

R 408.30819 Plans and specifications.

Rule 819. Section 90-21 of the code is added to read as follows:

90-21. Plans and specifications. A detailed set of plans and specifications shall be submitted with the application for an electrical permit for any wiring or alteration to the electrical system in all buildings using more than 6 circuits, except single and 2-family dwellings. The electrical drawings shall include such details as lighting layout, circuiting, switching, conductor and raceway sizes, wattage schedule, service location and riser diagram, calculations, and a proposed method of construction drawn with symbols of a standard form. All conductors are assumed to be copper, unless otherwise stated on the plan. Specifications, when

provided, shall also include the foregoing information. The selection of suitable disconnect and over current devices to provide proper coordination and interrupting capacity for a wiring system is the responsibility of the designer. The administrative authority, when approving electrical plans, assumes no responsibility for the design or for any deviations from any applicable codes not explicitly agreed upon at the time of approval of electrical drawings. Plans and specifications approved by the administrative authority, or a certified copy thereof, where required, shall be available for the use of the administrative authority, or a certified copy thereof, where required, shall be available for the use of the administrative authority on the job.

History: 1954 ACS 91, p. 76, Eff. Nov. 12, 1977.

R 408.30820 Representative on job site.

Rule 820. Section 90-22 of the code is added to read as follows:

90-22. Representative on job site. The administrative authority reserves the right to require a representative of the contractor to be on the job when an inspection is made.

History: 1954 ACS 91, p. 76, Eff. Nov. 12, 1977.

R 408.30821 Safeguarding electrical equipment.

Rule 821. Section 90-23 of the code is added to read as follows:

90-23. Safeguarding electrical equipment. Electrical contractors shall not install electrical equipment that may be damaged by exposure or construction.

History: 1954 ACS 91, p. 76, Eff. Nov. 12, 1977.

R 408.30822 Scheduling inspection.

Rule 822. Sections 90-24, 90-25, and 90-26 of the code are added to read as follows:

90-24. Scheduling inspection. Not less than 24 hours' notice shall be given the administrative authority before inspection is required.

90-25. Inspection notices. Any notice of inspection of electrical equipment shall be posted, or removed, at the job site by the administrative authority only.

90-26. Inspection before concealing. A person shall not conceal, or cause to be concealed, any electrical equipment before such equipment is approved by the administrative authority.

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30823 Inspection and copying of records.

Rule 823. Section 90-27 of the code is added to read as follows:

90-27. Inspection and copying of records. Upon request in writing, the administrative authority shall make available for public inspection and copying, during its business hours, final orders or decisions in contested cases and the records on which such orders or decisions were made. Advance notice is required where these records are stored outside the immediate office area. Promulgated rules and written statements which interpret law, rules, or policy shall be available upon request during business hours. The administrative authority may charge not more than cost for each copy of any document.

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30824 Methods of obtaining information.

Rule 824. Section 90-28 of the code is added to read as follows:

90-28. Methods of obtaining information. The administrative authority is not responsible for code interpretations or other information relative to electrical installations given over the telephone. Requests for such information shall be made in person or in writing.

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30825 Advertising.

Rule 825. Section 90-29 of the code is added as follows:

90-29. Advertising. A person shall not use any word or words in a sign, display, business form or document, or advertising medium which indicates, or tends to indicate, that a person is qualified to supervise, install, repair, replace, remove, or service any electrical equipment which requires a permit or inspection, or both, pursuant to these rules from the administrative authority, unless such is uttered, published, or displayed by authority of a licensed electrical contractor (class 1 licensee).

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30826 Violations.

Rule 826. Section 90-30 of the code is added to read as follows:

90-30. Violations. If it is found that any electrical equipment does not conform to the provisions of the code, the person installing or responsible for installing such electrical equipment shall be notified in writing of such defect, misuse, or violation, and all such violations, defects, or misuses of such electrical equipment shall be corrected within a reasonable length of time, not to exceed 10 working days. When the corrections have been made, that person shall notify the administrative authority in writing not less than 24 hours prior to the time reinspection is desired. Any person failing to make correction of a violation within the time specified herein shall be denied the right to file any further permits to do electrical work until the corrections are made.

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30830 Definitions.

Rule 830. Article 100, part A, of the code is amended to read as follows:

"Administrative authority defined." "Administrative authority" means the individual official, board, department, agency established and authorized by a state, county, city, or other political subdivision created by law to administer and enforce the provisions of the electrical code as adopted or amended. (All other definitions within article 100, part A, of the code shall remain the same.)

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30865 Nonmetallic sheathed cable; uses permitted or not permitted.

Rule 865. Section 336-3 is amended to read as follows:

336-3. Uses permitted or not permitted. Type NM and type NMC cables shall be permitted to be used in 1- and 2-family dwellings, or multi-family dwellings and other structures.

(a) Type NM. This type of nonmetallic-sheathed cable shall be permitted to be installed for both exposed and concealed work in normally dry locations. It shall be permissible to install or fish type NM cable in air voids in masonry block or tile walls where such walls are not exposed or subject to excessive moisture or dampness.

Type NM cable shall not be installed where exposed to corrosive fumes or vapors; nor shall it be embedded in masonry, concrete, fill, or plaster; nor run in a shallow chase in masonry or concrete and covered with plaster or similar finish.

(b) Type NMC. Type NMC cable shall be permitted for both exposed and concealed work in dry, moist, damp, or corrosive locations, and in outside and inside walls of masonry block or tile.

(c) Uses not permitted for either Type NM or NMC. Types NM and NMC cables shall not be used as: (1) service-entrance cable, (2) in commercial garages, (3) in theaters and similar locations, except as provided in article 518, places of assembly, (4) in motion-picture studios, (5) in storage battery rooms, (6) in hoistways, (7) in any hazardous location, (8) embedded in poured cement, concrete, or aggregate.

History: 1954 ACS 91, p. 77, Eff. Nov. 12, 1977.

R 408.30880 Circuits in anesthetizing locations.

Rule 880. Section 517-63(f) is amended to read as follows:

517-63(f). Circuits in anesthetizing locations. (1) A general purpose lighting circuit connected to the normal grounded service shall be installed in each operating room. Exception: Where connected to any alternate source permitted in 700-6 which is separate from the source serving the emergency system.

History: 1954 ACS 91, p. 78, Eff. Nov. 12, 1977.

PART 9. MECHANICAL CODE

R 408.30901 Applicable code.

Rule 901. The Michigan rules governing the construction, alteration, relocation, demolition, use, and occupancy of buildings and structures shall be those contained in the BOCA basic mechanical code, 1978 edition, including appendices A to E on pages 273 to 288, with the exception of the BOCA basic building code, 1978 edition, BOCA basic plumbing code, 1978 edition, national electrical code, 1978 edition, and sections M-109.3, M-110.6.1, M-114.2, M-114.3, M-121.0, M-122.0, M-122.1, M-122.2, M-122.2.1, M-122.2.2, M-122.2.3, M-122.2.4, M-122.2.5, M-122.3, M-122.4, M-122.4.1, M-122.4.2, M-122.4.3, M-122.5, M-122.5.1, M-122.5.2, M-122.5.3, M-122.5.4, and M-122.6; the definition of fire department in section M-201.0, M-300.12, M-301.3.3, M-301.3.4, table M-301.4, M-301.5.1, M-302.7.3, table M-303, M-303 to M-303.2, M-307.5.1, M-311.2.1, M-311.3.1, M-312.2.1, M-312.2.2, M-316.6.2, M-316.6.3, M-317.11, M-317.11.1, M-317.11.2, M-317.11.2.1, M-317.11.2.2, table M-317.11, M-317.11.3, M-317.11.4, M-318.1, M-320.1 to M-320.2.2, M-321.2 to M-322.1, M-323.4.4, M-324.2.2, M-324.3.1 to M-324.3.5, M-326.1.4, M-327.3, M-400.10, M-405.1.1, M-405.1.2, M-405.5, M-405.5.1, M-405.5.2, M-406.2, M-406.3, M-407.2 to M-407.2.3, M-409.8, M-409.12.5, M-409.12.6, M-410.4.3, M-419.0 to M-419.5, M-420.6.2 to M-422.1, M-423.1 to M-423.3, M-500.2 to M-503.1, M-601.1.3, M-601.1.7, figure M-602.7, M-603.1.1 to M-603.1.7, tables M-603.1 and M-603.1.1, M-605.2, M-609.4, M-609.9, M-613.2, M-623.2, M-624.14, M-624.15.2, M-624.17, M-624.18, M-624.21, M-624.23, M-624.23.1, M-624.24.2, M-624.24.3, M-624.27, M-625.4, M-625.7.1, M-702.10, M-902.3.1, M-1101.0 to M-1122.1; and, with exception noted; it is incorporated herein by reference. The code is available for inspection at the Lansing office of the Michigan department of labor, bureau of construction codes. The code may be purchased from the Building Officials and Code Administrators International, Incorporated, 17926 South Halstead Avenue, Homewood, Illinois 60430, or from the Michigan Department of Labor, Bureau of Construction Codes, State Secondary Complex, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $17.00 each.

AMENDMENTS AND ADDITIONS TO BASIC MECHANICAL CODE

R 408.30906 Title; purpose and intent.

Rule 906. Sections M-100.1, M-100.2, and M-100.3 of the code are amended to read as follows:

M-100.1. Title: This code shall be known as the mechanical code of the state of Michigan, hereinafter referred to as the "mechanical code" or "this code."

M-100.2. Scope: The design installation, maintenance, alteration, and inspection of mechanical systems, including heating systems, ventilating systems, cooling systems, steam and hot water heating systems, process piping, boilers and pressure vessels, appliances utilizing gas, liquid or solid fuel, chimneys and vents, mechanical refrigeration systems, fireplaces, barbecues, incinerators, crematories, fire suppression systems, air pollution control systems, and systems utilizing solar or geothermal energy as an energy source shall comply with the requirements of this code.

M-100.3. General: It is the purpose and intent of this code to establish standards in terms of performance objectives, implemented by specific requirements, which provide reasonable safeguards to protect the public health and safety against the hazards of inadequate, defective, or unsafe mechanical installations.

History: 1954 ACS 101, p. 89, Eff. Apr. 5, 1980.

R 408.30907 Construction.

Rule 907. Section M-101.4 of the code is amended to read as follows:

M-101.4. Other regulations: Nothing in this code shall be construed to prevent the enforcement of state statutes or administrative rules which prescribe mechanical standards other than are provided herein.

History: 1954 ACS 101, p. 90, Eff. Apr. 5, 1980.

R 408.30908 Applicability; existing mechanical systems.

Rule 908. Section M-103.1 of the code is amended to read as follows:

M-103.1. General: This code also shall apply to existing mechanical systems, provided that existing mechanical systems may be continued in use without change, but subject to periodic inspections regulated by this code where such systems basically conform to standards of this code and present no apparent danger to life, limb, or property through methods of installation or operation. This code also applies to the following existing mechanical systems as if hereafter installed:

1. Mechanical systems in a building occupied for occupancies or uses other than those for which it was occupied at the time this code became applicable.

2. Mechanical systems in a building moved within jurisdictional limits subject to this code.

History: 1954 ACS 101, p. 90, Eff. Apr. 5, 1980.

R 408.30909 Adoption by reference; code requirements; listed appliances.

Rule 909. Section M-108.4.1 of the code is amended, and sections M-108.4.4 and M-108.4.5 are added, to read as follows:

M-108.4.1. Approval: Approval for the use of new materials shall be in accordance with section 21 of the act.

M-108.4.4. General: All of the nationally recognized standards referred to and appearing in the text and appendices of the BOCA basic mechanical code, 1978 edition, are hereby adopted by reference and incorporated into these rules.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

However, the requirements listed in each section of this code take precedence over the standards. These rules are sometimes hereinafter referred to as this code. All portions of mechanical systems installed and maintained in accordance with the regulations, specifications, standards, materials, equipment, systems, or method of construction therein specified shall be deemed to meet the purpose and intent of this code.

M-108.4.5. Listed appliances: When the requirements for listed appliances and their accessories are less restrictive or more restrictive than the requirements of this code, such listed appliances may be installed in accordance with the conditions specified in their listing. Listed appliances and their accessories installed or used not according to the conditions specified in their listing and all appliances not listed shall conform to the requirements of this code.

History: 1954 ACS 101, p. 90, Eff. Apr. 5, 1980.

R 408.30910 Duties and powers of the mechanical official.

Rule 910. Section M-110.6 of the code is amended to read as follows:

M-110.6. Rule making authority: New rules shall be promulgated in accordance with section 6 of the act.

History: 1954 ACS 101, p. 90, Eff. Apr. 5, 1980.

R 408.30911 Work permit; submitting plans and specifications to authority.

Rule 911. Sections M-111.1 and M-111.1.1 of the code are amended, and section M-111.4.1 is added, to read as follows:

M-111.1. Permits required: Mechanical work shall not be commenced until a permit for such work has been issued by the administrative authority, except in case of emergency. A mechanical permit is not transferable.

M-111.1.1. Permits not required: A permit is not required for any of the following:

1. A portable heating appliance.
2. Portable ventilation equipment.
3. A portable cooling unit.
4. Steam, hot, or chilled water piping within any heating or cooling equipment regulated by this code.
5. Replacement of any part that does not alter its approval or make it unsafe.
6. A portable evaporative cooler.
7. A self-contained refrigerating system containing 10 pounds or less of refrigerant or actuated by motors of 1 horsepower or less.
8. A boiler or pressure vessel for which a permit is required by sections 17 and 18 of Act No. 290 of the Public Acts of 1965, as amended, being §§408.767 and 408.768 of the Michigan Compiled Laws, administered by the Michigan department of labor.

M-111.4.1. Examination of plans: All plans and specifications required to be submitted shall be examined by the administrative authority to determine conformance with the provisions of this code after the application has been filed and the application fee paid in accordance with section M-114.0.

When plans and specifications of unusual design or magnitude of construction are filed, the administrative authority may refer such plans and specifications to building officials and code administrators international or the Michigan construction code commission for advice and recommendations as to their safety of design and compliance with this code.

History: 1954 ACS 101, p. 90, Eff. Apr. 5, 1980.

R 408.30912 Fees.

Rule 912. Section M-114.1 of the code is amended to read as follows:

M-114.1. General: A permit to begin work for new construction, alteration, removal, demolition, or other building operation shall not be issued until the fees prescribed by section 22 of the act have been paid to the enforcing agency or other authorized agency of the jurisdiction, nor shall an amendment to a permit necessitating an additional fee be approved until the additional fee has been paid.

History: 1954 ACS 101, p. 91, Eff. Apr. 5, 1980.

R 408.30913 Inspections.

Rule 913. Section M-115.1 of the code is amended, and section M-115.1.1.1 is added, to read as follows:

M-115.1. General: All equipment for which a permit is required under this code shall be inspected or approved by the administrative authority, except as otherwise specified in article 5. Any portion of equipment intended to be concealed by any permanent portion of the building shall not be concealed until inspected and approved by the administrative authority. When installation of any equipment is complete, a final inspection shall be made.

M-115.1.1.1. Inspection approval and denial: An inspection approval may, upon notice, be revoked by the administrative authority if it is found that the equipment fails in any respect to conform to the requirements of this code, or that the equipment is unsafe, dangerous, or a hazard to life or limb. The administrative authority may accept inspection certificate reports from an approved quality control and inspection agency in lieu of on-site inspection when on-site inspection is impractical. See article 5 for periodic inspection of boilers and pressures.

History: 1954 ACS 101, p. 91, Eff. Apr. 5, 1980.

R 408.30914 Notice of violations.

Rule 914. Sections M-117.1 and M-117.4 of the code are amended to read as follows:

M-117.1. Unlawful acts: It shall be unlawful for any person, firm, or corporation to erect, construct, alter, repair, remove, demolish, or operate mechanical equipment regulated by this code, or cause same to be done, contrary to, or in conflict with, or in violation of, any of the provisions of this code or the act.

M-117.4. Violation penalties: Prohibited acts and penalties shall be in accordance with section 23 of the act.

History: 1954 ACS 101, p. 91, Eff. Apr. 5, 1980.

R 408.30915 Stop-work order.

Rule 915. Sections M-118.1 and M-118.2 of the code are amended to read as follows:

M-118.1. Notice to owner: Upon notice from the mechanical official that work on any building or structure is being prosecuted contrary to the provisions of this code or in an unsafe and dangerous manner, such work shall be stopped in accordance with section 12 of the act.

M-118.2. Unlawful continuance: Any person who shall continue such work in or about the structure after having been served with a stop-work order, except such work as he is directed to perform to remove a violation or unsafe conditions, shall be subject to penalty provisions under section 23 of the act.

History: 1954 ACS 101, p. 91, Eff. Apr. 5, 1980.

R 408.30916 Definitions.

Rule 916. Section M-201.0 of the code is added or amended to read as follows:

(1) The following defined terms, appearing in section M-201.0 of this code, are amended to read as follows:

(a) "Air conditioning" means the process of treating air to meet the requirements of the conditioned space by controlling simultaneously its temperature, humidity, cleanness, and distribution.

(b) "Air conditioning system" means an interrelated assembly of appliances and equipment, usually consisting of heat exchangers, blowers, filters, supply, exhaust and return air ducts, including all apparatus installed in connection therewith.

(c) "Approved" means that which the administrative authority designates acceptable as a device, apparatus, or method which, by demonstration or test, or both, has proved workable and safe for its intended use. Construction and testing to nationally recognized standards as listed herein or certificates of compliance from the manufacturer may constitute the basis for acceptability.

(d) "Baffle" means any construction intended to change the direction of flow of a liquid or gas.

(e) "Damper" means a manually or automatically controlled device to regulate draft or the rate of flow of air or combustion gases.

1. Backdraft damper (shutter): A device which, when mounted in a duct or opening, permits the flow of air in 1 direction only. It is normally opened by the energy of the air stream, but may be opened or closed, or both, by external mechanical means.

2. Barometric: See "Draft regulator."

3. Butterfly: A plate or blade installed in a duct, breeching, or flue connection which rotates on an axis.

4. Guillotine: An adjustable blade installed vertically in a breeching, or flue connection usually counter-balanced for easy operation.

5. Sliding: An adjustable blade installed in a duct, breeching, or flue connection.

6. Fire: See "Fire damper."

(f) "Furnace, floor" means a self-contained connected or vented furnace designed to be supported from the floor or the space being heated with a means for observing the flame and lighting the appliance from the space being heated.

(g) "Gas" means an aeroform fluid, having neither independent shape nor volume, which has weight, occupies space, tends to expand indefinitely, and which can be changed to a liquid or a solid state only by increasing pressure with decreased or controlled temperature or by decreasing temperature with increased or controlled pressure. The word shall include natural gas, manufactured gas, mixed gas, or liquefied petroleum products with BTU content based on the altitude at which the gas is to be consumed.

(h) "Heater radiant" means a space heater utilizing a ceramic, stainless steel, clayback or equivalent as a radiating medium, utilizing the principle of transmitting heat through space by wave motion; the passage of heat from one object to another without warming the air space between.

(i) "Heater, room (space)" means a heating unit for direct heating of the space in and adjacent to that in which the unit is located without external heating pipes or ducts.

(j) "Noncombustibles" means materials which have a flame spread of 25 or less and a smoke developed rating of 50 or less when tested in accordance with the "Standard Test Method for Fire Hazard Classification of Building Materials," underwriters laboratories, 723, 1971 edition.

(k) "Pressure vessel" means a tank, vessel, or receptacle, other than a boiler, pressure piping, or machined part for the keeping, transfer, or use under pressure either steam, vapor, compressed air, gas, or liquid. See section M-801.0 for definition of pressure vessels used in refrigerating systems.

(l) "Rating input" means the gross amount of fuel or energy measured in BTUH, watts, or joules per hour that can be safely burned, or utilized by, an appliance at a given altitude.

(m) "Supply air system" means an assembly usually consisting of connected ducts, plenums, fittings, registers, and grilles through which air is conducted from the supply unit to the space or terminal point of use. See also "Return air system."

(n) "Tempered air" means air heated before distribution.

(o) "Unit system" means a self-contained system which has been assembled and tested at the factory prior to its installation and containing the functional elements indicated by its name, such as air conditioning unit, room cooling unit, humidifying unit, and heating unit.

(p) "Ventilation" means the process of supplying ventilation air to any space by natural or mechanical means. Provisions shall be made for simultaneous removal of air from the space.

(2) The following defined terms, appearing in section M-201.0 of this code, are added to read as follows:

(a) "Air, exhaust" means air removed from a space and not reused.

(b) "Air, outdoor" means air taken from outdoors and therefore not previously circulated through the system.

(c) "Air, recirculated" means return air again supplied to the space.

(d) "Air, returned" means air removed from a space and recirculated or exhausted.

(e) "Air, supply" means that air delivered to each or any space in the system or the total delivered to all spaces in the system, which is used for ventilating, heating, cooling, humidification, dehumidification, and other similar uses.

(f) "Air, ventilation" means that portion of supply air which comes from outside (outdoors) plus any recirculated air that has been treated to maintain the desired quality of air within a designated space. See section M-317.1.1.

(g) "BTU" means British thermal units.

(h) "BTU/hr." means British thermal units per hour.

(i) "Catwalk" means a narrow walkway.

(j) "CFH" means cubic feet per hour.

(k) "CFM" means cubic feet per minute.

(l) "°" means degree.

(m) "Direct wall vent furnace." See "Furnace."

(n) "Duct, air" means a tube, conduit, or passageway made of sheet metal or other approved materials, not necessarily airtight, used for conveying air or other gases from one location to another.

(o) "Equipment" means all mechanical or electrical appliances, apparatus, devices, or components of any mechanical system.

(p) "Exfiltration" means airflow outward through cracks in interstices, around windows and doors, and through floors and walls of the space or building.

(q) "F." means Fahrenheit.

(r) "Ft." means feet or foot, whichever is applicable.

(s) "Furnace, direct vent wall" means a system consisting of an appliance, combustion air, and flue gas connections between the appliance and the outside atmosphere, and a vent cap supplied by the manufacturer and constructed so that all air for combustion is obtained from the outside atmosphere and all flue gases are discharged to the outside atmosphere.

(t) "Gals./hr." means gallons per hour.

(u) "Hr." means hour.

(v) "In." means inch.

(w) "Infiltration" means the inward air leakage through cracks and interstices, around windows, doors, and through floors and walls of the space or building.

(x) "LPG" means liquefied petroleum gas.

(y) "May" means that which is permissive and not mandatory.

(z) "Mechanical exhaust system" means a system for removing air from a room or space by mechanical means.

(aa) "Mechanical supply system" means a system for forcing air into a room or space by mechanical means.

(bb) "Natural ventilation" means the movement of air into and out of a space through intentionally provided openings, such as windows and doors or through nonpowered ventilators.

(cc) "Occupancy use group." See sections 202 and 203 of the building code.

(dd) "Psig" means pounds per square inch gauge.

(ee) "Shall" means that which is mandatory and not discretionary.

(ff) "Should" means that which is permissive and not mandatory.

(gg) "Ventilation air." See "Air, ventilation."

(hh) "W.C." means water column.

(ii) "Zero governor" means a regulating device that is normally adjusted to deliver gas at atmospheric pressure within its flow rating.

History: 1954 ACS 101, p. 92, Eff. Apr. 5, 1980.

R 408.30917 Heating, ventilating, and air conditioning.

Rule 917. Sections M-300.1, M-300.4, M-300.8, M-300.9, M-300.13.1, M-300.13.5, and M-300.14 of the code are amended, and sections M-300.5.1, M-300.13.10, and M-300.16 are added, to read as follows:

M-300.1. Scope: The provisions of this article shall govern the construction, installation, alteration, maintenance, and repair of all warm air furnaces, such as oil-burning, solid fuel-burning, gas-burning, and liquefied petroleum gas-burning equipment, electrical appliances, and appliances utilizing solar or geothermal energy as an energy source for air heating, ventilating, air conditioning, and air pollution control, and blower and exhaust appliances and systems.

M-300.4. Type of fuel: An appliance shall not be converted from the fuel use intended to a different fuel without conforming to the appliance, burner manufacturer's, or registered professional engineer's instructions, or as approved by the department for the fuel to be used.

M-300.5.1. Floor-mounted appliances or equipment without legs or protective bases installed in locations, such as, but not limited to, basements, equipment rooms, utility rooms, machinery rooms, or boiler rooms, which are subject to flooding, floor washing, or other wet conditions, shall be mounted on a minimum 1 inch high nonflammable housekeeping pad to prevent deterioration by moisture corrosion, unless exempted by the department.

M-300.8. Temporary heating during construction: Fuel-fired heaters for temporary heating during construction shall be of a type approved by the department and operated in a safe manner. All heating equipment, other than approved portable units used during construction, shall be wired and operated so that all controls function in a normal manner.

M-300.9. Guards: Pulleys, belts, and similar equipment shall be provided with a protective guard.

M-300.13.1. Liquid fuel-burning appliances having an integral or directly attached fuel tank shall not be installed unless approved by the administrative authority.

M-300.13.5. Furnace cement shall not be used for the repair of heat exchangers. Furnace cement may be used for the sealing of joints where required for case iron heat exchangers. Welding repair of heat exchangers shall be in accordance with the manufacturer's recommendations or as approved by the administrative authority.

M-300.13.10. Floor flooding: Floor registers and wall registers, where the lower edge of the wall register is less than ½ inch above the room floor or door threshold, whichever is higher, shall not be allowed in toilet rooms, bathrooms, washrooms, laundry rooms, utility rooms, basements, or in any room so equipped that floor flooding may become a possibility or where chemicals or other contaminants may enter the ducts.

M-300.14. Fuel-fired heat exchangers: Where all or a portion of the ventilating air entering a heat exchanger is taken directly from the outside at winter design temperature, the heat exchanger through which such air passes shall be constructed of an approved noncorrosive material unless provisions are made to assure a mixture temperature of not less than 55 degrees Fahrenheit, or as approved by the manufacturer.

M-300.16. Bonnets, plenums, or fittings for furnaces shall be extended at least the full size of the furnace discharge opening for a distance of 18 inches from the furnace casing, or for a distance required to insure proper air flow.

History: 1954 ACS 101, p. 94, Eff. Apr. 5, 1980.

R 408.30918 Warm-air heating, ventilating, and air conditioning systems; all occupancies except 1- and 2-family dwellings.

Rule 918. Sections M-301.3.1, M-301.4, M-301.4.1, M-301.4.2, M-301.10.2, M-301.11, M-301.12.1, M-301.12.4, M-301.12.6, M-301.13.2, and M-301.14 of the code are amended, and section M-301.11.1 is added, to read as follows:

M-301.3.1. Fuel-fired heat exchangers shall not be located downstream from a cooling unit unless the equipment is accepted for such use by a nationally recognized testing or inspection agency, the manufacturer, or the administrative authority.

M-301.4. Duct construction: Duct construction shall conform to the provisions of the following sections:

M-301.4.1. Ducts and plenums may be constructed of approved material in accordance with their approval and the applicable standards listed in appendix B. Aluminum ducts shall not be used for commercial kitchen rangehood exhausts or in systems where air entering the duct is over 250 degrees Fahrenheit unless approved by the administrative authority.

M-301.4.2. Ducts or plenums may be of independent construction or may be formed by parts of the building structure itself, such as, but not limited to, cavity walls, concrete tunnels, and ceiling plenum spaces, if constructed of sheet metal or other approved materials similar in structural rigidity and if substantially airtight. See section M-300.6. Duct work located outdoors and exposed to the elements shall be made watertight unless approved by the administrative authority.

M-301.10.2. For additional requirements, see section M-612.

M-301.11. Fire dampers: Except when proper fire tests have shown that fire dampers are not necessary to maintain the integrity of the fire-resistance rated assembly, fire dampers complying with the standards listed in appendix B and in R 29.1 to R 29.298 of the Michigan Administrative Code, as promulgated pursuant

to Act No. 207 of the Public Acts of 1941, as amended, being §29.1 et seq. of the Michigan Compiled Laws, and administered by the Michigan department of state police, fire marshal division, shall be installed in the locations listed below:

1. Ducts penetrating a required fire wall. When a fire wall is of 3 hour or greater fire endurance, a fire door is required.
2. Ducts passing through a required fire separation wall.
3. Ducts penetrating a required fire-resistance rated shaft wall. Subducts extending 22 inches vertically upward may be used in lieu of fire dampers for exhaust ducts.
4. Ducts penetrating the ceiling of a required fire-resistance rated floor/ceiling assembly or roof/ceiling assembly.
5. Ducts penetrating a required fire-resistance rated corridor or walls.

M-301.11.1. Location: The designer of an air duct system shall show on the plans the location of all automatic fire doors and fire dampers as required by code.

M-301.12.1. Outside air intake openings for ventilating air shall be located not less than 10 feet, measured in any direction, from any flues, vents, chimneys, gas meters, gas regulators, streets, alleys, parking lots, loading docks, or other hazardous or noxious sources.

M-301.12.4. Where outside ventilating air intake and exhaust openings are located in any areaway below grade, the top of the areaway shall be not less than 12 inches above the grade level. Ventilating air intake shall be not less than 12 feet, measured horizontally from the edge of the traveled portion of any street, alley, or parking lot.

M-301.12.6. All outside air intake and exhaust openings shall be protected against water entering the system when it will cause damage.

M-301.13.2. Where mechanical ventilation is required by this code, controls shall be provided so that the minimum ventilation air requirements are maintained continuously during periods of occupancy. This is not intended to preclude the use of variable air volume systems or systems which regulate the ventilation air to match the varying occupancy loads.

M-301.14. Negative pressure affecting combustion: Ventilation systems shall be designed and installed so that negative pressure from the ventilation system cannot affect the air supply for combustion, nor draw products of combustion from appliances, vents, or fireplaces. See sections M-317.1.6, M-317.1.7, and M-624.4.1.

History: 1954 ACS 101, p. 94, Eff. Apr. 5, 1980.

R 408.30919 Warm-air heating, ventilating, and air conditioning systems in 1- and 2-family dwellings.

Rule 919. Sections M-302.2.3, M-302.2.4, M-302.2.5, M-302.3, M-302.5, M-302.7.1, and M-302.7.4 of the code are amended, and section M-302.2.8.1 is added to read as follows:

M-302.2.3. Joints and seams of supply and return ducts shall be securely fastened and so constructed as to be substantially airtight. Round pipe slip joints shall have a lap of at least 1 inch, and each joint shall be individually fastened in an approved manner. Tape, if used for sealing joints, shall be of an approved material having a maximum flame spread rating of 25 and a maximum smoke developed rating of 50.

M-302.2.4. Supports and hangers for ducts shall be provided as necessary to prevent sagging and to secure the ducts in their place, and shall consist of strips or rods of metal or other approved material attached to joists or other framing

members. Nails shall not be driven through fittings or ducts at any point. Lugs or straps shall not be formed by cutting holes in fittings or ducts.

M-302.2.5. The panning of joists or studs for return air ducts shall be of hot-dipped galvanized sheet metal at least no. 32 gage or no. 28 B & S gage aluminum or other approved material.

M-302.2.8.1. Air balance devices: Adequate air balancing devices shall be installed in the system to insure proper adjusting of the air system.

M-302.3. Appliance settings and controls: See article 6 and article 8.

M-302.5. Private garage heating: The discharge opening of warm air ducts extending from any dwelling to its attached garage shall be not less than 6 feet 6 inches from the floor of the garage. Outside air shall be supplied to the return air system through a duct having a capacity equal to, or greater than, the capacity of the garage warm air supply. The supply duct shall be provided with a backdraft damper and a fire damper of approved design.

M-302.7.1. A fuel-fired heat exchanger shall not be located downstream from a cooling unit unless the equipment is accepted for such use by a nationally recognized testing or inspection agency, the manufacturer, or the administrative authority.

M-302.7.4. Fuel-fired appliances may be installed in a private garage provided that the burners and pilots are not less than 18 inches above the floor. Direct vent wall heaters may be located within a private garage. The appliances shall be located or reasonably protected so that it is not subject to physical damage by a moving vehicle.

History: 1954 ACS 101, p. 96, Eff. Apr. 5, 1980.

R 408.30920 Clearances and controls.

Rule 920. Section M-304.0 of the code is amended to read as follows:

M-304.0. Clearance and controls: See article 6.

History: 1954 ACS 101, p. 96, Eff. Apr. 5, 1980.

R 408.30921 Heating appliances located in attic spaces.

Rule 921. Sections M-305.0, M-305.1, M-305.2.2, and M-305.3.3 of the code are amended to read as follows:

M-305.0. Heating appliances located in attic spaces.

M-305.1. Installation: Heating appliances shall not be installed in attic or attic spaces unless approved for installation in such space. Liquefied petroleum gas-fired appliances shall not be installed in attics or furred spaces, unless such spaces are provided with an approved means for removal of unburned gas. All heating appliances shall be provided with a means of shutting off the heating energy, such as, but not limited to, electric, gas, and oil, at a readily accessible location within the living space on the first floor level of the dwelling or at the meter. Shutting off the energy shall not require a tool.

M-305.2.2. The entrance to the access passageway shall be located not more than 20 feet from the furnace unless otherwise approved by the administrative authority.

M-305.3.3. An attic furnace platform shall not bear on or contact the ceiling joists unless such platform is protected as provided in section M-305.3.2, and the joists are designed for such loads. If supported by the roof joists, the design live and dead load shall not be exceeded. The furnace shall be provided with at least 1 inch ventilated clearance from the bottom of the unit to the nonflammable platform. For clearance to combustible materials, see section M-612.

R 408.30922 Roof-mounted appliances.

Rule 922. Sections M-306.1 and M-306.2.3 of the code are amended to read as follows:

M-306.1. General: In addition to the other provisions of this article, a roof-mounted appliance shall conform to the following requirements.

M-306.2.3. An appliance shall have an accessible 110-120 volt grounding-type convenience outlet on the roof within 25 feet of the appliance.

History: 1954 ACS 101, p. 96, Eff. Apr. 5, 1980.

R 408.30923 Heating appliances located in crawl spaces.

Rule 923. Sections M-307.0, M-307.1, M-307.2, M-307.3 and M-307.5.2 are amended, and section M-307.3.1 is added, to read as follows:

M-307.0. Heating appliances located in crawl spaces.

M-307.1. Crawl space: A minimum height of 36 inches shall be maintained at the appliance, access routes, and required system service points from the ground level to the bottom of the floor structural system above.

M-307.2. Clearance: For clearance to combustible materials see section M-612. Bonnets, plenums, or fittings for furnaces shall be extended at least the full size of the furnace discharge opening for a distance of 18 inches from the furnace casing, or for a distance required to insure proper air flow.

M-307.3. Installation: A heating appliance on grade shall be placed on a concrete slab not less than 4 inches in thickness or equivalent nonflammable base, and such base shall be above the level of the surrounding ground in the crawl space. The slab shall be constructed to extend not less than 6 inches on all sides of the heating appliance.

M-307.3.1. A heating appliance shall be provided with a means of shutting off the heating energy, such as, but not limited to, electric, gas, and oil at a readily accessible location within the living space on the first floor level of the dwelling or at the meter. Shutting off the energy shall not require a tool.

M-307.5.2. An access opening shall be provided, and the heating appliance shall be located not more than 20 feet therefrom.

History: 1954 ACS 101, p. 96, Eff. Apr. 5, 1980.

R 408.30924 Floor furnaces in 1- and 2-family dwellings.

Rule 924. Section M-308.1 of the code is amended, and section M-308.1.1 is added, to read as follows:

M-308.1. A floor furnace shall not be installed except for replacement only. Only furnaces that are approved for service with direct contact with combustible floors may be installed. A floor furnace shall be installed in accordance with its listing or in accordance with sections M-308.1.1 to M-308.4.2.

M-308.1.1. A flat floor furnace shall be installed not less than 6 inches from a wall. A wall register floor furnace shall be installed not less than 6 inches from an inside room corner.

Exception: Replacement floor furnaces of the same or lesser input rating may be installed in the original location as approved by the department.

History: 1954 ACS 101, p. 97, Eff. Apr. 5, 1980.

R 408.30925 Service stations; heating appliances.

Rule 925. Sections M-310.2, M-310.3, and M-310.4 of the code are amended to read as follows:

M-310.2. Location of heating appliances: Heating appliances that are installed in service stations shall be located not less than 18 inches from the floor to the

bottom of the burner or pilot of the unit, and not less than 8 feet from the floor in the lube area unless approved by the department. A heating appliance shall not be located below grade.

M-310.3. Bonnets, plenums, or fittings for furnaces shall be extended at least the full size of the furnace discharge opening for a distance of 18 inches from the furnace casing, or for a distance required to insure proper air flow.

M-310.4. Ducts: Return air and supply air shall be provided to the furnace through approved ducts. Duct construction shall be in accordance with SMACNA-76, "Low Pressure Duct Construction Standard," the standard of the sheet metal and air conditioning contractors' national association, incorporated, which is incorporated herein by reference. This standard may be purchased from Sheet Metal and Air Conditioning Contractors' National Association, Incorporated, 8224 Old Courthouse Road, Tysons Corner, Vienna, Virginia 22180, at a cost of $20.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $20.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 97, Eff. Apr. 5, 1980.

R 408.30926 Space, recessed, and through-the-wall heaters.

Rule 926. Sections M-311.0, M-311.1, M-311.1.1, M-311.1.2, M-311.2.2, and M-311.3.4 of the code are amended to read as follows:

M-311.0. Space, recessed, and through-the-wall heaters.

M-311.1. General: Space, recessed, and through-the-wall heaters shall not be installed as a central heating system unless listed and approved by a nationally recognized agency for such use or as otherwise approved by the department.

M-311.1.1. For flameguard requirements, see section M-609.2.1.

M-311.1.2. A space heater shall be installed so as not to cause a fire hazard to walls, floors, curtains, furniture, open doors, or to the free movement of persons within the room. See article 6 for clearances.

M-311.2.2. Combustion air intakes or vents, or both, shall be located on the exterior of the building, and such openings shall be not less than 12 inches above the exterior finished grade. When such heaters are located in garages or accessory use buildings where motor-driven vehicles or devices utilizing volatile liquids are housed or stored, combustion air openings and vents shall be located not less than 18 inches from the exterior finished grade, and the interior pilot light access opening shall be located not less than 18 inches from the finished floor. Where combustion air intake openings are located immediately adjacent to a driveway, the exterior 18-inch height requirements shall apply. The equipment shall be protected from any type of mechanical injury from vehicular traffic. Vents from such heaters shall not be located within 12 inches of any window, door, or opening into a building unless approved by the department.

M-311.3.4. For flameguard requirements, see section M-609.2.1.

History: 1954 ACS 101, p. 97, Eff. Apr. 5, 1980.

R 408.30927 Infrared space heaters; gas-fired, oil-fired, and electric.

Rule 927. Sections M-312.0, M-312.1, M-312.2, M-312.3, M-312.3.1, M-312.3.2, and M-312.3.3 of the code are amended, and sections M-312.1.1, M-312.3.4, and M-312.4 of the code are added, to read as follows:

M-312.0. Infrared space heaters, gas-fired, oil-fired and electric.

M-312.1. General: An approved electric infrared heating unit and a vented infrared fuel-fired heating unit shall be listed by a nationally recognized testing

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

agency and installed in accordance with its listing. Units shall not be installed where the atmosphere contains hologenated hydrocarbons, corrosive agents, or contains particulate matter, such as foundry dust, welding fumes, or other detrimental contaminates or dust in such quantities as to clog or impair the equipment or interfere with proper combustion.

M-312.1.1. Prohibited equipment: Unvented oil-fired infrared heating units are not permitted.

M-312.2. Burner controls: All units shall be equipped with approved controls. In the event of a flame or ignition failure, the controls shall provide for shutoff of fuel to the main burner for units operating on oil or natural gas, and 100% shutoff of fuel to the main burner and pilot burner for units operating on propane gas. No manual controls shall be permitted.

M-312.3. Unvented gas-fired units: Unvented infrared heating units may be installed in occupancies classified as industrial (use group F), and in certain other use group occupancies, such as repair garages, loading docks, parking garages, and certain warehouses and in certain other areas as approved by the administrative authority, provided the units are approved for such use without vents and are installed in accordance with their listing and the following provisions of this code.

M-312.3.1. Infrared space heater location, mounting heights, and clearances to combustibles shall be determined by a nationally recognized testing agency and installed in accordance with their listing.

M-312.3.2. Prior to installation, adequate information shall be submitted to the administrative authority for the purpose of evaluating each proposed heater location.

M-312.3.3. Natural or mechanical ventilation shall be provided for the space to be heated. Provision shall be made for both outside air supply and exhaust. Natural or mechanical ventilation shall consist of sufficient inlet and outlet areas strategically located and having the capacity to reduce the concentration of the products of combustion to those maximum levels specified in the "Occupational Health Standards for General Industry" administered by the Michigan department of public health, being R 325.2401 to R 325.2448 of the Michigan Administrative Code, as promulgated pursuant to Act No. 146 of the Public Acts of 1919, as amended, and continued in effect through the operation of Act No. 154 of the Public Acts of 1974, as amended, being §408.1001 et seq. of the Michigan Compiled Laws; also being 39 C.F.R. §1910.94, June 27, 1974, promulgated pursuant to 29 U.S.C. §651 et seq. by the United States department of labor. The normal air quantity for natural and propane gas is 3.8 and 4.55 cfm per 1,000 BTUs per hour input respectively. Minimum unobstructed free area for both gravity exhaust and air intake openings shall be 1.2 square inches per 1,000 BTUs per hour heater input. Mechanical exhaust fans or gravity exhaust outlets shall be located at the highest practical location in the space to be heated, but shall not be located below the level of the heaters.

M-312.3.4. Interlock: The mechanical ventilation system, when used, shall be interlocked with the units so that the units are operable only when the supply or exhaust fan is in operation.

M-312.4. Negative pressure: See sections M-301.14, M-317.1.6, and M-317.1.7.

History: 1954 ACS 101, p. 98. Eff. Apr. 5, 1980.

R 408.30928 Suspended fuel-fired unit heaters.

Rule 928. Sections M-313.2 and M-313.7.1 of the code are amended to read as follows:

M-313.2. Clearance: For clearance to combustible materials, see section M-612. Heaters approved for lesser clearance may be installed accordingly.

M-313.7.1. Ducts shall not be used in conjunction with low-static pressure unit heaters unless approved for such use.

History: 1954 ACS 101, p. 99, Eff. Apr. 5, 1980.

R 408.30929 Gravity warm-air systems.

Rule 929. Section M-314.3 of the code is amended to read as follows:

M-314.3. Material: Warm-air ducts shall be constructed entirely of approved materials.

History: 1954 ACS 101, p. 99, Eff. Apr. 5, 1980.

R 408.30930 Conversion burners in warm-air furnaces.

Rule 930. Sections M-315.1, M-315.1.1, and M-315.4 of the code are amended to read as follows:

M-315.1. General: Prior to the installation of a conversion burner, the contractor shall ascertain whether the entire heating system is in safe condition for the installation of such burner.

M-315.1.1. Controls and clearances to combustible construction shall conform to the requirements of section M-612.

M-315.4. A gravity furnace shall not be converted for use as a forced air furnace unless approved by the manufacturer or the administrative authority.

History: 1954 ACS 101, p. 99, Eff. Apr. 5, 1980.

R 408.30931 Direct gas-fired makeup air heaters.

Rule 931. Sections M-316.1, M-316.2, M-316.3, M-316.4, M-316.5, M-316.6, M-316.6.1, and M-316.7 of the code are amended to read as follows:

M-316.1. Installation: Direct gas-fired makeup air heaters may be installed only in occupancies of use groups H (high hazard), S (storage), F (factory and industrial), and garages, laundries, or commercial kitchens unless otherwise approved by the department.

M-316.2. Negative pressure: Direct gas-fired makeup air heaters may be used to correct a negative pressure condition within a building.

M-316.3. Discharge: The total discharge of such equipment shall not exceed 100% of the total air volume exhausted. Air exhaust may be accomplished by mechanical or natural means.

M-316.4. All air passing through a burner section shall be brought in from outside.

M-316.5. Air delivered by such equipment shall contain no more than the maximum levels of products of combustion as specified in the "Occupational Health Standards for General Industry" administered by the Michigan department of public health, being R 325.2401 to R 325.2448 of the Michigan Administrative Code, as promulgated pursuant to Act No. 146 of the Public Acts of 1919, as amended, and continued in effect through the operation of Act No. 154 of the Public Acts of 1974, as amended, being §408.1001 et seq. of the Michigan Compiled Laws; also being 39 C.F.R. §1910.94, June 27, 1974, promulgated pursuant to 29 U.S.C. §651 et seq. by the United States department of labor.

M-316.6. Controls: Such equipment shall be provided with sensing devices designed and installed to shut off the gas burner in the event of combustion air failure, fuel supply failure, ignition failure, flame failure, power failure or interruption, or air flow reduction below that required for safe combustion.

M-316.6.1. Such equipment shall be provided with both a thermostatic device for normal operation of the gas burner component and a high temperature limit control. The latter shall be set at a temperature not to exceed the manufacturer's recommendations.

M-316.7. Clearance: Such equipment shall be installed in accordance with their listing or in accordance with the requirements for other low-heat appliances or equipment in table M-612.5.1 in article 6.

History: 1954 ACS 101, p. 99, Eff. Apr. 5, 1980.

R 408.30932 Ventilation.

Rule 932. Sections M-317.1 to M-317.10.7 and tables M-317.2, M-317.3, M-317.4, M-317.6, M-317.7, M-317.8, M-317.9, and M-317.10 are amended, and table M-317.5 is added, to read as follows:

M-317.1. Ventilation: The following ventilation requirements shall apply.

M-317.1.1. Ventilation required: The requirements for ventilation air quantities supplied to a space as specified in the tables of this section are based on human occupancy and are for 100% outdoor air. This ventilation air quantity is intended to maintain an acceptable air quality level in the space under consideration. It is not intended to control temperature or humidity or to supply the air quantities required for the control of domestic or industrial contaminants. Except for areas designated by superior figures ([1]) in the tables, or where recirculation is prohibited by this code, or by other codes or standards having precedence, the outdoor air quantity may be reduced to 33% of that required by the tables if filtering equipment is utilized. If, in addition, high efficient absorption or other odor or gas removal equipment is employed, the outdoor air requirements may be reduced to 15% of that required by the tables. However, in no case shall the outdoor air quantity be less than 5 cfm per person. The quality of all ventilation air supplied to the space shall be such that the maximum allowable air pollutant concentrations shall not exceed that specified in the "Occupational Health Standards for General Industry" administered by the Michigan department of public health, being R 325.2401 to R 325.2448 of the Michigan Administrative Code, as promulgated pursuant to Act No. 146 of the Public Acts of 1919, as amended, and continued in effect through the operation of Act No. 154 of the Public Acts of 1974, as amended, being §408.1001 et seq. of the Michigan Compiled Laws; also being 39 C.F.R. §1910.94, June 27, 1974, promulgated pursuant to 29 U.S.C. §651 et seq. by the United States department of labor. These standards also contain requirements for recirculation of air.

Air from any boiler room, furnace room, bathroom, trash room, janitor storage room, toilet room, garage, or from any work room or storage room containing toxic, flammable, corrosive, odorous, radioactive, or pathogenic materials shall not be recirculated to a return air system serving other areas unless approved by the administrative authority. Air shall not be recirculated from 1 dwelling unit to another dwelling unit unless approved by the administrative authority.

A ventilation system shall be provided, maintained, and operated to accomplish the required ventilation service for all occupied areas within the scope of this article. The use group of doubtful occupancies shall be determined by the building official.

M-317.1.2. Installation: The installation of all ventilating systems shall be in accordance with the provisions of this code; the building code, being R 408.30401 et seq. of the Michigan Administrative Code, promulgated pursuant to Act No. 230 of the Public Acts of 1972, as amended, being §125.1501 et seq. of the

Michigan Compiled Laws, and administered by the Michigan department of labor.

M-317.1.3. Occupancy: The ventilation requirements herein prescribed shall be based on the type of occupancy of the room, and the minimum quantities of air to be supplied or exhausted, or both, shall be as stated in this article.

A single ventilating system serving 2 or more occupied areas may be arranged for selective delivery of the entire air supply to any area, provided these areas are not occupied simultaneously.

M-317.1.3.1. Ventilation during occupancy: All ventilating and exhaust systems shall be operated to satisfy the requirements of this article during periods the building is occupied, unless otherwise exempted by this article.

M-317.1.4. Natural ventilation: The air movement, outside air supply, and air distribution for all occupied areas shall conform to the requirements of this article, unless all of the following requirements have been satisfied:

1. Windows, doors, louvers, monitors, ventilators, or ventilating skylights or other approved means may be used as natural means of ventilation.

2. The total openable area of natural means of ventilation shall amount to not less than 1/20 of the floor area served.

Exception: In funeral homes, the openable area of the outside window shall be not less than 1/10 of the floor area served. All window openings shall preferably be above grade.

3. Adequate provisions shall be made so that heat, smoke, gas, dust, spray, hazardous fumes, vapors, steam, or other contamination shall not be present in the air in sufficient quantities to obstruct vision or be injurious to health, safety, or welfare.

M-317.1.4.1. Openings below grade: Windows or outdoor openings that are below grade shall not be considered unless a clear space is provided outside the window, having a width at least equal to the distance the bottom of the window is below grade. "Width" means the horizontal distance measured at right angles to the plane of the window.

M-317.1.5. Exhaust systems: Exhaust systems shall be provided, maintained, and operated in all occupied areas where machines, vats, tanks, furnaces, forges, salamanders and any other equipment or process produce or throw off dust or particles sufficiently light to float in the air or which emit heat, odors, fumes, spray, gas, or smoke in such quantities as to be irritating or injurious to health or safety, and shall discharge such exhaust to the outdoors in a manner approved by the administrative authority.

Exception: Exhaust air may be recirculated to the space when properly treated to meet the requirements of section M-317.1.1.

M-317.1.6. Tempered makeup air supply systems: Ventilating supply systems shall be installed, operated, and maintained where exhaust systems are installed or where negative air pressure exists causing either or both a reduction of exhaust cfm or backdrafting of fuel-fired equipment. This makeup air supply system shall have a heating potential to temper the air to the intended space temperature at the occupied location. See section M-301.14 and M-624.4.1.

M-317.1.7. Pressure balance of ventilation systems: Means shall be provided for the natural or mechanical relief of excess air or the supply of deficient air for any ventilation system. See sections M-301.14 and M-317.1.6.

Exception: Systems designed to operate at differential air pressures.

M-317.2. General requirements for assembly (use group A) occupancies: These requirements shall apply to all spaces occupied for assembly use and shall comply with the applicable requirements of table M-317.2.

M-317.2.1. Fire curtains: To avoid deflecting the fire curtain of any theater or assembly hall stage for which a fire curtain is required, means shall be provided to equalize the air pressure on both sides of the curtain.

M-317.2.3. Motion picture booths: Fumes, gases, and other harmful contaminants shall be effectively removed by mechanical exhaust ventilation directly from their source, including projectors, spotlights, and similar equipment, and discharged to the outside air. An exhaust system or systems, including the exhaust unit and connecting ducts, shall be arranged to serve all the sources of harmful contamination in such booth area. The capacity of the exhaust system shall be not less than 15 cfm for each arc lamp or other source of contamination. Balancing dampers, when installed, shall be welded or locked in place after balancing the exhaust system. The exhaust system shall be entirely independent of any other system serving the building.

TABLE M-317.2
Use Group A

Occupancy	Estimated Persons Per 1,000 Square Feet Floor Area. (Use Only When Design Occupancy Is Not Known)	Required Ventilation Air In Cfm Per Human Occupant
ASSEMBLY		
Food Services (See section M-317.10.7)		
Dining rooms	70	10
Kitchens	20	30[1]
Cafeterias, short order, drive-ins, seating areas	100	30
Bars (Stand-up)	150	30
Cocktail lounges	100	30
Schools		
Classrooms	50	10
Multiple use rooms	70	10

[1]Ventilation requirements for food service establishments (kitchens) are as set forth in R 325.2501 to R 325.2505 of the Michigan Administrative Code, and administered by the Michigan department of public health.
[2]Ventilation requirements for swimming pools are as set forth in R 325.2111 to R 325.2199 of the Michigan Administrative Code, and administered by the Michigan department of public health.
[3]2 cfm per square feet floor area exhaust or 10 cfm per locker with direct locker exhaust.
[4]Cfm per square feet of floor area.
[5]Exhaust problems handled separately. See section M-317.1.5.

M-317.3 General requirements for business (use group B) occupancies: These requirements shall apply to all spaces occupied for business use and shall comply with the applicable requirements of table M-317.3.

M-317.3.1. Ventilation of service stations inside buildings.

M-317.3.1.1. Explosion vapor removal: Vapors shall be withdrawn from the enclosure in which they are generated and discharged to the outside of the building in the most direct manner practicable. See section M-317.1.5.

M-317.3.1.2. Supply and exhaust locations: Supply and exhaust openings shall be located to produce a sweeping or purging effect that will tend to avoid pockets in which vapors may accumulate.

M-317.3.1.3. Sampling device: An explosive vapor sampling device shall be installed at the exhaust opening and shall be equipped with an approved audible alarm. Such device shall be set to operate at 20% below the lower explosive limit.

Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-317.5.1.3. Dipping applications: The design and installation of dip tanks containing flammable or combustible materials shall be in accordance with NFiPA-34-1974, the dip tanks standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-317.9.1.1. Show rooms: A separate ventilating system shall be provided for show rooms or offices, where such occupancies are located adjacent to repair or storage areas and would require ventilation in accordance with table M-317.9. This requirement does not apply to service stations. This shall not be construed to preclude using exhaust air from the show room and office to the repair or storage area.

M-317.9.2. Public garages: Ventilation requirements for areas housing 5 or more vehicles driven by internal combustion engines shall be in accordance with NFiPA-88B-1973, the standard for repair garages of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

All enclosed basement and underground parking structures shall be continuously ventilated by a mechanical system. Recirculation of air is not allowed. Heating of makeup air is not required.

M-317.9.3. For ventilation requirements for service stations, see section M-317.3.

accomplished by exhaust methods, and in any case, the quantity of the exhaust shall be greater than that of the supply.

M-317.10.1.2. Schools: Required ventilation in wardrobes or cloak rooms in school buildings located adjacent to, or connected with, occupied areas covered by section M-317.2, may be accomplished by use of inlets admitting air from adjacent classrooms or similar areas in conjunction with an exhaust system.

M-317.10.1.3. Tempered air: Tempered air supplied to locker rooms may be exhausted through adjoining toilet, shower, or swimming rooms.

M-317.10.1.4. Industrial: In places of industrial employment where enclosed locker rooms are provided, a tempered outside air supply shall be provided for the locker rooms and may be exhausted through the adjoining toilet or shower room.

M-317.10.2. Janitor closets and swimming pool rooms.

M-317.10.2.1. Ventilation required: Ventilation shall be provided and maintained for all janitor closet and swimming pool rooms. Such ventilation shall be accomplished by exhaust methods with the effectiveness of the exhaust greater than that of the supply.

M-317.10.2.2. Shower installations: For multiple shower installations, a mechanical exhaust shall be provided of 50 cfm per head or 12 air changes per hour, unless the room has a direct positive air supply, in which case the exhaust may be gravity.

M-317.10.3. Toilet and bathrooms: A bath and toilet room shall be ventilated by 1 of the following methods:

1. Windows opening to the outer air that are not less than 3 square feet in area.
2. Individual gravity vents or ducts with a minimum cross-sectional area of ½ square foot and ⅓ additional square foot for each additional water closet or urinal above 2 in number. Such ducts shall be of adequate height and so located as to insure a minimum supply of 2 cubic feet of air per square foot of room area.
3. A skylight with not less than 3 square feet in area of ventilating opening.
4. By any system of mechanical ventilation capable of exhausting quantities of air as specified in table M-317.10.

M-317.10.4. Enclosed passages or tunnels for vehicles using internal combustion engines: If a passageway or tunnel is used for vehicles using internal combustion engines, the method of ventilation shall be as approved by the administrative authority.

M-317.10.5. Smokeproof enclosure ventilation: All smokeproof enclosures shall be provided with ventilation as required by the building code.

M-317.10.6. Range hoods and fans in noncommercial occupancies.

M-317.10.6.1. Requirements with natural ventilation: When the kitchen is provided with natural ventilation as specified in section M-317.1.4 and is provided with a range hood including a fan or a range hood and a ceiling or low sidewall fan, the exhaust air shall be directed to the outside in the most practical direct manner. A recirculating-type range hood incorporating a fan and a filtering element may be used if designed for that purpose and listed by a nationally recognized testing agency.

M-317.10.6.2. Requirements with mechanical ventilation: When a kitchen is provided with a range hood such as listed in section M-317.10.6.1 and is not provided with natural ventilation as specified in section M-317.1.4, mechanical supply ventilation should be provided in an amount equal to that being exhausted. The exhaust air shall be directed from the range hood to the outside in the most practical manner. A recirculating-type range hood incorporating a fan and filtering element may be used if designed for that purpose and listed by a nationally recognized testing agency.

M-317.10.7. Ventilation requirements for commercial kitchens: Ventilation for commercial kitchens shall meet the requirements of the Michigan department of public health, "Ventilation Standard for Food Service Establishments in Michigan," being R 325.2501 to R 325.2505 of the Michigan Administrative Code, and administered by the Michigan department of public health.

R 408.30933 Blower and exhaust systems for removing dust, stock, and vapors (excluding paint spray rooms and booths and single-family occupancies).

Rule 933. Section M-319.1 of the code is amended to read as follows:

M-319.1. General: Blower and exhaust systems for dust, stock, or vapors hereafter installed as part of, or attached to parts of, a building shall be constructed and installed in accordance with NFiPA-91-1973, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 113, Eff. Apr. 5, 1980.

R 408.30934 Commercial cooking appliances.

Rule 934. Section M-320.0 of the code is amended to read as follows:

M-320.0. Commercial cooking appliances: See section M-613.

History: 1954 ACS 101, p. 113, Eff. Apr. 5, 1980.

R 408.30935 Commercial hoods and fans.

Rule 935. Section M-321.1 of the code is amended to read as follows:

M-321.1. See section M-317.10.7.

History: 1954 ACS 101, p. 114, Eff. Apr. 5, 1980.

R 408.30936 Clothes dryers.

Rule 936. Sections M-323.1, M-323.2.1, M-323.2.3, M-323.3.1, M-323.3.4, M-323.4.1 and M-323.4.3 of the code are amended to read as follows:

M-323.1. Installation: A clothes dryer shall be connected to an exhaust duct in accordance with the manufacturer's recommendations. Dryer vent systems shall be independent of all other systems and shall convey the products of combustion or moisture, or both, to the outside.

M-323.2.1. Dryer vents shall be adequately installed and shall be galvanized steel or aluminum or other corrosion-resistant material with a flame spread of 25 or less, with a minimum diameter as recommended by the manufacturer. The diameter shall not be less than the outlet of the appliance.

M-323.2.3. When flexible exhaust ducts are installed, they shall be a part of a manufacturer's approved exhaust kit or its equivalent and shall be installed in accordance with the manufacturer's instructions. Connections to the dryer and to the vent terminal shall be made with an approved draw band.

M-323.3.1. Venting systems serving more than 1 dryer shall be designed in accordance with the manufacturer's recommendations or acceptable engineering practice.

M-323.3.4. Adequate means of ventilation shall be provided to permit proper combustion of fuels. See section M-317.1.6.

M-323.4.1. Venting systems for commercial dryers shall be designed in accordance with the manufacturer's recommendations or acceptable engineering practice.

M-323.4.3. Adequate means of ventilation shall be provided to permit proper combustion of fuels. See section M-317.1.6.

History: 1954 ACS 101, p. 114, Eff. Apr. 5, 1980.

R 408.30937 Filters.

Rule 937. Sections M-324.2.3, M-324.2.6, M-324.3, and M-324.4 of the code are amended to read as follows:

M-324.2.3. Air filters shall not be capable of producing large volumes of noxious products when exposed to fire. Filters qualifying as class 1 and class 2 shall be accepted as meeting these requirements.

M-324.2.6. Filter pads for evaporative coolers shall meet the requirements of NFiPA-90A type 1 or type 2 filters.

M-324.3. Filters in commercial range hoods: Such filters shall meet the requirements described in section M-317.10.7.

M-324.4. Filters (special): Filters to be used in conjunction with spray painting or dipping operations shall be nonflammable or of a type having a combustibility not in a class of filter recommended by a nationally recognized testing agency for such purpose.

History: 1954 ACS 101, p. 114, Eff. Apr. 5, 1980.

R 408.30938 Underground duct systems; counterflow furnaces.

Rule 938. Sections M-326.1.2 and M-326.2 of the code are amended to read as follows:

M-326.1.2. Underground duct systems of metal or other approved materials installed in or below concrete floors or slabs shall be fully encased in not less than 2 inches of concrete or shall be installed in accordance with the manufacturer's recommendations and shall be securely anchored to prevent flotation prior to encasement in the concrete.

M-326.2. Counterflow (downflow) furnaces: When used in conjunction with an underground duct system, a counterflow furnace shall be installed in accordance with the clearance requirements of section M-612.

History: 1954 ACS 101, p. 114, Eff. Apr. 5, 1980.

R 408.30939 Evaporative coolers.

Rule 939. Sections M-327.1.1, M-327.2, and M-327.5 of the code are amended, and section M-327.6 is added, to read as follows:

M-327.1.1. For installation on roofs, see section M-306.0.

M-327.2. Pads: Evaporative cooling filter pads shall be of an approved material. See section M-324.2.6.

M-327.5. Air passage: Air passing through an evaporative cooler shall not pass through the heat exchanger of a furnace unless the equipment is approved for such use by a nationally recognized testing agency, the manufacturer, or the administrative authority.

M-327.6. Protection: When units are located in areas subject to freezing conditions, provisions shall be made to protect or drain all water tanks and piping to prevent freezing.

History: 1954 ACS 101, p. 114, Eff. Apr. 5, 1980.

R 408.30940 Scope of article; installing or repairing boilers without license prohibited; steam and water heating equipment.

Rule 940. Sections M-400.1, M-400.2, M-400.3, and M-400.13 of the code are amended, and section M-400.1.1 is added, to read as follows:

M-400.1. Scope: The provisions of this article govern the construction, installation, alteration, and repair of all steam and water heating installations for heating, cooling, and certain process piping for all steam and hot water systems not specifically covered by the requirements established by the boiler board, being R 408.4001 to R 408.4999 of the Michigan Administrative Code, promulgated pursuant to Act No. 290 of the Public Acts of 1965, as amended, being §408.751 et seq. of the Michigan Compiled Laws, and administered by the Michigan department of labor.

M-400.1.1. No person shall engage in the business of installing or repairing boilers unless he shall first obtain a license from the Michigan department of labor, boiler division.

M-400.2. Equipment: All equipment used for steam or water heating systems and related process piping shall be constructed, installed, and maintained in accordance with this article and ASME-77, section 4, the standard of the American society of mechanical engineers, which is incorporated herein by reference. This standard may be purchased from the American Society of Mechanical Engineers, United Engineering Center, 345 East 47th Street, New York, New York 10017, at a cost of $55.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $55.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-400.3. Type of fuel: See section M-300.4.

M-400.13. Prohibited installations: Gas, liquid, or solid fuel-burning appliances shall not be installed in garages unless otherwise permitted by other portions of this code. Piping shall not be installed in the shafts, pits, or penthouses of elevators. Used equipment shall not be installed prior to approval by the administrative authority. Cast-iron boilers and cast-iron radiation are not permitted in steam or water heating systems operating at pressures in excess of 15

psig for steam and 30 psig for water, unless such boilers or radiation are designed and tested for high working pressures and listed by a nationally recognized testing or inspection agency.

History: 1954 ACS 101, p. 115, Eff. Apr. 5, 1980.

R 408.30941 Boilers and generators generating heat in the form of hot water or steam.

Rule 941. Section M-401.1 of the code is amended to read as follows:

M-401.1. General: All boilers and generators used to generate heat in the form of steam or hot water shall be erected, assembled, or installed in accordance with the manufacturer's recommendations, the requirements of this code, and the requirements established by the boiler board, being R 408.4001 to R 408.4999 of the Michigan Administrative Code, promulgated pursuant to Act No. 290 of the Public Acts of 1965, as amended, being §408.751 et seq. of the Michigan Compiled Laws, and administered by the Michigan department of labor.

History: 1954 ACS 101, p. 115, Eff. Apr. 5, 1980.

R 408.30942 Boilers installed or connected in batteries.

Rule 942. Section M-403.1 of the code is amended, and section M-403.3 is added, to read as follows:

M-403.1. General: Where boilers are installed in batteries of 2 or more with cross-connected steam and return headers, such boilers shall be installed so that the operating water line or level of all boilers to be operated as a unit will be at the same level. Refers to gravity return systems only.

M-403.3. Boilers connected in batteries and connected to common headers: Boilers connected in batteries and connected to a common header shall be piped and valved in accordance with ASME-77, section 4, the standard of the American society of mechanical engineers, which is incorporated herein by reference. This standard may be purchased from the American Society of Mechanical Engineers, United Engineering Center, 345 East 47th Street, New York, New York 10017, at a cost of $55.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $55.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 115, Eff. Apr. 5, 1980.

R 408.30943 Safety or relief valves and reducing valves.

Rule 943. Sections M-405.2 and M-405.7 of the code are amended to read as follows:

M-405.2. Location: All pressure relief valves shall be installed in openings provided by the manufacturer of the equipment. If such openings are not provided, the valves shall be installed in the piping of the equipment at or near the top of the boiler as close to the equipment as possible. Valves or stopcocks are not permitted between boiler or pressure vessel and pressure relief valves. Reduction in the size of the relief valve connections is not permitted.

M-405.7. Pressure valves (hot water heating systems).

History: 1954 ACS 101, p. 116, Eff. Apr. 5, 1980.

R 408.30944 Blowoff valves.

Rule 944. Section M-407.1 of the code is amended to read as follows:

M-407.1. General: A steam boiler shall be provided with a proper size blowoff or drain valve or valves of the quick opening or ¼ turn type. Such blowoff or drain

valves shall be installed in the opening of the boiler provided by the manufacturer or in the return header at the boiler and shall be so installed that the boiler completely drains. The blowoff or drain valve shall be not less than ¾ inch size. The blowoff or drain valve shall not be connected directly to any sanitary sewer system. When drained to a sewer, it shall drain to an open floor drain, approved receptor, or to a regular blowoff tank or sump. The temperature of the discharge water shall not exceed 140 degrees Fahrenheit when it enters the sanitary sewer system. The blowoff or drain may discharge into an approved leaching pit.

History: 1954 ACS 101, p. 116, Eff. Apr. 5, 1980.

R 408.30945 Low water cutoff controls; water feeders.

Rule 945. Sections M-408.1 and M-408.1.1 of the code are amended to read as follows:

M-408.1. General: A low water cutoff control shall be installed on all automatic-fired steam boilers or generators in such a manner that the automatic-firing device shuts off when the level of the water is within 1 inch of the bottom of the gauge glass.

M-408.1.1. A water feeder may be installed to operate and maintain the water at the proper operating level in steam boilers. Combination feeders and low water cutoffs are permitted.

History: 1954 ACS 101, p. 116, Eff. Apr. 5, 1980.

R 408.30946 Piping for steam and hot water heating systems; welding; gaskets.

Rule 946. Sections M-409.5, M-409.9, and M-409.12.2 of the code are amended, and section M-409.5.1 is added, to read as follows:

M-409.5. Piping through walls and floors: Piping passing through walls, ceilings, floors, beams, or any portion of the building structure shall be free to expand and contract and shall not be embedded in plaster, concrete, or masonry. Such piping shall be provided with metal sleeves or thimbles when passing through concrete, or masonry walls, ceilings, floors, or beams, and such sleeves or thimbles shall be not less than ⅜ inch larger than the outside diameter of the pipe plus the insulation. Openings through wooden floors, ceilings, walls, and beams shall be not less than ⅜ inch larger than the outside diameter of the pipe or the pipe plus insulation.

M-409.5.1. Radiant heating systems: See section M-417.0.

M-409.9. Welding: Where welding is used as a means of connecting or joining branch mains to the main steam piping, provisions shall be made for the expansion of the pipe at this point so that undue stresses or strains are not placed on the welds or piping.

M-409.12.2. Required gaskets shall be made of material approved for the pressure and temperature to which they are to be subjected.

History: 1954 ACS 101, p. 116, Eff. Apr. 5, 1980.

R 408.30947 Pitch or grade of steam mains.

Rule 947. Section M-410.2 of the code is amended to read as follows:

M-410.2. Steam mains: Steam mains shall be pitched or graded downward in the direction of the flow of steam from the boiler. The grade or pitch shall be not less than 1 inch per each 20 feet of horizontal pipe run. The high point shall be established at or near the boiler. The pitch or grades shall be carried to the end or ends of the steam mains. The ends of the steam mains shall be properly dripped and connected into the return piping of the system so that the condensate will be carried back to the boiler directly or to a boiler return pump or return trap. This

section does not apply when steam and condensate flow in the opposite direction in the same pipe.

History: 1954 ACS 101, p. 116, Eff. Apr. 5, 1980.

R 408.30948 Automatically fired water heating boiler; low water cutoff or control.

Rule 948. Section M-412.1 of the code is amended to read as follows:

M-412.1. General: All automatically fired water heating boilers shall be provided with an externally mounted low water cutoff or control.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30949 Check valve.

Rule 949. Section M-413.3 of the code is amended to read as follows:

M-413.3. See plumbing code, being R 408.30701 to R 408.30796 of the Michigan Administrative Code, promulgated pursuant to Act No. 230 of the Public Acts of 1972, as amended, being §125.1501 et seq. of the Michigan Compiled Laws, and administered by the Michigan department of labor. See specifically R 408.30778.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30950 Heating with steam from utility central steam heating systems or other types of steam distributing systems.

Rule 950. Section M-415.3 of the code is amended to read as follows:

M-415.3. Return condensate: The return condensate from a building heated by a central steam supply may be either discharged into a return condensate system or wasted into a sewer drain connection or approved leaching well. This condensate, when discharging into a sanitary sewer system, shall not be in excess of 140 degrees Fahrenheit and shall discharge into an open floor drain or a special drain connection or approved receptor. If the floor drain or drain connection to the sewer is above the level of the return piping so that it cannot flow by gravity, an automatic sump pump shall be installed to pump the condensate from the sump to the sewer drain.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30951 Boiler and combination boiler and cooling unit; clearances.

Rule 951. Section M-423.4 of the code is amended to read as follows:

M-423.4. Boiler room: A boiler or combination boiler and cooling unit shall be installed in a space that allows a minimum clearance of 24 inches on all service sides.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30952 Scope of article.

Rule 952. Section M-500.1 of the code is amended to read as follows:

M-500.1. Scope: The maintenance and safety of all steam boilers, steam cleaners, and steam generators presently installed and hereafter erected shall be governed by the requirements established by the boiler board, being R 408.4001 to R 408.4999 of the Michigan Administrative Code, promulgated pursuant to Act No. 290 of the Public Acts of 1965, as amended, being §408.751 et seq. of the Michigan Compiled Laws, and administered by the Michigan department of labor. The enforcing agency administering and enforcing this code may adopt provisions for annual inspections and fees for steam boilers, steam cleaners, and steam generators not provided for in the boiler act.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30954 Fuel piping.

Rule 954. Sections M-601.0, M-601.2.4, M-601.2.6, and M-601.2.7 of the code are amended, and sections M-601.2.6.1 and M-601.2.6.2 are added, to read as follows:

M-601.0. Fuel piping.

M-601.2.4. Shutoff valves: A fuel outlet hereafter connected to an appliance within a dwelling shall be equipped with an approved, manually operated lever handle or wheel-type shutoff valve. The valve shall be operable without the use of tools and shall be located adjacent to, and outside of, each appliance upstream of a union or connector. The shutoff valve shall be in addition to any shutoff valve that may be located on the appliance.

M-601.2.6. Concealed piping.

M-601.2.6.1. Piping in partitions: Concealed gas piping shall be located in hollow rather than solid partitions. Tubing shall not be run inside walls or partitions unless protected against physical damage.

M-601.2.6.2. Piping in floors:

(a) Except as provided in section M-601.2.6.2(b), gas piping in solid floors, such as concrete, shall be laid in channels in the floor suitably covered to permit access to the piping with a minimum of damage to the building. When piping in floor channels may be exposed to excessive moisture or corrosive substances, it shall be suitably protected.

(b) When approved by the department and acceptable to the serving gas supplier, gas piping may be embedded in concrete floor slabs constructed with portland cement. Piping shall be surrounded with a minimum of 1½ inches of concrete and shall not be in physical contact with other metallic structures, such as reinforcing rods or electrically neutral conductors. When piping may be subject to corrosion at the point of entry into the concrete slab, it shall be suitably protected from corrosion. Piping shall not be embedded in concrete slabs containing quickset additives or cinder aggregate.

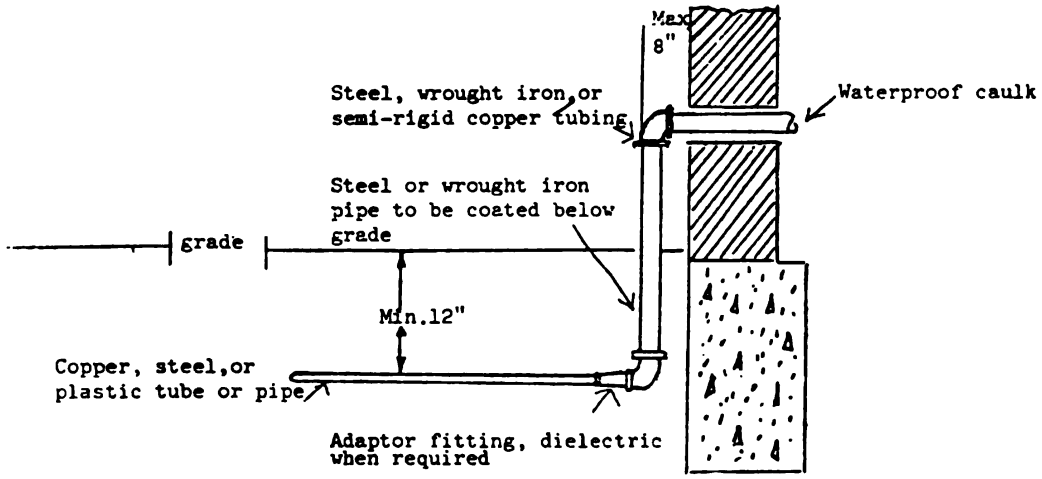
M-601.2.7. Prohibited installations: Gas piping shall not be installed in or through chimneys, hoistways, or vents.

Exception: Gas piping may be installed in air ducts when it can be shown that the piping system has successfully withstood a pneumatic pressure of not less than 100 psig for a period of not less than ½ hour. The contractor installing these piping systems shall be held responsible for the test, and he shall certify the application and the success of the test.

History: 1954 ACS 101, p. 117, Eff. Apr. 5, 1980.

R 408.30955 Underground outside gas piping.

Rule 955. Sections M-602.1, M-602.5, and M-602.7.1 of the code are amended, and section M-602.8 is added, to read as follows:



M-602.1. General: The provisions of this section apply to outside metered gas and LPG piping installed underground.

M-602.5. Pipe entry into building: All underground piping shall enter into the building above grade. See figure M-602.7.

M-602.7.1. When underground plastic tube or pipe, steel tube, or copper tube is supplied by interior gas piping, the interior piping shall be extended through the outside wall, above grade, with steel, wrought iron, or semi-rigid copper tubing. Underground connections made to the copper tube, steel tube, or plastic tube or pipe shall be made at a point not less than 12 inches below the surface of the ground. See figure M-602.7. The opening in the foundation or wall through which the extended pipe or tubing passes shall be sealed with waterproof material.

FIGURE M-602.7
Underground Outside Gas Piping

UNDERGROUND CONNECTION

M-602.8. Test requirements on underground piping: Before being concealed, underground piping shall be tested using pneumatic pressure and an approved leak testing medium. The test shall be conducted in the presence of an inspector from the department. The pneumatic test pressure shall be not less than 3 psig for metered gas piping and at least normal operating pressure for LPG piping. Piping shall not be concealed until tested and proven leak-free in the manner prescribed herein.

Exception: Small diameter tubing used for outdoor appliances, such as, but not limited to, gas lights and gas grills are exempt from this requirement.

History: 1954 ACS 101, p. 118, Eff. Apr. 5, 1980.

R 408.30956 Sizing of gas piping.

Rule 956. Sections M-603.1, M-603.2, and M-603.2.4 of the code are amended, and tables M-603.2.1, M-603.2.2, M-603.2.3, M-603.2.4, M-603.2.5, M-603.2.6, M-603.2.7, and M-603.2.8 are added, to read as follows:

M-603.1. General: Pipe or semi-rigid tubing used for installation, extension, alteration, and repair of any house piping shall be of ample size to supply the full number of outlets for the purpose intended.

M-603.2. Sizing of piping systems: The size of the gas piping system shall be determined by the use of table M-603.2.1, M-603.2.2, M-603.2.3, M-603.2.4, M-603.2.5, M-603.2.6, and M-603.2.7.

Figure M-603.2.4 is an example showing the use of these tables.

TABLE M-603.2.5

Approximate Gas Input for Some Common Appliances

Appliance	Input Btu per hr. (Approximate)
Range, free standing, domestic	65,000
Built-in oven or broiler unit, domestic	25,000
Built-in top unit, domestic	40,000
Water heater, automatic storage	
30 to 40 gallon tank	45,000
Water heater, automatic storage	
50 gallon tank	55,000
Water heater, automatic instantaneous	
(2 gallon per minute)	142,800
Capacity (4 gallon per minute)	285,000
(6 gallon per minute)	428,400
Water heater, domestic, circulating or side arm	35,000
Refrigerator	3,000
Clothes dryer, type 1 (domestic)	35,000
Gas light	2,500
Incinerator, domestic	35,000

For specific appliances or appliances not shown above, the input should be determined from the manufacturer's rating.

FIGURE M-603.2.4

Solution:

(1) Maximum gas demand for outlet A:

$$\frac{\text{Consumption (rating plate input, or table M-603.2.5 if necessary)}}{\text{Btu of gas}} =$$

$$\frac{\text{30,000 Btu per hour rating}}{\text{1,000 Btu per cubic foot}} = \frac{\text{30 cfh}}{\text{(or 30 cfh)}}$$

Maximum gas demand for outlet B: $\frac{\text{Consumption}}{\text{Btu of gas}} = \frac{3{,}000}{1{,}000} =$ 3 cfh

Maximum gas demand for outlet C: $\frac{\text{Consumption}}{\text{Btu of gas}} = \frac{75{,}000}{1{,}000} =$ 75 cfh

Maximum gas demand for outlet D: $\frac{\text{Consumption}}{\text{Btu of gas}} = \frac{136{,}000}{1{,}000} =$ 136 cfh

(2) The length of pipe from the gas meter to the most remote outlet A is 60 feet. This is the only distance used.

(3) Use the column marked 60 feet in table M-603.2.2 provided this is the table designated for use by the serving gas supplier.

Outlet A, supplying 30 cfh, requires ⅜-inch pipe.

Outlet B, supplying 3 cfh, requires ¼-inch pipe.

Section 1, supplying outlets A and B, or 33 cfh, requires ⅜-inch pipe.

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

Outlet C, supplying 75 cfh, requires ¾-inch pipe.
Section 2, supplying outlets A, B, and C, or 108 cfh, requires ¾-inch pipe.
Outlet D, supplying 136 cfh, requires ¾-inch pipe.
Section 3, supplying outlets A, B, C, and D, or 244 cfh, requires 1-inch pipe.

(4) Gas piping systems that are to be supplied with gas of a specific gravity of 0.70 or less can be sized directly from tables M-603.2.1 and M-603.2.2, unless the authority having jurisdiction specifies that a gravity factor be applied. When the specific gravity of the gas is greater than 0.70, the gravity factor shall be applied.

(5) If the gravity factor is applied to this example, the values in the column marked 60 feet in table M-603.2.8 would be multiplied by the multiplier (.96) from table M-603.2.5, and the resulting cubic feet per hour values would be used to size the piping.

TABLE M-603.2.8
Multipliers to be Used With
Tables M-603.2.1 Through M-603.2.4

History: 1954 ACS 101, p. 119, Eff. Apr. 5, 1980.

R 408.30957 Minimum size of gas piping.

Rule 957. Sections M-604.1 and M-604.2 of the code are amended to read as follows:

M-604.1. General: The diameter of the rigid piping supplying gas to a natural gas appliance shall not be of smaller size than the inlet connection of the appliance manifold.

M-604.2. Remodeling: In remodeling or extending existing house gas piping, connections shall be made only when sizes can be maintained in accordance with section M-603.0.

History: 1954 ACS 101, p. 125, Eff. Apr. 5, 1980.

R 408.30958 Leak test methods for gas piping systems.

Rule 958. Sections M-605.1 and M-605.3 of the code are amended to read as follows:

M-605.1. Test of gas piping for tightness: Before any new system of nonindustrial gas piping is put in service, and before any appliances have been attached thereto, except as provided in (b) below, it shall be pressure tested in accordance with (a) or (b) below to assure that it is gastight. The contractor or installer of these piping systems shall be held responsible for the test, and he shall certify the

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

application and success of the test. A "new system of gas piping" means piping installed during the construction of new buildings.

(a) With no appliances connected, nonindustrial piping systems for other than undiluted liquefied petroleum gases shall withstand a pressure of not less than 3 psig for a period of not less than 10 minutes without showing any drop in pressure. Pressure shall be measured with a manometer or slope gauge, or an equivalent device so calibrated as to be read in increments of not greater than $\frac{1}{10}$ psig. The source of pressure shall be isolated before the pressure tests are made.

(b) Nonindustrial piping systems for undiluted liquefied petroleum gases shall withstand the pressure test in accordance with (a) above, or, when appliances are connected to the piping system, shall withstand a pressure of not less than 10 inches nor more than 14 inches water column (8 ounces per square inch) for a period of not less than 10 minutes without showing any drop in pressure. Pressure shall be measured with a water manometer or an equivalent device calibrated so as to be read in increments of not greater than $\frac{1}{10}$ inch water column. The source of pressure shall be isolated before the pressure tests are made.

(c) The test specified herein shall be in addition to those tests required for underground piping contained in section M-602.8.

M-605.3. Method: Leaks in gas piping shall be located by applying soapy water or an approved leak detecting agent to the exterior of the piping, or by the use of a combustible gas detector. Open flames or acid shall not be used to locate leaks, nor shall water be introduced into the gas piping.

History: 1954 ACS 101, p. 125, Eff. Apr. 5, 1980.

R 408.30959 Fuel oil storage tanks, equipment, and piping; installation.

Rule 959. Sections M-608.0, M-608.1, M-608.2, M-608.3, M-608.4, M-608.5, M-608.6, and M-608.7 of the code are amended, and sections M-608.1.1, M-608.2.1, M-608.2.2, M-608.2.3, M-608.2.4, M-608.2.5, M-608.2.5.1, M-608.2.6, M-608.2.7, M-608.4.1, M-608.4.2, M-608.4.3, M-608.4.4, M-608.6.1, M-608.6.2, M-608.7.1, M-608.7.2, M-608.7.3, M-608.7.4, M-608.7.4.1, M-608.7.4.2, M-608.7.4.3, M-608.7.4.4, and tables M-608.2.1 and M-608.2.2 are added, to read as follows:

M-608.0. Installation of fuel storage tanks, equipment, and piping.

M-608.1. General: Fuel storage tanks, piping, vents, valves, and oil-burning equipment shall be installed as specified by this code and in accordance with NFiPA-31-1974, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $4.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $4.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-608.1.1. Liquefied petroleum gas storage tanks: Aboveground liquefied petroleum gas storage locations with less than 2,000 gallons individual water capacity, or less than 4,000 gallons aggregate water capacity, shall be installed in accordance with NFiPA-58-1976, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $5.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $5.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-608.2. Equipment installation burners and controls.

M-608.2.1. Combustion safeguards: An oil burner shall be provided with an approved automatic combustion safeguard that will effectively prevent the abnormal discharge of oil in case of ignition or flame failure. Approved types of combustion safeguards are listed in table M-608.2.1.

TABLE M-608.2.1
Oil Combustion Safeguards

Type of Burner	Type of Combustion Safeguard	Timing Requirements of Safeguards
Heat vaporization	Approved constant level anti-flooding device	None.
Less than 5 gal./hr.	Approved device for ignition trial and flame failure	2 minutes.
5 gal./hr. or more	Approved device for ignition trial and flame failure	Ignition trial 60 seconds. Flame failure 10 seconds.
Domestic type rotary vaporization	Constant level device and approved device for ignition trial and flame failure	2 minutes.

M-608.2.2. Limit controls: Oil-burning equipment shall be provided with an approved means of automatically shutting off the burner when the limits of temperature or pressure, or both, as provided in table M-608.2.2 are exceeded.

Exceptions: On oil-fired room heaters or heat vaporization burners, the limit control may place the burner on low flame operation.

TABLE M-608.2.2
Equipment and Limit Control Settings

Type of Equipment	Maximum Limit Control Setting
Mechanical warm-air furnace	200 degrees Fahrenheit (except by special permission of the department)
Gravity warm-air furnace	300 degrees Fahrenheit
High-pressure steam boiler	Allowable working pressure of the boiler
Low-pressure, hot-water, space heating boiler	250 degrees Fahrenheit
High-pressure, space heating, hot-water boiler	The temperature corresponding to the maximum allowable working pressure of the boiler
Hot-water supply heater or boiler	210 degrees Fahrenheit (except by special permission of the department)

M-608.2.3. Limit controls and low water cutoffs in main electrical circuit: When a limit control or low water cutoff is used to interrupt the main electrical supply to the burner, the control shall be so arranged as to open the main electrical supply to the burner, whether the switching is integral with the sensing element or remote from the same.

M-608.2.4. Combustion air-oil interlock: An installation equipped with forced or induced draft fans, or both, shall have an approved control device. The device shall immediately shut off the oil supply upon air supply failure. Controls actuated by the failure of the power supply to the blower motor shall not meet this requirement. This requirement is not applicable to listed heat vaporization burners.

M-608.2.5. Combustion and ventilation air: Means shall be provided to ensure that sufficient combustion and ventilation air are provided for the oil-burning equipment installed. The methods used to provide the combustion and ventilation air shall comply with the applicable provisions contained in sections M-610 and M-624.4 for oil-fired equipment fired at or over 3 gallons per hour.

M-608.2.5.1. Negative pressures: If the oil-fired equipment is subjected to a negative pressure condition, the condition shall be corrected in accordance with the applicable provisions of section M-624.4.1.

M-608.2.6. Venting: Venting of oil-fired equipment: Oil-fired equipment shall be vented in accordance with the applicable requirements of sections M-703 and M-710.

M-608.2.7. Equipment clearances and accessibility: The equipment shall be installed to allow sufficient and reasonable accessibility for inspection, cleaning, repair, and flame observation under all firing conditions. The clearance requirements provided in section M-612.5 shall be followed for the installation of the equipment.

M-608.3. Grades of fuel oil: The grade of fuel oil used with any burner shall be consistent with the manufacturer's listing for the equipment, but in no case shall it have a flashpoint less than 110 degrees Fahrenheit when tested by the Pensky Martins closed cup testing method.

M-608.4. Fuel oil.

M-608.4.1. Gravity flow: Gravity flow of fuel oil from the tank to the burner is permitted only when each storage tank does not exceed 275-gallon capacity.

M-608.4.2. Forced flow: Fuel oil shall not be forced from storage tanks, auxiliary tanks, or drums by positive pressure.

M-608.4.3. Oil preheaters: When oil preheaters are used to bring fuel oil to its atomizing temperature and viscosity, they shall be of an approved type and equipped with a relief valve to prevent excessive oil pressure. Means shall be provided to prevent the introduction of oil or other liquids harmful to the boiler operation.

M-608.4.4. Oil lines: Oil supply lines to burners shall be provided with approved strainers.

M-608.5. Ventilation of trapped vapors: Ventilation shall be provided to prevent the accumulation of any trapped vapors below the combustion chamber.

M-608.6. Oil burners with gas pilots.

M-608.6.1. Types of fuel: The fuel for gas pilots shall be limited to natural gas, unless otherwise approved by the department.

M-608.6.2. Gas pilot piping: The pilot supplying piping shall be provided with an approved shutoff valve located near the burner and shall be equipped with an approved vented gas pressure regulator. The installation of the piping shall conform to the gas piping installation requirements as established in this code.

M-608.7. Installation of piping.

M-608.7.1. General: Fuel oil piping shall be installed in a workmanlike manner. The piping shall be installed in accordance with the applicable provisions of this code as it relates to fuel gas piping, underground piping, protection from corrosion, and support.

M-608.7.2. Pipe and fittings: Pipe and fittings shall conform to the material specifications established in section M-601.1, acceptable piping materials, except as provided in the following:

Exception: Flanged or packed joints shall not be used in underground piping except by special permission of the department.

M-608.7.3. Minimum pipe sizes: Pipe used in the installation of domestic-type burners shall not be smaller than ⅜-inch iron pipe size; pipe used in the installation of industrial-type burners shall not be smaller than ½-inch iron pipe size. Suction lines for equipment burning grades no. 5 or no. 6 oil shall not be less than 1½-inch iron pipe size to the inlet of the oil preheater or to within 60 inches of the burner. Copper tubing used in the installation of domestic-type burners where the oil flows by gravity from the tank to the burners shall not be smaller in size than ⅜-inch outside diameter, $^{32}/_{1000}$-inch wall thickness tubing. For other than domestic installations, such copper tubing shall not be smaller than ⅜-inch inside diameter, $^{32}/_{1000}$-inch wall thickness tubing. For industrial-type burners, such copper tubing shall not be smaller in size than the equivalent of the iron pipe size mentioned above, with wall thickness not less than $^{40}/_{1000}$.

M-608.7.4. Stop valves.

M-608.7.4.1. Approved stop valves: Valves shall be constructed so that the stem cannot be withdrawn by the continued operation of the hand wheel.

M-608.7.4.2. Stop valve locations: An approved stop valve shall be installed in any fuel oil line which is so arranged that gravity flow of oil from the storage tank may occur. The locations shall be as follows:

1. Aboveground tanks: outlet of the tank.
2. Underground tanks: near the point where the line enters the building.

M-608.7.4.3. Check valve requirements, return lines: A check valve shall be provided in the return line when the return line extends below the top of the tank.

M-608.7.4.4. Fused valves: An approved fused valve, which automatically closes in the event of fire, shall be installed in each oil supply line as close to the burner as practicable.

History: 1954 ACS 101, p. 126, Eff. Apr. 5, 1980.

R 408.30962 Fuel storage tanks.

Rule 962. Sections M-608.8 to M-608.8.17, tables M-608.8.3 and M-608.8.6, and figures M-608.8.4 and M-608.8.5 of the code are added to read as follows:

M-608.8. Storage tank installations.

M-608.8.1. Integral storage tanks: A tank for the storage of 6 gallons or less of fuel oil shall be considered an integral part of the equipment. This type of installation shall conform to section M-300.13.1.

M-608.8.2. Auxiliary storage tank installation: When an auxiliary storage tank is used in conjunction with a main storage tank, the following installation requirements shall be met:

1. When a pump is used between the storage tank and the auxiliary storage tanks, means shall be provided to return any surplus oil to the main storage tank, or other approved means shall be provided to prevent overflow of the auxiliary storage tank.

2. The top of the auxiliary tanks shall be not less than 6 inches above the top of the main storage tank.

3. The auxiliary tanks shall not be subjected to a pressure above atmospheric unless otherwise approved by the department and shall be vented in accordance with section M-608.8.12 of this code.

M-608.8.3. Allowable storage capacities and types of storage: Maximum storage capacities and types of storage shall be determined by table M-608.8.3.

TABLE M-608.8.3
Maximum Storage Capacities, Locations and Types

Maximum Capacity in Gallons	Location	Restrictions
220 gallons, 4 55-gallon drums	outside, aboveground	• Drums 18-gauge metal construction • Limited to any 1 premises • Equipped with approved hand pump or self-closing faucet
110 gallons, 2 55-gallon drums	inside building or garage on ground floor	• Not placed in areas of ingress or egress • Use of faucets prohibited
275 gallons, single tank	outside, aboveground	• Limited to any 1 premises • Properly vented • Equipped with approved hand pump or self-closing faucet • Used with oil-burning space heaters
550 gallons, 2 275-gallon tanks (aboveground storage in excess of 550 gallons by department approval only)	outside, aboveground	• Limited to any 1 premises • Auxiliary tanks of 25-gallon capacity or more are considered as storage tanks for determining total storage capacity
Unlimited	underground	• Applicable provisions of this section
10,000 gallons	inside building (vaulted storage) (See figure M-608.8.4 for vault construction requirements)	• Permission required by department • Limited to type 2 and type 3 buildings as classified by Michigan state building code • Limited to any 1 premises
15,000 gallons	inside building (vaulted storage) (See figure M-608.8.4 for construction requirements)	• Permission required by department • Limited to type 2 and type 3 buildings as classified by Michigan state building code • Limited to any 1 premises

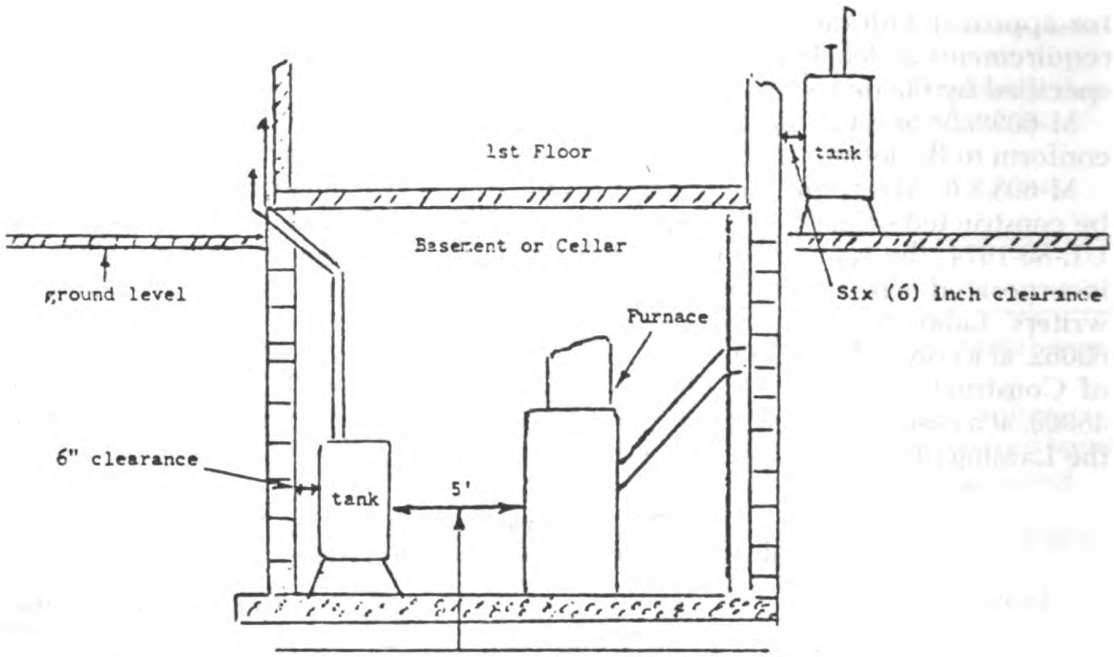
M-608.8.4. Tank vault requirements: When permitted by the department, tanks may be installed in vaults located within the building. Plot plans of the premises and detailed drawings of the vault shall be submitted to the department for approval with the permit application. The vault shall meet the construction requirements as detailed in figure M-608.8.4 or with other requirements as may be specified by the department.

M-608.8.5. Storage locations: The location of the fuel oil storage tank shall conform to the locations, clearances, and cover as detailed in figure M-608.8.5.



M-608.8.6. Metal tank construction: A tank of more than 6-gallon capacity shall be constructed of materials of approved quality and shall be in accordance with UL-80-1974, the standard of underwriters' laboratories, incorporated, which is incorporated herein by reference. This standard may be purchased from Underwriters' Laboratories, Incorporated, 333 Phingsten Road, Northbrook, Illinois 60062, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

FIGURE M-608.8.5 (Cont.)

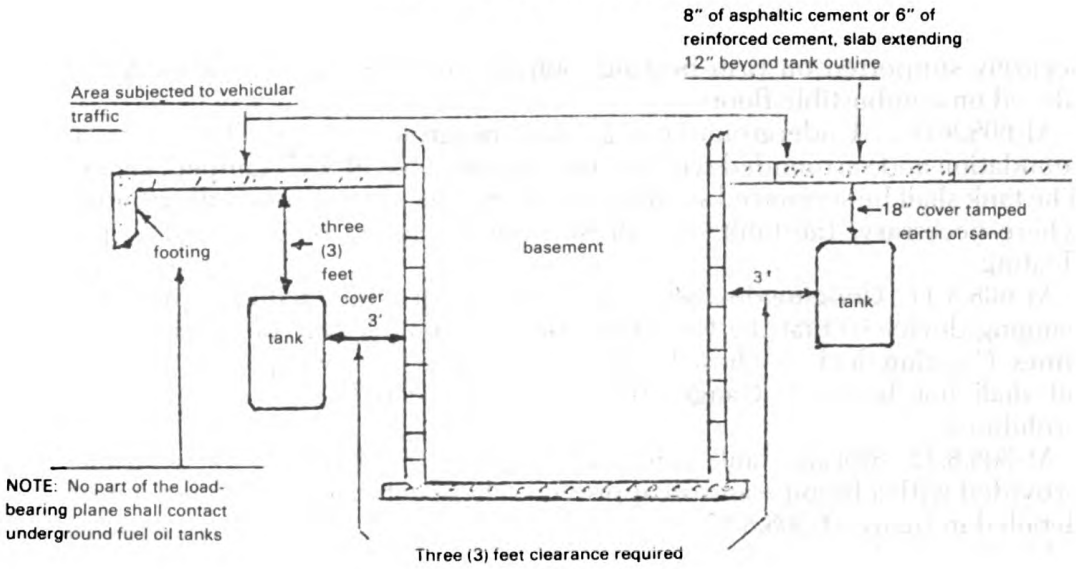

TABLE M-608.8.6
Metal Tank Construction Specifications

Tank Capacity in Gallons	Metal Gauge, Min. U.S. Standard	Joining Requirements
6- 285	14 Gauge	Welded or Riveted
286- 560	12 Gauge	Welded or Riveted
561- 1,100	10 Gauge	Welded or Riveted
1,101- 4,000	7 Gauge	Welded or Riveted
4,001-12,000	¼ Inch	Welded or Riveted
12,001-20,000	5/16 Inch	Welded or Riveted
20,001-35,000	⅜ Inch	Welded or Riveted

(1) Each tank connection shall be reinforced with a welded or riveted pad or flange.
(2) All tanks shall be made corrosion resistant in an approved manner.

M-608.8.7. Storage tank test requirements: A tank shall be tested before installation at 5 pounds air pressure using soapy water as a detecting agent. The test shall be conducted in the presence of a department inspector.

Exception: An aboveground storage tank of 275 gallons or less, or a new listed tank labeled by the listing agency for the service intended, is not required to be tested.

M-608.8.8. Concrete tank construction: For fuel oil having a specific gravity of 40 degrees American petroleum institute or heavier, a tank may be made of concrete with the permission of the department. The tank shall be constructed in accordance with sound engineering practices.

M-608.8.9. Storage tank identification: A listed tank at the time of installation shall be identified by a permanent and prominently affixed tag. The tag shall certify:

- The tank has been tested in accordance with a national standard.
- The thickness of the metal used in the tank's construction.
- The tank capacity in gallons.

• The name of the manufacturer.

M-608.8.10. Tank supports.

M-608.8.10.1. Aboveground tanks: An aboveground tank shall be rigidly and securely supported on firm-bearing, noncombustible supports and shall not be placed on combustible floors.

M-608.8.10.2. Underground tanks: An underground tank shall be set on a firm foundation and surrounded with not less than 6 inches of well-tamped, clean sand. The tank shall be supported so that bearing stresses are uniformly distributed and, where necessary, the tank shall be securely anchored or weighted to prevent floating.

M-608.8.11. Gauging devices: A tank shall be provided with an approved type gauging device so that the fuel oil content of the tank may be determined at all times. Gauging devices whose breakage or derangement will permit the escape of oil shall not be used. Gauge stick openings located inside any building are prohibited.

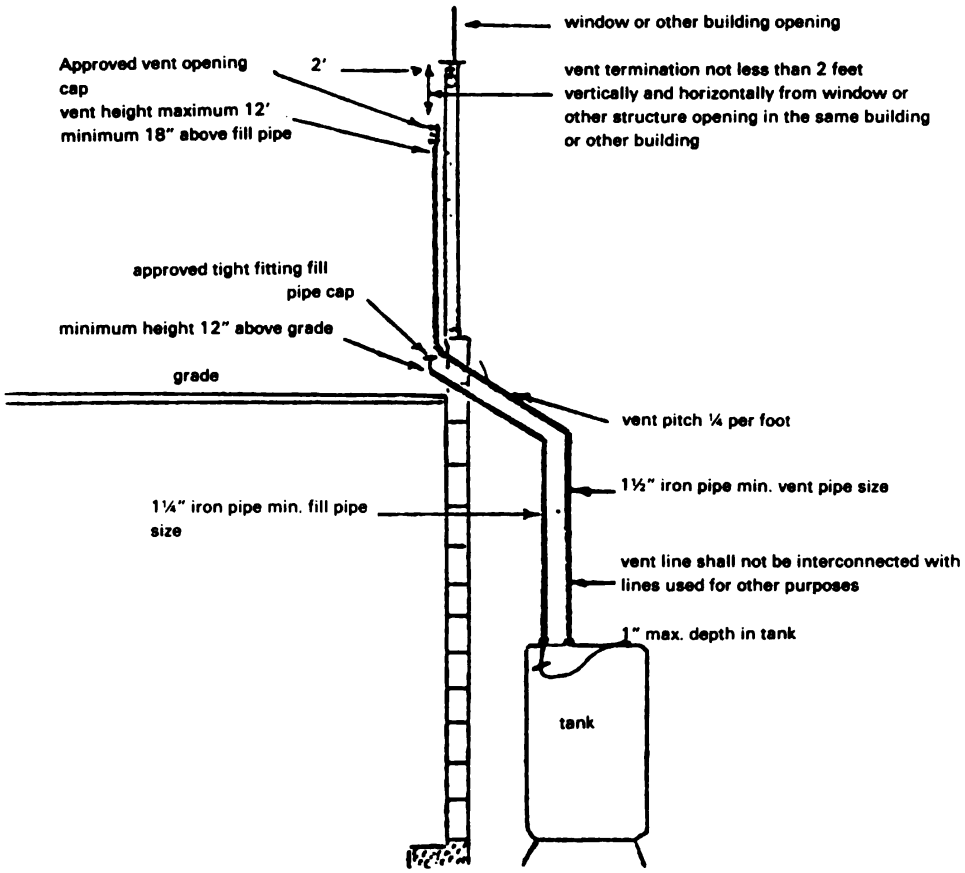
M-608.8.12. Storage tank vent and fill pipe requirements: A tank shall be provided with a fill pipe and an approved relief vent that meets the requirements detailed in figure M-608.8.12.

M-608.8.13. Underground piping to storage tanks: If necessary, swing joints or other arrangements shall be provided in the underground piping to the tank to relieve stress on the piping due to settling or other movements of the tank.

M-608.8.14. Interconnection of storage tanks: The piping of interconnected fuel oil storage tanks shall be so arranged as to preclude the accidental overfilling of one tank from another. Such arrangements may be interlocked 3-way valves on suction and return lines of each tank, adequately sized equalizing lines between tops of tanks, or other methods acceptable to the department.

Two or more aboveground tanks may be connected together below the tops of the tanks only if each connecting line is provided with an approved type check valve so arranged as to prevent cross flow between tanks. Types of check valves that are approved include ball check valves, vertical lift check valves, and swing check valves, the angle of whose seat is not less than 45 degrees from the vertical. All connections and fittings of underground tanks shall be at the top of the tanks.

M-608.8.15. Required tests on tanks and piping: Fuel oil storage tanks and piping that are to be concealed shall be tested for tightness in the presence of a department inspector. See section M-608.8.7. The test shall consist of an air pressure test at 5 psig using soapy water as the detecting agent.



M-608.8.16. Abandoned fuel oil storage tanks: Abandoned aboveground fuel oil tanks shall be removed. Tanks inside buildings may remain, provided that all fuel oil is removed from the tank, the tank outlet is securely capped or plugged at the tank, the fill pipe is plugged or capped inside the building, and the section extending outside the building is removed, and the vent pipe is not altered. Abandoned belowground fuel oil tanks shall be abandoned in accordance with the flammable liquids regulations, being R 28.63 of the Michigan Administrative Code, as promulgated pursuant to Act No. 207 of the Public Acts of 1941, as amended, being §29.1 et seq. of the Michigan Compiled Laws and administered by the Michigan department of state police, fire marshal division. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-608.8.17. Liquefied petroleum gas piping: The installation of gas piping and gas equipment on nonindustrial premises shall be in accordance with NFiPA-54-1974, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a

cost of $4.25 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $4.25 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

FIGURE M-608.8.12
Fill and Vent Pipe Requirements

Other specifications

1. The vent opening and vent pipe shall be designed to prevent abnormal pressure during the filling.

2. If the tank is filled by a pump with tight connections, the vent pipe shall be equal in size to the fill pipe.

3. The lowest horizontal run of vent pipes on multiple tank installations, in those cases where vent pipes are manifold, shall be connected together at a point not less than 1 foot above the highest horizontal manifold of the fill pipe.

4. Fill and vent pipes shall not be run through windows, coal chutes, or other building openings unless such openings are completely closed with noncombustible materials.

History: 1954 ACS 101, p. 129, Eff. Apr. 5, 1960.

R 408.30964 Erection and installation of appliances.

Rule 964. Sections M-609.2, M-609.5, M-609.5.1, M-609.7, and M-609.8 of the code are amended, and sections M-609.2.1 and M-609.2.2 and table M-609.2.2 are added, to read as follows:

M-609.2. Appliance safety devices: A gas-fired appliance shall be provided with approved combustion safeguards and protective devices as established in the following sections.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

M-609.2.1. Combustion safeguards: A gas-fired appliance with input ratings up to 400,000 Btus per hour shall be equipped with an approved combustion safeguard that shuts off the main burner gas supply within 3 minutes after loss of main burner flame or failure of pilot flame.

Exception: Approved combustion safeguards are not required on portable room heaters with hourly inputs of less than 65,000 Btus per hour, provided that the heater is not equipped with a pilot of any type.

M-609.2.2. Limit controls: A gas-fired appliance shall be equipped with approved limit controls that are capable of maintaining the temperature and pressure limits provided in table M-609.2.2.

TABLE M-609.2.2
Maximum Temperature and Pressure Settings

Mechanical warm-air furnace	200 degrees Fahrenheit (except by special permission of the department)
Gravity warm-air furnace	300 degrees Fahrenheit
High pressure steam boiler	Allowable working pressure of the boiler
Low pressure hot water space-heating boiler	250 degrees Fahrenheit
High pressure space-heating hot-water boiler	The temperature corresponding to the maximum allowable working pressure of the boiler
Hot water supply heater or boiler	210 degrees Fahrenheit (except by special permission of the department)

M-609.5. Flexible connectors: Approved flexible metal, fabric and rubber, or rubber tubing listed by a nationally recognized testing agency, permanently equipped with union or screw-type end connectors by the manufacturer, may be used to connect appliances that require mobility during operation and similar uses, such as ironers, dentists torches, and laboratory equipment. Metal connectors may be used to connect ranges, fryers, and appliances or equipment that may require periodic movement as part of its normal maintenance or to reduce the effect of jarring and vibration, or where rigid connections are impractical. Use of the flexible connector shall be dependent on the following requirements:

(a) The flexible connector shall not exceed 6 feet in length and shall be connected to a rigid piping outlet located in the same room as the appliance or equipment.

(b) The flexible connector shall not extend through a partition, wall, or ceiling of a building or structure.

(c) An approved shutoff valve shall be installed at the point where the flexible connector is connected to the rigid piping.

(d) The flexible connector shall not be used in exterior locations.

(e) The flexible connector may be connected to the building piping by means of an approved quick-disconnect device. A manual shutoff valve shall be installed upstream of the quick-disconnect device.

M-609.5.1. Semi-rigid tubing: Approved semi-rigid tubing listed by a nationally recognized testing agency may be used to connect appliances or equipment if the following conditions are met:

Digitized by Google

(a) The tubing shall have a nominal diameter not less than the outlet connection to the appliance or equipment manifold.

(b) The tubing shall not exceed 6 feet in length and shall be connected to a rigid piping outlet located in the same room as the appliance or equipment. When acceptable to the serving gas supplier, greater lengths may be used and need not be connected to a rigid piping outlet located in the same room as the appliance.

(c) An approved shutoff valve shall be installed at the point where the tubing is connected to the rigid piping.

(d) The tubing shall be installed so as to be protected against physical damage.

(e) The tubing shall be properly secured to joists and walls.

(f) Aluminum alloy semi-rigid tubing and connectors shall be factory-coated to protect against external corrosion where they are in contact with masonry, plaster, or insulation or are subject to repeated wettings by such liquids as water, except rain water, detergents, or sewage. Aluminum alloy tubing shall not be used in exterior locations.

M-609.7. Gas low pressure cut-out valve: A gas appliance, pump, or similar apparatus that is capable of producing a vacuum in the gas service pipe shall not be installed unless a low pressure cut-out valve or other suitable device is provided to prevent the gas pressure at the gas meter outlet from being reduced below 3 inches water column pressure.

M-609.8. Gas high pressure cut-out. When air or oxygen under pressure is used in connection with the gas supply, effective means, such as a back pressure regulator and relief valve, shall be provided to prevent air or oxygen from passing back into the gas piping. The serving gas supplier shall be consulted for details. When oxygen is used, see NFiPA-51-1974, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 135, Eff. Apr. 5, 1980.

R 408.30965 Required air for combustion, ventilation, and draft hood dilution.

Rule 965. Section M-610.5 of the code is amended to read as follows:

M-610.5. Special conditions created by mechanical exhausting or fireplace: Operation of exhaust fans, kitchen ventilation systems, clothes dryers, or fireplaces may create negative pressure conditions. If so, special consideration shall be given to correcting the unsatisfactory operation of installed gas appliances as detailed in section M-624.4.1.

History: 1954 ACS 101, p. 137, Eff. Apr. 5, 1980.

R 408.30966 Fuel-fired appliances.

Rule 966. Section M-612.5 of the code is amended, and sections M-612.5, M-612.5.1, M-612.5.2, M-612.5.3 and tables M-612.5.1 and M-612.5.2 are added, to read as follows:

M-612.5. Clearance: Clearance to, and accessibility of, all fuel-fired appliances, except gas-fired incinertors, shall be in accordance with the requirements of this section. A gas-fired incinerator shall conform to the requirements of section M-901 and M-902.

M-612.5.1. Clearances for gas and oil-fired appliances and equipment: The minimum clearances from combustible construction of gas and oil-fired appliances and equipment shall be as set forth in table M-612.5.1, except that appliances or equipment listed or approved for other minimum clearances, the listed clearances shall apply. See article 7 for minimum clearances from combustible construction for vents and chimney connectors, gas vents, chimneys, and stacks.

M-612.5.2. Clearances for unlisted appliances and equipment. Unlisted fuel-burning appliances and equipment shall be installed to maintain the minimum clearances to combustible materials as provided in table M-612.5.1 or in table M-612.5.2. See article 7 for minimum clearances for vent and chimney connectors, gas vents, flues, chimneys, and stacks.

M-612.5.3. Reduced clearances: Except for front clearances, the clearances from combustible construction as set forth in table M-612.5.1 may be reduced, as indicated in table M-612.5.2, when the combustible construction is protected as detailed in figures M-612.5.2.1 and M-612.5.2.2.

TABLE M-612.5.1
Minimum Clearances for Unlisted Appliances and Equipment

Type of Appliance or Equipment	Clearance Requirements				
			Floor		Slides and Rear
	Top	Front	Combustible	Noncombustible	
Gas-fired furnaces and boilers serving no more than 2 family units	6 in.	18 in.	6 in.	0	6 in.
Oil-fired furnaces and boilers serving no more than 2 family units	6 in.	24 in.	18 in.	0	6 in.
Other appliances or equipment with flue exit temperature of 600 degrees Fahrenheit or less	18 in.	48 in.	2 hr. fire resistance extending 12 in. on all sides	2 hr. fire resistance extending 12 in. on all sides	18 in.
Other appliances or equipment with flue exit temperature of 600 degrees Fahrenheit to 1000 degrees Fahrenheit	48 in.	96 in.	3 hr. fire resistance extending 36 in. on all sides	3 hr. fire resistance extending 36 in. on all sides	36 in.
Appliances or equipment with flue exit temperature of over 1000 degrees Fahrenheit	15 ft.	30 ft.	4 hr. fire resistance extending 10 ft. on all sides	4 hr. fire resistance extending 10 ft. on all sides	10 ft.

TABLE M-612.5.2
Reduced Clearances for Low-Heat Appliances

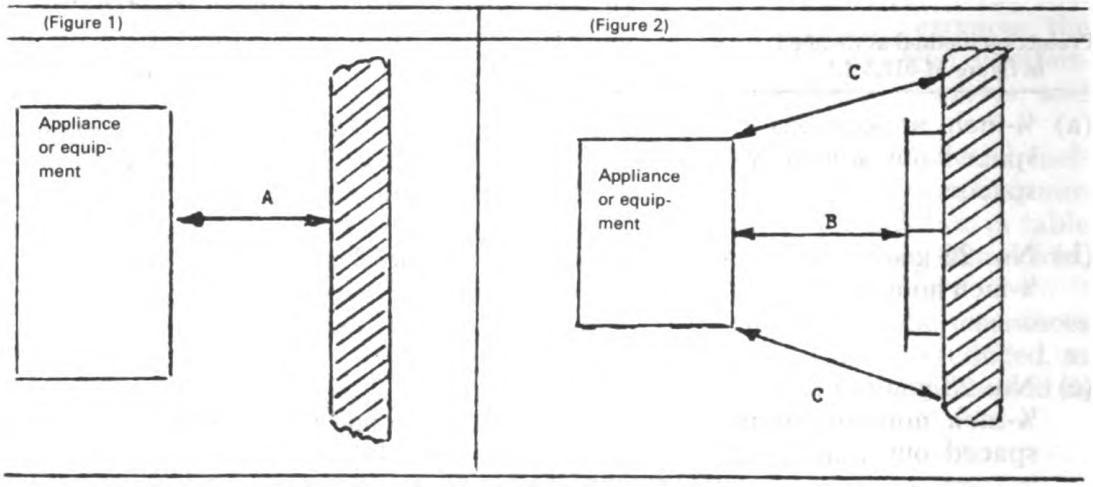
Protection method as detailed in figure M-612.5.2.1	Required clearances as specified in table M-612.5.1	
	18 Inches	6 Inches
(a) ¼-inch noncombustible mineral board spaced out 1 inch with noncombustible spacers	Top 15 inches sides and rear 9 inches	Top 3 inches sides and rear 2 inches
(b) No. 28 gauge galvanized sheet metal on ¼-inch noncombustible mineral board	Top 12 inches sides and rear 9 inches	Top 4 inches sides and rear 3 inches
(c) No. 28 gauge galvanized sheet metal on ⅛-inch noncombustible mineral board spaced out 1 inch with noncombustible spacers	Top 9 inches sides and rear 6 inches	Top 4 inches sides 2 inches

Note: All clearances shall be measured from the outer surface of the appliance or equipment to the combustible material.

Note: Coverage of combustible material shall conform to the requirements detailed in figure M-612.5.2.2.

FIGURE M-612.5.2.1
Protection Methods for Combustible Materials

(a) ¼-inch noncombustible mineral board
(b) 1-inch noncombustible spacers
(c) combustible construction



(a) No. 28 gauge galvanized sheet steel
(b) ¼-inch noncombustible mineral board
(c) combustible construction

(a) No. 28 gauge galvanized sheet steel
(b) ⅛-inch noncombustible mineral board
(c) 1-inch noncombustible spacers
(d) combustible construction

Area to be covered by protection shall conform to the requirements of figure M-612.5.2.2.

FIGURE M-612.5.2.2
Minimum Area Requirements for Coverage of Combustible Construction

In figure 1, A equals the required clearance with no protection as specified in table M-612.5.1.
In figure 2, B equals the reduced clearance permitted in table M-612.5.2.
In figure 2, C is the minimum area to be covered, C shall not be less than the clearance requirements for A as specified in table M-612.5.1.

History: 1954 ACS 101, p. 137, Eff. Apr. 5, 1980.

R 408.30967 Gas ranges, plates, and commercial cooking appliances.

Rule 967. Sections M-613.0, M-613.1, M-613.3, and M-613.3.1 of the code are amended to read as follows:

M-613.0. Gas ranges, plates, and commercial cooking appliances.

M-613.1. Prohibited installations: Gas ranges and plates shall not be installed in bedrooms or other rooms not adequately ventilated, and shall not be used for space heating purposes.

M-613.3. Commercial cooking appliances, such as, but not limited to, hotel and restaurant ranges, baking and roasting ovens, deep fat fryers, hot plates, griddles, steam cookers and generators, and gas-fired kettles shall conform to the following requirements:

(a) The appliances shall be installed in an accessible location.

(b) The installation shall conform to the applicable requirements for piping and ventilation as stated in this article and section M-320.0.

(c) Appliances shall be installed in accordance with the terms of their listing and manufacturer's instructions for clearances from combustible materials and other special installation requirements.

(d) When unlisted appliances are to be installed, a plan of how the appliances are to be installed, such as, but not limited to, clearances from combustible construction, piping, and ventilation shall be submitted to the department for review and approval prior to the installation of the appliances.

M-613.3.1. Restrictions: The following restrictions shall apply to the installation of commercial cooking appliances:

(a) The use of liquefied petroleum gas or liquid fuel is prohibited unless approved by the department.

(b) Appliances designed and marked "For use only in fire-resistive locations" shall not be installed elsewhere.

History: 1954 ACS 101, p. 140, Eff. Apr. 5, 1980.

R 408.30968 Gas refrigerators.

Rule 968. Section M-614.1 of the code is amended to read as follows:

M-614.1. General: A gas refrigerator shall be provided with adequate clearances for ventilation at the top and back. It shall be installed in accordance with the manufacturer's instructions. If such instructions are not available, not less than 2 inches shall be provided between the back of the refrigerator and the wall and not less than 12 inches above the top.

History: 1954 ACS 101, p. 140, Eff. Apr. 5, 1980.

R 408.30969 Fuel-fired water heater.

Rule 969. Section M-615.1 of the code is amended to read as follows:

M-615.1. Prohibited installations: A fuel-fired water heater, except one having a direct vent system, shall not be installed in a bathroom, a bedroom, or any occupied room normally kept closed.

History: 1954 ACS 101, p. 140, Eff. Apr. 5, 1980.

R 408.30971 Fuel conversions.

Rule 971. Sections M-621.5, M-621.6, M-621.7, and table M-621.7 of the code are added to read as follows:

M-621.5. Additional requirements: In addition to the requirements stated in the preceding sections, the applicable requirements contained in section M-315.0 and appendix B shall be followed for the installation of fuel conversions.

M-621.6. General: An approved gas regulator of sufficient size shall be installed in the gas line at the liquefied petroleum gas bulk tank, except when such installation would be detrimental to the safe operation of the gas burner. Where the department has given permission to not use a main gas pressure regulator, an approved control requiring manual resetting shall be installed in the gas line so as to shut off the gas to the burner in the event of excessive gas pressure.

M-621.7. Venting of appliance gas pressure regulators: An appliance regulator used on conversion burners requiring access to the atmosphere for operation may be vented as follows:

(a) The regulator may be vented into the combustion chamber if the conversion burner is equipped with a constant burner pilot. The vent shall be so positioned that any gas leaking from the atmospheric side of the regulator will be carried to, and ignited by, the pilot.

(b) A vent-limiting device may be used to vent the regulator if the regulator and limiting device conform to the specifications contained in table M-621.7.

(c) On a burner where no constant burning pilot is provided, the regulator shall be vented to the vent connector on the chimney side of the diverter or shall be vented directly to the outside atmosphere and provided with means to prevent closure or stoppage.

(d) Diaphragm control valves may be also vented in accordance with (a) and (c).

(e) A conversion burner using liquefied petroleum gas shall have the appliance regulator vented to a safe outdoor location and provided with means to prevent closure or stoppage.

History: 1954 ACS 101, p. 140, Eff. Apr. 5, 1960.

R 408.30972 Clothes dryers.

Rule 972. Sections M-622.0, M-622.1, and M-622.2 of the code are amended to read as follows:

M-622.0. Clothes dryers.

M-622.1. Approval: All equipment shall be installed in accordance with its approval and the manufacturer's instructions and the applicable requirements of section M-323.0.

M-622.2. Ventilation: Adequate means shall be provided to properly ventilate the room or space in which the clothes dryer is installed and to permit proper combustion of the fuel.

History: 1954 ACS 101, p. 141, Eff. Apr. 5, 1960.

R 408.30974 Fuel-fired industrial type equipment.

Rule 974. Sections M-624.4, M-624.5, M-624.7.1, M-624.9.3, M-624.10.1, M-624.10.2, M-624.10.3, M-624.10.4, M-624.11.1, M-624.11.2, M-624.11.3, M-624.11.4, M-624.12.1, M-624.12.4, M-624.12.6, M-624.12.7, M-624.12.8, M-624.12.9, M-624.13.2, M-624.15.1, M-624.15.3, M-624.24.1, M-624.25.1.1, M-624.25.2, M-624.26.1, M-624.26.2, and M-624.28 of the code are amended, and sections M-624.4.1, M-624.4.1.1, M-624.4.1.2, M-624.6.3, M-624.13.4, M-624.13.5, and table M-624.10.3 are added, to read as follows:

M-624.4. Combustion and ventilation air: Oil- and gas-burning equipment shall be installed in a location where the facilities for ventilation permit safe combustion of fuel and proper venting under normal conditions. When the building space in which such equipment is installed does not have adequate air infiltration to assure the foregoing, then 1 or more permanent openings to the outdoors or to spaces freely communicating to the outdoors shall be provided. Such openings are to be sized and located in accordance with accepted engineering practice.

For rooms large in comparison with the equipment, the following minimum sizes of louvered openings or screened openings, or both, for the inputs indicated are recommended, but in no case shall be less than .05 square foot of the free area per 1,000,000 Btus per hour input:

Actual Input		
Btu/hr. Gas	Gals./hr. Oil	Gross Area of Opening in Square Feet
Up to 400,000	3	1.00
500,000	3.5	1.25
1,000,000	7	2.50
1,500,000	10.5	3.75
2,000,000	14	5.00
2,500,000	18	6.25

Actual Input		
Btu/hr. Gas	Gals./hr. Oil	Gross Area of Opening in Square Feet
Up to 3,000,000	21	7.50
3,500,000	25	8.75
4,000,000	28	10.00
4,500,000	32	11.25
5,000,000	35	12.50
6,000,000	42	15.00
7,000,000	49	17.50
8,000,000	56	20.00
9,000,000	63	22.50
10,000,000	70	25.00

The requirements contained herein apply only to equipment located in spaces where no adverse negative pressure conditions prevail. Where such adverse conditions prevail, the outside air requirements specified in section M-624.4.1 shall apply in addition to those required herein.

M-624.4.1. Negative pressures: A building or room in which fuel-fired equipment requiring venting of the products of combustion to the outside air is installed, and in which mechanical air-exhausting devices cause back drafting of flues, shall be provided with 1 of the following means of preventing such back drafting:

M-624.4.1.1. Exhausting 2,000 cfm or more: Where air volumes of 2,000 cfm or more are exhausted, clean tempered make-up air at least equal in volume to that being exhausted shall be supplied. Air-exhausting devices shall be so interlocked with the required make-up air devices that they cannot operate unless the make-up air devices are in operation.

M-624.4.1.2. Exhausting less than 2,000 cfm: Where air volumes less than 2,000 cfm are exhausted, sufficient tempered make-up air as specified in section M-624.4.1.1. shall be supplied, or power-exhausting devices shall be installed in the flues of fuel-fired equipment in accordance with the following requirements:

1. The fan shall be of a type, such as centrifugal, that can deliver the required air flow at the correct resistance pressure of the venting system, including the room negative pressure, but in no case shall it have a static pressure rating of less than ¼-inch water column at the required air flow. Propeller fans and venturi ejector devices are not acceptable for the correction of negative pressure conditions in buildings or rooms. These devices may be used to assist in the venting of products of combustion where negative pressure conditions do not prevail in buildings or rooms in accordance with the provisions of article 7.
2. The fan shall be constructed and designed to withstand continuous operation and the flue temperatures of the equipment on which it is installed.
3. The fan shall have sufficient capacity to exhaust a minimum air flow of 8 cfm per 10,000 BTU hourly rated input of the equipment.
4. The chimney or vent connector between the equipment vent collar and the fan shall not be reduced in size, except where necessary at the inlet connection of the fan.
5. The power exhausting installation shall incorporate an approved means, such as electrically interlocked air-flow sensing devices, to cause continuous operation of the fan when the fuel control circuit of the equipment is energized.

M-624.5. Process air: In addition to air needed for combustion, sufficient process air shall be provided as required for: cooling equipment, controlling dew point, heating, drying, oxidation or dilution, safety exhaust, draft hood operation, odor control, and compressors.

M-624.6.3. Clearances: The clearance requirements provided in section M-612.5 shall be followed for the installation of industrial appliances and equipment.

M-624.7.1. Draft: Adequate means for limiting draft shall be installed on equipment, if necessary. When a damper is used to limit chimney draft, positive means shall be provided to lock the damper in position.

M-624.9.3. Automatic air control: Where an automatically operated air control is provided on automatically lighted equipment, the arrangement shall be such that in case of failure, safe combustion shall continue or the gas shall be shut off.

M-624.10.1. General: Each main burner shall be equipped with an automatic ignition system to assure safe and reliable ignition. Where multiple jet-type burners or burner heads operate as a unit, a sufficient number of ignition systems shall be used to accomplish proper ignition.

M-624.10.2. Flame safeguard: A flame safeguard so constructed and installed that gas cannot flow to the main burner or burners unless satisfactory ignition is assured shall be employed at each burner or burners operating as a unit. Such flame safeguard shall be provided for automatically lighted equipment. Gas to main burner and to intermittent or ignition pilots shall be automatically shut off in case of flame failure at point of supervision.

M-624.10.3. Response time: The response time of the flame safeguard to deenergize the gas shutoff device on flame failure shall not exceed the minimum safety control timing provided in table M-624.10.3. Pilot supervision by such flame safeguard shall be only at the point where the flame effectively ignites the gas at the main burner or burners. The circuit and devices shall be arranged so that the gas will shut off in case of electrical failure.

TABLE M-624.10.3
Maximum Safety Control Timings

Program	Maximum Firing Rate Per Combustion Chamber in Million BTUs Per Hour		
	2.5 or less	Over 2.5 to 12.5	Over 12.5
Pilot flame-establishing period	15 seconds	10 seconds	10 seconds
Main burner flame-establishing period (if required)	15 seconds*	10 seconds*	10 seconds*
Flame failure response time	4 seconds	4 seconds	2 seconds
Valve closing time	5 seconds	5 seconds	1 second

*Main burner flame-establishing period may be 30 seconds for burners other than power burners equipped with a safety shutoff valve having a full opening time of not less than 25 seconds.

Exception: Cast iron sectional boilers with rated inputs not exceeding 400,000 BTUs per section and whose combined input rating does not exceed 2,500,000 BTUs per hour may be equipped with an approved combustion safeguard that shall shut off the main burner gas supply within 3 minutes after loss of main burner flame or pilot flame failure.

M-624.10.4. Electric ignition: An electric ignition system shall ignite only a pilot. The input to the pilot shall not exceed 3% of the maximum input to the main burner as fired. If ignition of the pilot is not obtained within 60 seconds, the pilot gas shall be turned off automatically or remotely controlled ignition systems shall be supervised as specified by section M-624.10.2.

M-624.11.1. Pilot lines: Pilot lines shall be connected to vertical main gas supply lines or to the sides or top of horizontal lines upstream from all gas control valves for each boiler and shall be independently controlled by means of a manually operated pilot firing valve. In multiple-burner installations, a manually operated pilot firing valve shall be provided for each pilot.

M-624.11.2. Multiple burners: In multiple burner installations, a manual shutoff valve shall be provided for each main and each pilot burner except those utilizing a single zero governor inspirator mixer for several burners, in which case this shutoff valve shall be located at a point immediately upstream of the zero governor. The shutoff valve handle shall be permanently attached and parallel to the gas flow in the open position.

M-624.11.3. Shutoff valve (main burner): A manually operated main burner shutoff valve of the lubricated plug-type with handle permanently attached shall be installed in the line supplying all main burners of each burner. A union shall be provided on the outlet side of the valve to permit removal of controls or equipment.

M-624.11.4. Shutoff valve (multiple burner): For multiple equipment installations, a manually operated shutoff valve of the lubricated plug-type with handle permanently attached shall be installed in the main line to each piece of equipment. It shall be readily accessible and shall clearly indicate the "on" and "off" positions.

M-624.12.1. Location: Equipment input control valves shall be installed downstream from the manual shutoff valve.

M-624.12.4. Safety shutoff valves: Each main burner supply line shall be equipped with a safety shutoff valve or valves which will close independent of external force and with sufficient closing force to provide tight shutoff under normal operating conditions. If the maximum firing rate per combustion chamber exceeds 2,500,000 BTUs per hour, the main burner supply line shall be shut off with 2 safety valves in series. The safety valves shall be suitable for the application and shall have a shutoff time not to exceed that specified in table M-624.10.3. They shall be constructed so that they cannot be restrained or blocked in the open position. Such valves shall close upon being deenergized regardless of the positions of the damper-operating levers or reset handles. When a pressure-operated safety shutoff valve is used, the valve shall close upon failure of its operating pressure.

M-624.12.6. Gas tightness: Permanent and ready means for making easy, accurate, periodic tightness tests of the main burner gas safety shutoff valves shall be provided in the piping.

M-624.12.7. Manually lighted equipment: For manually lighted equipment, either the safety shutoff valve shall incorporate means for reopening the valve after it has closed, or the electrical circuit shall be arranged to require a manual operation to reopen the valve after it has closed. Such valves shall indicate the open and closed positions.

M-624.12.8. Locked by-pass: A locked by-pass to provide for minimum flame may be installed around a valve used to control only equipment input. A by-pass shall not be installed around a safety shutoff valve or a combination input control and safety shutoff valve.

M-624.12.9. Pressure rating manual valves: All manual pilot and main burner valves shall be capable of withstanding, without leaking, a pressure of not less than 10% above the relieving pressure of the nearest upstream relief device or the maximum inlet pressure of the nearest upstream gas pressure regulator, or the maximum setting of the overpressure protection device.

M-624.13.2. Pressure: The gas pressure to each fuel input control, when required under section M-621.6, shall be regulated within plus or minus 10% of the operating pressure at all firing rates.

M-624.13.4. Overpressure protection: When failure of a pressure regulator could produce downstream pressures which might result in hazardous conditions, such as, but not limited to, overpressuring of controls or piping, causing gas leaks, increased burner inputs, resulting in improper combustion, damage to equipment, the downstream piping system shall be provided with adequate overpressure protection. See section M-624.19.10.

M-624.13.5. Pressure regulators and pressure interlocks: If the maximum firing rate per combustion chamber exceeds 2,500,000 BTUs per hour, low- and high-gas pressure switches shall be provided and interlocked to effect safety shutdown in the event of either low- or high-gas pressure. Pressure settings shall be adjusted by the installer in accordance with the burner manufacturer's instructions. Pressure switches that require venting to the outside atmosphere shall be vented in accordance with section M-624.19.10.

M-624.15.1. Pressure-temperature safety devices: Automatically lighted equipment shall be provided with safety devices to prevent excessive steam pressures, water temperatures, or air temperatures. The safety devices used shall be capable of controlling the pressures of temperatures as required by the manufacturer's specifications or the terms of their listing. See table M-609.2.2 for maximum temperature settings for boilers and space heating equipment.

M-624.15.3. Limit controls or low-water cutoffs located in main electrical supply: When a limit control or low-water cutoff is used to interrupt the main electrical supply to the burner, the control shall be so arranged as to open the main electrical supply to the burner, whether the switching is integral with the sensing element or remote from it.

M-624.24.1. General: After the piping and equipment have been thoroughly purged, constant burning pilots shall be lighted and properly adjusted according to the equipment manufacturer's instructions, and the main burners shall be put into operation in accordance with the manufacturer's instructions and operating procedures.

M-624.25.1.1. Burner flames shall not flash outside the equipment when the gas is turned on or off.

M-624.25.2. Main burner: Main burner gas shall ignite freely from the ignition means within the operating range of the burner.

M-624.26.1. Test: All automatic safety shutoff gas valves shall be tested for gas tightness while in the closed position before being placed in service.

M-624.26.2. Proper operation: The flame safeguard equipment and various other controls of the equipment shall be checked to ensure their proper operation.

M-624.28. Liquid fuel, solid fuel, liquefied petroleum gas, and liquefied petroleum air gas: The installation of liquid fuel, solid fuel, or liquefied petroleum gas-fired appliances and their appurtenances shall conform to the applicable requirements of this code and in accordance with NFiPA-31-1974, NFiPA-54-1974, NFiPA-58-1976, NFiPA-85-1976, NFiPA-85B-1976, NFiPA-85D-1976, NFiPA-85E-1974, the standards of the national fire protection association, which are incorporated herein by reference. These standards may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $4.00, $4.25, $5.00, $4.00, $4.00, $4.00, and $4.00, respectively, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $4.00, $4.25, $5.00, $4.00, $4.00, $4.00, and $4.00, respectively, plus mailing costs. These

standards may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 141, Eff. Apr. 5, 1980.

R 408.30980 Miscellaneous gas burning appliances.

Rule 980. Sections M-625.1, M-625.3, M-625.5.1, M-625.5.3, M-625.7, M-625.8, M-625.9, and M-625.10 of the code are amended to read as follows:

M-625.1. Outdoor gas appliances: All outdoor-type appliances shall be installed in accordance with their listings or approval and the manufacturer's instructions.

M-625.3. Venting of outdoor appliances: The venting requirements of section M-715.0 need not apply to outdoor appliances unless required by the terms of their listing or approval.

M-625.5.1. A gas light installed outdoors shall be installed with clearance from combustible material of not less than 12 inches in any direction. A gas light installed indoors shall be installed with clearance from combustible material of not less than 18 inches in any direction.

M-625.5.3. A gas-fired infrared heater installed as a patio heater shall be installed with clearance to combustibles in accordance with their listings. Provisions shall be made for adequate air supply for ventilation and combustion. See section M-312.0 for other applications.

M-625.7. A gas light post: A gas light post shall be constructed of materials which afford adequate strength and rigidity. The post shall be placed not less than 18 inches into the ground and encased in concrete not less than 15 inches deep and 2 inches on all sides.

M-625.8. Gas grills permanently mounted: The post on a permanently installed grill shall be placed not less than 18 inches into the ground and encased in concrete not less than 15 inches deep and 2 inches on all sides. The post of a flange-mount type grill shall be secured to the concrete slab, or equivalent, patio floor.

M-625.9. Gas grills, portable: Approved gas hose may be used for connecting a portable outdoor grill. The gas hose shall not exceed 15 feet in length and shall have a gas pressure drop not exceeding 0.5 inch water column. The gas hose shall be permanently equipped with an approved quick disconnect coupling of the automatic shutoff type. An accessible approved shutoff valve shall be installed adjacent to the quick disconnect coupling. The gas hose and the quick disconnect coupling shall be installed between the shutoff valve and the grill.

M-625.10. Wood burning fireplace log lighters: An approved log lighter for a wood burning fireplace shall have a gas input not to exceed 30,000 BTUs per hour. The lighter shall be provided with a timing device that permits gas flow for a period not to exceed 1 hour. An approved manual shutoff valve shall be installed adjacent to the appliance. Valves and controls shall be accessible.

History: 1954 ACS 101, p. 145, Eff. Apr. 5, 1980.

R 408.30981 General.

Rule 981. Sections M-700.4.2 and M-700.9 of the code are amended to read as follows:

M-700.4.2. When a power exhauster is used, provision shall be made to automatically shut off the fuel supply to the appliance in the event of failure of the exhauster.

M-700.9. Limited accessibility: In buildings where the existing chimney can only be reached through a crawl space of less than 3 feet in height for inspection

and cleaning, a new chimney or vent shall be constructed, unless otherwise approved by the administrative authority.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30982 Masonry chimneys for domestic-type incinerators.

Rule 982. Section M-706.0 of the code is amended to read as follows:

M-706.0. Masonry chimneys for domestic-type incinerators.

M-706.1. General: Masonry chimneys for domestic gas-fired incinerators shall be constructed in accordance with the requirements for chimneys for low-heat appliances. See section M-703.0.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30984 Installation requirements for vents.

Rule 984. Section M-716.1.3 of the code is amended to read as follows:

M-716.1.3. A gas vent shall terminate at an elevation of not less than 12 feet above the bottom of the wall furnace being served, unless otherwise listed and approved.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30986 Chimney connectors and vent connectors.

Rule 986. Section M-717.2.3 of the code is amended, and section M-717.2.3.1 is added, to read as follows:

M-717.2.3. Size: The connector for its entire length shall not be smaller than the flue collar of the appliance, unless 1 of the following conditions exists:

(a) The reduction is part of an approved engineered venting system.

(b) The reduction is recommended by the appliance, chimney, or vent manufacturer.

(c) The appliance is converted from one fuel to another.

(d) The design input to the appliance is decreased by a reduction in pressure to the main burner or burners' orifice size for reasons of energy conservation, and shall be in accordance with NFiPA-54-1974, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $4.25 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $4.25 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-717.2.3.1. Approved methods for connector size reduction: The reduction in connector size shall be based on sound engineering practices, that is, acceptable limits of oxygen, carbon dioxide, and carbon monoxide in the flue gas analysis, and the approval of the department. The reduction shall not reduce the effective area of the connector below the point that impairs the combustion process of the fuel being used, or cause spillage of flue gases at the draft hood. The reduction in the connector size for section M-717.2.3(c) and (d) shall be by an approved orifice plate or other approved restrictors inserted in the connector.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30988 Refrigeration equipment; installation.

Rule 988. Section M-810.3.1 of the code is amended, and section M-810.12.6 is added, to read as follows:

M-810.3.1. Accessibility of equipment: Where refrigeration equipment is installed in relatively inaccessible locations, such as roofs, crawl spaces, attics, furred spaces, and similar areas, means shall be provided for gaining safe approach and access to such equipment for servicing, maintenance, and inspection in accordance with requirements for appliances in sections M-305, M-306, and M-307.

M-810.12.6. Noise nuisance: Noise nuisance may be a consideration when locating refrigeration machinery outside. Refer to local ordinance.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30989 Refrigerant containers.

Rule 989. Section M-812.3.2 of the code is amended to read as follows:

M-812.3.2. Containers used for refrigerants withdrawn from a refrigerating system shall be carefully weighed each time they are used for this purpose, and the containers shall not be filled in excess of the permissible filling weight for such containers and such refrigerants as are prescribed by the United States department of transportation in accordance with DOT-49 CFR, "Transportation Parts 100 to 199," revised as of October 1, 1974, which is incorporated herein by reference. This standard may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402, at a cost of $8.25 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $8.25 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 146, Eff. Apr. 5, 1980.

R 408.30990 Crematories and incinerators; inspection.

Rule 990. Section M-900.3 of the code is amended to read as follows:

M-900.3. Annual inspection: All crematories and all incinerators, except class 1, class 1A, and domestic, may be inspected annually by the department.

History: 1954 ACS 101, p. 147, Eff. Apr. 5, 1980.

R 408.30992 Commercial and industrial incinerators.

Rule 992. Sections M-902.1.8, M-902.3.3, and M-902.3.4 of the code are amended to read as follows:

M-901.1.8. Operating instructions: The incinerator operator shall follow the written instructions of the manufacturer. One copy shall be protected from soiling and posted in the incinerator room.

M-902.3.3. Spark screen: A spark screen is not required when a gas washer is installed, unless a by-pass of the gas washer is incorporated. Also see section M-708.5.

M-902.3.4. Prohibition: An incinerator shall not be vented into a chimney or vent serving any other appliance, unless approved by the department.

Exception: Gas-fired domestic incinerators.

History: 1954 ACS 101, p. 147, Eff. Apr. 5, 1980.

R 408.30993 Fireplaces.

Rule 993. Section M-905.14 is amended, and section M-905.16 is added, to read as follows:

M-905.14. Other type fireplaces and fireplace stoves: Other fireplaces and fireplace stoves not conforming to the requirements of this section shall be subject

to approval by the administrative authority prior to installation. Imitation fireplaces shall not be used for the burning of gas, solid, or liquid fuel. Approved factory-built fireplaces and fireplace stoves may be installed and shall conform to the applicable portions of this code. Factory-built fireplaces and fireplace stoves shall bear the seal of a nationally recognized testing or inspection agency and shall be installed in accordance with NFiPA-211-1977, the standard of the national fire protection association, which is incorporated herein by reference. This standard may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $3.00 each, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $3.00 each plus mailing costs. This standard may be inspected at the Lansing office of the Michigan department of labor.

M-905.16. Gas-fired appliances used in fireplaces: See sections M-300.13.3 and M-300.13.9.

History: 1954 ACS 101, p. 147, Eff. Apr. 5, 1980.

R 408.30994 General.

Rule 994. Section M-1000.1 of the code is amended to read as follows:

M-1000.1. Scope: The provisions of this article govern the installation, repair, and maintenance of fire suppression systems in all occupancies except 1- and 2-family dwellings, shall be in accordance with NFiPA-13-1976, installation of sprinkler systems and NFiPA-13A-1976, recommended practice for the care and maintenance of sprinkler systems, standards of the national fire protection association, which are incorporated herein by reference. These standards may be purchased from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, at a cost of $5.00 and $3.00, respectively, or from the Michigan Department of Labor, Bureau of Construction Codes, 7150 Harris Drive, P.O. Box 30015, Lansing, Michigan 48909, at a cost of $5.00 and $3.00, respectively, plus mailing costs. These standards may be inspected at the Lansing office of the Michigan department of labor.

History: 1954 ACS 101, p. 147, Eff. Apr. 5, 1980.

R 408.30995 Water supply and other extinguishing supply media.

Rule 995. Section M-1015.1 of the code is amended to read as follows:

M-1015.1. Required: Fire suppression and standpipe systems shall be provided with at least 1 automatic supply of extinguishing material of adequate pressure, capacity, and reliability to perform the function intended. A dry standpipe system without the automatic supply of extinguishing media may be approved by the administrative authority.

History: 1954 ACS 101, p. 148, Eff. Apr. 5, 1980.

R 408.30996 Scope.

Rule 996. Section M-1100.1 of the code is amended to read as follows:

M-1100.1. General: The emission of air pollutants within this jurisdiction is governed and administered by the Michigan department of natural resources and does not constitute a part of this code.

History: 1954 ACS 101, p. 148, Eff. Apr. 5, 1980.

R 408.30997 Appendix A.

Rule 997. Reference standards agencies: The following agencies promulgate standards referenced in the code and are added to read as hereinafter set forth.

PART 10. ENERGY CONSERVATION IN NEW BUILDING DESIGN

R 408.31001 Standard incorporated by reference; examination and purchase of standard.

Rule 1001. (1) Rules governing the following subjects shall be those contained in the standard for energy conservation in new building design, ASHRAE 90-75:

(a) Exterior building envelope.
(b) Heating, ventilating, and air conditioning systems and equipment.
(c) Service water heating.
(d) Electrical distribution systems.
(e) Lighting power budget determination procedure.
(f) Energy requirements for building designs based on system analysis.
(g) Energy requirements for buildings utilizing solar, wind, or nondepleting energy sources in new building design.

(2) The standard referred to in subrule (1) is incorporated herein by reference, except for the definition of mobile home in section 3 and the exceptions noted in R 408.31010 to R 408.31055. The standard may be examined at the office of the Michigan department of labor, bureau of construction codes, in Lansing, and may be purchased from the American Society of Heating, Refrigerating and Air Conditioning Engineers, Inc., 345 East 47th Street, New York, New York 10017, or from the Michigan Department of Labor, Bureau of Construction Codes, Michigan Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926, at a cost of $10.00, plus mailing costs.

History: 1954 ACS 90, p. 40, Eff. June 22, 1977.

R 408.31010 Purpose.

Rule 1010. (1) Section 1, part 1.4, of the standard incorporated by reference under R 408.31001 is amended to read as follows:

1.4. It is intended that this referenced standard be used in the design of new buildings and that compliance with its requirements shall be determinable in the preconstruction stage, by evaluation and analysis of design specifications, drawings, and calculations by the enforcing agency prior to the issuance of the permit.

(2) Section 1, part 1.4.1, of the standard incorporated by reference under rule 1001 is added to read as follows:

1.4.1. Plans, specifications, and calculations shall show in sufficient detail all pertinent data and features of the building, the equipment, and the systems, including, but not limited to: exterior envelope component materials; U values of

elements; R values of insulating materials; size and type of apparatus and equipment; equipment and system controls, and other pertinent data to indicate conformance with the requirements of the referenced standard.

History: 1954 ACS 90, p. 40, Eff. June 22, 1977.

R 408.31020 Scope.

Rule 1020. The words "mobile homes and" shall be deleted in section 2, part 2.1.1, of the standard incorporated by reference under R 408.31001.

History: 1954 ACS 90, p. 40, Eff. June 22, 1977.

R 408.31030 "Resistance (R)" and "thermal transmittance (U)" defined.

Rule 1030. (1) "Resistance (R)" means the thermal resistance to heat flow and is the reciprocal of the thermal transmittance (R = 1/U).

(2) "Thermal transmittance (U)" means the overall coefficient of heat transmission or thermal transmittance (air to air) expressed in units of BTU per hour, per square foot, per degree Fahrenheit. It is the time rate of heat flow. The U value applies to combinations of different materials used in series along the heat flow path and also applies to single materials that comprise a building section, and includes cavity air spaces and surface air films on both sides.

History: 1954 ACS 90, p. 40, Eff. June 22, 1977.

R 408.31040 Exterior envelope requirements.

Rule 1040. Section 4, part 4.2.5, of the standard incorporated by reference under R 408.31001 is amended to read as follows:

4.2.5. For calculations called for under this section, the following temperatures shall apply:

	Indoor		Outdoor
	F	C	
Winter	72	22.0	97½%*
Summer	78	25.5	2½%*

*Values from 1972 ASHRAE handbook of fundamentals, chapter 33, or from table 4.1, of R 408.31041 entitled "Climatic Conditions for Michigan."

History: 1954 ACS 90, p. 41, Eff. June 22, 1977.

exterior walls not exceeding the values shown in figure 1, using heating degree days as given in the 1973 ASHRAE handbook & product directory, systems volume, chapter 43, or table 4.1 of R 408.31041, entitled "Climatic Conditions for Michigan."

(2) Section 4, part 4.4.2.1, of the standard incorporated by reference under R 408.31001 is amended to read as follows:

4.4.2.1. Walls. A building that is mechanically heated shall have a combined thermal transmittance value (U° value) for the gross area of exterior walls not exceeding the values shown in figure 3, using heating degree days as given in the 1973 ASHRAE handbook & product directory, systems volume, chapter 43, or table 4.1 of R 408.31041 entitled "Climatic Conditions for Michigan."

History: 1954 ACS 90, p. 42, Eff. June 22, 1977.

R 408.31050 Heating, ventilating, and air conditioning (HVAC) systems.

Rule 1050. The words "and Mobile Homes" shall be deleted from section 5, part 5.4.3.1, of the standard incorporated by reference under R 408.31001.

History: 1954 ACS 90, p. 42, Eff. June 22, 1977.

R 408.31055 Control setback and shut-off.

Rule 1055. The words "and Mobile Homes" shall be deleted from section 5, part 5.4.4.1, of the standard incorporated by reference under R 408.31001.

History: 1954 ACS 90, p. 42, Eff. June 22, 1977.

PART 11. PREMANUFACTURED UNITS

R 408.31101 Title.

Rule 1101. This part shall be known as the Michigan rules for the certification of premanufactured units.

History: 1954 ACS 84, p. 56, Eff. June 27, 1975.

R 408.31103 Definitions; A, B.

Rule 1103. (1) "Act" means Act No. 230 of the Public Acts of 1972, as amended, being §125.1501 et seq. of the Michigan Compiled Laws. Terms defined in the act have the same meaning when used in these rules.

(2) "Approved" means approved by the commission.

(3) "Building component" means any subsystem, subassembly, or other system designed for use in or as part of a structure, which may include structural, electrical, mechanical, plumbing, and fire protection systems and other systems affecting health and safety.

(4) "Building system" means plans, specifications, and documentation for a system of premanufactured units or for a type or a system of building components, which may include structural, electrical, mechanical, plumbing, and fire protection systems and other systems affecting health and safety, including variations which are submitted as part of the building system.

History: 1954 ACS 84, p. 56, Eff. June 27, 1975.

R 408.31104 Definitions; C to E.

Rule 1104. (1) "Closed construction" means any unit, building, building component, assembly, or system manufactured in such a manner that all concealed parts or processes of manufacture cannot be inspected before installation at the site without disassembly, damage, or destruction.

(2) "Compliance assurance program" means the system, documentation, and methods of assuring that premanufactured units and building components,

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

including their manufacture, storage, transportation, assembly, handling, and installation, conform with the act and these rules.

(3) "Evaluation agency" means an approved person or organization, private or public, including a governmental agency, determined by the commission to be qualified by reason of facilities, personnel, experience, and demonstrated reliability and independence of judgment, to investigate, evaluate, and recommend approval of premanufactured units, building components, building systems, or compliance assurance programs and to recommend issuance of labels.

History: 1954 ACS 84, p. 56, Eff. June 27, 1975.

R 408.31105 Definitions; I to L.

Rule 1105. (1) "Independence of judgment" means not being affiliated with or influenced or controlled by building manufacturers or by products, suppliers, or vendors of producers or equipment used in premanufactured units and building components, in any manner which is likely to affect capacity to render reports and findings objectively and without bias.

(2) "Inspection agency" means an approved person or organization, private or public, including a governmental agency, determined by the commission to be qualified by reason of facilities, personnel, experience and demonstrated reliability and independence of judgment, to conduct or supervise compliance assurance programs, to recommend certification of premanufactured units and building components, and to recommend issuance and attachments of labels.

(3) "Installation" means the process of affixing, or assembling and affixing, premanufactured units or building components on the building site, or to an existing building.

(4) "Label" means an approved device or seal evidencing certification in accordance with the act and these rules.

(5) "Local enforcement agency" means the agency of local government with authority to make inspections of buildings and to enforce the laws, ordinances, and rules enacted by the state and by the local government which establish standards and requirements applicable to the construction, alteration, repair or demolition of buildings.

(6) "Local government" means a county, city, village, or township of this state with authority to establish standards and requirements applicable to the construction, alteration, repair, or demolition of buildings.

History: 1954 ACS 84, p. 57, Eff. June 27, 1975.

R 408.31106 Definitions; M to P.

Rule 1106. (1) "Mobile home" means a vehicular, portable structure built on a chassis and designed to be used without a permanent foundation as a dwelling when connected to required utilities and which is, or is intended to be, attached to the ground, to another structure, or to a utility system on the same premises for more than 30 consecutive days.

(2) "Open construction" means unit, building, building component, assembly, or system manufactured in such a manner that all portions can be readily inspected at the building site without disassembly, damage, or destruction.

(3) "Premanufactured unit" means an assembly of materials or products intended to comprise all or part of a building or structure, and that is assembled at other than the final location of the unit of the building or structure by a repetitive process under circumstances intended to insure uniformity of quality and material content. The term includes a mobile home.

History: 1954 ACS 84, p. 57, Eff. June 27, 1975.

R 408.31111 Applicability.

Rule 1111. (1) These rules govern the design, manufacture, handling, storage, transportation, and installation of premanufactured units and building components intended for installation in this state or in any other state or local governmental jurisdiction in which the building components and the labels thereon are accepted.

(2) A premanufactured unit or building components may be sold for, delivered to, or installed on building sites located in any local government if:

(a) The unit or building components have been approved and certified pursuant to the act and these rules.

(b) The installation complies with the local government's zoning laws and other applicable ordinances.

History: 1954 ACS 84, p. 57, Eff. June 27, 1975.

R 408.31112 Preemption.

Rule 1112. Premanufactured units and building components certified pursuant to these rules are deemed to comply with the requirements of all laws, ordinances, rules, and regulations which govern the matters within the scope of the approval and certification, regardless of the provisions of any other law, ordinance, rule, or regulation.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31113 Applicability of local law.

Rule 1113. (1) Except as provided by or pursuant to the act and these rules, land use zone requirements, performance-based fire zone requirements, building set-back requirements, side and rear yard requirements, property line requirements, and on-site development, construction and inspection are specifically and entirely reserved to the local government.

(2) In areas of the state where special environmental conditions exist which require special or different building standards, pursuant to R 408.31121, local government shall prescribe such standards for those parts of the site development, foundation and other work, for which responsibility is vested in local government pursuant to subrule (1).

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31121 Standards, specifications, and requirements adopted.

Rule 1121. Building systems shall comply with the state construction code.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31122 Amendments.

Rule 1122. Consistent with R 408.31133(8), the commission shall notify all manufacturers with approved building systems, local government, and other concerned persons of all amendments. For purposes of this rule, a premanufactured unit or building component is deemed to be manufactured at such time as the label is attached to it in accordance with an approved compliance assurance program.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31131 Enforcement responsibility.

Rule 1131. The commission shall administer and enforce these rules. The commission has the responsibility for evaluating and approving building systems,

and inspecting and certifying premanufactured units and building components for compliance with these rules. The commission may receive recommendations for acceptance of premanufactured units, building systems, and compliance assurance programs submitted for approval by approved evaluation and inspection agencies.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31132 Approvals of building systems and compliance assurance programs.

Rule 1132. The commission shall approve building systems which comply with the codes, standards, specifications, and requirements adopted in R 408.31121 and with the other requirements of the act and these rules and shall approve compliance assurance programs which comply with the requirements of the act and these rules.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31133 Building systems.

Rule 1133. (1) To obtain approval for premanufactured units or building components, a manufacturer shall submit a building system for evaluation by the commission in accordance with the requirements of R 408.31151.

(2) Before a full evaluation, the commission shall determine that building systems submitted to it are suitable for processing. If the application is found to be unsuitable for processing, the applicant shall be notified in writing of the unsuitability and the basis thereof within 30 days of the date the application is received by the commission and a portion of the fee may be returned. The finding of unsuitability is without prejudice. A subsequent submission shall be treated as a new application.

(3) The commission may require tests to determine whether a building system meets the codes, standards, and requirements of the act and these rules, if that determination cannot be made from evaluation of plans, specifications, and documentation alone. The procedures used shall be reviewed and evaluated by the commission.

(4) If a building system is disapproved, the commission shall notify the applicant with a written explanation of the reasons for disapproval attached thereto.

(5) Approval of a building system shall be evidenced by the stamp of approval of the commission on each sheet, or by other effective means of identification. Each sheet shall be numbered serially and shall indicate effective dates of revision. One copy of all plans, specifications, and documentation shall be returned to the applicant.

(6) The commission shall prepare and issue to the applicant a building system approval report signed by the drafter and by the person in charge of the evaluation. The report shall be numbered and shall contain a summary description of the building system and all of the conditions of its use including installation instructions.

(7) A building system, or an amendment thereto which has been approved, shall not be altered without prior authorization by the commission. All approved changes shall be made a part of the written record of the approval. The authorization shall be in writing or be confirmed in writing within 10 days of any oral authorization.

(8) A change in the codes, standards, specifications, and requirements shall not apply retroactively. The commission shall notify all manufacturers with approved

building systems and evaluation agencies of all changes. Each manufacturer shall submit to the commission the necessary amendments to its already approved building systems.

(9) Amendments to building systems may be proposed by submitting to the commission for approval, appropriate plans, specifications, or documentation showing the effect of the proposed amendment on each building system.

(10) The commission may suspend or revoke the approval of a building system when the approval was issued in error, or was issued on the basis of incorrect information, or was issued in violation of these rules, or is later found to be in violation of these rules. Notice of suspension or revocation of the approval shall be in writing with the reasons set forth therein. Appeals from suspensions or revocations shall receive timely review.

History: 1954 ACS 84, p. 58, Eff. June 27, 1975.

R 408.31134 Compliance assurance programs.

Rule 1134. (1) A manufacturer shall obtain approval for a compliance assurance program for his building system. Units or building components shall be manufactured in accordance with an approved program in order to be certified. Compliance assurance programs shall be submitted to the commission in accordance with the requirements of R 408.31161.

(2) Before full evaluation, the commission shall determine that the application for approval submitted to it is suitable for processing. If the application is found to be unsuitable for processing, the applicant shall be notified in writing of the unsuitability and the basis thereof within 30 days of the date the application is received by the commission and a portion of the fee may be returned. The findings of unsuitability shall be without prejudice. A subsequent submission shall be treated as a new application.

(3) Compliance assurance programs submitted for approval shall be evaluated for compliance with the act and these rules.

(4) If a compliance assurance program is disapproved, the commission shall notify the applicant with a written explanation of the reasons for disapproval attached thereto.

(5) Approval of compliance assurance programs shall be evidenced by the stamp of approval of the commission on each sheet, or by other effective means of identification. One copy of the approved application and documentation shall be returned to the applicant.

(6) A compliance assurance program or an amendment thereto which has been approved shall not be altered without prior authorization by the commission. All approved amendments shall be made a part of the written record of the approval.

(7) The commission may suspend or revoke its approval of any compliance assurance program whenever the approval was issued in error, was issued on the basis of incorrect information, or was issued in violation of these rules. If the commission determines that premanufactured units or building components manufactured pursuant to an approved building system do not comply with the act or these rules and the manufacturer fails to comply with a corrective order, the commission may suspend or revoke the approval of the manufacturer's compliance assurance program. Notice to the manufacturer and the inspection agency of suspension or revocation of approval shall be in writing with the reasons for suspension or revocation set forth therein. Appeals from suspensions or revocations shall receive timely review.

R 408.31135 Certification.

Rule 1135. Premanufactured units and building components accepted by the commission as having been manufactured according to an approved building system and an approved compliance assurance program, shall be certified by the commission as complying with the requirements of the act and these rules. Certification shall be evidenced by the attachment of a label to each certified premanufactured unit, building component or group of components. The commission may authorize approved inspection agencies to make all or part of the inspection of premanufactured units or building components.

History: 1954 ACS 84, p. 59, Eff. June 27, 1975.

R 408.31136 Manufacturer's data plate.

Rule 1136. (1) The following information shall be placed directly on 1 or more permanent manufacturer's data plates in the vicinity of the electrical distribution panel, or in some other designated location, acceptable to the commission, on the premanufactured unit or building component where it will be readily accessible for inspection:

(a) Manufacturer's name and address.

(b) Serial number of the unit.

(c) Label serial number.

(d) Name and date of applicable nationally recognized codes complied with.

(e) Model designation and name of manufacturer of major factory installed appliances.

(f) Identification of permissible type of gas for appliances and directions for water and drain connection.

(g) Snow, wind, seismic, and other live loads.

(h) Electrical ratings and instructions and warnings on voltage.

(i) Special conditions or limitations on use of the unit, including unsuitability for areas in which specified environmental conditions prevail.

(j) Date of manufacture.

(2) If, in the opinion of the commission, the shape or size of a building component is such that the information required in subrule (1) cannot be attached to a component permanently, the information may be placed in a manual crated with the component or on a tag attached to the crate in which the component is shipped, if the information is not such that the future occupant of the building should know it. If the occupant will need to know the information, it shall be contained in a manual which shall be presented to the occupant upon transfer of possession. If life safety is involved, the item in question shall be plainly labeled.

History: 1954 ACS 84, p. 60, Eff. June 27, 1975.

R 408.31137 Labels.

Rule 1137. (1) Each premanufactured unit or building component or group of components, which is certified pursuant to the act and these rules, shall have permanently attached thereto, in a visible location as shown on the approved building system, an approved label which cannot be removed therefrom without destroying the label.

(2) An approved label shall bear the following information:

(a) "This label certifies that this unit (or building component) has been manufactured in accordance with a building system and compliance assurance program approved by the construction code commission and inspected by (name of inspection agency) under the auspices and approval of the State of Michigan."

(b) Label serial number.
(c) Building system approval number.
(d) Manufacturer's serial number.
(e) The words "See data plate located on . . . . ."
(f) The name of the agency issuing the label.

(3) At the discretion of the commission, labels and data plates may be limited in size and content for components whose shape or size does not permit the full information to be placed thereon.

(4) The approved label shall be issued by the commission or its agents in accordance with the following:

(a) The commission shall specify the manner in which the labels are handled.
(b) Labels shall be numbered serially.
(c) A manufacturer's compliance assurance program, submitted in accordance with R 408.31161, shall include requirements for issuance, possession, attachment, and accounting of all labels to assure that labels are attached only to units or building components manufactured pursuant to an approved building system and inspected pursuant to an approved compliance assurance program.
(d) If the commission determines that the manufacturer's record of compliance is such that the commission need not maintain an inspector in a given plant at all times, the commission may entrust labels to the custody of 1 or more employees of the manufacturer, who shall be charged with controlling the use of the labels. The employees shall not be given custody of more labels than are necessary to accommodate the manufacturer's anticipated production for 1 month. If the conditions of custody are violated, the commission shall regain possession immediately of all labels that have not been applied to the premanufactured units or building components and shall take such further action with respect to units or components already labeled, and with respect to future labeling, as it deems necessary to assure compliance with the act and these rules.

(5) Permanent records shall be kept of the handling of all labels, indicating at least how many labels have been applied to units, building components or groups of components, which labels have been applied to which units or building components, the disposition of any damaged or rejected labels, and the location and custody of all unused labels. The records shall be maintained by the manufacturer or by the inspection agency. A copy of the records covering attachment of each label shall be sent to the commission every 3 months.

(6) The commission or an inspection agency shall attach labels to units or building components manufactured in accordance with an approved building system and meeting the requirements of an approved compliance assurance program.

History: 1954 ACS 84, p. 60, Eff. June 27, 1975.

R 408.31138 Suspension and revocation.

Rule 1138. (1) The commission may suspend or revoke the certification of a premanufactured unit or building component which the commission finds not to comply with the act or these rules, or which has been manufactured pursuant to a building system or a compliance assurance program as to which approval has been suspended or revoked, or which has not been manufactured in accordance with the approved compliance assurance program. The commission shall remove or cause to be removed, labels from a premanufactured unit or building component until it is brought into compliance with the act and these rules. Notice of suspension or revocation of certification shall be in writing with the reasons for suspension or revocation clearly set forth therein. Appeals from suspensions or revocations shall receive timely review.

(2) Upon suspension or revocation by the commission of the approval of a building system or compliance assurance program, further labels shall not be attached to a premanufactured unit or building component manufactured pursuant to the building system or compliance assurance program with respect to which the approval was suspended or revoked. Upon termination of the suspension or revocation, labels may again be attached to the premanufactured unit or building component manufactured after the date approval is reinstated. If any unit or building component has been manufactured during the period of suspension or revocation, it shall not be labeled unless the commission, evaluation agency, or inspection agency has inspected the unit or building component and the commission or its authorized inspection agency is satisfied that all requirements for certification have been met.

(3) The manufacturer shall return all labels allocated for a premanufactured unit or building component to the commission no later than 10 days from the effective date of the commission's suspension or revocation of the approval of the building system or compliance assurance program pursuant to which the premanufactured unit or building component is being manufactured. The manufacturer shall also return to the construction code commission all labels which it determines for any reason are no longer needed.

History: 1954 ACS 84, p. 61, Eff. June 27, 1975.

R 408.31139 Variations of certified units.

Rule 1139. Premanufactured units or building components certified and labeled pursuant to the act and these rules shall not be altered before the issuance of a certificate of occupancy without resubmission to the commission for approval of the variation and of the unit which includes the variation. The commission or its authorized inspection agency shall inspect the unit or building component wherever it is located which inspection may include such tests or destructive or nondestructive disassembly as the commission or its authorized inspection agency deems necessary to assure compliance with the act and these rules. Local enforcement agencies may be designated as inspection agencies for these purposes.

History: 1954 ACS 84, p. 61, Eff. June 27, 1975.

R 408.31141 Inspections by commission or its agents.

Rule 1141. (1) The commission shall make, or cause to be made, such inspections of the entire process of manufacturing, certifying, handling, storing, and transporting of premanufactured units and building components produced pursuant to approved building systems as it deems necessary. As part of the process of evaluating building systems and compliance assurance programs, the commission shall inspect or cause to be inspected, the manufacturing facilities in which the units or building components are to be manufactured.

(2) The commission or its authorized inspection agency, shall make such inspections as may be required by an approved compliance assurance program, or as may be deemed necessary by the commission.

(3) Before issuing a certificate of occupancy, the commission shall inspect, or cause to be inspected, certified premanufactured units or building components which it determines to have been sufficiently damaged after certification to warrant the inspection and to take such action with regard to such units or building components as is authorized under R 408.31138, or as is otherwise necessary to eliminate dangerous conditions. The commission shall require premanufactured units or building components which are so damaged as no

longer to comply with the act and these rules to be brought into compliance promptly. If such units or building components are not brought into compliance with the act and these rules within a reasonable time, or if they are so damaged that they cannot be brought into compliance, the commission shall order that the labels be removed. Irreparably damaged units or building components shall be disposed of in accordance with applicable law.

(4) The commission shall examine each approved inspection agency, at any reasonable time and without prior announcement, in order to monitor the reliability of the agency and of its monitoring of compliance assurance programs. Each examination shall investigate the adequacy of all procedures used by the agency in monitoring compliance assurance programs including inspection, tests, production methods, process controls, operator performance, materials receipt, storage and handling, workmanship standards, records and all other activities which implement the compliance assurance program in the manufacturing facility during transport, on-site, and at critical subcontractors' facilities. The results of examinations shall be kept on file at the offices of the commission. Copies of the reports shall be sent to the inspection agency. Inspection agencies shall be notified specifically of any deficiencies and of the manner in and time by which the deficiencies shall be eliminated. If deemed necessary by the commission, an agency's approval may be suspended or revoked as provided in R 408.31173. The examinations shall also be conducted before approving an inspection agency.

(5) The commission shall examine each approved evaluation agency, at any reasonable time and without prior announcement, in order to monitor the reliability of the agency. Each examination shall investigate the adequacy of all evaluative procedures including engineering evaluation of plans, specifications and test results, testing, and analysis of compliance assurance programs. The results of the examination shall be kept on file at the offices of the commission. Copies of the reports shall be sent to the evaluation agency. Agencies shall be notified specifically of any deficiencies and of the manner in and time by which the deficiencies shall be eliminated. If deemed necessary by the commission, approval of an evaluation agency may be suspended or revoked as provided in R 408.31173. The examinations shall also be conducted before approving an evaluation agency.

(6) An inspection entailing disassembly, damage to or destruction of certified premanufactured units or building components shall not be conducted except to implement subrule (1).

History: 1954 ACS 84, p. 62. Eff. June 27, 1975.

R 408.31142 Local enforcement agency procedures and inspections.

Rule 1142. (1) A local enforcement agency shall issue building permits for certified premanufactured units prior to installation and shall not withhold issuance of building permits for buildings containing certified building components which in all other respects comply with all applicable construction codes. A premanufactured unit or building component found by the commission not to comply with the act or these rules shall be brought into compliance before a permit shall be issued. An application to a local enforcement agency for a building permit shall, when requested, in addition to any other requirements, contain:

(a) A statement that the work to be performed under the permit is to include the installation of a certified premanufactured unit or building component in accordance with the provisions of the act which statement shall be signed by the applicant or his agent, with an appropriate address.

(b) A true copy of the approved building system with respect to which the premanufactured unit or building component was manufactured or is to be manufactured, if 1 has not been furnished to that local enforcement agency previously.

(c) A copy of the building system approval report, where it has not been furnished to that local enforcement agency previously.

(2) A local enforcement agency shall inspect site preparation work including foundations, not within the scope of the approval and certification, and the structural, mechanical, plumbing and electrical connections among units, for compliance with applicable law.

(3) A local enforcement agency shall inspect all premanufactured units or building components upon, or promptly after, installation at the building site to determine whether all instructions in the building system approval report or conditions listed on the manufacturer's data plate have been followed. This may include tests for tightness of plumbing and mechanical systems, for malfunctions in the electrical system and a visual inspection for obvious nonconformity with the approved building system. Destructive disassembly of certified units and building components shall not be performed in order to conduct these tests or inspections. Standards or test criteria different from those adopted by the commission or specified in the building system approval report shall not be imposed. Nondestructive disassembly may be performed only to the extent of opening access panels and cover plates.

(4) A local enforcement agency shall cause the disposition of noncomplying premanufactured units and building components after consultation with the commission and reasonable notice of the proposed disposition to the manufacturer or owner thereof.

(5) A local enforcement agency shall issue certificates of occupancy for certified premanufactured units and for buildings containing certified building components which otherwise comply with all applicable building codes, after they have been installed and inspected pursuant to the act and these rules. A premanufactured unit or building component found not to comply with the building system approval report shall be brought into compliance before the certificate of occupancy is issued.

(6) When a local enforcement agency is making an inspection and finds a violation, it shall report the details of the violation in writing to the commission. Where a violation is hazardous to occupants, a certificate of occupancy shall not be issued and the building shall not be occupied before the hazard is corrected. If a violation is not hazardous, a provisional certificate of occupancy may be issued.

History: 1954 ACS 84, p. 62, Eff. June 27, 1975.

R 408.31143 Fees.

Rule 1143. Fees shall be charged in accordance with published rates of the commission.

History: 1954 ACS 84, p. 63, Eff. June 27, 1975.

R 408.31144 Notification of changes.

Rule 1144. (1) Manufacturers shall notify the commission in writing within 10 days of any of the following occurrences:

(a) The corporate name is changed.

(b) The main address of the company is changed.

(c) There is a change in 25% or more of the ownership interest of the company within a 12-month period.

(d) The change in location of any manufacturing facility which may supply components or units for sale and use in the state of Michigan.

(e) The establishment of a new manufacturing facility which may supply components or units for sale and use in the state of Michigan.

(f) There are changes in principal officers of the firm.

(2) Evaluation agencies and inspection agencies shall notify the commission in writing within 10 days of any of the following occurrences:

(a) The company name is changed.

(b) The main address of the company is changed.

(c) There is a change in 25% or more of the ownership interest or control of the company within a 12-month period.

(d) The change in location of any testing facility which may supply services to the commission.

(e) The establishment of a new testing facility which may supply services to the commission.

(f) There are changes in principal officers and key supervisory and responsible personnel of the firm.

History: 1954 ACS 84, p. 63, Eff. June 27, 1975.

R 408.31145 Proprietary information.

Rule 1145. All information relating to building systems and compliance assurance programs which the manufacturer or other party considers proprietary shall be so designated by him at the time of its submission, and shall be so held by the commission and by the inspection, evaluation and local enforcement agencies, except as the commission determines in each case, that disclosure is necessary to carry out the purposes of the act.

History: 1954 ACS 84, p. 64, Eff. June 27, 1975.

R 408.31151 Requirements for submission of building systems.

Rule 1151. Building systems shall meet the requirements set forth in R 408.31152 and R 408.31153 to be evaluated for compliance with the standards, specifications, and requirements adopted by the commission.

History: 1954 ACS 84, p. 64, Eff. June 27, 1975.

R 408.31152 General requirements, building systems.

Rule 1152. (1) Building systems, including all plans, specifications, and other documentation, shall be submitted in 3 copies.

(2) Building systems shall be submitted in the form prescribed by the commission and shall be accompanied by all required fees.

(3) All documents submitted with the application shall be identified to indicate the manufacturer's name, office address, and the address of the manufacturing facility.

(4) Manufacturers shall submit plans showing all elements relating to specific systems on properly identifiable sheets.

(5) All work to be performed on-site, including connection of all systems, equipment and appliances, shall be identified and distinguished from work to be performed in the manufacturing facility.

(6) A 1½" x 2½" blank rectangular space shall be provided after possible reduction in print size on all sheets of plans as near as possible to the title box for the commission's stamp of approval.

(7) Grade, quality, and identification of all materials shall be specified.

(8) Design calculations and test reports shall be submitted when required.

(9) Drawings shall be drawn to scale.

(10) Drawings shall indicate the location of the approved label and data plate.

(11) Drawings shall be dated and identified. The number of sheets in each set shall be indicated.

History: 1954 ACS 84, p. 64, Eff. June 27, 1975.

R 408.31153 Required construction details.

Rule 1153. (1) Building systems for premanufactured units shall provide or show, but not be limited to, the details listed below, including the method of their testing or evaluation, or both. These requirements shall apply to the building systems for building components only to the extent deemed necessary by the commission or by its authorized evaluation agency to permit a proper evaluation of the building component.

(2) General requirements:

(a) Details and methods of installation of premanufactured units or building components on foundations or to each other, or both.

(b) All exterior elevations.

(c) Cross sections as necessary to identify major building components.

(d) Details of flashing, such as at openings and at penetrations through roofs and subcomponent connections. Indicate flashing material and gauge to be used.

(e) Attic access and attic ventilation.

(f) Exterior wall, roof, and soffit material, as well as finish.

(g) Interior wall and ceiling finish material.

(h) Fire separation walls.

(i) Sizes, locations, and types of doors and windows.

(j) Recommended foundation plans, vents, and underfloor access.

(3) Building classification detail requirements:

(a) Occupancy or use.

(b) Area, height, and number of stories.

(c) Type of construction.

(d) Fire resistance ratings.

(4) Space and fire safety detail requirements:

(a) Detail of fire resistance rated assemblies for all stairway enclosures, doors, walls, floors, ceilings, partitions, columns, roof, and shaft enclosures.

(b) Details as to width of all aisles, exits, corridors, passageways, and stairway enclosures.

(c) Toxicity and flame spread classification of finished materials.

(5) Structural detail requirements:

(a) Engineer's calculations of structural members where appropriate.

(b) Design soil bearing value.

(c) Structural and framing details of all floors, roofs, and walls.

(d) Details and stress diagrams of roof trusses.

(e) Details of reinforcing steel.

(f) Complete loading schedule.

(g) Column loads and column schedule.

(h) Lintel schedule.

(i) Size, spacing, and details of all structural elements.

(j) Grade or quality of all structural elements such as lumber, steel, and so forth.

(k) Elevation of structural elements, walls or sections thereof, providing resistance to vertical loads or lateral forces.

(l) Complete details of all structural connections.

(6) Mechanical detail requirements:

(a) Location of all equipment and appliances. Indicate equipment and appliances listed or labeled by approved agencies.

(b) Heat loss calculations, where appropriate.

(c) Manufacturer's name, make, model, number, BTU, and input rating of all equipment and appliances, as appropriate, or the equal thereof.

(d) Duct and register locations, sizes, and materials.

(e) Clearances from combustible material or surfaces for all ducts, flues, and chimneys.

(f) Method of providing required combustion air and return air.

(g) Location of flues, vents, and chimneys and clearances from air intakes and other vents and flues.

(h) Details regarding dampers in ducts penetrating fire separations.

(i) Complete drawings of fire sprinkler systems, standpipe system, or fire alarm system.

(j) Detail of elevator or escalator system, including method of emergency operation.

(7) Plumbing detail requirements:

(a) Plan or schematic drawing of the plumbing layout including, but not limited to, size of piping, fitting, traps and vents, cleanouts and valves, gas, water and drainage system.

(b) Plumbing materials, and location of all equipment and appliances to be used. Indicate fixture unit capacity of systems and the make, model and rating/capacity of equipment and appliances. Indicate equipment and appliances listed or labeled by approved agencies.

(c) Make and model of safety controls, such as for water heaters, their location, and whether listed or labeled by approved agencies.

(d) How piping is to be supported and intervals of support.

(e) Location of vents above roofs and required clearances, including, but not limited to, clearances from air intakes, other vents, and flues.

(f) Methods of testing.

(8) Electrical detail requirements:

(a) Plan of service equipment, including service entrance, conductors, service raceway and clearances above ground and above structures.

(b) Method and detail for grounding service equipment.

(c) Single line diagram of the entire electrical installation.

(d) Load calculations for service and feeders.

(e) Sizes of all feeders and branch circuits.

(f) Size, rating and location of main disconnect/overcurrent protective devices.

(g) Method of interconnection between manufactured units or building components and location of connections.

(h) Location of all outlets and junction boxes.

(i) Method of mounting fixtures and wiring installations.

History: 1954 ACS 84, p. 64, Eff. June 27, 1975.

R 408.31161 Requirements for submission of compliance assurance programs.

Rule 1161. Compliance assurance programs shall be approved if they meet the requirements set forth in R 408.31162 to R 408.31168. It is the manufacturer's responsibility to execute every aspect of this program. The manufacturer shall continue to be responsible for all corrective actions required, and if the commission authorizes an inspection agency to perform its inspection duties, the

contractual relationship between the manufacturer and the inspection agency shall not diminish this responsibility. The manufacturer shall cooperate with the inspection agency by providing the inspection agency with all necessary reports, information, documents, records, facilities, equipment, samples, and other assistance for assuring compliance. The manufacturer's compliance assurance program shall be submitted in the form of a compliance assurance manual which shall contain complete documentation of all the compliance assurance activities of both the manufacturer and the inspection agency. The manual shall be comprehensively indexed, and shall treat the material listed in R 408.31162 to R 408.31168 in detail.

History: 1954 ACS 84, p. 66, Eff. June 27, 1975.

R 408.31162 Organization requirements.

Rule 1162. (1) A procedure for periodic revision of the manual.

(2) An organizational structure for implementing and maintaining the compliance assurance program and its functional relationship to other elements of the organization structure of the manufacturer, which structure shall provide for independence from the production department. Company officers and employees in charge of the compliance assurance program shall be identified, and their training and qualifications specified.

(3) A uniform system of in-depth analysis of program effectiveness and means to identify deficiencies, referred to as audit, to monitor program performance periodically.

(4) Complete and reliable records of manufacturing, site operations, suitable means of storage, preservation and accessibility of copies of forms to be utilized shall be included.

(5) A system to control changes in production or inspection procedures.

(6) A system to assure that working drawings and specifications, working instructions and standards, procurement documents, and so forth, conform to the approved building system.

(7) A serial numbering system for buildings and building components.

(8) The method of safekeeping, handling, and attaching labels and identification of those employees responsible therefor.

History: 1954 ACS 84, p. 66, Eff. June 27, 1975.

R 408.31163 Materials control.

Rule 1163. (1) Procedures to assure effective control over procurement sources to ensure that materials, supplies and other items used in production and site operations, if any, conform to the approved plans, specifications and quality requirements.

(2) Procedures for inspection of materials, supplies, and other items at the point of receipt.

(3) Method of protection of materials, supplies, and other items against deterioration prior to their incorporation in the certified unit or building component.

(4) Provision for disposal of rejected materials, supplies, and other items.

History: 1954 ACS 84, p. 66, Eff. June 27, 1975.

R 408.31164 Production control.

Rule 1164. (1) Procedures for timely remedial and preventive measures to assure product quality.

(2) Provision, maintenance, and use of testing and inspection equipment to assure compliance with the approved building system.

(3) Provision for frequency of sampling inspections.

(4) Provision of necessary authority to reject defective work and carry out compliance assurance functions, notwithstanding any conflict with production department goals and needs.

(5) A schematic of the manufacturing operation showing the location of inspection stations, and hold points for mandatory inspection characteristics.

(6) Inspection and test procedures, including accept/reject criteria and mandatory inspection characteristics.

(7) Standards of workmanship.

(8) Provision for disposal of rejects.

History: 1954 ACS 84, p. 66, Eff. June 27, 1975.

R 408.31165 Finished product control.

Rule 1165. (1) Procedure for final inspection of all premanufactured units or building components before shipment to the site or storage point, including identification and labeling.

(2) Procedures for handling and storing all finished premanufactured units or building components, both at the manufacturing plant or other storage point and after delivery to the building site.

(3) Procedures for packing, packaging, and shipping operations and related inspections.

(4) Procedures for transportation, including all measures to protect against damage while in transit, and setting forth the modes of transportation to be utilized and the carrying equipment and procedures.

History: 1954 ACS 84, p. 67, Eff. June 27, 1975.

R 408.31166 Installation control.

Rule 1166. (1) Installation procedures including component placement, equipment and procedures, field erection and finishing work, utility connection instructions and all appropriate on-site inspection criteria and test descriptions.

(2) Organizational provisions for field repair and disposal of rejects.

History: 1954 ACS 84, p. 67, Eff. June 27, 1975.

R 408.31167 Permission for inspection.

Rule 1167. A manufacturer shall provide the commission with written permission, signed and notarized, for the commission or its authorized evaluation or inspection agencies to inspect its manufacturing facilities, its products and building sites under its control any reasonable time without prior announcement.

History: 1954 ACS 84, p. 67, Eff. June 27, 1975.

R 408.31168 Inspections by commission.

Rule 1168. The compliance assurance manual shall contain detailed plans for inspections by the commission or inspection agency.

History: 1954 ACS 84, p. 67, Eff. June 27, 1975.

R 408.31171 Requirements of submission for approval of inspection and evaluation agencies.

Rule 1171. (1) An inspection or evaluation agency seeking approval shall submit an application to the commission which includes the items listed in this rule.

(2) The original articles of incorporation of the agency and all subsequent amendments thereto, as filed in the state of incorporation.

(3) The bylaws of the organization.

(4) The names, addresses, and business affiliations of all members of the board of directors and of top management personnel.

(5) Stock owned in amounts over $5,000.00 reflecting the financial interests of the agency's board of directors and top management personnel if requested by the commission.

(6) Certification by the agency that:

(a) Its board of directors, as a body, and its technical personnel, as individuals, can exercise independence of judgment.

(b) Its activities pursuant hereto will result in no financial benefit to the agency via stock ownership, or other financial interests in any producer, supplier, or vendor of products involved, other than through standard published fees for services rendered.

(7) Names, years of experience, state in which professionally registered, and other qualifications of the directors of inspection or evaluation programs.

(8) Names and years of experience of employees practicing in the following disciplines: architecture, structural engineering, mechanical engineering, electrical engineering, fire protection and other branches of engineering; the states in which each is registered and the services each performs.

(9) An organization chart showing management and supervisory persons, including the number of graduate engineers and architects, and the names of all consulting engineers or architects, designating which are full time and which are part time engineers.

(10) Number and location of factory inspectors, supervisors and other technicians, including evaluators of factory inspectors and the qualifications of each specialized group, including records of work experience, licenses held and other pertinent qualifications; descriptions of the type of work each group and each technician is expected to perform, and the qualifications of each group and each technician to perform the work assigned.

(11) An outline of the training program, if any, of the agency to assure that all inspectors, evaluators and other technicians are properly trained to do each job assigned to them.

(12) An outline of the general procedures for supervision of inspectors and evaluators, including checking and evaluation of their work.

(13) All engineers, technicians, and other personnel who will perform services for the organization but who are not employees of the organization, and the supervisory and other relationships which each will have to the agency.

(14) Type of products, components, equipment, structures, and other items which the organization has evaluated, tested or inspected, and the number of years of experience the organization has had with each, and the type of codes, standards, specifications and requirements with respect to which the organization has had experience in providing evaluation, inspection or testing services, and the number of years of experience with each.

(15) Description of the record keeping system the agency proposes to use with particular regard to availability of records to the commission and the capacity to render reports to the commission.

(16) Description of the frequency with which the agency is capable of performing inspections or evaluations.

(17) List of the states in which the agency is now approved to inspect or evaluate premanufactured units or building components, and a further listing of those states in which the agency intends to seek such approval within the next 2 years.

(18) Certification that the agency is able to evaluate building systems for compliance with the codes, standards, specifications, and requirements adopted in this state, or premanufactured units or building components for compliance with approved building systems.

History: 1954 ACS 84, p. 67, Eff. June 27, 1975.

R 408.31172 Procedures for approving inspection and evaluation agencies.

Rule 1172. (1) The commission may approve inspection or evaluation agencies which meet the requirements of R 408.31171 and which the commission finds otherwise qualified to perform the functions proposed to be assigned to them.

(2) Before a full evaluation of an application for approval, the commission shall determine whether the application is suitable for processing. If the application is found to be unsuitable for processing, the applicant shall be notified in writing of the unsuitability and the basis thereof within 30 days of the date the application is received by the commission and a portion of the fee may be returned. The findings of unsuitability shall be without prejudice. A subsequent submission shall be treated as a new application.

(3) If an inspection or evaluation agency is not approved, the commission shall return 1 complete application to the applicant with a written explanation of the reasons for disapproval attached thereto.

(4) Approval of inspection or evaluation agencies shall be evidenced by a letter to the applicant indicating the approval and stating specifically the functions which the applicant has been approved to perform. Approval does not constitute the actual assignment of the functions.

History: 1954 ACS 84, p. 68, Eff. June 27, 1975.

R 408.31173 Suspension and revocation of authority of inspection and evaluation agencies.

Rule 1173. The commission may suspend or revoke its approval of any evaluation agency or inspection agency if the approval was issued in error, or was issued on the basis of incorrect information, or was issued in violation of the act or these rules, or if the agency violates the act or these rules, or if examination pursuant to R 408.31141(4) and (5) discloses that the agency has failed to perform properly, or for such other cause as may be deemed sufficient by the commission to warrant the action.

History: 1954 ACS 84, p. 68, Eff. June 27, 1975.

R 408.31174 Procedures in event of suspension or revocation.

Rule 1174. (1) If the commission suspends or revokes the approval of an evaluation or inspection agency, the evaluation or inspection agency shall be given notice in writing of the suspension or revocation with the reasons therefor set forth. Manufacturers being evaluated or inspected by the agency, and all local enforcement agencies within this state shall also be notified in writing of the suspension or revocation. The notice shall contain instructions to the manufacturer and to the local enforcement agency as to premanufactured units or building components previously certified by an agency whose approval has been suspended or revoked.

(2) An evaluation or inspection agency whose approval has been suspended or revoked, within 90 days of the suspension or revocation, shall deliver to the custody of the commission the originals of all records required by the act and these rules to be made of or in the course of, the agency's operations pursuant to the act and these rules.

R 408.31191 Applications for appeal.

Rule 1191. (1) Any person or party in an individual capacity or on behalf of a class of persons or parties affected by these rules or by any decision of or action by any evaluation agency, inspection agency or of the commission under these rules may file an application for appeal.

(2) An application for appeal shall be filed within 90 days after the date of the decision or action from which the appeal is being taken.

(3) An application may be filed either personally or by mail at the principal office of the commission.

(4) The application need not follow any prescribed form, but shall be in writing and shall contain sufficient information, as set forth in subrule (5), to apprise the commission of the rule appealed from, or of the facts and circumstances surrounding the decision or action appealed from and giving the grounds upon which the appeal is based.

(5) The application shall include, where applicable, the following documentation:

(a) A copy of the rule, initial determination, decision, direction, ruling, or order which is the subject of the appeal.

(b) A copy of the building system, compliance assurance program, or other document involved.

(c) A description of the premanufactured unit or building component affected.

(d) A statement of the relief sought by the appellant.

(6) If the appeal is from an action or decision of an inspection or evaluation agency, the application shall contain a statement of the prior decision or other action of the commission on such appeal.

History: 1954 ACS 84, p. 69, Eff. June 27, 1975.

R 408.31192 Hearings and hearing notices for appeals.

Rule 1192. The commission shall hear all appeals without undue delay after receipt of the objections. The appeal may be heard by the commission, or a panel of 3 or more members designated for that purpose by its chairman.

History: 1954 ACS 84, p. 69, Eff. June 27, 1975.

R 408.31193 Conduct of hearings for appeals.

Rule 1193. (1) Any interested person may appear and be heard.

(2) The commission, on its own motion or on the motion of any person, may adjourn a hearing to such time and place as the commission may determine.

(3) At least 3 members of the commission shall be present at all times during a hearing.

(4) A person may produce such witnesses as he deems appropriate.

(5) The commission shall not be bound by common law or statutory rules of evidence in the conduct of the hearing. The commission shall consider in evidence any testimony, documents, or other materials submitted by the appellant or the appellee including the results of formal or informal appeals before national codes and standards organizations or national codes and standards appeals organizations.

(6) All parties shall be afforded an opportunity to state their positions, either by the testimony of witnesses or by a formal or informal statement by themselves, their attorneys or any other persons. At the conclusion of the parties' statements, the commission may question the appellant or appellee or any witness and any other party who so desires shall be heard.

(7) All hearings shall be reported by an official reporter. The official transcript shall be open for inspection at the offices of the commission. Copies of the transcripts shall be available from the official reporter on payment of the charges therefor.

History: 1954 ACS 84, p. 69, Eff. June 27, 1975.

R 408.31194 Decisions.

Rule 1194. All final decisions of the commission shall be in writing, shall be rendered without undue delay after the close of the hearings and shall state the reasons therefor. One copy of the final decision shall be transmitted by mail to the appellant immediately and 1 copy to the appellee. Final decisions shall be filed in the office of the commission permanently.

CONSTRUCTION SAFETY STANDARDS COMMISSION

SAFETY STANDARDS

(By authority conferred on the construction safety standards commission by sections 19 and 21 of Act No. 154 of the Public Acts of 1974, as amended, being §§408.1019 and 408.1021 of the Michigan Compiled Laws)

PART 1. GENERAL RULES

R 408.40101 Scope.

Rule 101. This part and all subsequent parts promulgated by the construction safety commission pertain to all employers and employees on a construction site and set forth rules for the safe use, operation and maintenance of equipment and safe work practices.

History: 1954 ACS 78, p. 34, Eff. Mar. 2, 1974.

R 408.40102 Definitions.

Rule 102. (1) "Aisle" means a path of travel for material handling equipment and employees.

(2) "Approved" means approval by the director of labor or the construction safety standards commission.

(3) "Confined space" means a space having a limited means of egress, which is subject to the accumulation of toxic or flammable contaminants or has an oxygen deficient atmosphere. Confined or enclosed spaces include, but are not limited to, storage tanks, process vessels, bins, boilers, ventilation or exhaust ducts, sewers, underground utility vaults, tunnels, pipelines, and open top spaces more than 4 feet in depth, such as pits, tubs, vaults, and vessels.

(4) "Equivalent" means an alternate design or feature which provides not less than an equal degree of safety.

(5) "Hazard" means a condition or procedure which could cause injury or damage.

(6) "Means of egress" means a continuous path of vertical and horizontal travel from any point in a structure or site to a safe area outside leading to a street.

(7) "O.S.H.A." means occupational safety and health administration.

(8) "Shall" means mandatory.

(9) "Should" means recommended.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974; 1954 ACS 88, p. 108, Eff. Sept. 16, 1976.

R 408.40103 Employer responsibilities.

Rule 103. (1) Paragraph (b) of section 1926.20 and paragraph (b)(1) to (b)(5) of section 1926.21 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrule (2) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122 edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Subpart D, referred to in 29 C.F.R. §1926.21, has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" and is referred to as rules 6201, 6260, 6265, 6270, 6301, 6605, 6610, and 6615. As of the effective date of this part, "secretary," as referred to in 29 C.F.R. §1926.21, shall mean director. As of the effective date of this part, subpart F, referenced in 29 C.F.R. §1926.21, shall mean part 18 of the rules of the construction safety standards commission.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974; 1954 ACS 88, p. 108, Eff. Sept. 16, 1976.

R 408.40104 Personal conduct.

Rule 104. (1) An employee shall not engage in any act which would endanger another employee.

(2) Hazardous conditions and equipment shall be reported to the employee's supervisor when found.

(3) An employee shall not be permitted to work while under the influence of intoxicating beverages or controlled substances.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974.

R 408.40105 Physical qualifications.

Rule 105. An employee shall be physically qualified to perform his assigned job.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974.

R 408.40106 Leased and rental equipment.

Rule 106. The employer of the operator is responsible for the condition and operation of rented, leased, or loaned equipment.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974.

R 408.40111 Housekeeping.

Rule 111. Section 1926.25 of the O.S.H.A. safety and health regulations for construction, from title 29 of the Code of Federal Regulations (C.F.R.) is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122 edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. This section may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974; 1954 ACS 88, p. 109, Eff. Sept. 16, 1976.

R 408.40112 Instructions of employees; testing; neutralizing hazard.

Rule 112. (1) All employees required to enter into confined or enclosed spaces shall be instructed as to the nature of the hazards involved, the necessary precautions to be taken, and in the use of required protective and emergency equipment. The employer shall comply with any specific regulations that apply to work in dangerous or potentially dangerous areas.

(2) Before an employee enters a manhole, well, shaft, tunnel, or other confined space where the atmosphere might be hazardous due to a condition such as a deficiency of oxygen, or might be toxic in excess of the maximum allowable limits prescribed by the department of public health, the atmosphere shall be tested, and, if found hazardous, either ventilation shall be provided in a quantity that eliminates the hazard, or respiratory equipment prescribed by the department of public health shall be worn.

(3) If an atmosphere is found to be explosive, sparks, flame, and other sources of ignition shall be prohibited, and ventilation shall be provided until the source of the hazard is neutralized.

History: 1954 ACS 78, p. 35, Eff. Mar. 2, 1974; 1954 ACS 88, p. 109, Eff. Sept. 16, 1976.

R 408.40113 Rescission.

Rule 113. Part 1 of the construction safety commission standards, being R 408.1101 to R 408.1107 and appearing on pages 3289 and 3290 of the 1964-65 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 36, Eff. Mar. 2, 1974.

R 408.40114 Acceptable certifications.

Rule 114. (1) Section 1926.29 of the O.S.H.A. safety and health regulations for construction, from title 29 of the Code of Federal Regulations (C.F.R.) is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122 edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. This section may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, subparts F and O, referenced in 29 C.F.R. §1926.29, shall mean parts 18 and 13, respectively of the rules of the construction safety standards commission.

History: 1954 ACS 88, p. 109, Eff. Sept. 16, 1976.

PART 4. SANITATION

R 408.40401—R 408.40408 Rescinded.

History: 1954 ACS 78, pp. 36, 37, Eff. Mar. 2, 1974; rescinded 1954 ACS 85, p. 36, Eff. Nov. 29, 1975

PART 6. PERSONAL PROTECTIVE EQUIPMENT

R 408.40601 Adoption of federal O.S.H.A. standards.

Rule 601. Section 1926.28 of the O.S.H.A. safety and health regulations for construction, from title 29 of the Code of Federal Regulations (C.F.R.) is incorporated herein by reference, except the words "Subpart F of." Sections 1926.100, 1926.102, and 1926.104 to 1926.107 of the O.S.H.A. safety and health regulations for construction, from title 29 of the Code of Federal Regulations are

R 408.40611—R 408.40614 Rescinded.

History: 1954 ACS 82, pp. 135, 136, Eff. Dec. 21, 1974; rescinded 1954 ACS 88, p. 110, Eff. Sept. 16, 1976.

PART 7. WELDING AND CUTTING

R 408.40701 Adoption of federal O.S.H.A. standard.

Rule 701. (1) Sections 1926.350 to 1926.354 of the O.S.H.A. safety and health regulations for construction, from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrules (2) and (3) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122 edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402 or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Paragraphs (a)(1) through (5), (b) and (c), (d)(1), (d)(1)(i), (d)(1)(iv), and (e)(1) of 29 C.F.R. §1926.353 are excepted. These paragraphs have been adopted by the Michigan department of public health and appear in that department's publication entitled "Occupational Health Standards for Construction" and are referred to as rule 6310. Subpart D, referred to in 29 C.F.R. §1926.353, has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" and is referred to as rules 6201, 6260, 6265, 6270, 6301, 6605, 6610, and 6615. As of the effective date of this part, subpart E, referenced in 29 C.F.R. §1926.353, means part 6 of the rules of the construction safety standards commission.

(3) Paragraph (c)(2) of 29 C.F.R. §1926.354 is excepted. This paragraph has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" and is referred to as rule 6310. As of the effective date of this part, subpart E, referenced in 29 C.F.R. §1926.354, means part 6 of the rules of the construction safety standards commission.

History: 1954 ACS 78, p. 39, Eff. Mar. 2, 1974; 1954 ACS 88, p. 110, Eff. Sept. 16, 1976.

R 408.40702, R 408.40703 Rescinded.

History: 1954 ACS 78, p. 39, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 110, Eff. Sept. 16, 1976.

R 408.40704 Rescission.

Rule 704. Part 7 of the construction safety commission standards, being R 408.1701 to R 408.1705 and appearing on pages 3299 and 3300 of the 1964-65 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 39, Eff. Mar. 2, 1974.

PART 8. HANDLING AND STORAGE OF MATERIALS

R 408.40801 Scope.

Rule 801. This part pertains to the handling and storage of construction materials, including care and use of slings, ropes, and chains for a construction operation, except for specific rules covering materials covered in Part 7. Welding and Cutting; Part 18. Fire Protection and Prevention; and Part 27. Blasting and Use of Explosives.

History: 1954 ACS 78, p. 39, Eff. Mar. 2, 1974; 1954 ACS 88, p. 110, Eff. Sept. 16, 1976; 1954 ACS 99, p. 127, Eff. Apr. 12, 1979.

R 408.40802—R 408.40815 Rescinded.

History: 1954 ACS 78, pp. 39-54, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 111, Eff. Sept. 16, 1976.

R 408.40816 Rescission.

Rule 816. Part 3 of the construction safety commission standards, being R 408.1801 to R 408.1811 and appearing on pages 3301 to 3303 of the 1964-65 Annual Supplement to the Code and 3721 of the 1966 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 54, Eff. Mar. 2, 1974.

R 408.40817 Definitions.

Rule 817. (1) "Block" means a masonry unit having 1 dimension exceeding 15 inches, and 1 of its other 2 dimensions exceeding 7 inches.

(2) "Brick" means a masonry unit which is not a block.

(3) "Chain" means a series of metal links connected to, or fitted into, one another.

(4) "Lay" means the lengthwise distance required by a single strand to make 1 complete spiral around the rope.

(5) "Rigging equipment" means chain, wire rope, fiber rope, synthetic rope, sling, and their accessories and includes hoisting lines.

(6) "Rope" means a strand or series of strands of fiber, synthetic or wire braided, woven or twisted together.

History: 1954 ACS 99, p. 127, Eff. Apr. 12, 1979.

R 408.40818 General provisions.

Rule 818. (1) Material shall be stacked, racked, blocked, interlocked, or otherwise secured to prevent sliding, falling, or collapse during storage or transit.

(2) Before material is unloaded from a railcar, vehicle, or removed from storage, the load or pile shall be examined to ascertain if the material has shifted, binders or stakes have broken, or the load or pile is otherwise hazardous to an employee. If a hazardous condition is found, no attempt shall be made to remove the load until corrective measures are taken that will insure the safety of the employee exposed.

(3) The maximum safe load limit in pounds per square foot of a floor or roof of a building shall be posted in all storage areas, except a slab on grade. The maximum safe load limit shall not be exceeded.

(4) Material shall not be stored within 6 feet of a hoistway or inside floor opening or within 10 feet of an exterior wall which does not extend above the top of the material stored.

(5) Gravel, sand, and crushed stone shall be withdrawn from a pile or barrow area in a manner that prevents overhangs and vertical faces.

(6) Storage areas, aisles, and passageways shall be kept free of accumulation of materials that constitute a hazard to the movement of material-handling equipment and employees.

(7) If a difference in road or work levels exists, ramps, grading, or blocking shall be provided to insure safe movement of material-handling equipment.

(8) A railcar, truck, or semi-trailer shall be chocked or otherwise secured during loading and unloading, if the movement of a railcar, truck, or trailer could create a hazard for the employee.

(9) If in use, a dockboard or dock plate shall be secured against movement, and shall have a slip-resistant surface.

(10) A load line shall not be wrapped around the material being lifted.

(11) A material shall not be stored with any other material with which it could react and cause a hazardous condition.

History: 1954 ACS 99, p. 127, Eff. Apr. 12, 1979.

R 408.40819 Storage of bagged material, brick, and block.

Rule 819. (1) The height of a manually stacked pile of bagged material weighing more than 30 pounds per bag shall not exceed 5 feet.

(2) Bagged material on a pallet shall:

(a) Be not more than 36 inches in height.

(b) Be secured to prevent displacement from the pallet before moving.

(c) Be stacked not more than 2 pallets high.

(3) A loose brick or tile stack shall:

(a) Be tapered back to 2 inches in every foot of height above 4 feet.

(b) Not exceed 6 feet in height.

(c) Be cross-keyed at each 2-foot level.

(4) A loose block stack shall:

(a) Not exceed 6 feet in height.

(b) Be cross-keyed at each 3-foot level.

(5) Brick on a pallet shall:

(a) Be not more than 30 inches in height.

(b) Be secured to prevent displacement from the pallet before moving.

(c) Be stacked not more than 2 pallets high.

(6) Block on a pallet shall:

(a) Be not more than 46 inches in height.

(b) Be cross-keyed every course or secured to pallet.

(c) Be stacked no more than 2 pallets high.

History: 1954 ACS 99, p. 128, Eff. Apr. 12, 1979.

R 408.40820 Storage of lumber.

Rule 820. (1) Lumber shall be stacked on level and solidly supported sills so as to be self-supporting and stable.

(2) The width of a pile of lumber shall be no less than ½ the height.

(3) A pile of lumber manually stacked, and a pile of lumber to be manually unstacked, shall not exceed 6 feet in height.

(4) Lumber which is mechanically stacked shall not exceed 10 feet in height. This lumber shall not be rehandled manually, except as prescribed in subrule (3) of this rule.

(5) Used lumber shall have all protruding nails removed or bent into the lumber before stacking.

History: 1954 ACS 99, p. 128, Eff. Apr. 12, 1979.

R 408.40821 Storage of material in bins or hoppers.

Rule 821. (1) A bin or hopper with a bottom discharge shall have sloped sides to allow material to flow freely.

(2) A hopper, having a top opening 42 inches or less above the ground or working surface, shall be equipped with grillwork over the opening capable of supporting any intended load with the mesh not more than 6 x 6 inches to prevent employee entry.

(3) An employee required to enter or work on stored material in a silo, hopper, bin, tank, or similar storage area shall be equipped with lifeline or safety belt and shall be protected as required by rule 112 of Part 1. General Rules, being R 408.40112 of the Michigan Administrative Code.

History: 1954 ACS 99, p. 129, Eff. Apr. 12, 1979.

R 408.40822 Clearances.

Rule 822. (1) Material stored near an electrical distribution or transmission line shall maintain the following clearances:

(a) Line rated 50 KV or less—10 feet plus length of material stored.

(b) Line rated 50 KV or more—10 feet plus 0.4 inch for each 1 KV over 50 KV plus length of material stored.

(2) All equipment used to store material near energized electrical lines shall conform to Part 10. Lifting and Digging Equipment, and Part 13. Mobile Equipment.

(3) An employee shall be designated to observe the clearance and give timely warning if it is difficult for the operator to maintain the prescribed clearance by visual means.

(4) An employee storing or handling material shall not come closer than the prescribed clearances of subrule (1) of this rule.

History: 1954 ACS 99, p. 129, Eff. Apr. 12, 1979.

R 408.40823 Compressed gas.

Rule 823. The handling and storage of all compressed gases, except those used for welding and cutting, shall be as prescribed in the compressed gas association pamphlet, P-1-1974, safe handling of compressed gases in containers, which is herein adopted by reference and may be inspected at the Lansing office of the department of labor. This pamphlet may be purchased at a cost of $2.00 from the Compressed Gas Association, Inc., 500 Fifth Avenue, New York, New York 10036, or the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 99, p. 129, Eff. Apr. 12, 1979.

R 408.40831 Handling materials to be dropped.

Rule 831. (1) The area onto and through which material is to be dropped shall be completely enclosed with barricades not less than 36 inches or more than 42 inches high and not less than 6 feet back from the opening and area receiving the material. Signs warning of the hazard of falling materials shall be posted on the barricades at each level containing the barricades.

(2) If material is dropped through more than 1 level, the opening shall be enclosed between the upper and lower levels, or an enclosed chute provided, or the intermediate levels barricaded as prescribed in subrule (1) of this rule. If the drop is more than 40 feet inside a building, only an enclosed opening or chute shall be used. The chute or enclosure shall extend through the ceiling of the receiving level.

(3) A material chute shall be constructed to withstand any impact load imposed on it without failure.

(4) A material chute, or section thereof, at an angle of more than 45 degrees from the horizontal shall be entirely enclosed, except an opening may be provided at or about each floor level for insertion of materials. The opening shall not exceed 48 inches in height measured along the wall of the chute. At all stories below the top floor, the openings shall be kept closed if not in use.

(5) A material chute shall fit a floor or wall opening, or the space between the chute and the floor or wall opening shall be covered.

(6) If material is dumped from mechanical equipment or a wheelbarrow, a toeboard or bumper not less than 4 inches thick x 6 inches high nominal size shall be secured to the floor at each material chute opening.

(7) A gate capable of withstanding the load imposed on it shall be installed at or near the discharge end of a material chute. A trained employee shall be in charge of opening the gate and loading of trucks.

(8) If the drop is more than 20 feet outside the exterior of the building, a chute as prescribed in subrules (3) to (6) of this rule shall be used, and extend to within 8 feet of the lower level.

(9) Removal of material, barricades, and chutes shall not be permitted until material handling ceases above.

History: 1954 ACS 99, p. 129, Eff. Apr. 12, 1979.

R 408.40832 Rigging equipment.

Rule 832. (1) Rigging equipment for material handling shall be inspected at the time of installation, before each job, and at the beginning of each shift if in use, by an employee qualified to perform this inspection. Defective rigging equipment shall be removed from service.

(2) If not in use, rigging equipment shall be stored in a manner which is not hazardous for an employee.

(3) Rigging equipment, other than a sling, hoisting line, and alloy steel chain, shall have a safety factor of not less than 5, and shall not be used in excess of its rated capacity.

History: 1954 ACS 99, p. 130, Eff. Apr. 12, 1979.

R 408.40833 Slings.

Rule 833. All slings used to store or handle material for construction operations shall meet the requirements of the general industry safety standard, Part 49. Slings, being R 408.14901 et seq. of the Michigan Administrative Code.

History: 1954 ACS 99, p. 130, Eff. Apr. 12, 1979.

R 408.40834 Wire ropes.

Rule 834. (1) Wire rope shall be taken out of service if any of the following conditions exist:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(a) In running ropes, 6 randomly distributed broken wires in 1 lay or 3 broken wires in 1 strand in 1 lay.

(b) Wear of 1/3 the original diameter of outside individual wires. Kinking, crushing, bird-caging, or any other damage resulting in distortion of the rope structure.

(c) Evidence of any heat damage from any cause.

(d) Reductions from nominal diameter of more than 1/64-inch for diameters up to and including 5/16-inch, 1/32-inch for diameters 3/8-inch to and including 1/2-inch, 3/64-inch for diameters 9/16-inch to and including 3/4-inch, 1/16-inch for diameters 7/8-inch to 1 1/8 inches inclusive, 3/32-inch for diameters 1 1/4 to 1 1/2 inches inclusive.

(e) In standing ropes, more than 2 broken wires in 1 lay in sections beyond end connections or more than 1 broken wire at an end connection.

(2) A wire rope removed for defects listed in subrule (1) of this rule shall not be used for other load carrying service.

(3) A wire rope used for hoisting, lowering, or pulling shall consist of 1 continuous piece without a knot or splice, except an eye splice at the end of a wire rope.

(4) If wire rope clips are used to form eyes in a wire rope, table 1 shall be followed as to numbers and spacing to be used. The "u" section shall be on the dead end side.

(5) An eye splice made in any wire rope shall have not less than 4 full tucks.

(6) A wire rope eye shall be equipped with a thimble if the eye is placed over or around an object with a sharp corner.

(7) Protruding ends of strands in splices on slings and bridles shall be covered or blunted.

TABLE 1

Number and Spacing of U-Bolt Wire Rope Clips

Improved plow steel, rope diameter inches	Number of clips		Minimum spacing (inches)
	Drop forged	Other material	
1/2 or less	3	4	3
5/8	3	4	3 3/4
3/4	4	5	4 1/2
7/8	4	5	5 1/4
1	5	6	6
1 1/8	6	6	6 3/4
1 1/4	6	7	7 1/2
1 3/8	7	7	8 1/4
1 1/2	7	8	9

History: 1954 ACS 99, p. 130, Eff. Apr. 12, 1979.

R 408.40835 Natural and synthetic fiber rope; specifics.

Rule 835. (1) A natural or synthetic fiber rope used for hoisting, lowering, or pulling shall consist of 1 continuous piece without a knot or splice, except an eye splice at the end of the rope.

(2) An eye splice for manila rope shall contain not less than 3 full tucks.

(3) An eye splice for stranded synthetic fiber rope shall contain not less than 4 full tucks. An eye splice for other types of synthetic fiber rope shall be made as prescribed by the rope manufacturer.

Digitized by Google

(4) An eye splice for natural or synthetic fiber rope shall be of a size to provide an interior angle at the splice of not more than 60 degrees when the eye is in place.

(5) A natural or synthetic fiber rope eye shall be equipped with a thimble if the eye is placed over or around an object with a sharp corner.

(6) Strand end tails from an eye splice shall not be trimmed flush with the surface of the rope adjacent to the full tucks. Tails from an eye splice for a fiber rope less than 1-inch in diameter shall project not less than 6 rope diameters beyond the last full tuck. Tails from an eye splice for fiber rope 1-inch or more in diameter shall project not less than 6 inches beyond the last full tuck. Projecting tails may be tapered and spliced into the body of the rope using not less than 2 additional tucks, or they may be taped or wired down.

(7) A natural or synthetic rope shall not be used for load carrying service if:

(a) It is frozen or has been subjected to corrosive chemicals or extreme temperatures.

(b) It has begun to unravel.

(c) It has external abrasions, cuts, or broken fibers, decay, burns, softness, or variation in size or roundness.

(d) It has internal presence of grit, broken fibers, mildew or mold, color change, powdering, or loose fibers.

(8) Natural or synthetic rope shall not be used if there is exposure to corrosive substances, chemicals, or heat.

History: 1954 ACS 99, p. 131, Eff. Apr. 12, 1979.

R 408.40836 Hooks, shackles, and other accessories.

Rule 836. (1) A hook, shackle, and other accessories shall have a rated capacity equal to the chain or rope to which it is attached, and the load shall not exceed the rated load.

(2) A hook shall be discarded if:

(a) The throat opening is more than 15% of the manufactured size.

(b) The hook has more than 10 degrees twist from a vertical center line drawn through the hook center.

(3) A closed hook shall be used if there is a probability of the load becoming disengaged.

(4) Special designed grabs, hooks, clamps, and other lifting accessories shall be marked to indicate the safe working loads and shall be proof tested to 125% of their rated load before use.

(5) A job or shop hook and link, or a makeshift fastener, formed from a bolt, rod, or other such accessories, shall not be used.

(6) A shackle and connecting pin, and other accessories, shall be discarded if the diameter is reduced by more than 10%.

History: 1954 ACS 99, p. 131, Eff. Apr. 12, 1979.

R 408.40837 Chains.

Rule 837. (1) Chains used for material handling shall be made of alloy steel.

(2) An alloy steel chain shall have a permanently affixed tag showing the size, grade, rated capacity, and manufacturer's name.

(3) If wear at any point of any chain link is more than that shown in table 2, the chain shall be repaired or replaced. The repair shall return the chain to its rated capacity.

(4) A load-carrying chain shall be repaired only by the manufacturer.

TABLE 2
Maximum Allowable Wear at Any Point of Link

Chain size (inches)	Maximum allowable wear (inch)	Chain size (inches)	Maximum allowable wear (inch)
1/4	3/64	1	3/16
3/8	5/64	1 1/8	7/32
1/2	7/64	1 1/4	1/4
5/8	9/64	1 3/8	9/32
3/4	5/32	1 1/2	5/16
7/8	11/64	1 3/4	11/32

History: 1954 ACS 99, p. 131, Eff. Apr. 12, 1979.

PART 9. EXCAVATION, TRENCHING, AND SHORING

R 408.40901 Scope.

Rule 901. This part pertains to the digging of excavations and trenches which an employee is required to enter and the supporting systems used on construction operations.

History: 1954 ACS 78, p. 54, Eff. Mar. 2, 1974; 1954 ACS 88, p. 111, Eff. Sept. 16, 1976; 1954 ACS 100, p. 88, Eff. Sept. 5, 1979.

R 408.40902—R 408.40923 Rescinded.

History: 1954 ACS 78, pp. 54-59, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 111, Eff. Sept. 16, 1976.

R 408.40924 Rescission.

Rule 924. Part 9 of the construction safety commission standards, being R 408.1901 to R 408.1910 and appearing on pages 3303 to 3308 of the 1964-65 Annual Supplement to the Code and page 3721 of the 1966 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 59, Eff. Mar. 2, 1974.

R 408.40925 Definitions; A to O.

Rule 925. (1) "Angle of repose" means the maximum permissible slope as determined by table 1.

(2) "Braces," sometimes called "struts," means the horizontal crossmembers of a shoring system whose ends bear against the upright or stringers.

(3) "Excavation" means any manmade cavity or depression in the earth's surface, including its sides, walls, or faces formed by earth removal. For the purposes of this part, a trench is an excavation.

(4) "Kickouts" means the accidental release or failure of a stringer or brace.

(5) "Pier excavation" means a machine-drilled excavation made for a column-type concrete foundation or footing with or without a belled bottom.

(6) "Qualified employee" means a person designated by, and responsible to, the employer and who, by extensive knowledge, training, and experience, has successfully demonstrated the ability to solve or resolve problems relating to the subject matter, the work, or the project.

History: 1954 ACS 100, p. 88, Eff. Sept. 5, 1979

R 408.40926 Definitions; S.

Rule 926. (1) "Sheet piling" means a continuous row of timber or steel piles driven in close contact to provide a tight wall to resist lateral pressure of water, adjacent earth, or other materials.

Digitized by Google

(2) "Sides," sometimes called faces or walls, means the vertical or inclined earth surfaces formed as a result of excavation work.

(3) "Slope" means the acute angle formed by the side of a trench or excavation and the horizontal plane.

(4) "Soil" means any of the following:

(a) "Clay"—a very fine textured soil that derives its resistance to displacement from cohesion and may be:

(i) "Soft clay"—a clay-type soil that has an unconfined strength of less than 1.0 ton per square foot.

(ii) "Medium clay," sometimes called plastic—a clay-type soil that has a minimum unconfined strength of 1.0 ton per square foot.

(iii) "Firm soil"—a clay-type soil that is resistant to forces causing rupture or displacement. A firm clay has a minimum unconfined strength of 1.5 tons per square foot.

(iv) "Stiff clay"—a clay-type soil that is very resistant to forces causing rupture or displacement. A stiff clay has a minimum unconfined strength of 2.5 tons per square foot.

(b) "Fill"—a manmade soil condition that may be constructed of any type of soil or combination thereof.

(c) "Granular soil"—a coarse grained soil that does not possess cohesion but derives its strength from internal friction.

(d) "Organic soil"—a soil that contains significant amounts of peat, muck, or marl.

(e) "Running soil"—any type of soil that has insufficient strength to stand unsupported. Running soil tends to run or slough into the excavation as the excavation is being dug.

(5) "Stringers" means the horizontal members of a trench shoring system whose sides bear against the uprights or earth.

(6) "Supporting system" means the total system necessary to restrain the sides of an excavation from moving.

History: 1954 ACS 100, p. 89, Eff. Sept. 5, 1979.

R 408.40927 Definitions; T, U.

Rule 927. (1) "Tight sheeting" means a continuous row of wood or steel sheets in close contact to provide a tight wall, but is not driven as with piling.

(2) "Toe of slope" means the point at which the side of an excavation intersects the lowest level of the excavation.

(3) "Trench" means an excavation having a depth greater than its width measured at the bottom.

(4) "Trench jack" means a screw or hydraulic jack used as a brace in a trench shoring system.

(5) "Trench shield," sometimes called a trench box, means a trench shoring system composed of steel plates and bracing, welded or bolted together, which can be moved along as work progresses.

(6) "Uprights" means the vertical members of a trench shoring system.

History: 1954 ACS 100, p. 89, Eff. Sept. 5, 1979.

R 408.40931 Locating utility lines.

Rule 931. (1) An employer shall not excavate in a street, highway, public place, a private easement of a public utility, or near the location of a public utility facility owned, maintained, or installed on a customer's premises, without having first ascertained the location of all underground facilities of a public utility in the proposed area of excavation.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(2) Upon receiving the information from the public utility, an employer shall exercise reasonable care when working in close proximity to the underground facilities of any public utility. If the facilities are to be exposed, or are likely to be exposed, only hand digging shall be employed in such circumstances and such support, as may be reasonably necessary for protection of the facilities, shall be provided in and near the construction area.

(3) When any contact with, or damage to, any pipe, cable, or its protective coating, or any other underground facility of a public utility occurs, the public utility shall be notified immediately by the employer responsible for operations causing the damage. If an energized electrical cable is severed, an energized conductor is exposed, or dangerous fluids or gases are escaping from a broken line, the employer shall evacuate the employees from the immediate area while awaiting the arrival of the public utility personnel.

History: 1954 ACS 100, p. 90, Eff. Sept. 5, 1979.

R 408.40932 Excavation; consideration of soil types; water; slide hazards.

Rule 932. (1) If different textured soils are encountered in the side of an excavation, each soil type of the excavation shall be cut to the proper angle of repose, except that the slope shall not steepen between the toe of the slope and the ground level where soft clay or running soil are encountered in the lower cut.

(2) If the excavation is a trench, a trench shoring system shall be used or the sides properly sloped to protect against a cave-in.

(3) Surface water shall be prevented, if possible, from entering or accumulating adjacent to an excavation or trench by use of diversion ditches and dikes.

(4) An ongoing inspection of an excavation or trench shall be made by a qualified person. After every rainstorm or other hazard-producing occurrence, an inspection shall be made by a qualified employee for evidence of possible slides or cave-ins. Where these conditions are found, all work shall cease until additional precautions, such as additional shoring or reducing the slope, have been accomplished.

(5) An excavation cut into a rock formation shall be scaled to remove loose material.

(6) When installed forms, walls, or similar structures create a trench between the form, walls, or structure and the side of the excavation, the employer shall comply with R 408.40943 or R 408.40944.

History: 1954 ACS 100, p. 90, Eff. Sept. 5, 1979.

R 408.40933 Excavation; obstructions; retaining material; egress; guarding; heavy equipment.

Rule 933. (1) A tree, boulder, rock fragments, or other obstructions whose movement could cause injury to an employee shall be removed or supported.

(2) An excavation that an employee is required to enter shall have excavated and other material stored and retained not less than 2 feet from the excavation edge.

(3) When a shoring system is used, the system shall be designed and used to resist the added pressure when heavy equipment, material handling equipment, or material is located near an excavation.

(4) When mobile equipment is utilized or permitted adjacent to an excavation where the operator's vision is restricted, stop logs or barricades shall be utilized or a signal person shall be used.

(5) An excavation 48 or more inches in depth and occupied by an employee shall be provided with either a ladder extending not less than 3 feet above the top

Digitized by Google

as a means of access or with a ramp meeting the requirements of subrule (6) of this rule. Lateral travel along the wall of a trench to a ladder or other means of egress shall not exceed 25 feet.

(6) An earth ramp may be used in place of a ladder if it meets all of the following requirements:

(a) The ramp material shall be stable.

(b) The sides of the excavation above the ramp shall be maintained to the angle of repose or sheeted or shored along the means of egress.

(c) The degree of angle of the ramp shall not be more than 45 degrees.

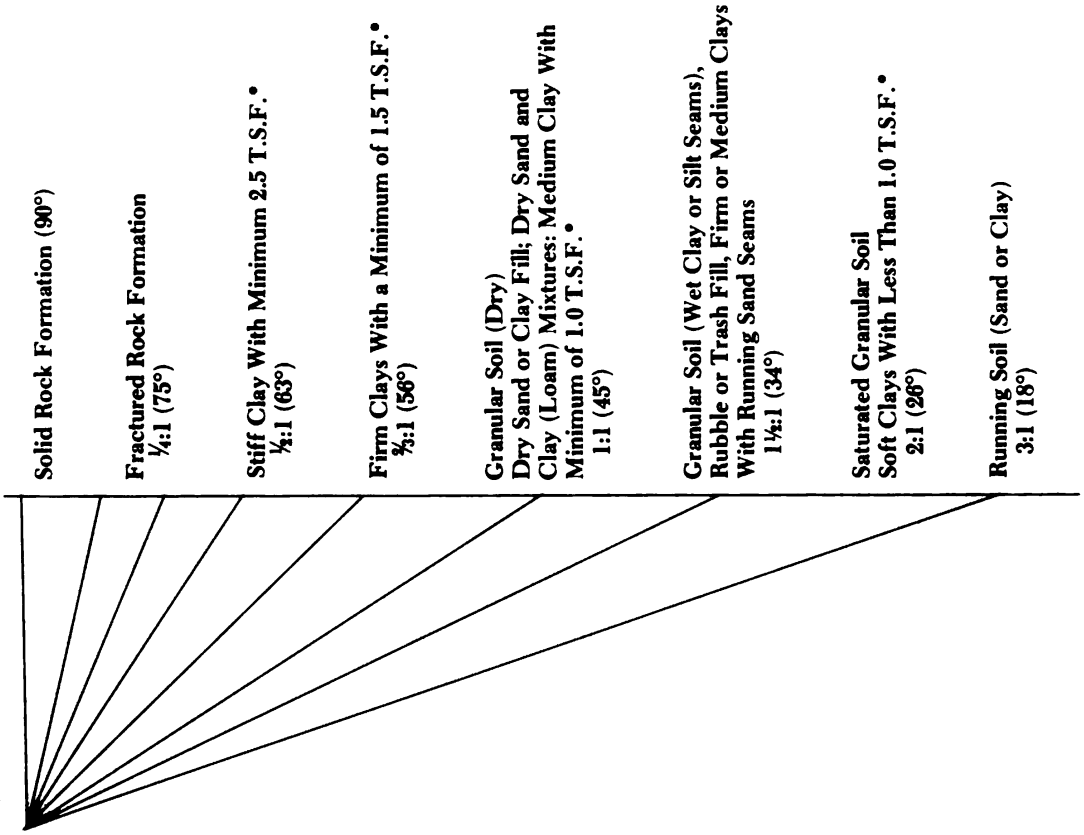
(d) Vertical height between the floor of the trench and the toe of the ramp shall not exceed 30 inches.

History: 1954 ACS 100, p. 90, Eff. Sept. 5, 1979.

R 408.40941 Excavation; angle of repose.

Rule 941. (1) The side of an excavation more than 5 feet deep shall be sloped as prescribed in table 1, unless supported as prescribed in this part.

(2) An excavation less than 5 feet in depth shall also be effectively protected when examination of the ground indicates hazardous earth movement may be expected.



(3) If 1 side of a trench is 5 feet or less in depth and the other side is deeper than 5 feet, the side deeper than 5 feet shall be protected as provided in this part. All excavated material shall be placed on the low side if possible.

(4) Special attention shall be given to a side that may be adversely affected by weather or moisture content.

TABLE 1

Maximum Allowable Angle of Repose
for the Side of an Excavation in Excess of 5′ Depth

Note: Job conditions may require the angle of repose shown in this to be reduced to prevent the side of the excavation from failure.

*Strength values are given in unconfined compressive strength as measured by a penetrometer or laboratory tests.

History: 1954 ACS 100, p. 91, Eff. Sept. 5, 1979.

R 408.40942 Supporting systems; angle of repose; tie backs; tight sheeting; additional bracing.

Rule 942. (1) The angle of repose and the design of the supporting system for a side of an excavation shall be based on the evaluation of all of the following factors:

(a) Depth of cut and type of soil.

(b) Possible variation in the water content of the material while the excavation is open.

(c) Anticipated changes in the material due to exposure to air, sun, water, or freezing.

(d) Load imposed by structures, equipment, overlying material, or stored material.

(e) Vibration from traffic, equipment, or blasting.

(2) A support system shall be designed by a qualified employee. The design of the supporting system shall be maintained at the jobsite. Changes from the design of the support system shall be approved by a qualified employee.

(3) Tie rods and other forms of tie backs used to restrain the top of sheeting shall be anchored a minimum of 10 feet. The measurement to the anchor point

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

shall start at the intersection of an angle of repose with the surface of the soil retained. The tie back and anchor shall be capable of restraining any pressure exerted on the system.

(4) When tight sheeting or sheet piling is used, pressures due to existing ground water conditions shall be considered in the design. Sheet piling shall be driven to the predetermined depth set forth in the required design. Changes from the design shall be approved by the designer of the support system.

(5) Materials used for a supporting system shall be in good serviceable condition. When timbers are used, they shall be sound and free of large or loose knots.

(6) A supporting system shall include additional bracing approved by the designer of the support system when the sides of excavations are cut adjacent to a previous known excavation or a known fill, particularly when the separation between the previous excavation and the new excavation is less than the depth of the excavation.

(7) Tight sheeting shall be braced or anchored at the bottom and along the vertical plane to prevent lateral movement.

History: 1954 ACS 100, p. 91, Eff. Sept. 5, 1979.

R 408.40943 Additional requirements for trench support systems.

Rule 943. (1) A brace or trench jack used for a support system for a trench shall be spaced as designed and shall be secured to prevent sliding, falling, or kickout.

(2) Backfilling and removal of a support system for a trench shall progress together from the bottom of the trench. In unstable or running soil, the jacks and braces shall be removed from above after employees have cleared the trench.

History: 1954 ACS 100, p. 92, Eff. Sept. 5, 1979.

R 408.40944 Benching and sloping.

Rule 944. (1) The angle of repose shall be flattened when an excavation has water conditions, silty materials, loose boulders, or areas where erosion, deep frost action, or slide planes appear.

(2) When benching the side of an excavation, the vertical rise shall not exceed 5 feet and the step back shall extend at least to the angle of repose as required by table 1.

(3) When benching a side of a trench, the height of the lower bench shall not be more than the lesser of 5 feet or the width of the trench measured at the bottom.

History: 1954 ACS 100, p. 92, Eff. Sept. 5, 1979.

R 408.40945 Trench boxes and shields.

Rule 945. Portable trench boxes or sliding trench shields may be used for the protection of personnel in place of a shoring system or sloping. Where such trench boxes or shields are used, they shall be designed, constructed, and maintained in a manner that provides protection equal to or greater than the sheeting or shoring required for the trench.

History: 1954 ACS 100, p. 92, Eff. Sept. 5, 1979.

R 408.40946 Pier excavations; employee protection; unstable soil; life line.

Rule 946. (1) An employee entering a pier excavation shall be protected by a removable steel casing designed by a qualified employee. A copy of the design specifications shall be maintained at the jobsite.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(2) In the case of belled-bottom piers, the removable steel casing shall be provided for the full depth of that part of each pier hole that is above the bell.

(3) An employee shall not be permitted to work below the casing in running or unstable soil.

(4) A life line shall be provided and attached to a shoulder harness on each employee entering the pier excavation. The life line shall be attended by another employee located on the surface and shall be separated from any line used to move materials. A means shall be provided to lift the endangered employees to the surface.

(5) The casing shall extend not less than 12 inches above the ground level.

History: 1954 ACS 100, p. 92, Eff. Sept. 5, 1979.

R 408.40951 Walkways, sidewalks, and roadways.

Rule 951. (1) A walkway or sidewalk shall be kept clear of excavated material and other obstructions.

(2) The walkways and sidewalks shall be lighted if used during hours of darkness.

(3) A sidewalk shall not be undermined unless it is shored to support a live load of not less than 125 pounds per square foot.

(4) A walkway or sidewalk adjacent to an excavation shall be separated from the excavation and protected by a guardrail as prescribed in Part 21. Guardrails, Runways, Ramps, and Stairways, being R 408.42101 et seq. of the Michigan Administrative Code.

(5) An employee routed from a sidewalk or walkway into a roadway to detour an excavation shall be protected on both sides by guardrails or barricades as prescribed in Part 21. Guardrails, Runways, Ramps, and Stairways, or Part 22. Signals, Signs, Tags, and Barricades, being R 408.42201 et seq. of the Michigan Administrative Code.

(6) Where an employee or equipment is required or permitted to cross a trench or ditch, a walkway, runway, ramp, or bridge shall be provided with a designed capacity of not less than 3 times the imposed load. A guardrail prescribed in Part 21. Guardrails, Runways, Ramps, and Stairways shall be provided.

(7) Where equipment is routed across or onto a roadway, protection shall be provided as prescribed in rule 2223 of Part 22. Signals, Signs, Tags, and Barricades, being R 408.42223 of the Michigan Administrative Code.

History: 1954 ACS 100, p. 93, Eff. Sept. 5, 1979.

R 408.40952 Openings in roadways.

Rule 952. An open cut into a roadway shall be provided with a barricade on all sides as precribed in rule 2223 of Part 22. Signals, Signs, Tags, and Barricades, being R 408.42223 of the Michigan Administrative Code. Warning lights shall be provided during hours of darkness.

History: 1954 ACS 100, p. 93, Eff. Sept. 5, 1979.

R 408.40953 Adjacent structures; protection; design, inspection of shoring, bracing, and underpinning.

Rule 953. (1) A structure adjacent to an excavation or trench shall be protected against settlement, lateral movement, undermining, or washout.

(2) Before the excavation begins, the design of the protection used shall be set forth by a qualified person knowledgeable in the subject area.

(3) The shoring, bracing, and underpinning shall be inspected daily or more often, as conditions warrant, by a qualified employee.

History: 1954 ACS 100, p. 93, Eff. Sept. 5, 1979.

PART 10. LIFTING AND DIGGING EQUIPMENT

R 408.41001 Adoption of federal O.S.H.A. standard.

Rule 1001. (1) Section 1926.550 and sections 1926.552 to 1926.555 of the O.S.H.A. safety and health regulations for construction, and sections 1910.67 and 1910.183 of the O.S.H.A. safety and health regulations for general industry, from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except subparagraph (c)(16) of section 1926.552, and except as noted in subrule (2) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction and general industry standards may be purchased at a cost of 75 cents each by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register, by ordering the June 27, 1974, volume 39, number 125, edition of the Federal Register, and by ordering the March 26, 1975, volume 40, number 59, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents each from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Paragraph (a)(11) of 29 C.F.R. §1926.550 is excepted. This paragraph has been adopted by the Michigan department of public health as rule 6310(7). As of the effective date of this part, "U.S." as referred to in 29 C.F.R. §1926.550, means the state of Michigan. As of the effective date of this part, subparts E and F, and section 1926.605, respectively, referenced in 29 C.F.R. §1926.550, means parts 6, 18, and 13, respectively, of the rules of the construction safety standards commission.

(3) As of the effective date of this part, subpart G, referenced in 29 C.F.R. §1926.555 means part 22 of the rules of the construction safety standards commission.

(4) Section 1926.556 of the O.S.H.A. safety and health regulations for construction, being 29 C.F.R. §1926.556, as incorporated by reference pursuant to section 14(1) of Act No. 154 of the Public Acts of 1974, being §408.1014(1) of the Michigan Compiled Laws, is hereby rescinded, as authorized by section 14(1).

History: 1954 ACS 78, p. 59, Eff. Mar. 2, 1974; 1954 ACS 88, p. 111, Eff. Sept. 16, 1976.

R 408.41002, R 408.41003 Rescinded.

History: 1954 ACS 78, pp. 59, 60, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 111, Eff. Sept. 16, 1976.

R 408.41004 Personnel hoist.

Rule 1004. A personnel hoist, other than a powered scaffold or vehicle mounted elevating and rotating platform covered by part 12, shall conform to Act No. 227 of the Public Acts of 1967, being §§408.801 to 408.824 of the Michigan Compiled Laws, and the rules of the department of labor relating to elevators.

History: 1954 ACS 78, p. 60, Eff. Mar. 2, 1974; 1954 ACS 88, p. 112, Eff. Sept. 16, 1976.

R 408.41005—R 408.41023 Rescinded.

History: 1954 ACS 78, pp. 60-64, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 112, Eff. Sept. 16, 1976.

R 408.41024 Rescission.

Rule 1024. Part 10 of the construction safety commission standards, being R 408.2001 to R 408.2014 and appearing on pages 3308 to 3311 of the 1964-65 Annual Supplement to the Code and page 5182 of the 1969 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 64, Eff. Mar. 2, 1974.

PART 11. FIXED AND PORTABLE LADDERS

R 408.41101 Scope.

Rule 1101. This part establishes minimum requirements for the construction, care, and use of ladders for construction operations.

History: 1954 ACS 88, p. 112, Eff. Sept. 16, 1976; 1954 ACS 95, p. 69, Eff. June 1, 1978.

R 408.41102 Rescission.

Rule 1102. (1) Part 11 of the construction safety commission standards, being R 408.2101 to R 408.2115 of the Michigan Administrative Code and appearing on pages 4297 to 4301 of the 1967 Annual Supplement to the Code, is rescinded.

(2) Part 12 of the construction safety commission standards, being R 408.2201 to R 408.2205 of the Michigan Administrative Code and appearing on pages 3315 and 3316 of the 1964-1965 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 88, p. 112, Eff. Sept. 16, 1976.

R 408.41103 Definitions; B to F.

Rule 1103. (1) "Brand" means marking by burning with a hot iron.

(2) "Cleats" means a ladder's crosspieces of rectangular cross section placed on edge on which a person may step to ascend or descend.

(3) "Double cleat ladder" means a ladder that is similar to a single cleat ladder, but is wider and has an additional rail in the center which allows simultaneous 2-way traffic.

(4) "Extension ladder" means a non-self-supporting portable ladder adjustable in length. It consists of 2 or more sections traveling in guides or brackets arranged to permit adjustment of the ladder's length. Its size is designated by the sum of the lengths of the sections measured along the side rails.

(5) "Extension trestle ladder" means a self-supporting portable ladder, adjustable in length, consisting of a trestle ladder base and a vertically adjustable single ladder, with suitable means for locking the ladders together. The size is designated by the length of the rail of the trestle ladder base.

(6) "Fixed ladder" means a ladder permanently attached to a structure, building, or equipment.

History: 1954 ACS 95, p. 69, Eff. June 1, 1978.

R 408.41104 Definitions; J to R.

Rule 1104. (1) "Job-built ladder" means a ladder, other than a manufactured ladder, usually built at the jobsite.

(2) "Ladder" means an appliance which usually consists of 2 side rails joined at regular intervals by crosspieces called steps, rungs, or cleats, on which a person may step to ascend or descend.

(3) "Manufactured ladder" means a commercially made ladder.

(4) "Pitch" means the included angle between the horizontal and the ladder, measured on the opposite side of the ladder from the climbing side.

(5) "Platform ladder" means a self-supporting type of step ladder of fixed size with a platform provided at the working level. The size is determined by the distance along the front rail from the platform to the base of the ladder.

(6) "Portable ladder" means a ladder not permanently fixed in place and which may be used at various locations.

(7) "Rungs" means a ladder's crosspieces of circular or oval cross section on which a person may step to ascend or descend.

History: 1954 ACS 95, p. 69, Eff. June 1, 1978.

R 408.41105 Definitions; S to W.

Rule 1105. (1) "Safety feet" means a safety device placed on the foot of the side rails of straight, sectional, or extension ladders to reduce the likelihood of the base slipping. Safety feet may be flat pads covered with a nonslip material, pointed metal projections, or spur wheels.

(2) "Single cleat ladder" means a ladder which consists of a pair of parallel side rails, connected with cleats that are joined to the side rails at regular intervals.

(3) "Step ladder" means a self-supporting portable ladder, nonadjustable in length, having flat steps and a hinged back. Its size is measured along the front edge of the side rails.

(4) "Steps" means the flat crosspieces of a ladder on which a person may step to ascend or descend.

(5) "Trestle ladder" means a self-supporting portable ladder, nonadjustable in length, consisting of 2 sections hinged at the top to form equal angles with the base. The size is designated by the length of the side rails measured along the front edge.

(6) "Worn" means the reduction of a dimension of wood or nonwood part by more than 10% of its original size.

History: 1954 ACS 95, p. 69, Eff. June 1, 1978.

R 408.41111 Adoption by reference; certification.

Rule 1111. (1) A manufactured portable wood ladder shall be constructed and maintained as prescribed in the ANSI standard A14.1-1975, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This standard may be purchased at a cost of $5.00 from the American National Standards Institute, 1430 Broadway, New York, New York 10018, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(2) A manufactured portable metal ladder, shall be constructed and maintained as prescribed in the ANSI standard A14.2-1972, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This standard may be purchased at a cost of $4.25 from the American National Standards Institute, 1430 Broadway, New York, New York 10018, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(3) A manufactured portable plastic ladder shall be constructed and maintained as prescribed in the ANSI standard A14.5-1974, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This standard may be purchased at a cost of $5.50 from the American National Standards Institute, 1430 Broadway, New York, New York 10018, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(4) A manufactured portable ladder shall be branded or have a permanent label permanently affixed by the manufacturer, which shows the type of ladder and certifies that it meets the requirements of the appropriate ANSI standard as set out in subrules (1), (2), and (3) of this rule.

History: 1954 ACS 95, p. 69, Eff. June 1, 1978.

R 408.41121 Inspection; faults and defects; cleaning; painting.

Rule 1121. (1) A ladder, as prescribed in this part, shall be used to provide safe access to all elevations, unless other means such as steps, stairs, ramps, runways, or elevators are provided.

Digitized by Google

(2) A ladder shall be inspected before use, and after it has fallen or been involved in an accident to determine its condition.

(3) The use of a ladder with faults and defects, such as, but not limited to, broken, worn, or missing rungs or cleats or steps; broken or split side rails; broken or bent guides; or broken or bent iron spreaders or locks shall be immediately tagged "DANGEROUS—DO NOT USE," and withdrawn from service. The tag shall be as prescribed in rule 2242 of Part 22. Signals, Signs, Tags, and Barricades, being R 408.42242 of the Michigan Administrative Code.

(4) Rungs, cleats, or steps of a ladder shall be cleaned to prevent accumulation of materials that may cause slippery conditions.

(5) A portable ladder shall not be painted with an opaque coating.

History: 1954 ACS 95, p. 70, Eff. June 1, 1978.

R 408.41122 Use generally.

Rule 1122. (1) A ladder shall not be placed in a passageway, doorway, driveway, or any location where it may be displaced, unless it is protected by barricades or guards.

(2) A ladder shall be placed on a substantial and stable base and the area around the top and bottom of the ladder shall be kept clear.

(3) A ladder shall not be used as a brace, slide, guy, gin pole, gangway, or for any other use than that for which it is designed.

(4) An employee shall face the ladder when ascending or descending.

(5) An employee on a ladder shall not overreach, or do any pushing or pulling that may cause the ladder to move or topple. If both shoulders are outside of a side rail, the user is overreaching.

(6) A manufactured portable or single cleat ladder shall not be used by more than 1 employee at a time.

(7) A ladder shall be located and maintained to prevent employees from bumping into, or snagging on to, projecting objects while ascending or descending the ladder.

(8) If a ladder provides the only means of access to, or egress from, a working area for 25 or more employees, or if simultaneous 2-way traffic is expected, a minimum of 2 ladders or a job-built double cleat ladder shall be provided.

(9) A rope or chain ladder shall not be used on a construction site.

(10) A ladder being transported or stored on or in a vehicle shall be securely fastened to prevent damage and unintentional displacement.

History: 1954 ACS 95, p. 70, Eff. June 1, 1978.

R 408.41123 Classification of step ladders.

Rule 1123. (1) The use a step ladder shall be limited to 1 of the following types:

(a) Type I—an industrial step ladder, 3 to 20 feet in length, and manufactured for heavy duty work.

(b) Type II—a commercial step ladder, 3 to 12 feet in length, and manufactured for medium duty work, such as painting or light maintenance.

(2) The use of all other manufactured portable ladders shall be limited to those classified as type I.

History: 1954 ACS 95, p. 70, Eff. June 1, 1978.

R 408.41124 Portable ladders.

Rule 1124. (1) A portable ladder shall be used at such a pitch that the horizontal projected distance from the top support to the base is not greater than ¼ the vertical distance between these points.

Digitized by Google

(2) A portable ladder, used at such a pitch that the horizontal projected distance from the top support to the base is less than ¼ the vertical distance between these points, shall be secured at the top to prevent tipping backward.

(3) A portable ladder, used at a pitch of 80 degrees or greater, shall conform to the requirements of a fixed ladder as prescribed in R 408.10335 of the Michigan Administrative Code.

(4) The side rails of a portable ladder shall extend not less than 36 inches above a landing or roof. When this is not practical, grab rails, which provide a secure grip for an employee moving to or from the point of access at the top of the ladder, shall be installed.

(5) A portable ladder in use shall be equipped with appropriate safety feet unless tied, blocked, or otherwise secured to prevent it from being displaced.

(6) A manufactured portable metal ladder shall not be used for electrical work or where it or an employee may contact electrical conductors.

(7) A manufactured portable ladder shall not exceed the following lengths:

Type	Maximum Length
Single section ladder	22 feet
Extension ladder	60 feet
Trestle ladder or extension sections or base sections of an extension trestle ladder	18 feet

(8) An employee using a portable ladder shall not stand on the top 2 rungs or within 3 feet of the top of the ladder.

(9) Two portable ladders shall not be spliced together to provide long sections.

(10) A portable extension ladder shall be adjusted only from the ground, floor, or from the lower section of the ladder.

(11) A portable 2-section extension ladder shall be always erected so that the top section rests on the base section. The top section shall be the section nearest to the climber.

History: 1954 ACS 95, p. 71, Eff. June 1, 1978.

R 408.41125 Trestle ladders.

Rule 1125. (1) When trestle ladders are used to support an elevated work platform, the entire system shall be considered a scaffold.

(2) An employee shall not work directly from the vertical portion of an extension trestle ladder.

History: 1954 ACS 95, p. 71, Eff. June 1, 1978.

R 408.41126 Use of step ladders.

Rule 1126. (1) Unless designed for such use, an employee shall not use the backside of a step ladder for climbing.

(2) Unless the step ladder is equipped with a handrail, the top step and cap shall not be used to stand on.

(3) A step ladder shall not be used as a straight ladder by leaning it against a wall or other support.

(4) A step ladder which is being used shall be opened fully and its spreaders locked.

(5) Each leg of a step ladder shall be in contact with solid footing.

(6) A portable metal step ladder shall not be used for electrical work or where it or an employee may contact electrical conductors.

(7) A portable step ladder shall be in accordance with R 408.41121(2) to (5), R 408.41122(1) to (7), (9), and (10), and R 408.41128(1) to (4).

History: 1954 ACS 95, p. 71, Eff. June 1, 1978.

R 408.41127 Single and double cleat ladders.

Rule 1127. (1) A job-built ladder shall not exceed 24 feet in length. If the length of a required job-built ladder would exceed the maximum length, 2 or more separate ladders shall be used, and offset with a platform, not supported by the ladders, between each ladder. Ladders used with a platform shall be secured at top and bottom.

(2) The platform shall be designed to support 4 times the intended load. Guardrails and toeboards as prescribed in Part 21. Guardrails, Runways, Ramps, and Stairways, being R 408.42101 et seq. of the Michigan Administrative Code, shall be erected on the exposed sides of the platform. Rails shall extend above the top landing not less than 36 inches or more than 42 inches to provide a handhold for mounting and dismounting, and cleats shall be eliminated above the landing level. When 2 or more separate job-built ladders are used with a platform, the ladders shall be completely offset from each other and the minimum horizontal distance between adjacent side rails shall be 6 inches.

(3) The width of a single cleat ladder shall be not less than 16 inches but not more than 20 inches between rails. Side rails shall be parallel.

(4) The width between rails of double cleat ladders shall be not less than 18 inches or more than 22 inches, and cleats shall be continuous members between outside parallel rails.

(5) Side rails of a single cleat ladder shall be not less than nominal 2-inch by 4-inch construction grade lumber for ladders up to 16 feet in length and 2-inch by 6-inch construction grade lumber for ladders from 16 feet to 24 feet in length.

(6) The side rails and middle rail for a double cleat ladder shall be not less than nominal 2-inch by 4-inch construction grade lumber for double cleat ladders up to 12 feet in length and 2-inch by 6-inch construction grade lumber for a double cleat ladder from 12 feet to 24 feet in length.

(7) Side rails of a job-built ladder shall be continuous.

(8) A wood cleat shall be not less than nominal 1-inch by 4-inch construction grade lumber for a cleat up to 20 inches in length, and 2-inch by 4-inch construction grade lumber for a cleat from 20 inches to 50 inches in length. Knot-free lumber shall be used for cleats.

(9) The cleats shall be uniformly spaced 12 inches top to top. A cleat shall be attached to the narrow face of each side rail using 2 10-d nails for nominal 1-inch by 4-inch cleats, or 2 16-d nails for 2-inch by 4-inch cleats.

(10) Filler blocks shall be used on the rails between cleats. Filler blocks of the same thickness as the cleats shall be inserted between cleats and butted tightly against the underside of each cleat.

(11) Cutting into the side rails to house cleats shall not be permitted.

(12) The side rails of a double cleat ladder shall be secured at the bottom and as close as possible to the top to prevent moving or toppling.

History: 1954 ACS 95, p. 72, Eff. June 1, 1978.

R 408.41128 Storage of ladders.

Rule 1128. (1) A ladder should be stored in such a manner as to provide ease of access and inspection. A ladder stored in a horizontal position shall be supported at a sufficient number of points to avoid sagging and permanent set.

(2) A wood ladder shall not be stored within 6 feet of a radiator, stove, or steam pipe or in a location subject to excessive heat or dampness.

(3) A metal ladder shall not be stored where it is subject to reaction with corrosive substances such as, but not limited to, acids and alkali solutions.

(4) A plastic ladder shall be stored on edge on racks when not in use and in a location which is free of corrosive substances and which provides protection from adverse environmental conditions.

History: 1954 ACS 95, p. 72, Eff. June 1, 1978.

R 408.41131 Fixed ladders.

Rule 1131. A fixed ladder shall be as prescribed in Part 3. Fixed Ladders, being R 408.10301 et seq. of the Michigan Administrative Code, which is incorporated herein by reference, and may be inspected at the Lansing office of the department of labor. This standard may be purchased at a cost of 20 cents from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 95, p. 72, Eff. June 1, 1978.

PART 13. MOBILE EQUIPMENT

R 408.41301 Adoption of federal O.S.H.A. standard.

Rule 1301. (1) Sections 1926.600 to 1926.606, and sections 1926.1000 to 1926.1003 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrules (5) and (6) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48826. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, subpart K and section 1518.550, referenced in 29 C.F.R. §1926.600, means parts 17 and 10, respectively, of the rules of the construction safety standards commission.

(3) As of the effective date of this part, section 1926.2, referenced in 29 C.F.R. §1926.602, means Part 12. Variances, of the procedure rules of the department. As of the effective date of this part, subparts N and W, referenced in 29 C.F.R. §1926.602, means parts 10 and 13, respectively, of the rules of the construction safety standards commission.

(4) As of the effective date of this part, subpart N, referenced in 29 C.F.R. §1926.603, means part 10 of the rules of the construction safety standards commission.

(5) Paragraph (a)(1) of 29 C.F.R. §1926.604 is excepted. This paragraph has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" as rule 6610.

(6) Paragraph (d)(1) of 29 C.F.R. §1926.605 is excepted. This paragraph has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" as rule 6310.

History: 1954 ACS 78, p. 65, Eff. Mar. 2, 1974; 1954 ACS 88, p. 113, Eff. Sept. 16, 1976.

R 408.41302—R 408.41341 Rescinded.

History: 1954 ACS 78, pp. 65-68, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 113, Eff. Sept. 16, 1976.

R 408.41342 Rescission.

Rule 1342. Part 13 of the construction safety commission standards, being R 408.2301 to R 408.2308 and appearing on pages 3316 to 3318 of the 1964-65 Annual Supplement to the Code, and page 4301 of the 1967 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 68, Eff. Mar. 2, 1974.

PART 14. TUNNELS, SHAFTS, CAISSONS, AND COFFERDAMS GENERAL PROVISIONS

R 408.41401 Scope.

Rule 1401. This part applies to the construction, modification, and major repair of tunnels, shafts, caissons, and cofferdams and the safe use and maintenance of equipment used in those operations. This part does not apply to routine maintenance of an existing structure.

History: 1954 ACS 78, p. 68, Eff. Mar. 2, 1974; 1954 ACS 88, p. 113, Eff. Sept. 16, 1976; 1954 ACS 97, p. 73, Eff. Nov. 22, 1978.

R 408.41402—R 408.41452 Rescinded.

History: 1954 ACS 78, pp. 69-80, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 114, Eff. Sept. 16, 1976.

R 408.41453 Rescission.

Rule 1453. Part 14 of the construction safety commission standards, being R 408.2401 to R 408.2418 and appearing on pages 3318 to 3322 of the 1964-65 Annual Supplement to the Code, is rescinded.

History: 1954 ACS, 78, p. 80, Eff. Mar. 2, 1974.

R 408.41454 Applicability.

Rule 1454. (1) All rules in this part shall apply to a tunnel, a shaft, a caisson, or a cofferdam, except that a tunnel less than 225 feet in length is excepted from R 408.41464(1) and (2).

(2) An unoccupied auger or pipe jacking tunnel is excepted from the rules of this part pertaining to tunnels.

History: 1954 ACS 97, p. 73, Eff. Nov. 22, 1978.

R 408.41455 Definitions; A to C.

Rule 1455. (1) "Atmospheric pressure" means the pressure of air at sea level, usually 14.7 p.s.i.a. (1 atmosphere), or zero p.s.i.g.

(2) "Auger tunnel" means that tunnel which is excavated by use of a continuous flight auger system, with or without a sleeve or other type of liner.

(3) "Bulkhead" means a structure which is used to separate 1 area from another.

(4) "Caisson" means a structure or chamber which is placed in the ground or water for the purpose of excavating earth.

(5) "Cofferdam" means a temporary structure used to control the flow of water and other material during construction operations.

(6) "Compressed air" means that environment which has a pressure greater than atmospheric pressure.

History: 1954 ACS 97, p. 73, Eff. Nov. 22, 1978.

R 408.41456 Definitions; M to W.

Rule 1456. (1) "Man lock" means a chamber through which employees pass from 1 air pressure environment into another.

(2) "Occupied tunnel" means any tunnel entered by 1 or more employees.

(3) "Pressure" means a force acting on a unit area, usually shown as pounds per square inch, (p.s.i.).

(4) "Qualified employee" means one who, by extensive knowledge, training, and experience, has successfully demonstrated his ability to solve or resolve problems relating to the subject matter, the work, or the project.

(5) "Safety screen" means an airtight and watertight diaphragm placed vertically across the upper part of a compressed air tunnel between the face and bulkhead in order to restrain sudden flooding of the crown of the tunnel between the safety screen and the bulkhead, thus providing a means of refuge and exit from a flooding or flooded tunnel.

(6) "Shaft" means a vertical or inclined opening excavated below ground level.

(7) "Tunnel" means a generally horizontal excavation or facility more than 14 inches in diameter, width, or height and more than 6 feet in length below ground or water. Facilities used for the acquisition of minerals, ores, and fossil fuels, which are commonly known as mines, are excluded from this definition.

(8) "Working chamber" means the space or compartment under air pressure in which the work is being done.

History: 1954 ACS 97, p. 73, Eff. Nov. 22, 1978.

R 408.41461 Advance notice of tunnel excavation.

Rule 1461. (1) Before the start of a tunnel, as defined, 24 inches or more in diameter, height or width, which will be occupied by an employee, a report prepared by the employer performing the tunnel excavation shall be sent to the Michigan Department of Labor, Construction Safety Division, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909, and the Michigan Department of Public Health, Occupational Health Division, P.O. Box 30035, 3500 N. Logan, Lansing, Michigan 48909, in addition to the following civil authorities in the area: hospital, police department, fire department, and sheriff department. The report shall contain the following information:

(a) Name of contractor or contractors.
(b) Starting date.
(c) Length of tunnel.
(d) Diameter of cut.
(e) Finished diameter.
(f) Number of shafts.
(g) Depth of shafts.
(h) Location of shafts.
(i) Method of tunneling.
(j) Maximum working pressure in tunnel or shaft.
(k) Type of primary liner.
(l) Number of shifts.
(m) Projected completion date.
(n) Projected maximum work force within tunnel.

(2) All parties notified pursuant to subrule (1) of this rule shall be notified when the work has been completed.

(3) If, after the start of any tunnel project, a tunnel or shaft that the employer has shown to be constructed, modified, or repaired under atmospheric conditions requires the tunnel to be pressurized, the employer shall notify the Michigan

departments of labor and health, 24 hours prior to allowing the employees to enter the tunnel.

(4) If the work operations of any occupied tunnel projects are discontinued for 30 consecutive days or longer, the general contractor shall notify the Michigan departments of labor and health 24 hours before resuming work operations on the tunnel project.

History: 1954 ACS 97, p. 73, Eff. Nov. 22, 1978.

R 408.41462 General provisions.

Rule 1462. (1) A safe means of egress and access to all work areas shall be provided and maintained free of hazards.

(2) Form, scrap material, lumber with protruding nails, and all other debris shall be kept cleared from the work areas, passageways, and stairs.

(3) Combustible debris shall be removed daily during the course of construction.

(4) When a haulage roadbed consists of track and wood ties, a walkway shall be provided. The walkway shall be a minimum of 2 2-inch by 10-inch planks, side by side, abutted, joined, and secured to a tie or other equivalent means. If space is not adequate for 2 2-inch by 10-inch planks, the walkway shall be as wide as space permits.

(5) When work is not being performed, access to an underground opening shall be covered, bulkheaded, fenced off, or restricted by gates or doors and appropriately posted.

(6) Any section of a tunnel that is not in use shall be barricaded to prevent ingress by an unauthorized employee.

(7) Construction of a trench, manhole, or other opening for use in a tunnel or shaft operation shall be as prescribed in the construction safety standards commission standards, Part 9. Excavation, Trenching, and Shoring and Part 21. Guardrails, Runways, Ramps, and Stairways, being R 408.40901 et seq. and R 408.42101 et seq. of the Michigan Administrative Code.

(8) The power source to a tunneling machine shall be disconnected or locked out when an employee is working in the area of the cutting head or performing maintenance work on the tunneling machine where motion could cause an injury.

(9) An area subject to subsidence that is hazardous to an employee shall be fenced and appropriately posted.

(10) Each operation shall have a check-in and check-out system that will provide positive identification of the employee by number or name and the location of each employee underground. An accurate record shall be kept on the surface.

(11) A ladder or stairway provided in a shaft, caisson, or steep incline shall be as prescribed in the construction safety standards commission standards, Part 11. Ladders and Part 21. Guardrails, Runways, Ramps, and Stairways, being R 408.41101 et seq. and R 408.42101 et seq. of the Michigan Administrative Code.

(12) Each employer shall establish and coordinate with the employees an accident prevention program and a safety training program as prescribed in the construction safety standards commission standard, Part 1. General Rules, being R 408.40101 et seq. of the Michigan Administrative Code.

(13) Each employee shall be issued a copy of the project's general safety rules prior to commencement of the employee's work at the project.

(14) Each employer shall designate a qualified employee with responsibility to administer the safety program. A written record shall be maintained of the safety training programs.

History: 1954 ACS 97, p. 74, Eff. Nov. 22, 1978.

R 408.41463 Emergency provisions; plans; equipment; rescue crews.

Rule 1463. (1) A plan to evacuate a tunnel in an emergency and the procedures to carry out the plan shall be developed and made known to employees and to the rescue team.

(2) An emergency hoisting facility such as, but not limited to, a mud box, outrigger, or crane, shall be readily available at a shaft used as a means of egress, unless there is a hoisting means provided that is independent of an electrical power failure.

(3) A self-contained breathing apparatus as prescribed in subchapter B of part 11 of 30 C.F.R. 1.1, Mineral Resources, shall contain a minimum of 5 minutes' air supply and shall be provided each employee and kept readily available in all underground areas where an employee might be exposed to smoke or gas hazards. This book is incorporated herein by reference and may be inspected at the Lansing office of the department of labor and may be purchased at a cost of $4.80 by ordering stock #022-033-93229-1, Title 30 C.F.R., United States bureau of mines code, from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(4) Self-contained breathing apparatus shall be maintained in good operating condition. Employees shall be trained in their use.

(5) For all underground operations there shall be a rescue crew for each shift. The rescue crew shall be trained in rescue procedures, the use and limitations of a breathing apparatus, and the use of fire fighting equipment. The crews shall be retrained not less than annually. Local fire and police personnel may be used as rescue team for tunnel operations. If this personnel will be used, the employer shall arrange for such assistance prior to the start of the project.

(6) The following minimum rescue equipment shall be provided at the top of the shaft:

(a) Four units of ½ hour rated air supplied respirators.

(b) Four additional units of ½ hour rated air bottles.

(c) Four bureau of mines flashlights or lanterns with additional batteries for each light. The flashlight shall be as prescribed in subchapter D of part 20 of 30 C.F.R. 1.1., Mineral Resources, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This book may be purchased as indicated in subrule (3) of this rule.

(d) Two 2A-10BC fire extinguishers.

(e) One stretcher, wire basket type with slings attached.

(f) One fire blanket.

(g) One 10-ton hand hydraulic rescue kit.

(h) One first aid kit as prescribed by the department of public health.

(7) Not less than 1 employee shall be on duty above ground when an employee is working underground. The primary duty of the employee above ground shall include responsibility for securing immediate aid for the employee underground in case of emergency.

History: 1954 ACS 97, p. 75, Eff. Nov. 22, 1978.

R 408.41464 Communication system; location; signals.

Rule 1464. (1) In a tunnel more than 225 feet long, a communication system shall be provided at the following locations:

(a) The working face.

(b) The top of the shaft.

(c) The bottom of the shaft.

Digitized by Google

(d) The hoisting station, if provided.
(e) Each 1,000 feet of tunnel.
(f) The office, if provided.

A public telephone or other communication system shall be provided or available to each tunnel project in order to secure outside emergency help.

(2) If the tunnel is pressurized, the following additional locations shall also be provided: the working chamber side of the man lock near the door; the interior of all locks; the lock attendant's station; the compressor plant; and first aid station. However, if a gassy condition exists, all phones located within the tunnel shall conform to the United States bureau of mines schedule 9B, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This schedule may be purchased as indicated in R 408.41463(3) of this part. The telephone or other signal communication systems shall be independent of the tunnel power supply.

(3) For an occupied pipe jacking tunnel more than 225 feet long, there shall be a telephone or other signal communication system established between the working face, the shaft tunnel portal, and at least 1 location on the surface.

(4) When a hoist house is provided, there shall be a second independent method of signaling, audible or visible, to the hoist engineer from all landings in the shaft or slope.

(5) A signal code for hoisting shall be posted prominently in the engine house and at all places where signals are given. The signal code shall be as prescribed in rule 2211 of the construction safety standards commission standard, Part 22. Signals, Signs, Tags and Barricades, being R 408.42211 of the Michigan Administrative Code.

History: 1954 ACS 97, p. 75, Eff. Nov. 22, 1978.

R 408.41465 Protective clothing or equipment.

Rule 1465. (1) Protective clothing or equipment shall be required to be used as prescribed in the construction safety standards commission standard, Part 6. Personal Protective Equipment, being R 408.40601 et seq. of the Michigan Administrative Code.

(2) An employee working in a shaft, tunnel or caisson shall wear safety toe shoes or safety toe rubber boots with flat gripper-type soles.

History: 1954 ACS 97, p. 76, Eff. Nov. 22, 1978.

R 408.41466 Electrical requirements.

Rule 1466. (1) A powerline shall be well separated or insulated from waterlines, telephone lines, and air lines.

(2) Electrical equipment and wiring shall be installed and maintained as prescribed in subparts F to J of part 77, 30 C.F.R. 1.1, Mineral Resources, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This book may be purchased at a cost of $4.80 by ordering stock #022-003-93229-1, title 30 C.F.R., United States bureau of mines code, from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909. The national electrical code referenced by subparts F to J is with respect to the 1978 edition with the following amendments:

(a) Article 305-1(a) is amended to read as follows: Temporary electrical power and lighting installations shall be permitted during the period of construction, remodeling, maintenance, repair, or demolition of buildings, structures, equip-

ment, or similar activities which are located at ground level and are part of facilities used for construction of tunnels, shafts, and cofferdams.

(b) Article 310-15 is amended to read as follows: The maximum continuous ampacities for copper, aluminum, and copper-clad aluminum conductors shall be as specified in tables 310-16 to 310-19 and accompanying notes 1 to 12. Power and lighting circuits may be loaded to the maximum design temperature of the wire or cable insulation under the following conditions:

(I) A means shall be provided to disconnect the load if the feeder cable exceeds design temperature by more than 10% for 1 minute.

(II) Power cable shall have a grounding and a pilot wire conforming to IPECA type GGC or equal.

(III) Power cable shall have a "loose connector" emergency shutdown ability.

(IV) Power cable shall have a "ground fault" emergency shutdown ability.

(V) Power cable shall have an "arc between phases" emergency shutdown ability.

(3) All electrical power circuits supplying portable or hand-held tools, lights, or equipment shall be protected by approved ground-fault interrupters or an assured grounding conductor program as prescribed in rules 1709 to 1711 of the construction safety standards commission standard, Part 17. Electrical Installations, being R 408.41709 to R 408.41711 of the Michigan Administrative Code.

(4) The regular system of illumination shall be supplemented by lighting that can be activated upon the failure of the regular system. Supplemental lighting such as approved flashlights or lanterns, shall be sufficient to allow all employees to evacuate the tunnel.

(5) A tunnel excavating machine built and designed after 1977 shall conform to article 501, class I, division 2, of the national electrical code 70-1978, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This code may be purchased at a cost of $6.25 from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02210, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 97, p. 76, Eff. Nov. 22, 1978.

R 408.41467 Fire prevention and protection.

Rule 1467. (1) The applicable requirements for fire prevention and protection specified in the construction safety standards commission standard, Part 18. Fire Prevention and Protection, being R 408.41801 et seq. of the Michigan Administrative Code shall be complied with in all tunnel and shaft operations.

(2) Smoking and open flames shall be prohibited. Welding and cutting where required shall comply with subrules (9), (10), (11), and (12) of this rule.

(3) Not more than 1 day's supply of diesel fuel shall be stored in a tunnel or shaft. Gasoline or liquefied petroleum gas shall not be taken in a tunnel or shaft.

(4) Oil, grease, or fuel stored in a tunnel or shaft shall be kept in tightly sealed containers in fire-resistant areas, at safe distances from explosives, magazines, electrical installations, and shaft stations.

(5) Fire-resistant hydraulic fluids shall be used in hydraulically actuated underground machinery and equipment. For the purpose of this requirement, a fire-resistant hydraulic fluid shall mean any liquid having a flashpoint above 200 degrees Fahrenheit and having a vapor pressure not exceeding 40 p.s.i. (absolute) at 100 degrees Fahrenheit.

(6) An approved 2A-10BC fire extinguisher or equivalent protection shall be provided at the drive pulley of an underground conveyor and at 300-foot intervals

along the belt. A minimum of 2 2A-10BC approved fire extinguishers shall be provided at the tunneling machine.

(7) A pressurized tunnel, in which combustible materials are stored or used, shall be equipped with a 2-inch minimum diameter water line with an outlet to which is connected a 1½ nominal diameter fire hose capable of reaching the combustible materials. The water supply shall be of sufficient volume and pressure to efficiently operate the type of nozzle used on the fire hose for a minimum of 1 minute. Fire extinguishers may be substituted in lieu of the water and fire hose, providing they meet the requirements for the water service.

(8) A minimum of 1 approved 2A-10BC fire extinguisher shall be provided for each electrical, diesel, or hydraulic-powered machine used in a tunnel or shaft.

(9) A noncombustible barrier shall be installed below welding or burning operations.

(10) In an underground operation, local gas checks shall be made before and during a welding or cutting operation, and during a drilling operation that would penetrate the tunnel.

(11) If more than .25% of methane by volume or 5% of the LEL, lower explosive limit, of a flammable gas or petroleum vapor is detected, the welding, cutting, heating, or drilling operation shall cease until the hazard has been eliminated.

(12) A fire watch shall be maintained around welding and cutting operations until all possibility of fire is eliminated. The fire watch shall be provided with a minimum of 1 approved 2A-10BC fire extinguisher.

(13) Flammable materials or supplies, other than those used during 1 shift, shall not be stored within 20 feet of any tunnel or shaft opening.

(14) A head frame shall be constructed of steel or other fire-resistant material. A hoist house and other temporary surface building or structures within 50 feet of the shaft, caisson, or tunnel opening shall be built of fire-resistant materials.

History: 1954 ACS 97, p. 77, Eff. Nov. 22, 1978.

R 408.41468 Guards for power transmissions and hot surfaces.

Rule 1468. (1) A means of power transmission, such as, but not limited to, gears, pulleys, sprockets, belts, chains, and shafts which are exposed to contact by an employee shall be guarded.

(2) The exhaust pipe of an internal combustion engine shall be guarded to prevent contact by an employee with the hot surface.

History: 1954 ACS 97, p. 77, Eff. Nov. 22, 1978.

TUNNELS AND SHAFTS

R 408.41471 Ground support; inspections; repairs.

Rule 1471. (1) A qualified employee shall inspect the roof, face, and walls of portals, work areas, and haulage ways, or travelways at the start of each shift and frequently thereafter as needed. Where loose soil or rock or fractured material is encountered, it shall be scaled or protected and supported.

(2) A scaling bar shall be in good condition. A blunted or severely worn bar shall not be used.

(3) A torque meter and a torque wrench shall be available where rock bolts are used for ground support. Frequent tests shall be made to determine if the bolts are tight. The test frequency shall be determined by rock conditions and distance from vibration sources.

(4) A damaged or dislodged tunnel support shall be repaired or replaced when structural integrity is impaired. A new support shall be installed whenever possible before removing damaged supports.

(5) Tunnel supports shall be designed and installed to prevent pressure from pushing them inward into the excavation.

(6) Roof supports shall be used where ground conditions are such that there could be a ground failure ahead of tunnel sets.

(7) A tunnel that is to be occupied by employees shall be provided with a steel casing, concrete pipe, timber, or other material of required strength to support the surrounding earth.

(8) If an employee is required to enter a tunnel less than 3 feet in diameter, a lifeline for instant rescue shall be securely fastened to his ankles. Another employee shall be stationed at the tunnel entrance to operate the lifeline. In addition, ventilation shall be provided with an air line.

History: 1954 ACS 97, p. 78, Eff. Nov. 22, 1978.

R 408.41472 Shafts; supports; inspections; lifelines.

Rule 1472. (1) A shaft, which an employee is required to enter, shall be provided with a steel casing, concrete pipe, or timber, or other material of required strength to support the surrounding earth.

(2) A lifeline for rescue and securely fastened to a shoulder harness shall be provided each employee entering a shaft less than 4 feet in diameter. This lifeline shall be separate from any line used to remove materials excavated from the shaft.

(3) A shaft more than 5 feet in depth shall be braced to support the surrounding earth. The bracing shall be provided the full depth of the shaft, or if rock is encountered, to not less than 5 feet into solid rock, and shall extend not less than 1 foot above the ground level.

(4) Following a blasting operation, the bracing shall be inspected. Where the bracing is found to be unsafe, corrections shall be made before the shift operations are continued.

History: 1954 ACS 97, p. 78, Eff. Nov. 22, 1978.

R 408.41473 Drilling; inspection; jumbos.

Rule 1473. (1) Drilling equipment that is to be used during a shift shall be inspected each shift by a qualified employee. Equipment defects affecting safety shall be corrected before the equipment is used.

(2) The drilling area shall be inspected for hazards before starting the drilling operation.

(3) An employee shall not be allowed on a drill mast while the drill is in operation.

(4) When a drill is moved from one area to another, drill steel, tools, and other equipment shall be secured, and the mast shall be placed in a safe position.

(5) Drills on columns or stiff legs shall be anchored firmly before drilling is started and they shall be retightened frequently thereafter.

(6) A jumbo deck more than 5 feet high shall be provided with guardrails on all open sides and on the back platform. A stair or ladder access, wide enough for 2 employees, shall be provided to a jumbo deck 10 feet or more in height.

(7) A jumbo deck, ladders, and stairs shall be kept clean to prevent the hazard of slipping and tripping. The deck shall be an anti-slip type and the deck shall be secured to prevent displacement.

(8) A mechanical means shall be provided for lifting drills, roof bolts, mine straps, and other unwieldy heavy material to the top deck of a jumbo more than 10 feet in height.

(9) Receptacles or racks shall be provided for drill steel stored on a jumbo.

(10) When a jumbo is moved, a rider shall not be allowed on the jumbo unless the employee is assisting the operator.

(11) Jumbo wheels shall be chocked while an employee is working on the jumbo.

(12) Before the drilling cycle is started, a warning shall be given to employees working under jumbo decks.

(13) Before commencing a drilling cycle, the face and lifters shall be examined for misfires. If found, the misfired explosive shall be removed before the drilling starts. A lifter shall not be drilled through a blasted muck pile.

(14) An air line that is buried in the invert shall be identified by signs posted nearby warning all employees.

History: 1954 ACS 97, p. 78, Eff. Nov. 22, 1978.

R 408.41474 Blasting.

Rule 1474. (1) All blasting and explosives handling shall be conducted in compliance with the construction safety standards commission standard, Part 27. Blasting and Use of Explosives, being R 408.42701 of the Michigan Administrative Code.

(2) An employee shall not be allowed to enter a shaft or a tunnel heading after blasting until air quality meets minimum requirements.

History: 1954 ACS 97, p. 79, Eff. Nov. 22, 1978.

R 408.41475 Haulage; inspection; braking; riding.

Rule 1475. (1) Haulage equipment that is to be used during a shift shall be inspected by a qualified employee before the start of the shift. Known defects which affect the safety of employees shall be corrected before the equipment is used.

(2) The roadbed, rails, joints, switches, frogs, and other elements of the track of a haulage road shall be constructed, installed, and maintained in a manner consistent with the speed and type of haulage operations being conducted to insure safe operation.

(3) A track switch shall be provided with a locking or spring-loaded throw bridle bar, and guardrail. The switch throw, where possible, shall be placed on the clearance side, and the switch throw shall operate parallel to the haulage road.

(4) Powered locomotive or other mobile equipment shall be provided with suitable brakes, an audible warning device for use by the operator as needed, and lights at both ends.

(5) Powered mobile haulage equipment, subject to falling materials, shall be equipped with cab, canopy, or other protective device capable of protecting the operator from shifting or falling materials. Glass or equivalent for windows shall not be used.

(6) Powered mobile equipment shall not be left unattended unless the power is off, all operating controls are in the neutral position, and the brakes are set, or other equivalent precautions are taken to prevent rolling. The operating controls shall be designed to automatically return to a neutral position or be equipped with a deadman control.

(7) A trolley wire shall be protected from contact by employees. Energized rails shall not be used except when used as a ground return for a trolley wire.

(8) Backstops or automatic braking shall be installed on an inclined conveyor to prevent the conveyor from running out of control and creating a hazard for the employee.

(9) An employee shall not ride a power-driven chain, belt, or bucket conveyor, or a dipper, shovel bucket, forks, clamshell, bed of a dump truck, or on haulage equipment not specifically designed or adapted for transporting employees.

(10) When dumping cars by hand, the car dumps shall be provided with tie-down chains or bumper blocks to prevent the cars from overturning.

(11) A rocker bottom or bottom-dump car shall be equipped with positive locking devices.

(12) Equipment which is to be hauled shall be loaded or protected so as to prevent sliding or spillage.

(13) Parked rail haulage equipment shall be chocked or chained when subject to accidental movement.

(14) Berms, bumper blocks, safety hooks, or similar means shall be provided to prevent overtravel or overturning at dumping locations and, where necessary, at track dead ends.

(15) Supplies, materials, and tools, other than small hand tools, shall not be transported with employees in the same car or on top of a locomotive.

(16) A refuge station shall be provided at not more than every 300 feet where a clearance of 2 feet from moving equipment cannot be provided for employees unless the employees are prohibited from walking the haulage route during movement of a haulage train along the route.

(17) A train used on an incline which would cause the cars to run out of control shall, in addition to couplings, have safety chains, or the equivalent, to connect the cars and the power haulage equipment in a train.

(18) When an employee is being transported in a train, the operator shall have clear vision beyond the forward end of the train for safe operation.

History: 1954 ACS 97, p. 79, Eff. Nov. 22, 1978.

R 408.41476 Stationary hoists generally.

Rule 1476. (1) Upon installation, and weekly thereafter, each stationary hoist assembly shall be checked to assure proper operation and condition of all components. A trial run of the cage or skip shall be made when it has been out of service for 1 complete shift or longer.

(2) The employer shall designate a qualified employee who shall visually inspect all machinery, equipment, anchorages, and hoisting rope at the beginning of each shift, and during use as necessary, to make sure it is in safe operating condition.

(3) All unsafe conditions revealed by tests, checks, or inspections shall be corrected before use of the equipment.

(4) An employee shall not be permitted to ride on a material hoist, unless the hoist meets the requirements of R 408.41478(1) of this part.

(5) Before maintenance, repairs, or other work is commenced in the shaft served by a hoist, the operator shall be informed. A notice shall be installed at the top of the shaft and at the operator controls stating that work is being done in the shaft.

(6) Employees at the bottom of an excavated shaft shall be protected from the movement of equipment, tools, or materials overhead, or the shaft shall be vacated during the operations that may be hazardous to persons below.

(7) When an employee is raised or lowered in a shaft, all other hoisting operations in the shaft shall be stopped until the employee has disembarked at the bottom or top of the shaft.

(8) When a stationary hoist is being used the drum-operating lever shall be of a type that returns automatically to the "stop" position when the operator's hand is removed unless, as a substitute, the throttle that controls the drum speed automatically stops the drum and slows the engine to idling speed when the throttle is released.

(9) Only wire rope shall be used for hoisting, and it shall be properly secured at both drum and cage or skip ends. When in use, not less than 2 full turns shall remain on the conventional drum hoist so as to protect the end fastening at the drum from an overload.

(10) Wire rope shall not be used when any of the following conditions exist:

(a) Six randomly distributed broken wires in 1 rope lay, 3 broken wires in 1 strand in 1 lay, or 1 valley break. A valley break is a wire break occurring between 2 adjacent strands.

(b) Abrasion, scrubbing, flattening, peening, or any severe change causing loss of more than ⅓ of the original diameter of the outside wires in any given area.

(c) Evidence of any heat damage, or any damage caused by contact with electrical wires, or marked corrosion of the rope.

(d) Reduction from nominal diameter of more than $\frac{3}{64}$ inch for diameters up to and including ¾ inch; $\frac{1}{16}$ inch for diameters ⅞ to 1⅛ inches; and $\frac{3}{32}$ inch for diameters 1¼ to 1½ inches.

(11) A wire rope used for hoisting shall be continuous without knot or splice. The hoisting rope shall not be placed around the load.

(12) The connection between the hoisting rope and the cage or skip shall be of a type to prevent the cage from spinning.

(13) All hoists shall be equipped with a landing level indicator at the operator's station.

History: 1954 ACS 97, p. 80, Eff. Nov. 22, 1978.

R 408.41477 Stationary material hoists.

Rule 1477. (1) A hoist used for raising or lowering materials in a shaft shall have a minimum factor of safety of 5, shall be designed and rated by an engineer competent in this field, and shall be constructed in accordance with such design. This design shall incorporate provisions so the hoist cannot exceed the maximum rated speed.

(2) The rated capacity of the hoist shall be posted at all working levels.

(3) Each hoist assembly shall be load tested to 200% of its rated capacity upon installation, after any repairs or alterations affecting its structural integrity or operation of safety devices, and every 6 months during use. A written record of each test shall be maintained for the duration of the project and shall be made available for inspection by authorized representatives of the director.

(4) Hoist equipment and the operator shall be protected from inclement weather by a hoist house with a comfortable temperature maintained.

(5) Where glass is used in hoist house windows, the glass shall be of safety glass or equivalent.

(6) Hoist controls shall be located in such an arrangement to make them operable from a single position of the operator.

(7) Controls for powered hoists shall be of the deadman-type with a non-locking switch or control.

(8) A device to shut off the power shall be installed ahead of the operating control.

(9) A hoist machine with cast metal parts shall be limited to 2,000 pounds single line pull.

(10) All hoists shall be equipped with landing level indicators at the operator's station.

History: 1954 ACS 97, p. 80, Eff. Nov. 22, 1978.

R 408.41478 Personnel hoists.

Rule 1478. Raising or lowering of an employee in a tunnel shaft or caisson shall be by use of a personnel hoist which conforms to Act No. 227 of the Public Acts of 1967, being §§408.801 to 408.824 of the Michigan Compiled Laws, and the rules of the department of labor relating to elevators, being R 408.8511 to R 408.8524 of the Michigan Administrative Code. During the excavation of a shaft or caisson, an employee may be raised or lowered in personnel carrier by a crane, provided the carrier meets the following criteria:

(a) Immediately before using a crane on a tunnel project to raise or lower a personnel carrier, the employer shall inspect the crane and wire rope to assure compliance with Part 10. Lifting and Digging Equipment, being R 408.41001 et seq. of the Michigan Administrative Code.

(b) The power-down feature on a crane shall be used to lower a personnel carrier in a shaft.

(c) The carrier shall be of steel construction designed to support not less than 5 times the maximum intended load.

(d) The sides of the carrier shall have a standard railing and toeboard installed as prescribed in Part 21. Guardrails, Runways, Ramps, and Stairways, being R 408.42101 et seq. of the Michigan Administrative Code. A gate or door, if used, shall be provided with a positive locking device.

(e) The floor of the carrier shall be bolted or welded to insure against displacement.

(f) The carrier shall have a 4-point suspension system with each suspender attached separately to the main connector, such as a ring.

(g) The connection of the carrier suspension system to the loadline of the crane shall be by a positive, closed, swivel-type connector, not including a safety hook.

(h) Before the carrier is used on a project, it shall be tested for 2 times the maximum intended load.

(i) Hand signals shall be used as prescribed in Part 10. Lifting and Digging Equipment, being R 408.41001 et seq. of the Michigan Administrative Code.

(j) Materials and equipment shall not be permitted on the carrier when it is occupied by an employee.

History: 1954 ACS 97, p. 81, Eff. Nov. 22, 1978.

R 408.41479 Flooding; safety screens; runways.

Rule 1479. Where there is a danger of rapid flooding in a tunnel whose bore is 16 feet or more in diameter, the following shall be provided:

(a) A runway from the face to the bulkhead as high in the tunnel as practicable to maintain not less than a 6-foot vertical clearance from the surface of the runway upward to the surface of the tunnel.

(b) The runway shall be constructed of noncombustible material, with a standard railing installed securely through the length as prescribed in the construction safety standards commission standard, Part 21. Guardrails, Ramps, Runways, and Stairways, being R 408.42101 et seq. of the Michigan Administrative Code. Where the runway is ramped under a safety screen, the surface shall be slip-resistant by use of cleats or other equivalent means.

(c) Metal safety screens installed with the bottom of the screen 4 feet above the surface of the runway. The first screen shall be located not less than 400 feet from the face.

History: 1954 ACS 97, p. 81, Eff. Nov. 22, 1978.

COFFERDAMS AND CAISSONS

R 408.41481 Cofferdams.

Rule 1481. (1) A cofferdam shall be designed by an engineer competent in this field, and shall be constructed and maintained in accordance with such design.

(2) If overtopping of the cofferdam by high waters is possible, means shall be provided for controlled flooding of the work area.

(3) Warning signals for evacuation of employees in case of an emergency shall be developed and posted.

(4) A cofferdam shall have not less than 2 means of egress. Runways, bridges, or ramps shall be provided with guardrails as specified in the construction safety standards commission standard, Part 21. Guardrails, Ramps, Runways, and Stairways, being R 408.42101 et seq. of the Michigan Administrative Code.

(5) Where cofferdams are located close to navigable shipping channels, warning devices shall be provided which are visible to vessels in transit.

History: 1954 ACS 97, p. 82, Eff. Nov. 22, 1978.

R 408.41482 Caissons.

Rule 1482. (1) A caisson used under pressure shall be subjected to a hydrostatic test equal to 200% of the working pressure prior to use on a job, at which pressure it shall be tight. The caisson shall be stamped on the outside shell about 12 inches from each flange to show the pressure to which it has been subjected.

(2) A caisson shall be provided, where space permits, with a stairway for its entire height, including landing platforms not more than 20 feet apart. Where this is impracticable, a ladder shall be installed with landing platform located not more than 20 feet apart to break the climb.

(3) Whenever an excavation extends more than 5 feet below a caisson, a support system shall be erected around the perimeter surface of the excavation to protect an employee working therein.

History: 1954 ACS 97, p. 82, Eff Nov. 22, 1978.

PART 16. POWER TRANSMISSION AND DISTRIBUTION

R 408.41601 Adoption of federal O.S.H.A. standard.

Rule 1601. (1) Sections 1926.950 to 1926.960 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrule (2) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan. 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Paragraphs (e) and (h) of 29 C.F.R. §1926.950 are excepted. These paragraphs have been adopted by the Michigan department of public health and appear in that department's publication entitled "Occupational Health Standards for Construction" as rule 6310. As of the effective date of this part, §§1926.104, 1926.105, and 1926.106, referenced in 29 C.F.R. §1926.950, mean part 6; §1926.302, referenced in 29 C.F.R. §1926.950, means part 19; and subpart V, referenced in 29 C.F.R. §1926.950, means part 16 of the rules of the construction safety standards commission.

(3) As of the effective date of this part, §1926.104, referenced in 29 C.F.R. §1926.951, means part 6; and §§1926.300 and 1926.302, referenced in 29 C.F.R. §1926.951, mean part 19 of the rules of the construction safety standards commission.

(4) As of the effective date of this part, subpart N, §§1926.550 and 1926.556, referenced in 29 C.F.R. §1926.952, mean part 10; and subpart O, referenced in 29 C.F.R. §1926.952, means part 13 of the rules of the construction safety standards commission.

(5) As of the effective date of this part, §1926.152, referenced in 29 C.F.R. §1926.953, means part 18 of the rules of the construction safety standards commission.

(6) As of the effective date of this part, §§1926.200, 1926.251, and 1926.652, referenced in 29 C.F.R. §1926.955, mean parts 21, 8, and 9, respectively, of the rules of the construction safety standards commission.

(7) As of the effective date of this part, §§1926.651 and 1926.652. referenced in 29 C.F.R. §1926.956, mean part 9 of the rules of the construction safety standards commission.

(8) As of the effective date of this part, §1926.200, referenced in 29 C.F.R. §1926.957, means part 21 of the rules of the construction safety standards commission.

(9) As of the effective date of this part, subpart N and §1926.551, referenced in 29 C.F.R. §1926.958, mean part 10 of the rules of the construction safety standards commission.

(10) Sections 1926.952 and 1926.953 of the O.S.H.A. safety and health regulations for construction, being 29 C.F.R. §§1926.952 and 1926.953, as incorporated by reference pursuant to section 14(1) of Act No. 154 of the Public Acts of 1974, being §408.1014(1) of the Michigan Compiled Laws, are hereby rescinded, as authorized by section 14(1).

History: 1954 ACS 82, p. 136, Eff. Dec. 21, 1974; 1954 ACS 88, p. 114, Eff. Sept. 16, 1976.

R 408.41602—R 408.41624 Rescinded.

History: 1954 ACS 82, pp. 136-141, Eff. Dec. 21, 1974; rescinded 1954 ACS 88, p. 115, Eff. Sept. 16, 1976.

PART 17. ELECTRICAL INSTALLATIONS

R 408.41701 Scope.

Rule 1701. This part applies to the installation and use of temporary and permanent electrical systems for construction operations.

History: 1954 ACS 78, p. 80, Eff. Mar. 2, 1974; 1954 ACS 88, p. 115, Eff. Sept. 16, 1976; 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41702 Rescission.

Rule 1702. Part 17 of the construction safety commission standards, being R 408.2701 to R 408.2712 and appearing on pages 3329 to 3331 of the 1964-65 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 82, Eff. Mar. 2, 1974.

Editor's note: This rule was formerly numbered R 408.41717, but has been renumbered R 408.41702 to avoid a conflict with another rule numbered R 408.41717. Former R 408.41702, deriving from 1954 ACS 78, p. 82, was rescinded by 1954 ACS 88, p. 115.

R 408.41703—R 408.41716 Rescinded.

History: 1954 ACS 78, pp. 80-82, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 115, Eff. Sept. 16, 1976.

R 408.41717 Definitions; A to C.

Rule 1717. (1) "Approved label" means a label or other identifying mark of a nationally recognized testing laboratory.

Digitized by Google

(2) "Bonding" means the joining of metallic parts by pressure, fusing, or mechanical means to form an electrically conductive path which assures electric continuity and the capacity to conduct safely any current likely to be imposed.

(3) "Branch circuit" means that portion of a wiring system extending beyond the final overload device and protecting the circuit and the outlets.

(4) "Circuit breaker" means a device designed to open and close a circuit by manual means and to open a circuit automatically on a predetermined overload of current, without injury to itself, within the rating of the circuit breaker.

(5) "Competent person" means an employer or employee who is capable of identifying an existing or predictable hazard in surroundings or under working conditions which are hazardous or dangerous to an employee, and who has the authority and knowledge to take prompt corrective measures to eliminate the hazards.

History: 1954 ACS 78, p. 82, Eff. Mar. 2, 1974; 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41718 Definitions; G to W.

Rule 1718. (1) "Ground" means a conducting connection between an electrical circuit or equipment and earth or a conducting body which serves in place of the earth.

(2) "Isolated" means not readily accessible to an employee unless special means of access are used.

(3) "Qualified employee" means an employee who has the training, experience, and technical knowledge necessary to install wiring and equipment in accordance with the standard rules and regulations governing such work.

(4) "Weatherproof" means so constructed or protected that exposure to the weather does not interfere with successful operation.

History: 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41719 Adoption by reference.

Rule 1719. (1) Electrical wiring, apparatus, and equipment shall be manufactured, installed, and maintained as prescribed in the N.F.P.A. standard, No. 70-1975, national electrical code, which is incorporated herein by reference and which is available for inspection at the Lansing office of the Michigan department of labor. This code may be purchased at a cost of $5.50 from the National Fire Protection Association, 470 Atlantic Avenue, Boston, Massachusetts 02110, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(2) Section 210-8 of the code incorporated by reference in subrule (1) is excepted. In lieu of this section, the employer shall conform to 1 of the following:

(a) Install ground-fault circuit interrupters as prescribed in R 408.41721.

(b) Establish and implement an assured equipment grounding conductor program as prescribed in R 408.41722.

History: 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41721 Ground fault circuit interrupters.

Rule 1721. All 120-volt, single-phase 15 and 20 ampere receptacle outlets used for construction operations, which are not a part of the permanent wiring of the building or structure and which are in use by an employee, shall have approved ground fault circuit interrupters for personnel protection. A receptacle on a 2-wire, single-phase portable or vehicle mounted generator rated at not more than 5 kilowatt, where the circuit conductors of the generator are insulated from the

generator frame and all other grounded surfaces, need not be protected with ground fault interrupters.

History: 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41722 Assured equipment grounding conductor program.

Rule 1722. (1) The employer shall establish and implement an assured equipment grounding conductor program for construction operations. The program shall cover all extension cords, receptacles which are not a part of the permanent wiring of the building or structure, and equipment connected by cord and plug which are available for use or used by employees.

(2) This program shall comply with the following minimum requirements:

(a) A written description of the program, including the specific procedures adopted by the employer, shall be available at the jobsite for inspection and copying by the director, department representative, and any affected employee.

(b) The employer shall designate 1 or more competent persons to implement the program.

(c) Each extension cord, attachment cap, plug and receptacle of cord sets, and any equipment connected by cord and plug, except extension cords and receptacles which are fixed and not exposed to damage, shall be visually inspected before each day's use for external defects, such as deformed or missing pins or insulation damage, and for indications of possible internal damage. Equipment found damaged or defective shall not be used until repaired.

(d) The following tests shall be performed on all extension cords, receptacles which are not a part of the permanent wiring of the building or structure, and cord and plug connected equipment required to be grounded:

(i) All equipment grounding conductors shall be tested for electrical continuity.

(ii) Each receptacle and attachment cap or plug shall be tested for correct attachment of the equipment grounding conductor. The equipment grounding conductor shall be connected to its proper terminal.

(e) All required tests shall be performed at the following time:

(i) Before first use.

(ii) Before equipment is returned to service following any repairs.

(iii) Before equipment is used after any incident which can be reasonably suspected to have caused damage, for example, when an extension cord is run over.

(iv) At intervals not exceeding 3 months, except that extension cords and receptacles which are fixed and not exposed to damage shall be tested at intervals not exceeding 6 months.

(f) The employer shall not make available, or permit the use by employees of, any equipment which does not meet the requirements of this rule.

(g) Tests performed as required in this rule shall be recorded. The test record shall identify each receptacle, extension cord, and cord and plug connected equipment that passed the test, and shall indicate the last date it was tested or the interval for which it was tested. This record shall be kept by means of logs, color coding, or other effective means, and shall be maintained until replaced by a more current record. The record shall be made available at the jobsite for inspection by the director, department representative, and any affected employee.

History: 1954 ACS 95, p. 73, Eff. June 1, 1978.

R 408.41723 Employer responsibility.

Rule 1723. (1) An employer shall assure that an employee does not engage in the installation activities to which this part applies unless the employee is a licensed electrician, or the employee is working with, or under the supervision of,

a licensed electrician. A qualified employee is not required to be licensed when working on utility installation or maintenance such as, but not limited to, substations, switch yards, and street or highway lighting.

(2) The employer shall insure that all live parts of electrical equipment operating at 50 volts or more are properly guarded against accidental contact.

(3) The employer shall do all of the following:

(a) Limit access to energized electrical equipment such as, but not limited to, switch gear, transformers, and service panels, to qualified employees.

(b) Provide, and insure the proper use of, an accident prevention sign on electric apparatus, equipment, and enclosures. The voltage shall be indicated.

(c) Provide a conductor of an ampacity of not less than the rating of the circuit breaker or fuses protecting that circuit.

(d) Insure that a bare conductor or earth return is not used for any temporary circuit.

(e) Insure that all electrical wiring is protected from physical damage.

History: 1954 ACS 95, p. 74, Eff. June 1, 1978.

R 408.41724 Electrical installations.

Rule 1724. (1) Electrical apparatus and equipment used for construction operations shall bear an approved label or marking.

(2) Before work begins, a competent person shall ascertain by inquiry, observation, or instruments whether any part of an electric power circuit, exposed or concealed, is so located that, in performance of the work, contact by an employee, tool, or equipment can be made with the circuit.

(3) Any employee shall not be permitted to be in proximity to any part of an electric power circuit that he may contact unless the employee is protected against electric shock by de-energizing the circuit and locking out and tagging it, or unless the employee working on an energized circuit is guarded by insulation, insulated tools, or insulating matting or blankets sufficient to protect against the voltage involved.

(4) Where an electrical power circuit exists that can be contacted by an employee, the employer shall do both of the following:

(a) Post and maintain accident prevention signs prescribed in Part 22. Signals, Signs, Tags, and Barricades, being R 408.42201 et seq. of the Michigan Administrative Code.

(b) Advise the employee of the location of the lines, hazard involved, and protective measures taken or to be taken.

(5) When an employee is using a jack hammer, bar, or other tool which could come in contact with an underground line, the energy source shall be de-energized.

(6) A work space of not less than 3 feet wide and 6½ feet high, in addition to space necessary to open equipment doors not less than 90 degrees, shall be provided and maintained in the area of electrical equipment.

(7) Barriers or other means shall be provided to ensure that the work space for electrical equipment is not used as a passageway during periods when energized parts of electrical equipment are exposed.

History: 1954 ACS 95, p. 75, Eff. June 1, 1978.

R 408.41725 Wiring; attachment plug receptacles; extension and trailing cords; handlamps; portable electric tools used in wet environment; connector supplying equipment at more than 300 volts.

Rule 1725. (1) When electrical wiring is used in a tank or other confined space, a properly identified disconnect switch shall be provided at the entrance.

(2) A receptacle for an attachment plug shall meet all of the following requirements:

(a) Be of the concealed contact type.

(b) Have a contact for extending ground continuity.

(c) Be designed and constructed so that the plug may be removed without leaving any live parts exposed to contact.

(d) Not be capable of receiving attachment plugs for a voltage, frequency, or type of current different from that for which the receptacle is intended, nor shall a plug of a different style be forced into a receptacle.

(3) An extension cord used with a portable electric tool or appliance shall be a 3-wire type.

(4) Extension cords and trailing cords shall be equipped with a plug cap which is either molded to the cord or equipped with a cord clamp to prevent strain on the terminal screws.

(5) Conductors supplying temporary wiring shall be the minimum protective qualities of type NM wire for use indoors, or type UF wire for use outdoors.

(6) A brass shell, paper lined lamp holder and a pin-type lamp holder which damages the insulation shall not be used.

(7) Wiring for temporary lighting in excess of 12 volts used on barricades, fences, and sidewalk coverings shall be protected against abrasion or accidental damage to the insulation.

(8) Trailing cords and extension cords shall:

(a) Be protected against damage.

(b) Hung in a manner which does not damage the covering.

(c) Retain their insulating value and dielectric and physical strength when spliced.

(d) Be insulated to prevent shock or shorts.

(e) Have a plug body or receptacle which is either molded to the cord or is equipped with a cord clamp to prevent strain on the terminal screws, or a receptacle installed in a steel box with a cover and cord clamp.

(9) A portable handlamp shall be made of molded composition or other approved material and shall have a molded handle with bulb guard attached to it.

(10) A portable light used in moist or other hazardous areas, such as a drum, tank, or vessel, shall be operated at a maximum of 12 volts, or shall be protected by an approved ground fault interrupter.

(11) A portable electric tool used in a wet atmosphere or environment shall be protected by an approved ground fault interrupter.

(12) An attachment plug or other connector supplying equipment at more than 300 volts shall be of the skirted type or shall be otherwise designed to confine any arcs.

History: 1954 ACS 95, p. 75, Eff. June 1, 1978.

R 408.41726 Exposure to energized conductors or switch gear of 440 volts between phases.

Rule 1726. Where the work requires exposure to, or handling of, energized conductors or switch gear of 440 volts or more between phases, 2 or more qualified employees shall work together.

History: 1954 ACS 95, p. 76, Eff. June 1, 1978.

R 408.41727 Switches, circuit breakers, disconnectors, transformers, and boxes.

Rule 1727. (1) Each switch, circuit breaker, and disconnector shall meet all of the following requirements:

(a) Be marked to indicate its purpose unless it is so located that the purpose is evident and it is secured against displacement.

(b) Be of the weatherproof type where damp or wet conditions exist.

(2) A box for disconnecting means shall have dead fronts or covers, which shall be kept in place or closed when the panel is energized, or the requirements of R 408.41723 and R 408.41724 shall be complied with.

(3) An arc shield shall be provided on a disconnect of 60 ampere capacity or larger.

(4) A disconnecting means shall be provided to disconnect all energized conductors in a building or structure from the service entrance conductors.

(5) An energized transformer and other related energized equipment over 150 volts to ground shall be protected to prevent accidental contact. The protection shall be an individual housing or an electrical substation fence. A metallic enclosure shall be grounded. Access to this equipment shall require a key or tool. A transformer mounted on a utility pole at a height of more than 12 feet is excepted from the requirements of this subrule.

History: 1954 ACS 95, p. 76, Eff. June 1, 1978.

R 408.41728 Grounding and bonding.

Rule 1728. (1) Except when an approved ground fault interrupter is provided, exposed noncurrent carrying conductive parts of portable and fixed electrical equipment, including, but not limited to, motors, frames, and tracks of electrically operated cranes and electrically driven machinery shall be grounded. A grounding circuit shall be continuous, be capable of carrying the current imposed on it, and have a resistance low enough to permit sufficient current to flow to cause the fuse or circuit breaker to interrupt the current.

(2) Driven rod electrodes, either singly or connected, shall have a resistance to ground of not more than 25 ohms.

(3) Conductors used for bonding shall be capable of carrying the imposed current. The bonding clamps shall have a secure and positive metal to metal contact.

(4) When it is necessary to protect an employee from ground potential while he is working in proximity to energized primary equipment, such as is encountered in substations and power plants, the employee shall be isolated or insulated from the hazard.

History: 1954 ACS 95, p. 76, Eff. June 1, 1978.

R 408.41729 Temporary lighting.

Rule 1729. (1) A temporary light shall be equipped with a guard to prevent accidental contact with the bulb, except that a guard is not required when the bulb is fully recessed in the reflector.

(2) A temporary light shall not be suspended by the electric cord unless the cord and light is designed for suspension.

History: 1954 ACS 95, p. 76, Eff. June 1, 1978.

R 408.41730 Circuit protection.

Rule 1730. (1) Circuit protection shall be provided by fuses or circuit breakers for each feeder and branch circuit and shall be based on the current carrying capacity of the conductors and power load.

(2) A fuse puller shall be used to install or remove a cartridge fuse when 1 or more terminals are energized.

(3) A circuit protection device shall not be placed in a grounded circuit except where the device simultaneously opens both the ground and energized circuit.

(4) Circuit protection in existing installations shall not be changed to increase the load in excess of the load rating of the conductor or equipment.

History: 1954 ACS 95, p. 76, Eff. June 1, 1978.

R 408.41731 Location and protection of electric lines.

Rule 1731. (1) Electric lines crossing work areas, employee foot or vehicular traffic aisles, shall be fastened overhead or protected by a cover capable of withstanding the imposed loads without creating a tripping hazard.

(2) All wiring installed above grade and used for construction operations shall be maintained at a height which provides safe clearance for all work operations.

History: 1954 ACS 95, p. 77, Eff. June 1, 1978.

R 408.41732 Electrical equipment used in hazardous locations.

Rule 1732. (1) Electrical components and equipment used in a hazardous location shall have an approved label for the specific hazardous location.

(2) All screws, gaskets, and threaded connections shall maintain a vapor tight, dust tight, or fiber tight condition as required by the type of hazard class.

History: 1954 ACS 95, p. 77, Eff. June 1, 1978.

R 408.41733 Battery room; safety equipment; charging battery.

Rule 1733. (1) When a battery room is used in conjunction with construction operations it shall meet all of the following requirements:

(a) Be equipped with an exhaust system arranged to remove fumes and gases from any ignition source.

(b) Have floor and racks protected from battery acid.

(c) Have a means of flushing the eyes and body of an employee provided within 25 feet of a battery room.

(d) Have facilities provided for flushing and neutralizing spilled electrolyte.

(e) Have fire protection as required by Part 18. Fire Protection and Prevention, being R 408.41801 et seq. of the Michigan Administrative Code.

(f) Provide protection of charging apparatus from damage by trucks.

(g) Be located in an area designated for that purpose.

(2) An employer shall provide and require the use of safety glasses, face shield, rubber gloves, and aprons by an employee handling acids and batteries.

(3) When charging a battery, the vent caps shall be kept in place and maintained operable.

History: 1954 ACS 95, p. 77, Eff. June 1, 1978.

R 408.41734 Inspection and repair of electrical equipment.

Rule 1734. (1) Electrical equipment shall be inspected periodically. The inspection shall be made at reasonable intervals according to the equipment use and the severity of conditions under which it is used. Worn and frayed cable shall not be used.

(2) Repairs of electrical equipment shall be made by a licensed electrician or an employee supervised by a licensed electrician except as provided in R 408.41723(1).

History: 1954 ACS 95, p. 77, Eff. June 1, 1978.

PART 18. FIRE PROTECTION AND PREVENTION

R 408.41801 Adoption of federal O.S.H.A. standard.

Rule 1801. (1) Section 1926.24 and §§1926.150 to 1926.155 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrule (5) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, subpart F, referenced in 29 C.F.R. §1926.24, means part 18 of the rules of the construction safety standards commission.

(3) As of the effective date of this part, subpart K, referenced in 29 C.F.R. §1926.151, means part 17 of the rules of the construction safety standards commission.

(4) As of the effective date of this part, §1926.404, referenced in 29 C.F.R. §1926.152, means part 17 of the rules of the construction safety standards commission.

(5) Paragraph (a) of 29 C.F.R. §1926.154 is excepted. This paragraph has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" as O.H. rule 6310.

R 408.41926 Definitions; A to D.

Rule 1926. (1) "Abrasive wheel" means a cutting tool consisting of abrasive grains held together by a bonding material.

(2) "Approved tool" means a tool meeting the requirements for specific operations as prescribed in this part.

(3) "Band saw" means a machine equipped with 2 wheels on which a continuous band blade rides.

(4) "Chamber" means to fit without use of force.

(5) "Circular table saw" means a machine with a circular blade and with a table to support the material and used for ripping, crosscutting, dadoing, and rabbeting.

(6) "Combination or universal machine" means a machine combining several operations including, but not limited to, sawing, jointing, and drilling.

(7) "Cutter head" means a powered holder for a cutting blade.

History: 1954 ACS 99, p. 132, Eff. Apr. 12, 1979.

R 408.41927 Definitions; G to M.

Rule 1927. (1) "Grounded" means grounding as required by rule 1728 of Part 17. Electrical Installations, being R 408.41728 of the Michigan Administrative Code.

(2) "Hammer-actuated piston tool" means a low velocity, powder-actuated device that, when struck by a heavy hammer and supplemented by a power load, moves a captive piston to drive a fastener into a material.

(3) "Hand tool" means an instrument used or worked by hand.

(4) "Hand-held circular saw" means a hand-held machine with a circular blade used for crosscutting and ripping.

(5) "Jack" means a device for lifting and lowering a load or moving it horizontally by application of a pushing force.

(6) "Jointer" means a machine with a revolving cutter head set into an adjustable table over which the material is moved across the cutter head.

(7) "Minimum clear hot stick distance" means the distance from an energized conductor or equipment to the closest hand of the employee holding the hot stick.

History: 1954 ACS 99, p. 132, Eff. Apr. 12, 1979.

R 408.41928 Definitions; P.

Rule 1928. (1) "Portable powered stapler and nailer" means a tool that drives a staple or nail by mechanical, pneumatic, or electrical power into a work place, but not a general office stapler.

(2) "Portable powered tool" means a machine or instrument carried or moved by hand and powered by something other than the hand.

(3) "Powder-actuated tool" means a device that makes instantaneous forced-entry fastenings into construction materials by use of a fastener and an explosive load.

(4) "Power load" means a substance capable of producing a propellant force in a powder-actuated tool.

(5) "Protective shield" means a device or guard attached to the muzzle end of a powder-actuated tool to confine flying particles.

(6) "Push block" means a short block of wood, provided with a handle similar to that of a plane and a shoulder at the rear end, and used for pushing stock over revolving cutters.

(7) "Push stick" means a narrow strip of wood or other soft material, with a notch or sharp point on 1 end, which is used to push material through the point of operation of a cutting tool.

History: 1954 ACS 99, p. 132, Eff. Apr. 12, 1979.

R 408.41929 Definitions; Q to T.

Rule 1929. (1) "Qualified operator" means an employee holding a valid operator's card issued pursuant to R 408.41942 for the operation of powder-actuated tools.

(2) "Radial saw" means a machine with a circular blade suspended from a horizontal arm.

(3) "Rating" means the maximum working load that an object is designed to handle under given circumstances.

(4) "Stationary machine tool" means a machine that is set up on a construction project in a temporary, stationary position.

(5) "Tool" means a machine, instrument, or device covered by this part.

History: 1954 ACS 99, p. 133, Eff. Apr. 12, 1979.

R 408.41931 Employer and employees; responsibilities.

Rule 1931. (1) An employer shall do all of the following:

(a) Ensure that an employee has been trained in the use of tools before authorizing their use.

(b) Maintain, or require to be maintained, tools free of defects that could cause injury to an employee.

(2) An employee shall do all of the following:

(a) Use personal protective equipment as prescribed by Part 6. Personal Protective Equipment, being R 408.40601 et seq. of the Michigan Administrative Code.

(b) Report defective tools to the employer.

(c) Not use a tool for other than its designed or approved use.

History: 1954 ACS 99, p. 133, Eff. Apr. 12, 1979.

R 408.41932 Tools generally.

Rule 1932. (1) Regardless of ownership, a tool or part of a tool with a defect that could cause an injury shall be repaired or replaced before use.

(2) When a guard is provided on a tool, it shall not be made inoperative. It may be removed only for repair, service, or setup, and it shall be replaced before the tool is returned to use.

(3) All means of power transmission, reciprocating, and rotating parts of a tool, such as belts, gears, sprockets, shafts, pulleys, and chains shall be guarded if exposed to contact, as prescribed in the general industry safety standards commission standard, Part 7. Guards for Power Transmission, being R 408.10701 et seq. of the Michigan Administrative Code, which is incorporated herein by reference and may be obtained from the construction safety division of the department of labor.

(4) Hand or portable powered tools shall not be left on a scaffold, ladder, or work platform after the completion of the work operation or day. Before the scaffold, ladder, or work platform is moved, all tools shall be removed or properly secured against displacement.

(5) Racks, bins, or tool chests shall be provided for the storage of tools, and any sharp or pointed edges shall be arranged so as not to create a hazard.

(6) A tool shall be visually inspected by the user for safe operation before each daily use, and when found defective, it shall be removed from service and tagged. The tag shall be as prescribed in rule 2231 of the construction safety standards commission standard, Part 22. Signals, Signs, Tags, and Barricades, being R 408.42231 of the Michigan Administrative Code.

(7) A tool used in a potentially explosive atmosphere shall be designed and approved for this atmosphere.

History: 1954 ACS 99, p. 133, Eff. Apr. 12, 1979.

R 408.41933 Portable powered tools; controls.

Rule 1933. (1) A hand-held powered circular saw having a blade diameter of more than 2 inches; an electric, hydraulic, or pneumatic chain saw; and a percussion tool without positive accessory holding means shall be equipped with a constant pressure switch or control that shuts off the power when the pressure is released. A gasoline-powered hand-operated tool shall be equipped with a constant pressure throttle control. A throttle position lock may be provided for starting only.

(2) A hand-held powered drill, tapper, fastener driver, grinder with a wheel more than 2 inches in diameter, disc sander, with a disc more than 2 inches in diameter, belt sander, reciprocating saw, saber saw, scroll saw, and jig saw with a blade shank more than a nominal ¼ inch, and similarly operating power tools shall be equipped with a constant pressure switch or control and may have a lock-on control if turn off can be accomplished by a single motion of the same finger or fingers that turn it on without release of the grip on the tool. A drill of more than ⅜ inch capacity shall not be equipped with the lock-on control.

(3) Other hand-held powered tools, such as, but not limited to, a platen sander, grinder with a wheel 2 inches or less in diameter, disc sander with discs 2 inches or less in diameter, router, planer, laminate trimmer, nibbler, shear, saber saw, scroll saw, and jig saw, with blade shank of nominal ¼ inch or less may be equipped with either a positive on-off control or other control prescribed in subrules (1) and (2) of this rule.

(4) The operating control on a hand-held power tool shall be located so as to prevent accidental operation, if such operation constitutes a hazard to an employee.

History: 1954 ACS 99, p. 134, Eff. Apr. 12, 1979.

R 408.41934 Electric-powered tools.

Rule 1934. (1) An electric-powered tool, such as, but not limited to, a saw, drill motor, and router, shall have a ground fault circuit interrupter, or it shall be grounded. This subrule does not apply to a double-insulated electric power tool labeled with underwriters' laboratory or other nationally recognized testing laboratory approval for double-insulated tools.

(2) A portable, power-driven circular saw shall be equipped with a guard above and below the base plate or shoe. The upper guard shall cover the saw to the depth of the teeth, except for the minimum arc required to allow proper retraction and contact with the work. When the saw is withdrawn from the work, the lower guard shall return automatically and instantly to the covering position.

(3) A cracked, bent, or damaged saw blade shall not be used.

(4) The bore of a saw blade shall be of proper size and shape to properly fit arbors or proper adapters.

(5) An electric-powered tool shall not be left running unattended.

(6) An extension cord to an electric-powered tool shall be located so as to minimize tripping hazards.

(7) The trailing cord of a portable powered tool shall not be used to hoist or lower the tool.

(8) A powered tool shall be disconnected from its power source when it is serviced or when the point of operation device is changed by a device or tool.

(9) When not grounded or double-insulated, an electrically powered hand tool used for the installation of power transmission and distribution systems shall be connected to the power supply by means of an isolating transformer or other isolated power supply.

History: 1954 ACS 99, p. 134, Eff. Apr. 12, 1979.

R 408.41935 Portable pneumatic-powered tools.

Rule 1935. (1) Pneumatic tools shall be kept in good operating condition and be thoroughly inspected at regular intervals. Particular attention shall be given to the control and exhaust valves, hose connections, and die and tool holders.

(2) A portable pneumatic grinder or drill shall be equipped with a means to maintain the speed at not more than the tool's rated speed.

(3) Safety clips or retainers shall be installed on pneumatic impact tools to prevent dies and tools from being accidentally expelled from the barrel.

(4) Pressure shall be shut off by means of a valve and exhausted from lines before disconnecting the lines from tools or connections, except when using a quick make-up coupling.

(5) Safety fasteners shall be provided at connections between tools and hose lines and at all quick make-up type connections to prevent accidental disengagement.

(6) The rated pressure capacity of hoses, pipes, filters, valves, and fittings shall be not less than the rated pressure capacity of the tool. The pneumatic tool and its accessories shall not be operated at a pressure greater than the rated capacity.

(7) Hoses shall not be laid over ladders, stairways, scaffolds, ramps, or runways in such a manner as to create a tripping hazard.

(8) A hose shall not be used for hoisting or lowering a pneumatic-powered tool.

(9) A pneumatic-powered tool having a hose with an inside diameter of more than ½ inch shall have a safety device at the source of supply or branch line to reduce the pressure in case of hose failure.

(10) An airless spray gun which atomizes paint and fluids at a pressure of more than 1,000 pounds per square inch shall be equipped with an automatic or visible

manual safety device which prevents the pulling of the trigger to release the paint or fluid until the safety device is manually released.

(11) A line used to supply air to a pneumatic grinder shall be equipped with a moisture accumulator and oiler.

(12) A pneumatic tool used on or around electrically energized lines or equipment shall be grounded. Hoses used on or around electrically energized lines or equipment shall be manufactured of nonconductive material.

History: 1954 ACS 99, p. 134, Eff. Apr. 12, 1979.

R 408.41936 Cleaning with compressed air.

Rule 1936. (1) Compressed air shall not be used for blowing dirt or dust from the hands, face, or clothing.

(2) Air pressure at the discharge end of a portable air gun or hose used for cleaning shall not exceed 30 pounds per square inch gauge (p.s.i.g.), except the pressure may exceed 30 p.s.i.g. when sandblasting, cleaning concrete forms, or for joint cleaning. When air pressure exceeding 30 p.s.i.g. is used for concrete forms or joint cleaning, a pipe extension of not less than 4 feet shall be used at the end of the hose.

(3) When air under pressure is used to remove chips or dust, a chip guard such as a fixed or removable shield, safely located, shall be provided to protect the operator and any employee in an adjoining area.

(4) The employee using air under pressure shall use personal protective equipment to protect against hazards created by the operation.

History: 1954 ACS 99, p. 135, Eff. Apr. 12, 1979.

R 408.41937 Powered staplers and nailers.

Rule 1937. (1) A portable powered stapler or nailer capable of driving a fastener with a diameter more than .0475 inch, 18 gauge A.W.G., at more than 75 feet per second shall be designed so that the operator is required to make not less than 2 separate operations to activate the tool, with one operation being to place the tool against the work surface.

(2) The design shall prevent discharge of the stapler or nailer when loading or when dropped.

(3) A portable powered stapler or nailer shall not be pointed or discharged at other than the work piece.

(4) The operator of a portable powered stapler or nailer and those employees within the striking distance of its fastener shall wear eye protection as prescribed in rules 623 and 624 of Part 6. Personal Protective Equipment, being R 408.40623 and R 408.40624 of the Michigan Administrative Code.

(5) A positive actuation of the operator control shall be required to propel each fastener from a powered stapler or nailer.

(6) When relieving a jam-up of a fastening device, the source of power shall be disconnected.

(7) At the beginning of each shift, a portable powered stapler and nailer shall be tested for safe operation.

(8) A safety device or operating control shall not be made inoperative.

History: 1954 ACS 99, p. 135, Eff. Apr. 12, 1979.

R 408.41938 Hand tools.

Rule 1938. (1) A pipe, socket, end, or adjustable wrench or pliers having sprung or worn jaws that allow slippage shall not be used.

(2) Impact tools such as, but not limited to, a drift pin, chisel, wedge, or hammer, shall be kept free of mushroomed heads.

(3) A wooden handle of a hand tool that is split, cracked, or splintered shall not be used.

(4) A measuring tape or device that is metal or contains conductive strands shall not be used when working on or near electrically energized parts.

History: 1954 ACS 99, p. 135, Eff. Apr. 12, 1979.

R 408.41941 Powder-actuated tool operators' qualifications.

Rule 1941. An operator of a powder-actuated tool shall be trained to clean the tool correctly and to recognize any worn or defective part or defective operation. The operator shall be able to use the powder-actuated tool safely under varying conditions, know the limitations of its use, and demonstrate competence by actually operating the tool in the presence of the persons who issue the operator's card. The operator shall be familiar with the provisions of these rules and the instructions provided by the manufacturer for operation and care of the powder-actuated tool to be operated, and be able to read the instructions.

History: 1954 ACS 99, p. 136, Eff. Apr. 12, 1979.

R 408.41942 Powder-actuated tool operators' cards.

Rule 1942. (1) An operator of a powder-actuated tool shall have an operator's card that should be in the operator's possession at all times while using the tool and be presented upon request or an employer may establish and maintain at the jobsite a list of employees qualified to operate a powder-actuated tool.

(2) Failure to comply with any of these rules is sufficient cause for the immediate surrender of an operator's card to the employer.

(3) The purpose of the card is to certify that the operator has completed the required training to become a qualified operator.

(4) The card should be of a size, approximately 2½ by 3½ inches, that readily fits into a wallet.

(5) The face of the card should include the following text and bear the signature of the issuer of the card, authorized as provided in subrule (8) of this rule:

QUALIFIED OPERATOR
POWDER-ACTUATED FASTENING TOOLS

DATE _____
SERIAL NUMBER _____
THIS CERTIFIES THAT (NAME OF OPERATOR) HAS RECEIVED THE PRESCRIBED TRAINING IN THE OPERATION OF POWDER-ACTUATED FASTENING TOOLS MANUFACTURED BY (NAME OF MANUFACTURER) _____
_____MODEL(S)_____
(AUTHORIZED ISSUER)_____
(SIGNATURE OF OPERATOR)_____

(6) A statement should be provided on the card as follows: "I have received instruction in the safe operation of powder-actuated fastening tools of the makes and models specified, and I agree to conform to the rules governing their use."

(7) A note should be printed on the card as follows: "Revocation of Card—Failure to comply with any rule for safe operation of powder-actuated fastening tools is sufficient cause for the immediate surrender of the card to the employer."

(8) The manufacturer of a powder-actuated tool should establish an appropriate program to instruct its employees, dealers, and distributors in the proper technical training and testing of operators and the issuance of operators' cards. Operators' cards may be issued by either of the following:

(a) A dealer or distributor of powder-actuated tools, who has been authorized by the tool manufacturer to issue such cards.

(b) An authorized employee of a powder-actuated tool manufacturer.

History: 1954 ACS 99, p. 136, Eff. Apr. 12, 1979.

R 408.41943 Powder-actuated tool operation.

Rule 1943. (1) An operator and assistant using a powder-actuated tool shall be safeguarded by means of eye protection. Head and face protection shall be used, as required by working conditions and as set forth in rules 623 and 624 of Part 6. Personal Protective Equipment, being R 408.40623 and R 408.40624 of the Michigan Administrative Code.

(2) Before using a powder-actuated tool, the operator shall inspect it to determine to the operator's satisfaction that it is clean, that all moving parts operate freely, and that the barrel is free from obstructions. A tool found not to be in proper working order, or that develops a defect during use, shall be immediately removed from service and tagged, and not used until repaired. The tag shall be as prescribed in rule 2231 of the construction safety standards commission standard, Part 22. Signals, Signs, Tags, and Barricades, being R 408.42231 of the Michigan Administrative Code.

(3) A powder-actuated tool shall not be loaded until just prior to the intended firing time. An unattended powder-actuated tool shall not be left loaded.

(4) A powder-actuated tool shall not be left unattended in a place where it is available to unauthorized persons.

(5) Neither a loaded nor an empty powder-actuated tool shall be pointed at any employee, and hands should be kept clear of the open barrel end.

(6) A fastener shall not be driven:

(a) Through an existing hole, unless a positive guide is used to secure accurate alignment.

(b) Into a material which can be easily penetrated, unless the material is backed by a substance that will prevent the fastener from passing completely through and creating a flying missile hazard on the other side.

(c) Into a very hard or brittle material, such as cast iron, glazed tile, surface hardened steel, glass block, live rock, face brick, or hollow tile, unless designed for such use. Before fastening any questionable material, the operator shall determine its suitability by using a fastening as a center punch. If the fastener point does not easily penetrate, is not blunted, and does not fracture the material, initial test fastenings shall then be made pursuant to the tool manufacturer's recommendations.

(d) Directly into material, such as brick or concrete, closer than 3 inches from the unsupported edge or corner, or into a steel surface closer than ½ inch from the unsupported edge or corner, unless a special guard, fixture, or jig is used. As an exception, a low velocity powder-actuated tool may drive no closer than 2 inches from an edge in concrete or ¼ inch in steel. When fastening other material such as a 2-inch by 4-inch wood section to a concrete surface, a fastener of no greater than $\frac{7}{32}$ inch shank diameter may be driven not closer than 2 inches from the unsupported edge or corner of the work surface.

(7) A fastener shall not be driven into a spalled area caused by an unsatisfactory fastening.

(8) A powder-actuated tool shall be used with the correct guard, shield, or attachment recommended by the manufacturer.

History: 1954 ACS 99, p. 136, Eff. Apr. 12, 1979.

R 408.41944 Powder-actuated tool testing and servicing.

Rule 1944. (1) A powder-actuated tool shall be tested each day before loading to see that safety devices are in proper working condition.

(2) The method of testing shall be pursuant to the manufacturer's recommended procedure.

(3) A powder-actuated tool found not in proper working order shall be immediately removed from service, tagged, and not used until proper repairs are made. The owner shall have it serviced and inspected at regular intervals by competent service personnel, and shall not permit it to be altered or repaired except by competent repair people.

History: 1954 ACS 99, p. 137, Eff. Apr. 12, 1979.

R 408.41945 Powder-actuated tools generally.

Rule 1945. A powder-actuated tool shall be designed and constructed as prescribed in section 6 of the ANSI standard, A 10.3-1977, powder-actuated fastening systems, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This standard may be purchased at a cost of $3.50 from the American National Standards Institute, 1430 Broadway, New York, New York 10018, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 99, p. 137, Eff. Apr. 12, 1979.

R 408.41949 Powder-actuated tool loads and studs.

Rule 1949. (1) Power loads shall be coded and used as prescribed in section 7 and table 1 of the ANSI standard A10.3-1977, powder-actuated fastening systems, which is incorporated herein by reference in R 408.41945.

(2) Where means other than the strength of loads are to be used to control penetration, an identification method acceptable to the construction safety standards commission shall be employed.

(3) Studs or other fasteners used in a powder-actuated tool shall be only those specifically manufactured for use in such tools.

History: 1954 ACS 99, p. 137, Eff. Apr. 12, 1979.

R 408.41950 Powder-actuated tool defects and misfires.

Rule 1950. In case of a misfire, the operator shall hold the powder-actuated tool in the operating position for not less than 30 seconds. The operator shall then try to operate the tool a second time. The operator shall wait another 30 seconds, holding the tool in the operating position, then the operator shall proceed to remove the explosive load in strict accordance with the manufacturer's instructions. Misfired cartridges should be placed carefully in a metal container filled with water and returned to the supervisor for disposal.

History: 1954 ACS 99, p. 138, Eff. Apr. 12, 1979.

R 408.41951 Woodworking machinery generally.

Rule 1951. (1) A woodworking machine shall have a disconnect switch that can be locked in the off position. This rule does not apply to hand-held tools. An employer shall establish and maintain a lock-out procedure. A machine connected

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

to an electrical source by a plug-in cord shall be considered in compliance if the plug is disconnected and tagged.

(2) The vibration of a machine shall not create a hazard to the operator.

(3) An arbor and mandrel shall have a firm and secure bearing.

(4) The frames and all exposed metal parts of electric woodworking machinery shall be grounded. A portable motor driving an electric tool shall be grounded unless it has approved double insulation.

(5) A woodworking machine shall not automatically restart upon restoration of power after a power failure. A machine wired to a 110-volt line before the effective date of this part is excepted from this rule.

(6) Operating controls shall be located within reach of the operator while the operator is at the regular work station, making it unnecessary to reach over the cutters. The controls shall be installed so as to eliminate the danger of accidental activation. This subrule does not apply to a constant pressure control used only for setup purposes.

History: 1954 ACS 99, p. 138, Eff. Apr. 12, 1979.

R 408.41952 Stationary circular saws generally.

Rule 1952. (1) An automatic cut-off saw that strokes continuously without the operator being able to control each stroke shall not be used.

(2) Lugs shall be cast on saw frame or tables or another means shall be provided to limit the saw blade size that can be mounted so as to avoid overspeed caused by mounting a saw larger than intended.

(3) The operating speed as designated by the manufacturer shall be etched or otherwise permanently marked on a circular saw blade more than 20 inches in diameter. A saw blade shall not be operated at a higher speed than shown on the blade. When a marked saw blade is retensioned for a different speed, the marking shall be corrected to show the new speed.

(4) A hand-fed circular ripsaw shall have a spreader to prevent material from squeezing the saw or being thrown back at the operator. The spreader shall be made of steel, or its equivalent, and shall be thinner than the saw kerf and slightly thicker than the saw disk. It shall be at least 1 inch wide at the table to provide adequate stiffness or rigidity to resist any reasonable side thrust or blow tending to bend or throw it out of position. The spreader shall be attached so it will remain in true alignment with the saw, even when either the saw or table is tilted. It should be placed so there is not more than ½-inch space between the spreader and the back of the saw when the largest saw is mounted in the machine. A spreader need not be used in connection with grooving, dadoing, or rabbeting. On the completion of such operations, the spreader shall be replaced immediately.

(5) A hand-fed circular ripsaw shall have nonkickback fingers or dogs located to oppose the thrust or tendency of the saw to pick up the material or to throw it back at the operator. They shall be designed to provide holding power for all the thicknesses of material being cut.

(6) The practice of inserting wedges between the saw disk and the collar to form what is commonly known as a wobble saw is prohibited.

(7) Combs, featherboards, or suitable jigs shall be provided at the work place for use when a guard cannot be used, as in dadoing, grooving, jointing, moulding, and rabbeting.

(8) A cracked, bent, or damaged saw blade shall not be used.

(9) The bore of a saw blade shall be of proper size and shape to properly fit arbors or proper adapters.

History: 1954 ACS 99, p. 138, Eff. Apr. 12, 1979.

R 408.41953 Circular table saw guards.

Rule 1953. (1) A circular table saw shall have a hood-type guard covering the blade at all times when not in use. When in use, the hood-type guard shall enclose that part of the blade above the table and that part of the blade above the material by adjusting automatically to the thickness of the material being cut, or it may be a fixed or manually adjusted hood-type guard if the hood remains in contact with the material.

(2) A hood-type guard shall be made of 14-gauge metal or thicker. Plastic may be used if it can resist blows and strains incidental to reasonable operation, adjusting, and handling, and is designed to protect the operator from flying splinters and broken saw teeth. The guard shall be made of material soft enough so that it will be unlikely to cause tooth breakage.

(3) The hood shall be mounted so that its operation is positive, reliable, and in true alignment with the saw. The mounting shall be of sufficient strength to resist any reasonable side thrust or other force tending to throw it out of line.

(4) Where a hood-type guard cannot be used because of unusual shapes or cuts, a jig or fixture providing equal safety to the operator shall be used. On the completion of these operations, the guard shall be replaced immediately.

(5) A push stick shall be used in cutting short or narrow stock.

History: 1954 ACS 99, p. 139, Eff. Apr. 12, 1979.

R 408.41954 Radial arm saws; guards, spreaders, and stops.

Rule 1954. (1) The upper hood of a radial arm saw shall completely enclose the upper portion of the blade down to a point that includes the end of the saw arbor. The upper hood shall be constructed in a manner and of not less than 14-gauge sheet metal or equivalent material that protects the operator from flying splinters and broken saw teeth and deflects sawdust away from the operator. The sides of the lower exposed portion of the blade shall be guarded to the full diameter of the blade by a device that automatically adjusts itself to the thickness of the stock and remains in contact with the stock being cut to give the maximum protection possible for the operation being performed.

(2) Nonkickback fingers or dogs shall be located on both sides of each radial arm saw blade used for ripping to oppose the thrust or tendency of the saw to pick up the material or to throw it back toward the operator. They shall be designed to provide adequate holding power for all the thicknesses of material being cut. When a radial arm saw is used for ripping, a spreader should be provided that complies with R 408.41952(4).

(3) An adjustable stop shall be provided to prevent the forward travel of the blade beyond the position necessary to complete the cut in repetitive operations. A limit chain or other equally effective device shall be provided to prevent the saw blade from sliding beyond the edge of table or the table at that place shall be extended to eliminate overrun.

(4) The cutting head of a radial arm saw shall return gently, without rebound, to the starting position when released by 1 of the following means:

(a) Sloping the unit.

(b) A counterweight system. This system shall not use fiber and synthetic rope or springs.

(5) Ripping and ploughing shall be against the direction in which the saw turns. The direction of the saw rotation shall be conspicuously marked on the hood. In addition, a permanent label colored standard danger red, not less than 1½ inches by ¾ inch, shall be affixed to the rear of the guard at approximately the level of the arbor, reading as follows: "DANGER: Do Not Rip or Plough From This End."

R 408.41955 Band saws.

Rule 1955. (1) All portions of the band saw blade shall be enclosed or guarded, except for the working portion of the blade between the bottom of the guide and the table.

(2) A band saw wheel shall be fully encased. The outside periphery of the enclosure shall be solid. The front and back of the band wheels shall be enclosed by either solid material, wire mesh, or perforated metal. Mesh or perforated metal shall not be less than .0037 inch (U.S. gauge no. 20) and the openings shall be not more than ⅜ inch. Solid material used for this purpose shall be of an equivalent strength and firmness. The upper wheel guard shall be made to conform to the travel of the saw on the wheel. The top member of the guard should have not less than a 2-inch clearance outside the saw and be lined with smooth material.

(3) A guard for the portion of the blade between the sliding guide and the upper saw wheel guard shall protect the saw blade at the front and outer side. The guard shall be self-adjusting to raise and lower with the guide. The sliding blade guide shall be kept to within ¼ inch of the work piece.

(4) A band saw shall not be stopped quickly by thrusting a piece of wood against the cutting edge of teeth when the power is off.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41956 Jointers; use and guards.

Rule 1956. (1) Each hand-fed planer and jointer with a horizontal or vertical head shall have a cylindrical cutting head, the knife projection of which shall not extend more than ⅛ inch beyond the cylindrical body of the head. Square cutting heads shall not be used on jointers and planers.

(2) The opening in the jointer table shall be kept as small as possible. The clearance between the edge of the rear table and the cutter head shall be not more than ⅛ inch. The table throat opening shall be not more than 2½ inches when tables are set or aligned for zero cut.

(3) A proper push block shall be used when jointing short or narrow stock.

(4) A hand-fed jointer with a horizontal or vertical cutting head shall have an automatic guard covering all the sections of the cutting head on the working side of the fence or guard. The guard shall effectively keep the operator's hand from coming in contact with the revolving knives. The guard shall adjust itself automatically so as to cover the unused portion of the cutting head and shall remain in contact with the material at all times.

(5) A hand-fed jointer with a horizontal cutting head shall have a guard covering the section of the head back of the gauge or fence.

(6) Vertical head jointers shall have an exhaust hood covering the cutting head.

(7) The minimum length of the piece jointed shall be not less than 4 times the distance between the 2 tables. Neither half of the jointer table should be adjusted horizontally so that the clearance between the edge of the table and revolving knives is more than ¼ inch.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41957 Woodworking lathes.

Rule 1957. (1) Guards covering the work pieces on a wood-turning lathe should be constructed of not less than 18-gauge expanded metal or equivalent material which permits observation of the turning operations.

(2) Material in a lathe shall be fastened securely to faceplates or between centers.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41958 Disk sanding machines.

Rule 1958. A disk sanding machine shall have the exhaust hood or other guard arranged to enclose the revolving disk, except for that portion of the disk above the table. The distance between the disk and the table edge shall be not more than ¼ inch.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41959 Other woodworking machines.

Rule 1959. The mention of specific machines in R 408.41921 to R 408.41929 does not exclude other woodworking machines from the requirement that suitable guards be provided to reduce to a minimum the hazard due to the point of operation of these machines.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41960 Stationary machine tools generally.

Rule 1960. (1) Machine tools, including, but not limited to, band saws, drill presses, and pipe cutting and threading machines which are set up on a construction project in a temporary stationary position, shall have a power control provided on each machine, so located and guarded as to prevent accidental starting and to enable the operator to cut off power without leaving his position at the point of operation.

(2) Frames of electrically driven or supplied machines shall be grounded.

(3) Band saws and other machinery requiring warm-up for safe operation shall be permitted to warm up before being put into operation when temperatures are below 45 degrees Fahrenheit.

(4) The use of cracked, bent, or otherwise defective parts, such as saw blades, cutters, and knives, is prohibited.

(5) Bases or frames of temporary stationary machinery shall be secured by fasteners of slip-resistant materials to prevent movement or upset.

History: 1954 ACS 99, p. 140, Eff. Apr. 12, 1979.

R 408.41961 Fuel-powered tools.

Rule 1961. (1) A fuel-powered tool shall be stopped before being refueled, serviced, or maintained.

(2) When using a fuel-fired powered tool in an enclosed area, the toxic fumes shall be exhausted as prescribed by the department of public health rules, being rule 2101(2) and rule 3101 which were adopted by authority of section 14(1) and (2) of Act No. 154 of the Public Acts of 1974, being §408.1014(1) and (2) of the Michigan Compiled Laws.

(3) A fuel-fired tool's moving parts, such as a flywheel, rotating screen, or clutch, shall be guarded.

(4) A fuel-fired tool shall not be started within 10 feet from the place where it was refueled.

(5) An engine throttle control provided on a fuel-powered tool shall be located so that it can be operated only while maintaining a secure grip on the tool.

(6) A fuel-fired tool shall have a guard that protects the throttle lever from inadvertent contact.

(7) A centrifugal clutch, if provided on a fuel-fired tool, shall have a throttle control, carburetor, and clutch system so that if the throttle control is released, the engine idle speed shall become lower than the clutch disengagement speed, allowing the driven components to come to a complete stop.

(8) A chain saw's chain shall be stopped if it is not being used for sawing. A chain saw shall be carried by the top handle with the guide bar to the rear.

(9) The use of a chain saw to open a hole in a solid object, such as a floor, wall, or panel, is not permitted.

(10) A manual chain oiler control, if provided on a chain saw, shall be located so that it can be operated without relinquishing a secure grip on the saw.

(11) A chain saw's chain shall be guarded adjacent to the handle area, and the sawdust shall be directed away from the operator.

R 408.41962 Abrasive wheels.

Rule 1962. An abrasive wheel used on a grinder shall be mounted, guarded, and used as prescribed in the general industry safety standards commission standard, Part 1A. Abrasive Wheels, being R 408.10101 et seq. of the Michigan Administrative Code. This standard may be purchased at a cost of 20 cents from the Standards Division, Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 99, p. 141, Eff. Apr. 12, 1979.

R 408.41963 Metalworking machinery.

Rule 1963. A stationary metalworking machine shall be guarded, maintained, and used as prescribed in the general industry safety standards commission standard, Part 26. Metalworking Machinery, being R 408.12601 et seq. of the Michigan Administrative Code. This standard may be purchased at a cost of 20 cents from the Standards Division, Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

History: 1954 ACS 99, p. 141, Eff. Apr. 12, 1979.

R 408.41964 Hydraulic power tools.

Rule 1964. (1) A hydraulically powered tool shall use approved fire-resistant fluids which do not change the performance characteristics during temperature extremes.

(2) The rated capacity of hydraulic hose, valves, pipe, filters, and other fittings shall not be exceeded.

(3) Hoses used on or around an electrically energized line or equipment shall be nonconductive.

History: 1954 ACS 99, p. 141, Eff. Apr. 12, 1979.

R 408.41966 Jacks; level and ratchet, screw and hydraulic.

Rule 1966. (1) The rated capacity shall be legibly marked on a jack, and the capacity shall not be exceeded. A jack shall have a positive stop to prevent overtravel.

(2) A hydraulic jack used for lift slab construction shall have a device which causes the jack to support the load in any position if the jack malfunctions.

(3) A lift slab jack system which is automatically controlled shall have a device which stops the operation when a ½ inch leveling tolerance is exceeded.

(4) A jack shall be provided a firm foundation. A wood block shall be placed between the load and the metal cap of a jack to prevent slippage.

History: 1954 ACS 99, p. 142, Eff. Apr. 12, 1979.

R 408.41967 Chain falls and hoist and pullers; capacity.

Rule 1967. (1) A chain fall or hoist and puller shall be used at not more than its rated capacity.

Digitized by Google

(2) The capacity of a chain fall or hoist and puller shall be permanently labeled or marked on it.

(3) An accessory, such as a chain or cable, used to secure or support a chain fall or hoist and puller shall have a capacity of not less than the chain fall or hoist and puller.

(4) An object subject to a lift or pull by a chain fall shall have the capacity to absorb the lift or pull without creating a hazard to an employee in the area.

History: 1954 ACS 99, p. 142, Eff. Apr. 12, 1979.

R 408.41968 Chain falls and hoist and pullers; use.

Rule 1968. (1) A chain fall or hoist and puller shall be secured to an anchorage and the load attached to the chain fall or hoist and puller in a manner which prevents inadvertent disengagement.

(2) When a chain fall or hoist and puller is under tension of a load, a positive action shall be required to release the tension.

(3) A hoist and puller lever handle shall not be operated with an extension handle, except as furnished by the manufacturer.

(4) A chain fall or hoist and puller shall be visually inspected for observable defects before each job use by the employee using the tool.

History: 1954 ACS 99, p. 142, Eff. Apr. 12, 1979.

R 408.41969 Hot sticks.

Rule 1969. (1) A hot stick and any tool attached to it shall be clean and inspected for damage before use.

(2) A hot stick which has been damaged shall not be used until replaced or repaired by a knowledgeable employee or an outside service and tested to meet the requirements of subrule (3).

(3) A hot stick shall not be used unless it has been certified and labeled by the manufacturer to meet the following standards:

(a) Fiberglass, 100,000 volts per foot of length for 5 minutes, or any equivalent test.

(b) Wood, 75,000 volts per foot of length for 3 minutes, or any equivalent test.

(4) A hot stick shall be stored in a manner to protect it from damage. A hot stick made of wood shall be protected from moisture.

(5) A hot stick shall not be used in excess of the rated capacity certified by the manufacturer.

(6) The minimum working distance and minimum clear hot stick distances prescribed in table 1, when using live-line tools, shall not be violated.

(7) The minimum working distance for live-line bare-hand technique prescribed in table 2 shall not be violated.

TABLE 1

Alternating Current—Minimum Distances

Voltage range (phase to phase) kilovolt	Minimum working and clear hot stick distance
2.1 to 15	2 ft. 0 in.
15.1 to 35	2 ft. 4 in.
35.1 to 46	2 ft. 6 in.
46.1 to 72.5	3 ft. 0 in.
72.6 to 121	3 ft. 4 in.

TABLE 1 (Cont.)
Alternating Current—Minimum Distances

Voltage range (phase to phase) kilovolt	Minimum working and clear hot stick distance
138 to 145	3 ft. 6 in.
161 to 169	3 ft. 8 in.
230 to 242	5 ft. 0 in.
345 to 362	[1]7 ft. 0 in.
500 to 552	[1]11 ft. 0 in.
700 to 765	[1]15 ft. 0 in.

[1]Note: For 345-362 kv., 500-552 kv., and 700-765 kv., the minimum working distance and the minimum clear hot stick distance may be reduced provided that such distances are not less than the shortest distance between the energized part and a grounded surface.

TABLE 2
Minimum Clearance Distances For Live-Line Bare-Hand Work (Alternating Current)

Voltage range (phase to phase) kilovolts	Distance in feet and inches for maximum voltage	
	Phase to ground	Phase to phase
2.1- 15	2′0″	2′0″
15.1- 35	2′4″	2′4″
35.1- 46	2′6″	2′6″
46.1- 72.5	3′0″	3′0″
72.6-121	3′4″	4′6″
138 -145	3′6″	5′0″
161 -169	3′8″	5′6″
230 -242	5′0″	8′4″
345 -362	[1]7′0″	[1]13′4″
500 -552	[1]11′0″	[1]20′0″
700 -765	[1]15′0″	[1]31′0″

[1]Note: For 345-362 kv., 500-552 kv., and 770-765 kv., the minimum clearance distance may be reduced provided the distances are not made less than the shortest distance between the energized part and a grounded surface.

History: 1954 ACS 99, p. 142. Eff. Apr. 12, 1979.

PART 20. DEMOLITION

R 408.42001 Adoption of federal O.S.H.A. standard.

Rule 2001. (1) Sections 1926.850 to 1926.860 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, subparts N and O, referenced in 29 C.F.R. §1926.856, mean parts 10 and 13, respectively, of the rules of the construction safety standards commission.

(3) As of the effective date of this part, subpart N, referenced in 29 C.F.R. §1926.858, means part 10 of the rules of the construction safety standards commission.

(4) As of the effective date of this part, subpart U, referenced in 29 C.F.R. §1926.860, means part 27 of the rules of the construction safety standards commission.

History: 1954 ACS 78, p. 97, Eff. Mar. 2, 1974; 1954 ACS 88, p. 117, Eff. Sept. 16, 1976.

R 408.42002—R 408.42021 Rescinded.

History: 1954 ACS 78, pp. 97-99, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 117, Eff. Sept. 16, 1976.

R 408.42022 Rescission.

Rule 2022. Part 20 of the construction safety commission standards, being R 408.3001 to R 408.3007 and appearing on pages 4309 to 4311 of the 1967 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 100, Eff. Mar. 2, 1974.

PART 21. GUARDRAILS, RUNWAYS, RAMPS, AND STAIRWAYS

R 408.42101 Adoption of federal O.S.H.A. standard.

Rule 2101. (1) Sections 1926.500 to 1926.502 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference, except as noted in subrule (2) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Subpart D, referred to in 29 C.F.R. §1926.501, has been adopted by the Michigan department of public health and appears in that department's publication entitled "Occupational Health Standards for Construction" as rules 6201, 6260, 6265, 6270, 6301, 6605, 6610, and 6615.

History: 1954 ACS 78, p. 100, Eff. Mar. 2, 1974; 1954 ACS 88, p. 117, Eff. Sept. 16, 1976.

R 408.42102—R 408.42119 Rescinded.

History: 1954 ACS 78, pp. 100-103, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 117, Eff. Sept. 16, 1976.

R 408.42120 Rescission.

Rule 2120. Part 21 of the construction safety commission standards, being R 408.3101 to R 408.3103 and appearing on pages 4311 and 4312 of the 1967 Annual Supplement to the Code and page 5183 of the 1969 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 103, Eff. Mar. 2, 1974.

PART 22. SIGNALS, SIGNS, TAGS, AND BARRICADES

R 408.42201 Scope.

Rule 2201. This part pertains to the design and use of signals, traffic control devices, accident prevention signs, tags, and barricades for construction operations.

History: 1954 ACS 78, p. 103, Eff. Mar. 2, 1974; 1954 ACS 88, p. 118, Eff. Sept. 16, 1976; 1954 ACS 96, p. 94, Eff. July 26, 1978.

R 408.42202—R 408.42207 Rescinded.

History: 1954 ACS 78, pp. 103-108, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 118, Eff. Sept. 16, 1976.

R 408.42208 Rescission.

Rule 2208. Part 22 of the construction safety commission standards, being R 408.3201 and appearing on page 4812 of the 1967 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 78, p. 108, Eff. Mar. 2, 1974.

R 408.42210 Applicability.

Rule 2210. The following parts contain additional rules for signaling:

(a) Part 10. Lifting and Digging.

(b) Part 27. Blasting and Use of Explosives.

(c) Part 30. Telecommunications.

History: 1954 ACS 96, p. 95, Eff. July 26, 1978.

R 408.42211 Definitions; A to C.

Rule 2211. (1) "Accident prevention sign" means the surface on which letters or markings used to warn of a hazard or to provide safety instructions or directions are temporarily or permanently affixed or placed.

(2) "Accident prevention tag" means the surface on which letters or markings are used to warn of an existing or immediate hazard and which is temporarily attached to a part of equipment or a structure.

(3) "Barricade" means a readily visible obstruction used to direct the passage of employees or vehicles.

(4) "Caution sign or tag" means a sign or tag used to warn of a potential hazard or to warn against an unsafe practice.

History: 1954 ACS 96, p. 95, Eff. July 26, 1978.

R 408.42212 Definitions; D.

Rule 2212. (1) "Danger sign or tag" means a sign or tag used to signal an immediate hazard.

(2) "Directional sign" means a sign having an arrow to point out a direction.

(3) "Do not operate tag" means a tag to warn of a potential hazard if the equipment is operated.

(4) "Do not start tag" means a tag used to tag out a starting mechanism which would cause a hazard if started.

History: 1954 ACS 96, p. 95, Eff. July 26, 1978.

R 408.42213 Definitions; E to T.

Rule 2213. (1) "Exit sign" means a sign used to designate a point of discharge from a room or building.

(2) "Out of order tag" means a tag used to indicate a machine is malfunctioning.

(3) "Safety instruction sign" means a sign used for general instruction or suggestion relative to safety.

(4) "Signal" means a specific use of hands or a visual or audible device, such as a flashing light or horn, to warn of a possible or existing hazard.

(5) "Traffic control devices" means all signs, signals, markings, and devices placed or erected for the purpose of regulating, warning, and guiding vehicular traffic.

History: 1954 ACS 96, p. 95, Eff. July 26, 1978.

R 408.42221 Duties of employer.

Rule 2221. An employer shall provide, install, and maintain signals, signs, barricades, and tags, as prescribed by this part, where an employee might be, or would likely be, injured if not alerted to the hazard.

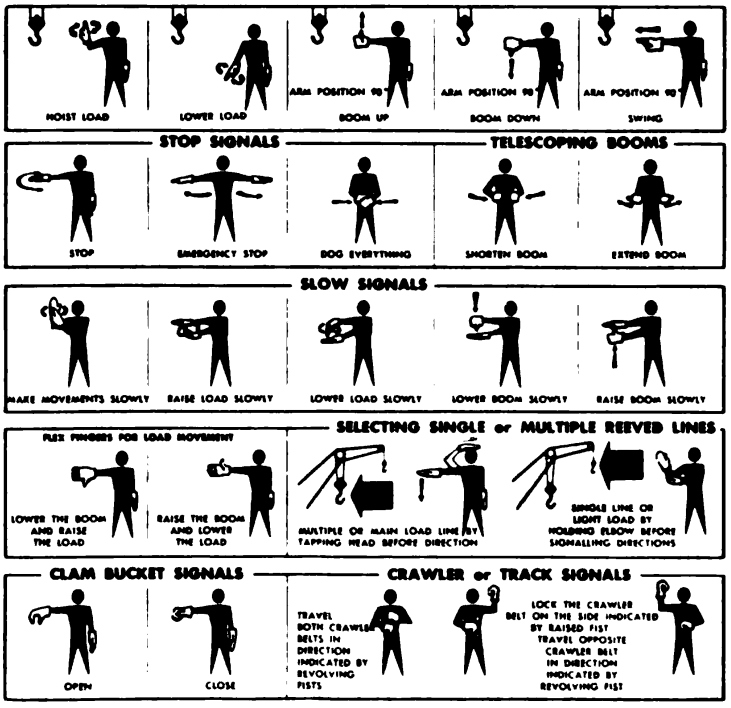
History: 1954 ACS 98, p. 95, Eff. July 26, 1978.

R 408.42222 Signals for lifting and digging equipment.

Rule 2222. (1) When materials are being raised or lowered by a crane, derrick, or shovel, hand signals or voice communication shall be used to direct the operator. The hand signals shall be clearly visible to the operator. The signals shall be as prescribed in table 1.

(2) The raising or lowering of earth and similar materials shall be exempt from the requirements of subrule (1) if the operator can clearly see the point of loading, the path traveled by the load, and the point of unloading.

(3) The operation of a material hoist shall be controlled by 1 of the following:



(a) A visible light signal with a light located at the operator's position and electrically operated from each landing served by the hoist.

(b) An audible signal, such as a gong, horn, buzzer, or bell, located at the operator's position and operated from each landing served by the hoist. The audible code shall be as follows:

stop —1
raise —2
lower —3

(c) Voice communication or telephone intercom.

TABLE 1
Hand Signals

History: 1954 ACS 98, p. 95, Eff. July 26, 1978.

R 408.42223 Traffic control.

Rule 2223. (1) When vehicular traffic creates a hazard to employees performing construction operations within a public right-of-way, traffic control devices shall be installed and maintained as prescribed in part 6 of the 1973 edition of the Michigan manual of uniform traffic control devices, as revised, in part, in 1976, which is incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This manual may be purchased at a cost of $9.36 from the Department of State Highways and Transportation, Highway Bldg., Lansing, Michigan 48904, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(2) When operations are such that signs, signals, and barricades do not provide the necessary protection on, or adjacent to, a highway or street, flagmen or other appropriate traffic controls shall also be provided.

(3) Signaling directions by flagmen shall conform to part 6 of the 1973 edition of the Michigan manual of uniform traffic control devices, as revised, in part, in 1976, which is incorporated herein by reference and may be inspected at the Lansing office of the Department of Labor. This manual may be purchased as noted in subrule (1) of this rule.

(4) Hand signaling by flagmen shall be by use of red flags not less than 18 inches square or sign paddles, and in periods of darkness, red lights.

(5) Flagmen and other employees shall be provided with, and shall wear, a fluorescent orange warning garment while flagging or when exposed to hazards from vehicular traffic. Warning garments worn at night shall be of reflectorized material.

(6) When vehicular traffic creates a hazard to employees performing construction operations within a public right-of-way and where the speed limit is in excess of 30 miles per hour, the employer shall coordinate with the appropriate agencies of the local unit of government exercising authority over the roadway means of reducing the speed of vehicles to not more than 30 miles per hour and the construction operation shall not begin until such posting is accomplished.

History: 1954 ACS 98, p. 96, Eff. July 28, 1978.

R 408.42224 Barricades.

Rule 2224. (1) A barricade with a high point of not less than 36 inches shall be provided to direct vehicular traffic to protect an employee performing construction operations on other than a public right-of-way.

(2) A barricade shall be provided to obstruct or direct an employee from a hazardous area of a construction operation not otherwise affected by another standard.

(3) A barricade shall be illuminated during hours of darkness if an employee is working in the area.

History: 1954 ACS 98, p. 97, Eff. July 28, 1978.

R 408.42231 Accident prevention signs.

Rule 2231. (1) An accident prevention sign and fastening device shall be free of sharp edges, burrs, splinters, or other sharp projections which could create a hazard.

(2) Where conditions warrant the use of a sign size not covered in tables 1 to 5, the ratio of the height of the identifying panel such as danger, caution to the width of the sign shall be maintained as prescribed in the tables.

(3) An accident prevention sign shall be:

(a) Placed to alert and inform in time to avoid the hazard or to take appropriate action.

(b) Placed and maintained so as to be legible, without distraction, and so it does not create a hazard in itself.

(c) Placed so that it will not be obscured.

(d) Removed or covered when the hazard is removed.

History: 1954 ACS 96, p. 97. Eff. July 26, 1978.

R 408.42232 Letter style and size.

Rule 2232. (1) A letter shall be block style and upper case for the upper panel and upper or upper and lower case for the lower panel.

(2) Letter size shall be determined by the length of the message and maximum visibility and readability. Table 2 shall be used as a guide for minimum letter height at safe viewing distance.

TABLE 2

Minimum Height of Letters (Inches)	Viewing Distance (Feet)
5	200-250
4½	150-200
4	120-150
3½	105-120
3	90-105
2½	75-90
2	60-75
1½	40-60
1	30-40
¾	20-30
½	10-20
¼	Less than 10

(a) Crowding of letters and words reduces legibility.

(b) A rule-of-thumb of 35-40 feet viewing distance per inch of letter height may be used for heights of letters greater than 5 inches.

History: 1954 ACS 96, p. 97. Eff. July 26, 1978.

R 408.42233 Danger sign.

Rule 2233. (1) A danger sign shall be used where an immediate hazard exists. The sign shall be removed when the hazard is removed.

(2) The proportions for a danger sign shall be not less than those prescribed in table 3 and the format of figure 1 shall be followed.

(3) A danger sign shall have the signal word "danger" in white within a red oval outlined in white on a black rectangular background in the upper panel. The lower panel where additional wording may be used shall be black or red letters on a white background as shown in figure 1.

(4) An employee shall be instructed that a danger sign indicates immediate danger and that special precautions are necessary.

7 x 10	3⅜ x 9⅜	1¾	1 3/16	2½ x 9⅜
10 x 14	4¾ x 13⅜	1¾	2 3/16	4 x 13⅜
14 x 20	6¾ x 19⅜	2½	3⅛	6 x 19⅜
20 x 28	9½ x 27⅜	3½	4⅜	9¼ x 27⅜

FIGURE 3
Safety Instruction Signs

(Note: The words "Think" and "Be Careful," given here, are only illustrations. Other wordings may be used.)

History: 1954 ACS 98, p. 99, Eff. July 26, 1978.

R 408.42236 Exit sign.

Rule 2236. An exit sign, when required, shall be lettered in legible, red letters, not less than 6 inches high, on a white background, and the principal stroke of the letters shall be not less than ¾ of an inch wide.

History: 1954 ACS 98, p. 100, Eff. July 26, 1978.

R 408.42237 Directional signs.

Rule 2237. (1) A directional arrow, other than a traffic control sign, used on a danger, caution, or safety instructional sign shall be black.

(2) A safety-related directional sign shall have a white arrow on a black upper panel with the lower panel white and any letters in black.

(3) A directional sign shall use proportions prescribed in table 6 and the format of figure 4.

R 408.42241 Accident prevention tags generally.

Rule 2241. (1) An appropriate accident prevention tag shall be used as a temporary means of warning an employee of an existing hazard, such as defective tools or equipment. A tag shall not be used in place of an accident prevention sign or considered a complete warning method.

(2) A tag shall be affixed by string, wire, or adhesive.

(3) A tag shall be large enough to attract attention to the hazard but not less than 2⅜ by 4¾ inches.

(4) The signal word shall be in bold type.

History: 1954 ACS 96, p. 101, Eff. July 26, 1978.

R 408.42242 Accident prevention tags; types; use and specifications.

Rule 2242. (1) A "Do Not Start" tag shall be attached to the starting mechanism of equipment that would cause a hazardous condition if activated. The background color shall be white with black lettering on a red square. (See figure 5.)

(2) A "Danger" tag shall be used where an immediate hazard or probability of injury exists. The background color shall be white with white letters on a red oval within a black square. (See figure 6.)

(3) A "Caution" tag shall be used to warn of a potential hazard or to caution against an unsafe practice. The background color shall be yellow with yellow letters on a black rectangle. (See figure 7.)

(4) An "Out of Order" tag shall be used only for the specific purpose of indicating equipment or machinery is out of order and its use might create a hazard. The background shall be white with white letters on a black square. (See figure 8.)

(5) A "Do Not Operate" tag shall be used to warn of potential hazard if use of the equipment would create a hazard. The background color shall be white with black lettering on a red square. (See figure 9.)

(6) An accident prevention tag shall be removed when the reason for use has been eliminated.

APPENDIX A
Examples Of Sign Wording
For Accident Prevention Signs

Danger Signs—
Danger—Keep Off, Electric Current.
Danger—No Smoking, Matches, or Open Lights.
Danger—Men Working Above.
Danger—Not Room Enough Here to Clear Men on Cars.
Danger—Keep Away.
Danger—Men in Boiler.
Danger—Insufficient Clearance.
Danger—2,300 Volts.
Danger—Keep Out.
Danger—Crane Overhead.
Danger—Keep Off.

Caution Signs—
Caution—Do Not Operate, Men Working on Repairs.
Caution—Hands Off Switch, Men Working on Line.
Caution—Working on Machines, Do Not Start.
Caution—Goggles Must Be Worn When Operating This Machine.
Caution—This Door Must Be Kept Closed.
Caution—Electric Trucks, Go Slow.
Caution—This Space Must Be Kept Clear at All Times.
Caution—Stop Machinery to Clean, Oil, or Repair.
Caution—Keep Aisles Clear.
Caution—Operators of This Machine Shall Wear Snug Fitting Clothing—No Gloves.
Caution—Close Clearance.

Caution—Watch Your Step.
Caution—Electric Fence.

Safety Instruction Signs—
Report All Injuries to the First-Aid Room at Once.
Walk—Don't Run.
Report All Injuries No Matter How Slight.
Think, If Safe Go Ahead.
Make Your Work Place Safe Before Starting the Job.
Report All Unsafe Conditions to Your Foreman.
Help Keep This Plant Safe and Clean.

Directional Signs—
This Way Out (below arrow panel).
This Way (inside arrow) Out (below arrow panel).
Fire Exit (below arrow panel).
Fire (inside arrow) Extinguisher (below arrow panel).
To the (inside arrow) Fire Escape (below arrow panel).
To the (inside arrow) First Aid (below arrow panel).
Manway (below arrow panel).
This Way to (inside arrow) First Aid Room (below arrow panel).

Informational Signs—
No Trespassing Under Penalty of the Law.
This Elevator is for Freight Only, Not for Passengers.
No Admittance Except to Employees on Duty.
No Admittance.
No Admittance, Apply at Office.
No Trespassing.
Men.
Women.
For Employees Only.
Office.

History: 1954 ACS 96, p. 101, Eff. July 26, 1978.

PART 24. TAR KETTLES

R 408.42401 Applicability.

Rule 2401. This part applies to portable tar kettles, tankers, and yard storage units, except those having vessels of less than 15 gallons capacity or burners of less than 5000 Btus firing rate and where used for paving operations.

History: 1954 ACS 80, p. 66, Eff. Aug. 27, 1974.

R 408.42402 Tar kettle construction.

Rule 2402. (1) A tar kettle vat for molten material shall be of welded construction and all other materials of the tar kettle, except tires, used in its construction shall be noncombustible. A tanker for molten material shall be braced and baffled to contain the load.

(2) A safety factor of 2, which is the ratio of the breaking strength of a piece of material or object to the actual load or stress when in use, shall be applicable to all components and shall be maintained.

(3) A cover for a tar kettle vessel shall be hinged, close fitting and capable of smothering a fire inside the vessel, when in a closed position.

Digitized by Google

(4) A tar kettle shall be maintained level when containing molten material.

(5) A discharge valve from a tar kettle vessel shall be a quick closing type with standard pipe thread.

(6) Pipe, tubing, hose and conductors used for hot materials from a tar kettle or tanker shall be supported when above ground or floor level. Hose, tubing, pipe and conductors running horizontally shall be supported at intervals that will prevent sagging. Connections shall be made with unions or couplings and shall be maintained free of leaks.

(7) A rotating or reciprocating part exposed to contact shall be guarded with an enclosure of 16 gauge sheet metal or expanded metal secured to the frame or kettle.

(8) Where a pump unit is mounted on a tar kettle and the fuel container is an integral part of the pump, the pump unit shall be shielded from the tar kettle by a barrier of rigid noncombustible material.

History: 1954 ACS 80, p. 66, Eff. Aug. 27, 1974.

R 408.42403 Loading.

Rule 2403. (1) A tar kettle vessel shall be charged or loaded in a manner to avoid splashing. The weight of chunk material lifted manually shall be not more than 25 pounds.

(2) A vessel shall not be filled closer than 6 inches from the overflow level.

History: 1954 ACS 80, p. 66, Eff. Aug. 27, 1974.

R 408.42404 Controls.

Rule 2404. (1) A tar kettle and tanker shall be equipped with a working temperature gauge.

(2) A tar kettle, unless equipped with working automatic temperature controls, shall be tended by an operator at all times when it is fired.

(3) A tar kettle purchased after the effective date of this part shall be equipped with a safety pilot which will stop the fuel flow on flame failure.

(4) A yard storage unit shall have a safety pilot light with an audible alarm system and be thermostatically controlled.

(5) A yard storage unit or tanker purchased or constructed after the effective date of this part shall have a level indicator to show the amount of the contents within the vessel.

History: 1954 ACS 80, p. 67, Eff. Aug. 27, 1974.

R 408.42405 Fuel.

Rule 2405. (1) The fuel for a tar kettle or pump motor shall be limited to natural gas, L.P. gas, fuel oil, kerosene or electricity, except gasoline may be used as fuel for a pump motor.

(2) Fittings, hose and piping shall be compatible with the fuel used.

(3) If a fuel tank is located less than 10 feet from a tar kettle or tanker, the fuel tank shall be shielded from the tar kettle or tanker by a barrier of rigid noncombustible material.

History: 1954 ACS 80, p. 67, Eff. Aug. 27, 1974.

R 408.42406 Fire precautions.

Rule 2406. (1) One or more portable fire extinguishers of the dry powder type having a total capacity of not less than 40 pounds shall be located not less than 10 feet nor more than 25 feet from a tar kettle being fired. An extinguisher less than 10 pounds shall not be provided.

(2) A tar kettle shall not be placed less than 20 feet from combustible materials unless separated by a fire-resistant blanket.

(3) A tar kettle shall not be placed less than 10 feet from a structure that extends above the highest part of a kettle, piping excluded.

(4) A tar kettle shall not be placed in or upon a building except by permission of an authorized representative of the department.

(5) A tar kettle shall not be moved while being fired.

History: 1954 ACS 80, p. 67, Eff. Aug. 27, 1974.

R 408.42407 Material handling.

Rule 2407. (1) A supply bucket used for handling hot material shall be of metal construction with all seams liquid tight. The bale handle shall be made of not less than ¼ inch steel with the handle hooked to hook ears riveted to the bucket. The handle ears shall be located above the center of balance.

(2) A leaking bucket shall be removed from service and repaired or scrapped.

(3) A supply bucket of hot material shall not be carried up a ladder.

(4) A manually powered hoist shall be equipped with manila rope not less than ¾ inch in size. The rope shall be inspected before the start of each job for broken fibers, burns, mildew and cuts. A rope having 1 of these conditions shall be replaced.

(5) The rope pulley shall be secured to the thrustout or hoisting jack in a manner to support not less than 3 times the weight to be lifted. The pulley groove shall be the same size as the rope.

(6) A cast or forged steel hook equipped with a safety latch shall be used to prevent a bucket from becoming unhooked when hoisting.

(7) Where a structural steel or wood beam thrustout is used, it shall be designed and installed in a manner to support not less than 3 times the weight being lifted and prevent tipping and twisting. A wood thrustout shall be set on edge.

(8) Where a counterweight is used, it shall be contained or secured in place to prevent slippage.

(9) Where a manual or powered hoisting jack is used, it shall be designed and installed in such a manner as to support not less than 3 times the load to be lifted.

(10) An employee shall not stand or walk under material being hoisted.

(11) A supply bucket shall not be filled closer than 2 inches from the top.

(12) When working on a roof deck or tending a tar kettle, tanker or yard storage unit, an employee shall wear a closed shirt covering the upper body including the arms and wrists, trousers that extend over the tops of the shoes and leather shoes not less than ankle high.

History: 1954 ACS 80, p. 67, Eff. Aug. 27, 1974.

R 408.42408 Rescission.

Rule 2408. Part 24 of the construction safety commission standards, being R 408.3401 to R 408.3407 of the Michigan Administrative Code and appearing on pages 6194 to 6196 of the 1972 Annual Supplement to the Code, is rescinded.

History: 1954 ACS 80, p. 68, Eff. Aug. 27, 1974.

PART 25. CONCRETE CONSTRUCTION

R 408.42501 Adoption of federal O.S.H.A. standard.

Rule 2501. (1) Sections 1926.700 to 1926.702 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference and may be inspected at the

Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, subpart E, referenced in 29 C.F.R. §1926.700, means part 6 of the rules of the construction safety standards commission.

History: 1954 ACS 78, p. 108, Eff. Mar. 2, 1974; 1954 ACS 88, p. 118, Eff. Sept. 16, 1976.

R 408.42502—R 408.42515 Rescinded.

History: 1954 ACS 78, pp. 108-111, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 118, Eff. Sept. 16, 1976.

PART 26. STEEL ERECTION

R 408.42601 Scope.

Rule 2601. This part pertains to flooring requirements, structural steel assembly, bolting, riveting, and plumbing up on a construction site.

History: 1954 ACS 78, p. 111, Eff. Mar. 2, 1974; 1954 ACS 88, p. 118, Eff. Sept. 16, 1976; 1954 ACS 100, p. 93, Eff. Sept. 5, 1979.

R 408.42602—R 408.42605 Rescinded.

History: 1954 ACS 78, pp. 111, 112, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 119, Eff. Sept. 16, 1976.

R 408.42606 Definitions; L to T.

Rule 2606. (1) "Joist" means an open web load carrying member suitable for the direct support of floors and roof decks in a structure.

(2) "Lanyard" means a rope suitable for supporting 1 person. One end is fastened to a safety belt or harness and the other end is secured to a substantial object.

(3) "Lofted building" means a structure which consists essentially of exterior steel framework such as, but not limited to, a warehouse, powerhouse, cranebay, and industrial building.

(4) "Plumbing up" means securing to obtain vertical alignment.

(5) "Tag line" means a rope used to guide a hoisted object.

(6) "Tier building" means a multistory structure such as, but not limited to, an office, apartment, hotel, or manufacturing building.

History: 1954 ACS 100, p. 93, Eff. Sept. 5, 1979.

R 408.42611 General flooring requirements.

Rule 2611. (1) A safety railing of ½-inch wire rope or equivalent shall be installed approximately 42 inches high around the periphery of a temporary planked or temporary metal decked floor of a tiered building and other multifloored structures during structural steel assembly.

(2) An unused opening in the floor, temporary or permanent, shall be completely planked over or shall be guarded as prescribed in subrule (1) of this rule.

(3) In the erection of a building having double wood floor construction, the rough flooring shall be completed as the building progresses, including the tier below the one on which floor joists are being installed.

(4) For single wood floor or other flooring systems, the floor immediately below the story where the floor joists are being installed shall be kept planked or decked over.

History: 1954 ACS 100, p. 94, Eff. Sept. 5, 1979.

R 408.42612 Permanent flooring.

Rule 2612. (1) Permanent flooring shall be installed in a tiered building as the erection of structural members progresses with not more than 8 stories between the erection floor and the uppermost permanent floor, except where the structural integrity can be maintained as a result of the design.

(2) There shall be not more than 4 unconnected stories or 48 feet, whichever is less, between the erection floor and the uppermost permanent floor, except where the structural integrity can be maintained.

(3) Metal decking shall be of sufficient strength, laid tight, and secured to prevent movement.

History: 1954 ACS 100, p. 94, Eff. Sept. 5, 1979.

R 408.42613 Temporary flooring.

Rule 2613. (1) Temporary flooring shall be installed on the derrick or erection floor in a tiered building and shall consist of planking not less than 2 inches thick, undressed, full size, or metal decking of equivalent strength, all capable of carrying the working load. The floor shall cover the entire area except for access openings and shall be secured against displacement.

(2) Where the structure is not adaptable to a temporary floor and scaffolding is not used, safety nets, prescribed in Part 6. Personal Protective Equipment, being R 408.40601 of the Michigan Administrative Code, shall be installed and maintained whenever the potential fall is more than 2 stories or 30 feet.

(3) Where planking or safety nets would interfere with the erection of a structure, the use of safety belts with a lanyard shall be accepted as alternative protection as prescribed in Part 6. Personal Protective Equipment, being R 408.40601 of the Michigan Administrative Code.

(4) In the erection of a lofted building, the use of a safety belt and lanyard shall be acceptable as alternate protection in lieu of planking or nets.

(5) Where the work area is inaccessible or hazardous to reach, a connector may ride the headache ball to and from the work station providing that the man riding the ball attaches his lanyard to the hoist line.

(6) When erecting is being done with use of a crane or derrick, the temporary floor shall be maintained within 2 stories or 30 feet, whichever is less, below and directly under that portion of each tier of beams on which bolting, riveting, welding, or painting is being done.

(7) The extreme end of planking shall extend beyond the end bearer not less than 6 inches nor more than 12 inches.

(8) Planks shall overlap the intermediate bearer on each end by a minimum of 12 inches.

(9) Wire mesh, ¾-inch exterior plywood, or equivalent, shall be used around a column where the planks do not fit tightly.

(10) Provisions shall be made to secure temporary floors against displacement.

History: 1954 ACS 100, p. 94, Eff. Sept. 5, 1979.

R 408.42621 Structural steel assembly.

Rule 2621. (1) During the final placing of structural steel members, the load shall not be released from the hoisting line until the member is secured by not less than 2 bolts or their equivalent at each support.

(2) Open web steel joists shall not be placed on any structural steel framework unless the framework is bolted or welded to withstand the dead load, wind, and erection stresses.

Digitized by Google

(3) Where open web steel joists are used in steel framing and the columns are framed in less than 2 directions with structural steel members, a joist shall be field bolted or welded to columns to provide lateral stability during erection.

(4) Where joists more than 40 feet long are used, a center row of bolted or welded bridging shall be installed to provide lateral stability during erection prior to releasing the hoisting line. A load shall not be placed on the open web steel joists until this is done.

(5) A tag line shall be used to control movement of major hoisted loads.

History: 1954 ACS 100, p. 95, Eff. Sept. 5, 1979.

R 408.42624 Bolting and riveting.

Rule 2624. (1) A container shall be provided for storing and carrying fasteners, such as bolts and rivets and drift pins. The container shall be secured against inadvertent displacement when there is a possibility of the container falling.

(2) A pneumatic tool used for riveting or bolting shall have the pressure relieved and shall be disconnected from the hose line before adjustment or repairs are made to the tool.

(3) An impact wrench shall be equipped with a device to retain the socket.

(4) Air line hose sections shall be tied together except when quick disconnect couplers are used to join sections.

(5) When a bolt, drift pin, or rivet is knocked out, a means shall be provided to prevent it from falling.

(6) Riveting shall not be done in the vicinity of combustible material unless precautions are taken to prevent fire.

(7) When rivet heads are cut off or backed off, a means shall be provided to prevent them from falling.

History: 1954 ACS 100, p. 95, Eff. Sept. 5, 1979.

R 408.42625 Plumbing up.

Rule 2625. (1) Turnbuckles and other apparatus used in plumbing up shall be accessible to the employees for adjustment and dismantling. Connections of the equipment used in plumbing up shall be secured. The turnbuckles shall be secured to prevent unwinding while under stress.

(2) Plumbing up guy wires shall be removed under the supervision of a competent person.

History: 1954 ACS 100, p. 95, Eff. Sept. 5, 1979.

PART 27. BLASTING AND USE OF EXPLOSIVES

R 408.42701 Adoption of federal O.S.H.A. standard.

Rule 2701. (1) Sections 1926.900 to 1926.914 of the O.S.H.A. safety and health regulations for construction from title 29 of the Code of Federal Regulations (C.F.R.) are incorporated herein by reference and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the June 24, 1974, volume 39, number 122, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) As of the effective date of this part, "Secretary of Labor," as referred to in 29 C.F.R. §1926.900, means director of labor.

History: 1954 ACS 78, p. 112, Eff. Mar. 2, 1974; 1954 ACS 88, p. 119, Eff. Sept. 16, 1976.

R 408.42801—R 408.42811 Rescinded.

History: 1954 ACS 78, p. 118, Eff. Mar. 2, 1974; rescinded 1954 ACS 88, p. 119, Eff. Sept. 16, 1976.

PART 30. TELECOMMUNICATIONS

R 408.43001 Adoption of federal O.S.H.A. standard.

Rule 3001. (1) Section 1910.268 of the O.S.H.A. safety and health regulations for general industry, from title 29 of the Code of Federal Regulations (C.F.R.) is incorporated herein by reference, except as noted in subrules (2) and (11) of this rule, and may be inspected at the Lansing office of the department of labor. The federal construction standard may be purchased at a cost of 75 cents by ordering the March 26, 1975, volume 40, number 59, edition of the Federal Register from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 226 Bagley, Detroit, Michigan 48226. This section may also be purchased at a cost of 20 cents from the Michigan Department of Labor, State Secondary Complex, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Paragraphs (a)(2)(i) and (a)(3) of 29 C.F.R. §1910.268 are excepted.

(3) As of the effective date of this part, the words "for purposes of 1910.35(a)," as used in 29 C.F.R. §1910.268(b)(1)(iii), are excepted.

(4) As of the effective date of this part, section 1910.110, referenced in 29 C.F.R. §1910.268(b)(4), means rule 3003 of this part.

(5) As of the effective date of this part, the words "Assistant Secretary for Occupational Safety and Health," as used in 29 C.F.R. §1910.268(c), mean director of the department of labor.

(6) As of the effective date of this part, the words "Subpart D of this part," as used in 29 C.F.R. §1910.268 (h)(1), mean part 11 of the rules of the construction safety standards commission.

(7) As of the effective date of this part, section 1910.25(c)(5), referenced in 29 C.F.R. §1910.268(h)(5), means rule 3004 of this part.

(8) As of the effective date of this part, sections 1910.133(a)(2) to (a)(6), referenced in 29 C.F.R. §1910.268(i)(2), mean part 6 of the rules of the construction safety standards commission.

(9) As of the effective date of this part, subpart Q, referenced in 29 C.F.R. §1910.268(i)(9), means part 7 of the rules of the construction safety standards commission.

(10) As of the effective date of this part, the words "Subpart W of Part 1926 of this title," as used in 29 C.F.R. §1910.268 (j)(2)(i), mean part 13 of the rules of the construction safety standards commission.

(11) Paragraphs (b)(1)(i), (b)(3), (b)(8), (i)(3)(ii), (o)(2), (p)(2), and (p)(3) of 29 C.F.R. §1910.268 are excepted. These paragraphs have been adopted by the Michigan department of public health as R 325.2491.

History: 1954 ACS 88, p. 119, Eff. Sept. 16, 1976.

R 408.43002 Applicability.

Rule 3002. Operations or conditions not specifically covered by this part are subject to all the applicable standards promulgated by the construction safety standards commission. Operations which involve general industrial work are

subject to all the applicable standards promulgated by the occupational safety standards commission.

History: 1954 ACS 88, p. 120, Eff. Sept. 16, 1976.

R 408.43003 Vehicles fueled by LP gas; storage or service; repair; parking.

Rule 3003. (1) Vehicles fueled by LP gas may be stored or serviced inside garages if there are no leaks in the fuel system and the fuel tanks are not filled beyond the maximum filling capacity specified in table 1.

TABLE 1
Maximum Permitted Filling Density

Specific gravity at 60° F. (15.6° C.)	Aboveground containers		Underground containers, all capacities
	0 to 1,200 U.S. gals. (1,000 imp. gal., 4,550 liters) total water cap.	Over 1,200 U.S. gals. (1,000 imp. gal., 4,550 liters) total water cap.	
	Percent	Percent	Percent
0.496-0.503	41	44	45
.504- .510	42	45	46
.511- .519	43	46	47
.520- .527	44	47	48
.528- .536	45	48	49
.537- .544	46	49	50
.545- .552	47	50	51
.553- .560	48	51	52
.561- .568	49	52	53
.569- .576	50	53	54
.577- .584	51	54	55
.585- .592	52	55	56
.593- .600	53	56	57

(2) Vehicles fueled by LP gas which are being repaired in garages shall have the container shutoff valve closed except when fuel is required for engine operation.

(3) Vehicles fueled by LP gas shall not be parked near sources of heat, open flames, or similar sources of ignition, or near open pits, unless the pits are adequately ventilated.

History: 1954 ACS 88, p. 120, Eff. Sept. 16, 1976.

R 408.43004 Trolley and side-rolling ladders.

Rule 3004. (1) Trolley ladders and side-rolling ladders longer than 20 feet should not be supplied.

(2) The dimensions of the side rails shall not be less than the following for group 2 or group 3 woods:

Length of side rails (feet)	Thickness (inch)	Depth (inches)
Up to and including 10	$^{25}/_{32}$	3
Over 10 up to and including 20	$^{25}/_{32}$	$3\frac{1}{4}$

(3) The minimum thicknesses of side rails provide for the cutting of a groove not over ⅛ inch in depth. The thickness shall be increased when grooves of greater

depth are used. Flat steps shall have the following minimum dimensions for group 2 or group 3 woods:

Length of step (inches)	Thickness (inch)	Width (inches)
Up to and including 16	25/32	3
Over 16 up to and including 20	25/32	3¼
Over 20 up to and including 24	25/32	3½
Over 24 up to and including 28	25/32	4

(4) The width between the side rails, inside to inside, shall be at least 12 inches.

(5) Flat steps shall be inset in the side rails ⅛ inch and secured with at least two 6-d nails at each end, or the equivalent thereof. They shall be reinforced with angle braces or with a 3/16-inch steel rod.

(6) Locking devices should be provided on all trolley ladders.

(7) Tracks shall comply with the following requirements:

(a) Tracks shall be wood or metal (excluding cast iron), or a combination of these materials.

(b) Tracks for the top end of ladders shall be fastened securely and shall be so constructed that the wheels cannot jump the track. Tracks shall be so designed as to provide for all probable loads to which they are subjected.

(c) The supports shall be securely fastened by lag screws or by machine, hook, or toggle bolts, or their equivalent.

(d) Track for side-rolling ladders shall be supported by metal or wood brackets securely screwed or bolted to shelving or other permanent structure at not over 3 feet.

(8) A wheel carriage shall comply with the following requirements:

(a) A wheel carriage shall be so designed as to provide for all loads to which it is subjected. Two-point suspension should be used.

(b) The wheel carriage for the top end of the ladder shall be securely fastened to the top of the ladder, with metal brackets bolted either to the side rails or to the top step. When bolted to the top step, this step shall be secured to the side rails with metal braces in addition to those otherwise provided. The wheel carriage shall be so designed that a loose or broken wheel does not allow the ladder to drop or become detached from the track.

(c) The wheel carriage for the bottom end of the ladder shall be securely fastened to the bottom of the ladder.

(d) The wheels at the upper end of the ladder shall have a minimum wheel base of 8 inches.

(e) When wheels are used at the bottom of the ladder, there shall be at least 1 wheel supporting each side rail.

(f) Running gear for bottoms of both trolley and side-rolling ladders shall be so designed and constructed as to provide for any load to which such gear is subjected.

History: 1954 ACS 88, p. 120. Eff. Sept. 16, 1976.

PART 31. DIVING OPERATIONS

R 408.43101 Scope.

Rule 3101. This part pertains to the safe use and maintenance of equipment and procedures of the occupation of diving and the related support operations as used in construction operations. This part does not apply to a diving operation

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

performed solely for recreational instruction purposes using open-circuit compressed-air SCUBA and conducted within the no-decompression limits.

History: 1954 ACS 99, p. 143, Eff. June 16, 1979.

R 408.43103 Definitions; A to C.

Rule 3103. (1) "Acfm" means actual cubic feet per minute.

(2) "ATA" means atmosphere absolute.

(3) "Bell" means an enclosed compartment, pressurized (closed bell) or unpressurized (open bell), which allows the diver to be transported to and from the underwater work area and which may be used as a temporary refuge during diving operations.

(4) "Bottom time" means the total elapsed time, measured in minutes, from the time when the diver leaves the surface in descent to the time that the diver begins ascent.

(5) "Bursting pressure" means the pressure at which a pressurized device would fail structurally.

(6) "Cylinder" means a pressure vessel for the storage of gases.

History: 1954 ACS 99, p. 144, Eff. June 16, 1979.

R 408.43104 Definitions; D.

Rule 3104. (1) "Decompression chamber" means a pressure vessel for human occupancy, such as a surface decompression chamber, pressurized bell, or deep diving system used to decompress divers and to treat decompression sickness.

(2) "Decompression sickness" means a condition with a variety of symptoms which may result from gas or bubbles in the tissues of divers after pressure reduction.

(3) "Decompression table" means a profile or set of profiles of depth-time relationships for ascent rates and breathing mixtures to be followed after a specific depth-time exposure or exposures.

(4) "Dive location" means a surface or vessel from which a diving operation is conducted.

(5) "Dive location reserve breathing gas" means a volume tank or independent supply of air or mixed gas at the dive location sufficient, under standard operating conditions to allow the diver to reach the surface.

(6) "Dive team" means divers and support employees involved in a diving operation, including the designated person in charge.

(7) "Diver" means an employee in the water using underwater apparatus which supplies compressed breathing gas at the ambient pressure.

(8) "Diver-carried reserve breathing gas" means a diver-carried supply of air or mixed gas sufficient, under standard operating conditions, to allow the diver to reach the surface, a bell, or to be rescued by a standby diver.

(9) "Diving mode" means a type of diving requiring specific equipment, procedures, and techniques, such as SCUBA, surface-supplied air, or mixed-gas diving.

History: 1954 ACS 99, p. 144, Eff. June 16, 1979.

R 408.43105 Definitions; F to M.

Rule 3105. (1) "Fsw" means feet of seawater or equivalent static pressure head.

(2) "Heavy gear" means diver-worn deep-sea dress, including helmet, breastplate, dry suit, and weighted shoes.

(3) "Hyperbaric conditions" means pressure conditions in excess of surface pressure.

(4) "Inwater stage" means a suspended underwater platform which supports a diver in the water.

(5) "Liveboating" means the practice of supporting a surface-supplied air or mixed gas diver from a vessel which is underway.

(6) "Mixed-gas diving" means a diving mode in which the diver is supplied in the water with a breathing gas other than air.

History: 1954 ACS 99, p. 144, Eff. June 16, 1979.

R 408.43106 Definitions; N to S.

Rule 3106. (1) "No-decompression limits" means a combination of the depth of a dive and the bottom time which permits a diver to return to the surface without decompression, as expressed in volume I, air diving—1973, as amended through December, 1975, and volume II, mixed gas diving—1973, as amended through December, 1975, of the U.S. navy diving manual which are incorporated herein by reference and may be inspected at the Lansing office of the department of labor. These volumes may be purchased at a cost of $3.25 each from the Superintendent of Documents, Government Printing Office, Public Document Department, Washington, D.C. 20402, or from the Michigan Department of Labor, 7150 Harris Drive, Box 30015, Lansing, Michigan 48909.

(2) "O.H. rule" means an occupational health rule adopted by reference pursuant to section 14 of Act No. 154 of the Public Acts of 1974, as amended, being §408.1014 of the Michigan Compiled Laws. Copies of these rules are available from the Michigan Department of Public Health, 3500 N. Logan, Box 30035, Lansing, Michigan 48909.

(3) "Psig" means pounds per square inch, gauge.

(4) "Qualified employee" means one who, by extensive knowledge, training, and experience, has successfully demonstrated his ability to solve or resolve problems relating to the subject matter, the work, or the project.

(5) "SCUBA diving" means a diving mode independent of surface supply in which the diver uses open-circuit self-contained underwater breathing apparatus.

(6) "Standby diver" means a diver at the dive location available in a sufficient state of readiness to assist a diver in the water.

(7) "Surface-supplied air diving" means a diving mode in which the diver in the water is supplied from the dive location with compressed air for breathing.

History: 1954 ACS 99, p. 144, Eff. June 16, 1979.

R 408.43107 Definitions; T to W.

Rule 3107. (1) "Treatment table" means a depth-time and breathing gas profile used in the treatment of decompression sickness.

(2) "Umbilical" means the composite hose bundle between a dive location and a diver or bell, or between a diver and a bell, which may supply a diver or bell with breathing gas, communications, power, and heat and may include a safety line.

(3) "Volume tank" means a pressure vessel connected to the outlet of a compressor and used as an air reservoir.

(4) "Working pressure" means the maximum pressure to which a pressure containment device may be exposed under standard operating conditions.

History: 1954 ACS 99, p. 145, Eff. June 16, 1979.

R 408.43109 Emergencies.

Rule 3109. An employer may deviate from the requirements of these rules to the extent necessary to prevent or minimize a situation which is likely to cause death, serious physical harm, or major environmental damage, provided that the employer complies with both of the following:

(a) Notifies the department of labor within 72 hours of the onset of the emergency situation, indicating the nature of the emergency and extent of the deviation from these rules.

(b) Upon request from the department of labor or public health, submits this information in writing.

History: 1954 ACS 99, p. 145, Eff. June 16, 1979.

R 408.43111 Employer responsibilities.

Rule 3111. The employer shall be responsible for compliance with both of the following:

(a) All provisions of these rules of general applicability.

(b) All requirements pertaining to specific diving modes to the extent diving operations in the modes are conducted.

History: 1954 ACS 99, p. 145, Eff. June 16, 1979.

R 408.43112 Qualifications of dive team.

Rule 3112. (1) The employer shall ensure that each dive team member has the experience and training necessary to perform assigned tasks in a safe and healthful manner. The training and experience shall include all of the following:

(a) The use of tools, equipment, and systems relevant to assigned tasks.

(b) Techniques of the assigned diving mode.

(c) Diving operations and emergency procedures.

(d) Familiarity with the contents of the safe practices manual required by R 408.43114.

(2) All dive team members shall be trained in cardiopulmonary resuscitation and first aid by the American red cross or equivalent organization.

(3) Each dive team member who is exposed to or controls the exposure of others to hyperbaric conditions shall be trained in diving-related physics and physiology.

History: 1954 ACS 99, p. 145, Eff. June 16, 1979.

R 408.43113 Dive team assignments.

Rule 3113. (1) The employer or an employee designated by the employer shall be at the dive location and shall be in charge of all aspects of the diving operation affecting the safety of dive team members.

(2) The designated person in charge shall have experience and training in the conduct of the assigned diving operation.

(3) Each dive team member shall be assigned tasks in accordance with the employee's experience or training, except that limited additional tasks may be assigned to an employee undergoing training if these tasks are performed under the direct supervision of an experienced dive team member.

(4) The employer shall not require a dive team member to be exposed to hyperbaric conditions against the employee's will, except when necessary to complete decompression or treatment procedures.

(5) The employer shall not permit a dive team member to dive or be otherwise exposed to hyperbaric conditions for the duration of any temporary, physical

impairment or condition which is known to the employer and is likely to adversely affect the health of a dive team member.

History: 1954 ACS 99, p. 145, Eff. June 16, 1979.

R 408.43114 Safe practices manual.

Rule 3114. (1) The employer shall develop and maintain a safe practices manual which shall be made available to each dive team member at the dive location.

(2) The safe practices manual shall contain a copy of these rules, the employer's policies for implementing their requirements, and all of the following:

(a) Operating procedures and checklists for diving operations.

(b) Assignments and responsibilities of the dive team members.

(c) Equipment procedures and checklists.

(d) Emergency procedures for fire, equipment failure, adverse environmental conditions and medical illness, and injury.

History: 1954 ACS 99, p. 146, Eff. June 16, 1979.

R 408.43121 Pre-dive procedures; emergency aid.

Rule 3121. A list of the following telephone or call numbers shall be kept at the dive location:

(a) An operational decompression chamber, if not at the dive location.

(b) Accessible hospitals.

(c) Available physicians.

(d) Available means of transportation.

(e) The nearest U.S. coast guard rescue coordination center.

History: 1954 ACS 99, p. 146, Eff. June 16, 1979.

R 408.43122 Pre-dive procedures; planning and assessment.

Rule 3122. (1) Planning of a diving operation shall include an assessment of the safety and health aspects of all of the following:

(a) Diving mode.

(b) Surface and underwater conditions and hazards.

(c) Breathing gas supply, including reserves.

(d) Thermal protection.

(e) Diving equipment and systems.

(f) Dive team assignments and physical fitness of dive team members, including any impairment known to the employer.

(g) Repetitive dive designation or residual inert gas status of dive team members.

(h) Decompression and treatment procedures, including altitude corrections.

(i) Decompression tables.

(j) Emergency procedures.

(2) Decompression, repetitive, and no-decompression tables, as appropriate, shall be at the dive location.

History: 1954 ACS 99, p. 146, Eff. June 16, 1979.

R 408.43123 Pre-dive procedures; hazardous activities.

Rule 3123. To minimize hazards to the dive team, diving operations shall be coordinated with other activities in the vicinity which are likely to interfere with the diving operation.

History: 1954 ACS 99, p. 146, Eff. June 16, 1979.

R 408.43124 Pre-dive procedures; employee briefing.

Rule 3124. (1) Dive team members shall be briefed on all of the following:

(a) The tasks to be undertaken.

(b) Operating procedures for the diving mode.

(c) Any unusual hazards or environmental conditions likely to affect the safety of the diving operation.

(d) Any modifications to operating procedures necessitated by the specific diving operation.

(2) Prior to making individual dive team member assignments, the employer shall inquire into the dive team member's current state of physical fitness, and indicate to the dive team member the procedure for reporting physical problems or adverse physiological effects during and after the dive.

History: 1954 ACS 99, p. 146, Eff. June 16, 1979.

R 408.43125 Pre-dive procedures; communications.

Rule 3125. An operational 2-way voice communication system shall be provided as follows:

(a) At the dive location to obtain emergency assistance.

(b) Between each surface-supplied air or mixed-gas diver and a dive team member at the dive location or bell.

(c) Between the bell and the dive location.

History: 1954 ACS 99, p. 147, Eff. June 16, 1979.

R 408.43126 Pre-dive procedures; equipment inspection.

Rule 3126. The breathing gas supply system, including reserve breathing gas supplies, masks, helmets, gauges, timekeeping devices, thermal protection, and bell handling mechanisms, when appropriate, shall be inspected prior to each dive.

History: 1954 ACS 99, p. 147, Eff. June 16, 1979.

R 408.43127 Pre-dive procedures; warning signal.

Rule 3127. A warning flag shall be fully displayed when diving as follows: Any person diving or submerging in any of the waters of this state with the aid of a diving suit or other mechanical diving device shall place a buoy or boat in the water at or near the point of submergence. The buoy or boat shall bear a red flag not less than 14 inches by 16 inches with a 3½ inch white stripe running from 1 upper corner to a diagonal lower corner. The flag shall be in place only while actual diving operations are in progress. A vessel shall not be operated within 100 feet of a buoyed diver's flag unless it is involved in tending the diving operation. A person diving shall stay within a surface area of 100 feet of the diver's flag.

History: 1954 ACS 99, p. 147, Eff. June 16, 1979.

R 408.43131 Procedures during dive; water entry and exit.

Rule 3131. (1) A means capable of supporting the diver shall be provided for entering and exiting the water.

(2) The means provided for exiting the water shall extend below the water surface.

(3) A means shall be provided to assist an injured diver from the water or into a bell.

History: 1954 ACS 99, p. 147, Eff. June 16, 1979.

R 408.43132 Procedures during dive; hand-held power tools and equipment.

Rule 3132. (1) Tools and equipment shall be qualified for underwater use.

(2) Hand-held electrical tools and equipment shall be de-energized before being placed into or retrieved from the water.

(3) A hand-held power tool shall not be supplied with power from the dive location until requested by the diver.

(4) A current supply switch to interrupt the current flow to the welding or cutting electrode shall be:

(a) Tended by a dive team member in voice communication with the diver performing the welding or cutting.

(b) Kept in the open position except when the diver is welding or cutting.

(5) The welding machine frame shall be grounded and a ground wire shall be connected directly to the work.

(6) Welding and cutting cables, electrode holders, and connections shall be capable of carrying the maximum current required by the work, and shall be properly insulated.

(7) Insulated gloves shall be provided to divers performing welding and cutting operations.

(8) Prior to welding or cutting on a closed compartment, a structure, or a pipe, which contains a flammable vapor or in which a flammable vapor may be generated by the work, the compartment, structure, or pipe shall be vented, flooded, or purged with a mixture of gases which will not support combustion.

History: 1954 ACS 99, p. 147, Eff. June 16, 1979.

R 408.43133 Procedures during dive; explosives.

Rule 3133. (1) Explosives shall be transported, stored, and used as prescribed in this rule and the applicable provisions of the construction safety standards commission standard, Part 27. Blasting and Use of Explosives, being R 408.42701 of the Michigan Administrative Code, or the general industry safety standards commission standard 1910.109, Explosives and Blasting Agents, adopted by section 14 of Act No. 154 of the Public Acts of 1974, as amended, being §408.1014 of the Michigan Compiled Laws.

(2) Electrical continuity of explosive circuits shall not be tested until the diver is out of the water.

(3) Explosives shall not be detonated while the diver is in the water.

History: 1954 ACS 99, p. 148, Eff. June 16, 1979.

R 408.43134 Procedure during dive; termination.

Rule 3134. The working interval of a dive shall be terminated when any of the following occurs:

(a) A diver requests termination.

(b) A diver fails to respond correctly to communications or signals from a dive team member.

(c) Communications are lost and cannot be quickly reestablished between the diver and a dive team member at the dive location, and between the designated person in charge and the person controlling the vessel in liveboating operations.

(d) A diver begins to use diver-carried reserve breathing gas or the dive-location reserve breathing gas.

(e) When the scheduled work interval has expired.

R 408.43141 Post-dive procedures generally.

Rule 3141. The employer shall comply with all of the following requirements which are applicable after each diving operation:

(a) Check the physical condition of the diver.

(b) Instruct the diver to report any physical problems or adverse physiological effects, including symptoms of decompression sickness.

(c) Advise the diver of the location of a decompression chamber which is ready for use.

(d) Alert the diver to the potential hazards of flying after diving.

(e) Instruct the diver to remain awake and in the vicinity of the dive location for not less than 1 hour after a dive which requires a decompression chamber.

History: 1954 ACS 99, p. 148, Eff. June 16, 1979.

R 408.43142 Post-dive procedures; record of dive.

Rule 3142. (1) All of the following information shall be recorded and maintained for each diving operation:

(a) Names of dive team members, including the designated person in charge.

(b) Date, time, and location.

(c) Diving modes used.

(d) General nature of the work performed.

(e) Approximate underwater and surface conditions, such as visibility, water temperature, wind velocity, and current.

(f) Maximum depth and bottom time for each diver.

(2) For each dive for which a decompression chamber is required, all of the following additional information shall be recorded and maintained:

(a) Depth-time and breathing gas profiles.

(b) Decompression table designation, including any modification.

(c) Elapsed time since last pressure exposure, if less than 24 hours, or repetitive dive designation for each diver.

(3) For each dive in which decompression sickness is suspected or symptoms are evident, all of the following additional information shall be recorded and maintained:

(a) Description of decompression sickness symptoms, including depth and time of onset.

(b) Description and results of treatment.

History: 1954 ACS 99, p. 148, Eff. June 16, 1979.

R 408.43145 Liveboating generally.

Rule 3145. Diving operations involving liveboating shall not be conducted during any of the following conditions:

(a) With an inwater decompression time of greater than 120 minutes.

(b) Using surface supplied air at depths deeper than 190 fsw, except that dives with bottom times of 30 minutes or less may be conducted to depths of 220 fsw.

(c) Using mixed gas at depths greater than 220 fsw.

(d) In rough seas with a wave height of more than 3 feet.

(e) In other than daylight hours.

History: 1954 ACS 99, p. 148, Eff. June 16, 1979.

R 408.43146 Liveboating; procedures.

Rule 3146. (1) The propeller of the vessel shall be stopped before the diver enters or exits the water.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(2) A device shall be used which minimizes the possibility of entanglement of the diver's hose in the propeller of the vessel.

(3) Two-way voice communication between the designated person in charge and the person controlling the vessel shall be used while the diver is in the water.

(4) A standby diver shall be available while a diver is in the water.

(5) A diver-carried reserve breathing gas supply shall be carried by each diver engaged in liveboating operations.

History: 1954 ACS 99, p. 149, Eff. June 16, 1979.

R 408.43151 Equipment generally.

Rule 3151. Equipment modification, repair, test, calibration, or maintenance service shall be recorded by means of a tagging or logging system, and shall include the date and nature of the work performed, and the name or initials of the person performing the work.

History: 1954 ACS 99, p. 149, Eff. June 16, 1979.

R 408.43152 Equipment; breathing gas supply hoses.

Rule 3152. (1) Breathing gas supply hoses shall meet all of the following criteria:

(a) Have a working pressure of not less than the working pressure of the breathing gas system.

(b) Have a rated bursting pressure of not less than 4 times the working pressure.

(c) Be tested initially and not less than annually thereafter to 1.5 times their working pressure.

(d) Be tensile tested before being placed into initial service and after any repair, modification, or alteration, by subjecting each hose-to-fitting connection to a 220-pound axial load and by passing a visual examination for evidence of separation, slippage, or other damage to the assembly.

(e) Be inspected prior to each diving operation for cuts, kinks, soft spots, or bubbles.

(f) Have their open ends taped, capped, or plugged when not in use.

(2) Breathing gas supply hose connectors shall meet all of the following criteria:

(a) Be made of corrosion-resistant materials.

(b) Have a working pressure at least equal to the working pressure of the hose to which they are attached.

(c) Be resistant to accidental disengagement.

History: 1954 ACS 99, p. 149, Eff. June 16, 1979.

R 408.43153 Equipment; umbilicals.

Rule 3153. Umbilicals shall meet all of the following criteria:

(a) Be marked and labeled in 10 feet increments to 100 feet beginning at the diver's end, and in 50 feet increments thereafter.

(b) Be made of kink-resistant materials.

(c) Have a working pressure greater than the pressure equivalent to the maximum depth of the dive relative to the supply source plus 100 psi.

History: 1954 ACS 99, p. 149, Eff. June 16, 1979.

R 408.43154 Equipment; buoyancy control.

Rule 3154. (1) Helmets or masks connected directly to the dry suit or other buoyancy changing equipment shall be equipped with an exhaust valve.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(2) A dry suit or other buoyancy changing equipment not directly connected to the helmet or mask shall be equipped with an exhaust valve.

(3) When used for SCUBA diving, a buoyancy compensator shall have an inflation source separate from the breathing gas supply.

(4) Except when the diver is wearing a variable volume suit, an inflatable flotation device capable of maintaining the diver at the surface in a face-up position, having a manually activated inflation source independent of the breathing supply, an oral inflation device, and an overpressure relief device or exhaust valve shall be used for SCUBA diving.

History: 1954 ACS 99, p. 149, Eff. June 16, 1979.

R 408.43155 Equipment; compressed-gas cylinders.

Rule 3155. (1) A compressed-gas cylinder shall be designed, constructed, and maintained pursuant to the applicable provisions of 29 C.F.R. §§1910.166 and 1910.167 which were adopted by section 14 of Act No. 154 of the Public Acts of 1976, as amended, being §408.1014 of the Michigan Compiled Laws.

(2) Be stored in a ventilated area and protected from excessive heat.

(3) Be secured from falling.

(4) Have shutoff valves recessed into the cylinder or protected by a cap, except when in use or manifolded, or when used for SCUBA diving.

(5) Be subjected to internal inspection for rust and corrosion not less than annually.

History: 1954 ACS 99, p. 150, Eff. June 16, 1979.

R 408.43156 Decompression chambers; operation.

Rule 3156. (1) A qualified employee shall be available to operate the decompression chamber for not less than 1 hour after a dive for which a decompression chamber is required. The qualified employee may be a dive team member or another employee qualified to operate the decompression chamber.

(2) The decompression chamber operator shall have available at the chamber location necessary treatment tables, treatment gas appropriate to the diving mode, and sufficient gas to conduct treatment.

(3) A muffler on each decompression intake and exhaust line and the suction guard on the exhaust line shall be regularly inspected and maintained.

(4) A 2-way voice communication system shall be provided between the occupants of other separately pressurized compartments and a dive team member at the chamber location.

(5) A decompression chamber shall be maintained and operated to minimize sources of ignition and combustible materials in each compartment.

History: 1954 ACS 99, p. 150, Eff. June 16, 1979.

R 408.43157 Equipment; gauges and timekeeping devices.

Rule 3157. (1) Gauges indicating diver depth which can be read at the dive location shall be used for all surface-supplied dives.

(2) Each depth gauge shall be dead-weight tested or calibrated against a master reference gauge initially and every 6 months thereafter, and shall also be tested when there is a discrepancy of more than plus or minus 2% of full scale between any 2 equivalent gauges.

(3) A timekeeping device shall be available and monitored at each surface-supplied dive location.

(4) A cylinder pressure gauge capable of being monitored by the diver during the dive shall be worn by each SCUBA diver.

Digitized by Google

(5) A timekeeping device shall be worn by each SCUBA diver in a position to be monitored by the diver.

History: 1954 ACS 99, p. 150, Eff. June 16, 1979.

R 408.43158 Equipment; weights and harnesses.

Rule 3158. (1) Divers shall be equipped with a weight belt or assembly capable of quick release, except when heavy gear is worn.

(2) Except when heavy gear is worn or except in SCUBA diving, each diver shall wear a safety harness with all of the following:

(a) A positive buckling device.

(b) An attachment point for the umbilical to prevent strain on the mask or helmet.

(c) A lifting point to distribute the pull force of the line over the diver's body.

History: 1954 ACS 99, p. 150, Eff. June 16, 1979.

R 408.43161 Recordkeeping; recording and reporting.

Rule 3161. (1) The employer shall record and report occupational injuries and illnesses pursuant to department of labor requirements of Part 11. Recording and Reporting of Occupational Injuries and Illnesses, being R 408.22101 et seq. of the Michigan Administrative Code.

(2) In addition, the employer shall record the occurrence of any diving related injury or illness which requires any dive team member to be hospitalized for 24 hours or more, specifying the circumstances of the incident and the extent of any injuries or illnesses.

History: 1954 ACS 99, p. 150, Eff. June 16, 1979.

R 408.43162 Recordkeeping; availability of records.

Rule 3162. (1) Upon the request of the director of the department of labor or the director of the department of public health, the employer shall make available for inspection and copying any record or document required by these rules.

(2) Upon request of any employee, former employee, or authorized representative, the employer shall make available for inspection and copying any record or document required by these rules which pertains to the individual employee or former employee.

(3) Records and documents required by these rules shall be retained by the employer for the following periods:

(a) Dive team member physician reports—5 years.

(b) Safe practices manual—current document only.

(c) Depth-time profile—until completion of the recording of the dive, or until completion of decompression procedure assessment where there has been an incident of decompression sickness.

(d) Recording of dive—1 year, except 5 years where there has been an incident of decompression sickness.

(e) Decompression procedure assessment evaluations—5 years.

(f) Records of hospitalizations—5 years.

History: 1954 ACS 99, p. 151, Eff. June 16, 1979.

GENERAL INDUSTRY SAFETY STANDARDS COMMISSION

SAFETY STANDARDS FOR AGRICULTURE

(By authority conferred on the general industry safety standards commission by sections 16 and 21 of Act No. 154 of the Public Acts of 1974, as amended, being §§408.1016 and 408.1021 of the Michigan Compiled Laws)

PART 51. AGRICULTURAL TRACTORS

R 408.45101 Adoption of federal standard.

Rule 5101. Effective 15 days after filing with the secretary of state, a tractor used in agricultural operations shall be as prescribed in 29 C.F.R. §§1928.51, 1928.52, and 1928.53, O.S.H.A. safety and health regulations for agricultural tractor rollover protective structures, which are incorporated herein by reference and may be inspected at the Lansing office of the department of labor. These sections were published in the April 25, 1975, Federal Register and may be purchased at a cost of 75 cents from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 231 W. Lafayette, Detroit, Michigan 48226. These sections may also be purchased at a cost of 20 cents from the Michigan Department of Labor, 7150 Harris Drive, Lansing, Michigan 48926.

History: 1954 ACS 91, p. 78, Eff. May 19, 1977.

PART 53. FARM FIELD EQUIPMENT

R 408.45301 Adoption of federal standard.

Rule 5301. (1) Farm field equipment used in agricultural operation shall be as prescribed in paragraphs (a) to (c) of 29 C.F.R. §1928.57, O.S.H.A. safety and health regulations for the guarding of farm field equipment, farmstead equipment, and cotton gins, which are incorporated herein by reference and may be inspected at the Lansing office of the department of labor. This section was published in the March 9, 1976, and October 22, 1976, Federal Registers and may be purchased at a cost of 75 cents from the Superintendent of Documents, Washington, D.C. 20402, or from the O.S.H.A. area office, 231 W. Lafayette, Detroit, Michigan 48226. This section may also be purchased at a cost of 20 cents from the Michigan Department of Labor, 7150 Harris Drive, Lansing, Michigan 48926.

(2) Notwithstanding the effective dates contained in paragraph (a)(3) of the referenced regulation, the effective dates shall be 15 days after filing with the secretary of state.

History: 1954 ACS 91, p. 78, Eff. May 19, 1977.

EMPLOYMENT SECURITY COMMISSION

ADMINISTRATIVE REGULATIONS

(By authority conferred on the employment security commission by section 4 of Act No. 1 of the Public Acts of the Extra Session of 1936, as amended, being §421.4 of the Michigan Compiled Laws)

R 421.1 Rescinded.

History: 1944 ACS 12, p. 34; 1954 AC, p. 4801; rescinded 1954 ACS 13, p. 82, Eff. Feb. 14, 1958.

R 421.10 Disclosure of information.

Rule 10. (1) All information, files and records of the Michigan employment security commission, reflecting information obtained from an employing unit or individual pursuant to administration of the act by the commission or its agents or representatives, shall be held confidential, and shall not be disclosed nor open to public or private inspection by anyone except as hereinafter provided.

(2) Such information in possession of the commission as may: (a) affect a claim for benefits, (b) affect a charge to an employer's rating account, or (c) be necessary for proper presentation of a case in any hearing before the commission,

a referee, or the appeal board, upon request by an interested party, shall be made available to such interested party for examination at an office of the commission by him or his duly authorized representative who has supplied the commission with satisfactory proof of authorization and identity. A duly licensed attorney at law who states that he represents a claimant or an employer who is an interested party is not required to furnish proof of authorization.

(3) No information shall be released to any of the agencies, bureaus or departments specified in section 11(b) of the act unless a written request has been first submitted to the commission stating the specific information desired, the specific purpose for which the information is to be used, and the name of any person authorized by the principal to receive the information from the commission.

(4) Information shall be released to a college, university or public agency of this state only as specified in section 11(b) of the act for use in connection with research projects of a public service nature and only after a written request, signed by the administrative head (or his delegated representative) of the college, university or public agency, as required by the commission, is submitted to the commission and the commission is assured the information will not be made public in any way identifying any individual or employing unit from or concerning whom the information was obtained by the commission. The request shall contain a complete statement as to the nature of the information requested, the public service objective for which the request has been made, the prospective use of the information and the manner in which it will be made public.

(5) The individual signing the request for confidential information shall certify that: (a) the requested information is for and to be used by the college, university or public agency in accordance with the relevant provisions in the act; (b) he is empowered by the college, university or public agency he represents to commit his principal for expenses which may be incurred by the commission in fulfilling the request; (c) if reports based on the information are to be published, the college, university or public agency will submit the reports to the commission for review so that the commission may ascertain and assure that the confidentiality provisions of the act or applicable federal statutes or standards are not violated; and (d) he is aware of the penalties provided in the act for unauthorized or improper use of the information.

(6) The commission will decide the feasibility of supplying such information based on the staff time available and the current workload of the commission, and will require reimbursement on a cost basis for supplying or preparing the information.

(7) Nothing in this rule shall be construed to prohibit publication by the commission of statistical data or other information in the interest of the public, not disclosing the identity of any individual or employing unit, nor under the same limitation, to prohibit the commission in accordance with section 4 of the act from making available to the public upon request, statements of any and all informal rules or criteria of decisions, administrative policies, or interpretations and the like which are or may be utilized by the commission, its agents, or employees in any manner in the performance of their administrative duties.

History: 1944 ACS 12, p. 34; 1954 AC, p. 4802; 1954 ACS 44, p. 35, Eff. Nov. 14, 1965; 1954 ACS 53, p. 57, Eff. Feb. 14, 1968.

EMPLOYERS

R 421.101 Report to determine liability.

Rule 101. (1) Every individual or legal entity which becomes an "employing unit" as defined in section 40 of the act shall, on or before the last day of the month

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

next following the month during which it became an employing unit, file with this commission a "Report to Determine Liability" and such additional reports as the commission may require for the purpose of determining whether it is an "employer" as defined in section 41 of said act.

(2) Every "employing unit" which is determined to be an "employer" (including every "employing unit" which has elected, with the approval of the commission, to become an "employer") shall be notified of such determination or approval and shall be supplied as soon as practical with a copy of the act and the employers' handbook, the rules adopted by the commission, and a certificate informing the employees that the employer is covered by the Michigan employment security act and has been so registered with the commission. Additional certificates will be furnished to each employer upon request.

(3) Every "employer" shall, upon the receipt thereof, post the certificate or certificates in a conspicuous place or places in such employer's place of business as to bring to the attention of each employee the contents of the certificate or certificates. Certificates shall remain posted and displayed so long as the employer is subject to the act. No such certificate shall be posted by any person or "employing unit" which has not been determined to be an "employer" liable for contributions under the act, or by any "employing unit" which has ceased to be an "employer."

History: 1944 AC, p. 1436; 1944 ACS 12, p. 35; 1954 AC, p. 4802; 1954 ACS 13, p. 82, Eff. Feb. 14, 1958.

R 421.110 Rescinded.

History: 1944 AC, p. 1437; 1954 AC, p. 4803; rescinded 1954 ACS 13, p. 82, Eff. Feb. 14, 1958.

R 421.112 Determination of cash value of room and board.

Rule 112. (1) If board, rent, housing, lodging, meals, or similar advantage is extended in any medium other than cash as partial or entire remuneration for service constituting "employment" as defined in section 42 of the act, the reasonable cash value of same shall be deemed wages subject to contribution.

(2) Where the cash value for such board, rent, housing, lodging, meals, or similar advantage is agreed upon in any contract of hire, the amount so agreed upon shall be deemed the value of such board, rent, housing, lodging, meals or similar advantage. Check stubs, pay envelopes, and the like, furnished to employees setting forth such cash value, are acceptable evidence as to the amount of the cash value agreed upon in any contract of hire except as provided in subrules (4) and (5) of this rule.

(3) In the absence of such an agreement in a contract of hire, the rate for board, rent, housing, lodging, meals or similar advantages, furnished in addition to money wages or wholly comprising the wages of an employed individual, shall be deemed to have the following cash value except as provided in subrule (4) of this rule:

Full board and room per week	$13.50
Meals (without lodging) per week	9.00
Meals (without lodging) per day	1.50
Meals (without lodging) per meal	.50
Lodging (without meals) per week	4.50
Lodging (without meals) per day	.75

Provided, however, that when lodging is furnished to superintendents of properties, caretakers, janitors, etc., the value of such lodging shall be the amount which would be paid by such an employee for similar or equivalent accommodations furnished by an individual other than his employer.

(4) The commission or its authorized agent at the request of any employer or employee or on its own motion may, after affording reasonable opportunity at a hearing for the submission of relevant information in writing or in person, determine the reasonable cash value of such board, rent, housing, lodging, meals or similar advantage in particular instances or group of instances, if it is determined that the values fixed in or arrived at in accordance with subrule (3) above or in the contract of hire do not properly reflect the reasonable cash value of such remuneration.

(5) If the commission determines that the reasonable cash value is other than prescribed in a contract of hire or in subrule (3) above, the employer's payroll and contribution reports to the commission shall thereafter show the value of such remuneration as determined by the commission.

(6) For the purpose of determining whether an individual is "unemployed" as defined in section 48 of the act, the reasonable cash value of board, rent, housing, lodging, meals, or similar advantage as compensation for personal services shall also be established in accordance with this rule.

History: 1944 ACS 12, p. 35; 1954 AC, p. 4803; 1954 ACS 13, p. 82. Eff. Feb. 14, 1958.

R 421.113 Gratuities and tips.

Rule 113. The following criteria shall be applicable in determining whether tips are wages under the contribution provisions of the act:

(a) Tips received by an individual from a person or persons other than his employer, and not accounted for to the employer, are not wages.

(b) Where a customer writes the amount of the tip on his bill and the employer pays the employee the amount so shown and charges it to the customer's account, such amounts are not wages.

(c) Where the employer adds a certain percent to the customer's bill for disbursement to his employees, the sums so disbursed are wages.

History: 1954 ACS 44, p. 36. Eff. Nov. 14, 1965.

R 421.115 Records required of employing units.

Rule 115. (1) Each employing unit having employment performed for it shall maintain records as hereinafter indicated and shall preserve such records (including those required under previous regulations relating to records) reasonably protected against damage or loss for a period of not less than 6 years after the calendar year in which the remuneration to which they relate was paid, or if not paid, was due:

(a) For contribution purposes:

(i) Beginning and ending dates of each pay period.

(ii) Total amount of remuneration for employment paid in any quarter.

(iii) Total amount of wages (as defined in section 44(2) of the act) paid in any quarter.

(b) For each worker, unless the commission has ruled that his services do not constitute employment:

(i) Name.

(ii) Social security account number.

(iii) The place of his employment. For the purpose of this record, the place of employment shall be recorded as the city of 500,000 in which he performs his work or, if not employed in such a city, as the county in which he performs his work. The place of employment of a worker who does not perform the majority of his work in any one such city or county shall be recorded as the city or county in Michigan in which he has his base of operations; or, if he has no base of operation

in Michigan, as the city or county in Michigan from which his services are directed or controlled; or, if the place from which his service is directed or controlled is also outside Michigan, as the city or county within Michigan in which he has his residence.

(iv) Dates on which he was hired, rehired, or returned to work after a temporary lay-off, and dates separated from work and reason therefor.

(v) Remuneration paid for services and dates of payment, showing separately:

(A) Cash remuneration, including special payments (such as bonuses; gifts, etc.).

(B) Reasonable cash value of remuneration in any medium other than cash (determined in accordance with applicable regulations of the commission), including special payments (such as bonuses, gifts, etc.).

(vi) Amounts paid him as allowances or reimbursement for traveling or other business expenses, and dates of payment.

(vii) With respect to pay periods in which he performs services in both employment and nonsubject work:

(A) Hours spent in employment.

(B) Hours spent in nonsubject work.

(2) Records shall be maintained by employing units in such form as to make it possible to determine from an inspection thereof with respect to any worker:

(a) Earnings by calendar weeks.

(b) Weeks of less than full-time work.

(c) Time lost due to reasons other than lack of work.

(d) Calendar days worked.

History: 1944 AC, p. 1438; 1944 ACS 12, p. 36; 1954 AC, p. 4804; 1954 ACS 13, p. 83. Eff. Feb. 14, 1958.

R 421.121 Employer's contribution.

Rule 121. (1) Contributions shall become due and payable quarterly with respect to wages paid in each calendar quarter except that the commission may require such contributions to become due and payable on a monthly basis in any instance in which an employer has a history of delinquency or in any instance in which the commission has reason to believe that the collection of contributions may be jeopardized by payment on a quarterly basis.

(2) Each employer shall submit a contribution report on forms provided by the commission. A quarterly report and the contributions due on wages paid during the calendar quarter shall be submitted and paid on or before the 25th day of the month next following the last day of such calendar quarter or, if required by the commission, a monthly report and the contributions due on wages paid during the calendar month shall be submitted and paid on or before the 25th day of the month next following the last day of the month for which the report is submitted.

(3) An employer notified by the commission to report and pay contributions on a calendar month basis shall file such report and pay contributions due with respect to wages paid in the month such notice is mailed by the commission. Further, such employer shall, within 25 days after the mailing of such notice, file separate monthly contribution report(s) and pay contributions due with respect to wages paid in each previously completed calendar month in the particular quarter in which the notice is mailed.

(4) Any remuneration payable to an individual which has not been actually paid to such individual within 21 days after the end of the pay period in which such remuneration was earned shall be deemed to have been paid on the 21st day after the end of such pay period. Remuneration, the exact amount of which, or the persons to whom payable, or both, have not been determinable during any pay

period, shall be considered to have been earned in the pay period in which both the amount and the persons to whom payable are first determinable.

(5) The certification on each contribution report shall be signed by:

(a) The individual, if the employer is an individual; or

(b) The president, vice-president, or other officer, if the employer is a corporation; or

(c) A responsible or duly authorized member having knowledge of its affairs, if the employer is a partnership or other unincorporated organization.

(6) An employing unit, which at any time becomes an employer under the provisions of the Michigan employment security act during the course of any calendar year, shall, immediately thereafter, prepare and file a contribution report for each then completed calendar quarter, or each then completed calendar month, if required by the commission within such calendar year and shall thereafter file such reports as are otherwise required by this rule.

(7) An employing unit which elects, under the provisions of section 25 of the act, to become an employer shall, upon written approval of such election by the commission, file such reports as are required, including a contribution report for all completed calendar quarters or calendar months if required by the commission, beginning with the date of coverage as approved by the commission.

(8) Upon the discontinuance, sale, assignment, or transfer, whether voluntary or by operation of law, of the trade, organization, or business in Michigan, of an employer, contributions shall become immediately due and payable as of the date of such discontinuance, sale, assignment, or transfer and, within 15 days of such date, the employer shall file with the commission all reports required by this rule for that part of the calendar month or calendar quarter which has elapsed since the last day of the preceding required reporting period.

(9) The last return of contribution report for any employing unit shall be marked "Final Return" by the employer or other person filing the return. The period covered by such return shall be plainly written on the return, indicating the date of the final payment of wages by such employer. In addition to the foregoing there shall be executed and filed a "Report of Employer on Discontinuance or Disposition of Business or Assets in Whole or in Part."

(10) Each return, together with any supporting data, shall be executed and filed in accordance with instructions and the applicable rules. Employers shall make application to the commission for the forms needed in ample time to have their returns prepared, certified, and filed with the commission on or before the due date. The return shall be carefully prepared so as to set forth fully and clearly the data called for therein. Returns which have not been so prepared will not be accepted as meeting the requirements of the act. Each employer is requested to file his own report with respect to wages for employment performed for him. Consolidated reports of parent and subsidiary corporations shall not be recognized or permitted.

History: 1944 AC, p. 1439; 1944 ACS 12, p. 37; 1954 AC, p. 4805; 1954 ACS 13, p. 84, Eff. Feb. 14, 1958; 1954 ACS 44, p. 36, Eff. Nov. 14, 1965.

R 421.162 Charges and credits to employer's rating account.

Rule 162. (1) The commission shall notify employers with respect to their rating accounts as follows:

(a) When a benefit check is issued to an individual, the commission shall mail to the employer whose rating account is charged with such benefits, a copy of such check, showing:

(i) The name and social security account number of the payee.

(ii) The amount paid.

(iii) The date of issuance.

(iv) The calendar week or period for which benefits have been paid.

(v) The designation of the employer.

(b) A statement shall be mailed to an employer for each day as of which benefits are chargeable to his rating account. Such statements shall set forth the date and amount of charge. Copies of the benefit checks on which the charge is based shall be mailed with the statement.

(c) Any statements issued to an employer in accordance with the provisions of subrule (1)(b) of this rule shall, in the absence of a pending protest by such employer affecting the validity of benefit payments included in such statement, become final unless within 15 days after the date of mailing the employer files an application requesting a review and redetermination by the commission, in accordance with section 32a of the act.

(d) A quarterly statement consisting of a summary listing of daily statements of charges shall be mailed to each employer for reconciliation purposes. Such quarterly statement shall be subject to review and redetermination by the commission as to the accuracy of the statement only, if the employer requests such review and redetermination within 15 days after the date of mailing of the quarterly statement.

(2) The deductions from charges as provided in section 20(a) of the act shall be in the form of credits to the employer's rating account. Notices of the credits together with a covering statement shall be mailed to the employer at least monthly.

(3) If it is found that any benefits paid and charged to an employer's rating account were improperly paid or charged, an amount equal to the charge based on such benefits shall be credited to the employer's rating account as of the current period, except that the commission may consider an employer's request that the credit be made as of the quarter in which the charges were originally made if such request is filed within 15 days after the mailing of the credit or within 15 days after the mailing of contribution rate for the first calendar year which can be affected by the requested retroactive credit: Provided, that if the employer files a request within 15 days of the mailing of a credit which in combination with 1 or more preceding similar credits is sufficient to change a contribution rate if such credits are given retroactive effect, then the request shall be considered as timely filed with respect to all such credits: Provided further, that where the allowance of retroactive credit will affect contributions previously paid within the meaning of the provisions of section 16 of the act, application for such credits be made not later than 3 years after the date of payment of the affected contributions: Provided further, that in the absence of an intentional false statement, misrepresentation or concealment of a material fact by a claimant, no credit shall be issued to an employer where improper payment was made because of the employer's failure to furnish information timely in connection with a new or additional claim as provided in section 32(b) of the act.

to the interstate reciprocal coverage arrangement, hereinafter referred to as "the arrangement."

(2) As used in this rule, unless the context clearly indicates otherwise:

(a) "Jurisdiction" means any state of the United States, the District of Columbia, or with respect to the federal government, the coverage of any federal unemployment compensation law.

(b) "Participating jurisdiction" means a jurisdiction whose administrative agency has subscribed to the arrangement and whose adherence thereto has not terminated.

(c) "Agency" means any officer, board, commission or other authority charged with the administration of the unemployment law of a participating jurisdiction.

(d) "Interested jurisdiction" means any participating jurisdiction to which an election submitted under this regulation is sent for its approval; and "interested agency" means the agency of such jurisdiction.

(e) "Services customarily performed" by an individual in more than 1 jurisdiction means services performed in more than 1 jurisdiction during a reasonable period, if the nature of the services gives reasonable assurance that they will continue to be performed in more than 1 jurisdiction or if such services are required or expected to be performed in more than 1 jurisdiction under the election.

(3) Submission and approval of coverage elections under the interstate reciprocal coverage arrangement:

(a) Any employing unit may file an election, to cover under the law of a single participating jurisdiction all of the services performed for him by any individual who customarily works for him in more than 1 participating jurisdiction. Such an election may be filed, with respect to an individual, with any participating jurisdiction in which (i) any part of the individual's services are performed; (ii) the individual has his residence; or (iii) the employing unit maintains a place of business to which the individual's services bear a reasonable relation.

(b) The agency of the elected jurisdiction (thus selected and determined) shall initially approve or disapprove the election. If such agency approves the election, it shall forward a copy thereof to the agency of each other participating jurisdiction specified thereon, under whose unemployment compensation law of the individual or individuals in question might, in the absence of such election, be covered. Each such interested agency shall approve or disapprove the election, as promptly as practicable; and shall notify the agency of the elected jurisdiction accordingly. In case its law so requires, any such interested agency may, before taking such action, require from the electing employing unit satisfactory evidence that the affected employees have been notified of, and have acquiesced in, the election.

(c) If the agency of the elected jurisdiction, or the agency of any interested jurisdiction, disapproves the election, the disapproving agency shall notify the elected jurisdiction and the electing employing unit of its action and of its reasons therefor.

(d) Such an election shall take effect as to the elected jurisdiction only if approved by its agency and by 1 or more interested agencies. An election thus approved shall take effect, as to any interested agency, only if it is approved by such agency.

(e) In case any such election is approved only in part, or is disapproved by some of such agencies, the electing employing unit may withdraw its election within 10 days after being notified of such action.

(4) Effective period of elections:

Digitized by Google

(a) Commencement:

An election duly approved under this rule shall become effective at the beginning of the calendar quarter in which the election was submitted, unless the election as approved, specifies the beginning of a different calendar quarter.

If the electing unit requests an earlier effective date than the beginning of the calendar quarter in which the election is submitted, such earlier date may be approved solely as to those interested jurisdictions in which the employer has no liability to pay contributions for the earlier period in question.

(b) Termination:

(i) The application of an election to any individual under this rule shall terminate, if the agency of the elected jurisdiction finds that the nature of the services customarily performed by the individual for the electing unit has changed, so that they are no longer customarily performed in more than 1 participating jurisdiction. Such termination shall be effective as of the close of the calendar quarter in which notice of such finding is mailed to all parties affected.

(ii) Except as provided in subparagraph (i), each election approved hereunder shall remain in effect through the close of the calendar year in which it is submitted, and thereafter until the close of the calendar quarter in which the electing unit gives written notice of its termination to all affected agencies.

(iii) Whenever an election under this rule ceases to apply to any individual, under subparagraph (i) or (ii), the electing unit shall notify the affected individual accordingly.

(5) Reports and notices by the electing unit:

(a) The electing unit shall promptly notify each individual affected by its approved election, on the form supplied by the elected jurisdiction, and shall furnish the elected agency a copy of such notice.

(b) Whenever an individual covered by an election under this rule is separated from his employment, the electing unit shall again notify him forthwith, as to the jurisdiction under whose unemployment compensation law his services have been covered. If at the time of the termination the individual is not located in the elected jurisdiction, the electing unit shall notify him as to the procedure for filing interstate benefit claims.

(c) The electing unit shall immediately report to the elected jurisdiction any change which occurs in the conditions of employment pertinent to its election, such as cases where an individual's services for the employer cease to be customarily performed in more than 1 participating jurisdiction or where a change in the work assigned to an individual requires him to perform services in a new participating jurisdiction.

(6) Approval of reciprocal coverage elections.

The Michigan employment security commission hereby delegates to its director authority to approve or disapprove reciprocal coverage elections in accordance with this rule.

CLAIMS

R 421.201 Interested party.

Rule 201. (1) The term "interested party" as used in the act or these rules shall mean any one whose statutory rights or obligations may be affected by the outcome or disposition of the determination, redetermination, or decision, and such party therefore shall have the right to (a) receive a copy of the notice of determination or redetermination, (b) request a reconsideration of the determina-

tion, and (c) appeal to a referee or the appeal board in the manner provided in the act.

(2) A claimant whose rights to benefits is or may be affected by a determination, redetermination, or decision, and the employer or employing unit whose liability status is or may be affected by such a determination, redetermination, or decision shall be deemed to be an interested party.

(3) Any employer whose statutory rights or liability are involved in a determination or redetermination concerning a contribution rate, assessment, or benefit charge to the employer's experience record is an interested party in such action. The commission is an interested party on any appeal before a referee or the appeal board.

History: 1944 AC, p. 1445; 1944 ACS 12, p. 42; 1954 AC, p. 4809.

R 421.204 Unemployment compensation notice to employee.

Rule 204. (1) Whenever a worker is separated from his employment, his employer shall deliver to such worker at the time of separation a copy of form MESC 1711, unemployment compensation notice to employee, unless prior to the date of separation the employer has delivered a copy of said form to the worker and has posted notices notifying the worker that:

(a) If he loses his form MESC 1711, he may obtain a duplicate from a designated office in the establishment.

(b) He should have form MESC 1711 in his possession when he reports to an employment security office for the purpose of filing a claim.

(2) If the commission finds that an employer is failing to deliver form MESC 1711 prior to the time of separation or is failing to post adequate notices concerning replacement of lost MESC 1711's, such employer at the direction of the commission shall be required to deliver form MESC 1711 to a worker whenever he is separated from employment.

(3) Such form shall contain at least:

(a) The employer's name and registration number.

(b) The address of the employer to which must be directed a request for wage and separation information.

(c) Such other information as is required by the commission.

History: 1944 AC, p. 1446; 1944 ACS 12, p. 42; 1954 AC, p. 4809; 1954 ACS 44, p. 39, Eff. Nov. 14, 1965.

R 421.205 Notification to employing units of claims filed and wage and separation information required from employing units.

Rule 205. (1) When an individual files a new claim for benefits, the commission shall notify all of his base period employing units thereof, and request wage and/or separation information on a form designed for that purpose. Each employing unit shall respond, within 7 days from the date of mailing or personal service of such request, on the form furnished by the commission and shall direct the response to the commission's address shown on the form. The following information shall be contained thereon:

(a) A summary statement of pertinent facts if the employing unit questions whether the individual should receive benefits.

(b) Such other information as the commission requests.

(2) When an individual files an additional claim, the commission shall notify the separating employing unit and the currently chargeable employer. The employing unit shall respond in writing within 7 days from the date of mailing or personal service of such notice if it questions the individual's eligibility or qualification.

(3) An employing unit shall notify the commission of the possible disqualification or ineligibility of a claimant in the following manner:

(a) By inserting such information on the form sent to the employing unit by the commission requesting wage and separation information, or

(b) By notifying the commission in writing of the existence of possible ineligibility or disqualification in response to a notice of claim renewal, or

(c) By notifying the commission in writing of a possible disqualification or ineligibility within 3 days from the date the possible disqualification or ineligibility arose.

(4) When a notice of possible disqualification or ineligibility is used, it shall be mailed or delivered to the commission at 7310 Woodward Avenue, Detroit, Michigan 48202, and shall contain:

(a) The individual's full name and social security account number.

(b) The employing unit's name, registration number, if 1 has been assigned by the commission, and the address to which must be directed any request for wage and separation information.

(c) The last day worked by the individual.

(d) A statement of the circumstances based on which the employing unit questions whether the individual should be entitled to benefits.

(e) Such other information as is required by the form.

(5) Should an employing unit fail to comply with the requirements of subrule (1) of this rule, the commission shall make a determination of the individual's benefit rights based upon such information as is available.

(6) If an employing unit responds to a request from the commission after such response is due under subrule (1) or (2), such response shall not (in the absence of a showing that the employing unit could not reasonably comply with the due dates of subrule (1) or (2) or of a showing of a false statement, misrepresentation or nondisclosure of a material fact on the part of the claimant, or of an administrative clerical error) form the basis of a determination or redetermination, as the case may be, of disqualification or ineligibility for any claim period for which benefits have been paid prior to the receipt by the commission of such response.

(7) In the event that the individual disagrees with the wage information furnished by an employer, the individual's statement shall be taken on a form designed for the purpose, and submitted to the employer for verification. The employer shall respond within 7 days from the date of mailing or personal service of such form. Such response, on the form furnished by the commission, shall be directed to the commission's address shown thereon, and shall indicate the amount of wages earned within each calendar week during which the individual worked for the employer during the individual's base period.

(8) In all instances where a notice is submitted by an employing unit indicating the sole reason for ineligibility to be leave of absence or disqualification for vacation with pay, and with respect to which period of time no claim was filed, the branch offices shall, upon receipt and recording of appropriate evidence of reemployment by the employing unit granting such leave or vacation with pay, disregard said form without notification to the interested parties, and without the necessity of making a determination with respect to the period of time during which the claimant was on a leave of absence.

(9) As used in this rule, "respond" means that the employing unit shall, within the period specified in this rule from the date of mailing or personal service of the request for information by the commission, forward the information requested to the commission by mail, wire, or messenger.

R 421.208 Registering for work.

Rule 208. (1) To comply with the registration requirements of section 28(1)(a) of the act a claimant shall:

(a) Register for work in person with a placement representative of the state employment service at the employment security office designated by the commission which services an area in which he is available for work and shall fully and accurately supply to such representative such information as to his qualifications for work as may be required and continue to report to such a representative thereafter when he is required to report to file a claim under R 421.210; or

(b) Register for work in person with a placement representative of the state employment service at the employment security claims office where he desires to file a claim for benefits and shall fully and accurately supply to such representative such information as to his qualifications for work as may be required and continue to report to such a representative thereafter when he is required to report to file a claim under R 421.210. If in the area served by the employment security office there is no work available that is of a character which the claimant is qualified to perform by past experience and training, and of a character generally similar to work for which he has previously received wages, a copy of claimant's registration for work shall be forwarded to an employment security office which serves the area in which the claimant is available for work within the meaning of section 28(1)(c) of the act, as ascertained by the commission.

(2) An area within the meaning of subrule (1) above shall comprise the geographical locality assigned by the commission, as of the effective date of this amended rule, to be served by an employment security office, provided that the geographical area in Detroit and vicinity assigned by the commission to be served by employment security offices located in Detroit, Dearborn, Royal Oak, and Wyandotte, shall constitute a single area for purposes of subrule (1).

(3) Except as provided in subrule (4) of this rule, a claimant's registration shall be before an interviewer or authorized representative of a state employment service and shall include such of his past work experience and training and other personal data as may be necessary to assure his being considered for referral to any suitable work which may be available.

(4) While a claimant is unemployed as a result of a mass layoff or labor dispute in his employing unit, his application for benefits (prepared at the time of filing his new claim) on which is set forth his work experience during his most recent base period shall be deemed to be his registration for work. For the purposes of this subrule a claimant shall be deemed to be unemployed as a result of a mass layoff only where the commission finds, after consulting with the employer involved, that all of the following conditions exist:

(a) The employer has simultaneously laid off a group or class of 100 or more employees for a reason other than a reduction in force, namely a reason such as a shortage of fuel and materials, weather conditions, mechanical breakdowns, fires, inventory, change of models, acts of God and the like; and

(b) The claimant is a member of such group or class; and

(c) It is contemplated that the members of such group or class, when recalled to work, will be recalled as a group and not individually.

(5) If, in registering for work under subrule (3) above, a claimant indicates that he is unwilling to be referred to or notified of work of a character which he is qualified to perform by past experience or training and of a character generally similar to work for which he has received wages, a determination shall be made as to claimant's availability for suitable work.

History: 1944 ACS 12, p. 43; 1944 ACS 26, p. 18; 1954 AC, p. 4812; 1954 ACS 44, p. 41, Eff. Nov. 14, 1965.

R 421.209 Effect of religious convictions on sabbath day work.

Rule 209. An individual shall not be deemed unavailable for work solely because, due to the precepts of his religion, he limits himself to jobs not requiring work on his sabbath. An individual who refuses to work on the sabbath designated by his religion, because of conscientious observance of the sabbath as a matter of religious conviction, shall be deemed to have good cause for refusing such work.

History: 1954 ACS 44, p. 41, Eff. Nov. 14, 1965.

R 421.210 Filing and effective dates of claims for benefits.

Rule 210. (1) An individual shall not receive waiting week credit or benefits for any week of unemployment for which he has failed to report and claim such credit or benefits in accordance with the provisions of this rule.

Except as otherwise provided in this rule, an individual, in order to file a claim for benefits, shall appear in person at the employment security office which has been established for the purpose of taking claims in the area in which he resides or in such other area as authorized by the commission, in this or another state.

(2) Definitions:

(a) "Reporting day," except as otherwise provided in this subrule, means that day determined by the following schedule on which an individual shall report to file a claim, unless otherwise permitted or directed by the commission.

If the final digit of an individual's social security number is:	His reporting day is:
0 or 1	Monday
2 or 3	Tuesday
4 or 5	Wednesday
6 or 7	Thursday
8 or 9	Friday

"Reporting day" for an individual in an area served by an itinerant service claims office means that day on which itinerant service is available.

(b) "Separated or on long term layoff" means the termination of an individual's employment relationship with a given employing unit or an interruption of an individual's work by his employing unit which has not advised him when to return to work or has advised him to return to work after the end of the calendar week succeeding the week in which his last day of work occurred.

(c) "Short term layoff" means an interruption of an individual's work by his employing unit which has advised him to return to work by not later than the end of the calendar week succeeding the week containing his last day of work.

(d) "Under employed individual" means an individual who is unemployed as defined in section 48 of the act and who in a given week worked less than his customary full-time hours of work with his regular employing unit because full-

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

time work was not available or furnished, and is neither separated nor on long term layoff nor on short term layoff.

(e) "Week of under employment" means a week during which an individual who is unemployed as defined in section 48 of the act worked less than his customary full-time hours of work with his regular employing unit because full-time work was not available or furnished, and the individual is neither separated nor on long term layoff nor on short term layoff.

(f) "Day of work" means any calendar day or portion thereof on which an individual performed services for an employing unit under a contract of hire, including any day or portion thereof for which an individual received or is entitled to receive "call-in" pay.

(j) "Good cause for late filing of a new or additional claim" and "good cause for late reporting to file a continued claim" is deemed to exist if there is a justifiable reason determined in accordance with a standard of conduct expected of an individual acting as a reasonable person in the light of all the circumstances, which prevented a timely filing or reporting as required by this rule. Justifiable reasons which the commission may consider as constituting good cause for late filing of a new or additional claim or for late reporting to file a continued claim include, but are not limited to, the following:

(i) Acts of God, such as floods or storms, which prevent an individual from getting to an office or itinerant point either in this or another state.

(ii) Working, reliance on a promise of work which did not materialize, or seeking work where there is a reasonable indication that work is available.

(iii) Closing of commission offices, or failure to provide itinerant service when scheduled.

(iv) Personal physical incapacity or the physical incapacity or death of a relative or ward of either the individual or the individual's spouse, or of any person living in the same household as the individual claiming benefits.

(v) Attendance at a funeral.

(vi) Incarceration.

(vii) Jury duty.

(3) Filing and effective date of claims filed in person:

(a) Except as otherwise provided in subrule (4)(a), an individual is required to file the following in person:

(i) His new claim with respect to a benefit year, or his continued claim for a waiting week or for his first compensable week of unemployment in such benefit year.

(ii) Any other claim, when requested to do so by the claims personnel at the employment security claims office at which he files his claim, because questions about his right to benefits are raised by circumstances such as any of the following:

(A) The conditions or circumstances of his separation from employment.

(B) The claimant's answers to questions on any mail claim indicate that he may be unable to work or that there may be undue restrictions on his availability for work or that his search for work may be inadequate or that he may be disqualified.

(C) The claimant's answers to questions on any mail claim create uncertainty about his credibility or indicate a lack of understanding of the applicable requirements.

(D) The claimant's record shows that he has previously filed a fraudulent claim.

In such circumstances, the claimant is required to continue to file claims in

person until the commission determines that filing claims in person is no longer required for the resolution of such questions.

(b) If an individual who is separated or on a long term layoff files his claim on his reporting day first following his last day of work, his claim shall be effective with the beginning of the calendar week which includes his last day of work. However, if his reporting day is within 24 hours following his last day of work and he filed his claim on his reporting day in the immediately succeeding week, his claim shall be effective with the beginning of the calendar week which includes his last day of work.

(c) If an individual who is on a short term layoff files his claim no later than his reporting day in the 2nd calendar week succeeding the week in which the short term layoff occurred, his claim shall be effective with the beginning of the week in which the short term layoff occurred. If, however, an individual after the beginning of a short term layoff should become separated or on long term layoff, the provisions of subrule (3)(b) apply with respect to the week in which the separation or long term layoff occurred, and the day on which the separation or long term layoff occurred shall be considered the last day of work.

If an individual who was on a short term layoff becomes separated or on a long term layoff and then files a claim which meets the conditions of subrule (3)(b) his claim shall be effective with the beginning of the week in which the short term layoff occurred and shall apply also to the week in which the separation or long term layoff occurred.

(d) If an individual who is an under employed individual files his claim no later than his reporting day in the third calendar week succeeding the date that wages were paid for a week of under employment his claim shall be effective with the beginning of the week of under employment. If, however, the individual after the end of the week of under employment should become separated or on long term layoff the provisions of subrule (3)(b) shall apply with respect to the week in which the separation or long term layoff occurred and the day on which the separation or long term layoff occurred shall be considered the last day of work.

If an individual who was an under employed individual becomes separated or on long term layoff in the calendar week succeeding the week of under employment and then files a claim which meets the conditions of subrule (3)(b), his claim shall be effective with the beginning of the week of under employment and shall apply as well to the week in which the separation or long term layoff occurred.

(e) If an individual resides in an area served by an itinerant service claims office, his claim shall be effective as if timely filed under the provisions of subrule (3)(b), (c), or (d) if filed on either of the following days:

(i) On the first day that itinerant claims service is available following his last day of work if separated or on a long term layoff, except that if the first day of such service is within 24 hours following his last day of work, then on the first day that itinerant claims service is available after the calendar week containing his last day of work.

(ii) On the first day that itinerant claims service is available in the second calendar week following a week of under employment or week of short term layoff, except that if there is no itinerant claims service available in the second calendar week following the week in question, then on the first day that itinerant claims service is available in the following calendar week.

(f) A new or additional claim filed within 7 days, or 14 days in an area with biweekly itinerant claims service, after the time limits prescribed in subrule (3)(b), (c), (d), or (e) shall nonetheless be effective as described in those subrules

if the individual claims, and the commission determines, that good cause for late filing of a new or additional claim exists. A new or additional claim not filed within the extended period provided in this subrule but filed within 7 days, or 14 days in areas with biweekly itinerant claims service, from the end of such extended period, is still effective as described in subrule (3)(b), (c), (d), or (e) if the individual claims, and the commission determines, that the reason for his failure to file within the time extension described in this subrule was due to the continuing existence of the reason which originally constituted good cause for late filing of a new or additional claim or was due to a new and further reason which constitutes good cause for late filing of a new or additional claim within the additional extended period. Not more than 2 extensions beyond the time limits prescribed in subrule (3)(b), (c), (d), or (e) shall be granted to an individual for filing a claim for the same period.

(g) An individual shall file a continued claim on his reporting day on a weekly basis or on such other basis as prescribed by the commission in order to receive waiting week credit or benefits for a completed week or weeks of unemployment and to establish the effective date of the next succeeding benefit period, if otherwise eligible and qualified. However, the claim shall be deemed to have been timely filed if either of the following occur:

(i) The claim is for a week or weeks of unemployment immediately following the effective date of a new or additional claim filed under subrule (3)(b), (c), (d), (e), or (f) and is filed in person at the same time as such new or additional claim.

(ii) Good cause for late reporting to file a continued claim is determined by the commission to exist and the claim is filed in person, not more than 7 days after his reporting day, or 14 days after his reporting day in areas with biweekly itinerant claims service.

A continued claim not filed within the extended period provided in this subrule is still deemed to have been timely filed if it is determined by the commission that the reason for his failure to file within the time extension described above in this subrule was due to the continuing existence of the reason which constituted good cause for late reporting to file a continued claim or due to a new or further reason which constitutes good cause for late reporting to file a continued claim and the claim is filed in person, within 7 days, or 14 days in areas with biweekly itinerant claims service, from the end of such additional extended period provided.

Not more than 2 extensions as described in subrule (3)(g)(ii) shall be granted to an individual for filing a claim for the same period.

If an individual fails to report in person as scheduled but notifies the commission either verbally or in writing within the time limits set forth above for reporting in person that his failure to report was for a reason which might constitute good cause for late reporting to file a continued claim and that he has a compelling personal reason for not appearing in person on his next reporting day, the commission may authorize him to file a claim by mail for the prior week or weeks of unemployment. The authorization shall consist of mailing a properly authenticated report and claim by mail form to the individual which form shall be deemed timely filed with respect to the week or weeks involved if completed by the individual and received by the commission within 7 days from the date such form was mailed to him by the commission, if the commission finds that he had good cause for late reporting to file a continued claim, and a sufficiently compelling reason for not filing the continued claim in person.

An individual whose good cause for late reporting to file a continued claim is his confining personal illness, shall have 7 days from the cessation of such condition, but in no case more than 1 year from the date of the originally scheduled

appointment which the individual failed to keep, to report to the commission either in person or by filing his report and claim by mail and thereby satisfy the reporting requirement with respect to a prior completed period of unemployment.

(h) If a claim is not timely filed with respect to a given week in accordance with the provisions of subrule (3)(b), (c), (d), (e), (f), or (g), it shall be effective the first day of the calendar week in which the claim is filed, if the claim is filed on or before the individual's reporting day in that week; otherwise, the claim shall be effective no later than the first day of the next succeeding calendar week.

(i) If a claim is effective on the first day of a given week in accordance with the provisions of subrule (3)(b), (c), (d), (e), (f), (g), or (h), or subrule (4)(d) or (e) but it is determined with respect to such week that the individual was not unemployed as defined in section 48 of the act or was ineligible or disqualified under the act, his claim shall be invalid for such week and shall be effective, irrespective of any other provisions of this rule, on the first day of the next succeeding calendar week. However, in order for the individual to receive waiting week credit or benefits for such succeeding calendar week he must be unemployed and otherwise eligible and qualified in such succeeding calendar week.

(4) Filing and effective dates of claims filed by mail:

(a) Notwithstanding the requirements of in person claim filing in subrule (3)(a), an individual has the right to file a claim by mail in any of the following circumstances:

(i) The individual is located in an area requiring the expenditure of an unreasonable amount of time or money in traveling to the nearest employment security claims office.

(ii) Conditions make it impracticable for the commission to take claims in person.

(iii) The individual returned to full-time work on or before the scheduled date for his filing a claim, and in person filing would interfere with such work.

(iv) The commission finds that the individual has good cause for failing to file a claim in person.

(b) If subrules (3)(a) and (4)(a) are inapplicable, the commission may authorize the filing of claims by mail if the commission finds that such filing is consistent with the proper and efficient administration of the act.

(c) A claim by mail pursuant to subrule (4)(a) or (b) may be initiated either by request of an individual or by the commission, but in any event, an individual shall have the right to file a claim in person if he so desires.

(d) The effective date of a claim by mail, where permitted pursuant to subrule (4)(a) or (b), shall be governed by the time limits provided in subrule (3), except that a request in writing or orally by an individual to file a claim by mail shall be considered timely if received by the commission or postmarked within 7 days following the time limits provided by subrule (3), and the completed claim form is received by the commission or postmarked within 7 days, or within such additional time limits prescribed by the commission, from the date the form was mailed or furnished to the individual by the commission. Claims by mail initiated by the commission shall be governed by the same time limitations.

(e) If a request to file by mail is not received or postmarked within the respective time limit applicable to that individual as specified in subrule (4)(d), the claim shall be effective with the beginning of the week in which the individual's request is received or postmarked, if the claim by mail form is received by the commission or postmarked within 7 days, or within such

additional time limits prescribed by the commission, from the date the form was mailed or furnished to the individual by the commission. However, if the form is not received by the commission or postmarked within 7 days, or within such additional time limits prescribed by the commission, from the date the form was mailed or furnished to the individual by the commission, the claim shall be effective beginning with the week in which the form is received or postmarked.

(f) The submission of a request to file a new or additional claim by mail shall also be considered as a timely request for the filing of continued claims by mail for weeks of unemployment following the effective date of the new or additional claim, if the individual is not required to file such claims in person pursuant to subrule (3)(a).

(g) Notwithstanding any of the preceding provisions, the furnishing of a claim by mail form to an individual shall not constitute, in and of itself, an authorization to file a claim by mail.

R 421.211 Benefit year beginning date.

Rule 211. (1) The benefit year for an individual who does not have a benefit year established and who meets the requirements of section 46 of the act shall begin with the effective date of the new claim as determined in accordance with the provisions of R 421.210.

(2) An individual who has established a benefit year but has not received a benefit check for a compensable period during such benefit year may request a redetermination of benefit rights and cancellation of the established benefit year and may file a new claim to establish a new benefit year, the beginning date of which shall be determined in accordance with subrule (1) of this rule.

History: 1944 AC, p. 1447; 1944 ACS 28, p. 20; 1954 AC, p. 4815; 1954 ACS 13, p. 89, Eff. Feb. 14, 1958.

R 421.212 Leaving an employer in response to a recall by a former employer or to accept full-time work with another employer.

Rule 212. (1) If an individual, who is currently employed at the time of accepting a recall to work for a former employer or accepting permanent full-time work with another employer, continues to work concurrently with both employers for a reasonable length of time, not to exceed 10 working days, wages earned with the employer for whom the individual was working at the time of recall or acceptance of other work are subject to transfer to the recalling or new employer under section 29(5) of the act.

(2) Wages transferred to a recalling employer or an employer with whom an individual has accepted work and performed services under section 29(5) of the act are subject to reduction under section 29(4) of the act in the event of a subsequent disqualifying act with the recalling employer or employer with whom an individual has accepted work.

History: 1954 ACS 44, p. 45, Eff. Nov. 14, 1965; 1954 ACS 53, p. 58, Eff. Feb. 14, 1968.

R 421.215 Multiple employment.

Rule 215. (1) This regulation is applicable only with respect to benefit years beginning before August 27, 1967.

(2) Multiple employment is deemed to exist when an individual has earned total wages, on the basis of which benefits may be paid, in excess of $15.00 from 2 or more employers in each of at least 2 consecutive calendar weeks during the 35 most recent uncharged and uncancelled credit weeks of his base period.

(3) When an individual has been employed in multiple employment, all employers involved in such multiple employment are considered multiple employers during the entire base period.

(4) Wages earned within a calendar week of multiple employment shall be totalled for the purpose of determining whether a credit week exists and only 1 credit week shall be established for any week of multiple employment regardless of the number of employers with whom an individual has earned wages during that week.

(5) When multiple employment exists within the base period, determinations shall be issued simultaneously with the same weekly benefit rate for all multiple employers, and each determination shall reflect the pro-rata share of benefits allowed and chargeable to each multiple employer.

(6) Each multiple employer shall be charged in accordance with section 20(e) of the act, in the ratio that the total wages earned with such employer during the last 35 uncharged and uncancelled credit weeks of an individual's base period bear to the total wages earned with all multiple employers during the same period, computed to the next highest multiple of ½ of the weekly benefit rate. However, if an individual is disqualified under section 29(1)(a) of the act the wages earned from an employer involved in such disqualification shall not be used as a basis for computing, paying or charging benefits.

(7) When an individual has credit weeks with an employer who is not involved in multiple employment during the last 35 uncharged and uncancelled credit weeks of his base period, a determination shall be issued separately to such employer as provided in section 20(b) of the act.

R 421.228 Rescinded.

History: 1944 ACS 12, p. 45; 1954 AC, p. 4816, rescinded 1954 ACS 13, p. 89, Eff. Feb. 14, 1958.

R 421.243 Payment of benefits to interstate claimants.

Rule 243. (1) This rule shall govern the Michigan employment security commission in its administrative cooperation with other states and the Dominion of Canada for the payment of benefits to interstate claimants.

(2) As used in this rule, unless the context clearly requires otherwise:

(a) "Interstate benefit payment plan" means the plan approved by the interstate conference of employment security agencies under which benefits are payable to unemployed individuals absent from the state (or states) in which benefit credits have been accumulated.

(b) "Interstate claimant" means an individual who claims benefits under the unemployment insurance law of 1 or more liable states through the facilities of an agent state. The term interstate claimant shall not include any individual who customarily commutes from a residence in an agent state to work in a liable state unless the Michigan employment security commission finds that this exclusion would create undue hardship on such claimants in specified areas.

(c) "State" includes any state as defined in the Michigan employment security act.

(d) "Agent state" means any state in which an individual files a claim for benefits against another state or states.

(e) "Liable state" means any state or states against which an individual files a claim for benefits through another state.

(f) "Benefits" means the compensation payable to an individual with respect to his unemployment under the unemployment insurance law of any state.

(g) "Week of unemployment" includes any week of unemployment as defined in the law of the liable state from which benefits with respect to such week are claimed.

(3) If a claimant files a claim against any state, and it is determined by such state that the claimant has available benefit credits in such state, then claims shall be filed only against such state as long as benefit credits are available in that state. Thereafter, the claimant may file claims against any other state in which there are available benefit credits.

(4) For the purposes of this rule, benefit credits shall be deemed to be unavailable whenever benefits have been exhausted, terminated, or postponed for an indefinite period or for the entire period in which benefits would otherwise be payable, or whenever benefits are affected by the application of a seasonal restriction.

(5) The benefit rights of interstate claimants established by this rule shall apply only with respect to new claims (notices of unemployment) filed on or after the effective date of this rule.

(6) Michigan as agent state:

(a) Shall not refuse to take an interstate claim.

(b) Shall take claims for interstate claimants on uniform interstate forms and in accordance with uniform procedures developed pursuant to the interstate benefit payment plan.

(c) Shall take claims for interstate claimants in conformity with the requirements of subrules (3), (4), and (5) of this rule.

(d) Shall take claims for interstate claimants in accordance with the reporting requirements and type of week in use in Michigan.

(e) Shall register for work an interstate claimant in accordance with Michigan registration requirements and shall report such registration to the liable state.

(f) Shall, in connection with each claim filed by an interstate claimant, ascertain and report to the liable state in question such facts related to the claimant's availability for work and eligibility for benefits as are readily determinable in and by the state of Michigan.

(g) Shall limit its responsibility and authority in connection with the determination of interstate claims, to investigation and reporting of relevant facts.

(h) Shall afford all reasonable cooperation in the filing of appeals, taking of evidence and the holding of hearings in connection with appealed interstate claims.

(7) Michigan as liable state:

(a) Shall accept interstate claims when filed on uniform interstate claim forms and in accordance with uniform procedures adopted pursuant to the interstate benefit payment plan.

(b) Shall accept interstate claims as meeting Michigan's reporting requirements when filed in accordance with the reporting requirements of an agent state.

(c) Shall accept interstate claims when filed in conformity with the requirements of subrules (3), (4), and (5) of this rule.

(d) Shall deem the registration for work of any interstate claimant as meeting Michigan registration requirements when such registration has been made through a public employment office in an agent state when and as required by the law, regulations, and the procedures of the agent state.

(e) Shall accept interstate claims filed in accordance with the type of week in use in the agent state, and make required adjustments to fit such claims to the type of week used in Michigan on the basis of consecutive claims filed.

(f) Shall determine whether an interstate claimant filing against Michigan is eligible and qualified under the provisions of the Michigan act.

(g) Shall accept an appeal of an interstate claimant, provided, that with respect to the time limits imposed by the Michigan act upon the filing of an appeal in connection with a disputed claim, an appeal made by an interstate claimant shall be deemed to have been made and communicated to Michigan on the date when it is received by a qualified officer of an agent state, and provided further, that when an appeal is filed by means of a written communication from a claimant directly to Michigan the date of such communication is received at any office of the commission shall be deemed to be the filing date.

(8) All of the provisions of this rule shall apply to the taking of claims in and for Canada in accordance with the provisions of the agreement, as amended, between Canada and the United States of America, respecting unemployment insurance.

History: 1944 AC, p. 1454; 1944 ACS 12, p. 45; 1944 ACS 27, p. 17; 1954 AC, p. 4816; 1954 ACS 13, p. 89, Eff. Feb. 14, 1958; 1954 ACS 44, p. 46, Eff. Nov. 14, 1965.

R 421.251 Labor dispute.

Rule 251. (1) Whenever an employer believes that the unemployment of any of his workers in Michigan is due to a labor dispute in any establishment operated by such employer within the United States, or to shutdown operations caused by such labor dispute, he shall file within 48 hours from the time the unemployment begins, a written statement with the Michigan Employment Security Commission at 7310 Woodward Avenue, Detroit, Michigan 48202, setting forth:

(a) That there is unemployment in Michigan due to a labor dispute or to shutdown operations caused by such labor dispute.

(b) The location of the plant(s) and division(s) operated by the employing unit within the United States in which the labor dispute or shutdown operations occurred which caused such unemployment.

(c) The location of any other plant(s) and division(s) operated by the employing unit in the state of Michigan in which there is no labor dispute but in which there is unemployment due to the labor dispute or to shutdown operations cause by such labor dispute.

(d) A statement of the principal issues involved.

If any of the above information is not available for inclusion in the written statement required within 48 hours, a supplemental statement incorporating such information shall be filed as soon as the information is available.

(2) In order to disqualify an individual for benefits because of being directly interested and consequently being directly involved in a labor dispute, the commission must find that the resolution of such labor dispute may reasonably be expected to affect the individual's wages, hours or other conditions of employment. In the absence of substantial and preponderating evidence to the contrary, a reasonable expectation of an effect shall be deemed to exist if any 1 of the following 3 circumstances is found to be applicable:

(a) If it is established that there is in the particular establishment or employing unit a practice or custom or contractual obligation to extend within a reasonable period to members of the individual's grade or class of workers in the establishment in which the individual is or was last employed changes in terms and conditions of employment which are substantially similar or related to some or all of the changes in terms and conditions of employment which are made for the workers among whom there exists the labor dispute which has caused the individual's total or partial unemployment; or

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(b) If it is established that 1 of the issues in or purposes of such labor dispute is to obtain a change in the terms and conditions of employment for members of the individual's grade or class of workers in the establishment in which the individual is or was last employed; or

(c) If such labor dispute exists at a time when the collective bargaining agreement (which covers the individual's grade or class of workers in the establishment in which the individual is or was last employed and the workers in another establishment of the same employing unit who are actively participating in such labor dispute) has expired, has been opened by mutual consent or may by its terms be modified, supplemented or replaced.

Notwithstanding the applicability of 1 of the above subdivisions, an individual shall not be deemed to be directly interested in a labor dispute, if there is substantial and preponderating evidence which indicates that there is no reasonable expectation that the individual's wages, hours or other conditions of employment may be affected by the resolution of the current labor dispute.

(3) For the purpose of determining the practice or custom of an establishment or employing unit, as this phrase is used in subrule (2)(a) above, the collective bargaining history of the employing unit shall be examined for the period of existence of the employing unit but for not more than 5 years preceding the inception of the current labor dispute. A practice or custom shall be deemed to exist if, and only if, the employing unit has always, during the period examined, extended changes in terms and conditions of employment to members of the individual's grade or class of workers which were substantially similar or related to some or all of the changes in terms and conditions of employment which were made for the workers among whom the current labor dispute exists or existed.

(4) The phrase "extend within a reasonable period," as used in subrule (2)(a) above, shall mean that the establishment or employing unit has, by past practice, custom, or contract, actually effectuated substantially similar or related changes for members of the individual's grade or class of workers within 90 days after changes were made for the workers among whom there exists or existed the labor dispute which caused the unemployment in question.

(5) The requirement in subrule (2)(a) that the changes in terms and conditions must have been substantially similar or related does not mean that the changes extended each time during the period examined to members of the individual's grade or class of workers must have been identical.

(6) The term "establishment" as applied to an employing unit engaged in construction activities at different locations shall be construed for the purpose of adjudicating building trade labor disputes, as follows: Each separate project of such employing unit, whether a general contractor or subcontractor, shall be considered a separate establishment within the meaning of this term as used in subsection 29(8) of the act if the project is a separate activity insofar as the employees are concerned for the purpose of employment. In determining which construction activities of an employing unit shall constitute a separate project and consequently a separate establishment, the following factors, among others, are to be considered:

(a) Whether the employees for each project were hired for that job and are to be terminated upon its completion;

(b) Whether the employees of an employing unit operating different projects worked primarily on 1 project rather than interchangeably on other projects;

(c) Whether separate building schedules were followed;

(d) Whether construction accounting procedures were such that contracts were bid on for each project on the basis of separate cost accounting, separate tax computations, separate payrolls, etc.

(7) Each employing unit engaged on a project, such as general contractor or subcontractor, is considered to be a separate establishment.

(8) For the purpose of determining whether the payment of union dues shall be deemed financing under subsection 29(8)(a) II of the act, the following provisions shall be applicable:

(a) The payment of regular union dues in amounts and for purposes established prior to any unemployment due to a labor dispute shall not be construed as financing even if such dues are used for a strike fund or other financing of the labor dispute.

(b) The payment of regular union dues which are established or increased after there is unemployment due to such labor dispute and which are used for the purpose of financing the current labor dispute shall be construed as financing the labor dispute.

(c) The payment of a special assessment into a fund established at any time and used for the purpose of financing the current labor dispute shall be construed as financing a labor dispute.

(d) The term "special assessment," for the purpose of this rule, means a payment made by a union member to his union to establish a fund for a specific purpose other than the payment of the ordinary administrative expenses of the union.

(e) The term "regular union dues," for the purpose of this rule and subsection 29(8)(a) II of the act, means any payment (other than a special assessment) made by a union member on a continuing basis to his union.

History: 1944 AC, p. 1456; 1944 ACS 12, p. 47; 1954 AC, p. 4819; 1954 ACS 13, p. 91, Eff. Feb. 14, 1958; 1954 ACS 44, p. 47, Eff. Nov. 14, 1965.

R 421.254 Value of lost remuneration.

Rule 254. If the value of lost remuneration is unknown, it shall be computed in the following manner:

(a) The total earnings of the worker with the employer (or employing unit) during the calendar week covered by the claim, exclusive of earnings for overtime work, shall be divided by the total number of hours, exclusive of overtime hours, worked during the calendar week. The value of the lost remuneration shall be the result obtained by multiplying the hourly rate so arrived at by the number of hours lost during such calendar week for any reason other than the failure of the employer to furnish full-time employment.

(b) In the absence of any circumstances to the contrary, a work week of 40 hours shall be deemed to be a normal week for the purposes of this rule.

History: 1944 AC, p. 1457; 1944 ACS 12, p. 47; 1954 AC, p. 4819; 1954 ACS 13, p. 91, Eff. Feb. 14, 1958.

R 421.262 Rescinded.

History: 1944 ACS 12, p. 47; 1954 AC, p. 4819; rescinded 1954 ACS 13, p. 91, Eff. Feb. 14, 1958.

R 421.265 Rescinded.

History: 1944 ACS 12, p. 48; 1944 ACS 26, p. 21; 1944 ACS 29, p. 13; 1954 AC, p. 4819; rescinded 1954 ACS 13, p. 91, Eff. Feb. 14, 1958.

R 421.270 Request for redetermination.

Rule 270. (1) A request for a redetermination shall be made in writing by an interested party.

(2) Payment of benefits for any week of possible ineligibility or disqualification or any week of benefit entitlement subject to possible reduction under section 29(4) of the act or forfeiture under section 62(b) of the act shall be withheld (a)

during the 15 days allowed for filing of a request for redetermination when the employer has submitted information regarding possible ineligibility, disqualification or forfeiture, or (b) as of the date a request for redetermination has been received by the commission or the commission has initiated investigation as to possible ineligibility, disqualification or forfeiture.

(3) Payment of benefits withheld, if finally allowed, may be made only after the decision allowing such benefits has become final.

(4) In determining whether good cause exists for the commission to reconsider any prior determination or redetermination, under section 32a of the act, after the 15-day protest period has expired, good cause shall include any of the following situations:

(a) When an interested party has newly discovered material facts which through no fault of his own were not available to him at the time of the determination, but a request for reconsideration of a determination or redetermination made after expiration of the statutory 15-day period, solely for the purpose of evading or avoiding such statutory period, is not deemed to be made for good cause.

(b) When the commission has additional or corrected information.

(c) When an administrative clerical error has been discovered in connection with a determination or redetermination.

R 421.301 Worker must procure social security account number.

Rule 301. (1) Each worker engaged in employment covered by the Michigan employment security act, as amended, including service covered by election of an employing unit, shall procure a federal social security account number, irrespective of whether such worker pays the tax imposed by the federal insurance contributions act (formerly title VIII of the social security act) and shall furnish his number to every employing unit for which he performs covered employment.

(2) Such worker who does not have a federal social security account number shall file an application therefor not later than 30 days after the effective date of this rule or after the first day on which he is engaged in covered employment for an employing unit, whichever occurs later. It shall be the duty of employing units to procure the appropriate forms for applications for social security account numbers and to furnish such application forms to each worker engaged in covered employment in their employ who does not have a federal social security account number.

PART 1. GENERAL PROVISIONS

R 421.1101 Definitions.

Rule 101. As used in these rules:

(a) "Act" means Act No. 1 of the Public Acts of the Extra Session of 1936, as amended, being §421.1 et seq. of the Michigan Compiled Laws.

(b) "Agent office" means an unemployment insurance office outside the state of Michigan serving as agent of the commission.

(c) "Board of review" means the Michigan employment security board of review.

(d) "Commission" means the Michigan employment security commission.

(e) Unless the context otherwise requires, the word "party" means the commission, the employing unit, and the claimant, and includes an agent or attorney of any such person.

History: 1954 ACS 101, p. 150, Eff. Nov. 14, 1979.

R 421.1102 Tense, gender, and number.

Rule 102. For the purposes of these rules, the present tense includes the past and future tenses, and the future, the present; each gender includes the other 2 genders; and the singular includes the plural and the plural, the singular.

History: 1954 ACS 101, p. 150, Eff. Nov. 14, 1979.

R 421.1103 Principal office of commission and board; location.

Rule 103. The principal office of both the Michigan employment security commission and of the Michigan employment security board of review is 7310 Woodward Avenue, Detroit, Michigan 48202.

History: 1954 ACS 101, p. 150, Eff. Nov. 14, 1979.

R 421.1104 Service of decisions, notices and orders; "principal office" defined.

Rule 104. (1) A decision, notice, or order shall be served on each party and on the agent or attorney of record of each party either (a) by personal service; or (b) by depositing copies in a United States mail receptacle, enclosed in an envelope, properly sealed, addressed and posted to such person at his address appearing on the record of the appeal proceedings; or (c) by certified or registered mail. An affidavit or certification of the person making such service shall be prima facie proof of service, rebuttable by a preponderance of the credible evidence.

(2) In addition, where the claimant's collective bargaining representative is not his agent of record or the claimant's employer is not a party, each notice of a referee hearing and, if a written request for the specific decision is received by the commission before its date of mailing, each referee decision shall be served by any of the methods in subrule (1) of this rule on the principal office of the claimant's collective bargaining representative, if any, or of the employer, where the claim involves any of the following:

(a) Whether a claimant is disqualified under sections 29(1)(g), 29(8), or 29(9) of the act.

(b) Whether money paid a claimant is vacation or holiday pay within the meaning of a collective bargaining agreement, under section 48 of the act.

(c) Whether a claimant is on a leave of absence within the meaning of a collective bargaining agreement, under section 48 of the act.

(d) The impact of a collective bargaining agreement on the issue of suitable work under sections 28 or 29 of the act, including, but not limited to, the claimant's

prior training, prior earnings, experience, and possible loss of recall or seniority rights.

(e) A claim for federal unemployment benefits where the employer is not a party.

(3) For purposes of subrule (2) notice, "principal office" means a collective bargaining representative address filed with the commission by the representative or the claimant or an employer address filed with the commission by the employer.

History: 1954 ACS 101, p. 150, Eff. Nov. 14, 1979.

R 421.1105 Computation of time periods.

Rule 105. (1) The calendar day on which any decision, notice, or order is mailed shall be excluded in the computation of time.

(2) The calendar day on which compliance is required shall be included in the computation of time.

(3) If the last day for compliance is a Saturday, Sunday or legal holiday, the time for compliance will extend to the end of the next day which is not a Saturday, Sunday, or legal holiday.

History: 1954 ACS 101, p. 151, Eff. Nov. 14, 1979.

R 421.1106 Withdrawal or discontinuance of appeal.

Rule 106. A party who has filed an appeal may withdraw or discontinue the appeal by filing a written request and obtaining approval of the referee or the board of review before whom the appeal is pending.

History: 1954 ACS 101, p. 151, Eff. Nov. 14, 1979.

R 421.1107 Adjournments; taking testimony of witness unable to appear and testify at scheduled hearing; deposition.

Rule 107. (1) Adjournments of hearings may be granted by the referee or the board of review before whom the appeal is pending. Adjourned hearings shall be rescheduled to a time and place that the referee or board of review deems most convenient for all interested parties.

(2) The referee or the board of review may schedule an adjourned hearing at a place convenient to the residence of a witness to take his testimony, if he is unable to appear and testify at a regularly scheduled hearing.

(3) The testimony may be taken by any referee of this state or of any agent state, or may be taken by deposition pursuant to the provisions of law applicable to depositions in civil actions pending in the circuit courts of this state.

History: 1954 ACS 101, p. 151, Eff. Nov. 14, 1979.

R 421.1108 Witness fee vouchers; processing.

Rule 108. At the conclusion of a testimonial hearing by the referee or the board of review, witness fee vouchers shall be processed by the commission for payment for those witnesses who (a) were duly subpoenaed, (b) appeared in person at the hearing, and (c) verified their mileage and proper mailing addresses.

History: 1954 ACS 101, p. 151, Eff. Nov. 14, 1979.

R 421.1109 "Good cause" defined.

Rule 109. As used in these rules, "good cause" includes, but is not limited to, (a) newly discovered material evidence, or (b) a legitimate inability to act sooner, or (c) a failure to receive a reasonable and timely notice, order, or decision, or (d)

untimely delivery of a protest or appeal by a business or governmental agency entrusted with delivery of mail, or (e) having been misled by incorrect information from the commission, referee, or board of review.

History: 1954 ACS 101, p. 151, Eff. Nov. 14, 1979.

R 421.1110 Employer or claimant fraud; hearing procedure.

Rule 110. (1) A hearing of employer or claimant fraud under section 62(b), (c), or (d) of the act shall be preceded by a written notice of the penalties and the issues involved.

(2) Where one party has documentary evidence or witnesses concerning a party's alleged fraud, he shall make available his witness list and the documentary evidence to the party not less than 5 business days before the fraud hearing.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1111 Decisions of referees, board, and courts; subject matter index; copies.

Rule 111. Copies of all referee decisions, board of review decisions, and Michigan court decisions involving the act where the commission is a party, shall be kept on file by the commission at 7310 Woodward Avenue, Detroit, Michigan 48202. To the extent practicable, the commission shall also maintain an up-to-date subject matter index of all referee, board of review, and court decisions. The subject matter index and copies of the decisions shall be available to the public for reference purposes.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1112 Rescission.

Rule 112. R 421.501 to R 421.561 of the Michigan Administrative Code, appearing on pages 4356 to 4361 of the 1967 Annual Supplement to the Code, are rescinded.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

PART 2. APPEALS TO REFEREES

R 421.1201 Appeal; form.

Rule 201. (1) An appeal to a referee shall be in writing and shall be signed by the appealing party or his agent.

(2) Appeal forms for referee hearings and rehearings shall be available at all commission offices.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1202 Appeal: deadline; statements on redetermination; procedure on appeal of denial of redetermination.

Rule 202. (1) An appeal to a referee shall be received by the principal office or any branch office of the commission, or by any agent office of the commission outside the state of Michigan, within 20 days after the date of mailing or personal service of the commission's redetermination.

(2) A party who receives a denial of redetermination because his request for review was not filed with the commission within 20 days after the date of mailing or personal service of the underlying determination or redetermination may appeal the denial of redetermination to a referee. The referee shall take evidence on whether there was good cause for issuing a redetermination and on the issue or issues specifically covered by the underlying determination or redetermination.

The issue or issues shall be set forth in the notice of hearing together with the issue of timeliness. If the referee decides there was good cause, he shall proceed to decide the issue or issues specifically covered by the underlying determination or redetermination.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1203 Notice of hearing.

Rule 203. (1) Notice of the time and place of any hearing before a referee, and a short and plain statement of the issues involved, shall be mailed to, or personally served upon, each party by mail or personal service not less than 10 calendar days before the date of the hearing.

(2) The notice shall be deemed mailed on its date of mailing.

(3) When a referee adjourns a hearing for which notice has been given, notice to the parties of the new hearing date may be given orally if the new hearing date is within 10 calendar days of the old hearing date. Otherwise, the new notice shall be mailed.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1204 Subpoenas.

Rule 204. (1) A party may request subpoenas to compel witnesses to testify at a referee hearing or to compel persons to produce books, records, and papers at a referee hearing.

(2) Requests for subpoenas shall be made to a branch office or the referee division of the commission.

(3) The subpoenas shall be issued promptly, unless the commission decides that the request is unreasonable.

(4) A party denied a subpoena may apply to the board of review for issuance of the subpoena, and the proceedings before the referee shall be stayed until the board decides whether the subpoena should be issued.

History: 1954 ACS 101, p. 152, Eff. Nov. 14, 1979.

R 421.1205 Consolidation of proceedings.

Rule 205. Any number of proceedings before 1 or more referees may be consolidated for hearing when the facts and circumstances are similar and no substantial right of any party will be prejudiced thereby. All cases shall be consolidated for hearing in which the alleged facts and the points of law are the same.

History: 1954 ACS 101, p. 153, Eff. Nov. 14, 1979.

R 421.1206 Readiness of parties after notice of hearing; adjournment; issues before referee.

Rule 206. (1) A party appearing at a hearing before a referee after notice shall have his evidence and witnesses present and be ready to proceed on the statement of the issues contained in the notice of hearing.

(2) If the notice of hearing does not place the parties on notice of an issue which is raised at the referee hearing, the hearing shall be adjourned for a reasonable time if requested by either party. Evidence shall not be taken on the issue, nor a decision issued thereon, unless a knowing and informed waiver of adjournment is obtained from the parties. The purpose of the adjournment is to give the parties the opportunity to prepare to meet the issue.

(3) If an issue is not specifically covered by the determination transferred or the redetermination appealed to the referee, it shall not be contained in the notice

of hearing or raised at the referee hearing. Nor shall an issue be contained in the notice of hearing or raised at the referee hearing for a period of time beyond the time specifically covered by it in the determination transferred or the redetermination appealed to the referee.

History: 1954 ACS 101, p. 153, Eff. Nov. 14, 1979.

R 421.1207 Conduct of hearing.

Rule 207. (1) The referee shall conduct and control the hearing to develop the rights of the parties.

(2) At the beginning of the hearing, the referee shall identify all parties, representatives, and witnesses present and shall outline briefly the issues involved.

(3) Oral evidence at a hearing before a referee shall be taken only on oath or affirmation.

(4) Each party shall have the following rights:

(a) To call and examine witnesses.

(b) To introduce exhibits.

(c) To cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination.

(d) To impeach any witness regardless of which party first called him to testify.

(e) To rebut the evidence against him.

(5) A party may be called and examined as if under cross-examination.

(6) Oral arguments may be presented at the conclusion of the hearing.

(7) The referee may allow a reasonable time after conclusion of the hearing for the filing of written argument.

(8) The referee shall secure such competent, relevant, and material evidence that he deems necessary to arrive at a fair decision. To that end, the referee may adjourn the hearing from time to time to direct the parties to bring the required evidence. The referee may cause subpoenas to be issued for that purpose. The referee may examine any party or witness.

(9) When an interested party is not represented by legal counsel or an authorized agent, the referee before whom the hearing is taking place shall advise the party of his rights, aid him in examining and cross-examining witnesses, and give every assistance to the party compatible with an impartial discharge of his official duties.

History: 1954 ACS 101, p. 153, Eff. Nov. 14, 1979.

R 421.1208 Divided hearing.

Rule 208. When it is difficult or impossible for all parties and their witnesses to appear at the same place of hearing, a referee in his discretion may order that the testimony of any such parties and witnesses be taken at places of hearing convenient to the parties and witnesses.

History: 1954 ACS 101, p. 153, Eff. Nov. 14, 1979.

R 421.1209 Further hearing prior to decision.

Rule 209. (1) At any time between the hearing before a referee and issuance of his decision, the referee on his own motion, or at the request of any party to the proceeding, may direct a further hearing.

(2) A further hearing is within the discretion of the referee.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

R 421.1210 Decision of referee.

Rule 210. (1) Within 60 days after concluding a final hearing, the referee shall issue a written decision which shall be signed by him and dated. The decision shall

set forth the findings of fact upon which the decision is based, the reasons for the decision, and the decision. The findings of fact, the reasons, and the decision shall be separately stated; but a failure to so separately state shall not vitiate the decision.

(2) The decision shall contain a notice of rights of appeal, pursuant to R 421.1213 of this part.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

R 421.1211 Rehearing of referee's decision.

Rule 211. (1) A request for a rehearing of a referee's prior decision shall be received by the referee or by an office, or agent office, of the commission within 20 days after the date of mailing of the decision.

(2) Reasons for requesting a rehearing include, but are not limited to, a dismissal for lack of prosecution or the discovery of material evidence after the date of the referee hearing.

(3) A rehearing may also be granted on the referee's own motion.

(4) Granting a rehearing is within the discretion of the referee.

(5) If a timely request for rehearing is denied, both the denial and the referee's prior decision may be appealed to the board of review.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

R 421.1212 Reopening and review of referee's decision.

Rule 212. (1) A request for a reopening and review of a referee's prior decision shall be received by the referee or by an office, or agent office, of the commission within 1 year, but more than 20 days, after the date of mailing of the decision.

(2) There shall be a showing of good cause for reopening.

(3) A reopening and review may also be granted on the referee's own motion if the review is initiated by the referee, with notice to the interested parties, within 1 year after the date of mailing of the prior decision.

(4) Granting a reopening is within the discretion of the referee.

(5) If a request for reopening is denied, the board of review will not review the referee's prior decision unless it first decides that the referee abused his discretion in not granting a reopening.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

R 421.1213 Notice of rights of appeal.

Rule 213. (1) Each referee decision or final order shall notify the parties of all of the following:

(a) A party has the right to have a decision or a denial of a motion for rehearing reviewed by the board of review by making a timely appeal.

(b) A party may make a timely request to the board of review for an oral argument or to present additional evidence in connection with his appeal.

(c) Absent a hearing before it, the board of review may consider a party's written argument to the board of review only if all parties are represented or by agreement of the parties.

(d) A referee decision or final order may be appealed directly to a circuit court if all parties sign a written stipulation and timely file it.

(e) A party may make a timely request to a referee to rehear a prior decision.

(f) A party may make a timely request to a referee, for good cause only, to reopen and review a prior decision.

(2) Each referee decision or final order shall state the deadline and places of receipt of the above alternatives. It shall also state in boldface type: "TO PROTECT YOUR RIGHTS, YOU MUST BE ON TIME."

(3) The form of each notice shall be as authorized by the board of review.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

R 421.1214 Stipulations.

Rule 214. (1) The parties to a referee decision or order may sign a written agreement to appeal the referee decision or order directly to a circuit court rather than to the board of review. The commission is a party.

(a) Where a party is unrepresented, the agreement shall recite that the parties are thereby waiving the right to have their case appealed to and reviewed by the board of review.

(b) The stipulation shall be received by the referee within 20 days after mailing or personal service of the referee's decision or order.

(c) Seeking, obtaining, or filing a stipulation does not extend any time period. However, when all parties have signed the stipulation, it shall be deemed an appeal to the board of review until such time as the appeal to the court is perfected.

(2) The parties to an appeal before a referee may stipulate the facts in issue.

(3) Stipulations shall not be in any sense in derogation of the act and shall not involve an interpretation of the act.

History: 1954 ACS 101, p. 154, Eff. Nov. 14, 1979.

PART 3. APPEALS TO BOARD OF REVIEW

R 421.1301 Appeal; form.

Rule 301. (1) An appeal to the board of review shall be in writing and shall be signed by the party appealing or his agent.

(2) Forms for appeals to the board of review and for rehearing by the board of review shall be available at all commission offices.

History: 1954 ACS 101, p. 155, Eff. Nov. 14, 1979.

R 421.1302 Appeal; deadline; statements on referee's decision or order; procedure where appeal is late.

Rule 302. (1) An appeal to the board of review shall be received by the board of review, the principal office or any branch office of the commission, or by any agent office of the commission outside the state of Michigan, within 20 days after the date of mailing of the referee's (a) decision or (b) order denying rehearing or reopening.

(2) The referee's decision or order shall state the deadline and places for receipt of the appeal. It shall also state in boldface type: "TO PROTECT YOUR RIGHTS, YOU MUST BE ON TIME."

(3) A party who wishes to appeal a referee decision to the board of review, but whose appeal is not received by the board of review within the 20-day appeal period, may request a reopening and review of the referee decision. If the referee decides to reopen and reissue the decision, for good cause shown, the reissued decision may then be appealed to the board of review within the 20-day appeal period.

History: 1954 ACS 101, p. 155, Eff. Nov. 14, 1979.

R 421.1303 Board; decision based on record; notice.

Rule 303. (1) The board of review often decides cases on the record made by the referee, without (a) oral argument before it, (b) additional evidence, or (c) consideration of written argument, unless all parties are represented or agree to written argument.

(2) The record made by the referee is the transcript of the referee hearing, the exhibits marked and received at the referee hearing, and written argument submitted to the referee if the other parties present at the hearing have been served a copy of the argument and have been given an adequate opportunity to respond to it.

(3) Notice of the parties' rights to request oral argument, to submit additional evidence, and to file written argument shall accompany the mailing of the referee hearing transcript to each party.

History: 1954 ACS 101, p. 155, Eff. Nov. 14, 1979.

R 421.1304 Oral argument; application; reasons.

Rule 304. (1) Oral argument to the board of review shall be by permission only.

(2) If a party wishes to apply for permission to make an oral argument to the board of review, he shall make a request in writing setting forth his reasons therefor.

(3) Reasons for requesting oral argument include, but are not limited to, the following:

(a) The appeal involves an issue on which the law is unsettled or unclear.

(b) The appeal involves an issue of major precedential value.

(c) The record made by the referee is so lengthy that oral argument will be of special assistance to the board in reviewing the record.

(d) Unusual complexities affecting the referee's decision were present at any stage of the proceedings.

(e) The referee's decision departed from established legal precedent.

(4) To be timely, the application shall be received by the board of review no later than 20 days after the mailing date of the referee hearing transcript, unless a reason constituting good cause is given.

(5) To be granted, the application shall be approved by 2 members of the board of review panel assigned to review the appeal.

(6) A denial of a request for oral argument shall be mailed to the parties at least 20 days prior to the issuance of the board's decision or order.

History: 1954 ACS 101, p. 155, Eff. Nov. 14, 1979.

R 421.1305 Presentation of additional evidence; application.

Rule 305. (1) Presentation of additional evidence to the board of review shall be by permission of the board of review only.

(2) If a party wishes to apply to the board of review for permission to present additional evidence, he shall make an application in writing setting forth his reasons therefor.

(3) To be timely, the application shall be received by the board of review no later than 20 days after the mailing date of the referee hearing transcript, unless a reason constituting good cause is given.

(4) To be granted, the application shall be approved by 2 members of the board of review panel assigned to review the appeal.

(5) A denial of a request to present additional evidence shall be mailed to the parties at least 20 days prior to the issuance of the board's decision or order.

History: 1954 ACS 101, p. 156, Eff. Nov. 14, 1979.

R 421.1306 Additional evidence order.

Rule 306. (1) When the board of review orders additional evidence, it may:

(a) Conduct a hearing pursuant to the act for the purpose of taking and receiving such evidence as it deems necessary.

(b) Remand the matter to a referee for the purpose of taking and receiving such evidence and for the purpose of submitting the evidence so received to the board of review for decision.

(c) Set aside the referee's decision and remand the matter to the referee for the purpose of receiving such additional evidence and for the purpose of issuing a new decision based upon the entire record.

(2) Absent an evidentiary hearing, a copy of documentary evidence directed by the board of review to be introduced shall be mailed by the board to each party to the proceeding, and a reasonable opportunity shall be afforded on request of any party to refute such evidence.

History: 1954 ACS 101, p. 156, Eff. Nov. 14, 1979.

R 421.1307 Written argument; reply; deadlines; consideration; agreement; application for oral argument or additional evidence not deemed written argument.

Rule 307. (1) A party's written argument, if any, together with a statement of service of a copy on each other party, shall be received by the board of review no later than 20 days after the mailing date of (a) the referee hearing transcript or (b) a denial of a request for oral argument or additional evidence. However, if a hearing is directed, written argument may be presented at any time at or before the hearing.

(2) A reply, if any, to another party's timely written argument, together with a statement of service of a copy on each other party, shall be received by the board of review no later than 20 days after the mailing date of the other party's written argument.

(3) Extensions of time for the filing of written argument may be permitted by the board if warranted by the circumstances.

(4) The board of review may consider a party's written argument only if (a) all parties are represented by an attorney or other agent of record, or (b) all parties agree that the board may consider written argument, or (c) the board orders oral argument before it, or (d) the board orders evidence produced before it.

(5) As to subrule (4)(b) above, the agreement shall be signed by each party and received by the board of review no later than 20 days after the mailing date of the referee hearing transcript or denial of hearing by the board.

(6) A party's application to the board of review for either oral argument or additional evidence shall not be deemed a written argument within the meaning of this rule.

History: 1954 ACS 101, p. 156, Eff. Nov. 14, 1979.

R 421.1308 Record of proceedings; transmittal to board following notification of appeal; copies of referee hearing transcripts.

Rule 308. The record of proceedings before a referee, including the referee hearing transcript together with supporting exhibits, shall be promptly transmitted to the board of review following notification of an appeal to the board. Copies of referee hearing transcripts shall be mailed to the parties or to their attorneys or agents of record without cost to them.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1309 Removal or transfer of proceeding pending before referee.

Rule 309. (1) A party to a proceeding pending before a referee may apply to the board of review for (a) removal to the board of review of the proceeding or (b) the transfer to another referee of the proceeding.

(2) The board of review shall notify the referee that such application is pending.

(3) Upon notification, the referee shall suspend at once any further proceedings before him with respect to the application.

(4) The board of review on the application, or on its own motion, may remove the proceeding to itself or transfer it to another referee.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1310 Subpoenas.

Rule 310. If the board of review orders additional evidence to be taken before it, a party may ask the board for subpoenas to compel witnesses to testify before the board of review or to compel persons to produce books, records, and papers.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1311 Proceedings before board panels.

Rule 311. (1) A matter to be heard by the board of review shall be assigned to a panel of the board for disposition.

(2) Two members on a panel constitute a quorum.

(3) A decision reached by 2 members of the panel shall be the final decision of the board of review, except where the entire board participates as provided in R 408.1312.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1312 Board; composition; communications; full review.

Rule 312. (1) The board of review shall be composed of representatives from 3 different representational sectors. Two members shall be representative of employee interests in the state. Two members shall be representative of employer interests in the state. One member shall be a representative of the general public and shall serve as chairperson.

(2) The members of the board may communicate with employers, employees, and their agents and with representatives of the public interest about issues of unemployment insurance and matters affecting the administration of the act. However, board of review members shall not discuss the merits of a case pending before them with a party to it or his duly authorized attorney or agent.

(3) The entire board of review shall conduct a full review of any (a) appeal not yet decided and mailed if full board review is requested by 2 board members from different representational sectors or (b) panel decision if full board review is requested by 2 board members from different representational sectors within 5 working days after its mailing date.

(4) A person may request a board of review member to request a full review.

(5) A decision of the full board of review which is equally divided shall constitute an affirmance of the decision initially appealed to the board of review.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1313 Board; decision or order; copies; notice of rights of appeal.

Rule 313. (1) The board of review shall issue written decisions or orders which are signed and dated. The board of review may omit the giving of reasons in cases where a referee's decision is affirmed without alteration or modification.

(2) Decisions of the board of review shall contain a notice of rights of appeal, pursuant to R 408.1316 of this part.

History: 1954 ACS 101, p. 157, Eff. Nov. 14, 1979.

R 421.1314 Rehearing of board's decision.

Rule 314. (1) A request for a rehearing of the board of review's prior decision shall be received by the board of review or by an office of the commission within 20 days after the date of mailing of the decision.

(2) A rehearing may also be granted on the board's own motion.

(3) Granting a rehearing is within the discretion of the board of review.

History: 1954 ACS 101, p. 158, Eff. Nov. 14, 1979.

R 421.1315 Reopening and review of board's decision.

Rule 315. (1) A request for a reopening and review of the board of review's prior decision shall be received by the board of review or by an office of the commission within 1 year, but more than 20 days, after the date of mailing of the decision.

(2) There shall be a showing of good cause for reopening.

(3) A reopening and review may also be granted on the board of review's own motion if the review is initiated by the board, with notice to the interested parties, within 1 year after the date of mailing of the prior decision.

(4) Granting a reopening is within the discretion of the board of review.

History: 1954 ACS 101, p. 158, Eff. Nov. 14, 1979.

R 421.1316 Notice of rights of appeal.

Rule 316. (1) Each board of review decision or final order shall notify the parties of all of the following:

(a) A party has the right to make a timely appeal of a final order or decision of the board of review to a circuit court.

(b) A party may make a timely request to the board of review to rehear a prior decision.

(c) A party may make a timely request to the board of review, for good cause only, to reopen and review a prior decision.

(2) Each board of review decision or final order shall state the deadline and places of receipt of the above alternatives. It shall also state in boldface type: "TO PROTECT YOUR RIGHTS, YOU MUST BE ON TIME."

History: 1954 ACS 101, p. 158, Eff. Nov. 14, 1979.

R 421.1317 Stipulations.

Rule 317. (1) The parties to an appeal before the board of review may stipulate the facts in issue.

(2) Stipulations shall not be in any sense in derogation of the act and shall not involve an interpretation of the act.

FAIR EMPLOYMENT PRACTICES COMMISSION

PRACTICE AND PROCEDURE

(By authority of Act No. 251 of the Public Acts of 1955, being §423.301 et seq. of the Michigan Compiled Laws)

R 423.301 Definitions.

Rule 1. As used in these rules:

(a) "Person" includes 1 or more individuals, partnerships, associations, organizations, corporations, legal representatives, trustees, trustees in bankruptcy, receivers or other organized groups of persons.

(b) "Employer" includes the state or any political or civil subdivision thereof, any person employing 8 or more persons within the state and any person acting in the interest of any employer, directly or indirectly.

(c) "Employee" does not include any individual employed in the domestic service of any person.

(d) "Labor organization" includes any organization which exists for the purpose, in whole or in part, of collective bargaining or of dealing with employers concerning grievances, terms or conditions of employment, or for other mutual aid or protection in relation to employment.

(e) "Employment agency" includes any person undertaking with or without compensation to procure opportunities to work or to procure, recruit, refer or place employees.

(f) "Unfair employment practice" includes only those unfair employment practices specified in sections 3 and 4 and the failure to comply with the requirement of section 9 of the Michigan state fair employment practices act.

(g) "Discriminate" shall include segregate or separate.

(h) "Commission," unless a different meaning clearly appears from the context, means the state fair employment practices commission.

(i) "Commissioner" means 1 of the members of the state fair employment practices commission.

(j) "Chairman" means the duly elected chairman of the state fair employment practices commission, or, in the event of his absence, the acting chairman designated by the remaining members of the commission.

(k) "Director" means the executive director engaged by the commission.

(l) "Investigating commissioner" means the commissioner duly designated by the chairman or by the commission to make an investigation of a verified complaint filed with the commission.

(m) "Commission investigator" means an agent or employee of the commission designated or delegated by the chairman or the commission or the director, to make an investigation of a verified complaint filed with the commission.

(n) "Hearing commissioner" means a commissioner designated by the chairman or the commission to conduct a hearing.

(o) "Hearing examiner" means an agent or employee of the commission designated or delegated by the chairman or the commission, or the director, to conduct a hearing.

(p) "Commission's attorney" means the state attorney general, or such assistants of the attorney general as may be assigned to the commission, or such other attorney as may be engaged by the commission.

(q) "Party" or "parties" means the complainant and/or the respondent.

(r) "Act" means the Michigan state fair employment practices act.

History: 1954 ACS 11, p. 21, Eff. Aug. 14, 1957.

R 423.302 Complaint.

Rule 2. (1) Any individual claiming to be aggrieved by an alleged unfair employment practice, may, by himself, or his agent, make, sign, and file with the commission a complaint in writing, verified by the complainant. Assistance in drafting and filing complaints shall be available to complainants at all commission offices.

Any employer whose employees, or some of whom, refuse or threaten to refuse to cooperate with the provision of the act, may file with the commission a verified complaint asking for assistance by conciliation or other remedial action.

(2) The complaint shall be in writing, the original being signed and verified before a notary public or other person duly authorized by law to administer oaths and take acknowledgments. Notarial service shall be furnished without charge by the commission.

(3) A complaint shall contain the following:

(a) The full name and address of the person making the complaint (hereinafter referred to as the "complainant").

(b) The full name and address of the person, employer, employment agency, or labor organization against whom the complaint is made (hereafter referred to as the "respondent").

(c) The alleged unfair employment practice and a statement of the particulars thereof.

(d) The date or dates of the alleged unfair employment practice, and if the alleged unfair employment practice is of a continuing nature, the dates between which said continuing acts of discrimination are alleged to have occurred.

(e) A statement as to any other action, civil or criminal, instituted in any other form based upon the same grievance as is alleged in the complaint, together with a statement as to the status or disposition of such other action.

(4) A complaint shall be filed with the commission at any of its offices.

(5) The complaint must be filed within 90 days from the date of the occurrence of the alleged unfair employment practice. If the alleged unfair employment practice is of a continuing nature, the date of the occurrence of said unfair employment practice shall be deemed to be any date subsequent to the commencement of the unfair practice up to and including the date upon which the unfair practice shall have ceased.

(6) The complaint may be filed by personal delivery, ordinary mail, or registered or certified mail, addressed to any of the commission's offices.

(7) A copy of the complaint, as the same may have been amended, shall be served by the commission on the respondent together with the notice of hearing as provided in R 423.305. A copy of all amendments to the complaint effected subsequent to service of the notice of hearing shall be served by the commission on both the complainant and the respondent except such amendments to the complaint as are inscribed in the record during the course of a hearing.

(8) Complaint forms may be obtained at any of the offices of the commission.

(9) Any complaint may be amended by the commission or a member thereof, or its agents conducting the hearing at any time prior to the issuance of an order based thereon.

(10) A complaint, or any part thereof, may be withdrawn only on written consent of the director upon such conditions as shall be deemed proper under all the circumstances.

(11) If the investigating commissioner shall find, either on the face of the complaint, or after investigation, that no probable cause exists to credit such complaint, or that such complaint should be dismissed for other reasons, he shall make report of such finding together with his reasons therefor to the commission. Upon report of such finding, and commission concurrence, the commission shall dismiss the complaint and notify the parties by registered or certified mail, return receipt requested, of such determination, the reasons therefor, and of the complainant's right to apply to the commission for a reconsideration of such dismissal for said reason within 15 days from date of mailing, in accordance with R 423.304.

History: 1954 ACS 11, p. 22, Eff. Aug. 14, 1957; 1954 ACS 34, p. 14, Eff. May 15, 1963.

R 423.303 Investigation, conference, conciliation, and persuasion.

Rule 3. (1) After filing of a complaint the chairman shall designate 1 of the commissioners, with the assistance of the commission's staff, to make a prompt investigation of the allegations of the complaint.

(2) If the investigating commissioner finds that probable cause exists for crediting the allegations of the complaint, he or another commissioner or another member of the commission's staff designated by the chairman, shall immediately endeavor to eliminate the unfair employment practice complained of by conference, conciliation and persuasion.

(3) The members of the commission and its staff shall not disclose what has transpired in the course of such endeavors at conference, conciliation and persuasion.

(4) If the investigating commissioner or commission investigator shall succeed in his endeavors at conference, conciliation and persuasion, he shall mark the case accordingly and notify the parties by registered or certified mail, return receipt requested, of the terms of conciliation and of the complainant's right to apply to the commission for reconsideration of such terms of conciliation, within 15 days from date of mailing, in accordance with R 423.304.

History: 1954 ACS 11, p. 23, Eff. Aug. 14, 1957.

R 423.304 Reconsideration by the commission.

Rule 4. (1) Any party to a complaint may apply to the commission for a reconsideration of the dismissal of the complaint, or of the terms of conciliation, as the case may be. Such application must be in writing, state specifically the grounds upon which it is based, and be filed within 15 days from the date of mailing of the notice of disposition of which reconsideration is requested. It shall be filed in the office of the commission, personally or by mailing, where the complaint was previously filed.

(2) If such application for reconsideration is made for any reason other than a finding of lack of probable cause or a refusal to accept a complaint, the commission shall review the entire file, and may, in its discretion, hear the parties. The commission, in its discretion, shall grant or deny the application for reconsideration. If the commission grants the application for reconsideration, it shall remit the matter together with its recommendation to the investigating commissioner for further action.

(3) If such application for reconsideration is made from a finding of lack of probable cause or a refusal to accept a complaint, the commission shall grant a

hearing thereon at such time and place and before such hearing commissioner or commissioners or hearing examiner or examiners as shall be determined by the commission. Notice of such hearing shall be given to all parties to the proceeding. The parties may appear in person or by counsel, may present witnesses and testimony, and examine and cross-examine witnesses. A record of such proceedings shall be made and reported to the commission by the hearing commissioner or commissioners or hearing examiner or examiners and the commission shall thereupon make determination on such hearing and notify the parties of said determination by registered or certified mail, return receipt requested. If the commission grants the application, it shall remit the matter together with its recommendation to the investigating commissioner for further action pursuant to the fair employment practices act and the rules of the commission.

History: 1954 ACS 11, p. 23, Eff. Aug. 14, 1957; 1954 ACS 34, p. 14, Eff. May 15, 1963.

R 423.305 Notice of hearing.

Rule 5. (1) After a finding of probable cause to credit the allegations of the complaint and in case of failure to eliminate the alleged unfair employment practice by conference, conciliation and persuasion, or in advance thereof, if in his judgment circumstances so warrant, the investigating commissioner or the chairman, upon report of the commission investigator, shall cause to be issued and served in the name of the commission a written notice of hearing, together with a copy of the verified complaint, as the same may have been amended.

(2) The notice of hearing shall state the time and place of hearing, inform the respondent that he may file a written verified answer to the complaint, and that a failure to answer shall be deemed an admission of the allegations of the complaint. The notice of hearing and verified complaint, as the same may have been amended, shall be served by registered or certified mail, return receipt requested, or by personal service on all parties, at least 10 days before the date of the hearing. If an attorney has previously appeared on behalf of a party, a copy of the notice of hearing and complaint, as the same may have been amended, shall be furnished to said attorney.

History: 1954 ACS 11, p. 24, Eff. Aug. 14, 1957.

R 423.306 Answer.

Rule 6. (1) The party against whom a verified complaint, as the same may have been amended, is filed and on whom a notice of hearing and copy of such complaint, as amended, has been served may file a written verified answer within 10 days from the date of service of such complaint.

(2) The answer must be filed in duplicate at the office of the commission where the complaint originated. The filing shall be by personal delivery, or by registered or certified mail, return receipt requested.

(3) Upon application, the chairman may for good cause shown extend the time within which the answer may be filed.

(4) The answer shall be in writing, the original being signed and verified by the respondent. The answer shall contain the post office address of the respondent, and if he is represented by an attorney, the name and post office address of said attorney.

The answer shall contain a general or specific denial of each and every allegation of the complaint controverted by the respondent, or a denial of any knowledge or information sufficient to form a belief, and a statement of any matter constituting a defense.

Any allegation in the complaint which is not denied or admitted in the answer, unless the respondent shall state in the answer that he is without knowledge or information sufficient to form a belief, shall be deemed admitted.

(5) The respondent shall have the power reasonably and fairly to amend his answer. The respondent's power to amend his answer may be exercised at any time before the first hearing, as a matter of right, and thereafter, in the discretion of the hearing commissioner or commissioners, or hearing examiner or examiners, on application duly made therefor.

Duplicate copies of an amended answer must be filed with the commission.

(6) Upon application the hearing commissioner, or the chairman, upon recommendation or report of the hearing examiner, may for good cause shown open a default in answering.

(7) The commission shall, within 5 days after the date of filing an answer or amended answer, send a copy thereof by registered or certified mail, return receipt requested, to the complainant at his last known place of residence or to his attorney.

History: 1954 ACS 11, p. 24, Eff. Aug. 14, 1957.

R 423.307 Hearings.

Rule 7. (1) The complainant shall be present and a party to the proceeding. In the discretion of the hearing commissioner or commissioners, or the hearing examiner or examiners, any person may be allowed to intervene therein.

The respondent may appear at the hearing in person or by counsel, examine and cross-examine witnesses and the complainant, and, if he has filed an answer, may submit oral testimony and other evidence in support of said answer. In the discretion of the hearing commissioner or commissioners, or the hearing examiner or examiners, any other person may be allowed to intervene, in person or by counsel, for such purposes and to such extent as the hearing commissioner or commissioners, or the hearing examiner or examiners, shall determine.

(2) Hearings shall be conducted by 1 or more hearing commissioners, or 1 or more hearing examiners, or any combination of hearing commissioners and hearing examiners designated by the chairman. If more than 1 commissioner or examiner conduct a hearing, 1 of them shall be designated by the chairman as the presiding member.

(3) Hearings shall be held at a place designated by the chairman, having due regard to the convenience of the parties and witnesses.

(4) The case in support of the complaint shall be presented at the hearing by the commission's attorney or by some other member of the commission's staff, or, upon notice from complainant, by the complainant or his counsel. The commission shall follow such rules of evidence as are prescribed in §24.105 of the Michigan Compiled Laws.

Hearing commissioners or examiners shall have full authority to control the procedure of the hearing, to admit or exclude testimony or other evidence, and to rule upon all motions and objections.

Hearing commissioners or examiners may call and examine witnesses, direct the production of papers or other matter present in the hearing room, and introduce documentary or other evidence.

All oral testimony shall be given under oath or affirmation, and a record of the proceeding shall be made and kept.

Where hearings are conducted by 3 or more commissioners, and/or examiners, all rulings and determinations shall be made by majority rule.

Evidence of the commission's endeavors at conciliation shall not be admissible at the hearing.

(5) Written stipulations may be introduced in evidence, if signed by the person sought to be bound thereby, or by his attorney-at-law. Oral stipulations may be made on the record at open hearing.

(6) Hearing commissioners or examiners may continue a hearing from day to day, or adjourn it to a later date, or to a different place by announcement thereof at the hearing, or by appropriate notice to all parties.

(7) Motions made during a hearing and objections with respect to the conduct of a hearing, including objections to the introduction of evidence, shall be stated orally and shall be included in the stenographic report of the hearings.

(8) Hearing commissioners or examiners shall permit the parties or their attorneys, the commission's attorney, or the member of the commission's staff presenting the case in support of the complaint and interveners, to argue orally before them and to file briefs within such time limits as the hearing commissioners or examiners may determine.

(9) Hearing commissioners or examiners may exclude from the hearing room or from further participation in the proceeding, any person who engages in improper conduct before them, except a party, his attorney-at-law, or a witness engaged in testifying.

(10) Hearings shall be public.

History: 1954 ACS 11, p. 24, Eff. Aug. 14, 1957.

R 423.308 Written transcript of the record.

Rule 8. The written transcript of the record upon the hearing before the commission shall consist of the notice of hearing, the verified complaint, as the same may have been amended, the verified answer, as the same may have been amended, the stenographic transcript of the testimony taken at the hearing, the exhibits and depositions in evidence, written applications, orders, stipulations and the final order.

History: 1954 ACS 11, p. 26, Eff. Aug. 14, 1957.

R 423.309 Subpoenas and subpoenas duces tecum.

Rule 9. (1) Upon the refusal of witnesses to appear and/or testify, after having been so directed by the commission, or on the refusal of persons to submit their books and records after the commission's request therefor, the commission and persons under investigation or against whom a complaint has been filed shall have the right to apply to the circuit court for the state of Michigan in any county in which the alleged unfair employment practice, which is the subject of the commission's inquiry, was committed, or wherein any potential or actual respondent subject to investigation, resides or transacts business, for a subpoena or subpoena duces tecum. The commission may apply for the issuance of such subpoena and subpoena duces tecum at the instance of a party to the inquiry or proceedings upon a showing of necessity therefor.

(2) Where a subpoena duces tecum is applied for and issued at the instance of a party to the inquiry or proceeding, other than the commission or a member thereof, the cost of service and witness and mileage fees shall be borne by the party at whose instance it has been requested and issued. Where a subpoena or subpoena duces tecum is applied for and issued at the instance of the commission, or a member thereof, the cost of such service and witness and mileage fees shall be borne by the commission. Such witness and mileage fees shall be the same as are paid witnesses in the circuit courts of the state of Michigan.

History: 1954 ACS 11, p. 26, Eff. Aug. 14, 1957.

R 423.310 Depositions.

Rule 10. The commission or any member thereof, on its own motion or on the application of one of the parties, shall whenever necessary, and on such conditions as it or he may determine, take or cause to be taken depositions of witnesses residing within or without the state.

History: 1954 ACS 11, p. 26, Eff. Aug. 14, 1957.

R 423.311 Orders.

Rule 11. (1) An order of the commission issued after hearing shall set forth its findings of fact and, in its discretion, an opinion containing the reasons for its decision.

(2) If upon all the evidence of the hearing the commission shall find that a respondent has engaged in any unfair employment practice, the commission shall state its findings of fact and shall issue an order requiring such respondent to cease and desist from such unfair employment practice, and to take such affirmative action, including, but not limited to, hiring, reinstatement or upgrading of employees, with or without back pay, admission or restoration to membership in any respondent labor organization, as in the judgment of the commission may effectuate the purposes of the act, and including a requirement for report of the manner of compliance. If upon all the evidence the commission shall find that a respondent has not engaged in an unfair employment practice, the commission shall state its findings of fact and shall issue an order dismissing the complaint as to such respondent.

(3) Copies of orders shall be sent by registered or certified mail, return receipt requested, to the complainant, respondent, and all interveners, accompanied by a notice of the statutory right to judicial appeal. A copy of the order shall also be transmitted in all cases to the attorney general and such other public officers as the commission deems proper.

(4) All orders issued after a hearing shall be filed with the commission's director. Such orders shall be open to public inspection during regular office hours of the commission.

History: 1954 ACS 11, p. 26, Eff. Aug. 14, 1957.

R 423.312 Reopening of proceedings.

Rule 12. (1) After making a determination of the issue of probable cause to credit the allegations of the complaint, or after terms of conciliation have been effected, the commission on its own motion may, whenever justice so requires, reopen the proceeding upon notice to all parties and interveners, and take such action as it may deem necessary.

(2) After hearing and the issuance of a final order, the commission may, upon its own motion or upon application of any party or intervener, for good cause shown, or whenever justice so requires, or where an order or determination or decision was made upon default of a party affected thereby, reopen any closed proceeding upon notice to all parties and interveners.

History: 1954 ACS 11, p. 27, Eff. Aug. 14, 1957.

R 423.313 Appeal from an order of the commission.

Rule 13. (1) Any complainant, respondent or other person claiming to be aggrieved by a final order of the commission, including a refusal to proceed upon a complaint filed with the commission, may appeal to the circuit court of the state of Michigan within any county wherein the unfair employment practice was

allegedly committed, or wherein any respondent required in an order to cease and desist from any unfair employment practice, or to take other affirmative action, resides or transacts business.

(2) Upon receipt by the commission of a copy of the petition of the party or person initiating the appeal, the commission shall cause to be filed in the circuit court in which such appeal has been taken, a transcript of the record of the proceedings before the commission.

(3) The commission's copy of the testimony shall be available during the regular office hours of the commission to all parties for examination, without cost, and for the purpose of appeal to the circuit court from the order of the commission. The commission's copy of the testimony shall, in the discretion of the commission or the commission's director, also be available to interveners and other persons, for such purposes and to such extent as the commission or the commission's director may determine.

(4) A proceeding for the appeal from, or judicial review of, any order of the commission must be instituted within 30 days after the service by registered or certified mail, return receipt requested, of such order.

History: 1954 ACS 11, p. 27, Eff. Aug. 14, 1957.

R 423.314 Modification or setting aside of orders.

Rule 14. Until a transcript of the record in a case shall be filed in a court, as hereinbefore provided, the commission may at any time, upon reasonable notice and in such manner as it shall deem proper, modify or set aside in whole or in part any findings or order made by it.

History: 1954 ACS 11, p. 27, Eff. Aug. 14, 1957.

R 423.315 Delegation of powers and duties.

Rule 15. Except where contrary to any law prohibiting same, the commission may delegate any of the powers and duties of the members of the commission to the members of the staff of the commission.

History: 1954 ACS 11, p. 27, Eff. Aug. 14, 1957.

R 423.316 Amendment of rules.

Rule 16. New rules may be adopted and any rule may be amended or rescinded by the commission at a regular or special meeting, provided that at least 4 members (a quorum) are present and notice of the proposed adoption or rescission has been given to all members of the commission at least 3 days before the meeting at which action is to be taken.

History: 1954 ACS 11, p. 27, Eff. Aug. 14, 1957.

R 423.317 Availability of rules.

Rule 17. (1) The rules of the commission shall be available to the public at all offices of the commission.

(2) These rules shall be liberally construed to accomplish the purposes of the act and the policies of the commission.

History: 1954 ACS 11, p. 28, Eff. Aug. 14, 1957.

EMPLOYMENT RELATIONS COMMISSION

GENERAL RULES

(By authority conferred on the employment relations commission by sections 7, 9a, 9c, and 27 of Act No. 176 of the Public Acts of 1939, and sections 12 and 14 of

Act No. 336 of the Public Acts of 1947, being §§423.7, 423.9a, 423.9c, 423.27, 423.212, and 423.214 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 423.401 Definitions; A to C.

Rule 1. (1) "Administrative law judge" means a commission member, or an employee designated by the commission to perform hearing functions and duties under PERA and LMA in the commission's labor relations division.

(2) "Applicant" means a person or duly authorized agent thereof who files an application for fact finding under PERA and LMA.

(3) "Charge" means the document containing the information specified in R 423.452.

(4) "Charging party" means a person, or duly authorized agent thereof, who files a charge alleging an unfair labor practice under LMA or PERA.

(5) "Commission" means the employment relations commission as established in section 3 of LMA.

History: 1954 ACS 54, p. 47, Eff. May 15, 1968; 1954 ACS 86, p. 87, Eff. Mar. 4, 1976.

R 423.403 Definitions; E to L.

Rule 3. (1) "Election agent" means a commission member, or an employee designated by the commission to perform election functions and duties under LMA and PERA.

(2) "Fact finder" means a commission member, an employee or other individual, whether or not a member of the commission's staff, designated by the commission to perform fact finding functions and duties under section 25 of LMA.

(3) "LMA" means the Michigan labor mediation act, Act No. 176 of the Public Acts of 1939, as amended, being §§423.1 to 423.30 of the Michigan Compiled Laws.

History: 1954 ACS 54, p. 47, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

R 423.405 Definitions; M to P.

Rule 5. (1) "Mediator" means the commission, a commission member, or an employee, designated by the commission to perform the functions and duties of mediation under LMA and PERA in the commission's mediation division.

(2) "PERA" means the Michigan public employment relations act, Act No. 336 of the Public Acts of 1947, as amended, being §§423.201 to 423.216 of the Michigan Compiled Laws.

(3) "Petition" means the document containing the information specified in R 423.441.

(4) "Petitioner" means a person or duly authorized agent thereof who files a petition under LMA or PERA.

History: 1954 ACS 54, p. 47, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

R 423.407 Definitions; R.

Rule 7. "Respondent" means a person charged with having engaged in or engaging in unfair labor practices under LMA or PERA as set forth in a complaint issued by the commission.

History: 1954 ACS 54, p. 48, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

R 423.411 Divisions of commission.

Rule 11. (1) The commission shall exercise its mediation functions under LMA and PERA through its mediation division.

(2) The commission shall exercise its labor relations functions under LMA and PERA through its labor relations division.

History: 1954 ACS 54, p 48, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

PART 2. MEDIATION OF LABOR DISPUTES

R 423.421 Mediation functions.

Rule 21. A mediator shall bring the parties together voluntarily under such favorable auspices as will tend to effectuate the settlement of the dispute; but he shall not have any power of compulsion in mediation. At the request of 1 of the parties, or when the commission believes that mediation may be of assistance in resolving a dispute between either a public or private employer and employees, the commission on its own motion may, or at the direction of the governor shall, take steps that it deems expedient to effect a voluntary, amicable, and expeditious adjustment and settlement of the differences and issues between the employer and employees.

History: 1954 ACS 54, p. 48, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

R 423.422 Confidential information.

Rule 22. Information disclosed by a party to a mediator in the performance of mediation functions shall not be divulged voluntarily or by compulsion. All files, records, reports, documents or other papers received or prepared by a mediator while serving as such mediator shall be classified as confidential. The mediator shall not produce any confidential records of, or testify in regard to, any mediation conducted by him, on behalf of any party to any cause pending in any type of proceeding.

History: 1954 ACS 54, p. 48, Eff. May 15, 1968.

R 423.423 Mediation conferences.

Rule 23. (1) A mediator may hold separate or joint conferences with parties or their representatives, and the conferences shall be private unless otherwise mutually agreed by the parties and the mediator.

(2) A mediation conference may be conducted at such date, time and place as agreed to by a mediator and the parties or their representatives, except that the mediator may designate the date, time and place of a conference.

History: 1954 ACS 54, p. 48, Eff. May 15, 1968.

PART 3. FACT FINDING

R 423.431 Applications and initiation by commission of fact finding.

Rule 31. (1) Pursuant to section 25 of LMA, an application for fact finding may be filed by a public employer, a collective bargaining representative of public employees, or if no representative has been designated or selected, by a majority of any given group of public employees. The application shall be signed by an authorized agent of the applicant. An original and 4 copies shall be filed with the commission. The applicant, at the same time, shall cause a copy of the application to be served on the other party or its representative and proof of service shall be filed with the commission.

(2) The application may be withdrawn by the applicant with the consent of the commission.

(3) The commission, on its own motion, may institute fact finding if it is apparent to the commission that matters in disagreement between the parties

might be more readily settled if the facts involved in the disagreement were determined and publicly known. When the commission institutes fact finding, it shall so advise the parties.

History: 1954 ACS 54, p. 48, Eff. May 15, 1968; 1954 ACS 86, p. 88, Eff. Mar. 4, 1976.

R 423.432 Contents of applications.

Rule 32. The application shall contain the following:

(a) The name and address of the collective bargaining agent; or, if there is no collective bargaining agent, the name and address of the principal representative of the majority of the members of a given group on whose behalf the application is being filed.

(b) The name, address and principal representative of the public employer.

(c) A description of the certified or recognized collective bargaining unit or if there is no such unit, a description of the given group.

(d) The approximate number of employees in the unit or given group.

(e) A statement that the applicant has attempted to engage in good faith collective bargaining and mediation, and that the parties have not succeeded in resolving the matters in dispute.

(f) A statement that the applicant has exhausted the contractual grievance procedure, if applicable.

(g) A statement of any unresolved issue in dispute and the facts relating thereto.

(h) A statement of reasons why publicizing the facts and recommendations would assist in resolving the issues in dispute.

(i) The application shall be signed by the applicant or an authorized agent thereof.

History: 1954 ACS 54, pp. 48, 49, Eff. May 15, 1968.

R 423.433 Answers.

Rule 33. (1) A party upon whom an application has been served shall file an answer to the application within 10 days from its service, unless notified by the commission that the circumstances require a specified shorter period of time to file an answer. Upon proper cause shown, the commission may extend the time for filing an answer, or in exceptional circumstances may waive the requirement for an answer.

(2) The answer shall specifically admit, deny or explain each of the allegations in the application, shall contain a statement of the position of the answering party, and shall be signed by the answering party or authorized agent thereof.

(3) The answer and 4 copies shall be filed with the commission. The party filing an answer concurrently shall cause a copy of the answer to be served on the applicant or its agent, and proof of service shall be filed with the commission.

History: 1954 ACS 54, p. 49, Eff. May 15, 1968; 1954 ACS 86, p. 89, Eff. Mar. 4, 1976.

R 423.434 Hearings.

Rule 34. (1) If it appears to the commission that a hearing is warranted, the commission shall appoint a fact finder and serve upon each of the parties a notice of the person appointed.

(2) Following receipt of the notice of his appointment, the fact finder shall issue and serve upon each of the parties, a notice of hearing. The fact finder may amend or withdraw a notice of hearing at any time before the close of the hearing.

(3) The hearing shall be public, but for good cause shown, may be limited to the immediate parties by the fact finder, and he shall inquire into pertinent

matters necessary to enable him to issue his recommendations concerning the dispute. The fact finder may follow the procedures of sections 10 and 11 of LMA.

(4) The fact finder has the authority and powers specified in part 6 of these rules.

History: 1954 ACS 54, p. 49, Eff. May 15, 1968; 1954 ACS 86, p. 89, Eff. Mar. 4, 1976.

R 423.435 Fact finders' reports.

Rule 35. (1) After the close of the hearing, the fact finder shall prepare a fact finding report which shall contain:

(a) A statement of findings of fact and conclusions upon all material issues presented at the hearing.

(b) Recommendations with respect to the issues in dispute.

(c) Reasons and basis for the findings, conclusions and recommendations. However, the parties may waive the requirements of this subdivision and the fact finder may then issue a report containing only items set forth in subdivisions (a) and (b).

(2) The fact finder shall file a copy of his report with the commission and at the same time serve a copy on each of the parties.

History: 1954 ACS 54, p. 49, Eff. May 15, 1968; 1954 ACS 86, p. 89, Eff. Mar. 4, 1976.

PART 4. ELECTIONS

R 423.441 Petitions for elections.

Rule 41. (1) A petition for election to determine a collective bargaining representative or a petition for decertification shall, except for good cause shown, be prepared on a form furnished by the commission. An original and 4 copies of the petition shall be filed with the commission.

(2) A petition for an election to determine a collective bargaining representative or for decertification shall include, insofar as known, at least the following:

(a) The name of the employer.

(b) The address of the establishment involved.

(c) A description of the bargaining unit claimed to be appropriate.

(d) The name and address of persons or labor organizations who claim to represent employees in the alleged appropriate unit, and brief descriptions of the contracts, if any, covering the employees in the unit.

(e) The number of employees in the alleged appropriate unit.

(f) The name, affiliation, if any, and address of the petitioner.

(g) Any other relevant facts.

(h) Signature of petitioner or its duly authorized agent if filed by an employer.

(i) A statement that 1 or more individuals or labor organizations have presented a claim to be recognized as the bargaining representative.

History: 1954 ACS 54, p. 49, Eff. May 15, 1968; 1954 ACS 86, p. 89, Eff. Mar. 4, 1976.

R 423.442 Investigation of petitions; consent election agreements.

Rule 42. The commission or its election agent shall investigate the petition. If it appears that there is reasonable cause to believe that a question of representation exists, the petitioner and the other parties may, with the approval of the commission or its election agent, enter into a consent election agreement on a form furnished by the commission. The agreement shall include a description of the appropriate bargaining unit, the payroll period to be used in determining the employees within the appropriate unit who shall be eligible to vote, and such other matter as the commission considers appropriate. The time and place of the

election shall be determined by the commission or its election agent after consultation with the parties. R 423.445 to R 423.449 shall be applicable to elections conducted under this rule.

History: 1954 ACS 54, p. 50, Eff. May 15, 1968; 1954 ACS 86, p. 90, Eff. Mar. 4, 1976.

R 423.443 Showing of interest; intervenors.

Rule 43. (1) A petition for an election to determine a collective bargaining representative, except when filed by an employer, or decertification petition shall be supported by a showing of interest existing at the time of the filing of the petition of 30% of the employees in the unit claimed to be appropriate.

(2) An employee, group of employees, individual or labor organization which makes a showing of interest of at least 10% of the employees within the unit claimed to be appropriate may intervene in the proceedings and attend and participate in all conferences and any hearing that may be held. The signature of an intervenor is not required on a consent election agreement unless the intervenor demonstrates to the commission that 30% or more of the employees in the unit claimed to be appropriate wish to be represented by the intervenor, in which event, the intervenor's signature on the consent election agreement is required. The determination with respect to the statutory 30% or an intervenor's 10% showing of interest is an administrative action and shall be made exclusively by the commission or its agent. An intervenor who has at least 10% showing of interest but less than 30%, may file a motion with the commission and serve a copy on each of the other parties within 48 hours after a consent election agreement is signed alleging reasons for disallowance of the consent election agreement and requesting a hearing. The commission or its agent shall determine whether the petition establishes good cause for holding a hearing. If the commission or its agent decides that a hearing should be held on the petition, the consent election agreement shall be suspended pending disposition of the case by the commission.

History: 1954 ACS 54, p. 50, Eff. May 15, 1968; 1954 ACS 86, p. 90, Eff. Mar. 4, 1976.

R 423.444 Hearings on petitions for elections.

Rule 44. (1) If a consent election agreement is not executed by the required parties, the petition for election shall be referred to an administrative law judge, who shall hold a hearing on the matters in dispute after due notice. A notice of hearing shall be served upon all interested parties including any intervenor. The notice shall set the time, date, and place of the hearing, and, unless by agreement of the parties or in case of special circumstances, the time shall be not less than 5 days after service of the notice.

(2) In appropriate cases, the commissioner or its agent may consolidate representation and unfair labor practice proceedings for hearing and decision.

(3) After the hearing closes, the commission shall determine the matters in dispute and direct an election, dismiss the petition, or make other disposition of the matter as the commission deems appropriate.

History: 1954 ACS 54, p. 50, Eff. May 15, 1968; 1954 ACS 86, p. 90, Eff. Mar. 4, 1976.

R 423.445 Elections; general procedures.

Rule 45. (1) An election shall be conducted under the supervision and direction of an election agent and shall be by secret ballot. Time shall conform to the official time in the area of the state involved.

(2) At least 7 days prior to the date of an election, excluding Saturdays, Sundays, and legal holidays, the employer shall submit to the commission and other interested parties a list of the names and addresses of all eligible voters in

alphabetical order. This requirement may be modified by mutual agreement of the parties, or by order of the commission, or its agent.

(3) A sample ballot and notice of election, setting forth the date, time and places and purpose of the election shall be posted in a prominent place or places, as the commission or its election agent shall determine, in the employer's establishment, at least 5 days prior to the date of the election, unless modified by mutual agreement of the parties or by order of the commission or its agent.

(4) The commission may conduct an election in whole or in part by mail ballot if it is not practicable or reasonable to hold an election at which employees may vote in person.

History: 1954 ACS 54, p. 51, Eff. May 15, 1968; 1954 ACS 86, p. 90, Eff. Mar. 4, 1976.

R 423.446 Observers and challenges.

Rule 46. (1) The parties to the election may each designate a representative, but not a supervisor or full-time labor organization representative unless by mutual agreement of the parties, to observe that ballots are properly cast and votes properly counted. Observers are subject to such reasonable limitations as the election agent may prescribe.

(2) An authorized observer, the commission, or the election agent, prior to the time the voter cast his ballot, may challenge for good cause the eligibility of any person to participate in the election. A person challenged as an ineligible voter shall be permitted to vote in secret, and the election agent shall set aside the ballot, with appropriate markings. If it is determined by the commission or its election agent that the challenged ballot, or ballots, is decisive of the result, the commission shall determine the merits of any challenged ballot and decide whether or not the person is an eligible voter.

History: 1954 ACS 54, p. 51, Eff. May 15, 1968; 1954 ACS 86, p. 91, Eff. Mar. 14, 1976.

R 423.447 Ballot boxes and ballots.

Rule 47. (1) Ballot boxes shall be examined before the opening of the polls, in the presence of the observers, and shall be sealed at the opening of the polls.

(2) When a voter states under oath, duly administered by the election agent, that because of physical disability or inability to read or write he cannot mark his ballot, the election agent shall privately assist him in marking the ballot.

(3) A voter shall make a cross (x) or check mark (✓) in the circle, or block, designating his choice in the election. The intent of the voter shall be followed in the marking of the ballot. If the ballot is defaced, torn, marked in such manner that it is not understandable, or identifies the voter, the ballot shall be declared void. If the voter inadvertently spoils a ballot, he may return it to the election agent, who shall deliver to him another ballot, preserving the spoiled ballot for the time of counting.

(4) A voter shall fold his ballot so that no part of its face is exposed, and on leaving the polling booth, he shall personally deposit the ballot in the ballot box. If the election is continued for more than 1 period, the ballot box shall remain sealed until the subsequent opening of the polls, and shall so remain in possession of the election agent until time for the counting of the ballots.

(5) An absentee ballot shall be mailed to an individual eligible to vote only upon his written notice to the commission of his inability to be present at the election because of either sickness or physical disability. The voted ballot shall be mailed or delivered by the absentee voter to the election agent in the official envelopes provided for this purpose. The envelope containing the ballot shall be opened at the time of the counting of ballots and placed in the ballot box. The

ballot shall be in possession of the election agent prior to closing of the election at the place of balloting in order to be counted.

History: 1954 ACS 54, p. 51, Eff. May 15, 1968; 1954 ACS 86, p. 91, Eff. Mar. 4, 1976.

R 423.448 Counting of ballot; election results.

Rule 48. The election agent shall count the ballots as soon after the polls have closed as practicable. The election agent shall announce the results of the election as soon as the complete results have been tabulated. The election agent shall furnish to the parties a tabulation of results signed by the observers and the election agent. The commission shall furnish the parties with a certificate of results.

History: 1954 ACS 54, p. 52, Eff. May 15, 1968; 1954 ACS 86, p. 91, Eff. Mar. 4, 1976.

R 423.449 Objections to elections; rerun and runoff elections.

Rule 49. (1) Within 5 days after the election results have been tabulated and furnished to the parties, excluding Saturdays, Sundays, and legal holidays, an interested party may file objections to the conduct of the election or to conduct improperly affecting the results of the election. Objections shall be in writing and shall contain a statement of facts upon which the objections are based and the reasons for the objections. A signed original and 4 copies of the objections shall be filed with the commission, and the party filing objections shall at the same time serve a copy upon each of the other parties with proof of service to the commission.

(2) The rules in part 6 relating to conduct of hearings apply to a hearing on challenged ballots or objections to an election. After the close of the hearing, the commission shall issue its decision with regard to the challenges, or objections, or both.

(3) If the commission orders that any challenged ballots be opened and counted, an amended tabulation of election results and an appropriate certificate of results of the election shall be issued.

(4) If the commission sustains objections to an election, it may direct a new election, to be held at such time and under such circumstances and conditions as it deems appropriate. For a runoff or rerun election, the commission may maintain the same eligibility date or establish a new eligibility date for voters.

(5) A runoff election shall be conducted without further order of the commission, when an election, in which the ballot provided for not less than 3 choices, i.e., at least 2 representatives and "neither," results in no choice receiving a majority of the valid votes cast and no objections are filed as provided in this rule.

(6) Employees who were eligible to vote in the election and who are in an eligible category on the date of the runoff election shall be eligible to vote in the runoff election.

(7) The ballot in the runoff election shall provide for a selection between the 2 choices receiving the largest and second largest number of valid votes cast.

(8) Upon the conclusion of the runoff election, this rule shall govern, insofar as applicable.

History: 1954 ACS 54, p. 52, Eff. May 15, 1968; 1954 ACS 86, p. 91, Eff. Mar. 4, 1976.

R 423.450 Strike elections.

Rule 50. A strike election conducted by the commission pursuant to sections 9 and 9a of LMA shall be governed by these rules insofar as applicable. Sections 9 and 9a shall be complied with, as a condition to a strike election. Within 48 hours after the close of a strike election, excluding Saturdays, Sundays, and legal

holidays, a party may file objections to the conduct of the election or to conduct improperly affecting the results of the election. Objections shall be in writing and shall contain a statement of facts and the reasons therefor upon which the objections are based. A signed original and 4 copies of the objections shall be filed with the commission, and the party filing objections shall at the same time serve a copy upon each of the other parties, with proof of service to the commission.

History: 1954 ACS 54, p. 52, Eff. May 15, 1968; 1954 ACS 86, p. 92, Eff. Mar. 4, 1976.

PART 5. UNFAIR LABOR PRACTICE CHARGES

R 423.451 Filing.

Rule 51. A charge that a person has engaged in or is engaging in an unfair labor practice, may be filed with the commission. The charge shall, except for good cause shown, be prepared on a form furnished by the commission. An original and 4 copies of the charge shall be filed with the commission.

History: 1954 ACS 54, p. 52, Eff. May 15, 1968; 1954 ACS 86, p. 92, Eff. Mar. 4, 1976.

R 423.452 Contents.

Rule 52. A charge shall include, insofar as known, the following information:

(a) The name, address and affiliation, if any, of each charging party and the title of any representative filing the charge.

(b) The name and address of each charged party.

(c) A clear and complete statement of facts supporting the alleged unfair labor practice, including dates, times and places of occurrence of each particular act alleged, names of charged parties who allegedly engaged therein and the sections and subsections of LMA or PERA alleged to have been violated.

(d) The signature of each charging party.

History: 1954 ACS 54, p. 52, Eff. May 15, 1968.

R 423.453 Service.

Rule 53. (1) Upon filing of a charge, the charging party shall be responsible for the timely and proper service of a copy thereof upon the charged party, against whom the charge is made.

(2) After a charge is filed, the commission or an administrative law judge designated by the commission may serve upon each named respondent a complaint and notice of hearing and a copy of the charge on which the complaint is based. The notice of hearing shall fix the place of hearing at a time not less than 10 days from service thereof.

History: 1954 ACS 54, p. 53, Eff. May 15, 1968; 1954 ACS 86, p. 92, Eff. Mar. 4, 1976.

R 423.454 Amendments and withdrawals.

Rule 54. (1) The commission or administrative law judge designated by the commission may permit a charging party to amend the charge before, during, or after the conclusion of the hearing upon such terms as may be deemed just and consistent with due process.

(2) The charge may be withdrawn by the charging party before the issuance of a final order based thereon, upon approval by the administrative law judge, subject to review by the commission.

History: 1954 ACS 54, p. 53, Eff. May 15, 1968; 1954 ACS 86, p. 92, Eff. Mar. 4, 1976.

R 423.455 Answers.

Rule 55. (1) Each respondent may file with the commission a signed original and 3 copies of an answer to the complaint and attached charge within 10 days

after receipt thereof, and at the same time shall serve a copy of the answer on each charging party. Upon good cause shown, the commission or administrative law judge designated by the commission may grant an extension of time in which to file the answer.

(2) If the complaint and attached charge is alleged by a respondent to be so vague or ambiguous that it cannot reasonably be required to frame an answer, the respondent, within 7 days after service of the complaint and attached charge may file a motion with the administrative law judge for a bill of particulars and at the same time shall serve a copy thereof on the charging party. The administrative law judge shall rule on the motion. The request may be granted on good cause shown.

(3) The answer shall include a specific admission, denial, or explanation of each allegation of the complaint and attached charge, or if the respondent is without knowledge thereof, it shall so state and the statement shall operate as a denial. An admission or denial may be to all or any part of an allegation, but shall fairly meet the substance of the allegation. The answer shall include a specific, detailed statement of each affirmative defense.

History: 1954 ACS 54, p. 53, Eff. May 15, 1968; 1954 ACS 86, p. 93, Eff. Mar. 4, 1976.

R 423.456 Amendments to answers.

Rule 56. The administrative law judge may permit a respondent to amend the answer before or during the hearing, or at any time prior to issuance of the administrative law judge's recommended order, within a period of time fixed by the administrative law judge.

History: 1954 ACS 54, p. 53, Eff. May 15, 1968; 1954 ACS 86, p. 93, Eff. Mar. 4, 1976.

PART 6. HEARINGS

R 423.461 General provisions.

Rule 61. (1) A hearing for the purpose of taking evidence upon a petition or complaint and attached charge shall be conducted by the commission or administrative law judge designated by the commission. The hearing shall be public unless otherwise ordered by the commission or administrative law judge for good cause shown.

(2) A party may appear at a hearing in person, by counsel, or by other representative; may call, examine, and cross-examine witnesses; and may introduce into the record documentary or other evidence.

(3) Stipulations of fact may be introduced in evidence at a hearing with respect to any issue in the discretion of the commission, administrative law judge, or fact finder.

(4) An objection to conduct of a hearing, including an objection to introduction of evidence, may be oral or written, and be accompanied by a short statement of the grounds for the objection, and shall be included in the record.

(5) Witnesses subpoenaed before the commission, administrative law judge, or fact finder shall be paid the same fees and mileage that are paid witnesses in the circuit courts. This payment shall be made by the party at whose request the witness appears and shall be tendered prior to the time the witness testifies.

History: 1954 ACS 54, p. 53, Eff. May 15, 1968; 1954 ACS 86, p. 93, Eff. Mar. 4, 1976.

R 423.462 Duties and powers of administrative law judge or fact finder.

Rule 62. (1) An administrative law judge or fact finder shall inquire fully into the facts involved in the proceeding before him.

Digitized by Google

(2) An administrative law judge or fact finder has power to:

(a) Hold pre-trial conferences for settlement or clarification of the issues.

(b) Dispose of procedural requests, motions, or similar matters.

(c) Continue or adjourn a hearing to a later date.

(d) Take or cause depositions to be taken when the ends of justice would be served thereby.

(e) Grant applications for subpoenas, subpoena witnesses, administer oaths and affirmations, examine witnesses, receive relevant testimony and evidence, rule upon offers of proof, and introduce into the record documentary or other relevant evidence.

(f) Regulate the course of a hearing and, if appropriate or necessary, exclude persons or counsel from the hearing for contemptuous conduct.

(g) Order a hearing reopened prior to issuance of an administrative law judge's recommended order or fact finder's report.

(h) Take official notice of generally recognized facts. Parties shall be notified either before or during the hearing of the material so noticed and they shall be afforded an opportunity to contest the facts so noticed.

(i) Take any other action necessary and authorized by rules of the commission.

History: 1954 ACS 54, p. 54, Eff. May 15, 1968; 1954 ACS 86, p. 93, Eff. Mar. 4, 1976.

R 423.463 Oral arguments and briefs.

Rule 63. A party is entitled upon request to a reasonable period at the close of the hearing for oral argument, which shall be made part of the record. A party is entitled, upon request made before the close of the hearing, to file a brief with the administrative law judge, who may fix a reasonable time for the filing. The commission or administrative law judge may direct the filing of briefs when the filing is, in the opinion of the commission or administrative law judge, warranted by the nature of the proceedings, or the particular issues involved.

History: 1954 ACS 54, p. 54, Eff. May 15, 1968; 1954 ACS 86, p. 94, Eff. Mar. 4, 1976.

R 423.464 Substitution of administrative law judges.

Rule 64. If an administrative law judge designated to conduct a hearing becomes unavailable after the hearing has been opened or concluded, the commission may transfer the case to another administrative law judge for purpose of further hearing or issuance of the decision and recommended order, or both, on the record as made.

History: 1954 ACS 54, p. 54, Eff. May 15, 1968; 1954 ACS 86, p. 94, Eff. Mar. 4, 1976.

R 423.465 Unfair labor practice case recommended orders.

Rule 65. In an unfair labor practice case, the administrative law judge shall prepare a proposed report setting forth findings of fact, conclusions of law and the reasons for his determination on all material issues, and a recommended order. The administrative law judge may recommend dismissal or sustain the complaint and attached charge, in whole or in part, and recommend that respondent cease and desist from the unlawful acts found and take action to remedy their effects including reinstatement of employees with or without back pay, as appropriate.

History: 1954 ACS 54, p. 54, Eff. May 15, 1968; 1954 ACS 86, p. 94, Eff. Mar. 4, 1976.

R 423.466 Exceptions to administrative law judge's decisions and recommended orders.

Rule 66. (1) Within 20 days after service of the proposed report and recommended order, a party may file with the commission an original and 4 copies of a

statement in writing, setting forth exceptions thereto or to any other part of the record or proceedings, including rulings upon motions or objections, and a brief in support thereof may be filed with the commission; at the same time copies of these documents shall be served on each party to the proceedings.

(2) The exceptions shall:

(a) Set forth specifically the question of procedure, fact, law, or policy to which exceptions are taken.

(b) Identify that part of the administrative law judge's proposed report and recommended order to which objection is made.

(c) Designate by precise citation of page the portions of the record relied on.

(d) State the grounds for the exceptions and include the citation of authorities, if any, unless set forth in a supporting brief.

(3) An exception to a ruling, finding, conclusion, or recommendation which is not specifically urged is waived. An exception which fails to comply with this rule may be disregarded.

History: 1954 ACS 54, p. 54, Eff. May 15, 1968; 1954 ACS 86, p. 94, Eff. Mar. 4, 1976.

R 423.467 Briefs, cross exceptions, and extension of time for filing.

Rule 67. (1) A brief in support of exceptions shall contain only matter included within the scope of the exceptions, and shall contain in the sequence indicated the following:

(a) A concise statement of the case containing all that is material to consideration of the questions presented.

(b) A specification of the questions involved and to be argued.

(c) The argument, presenting clearly the points of fact and law relied on in support of the position taken on each question, with specific page references to the transcript and the legal or other material relied on.

(2) Within 10 days after service of exceptions, a party may file 1 original and 4 copies of cross exceptions and briefs in support thereof or 1 original and 4 copies of a brief or legal memorandum in support of the proposed report and recommended order of the cross exceptions. Copies of these documents shall be served on each party to the proceedings.

(3) A request for extension of time in which to file exceptions or briefs or both shall be in writing and filed with the commission before expiration of the required time for filing, except for good cause shown, and, at the same time, copies thereof shall be served on each of the other parties.

History: 1954 ACS 54, p. 55, Eff. May 15, 1968; 1954 ACS 86, p. 94, Eff. Mar. 4, 1976.

R 423.468 New material and further hearings.

Rule 68. (1) Matters not included in the exceptions may not thereafter be urged before the commission.

(2) The commission may reopen a record in any case and receive further evidence, may close the case upon compliance with the administrative law judge's recommended order, or may make other disposition of the case.

(3) After entry of a commission order directing payment of back pay or entry of a final court judgment enforcing such a commission order, if it appears to the commission that a controversy exists between the parties concerning compliance with the order, which cannot be resolved without a formal proceeding, the commission or its designated administrative law judge may schedule a hearing on such issues which shall be conducted in accordance with these rules insofar as applicable.

History: 1954 ACS 54, p. 55, Eff. May 15, 1968; 1954 ACS 86, p. 95, Eff. Mar. 4, 1976.

R 423.469 Oral arguments before commission.

Rule 69. If a party desires to argue orally before the commission, a written request therefor, shall accompany the exceptions filed pursuant to R 423.466, the cross exceptions filed pursuant to R 423.467, or the brief in support of the proposed report and recommended order pursuant to R 423.467, and at the same time such request shall be served on all other parties. The commission, on its own motion, may also direct oral argument. The commission shall notify the parties of the time and place of oral argument. The commission may limit the time for oral argument by each party.

History: 1954 ACS 54, p. 55, Eff. May 15, 1968; 1954 ACS 86, p. 95, Eff. Mar. 4, 1976.

R 423.470 Commission action.

Rule 70. Upon the filing of exceptions or cross exceptions pursuant to R 423.467 and R 423.468, the commission may adopt, modify, or reverse the administrative law judge's recommended order.

History: 1954 ACS 54, p. 55, Eff. May 15, 1968; 1954 ACS 86, p. 95, Eff. Mar. 4, 1976.

PART 7. SERVICE OF DOCUMENTS

R 423.471 Service of documents.

Rule 71. (1) Service of any document authorized or required by LMA, PERA or these rules, except service required by section 9 of LMA, may be effected personally, by registered mail, by telegraph or by leaving a copy thereof at the principal office or place of business of the person required to be served. When service is made by registered mail or by telegraph, the return post office receipt or telegraphic confirmation of delivery shall be proof of service. When service is made in any other manner authorized by these rules, verified proof of service shall be made. Service required by section 9 of LMA shall be made as prescribed therein.

(2) The date of service on any party other than the commission, administrative law judge, or other agent shall be the day when the matter served is deposited in the United States mail or is otherwise effected as provided in this rule. In computing the time from that date, the provisions of this rule apply.

(3) The person or party serving the papers or process on other parties in conformance with this rule shall submit a written statement of service thereof to the commission stating the names of the parties served and the date and manner of service. Proof of service as defined in this rule shall be required by the commission only if subsequent to the receipt of the statement of service a question is raised with respect to proper service. Failure to make proof of service will not affect the validity of the service.

History: 1954 ACS 54, p. 55, Eff. May 15, 1968; 1954 ACS 86, p. 95, Eff. Mar. 4, 1976.

R 423.472 Computation of time.

Rule 72. (1) In computing any period of time prescribed or allowed by these rules, the day of the act, event, or default after which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included, unless it is a Saturday, Sunday or legal holiday, in which event the period runs until the end of the next day, which is neither a Saturday, Sunday nor legal holiday. When the period of time prescribed or allowed is less than 7 days, intermediate Saturdays, Sundays, and legal holidays shall be excluded in the computation. Whenever a party has the right or is required to do some act or take some proceedings within a prescribed period after service of a notice or other

DEPARTMENT OF NATURAL RESOURCES

GEOLOGICAL SURVEY DIVISION

MINE RECLAMATION

(By authority conferred on the chief of the geological survey division of the department of natural resources by section 3 of Act No. 92 of the Public Acts of 1970, being §425.183 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 425.1 Purpose; other laws neither superseded nor contravened.

Rule 1. These rules implement the act and do not supersede or contravene any provisions of law regarding the inspection or regulation of mining, water and air pollution, soil erosion and sedimentation, or water impoundments.

History: 1954 ACS 89, p. 132, Eff. Nov. 17, 1976.

R 425.2 Definitions.

Rule 2. (1) "Abandoned" or "abandonment" means termination of mining operations, or cessation of use of the mining area or any portion thereof, with intent not to resume.

(2) "Act" means Act No. 92 of the Public Acts of 1970, as amended, being §425.181 et seq. of the Michigan Compiled Laws. Terms defined in the act have the same meaning when used in these rules.

(3) "Environment plan" means an operator's written proposal for reclamation of the mining area or portion thereof.

(4) "Lean ore" means a mineral which is not recoverable under existing economic conditions or technology.

(5) "Reclamation" means that reconditioning or rehabilitation of the mining area or portions thereof for useful purposes and the protection of the natural resources, including the control of erosion and the prevention of land or rock slides and air and water pollution.

(6) "Reclamation plan" means an environment plan that is approved by the supervisor.

(7) "Surface overburden" means earth materials, including sand, gravel, and clay, lying above bedrock.

History: 1954 ACS 89, p. 133, Eff. Nov. 17, 1976.

R 425.3 Exploration.

Rule 3. Removal of overburden and extraction of limited amounts of materials is not open-pit mining when done only for the purpose of exploration and to the extent necessary to determine the location, quantity, or quality of a mineral deposit. If the disturbed land does not become a part of a mining operation within 2 years, the operator shall grade and revegetate within practical limitations and in a manner acceptable to the supervisor.

History: 1954 ACS 89, p. 133, Eff. Nov. 17, 1976.

R 425.4 Notice of removal of materials.

Rule 4. (1) An operator proposing to remove materials in connection with the production or extraction of minerals by open-pit mining methods shall submit written notice to the supervisor as follows:

(a) At least 30 days prior to the commencement of mining within a new mining area.

(b) Within 30 days of a change of ownership in an ongoing operation.

(2) The notice shall include the following:

(a) Name and address of operator.

(b) Mineral to be mined.

(c) Location of mining property by fraction of section and township and range.

(d) For new operations, the date mining will commence.

(e) Name, address, and telephone number of person with official authority to represent operator in reclamation matters.

History: 1954 ACS 89, p. 133, Eff. Nov. 17, 1976.

R 425.5 Annual plan map.

Rule 5. (1) An accurate plan map on a topographic base, with an appropriate scale as approved by the supervisor, shall be submitted in duplicate to the supervisor annually on or before March 15.

(2) The map shall show the following as of December 31 of the previous year, or as near to December 31 of the previous year as operations permit, color-coded and with legend, so as to distinguish:

(a) Location and boundary of the mining area.

(b) Mine plant or plants.

(c) Open pit or pits.

(d) Surface overburden stockpiles.

(e) Waste rock stockpiles.

(f) Lean ore stockpiles.

(g) Streams, lakes, and reservoirs.

(h) Tailings basins.

(i) Roads.

(j) Sequential numbers or letters or other method, as approved by the supervisor, permanently assigned to portions of the mining area which have been abandoned prior to abandonment of the total mining operation.

(k) Changes in the mining area during the preceding year, indicated by vertical (north-south) crosshatching or other method as approved by the supervisor.

(l) Anticipated changes in the mining area during the current year, indicated by horizontal (east-west) crosshatching or other method as approved by the supervisor.

(m) Elevations of stockpiles and tailings basins.

(n) Drainage on and away from the mining area, showing directional flow of water in drainage ways, natural watercourses, and streams, intermittent and flowing, including discharge from the mining operation.

(o) Name of the geologist, engineer, or surveyor responsible for the preparation of the map.

(p) Date of preparation.

(3) The map shall be accompanied by a report on any reclamation work accomplished, or experimental reclamation work performed, during the preceding year.

History: 1954 ACS 89, p. 133, Eff. Nov. 17, 1976.

R 425.6 Notice of abandonment; evidence of continuing use.

Rule 6. (1) An operator shall submit written notice to the supervisor within 6 months of the abandonment of the mining area or any portion thereof.

(2) When activities on or use of the mining area, or any portion thereof, have ceased for more than 1 year, or when, by examination of the premises or other means, the supervisor determines that the mining area or any portion thereof has in fact been abandoned by an operator, the supervisor shall give the operator written notice of his intention to declare the mining area or portion thereof abandoned. Determinations by the supervisor shall be made on sound mining practices.

(3) Within 30 days following receipt of the notice, the operator shall have an opportunity to submit evidence that the use of the mining area or portion thereof is continuing. If the supervisor finds the evidence satisfactory, he shall not make the declaration.

History: 1954 ACS 89, p. 134, Eff. Nov. 17, 1976.

R 425.7 Report of reclamation activities; statement; accompanying data.

Rule 7. Within 30 days after abandonment of the mining area or any portion thereof, and annually thereafter on or before March 15 until the reclamation is completed and approved by the supervisor, an operator shall submit to the supervisor a detailed report of reclamation activities, completed during the preceding year, and a statement of the amount and nature of reclamation to be performed during the current year. The report shall be accompanied by maps and any other data which clearly demonstrate the progress and success of reclamation activities.

History: 1954 ACS 89, p. 134, Eff. Nov. 17, 1976.

R 425.8 Environment plan.

Rule 8. (1) Upon request of the supervisor, an operator shall submit his long-range environment plan for the mining area.

(2) An operator, on his own initiative, may submit an environment plan covering the mining area or any portion thereof to the supervisor at any time prior to abandonment.

(3) An environment plan shall include the following:

(a) A detailed description of the mining area.

(b) The reclamation problems involved.

(c) The operator's plan of action to prevent erosion and pollution, to attain revegetation, and to achieve the ultimate reclamation of the mining area in accordance with the purposes and requirements of the act and the rules adopted thereunder.

(d) An estimate time schedule for completion of the plan, and the proposed purpose for which the land is to be used upon completion.

(e) Estimated cost of reclamation.

(f) Other pertinent information that the supervisor may deem necessary.

(4) If circumstances warrant, or if development of an environment plan is dependent upon unknown factors which cannot or will not be determined except during the progress of the operation, a partial plan may be submitted and supplemented as new plans are developed.

(5) If the surface landowner and the operator are 2 separate persons, the surface landowner shall be given an opportunity to comment on the operator's environment plan before the operator submits the plan to the supervisor.

History: 1954 ACS 89, p. 134, Eff. Nov. 17, 1976.

R 425.9 Evaluation of environment plan.

Rule 9. (1) Upon receipt of an environment plan, the supervisor shall evaluate it in terms of the reclamation required by the act. The supervisor may consult with

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

and obtain assistance of other divisions of the department in the evaluation process. The supervisor may reject a plan or any part thereof, and shall give reasons in writing, together with recommendations for modification of a plan to meet his objections, if the reclamation specified by a plan does not conform to the requirements of the act and these rules, or if, in the opinion of the supervisor, it is not feasible or is otherwise undesirable because of the following:

(a) Erosion is likely to occur in the sloping, terracing, or other treatment of stockpiles and tailings basins, which may result in injury or damage to fish and wildlife or the pollution of public waters, or which may cause injury to the property or person of others.

(b) Vegetation or other practical treatment of tailings basins and stockpiles, upon becoming permanently inactive, is not satisfactory.

(c) The surface overburden banks of open pits in rock, and the entire bank of open pits in unconsolidated materials, upon their abandonment will not be stabilized.

(d) The cleanup of plantsite and mining areas, and the removal of debris therefrom on termination of the mining operation, will not be satisfactory.

(2) If the supervisor rejects an environment plan, an operator may resubmit the plan as revised so as to meet the supervisor's objections.

(3) If an environment plan is satisfactory, the supervisor shall approve it and promptly notify the operator by written statement that compliance with the plan by the operator fulfills the requirements of the act with respect to the mining area or any portion thereof involved. The approval of an environment plan for a long-lived mining operation may be conditioned on periodic review in light of new research and changed reclamation technology. An approved environment plan shall be referred to as the reclamation plan.

(4) A reclamation plan may be modified at any time by mutual consent of the supervisor and operator to adjust to changed conditions or technology, or to correct an oversight.

(5) The supervisor may modify the reclamation plan when:

(a) Modification of the plan is necessary so that it will conform with existing laws.

(b) The supervisor determines that the previously approved plan is clearly impossible or clearly impractical to implement and maintain.

(c) The supervisor determines that the previously approved plan is obviously not accomplishing the intent of the act.

(6) When an operator disposes of his interest in a mining area prior to approval of reclamation by sale, lease, assignment, termination of lease, or otherwise, the supervisor may release the operator from the duties imposed upon him by the act and rules as to the operation, but only if the successor operator or owner assumes the obligations of the former operator with reference to the reclamation of the mining area.

History: 1954 ACS 89, p. 135, Eff. Nov. 17, 1976.

R 425.10 Conducting reclamation activities concurrently with mining operation.

Rule 10. Reclamation activities, particularly those relating to control of erosion and air and water pollution, to the extent feasible, shall be conducted by the operator concurrently with the mining operation, and in any event shall be initiated at the earliest possible time after abandonment of any portion of the mining area.

History: 1954 ACS 89, p. 135, Eff. Nov. 17, 1976.

R 425.11 Reclamation upon termination or abandonment.

Rule 11. (1) An operator shall remove all worthless debris and rubbish from the plantsite and mining area within 1 year of the date of termination of operations or abandonment of the property.

(2) A mining area shall be reclaimed by an operator pursuant to the act, these rules, and the reclamation plan within 2 years after abandonment or within the time set forth in the operator's reclamation plan approved by the supervisor.

(3) Upon written request of an operator, the supervisor may grant an extension of the reclamation period if necessary to accomplish acceptable reclamation.

History: 1954 ACS 89, p. 135, Eff. Nov. 17, 1976.

R 425.12 Notice and approval of completed reclamation.

Rule 12. (1) An operator shall submit written notice to the supervisor upon completion of reclamation work on the mining area or portions thereof.

(2) The supervisor shall proceed promptly to make his determination as to the approval of the reclamation work and shall notify the operator in writing of either the approval of the work or all reasons for disapproval. The supervisor may consult with and obtain the assistance of other divisions of the department in making his determinations.

(3) Approval of vegetative cover shall not be granted until the planting has survived at least 2 growing seasons with reasonable assurances of being self-sustaining.

History: 1954 ACS 89, p. 135, Eff. Nov. 17, 1976.

R 425.15 Surety or security bond.

Rule 15. (1) The supervisor, if he has reasonable doubts as to an operator's financial ability to comply with the rules as to actions to be taken after completion of mining operations, or any phase thereof, may require an operator to file a surety bond in an amount equal to the expected cost of reclamation for each acre, or fraction thereof, of the area subjected to mining.

(2) In determining the amount of the surety bond or security bond the supervisor shall take into consideration the character and nature of the lands to be reclaimed, the future suitable use of the land involved, and the cost of the reclamation to be required.

(3) A security bond in the amount equal to the required surety bond may be deposited in lieu of a surety bond. A security bond shall consist of cash or negotiable securities and shall be deposited with the department of treasury. The securities shall be registered in the name of the state treasurer, who shall charge a fee sufficient to reimburse him for not less than actual and necessary expenses incurred in connection with the deposits.

(4) The supervisor shall have reasonable doubts as to an operator's financial ability to comply with the rules as to actions to be taken after completion of mining operation or any phase thereof when, upon the request of the supervisor, the operator cannot demonstrate that he has the financial ability to perform the reclamation as required by the act and rules.

History: 1954 ACS 89, p. 136, Eff. Nov. 17, 1976.

R 425.16 Liability on surety or security bond.

Rule 16. (1) Liability on a surety bond or security bond is conditioned upon compliance with the act and these rules, and continues until the mining area reclamation is completed and approved by the supervisor.

(2) The supervisor shall advise the surety and the principal when liability is terminated on a bond filed for the portion or the whole of the mining area reclaimed. A security bond deposited with the state treasurer shall be released only upon written direction of the supervisor.

(3) The supervisor shall look to the surety or the security bond for correction of unsatisfactory conditions not otherwise corrected, and all expenses shall be paid through the surety or security bond in case of default by the principal.

History: 1954 ACS 89, p. 136, Eff. Nov. 17, 1976.

PART 2. RECLAMATION OF OPEN PITS

R 425.21 Stockpiling of surface overburden.

Rule 21. Unless otherwise authorized by the supervisor, surface overburden removed in the development of an open pit shall be stockpiled separately from other materials.

History: 1954 ACS 89, p. 136, Eff. Nov. 17, 1976.

R 425.22 Surface overburden banks.

Rule 22. Surface overburden banks shall be sloped at an angle which will minimize erosion, promote vegetation, and be consistent with a proposed use of the area. The bank, or that portion above the projected level of a body of water formed in the open pit, shall be stabilized by the planting of a vegetative cover appropriate to a future use of the land.

History: 1954 ACS 89, p. 136, Eff. Nov. 17, 1976.

R 425.23 Rock banks.

Rule 23. (1) Pit banks in rock shall not have a prescribed angle of slope, but precautions shall be taken to provide adequate safety.

(2) Where, upon termination of mining operations, a body of water of sufficient area and depth results which is used for residential, recreation, or wildlife purposes, if natural conditions do not exist, portions of the solid rock bank shall be stepped or other measures taken to permit a person to escape from the water.

History: 1954 ACS 89, p. 136, Eff. Nov. 17, 1976.

R 425.24 Sloping and grading within open pit.

Rule 24. Unless it is anticipated that an open pit will be flooded after abandonment, any waste rock or residual materials within the pit shall be sloped and graded so as to promote regeneration of vegetation.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.25 Backfilling of pit; approval of sanitary landfill.

Rule 25. Backfilling of a pit is not required, but any backfilling shall be with nontoxic, nonflammable, noncombustible solids, unless approved for a sanitary landfill. Plans for use as a sanitary landfill shall be accompanied by written approval of the appropriate state agency.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

PART 3. RECLAMATION OF STOCKPILES

R 425.31 Top surface of stockpile.

Rule 31. The top surface of a stockpile shall be reduced to a topography which provides proper drainage and favorable conditions for revegetation, minimizes erosion, and is consistent with a future sequential use of the mining area.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.32 Surface overburden stockpiles.

Rule 32. (1) Surface overburden stockpiles shall be sloped at an angle which minimizes erosion, promotes vegetation, and is consistent with a future use of the mining area.

(2) Where substantial natural vegetation is not expected within 5 years, or where erosion is occurring, or where the supervisor finds erosion likely to occur, which results or may result in injury or damage to fish and wildlife, the pollution of air or water, or which is causing or might cause injury to the property or person of others, surface overburden stockpiles shall be stabilized by planting with a vegetative cover, or by other treatment, to prevent erosion or pollution or injury.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.33 Rock or lean ore stockpiles.

Rule 33. (1) Rock or lean ore stockpiles shall be sloped at an angle to minimize the possibility of land or rock slides and to be consistent with a future use of the mining area.

(2) Unless otherwise authorized by the supervisor, waste rock stockpiles shall be covered with surface overburden sufficient to provide for vegetation, particularly on the slopes or surfaces visible from public roads.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.34 Stockpiles erosion, or sliding.

Rule 34. Where a stockpile is eroding or sliding and resulting in injury or damage, or the operator has reason to believe that erosion or sliding may result in injury or damage to fish and wildlife, the pollution of public waters, injury to persons or damage to adjacent property not intended for use in mining, or where the supervisor finds that injury or damage is likely to occur, the operator shall take immediate steps, such as grading, sloping, removal, or other stabilization, to correct the condition.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.35 Acid-forming, toxic, flammable, or combustible material.

Rule 35. All acid-forming, toxic, flammable, or combustible material from the mining process shall be stockpiled so as to minimize erosion by air and water and to prevent pollution of the air and surface and ground water. Preventive measures required by the supervisor may include covering the piles with clean fill or mixing with them a material that is not acid-forming, toxic, flammable, or combustible and graded so that surface water drains away from disposal area.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

PART 4. RECLAMATION OF TAILINGS BASINS AND AUXILIARY LANDS

R 425.41 Tailings basin dikes.

Rule 41. (1) Before a person constructs a dike or dam for a tailings basin, including an impoundment of water for clarification or reuse, that person shall determine whether Act No. 184 of the Public Acts of 1963, as amended, being §281.131 et seq. of the Michigan Compiled Laws, or Act No. 346 of the Public Acts of 1972, being §281.951 et seq. of the Michigan Compiled Laws, is applicable.

(2) If not constructed of concrete, asphalt, or a similar material, a dike or dam of a tailings basin, including an impoundment of water for clarification or reuse, shall be constructed so that the outer face is capable of being stabilized by vegetation or other treatment to the satisfaction of the supervisor.

(3) Where erosion of a dike of a tailings basin, including an impoundment of water for clarification or reuse, is occurring, or is likely to occur, and where that erosion results or may result in loss of the confined tailings, injury or damage to fish or wildlife, the pollution of air or water, or which might cause injury to the property or person of others, the dike shall be repaired. Earthen dikes shall be stabilized by planting with a vegetative cover or by other treatment to the satisfaction of the supervisor.

History: 1954 ACS 89, p. 137, Eff. Nov. 17, 1976.

R 425.42 Tailings basin drainage system.

Rule 42. A suitable system shall be constructed to regulate or control drainage of water, including surface run-off, from within the diked area of a tailings basin to prevent breaching of the dikes, both during and after termination of the mining operation. The system may consist of, but is not limited to, decant towers, erosion-resistant spillways, or solid rock ledge overflow.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.43 Stacked tailings.

Rule 43. Stacked tailings within a tailings basin shall be reduced to a slope which will permit effective vegetation or other treatment for the control of erosion.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.44 Stabilization of tailings basin.

Rule 44. (1) Where substantial natural vegetation is not expected within 5 years after abandonment, and where research reveals that vegetation can be accomplished within practical limitations, that portion of a tailings basin not covered by water shall be planted with a vegetative cover appropriate to a future use of the land and to prevent air and water erosion and pollution. Vegetation which has potential for providing a rapid, permanent, adequate, economical cover shall be given priority.

(2) Where vegetation reasonably cannot be accomplished within practical limitations, the tailings basin shall be stabilized by other treatment to prevent air and water erosion and pollution.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.45 Dike protection.

Rule 45. If a substantial area and depth of water are to remain within a diked area of a tailings basin after abandonment, that portion of the inner face of the dike which might be subject to erosion by wave action shall be protected by riprap or other erosion-resistant solid cover.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.46 Borrow pits.

Rule 46. (1) The banks of borrow pits in the mining area used for dike or other construction, and located outside the tailings basin, shall be sloped at an angle which will minimize erosion and promote vegetation.

(2) Where substantial natural vegetation is not expected within 5 years, or where erosion is occurring, or the supervisor finds it likely to occur, which results or may result in injury or damage to fish and wildlife or the pollution of air or water, the pit shall be planted with a vegetative cover appropriate to a future use of the land and to prevent erosion.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.47 Abandoned roads.

Rule 47. Abandoned roads in the mining area, upon termination of the mining operation, shall be graded or otherwise prepared to minimize erosion and to promote vegetation. If necessary, abandoned roads shall be stabilized by the planting of an appropriate vegetative cover.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.48 Investigation and inspection of mining areas.

Rule 48. Investigation and inspection of mining areas by the supervisor or his authorized representative may include, but not be limited to:

(a) Inspection of all mining areas.

(b) Taking photographs.

(c) Taking and removal of soil and plant samples.

History: 1954 ACS 89, p. 138, Eff. Nov. 17, 1976.

R 425.49 Hearings and judicial review.

Rule 49. (1) An interested person who feels aggrieved by an action or inaction of the supervisor may request a contested hearing on the matter involved. Also, the supervisor on his own motion may commence a hearing for the purpose of receiving information before issuing an order. The hearing shall be conducted by the supervisor in accordance with provisions for contested cases in Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

(2) A determination, action, or inaction by the supervisor following the hearing shall be subject to judicial review as provided in Act No. 306 of the Public Acts of 1969, as amended.

History: 1954 ACS 89, p. 139, Eff. Nov. 17, 1976.

DEPARTMENT OF AGRICULTURE

RACING COMMISSIONER

GENERAL RULES

(By authority conferred on the racing commissioner by section 6 of Act No. 27 of the Public Acts of 1959 and section 184 of Act No. 380 of the Public Acts of 1965, being §§431.36 and 16.284 of the Michigan Compiled Laws)

PART 1. THOROUGHBRED RACING

R 431.1 (a) Definitions.

(1) The definitions in subrules (2) to (27) apply to this part.

(2) "Age" is reckoned as beginning the first day of January of the year in which a horse is foaled.

(3) "Arrears" includes all sums due for entrance money, subscriptions, fees, fines and any default incident to these rules or the rules of the racing authority of any other state or country.

(4) "Authorized agent" means an agent licensed as such by the racing commissioner and whose authority to act for and on behalf of another person is evidenced by an application filed with the commissioner.

(5) "Breeder" means an owner of a dam at the time of foaling.

(6) "Course" or "grounds" means the entire premises under control of the race meeting licensee for the conduct of racing.

(7) "Declaration" or "scratch" means the withdrawal of a horse from a race.

(8) "Disciplinary action" means revocation of a license, suspension, ruling off, fine or reprimand or any combination thereof. "Ruling off" means to bar from the course.

(9) "Equipment," when applied to a horse means whips, blinkers, tongue straps, muzzles, hoods, nose bands, bits, shadow rolls, martingales, breast plates, bandages, boots and plates.

(10) "Horse" includes a horse, mare, gelding, colt or filly. A horse is "bred" at the place of his birth.

(11) "Jockey" means a race rider, whether a licensed jockey or a licensed apprentice.

(12) "Maiden" means a horse which has not, at the time of starting, won a race on the flat in any country.

(13) "Month" means a calendar month.

(14) "Nominator" means the person in whose name a horse is nominated for a sweepstakes, futurity or produce race.

(15) "Owner" includes an owner, part owner and lessee of a horse or horses and may be comprised of 1 or more persons, individually in a partnership, as a corporation or in any other authorized form of collective ownership or control.

(16) "Post" means a station on the racing course from which a race is started.

(17) "Post position" means a position assigned by lot to a horse for the start of a race.

(18) "Post time" means the time set for arrival at the starting point of the horses in a race. The post time shall be shown a reasonable time prior to the race on a clock device, provided for that purpose, prominently displayed and clearly readable from the grandstand.

(19) "Race" means a contest of speed among thoroughbreds for a purse, stake or reward. Races include those described in the following paragraphs:

(a) "Claiming race" means a race in which a horse may be claimed in accordance with the rules.

(b) "Handicap" means a race in which weights are assigned to the horses by the handicapper for the purpose of equalizing their chances of winning.

(c) "Match race" means a race between 2 horses, the property of 2 different owners on terms agreed to by them.

(d) "Optional claiming race" means a race restricted to horses entered to be claimed for a stated price or less and those entered not to be claimed by the option designated in the conditions of the race. In cases of horses which are entered to be claimed the race shall be considered a claiming race, and for horses entered under the option the race shall be considered an allowance or purse race.

(e) "Overnight race" means a race for which the entries close 72 hours, exclusive of Sundays, or less before the time set for the first race of the day on which such race is to be run.

(f) "Produce race or futurity" means a race to be contested by the produce of horses which are named or identified before the closing time of nominations.

(g) "Purse race" means a race for money or other prize to which the owners of the horses engaged do not contribute.

(h) "Race on the flat" means a race run over a course on which no jumps or other obstacles are placed.

(i) "Stake race" or "sweepstakes" means a race in which owners or nominators, or both, of horses entered or engaged for the race contribute to a purse for which money or other prize may be added.

(j) "Starter race" means an overnight event under allowance or handicap conditions restricted to horses which have previously started for the designated claiming price or less, as stated in the conditions of the starter race.

(20) "Racing association" or "race meeting licensee" means a person, association or corporation licensed by the state of Michigan to conduct horse racing for any stake, purse or reward.

(21) "Racing day" means a period of 24 hours beginning at midnight and included within the time of a race meeting, excluding Sundays and Good Friday.

(22) "Recognized meeting" means a (a) race meeting held under sanction of law and reported in the daily racing form, or (b) meeting held in a foreign country, with the sanction of any turf authority, whose jurisdiction over racing is recognized by the racing commissioner.

(23) "Starter" means a horse in front of whom the stall doors of the starting gate open at the time the official starter dispatches the field.

(24) "Thoroughbred race" means a race in which each horse participating is a thoroughbred (i.e., meeting the requirements of and being registered with the jockey club) and is ridden by a jockey.

(25) "Time of a race meeting" means the whole consecutive period for which a license is granted by the racing commissioner.

(26) "Weight for age" means standard weight according to the rules.

(27) "Entry" means a horse entered in a race, or 2 or more horses which are entered in a race and are coupled because of common ties. Common ties are all horses owned wholly or partly by the same owner or the spouse of an owner, or trained by the same trainer.

History: 1944 ACS 35, p. 24; 1954 AC, p. 5001; 1954 ACS 15, p. 78, Eff. Aug. 14, 1958; 1954 ACS 22, p. 79, Eff. May 13, 1960; 1954 ACS 38, p. 56, Eff. May 15, 1964; 1954 ACS 56, p. 30, Eff. Nov. 14, 1968; 1954 ACS 84, p. 70, Eff. June 18, 1975.

Editor's note: At the request of the Department of Agriculture, editorial changes in the form and style of the General Rules of the Racing Commissioner to correspond to current drafting practices have not been made pending revision of these rules by the Department.

R 431.2 (b) Racing officials.

(34) Officials of a race meeting are as follows: 3 stewards; 3 placing judges; 2 or more patrol judges; clerk of scales; paddock judge; official starter; racing secretary, who may also be a handicapper; timer; official veterinarian and horse identifier.

(35) (a) One steward shall be named by the racing commissioner and will serve as his personal representative in the stand. The salary of the steward representing the racing commissioner shall be paid by the racing association served. All other officials herein designated shall be appointed by the association holding the meeting. All of the officials, including the stewards, are subject to the approval of the racing commissioner. The racing commissioner reserves the right to demand a change of personnel for what he deems good and sufficient reasons. The successor to officials so replaced shall be subject to the approval of the racing commissioner.

(b) In case of emergency, the stewards during a meeting may approve a substitute to fill any of the offices.

(c) An applicant for the position of steward shall have been employed as steward, racing secretary, assistant racing secretary, starter, placing judge, patrol judge, paddock judge or clerk of scales at a recognized meet for a period of not less than 60 racing days per year during not less than 3 of the 5 preceding calendar years. If no applicant possesses these qualifications, wherever possible, a person appointed or approved as steward should have had prior experience in another branch of racing, such as owner, trainer, jockey, breeder or veterinarian.

(36) (a) An official or employee who has a direct connection with the running of a race may not wager money or any other thing of value on the result of a race, nor shall he solicit a stake or present from anyone racing at the meeting.

(b) A person other than the stewards and placing judges shall not be allowed in their respective stands during the running of a race, except with permission of the stewards.

(c) A person other than the stewards shall not be in the stewards' stand when a decision is being made on a foul claim or stewards' inquiry.

(d) A person other than those employed in the developing or projection of visual recordings of a race shall not be in the projection room while the stewards are viewing pictures to decide a foul claim or inquiry.

(e) A racing official shall not be the owner or part owner of a horse racing at a track where he is serving.

History: 1944 ACS 35, p. 25; 1954 AC, p. 5002; 1954 ACS 22, p. 80, Eff. May 13, 1960; 1954 ACS 38, p. 56, Eff. May 15, 1964; 1954 ACS 56, p. 31, Eff. Nov. 14, 1968; 1954 ACS 76, p. 78, Eff. July 18, 1973.

R 431.3 (c) Stewards.

(37) The laws of Michigan and the rules of racing supersede the conditions of a race or the regulations of a race meeting, and in matters pertaining to racing the orders of the stewards supersede the orders of the officials of the race meeting licensee.

(38) The stewards have general supervision over all other officials of a race meeting, owners, trainers, jockeys, grooms and other occupational licensees.

(39) In the performance of their duties, the stewards shall have unrestricted access to all areas used and under the jurisdiction of other racing officials and to all areas used by occupational licensees or for racing purposes.

(40) A complaint against a racing official may be made to the stewards or to the racing commissioner. Complaints made directly to the stewards shall be reported to the racing commissioner in writing together with any action which has been taken by them.

(41) Before a race has been declared official, the stewards have the authority to declare a race void and order wagers made on any horse refunded upon reaching a determination that an occurrence before or during a race calls for such action by them in the public interest.

(42) A race meeting licensee shall make a complete visual recording of each race as it is run. Such recordings shall be by motion picture cameras or other means approved by the racing commissioner. A race meeting licensee shall also provide the necessary equipment to promptly show the recordings to the stewards to assist them in making rulings on inquiries, claims of fouls or other questions pertaining to the race before the race is declared official. Such recordings shall in all cases be considered only as aids to the stewards and the stewards may render decisions without viewing the recordings.

(43) A visual recording of a race shall be preserved by the race meeting licensee in a secure manner for 1 year after the close of the meeting or for a period to be set by the stewards. Specific recordings shall be delivered to the stewards at any time during the meeting and to the racing commissioner or his authorized representative at any time upon request.

(44) For the purpose of educating and protecting jockeys, the race meeting licensee shall show such visual recordings of races as the stewards deem necessary to jockeys on the racing day following the races in question.

(45) The stewards shall keep a record of all complaints, infractions of rules, penalties and dispositions thereof and shall furnish the racing commissioner with a copy immediately after each occurrence.

(46) Entries and declarations shall be under the supervision of the stewards. They may refuse entries and when, in their opinion, safety or the best interests of racing require, they may limit entries. A declaration shall not be made without permission of the stewards.

(47) The stewards may interpret the rules of racing and make decisions on all questions arising with reference to entries and the conduct of racing.

(48) The stewards, for cause, may disqualify a horse in any race and may determine the extent of disqualification.

(49) The stewards may demand proof that a horse is not disqualified in any particular or owned in whole or in part by a disqualified person. In default of proof satisfactory to them the stewards may declare the horse disqualified.

(50a) If a question which would come under the jurisdiction of the stewards is not decided before the close of a meeting, it shall be referred to the racing commissioner for decision after proper notice has been given.

(50b) If a question arises which may or may not be covered by these rules, it shall be determined by the stewards in conformity with justice and the best interests of racing.

History: 1944 ACS 35, p. 26; 1954 AC, p. 5002; 1954 ACS 15, p. 78, Eff. Aug. 14, 1958; 1954 ACS 22, p. 80, Eff. May 13, 1960; 1954 ACS 38, p. 57, Eff. May 15, 1964; 1954 ACS 47, p. 24, Eff. Aug. 14, 1966; 1954 ACS 56, p. 32, Eff. Nov. 14, 1968; 1954 ACS 76, p. 79, Eff. July 18, 1973.

R 431.4 (d) Racing secretary.

(51) The racing secretary shall discharge all duties expressed or implied, required by the rules of racing and he shall report to the stewards all violations of the rules or regulations of the meeting.

(52) Printed for each racing day shall be a program compiled by the racing secretary, which shall contain the names of the horses that are to run in each of the races for that day, and other information usually set forth in such programs.

(53) In the event the number of entries to any purse race is in excess of the number of horses that may, because of track limitations, be permitted to start, the

"starters" for the race shall be determined by lot in the presence of those making the entries and the post positions shall be in the order in which they are drawn; the same methods shall be employed in determining the starters and post positions in split races.

(54) (a) The racing secretary shall keep a list of horses eliminated from races and they shall have preference in any race of similar distance and conditions for which they may be entered thereafter. When a horse appears in the entries and is also entered the following day such entries shall be given no consideration on the preferred list.

(b) The racing secretary shall designate the price spread and the distances and shall publish daily an up-to-date list of horses having preference and the price spread and distances of the races to which the preference pertains.

(55) Horses winning races at recognized, authentic county, district or state fairs in Michigan shall not be penalized for such winnings in races run hereafter under the jurisdiction of the Michigan racing commission. The maiden allowance, however, shall be lost by the winning of a race at any fair.

(56) If the entries to any overnight race exceed the safe number of starters for the distance as determined by the stewards and the race be not divided, as many as 6 of those which were not drawn shall be placed on the overnight as "also eligibles."

Should any of the entries be withdrawn at scratch time, as many required of the "also eligibles" shall be drawn into the race by lot.

The owner or trainer of all "also eligibles" shall, if he does not intend to start, so notify the racing secretary not later than scratch time the day of the race.

(57) Declarations in overnight races must be made to the racing secretary the day of the race at the appointed time.

(58) In overnight races horses that are physically disabled shall be excused first. Should more than 10 interests remain in the first 2 races or more than 8 interests remain in the remainder of the races, owners or trainers may declare out to those numbers by the specified scratch time of the day of the race, such right to be determined by lot when necessary.

(59) Any horse that has been excused from starting on account of physical disability or sickness shall not be entered until declared fit by the official veterinarian.

History: 1944 ACS 35, p. 27; 1954 AC, p. 5003; 1954 ACS 3, p. 10, Eff. Aug. 15, 1955; 1954 ACS 43, p. 17, Eff. Aug. 14, 1965; 1954 ACS 56, p. 32, Eff. Nov. 14, 1968.

R 431.5 (e) Handicapper.

(60) The handicapper shall append to the weights for every handicap the day and hour from which winners will be liable to a penalty and no alterations shall be made after publication except in case of omission, through error, of the name and weight of a horse duly entered, in which cases by permission of the stewards the omission may be rectified by the handicapper.

History: 1944 ACS 35, p. 27; 1954 AC, p. 5004.

R 431.6 (f) Paddock, placing, and patrol judges.

(61) The paddock judge shall keep a record of all equipment a horse carried in his previous race and a change is permitted only with consent of the stewards. A designated veterinary surgeon shall be in the paddock for each race. A horse shall be saddled in the paddock and shall be in the paddock at least 20 minutes before post time.

(62) The placing judges shall occupy the judges' stand as the horses pass the finish line and place the horses. In placing the horses the judges shall consider only

the respective noses of the horses. Their decision shall be prompt and is final unless a disqualification occurs or their decision is over-ruled by the stewards. The stewards may correct any mistakes. The camera is merely an aid to the judges.

(62a) The patrol judges, for each race, shall take their stations at the places designated by the stewards. They shall be subject to the orders of the stewards and report to them all of their pertinent observations in each race, and shall file written reports if so requested by the stewards.

History: 1944 ACS 35, p. 28; 1954 AC, p. 5004; 1954 ACS 56, p. 33, Eff. Nov. 14, 1968.

R 431.7 (g) Clerk of scales and jockey weight.

(62b) (a) The clerk of scales shall weigh all jockeys out and in. He shall accurately record and publish any scratch, overweight or change of jockey, weight or racing colors, as compared with those stated on the official program and shall promptly supply all proper racing officials and the mutuel department with all pertinent changes.

(b) The clerk of scales shall report to the racing secretary or his representative after each race the weights carried by each horse, with the name of each horse's jockey and the overweight, if any. He shall also report the post time and running time in each race and other information which may from time to time be required.

(c) The clerk of scales shall promptly report to the stewards an infraction of the rules with respect to weight, weighing or riding equipment.

(62c) (a) A jockey's weight shall include his clothing, boots, goggles, saddle and its attachments, saddle cloth or other equipment required by the stewards. None of the following items shall be included in the jockey's weight: whip, head number, number cloth, bridle, bit, reins or safety helmet.

(b) Five pounds is the limit of overweight any horse is allowed to carry. If the weight of a rider exceeds the weight the horse is to carry, the jockey shall declare the amount of overweight to the clerk of scales at the time designated by the stewards and the clerk of scales shall have the overweight posted and announced immediately. Failure on the part of the jockey to comply with this rule shall be reported to the stewards.

(62d) The clerk of scales shall maintain a record of the winning races of an apprentice jockey and at the close of the meeting or on departure of the jockey the record sheet shall be attached to the rider's copy of his contract and released to him. The clerk of scales shall inform the stewards of the expiration date of the apprentice jockey's apprentice allowance.

History: 1944 ACS 35, p. 28; 1954 AC, p. 5004; 1954 ACS 56, p. 33, Eff. Nov. 14, 1968.

R 431.8 (h) Pre-race examinations.

(63) Each horse listed in the overnight entries shall be examined physically and identified by the official veterinarian and such assistants as the racing commissioner may require, to determine its eligibility and fitness to race, the time of such examination to be within the discretion of the official veterinarian on the day of the race. The trainer shall have an attendant present when the official veterinarian comes to his stable to make a pre-race examination.

(63a) No veterinarian employed by the commissioner or by an association shall be permitted, during the period of his employment, to treat or prescribe for any thoroughbred, for compensation or otherwise, except in the case of an emergency, in which case a full and complete report shall be made to the stewards. No owner or trainer shall employ or pay compensation to any such veterinarian, either directly or indirectly, during the period for which he is so employed by the commissioner or an association.

(63b) A veterinarian licensed to practice on the grounds of a race meeting licensee shall maintain personal veterinary records which accurately record all medications and which include: name of the horse treated, date of the treatment, and name of the trainer. Such records shall be made available to proper racing officials on request. The veterinarian shall report to the state veterinarian or the stewards any internal medication given by him to a horse known by him to be entered in a race, or by his direction to any horse known by him to be entered in a race. The trainer shall also make such report to the state veterinarian or the stewards. If a forbidden drug is administered internally before scratch time to a horse which is entered to race, such fact shall be reported to the proper officials before scratch time. If administration is made after scratch time, it shall be reported to the stewards or their authorized representatives immediately.

History: 1944 ACS 35, p. 28; 1954 AC, p. 5004; 1954 ACS 23, p. 28, Eff. Aug. 12, 1960; 1954 ACS 58, p. 33, Eff. Nov. 14, 1968; 1954 ACS 66, p. 36, Eff. Feb. 2, 1971.

R 431.9 (i) Starting the race.

(64) All horses shall parade, and carry their weight from the paddock to the starting post. Any horse failing to do so may be disqualified by the stewards.

(64a) After entering the track not more than 12 minutes shall be consumed in the parade of the horses to the post except in cases of unavoidable delay. After passing the stand once, horses will be allowed to break formation and canter, warm up or go as they please to the post. When horses have reached the post, they will be started without unnecessary delay.

(65) The horses are in the hands of the starter after they leave the paddock until the start, subject to such action as the stewards may take in excusing horses, and are entitled to no further care from their attendants, except in case of accident the starter may permit jockeys to dismount and horses to be cared for during the delay, otherwise no jockey shall dismount. Unruly horses shall be placed on the schooling list.

(66) The starter is required to load horses in the starting gate in order of post position. Any exception to this must receive the approval of the stewards.

(a) A horse is a "starter" for a race when the stall doors of the starting gate open in front of the horse at the time the starter dispatches the field.

(67) The starter may recommend fine or suspension of any jockey to the racing commissioner through the stewards of the meeting.

(68) Horses shall be schooled under the supervision of the starter or his assistant, who shall report to the racing secretary horses that are schooled sufficiently to start. Unruly horses shall be placed on the schooling list and shall not start until OKed by the starter. The schooling list must be respected in all cases.

(69) A horse before becoming a starter may be excused by the stewards because of physical disability, incorrigibility or because of having been improperly entered in the race.

(70) Should a horse be excused by the stewards before becoming a starter, or should the doors at the front of the stall gate not open when the starter dispatches the field, thus causing a horse to be left, or should any horse be disqualified for bringing in underweight, the money bet on any horse or horses thus eliminated shall be deducted from the pool and refunded to the purchasers of tickets on such horse or horses; provided, however, if one horse of an entry or one of the horses grouped in the field should leave the stall gate and bring in proper weight there will be no refund on the entry nor on the field.

History: 1944 ACS 35, p. 28; 1954 AC, p. 5005; 1954 ACS 22, p. 80, Eff. May 13, 1960.

R 431.10 (j) Entries and starters.

(71) In case the name of a horse is changed, the new name together with the former name shall be published in the official entries until after the horse has started 3 times. The violation of any part of this rule may be sufficient cause for ruling off.

(72) (a) Every person who subscribes to a sweepstakes, enters a horse, or in any way participates in any race or racing under these rules, thereby obligates himself to accept these rules upon all questions relating thereto.

(b) A horse shall not be qualified to run for any purse or sweepstakes unless it has been and continues duly entered for the same; and, unless otherwise specified in the conditions of a race, or disqualified by violation of the racing rules, any horse eligible at the time of entry shall continue to be qualified except in an overnight event in which it shall also be eligible at the time of the start.

(73) An owner or trainer or their authorized representatives shall not enter or start a horse that:

(1) Is a habitual bleeder, or

(2) Has been trachea-tubed, or

(3) Has been nerved at or above the ankle.

(74) (a) A horse shall be eligible to start at the time of entry.

(b) A horse shall not be allowed to start unless duly registered and approved by the racing commissioner.

(c) A horse shall not be allowed to enter or start unless a jockey club registration certificate is on file in the office of the racing secretary, except that the stewards, for good cause, may waive this requirement if the horse is otherwise properly identified.

(d) A maiden 5 years old or older shall not be allowed to start.

(e) An entry shall not be received from husband or wife while either is disqualified. Husband and wife, unless legally separated, shall be considered a single entity. Any ruling which applies to one shall apply equally to the other.

(f) An entry shall not be received of any horse not stabled upon the grounds of the association where the race is run, unless its stabling elsewhere has been approved by the association.

(g) In entering a horse it shall be clearly identified by stating its age, name, color, whether it is a horse, mare or gelding, the names of its sire and dam, and if the sire or dam is unnamed, such further pedigree or description as will distinguish the horse intended to be entered from all other horses. If its dam is covered by more than 1 stallion, the names of all of them shall be given in order of service. A horse entered in a claiming race that is a monorchid, cryptorchid or ridgling, may be so described on the entry blank.

(h) An alteration shall not be made in an entry after the time fixed for closing, but an entry in any race may be corrected with the consent of the stewards.

(i) Joint subscriptions and entries may be made by 2 or more owners.

(j) If a horse is sold by private sale, or at public auction, the written acknowledgment of both parties is necessary to prove that it was transferred with its engagements. A copy of such acknowledgment shall be filed with the racing secretary.

(k) The trainer is responsible for the weight carried by his horse.

(75) No entry, subscription, or rights of entry under it, shall become void on the death of the nominator or subscriber.

(76) The entrance money, starting and subscription fees, in every race, shall go to the winner, unless otherwise specified in its conditions; but when from any cause a race is not run, stakes or entrance money, if paid, shall be refunded.

(77) Every entry in a purse race must be in the name of a person having ownership in the horse, and must be made in writing by the owner or trainer, or by his authorized agent, and the full name of every person having an ownership in a horse or any interest in its winnings excepting the trainer's percent, must be registered with the secretary before it starts at any meeting. Any failure to comply with this rule shall be punished by disciplinary action or suspension, and if an objection because of such default is duly made and sustained against a horse that has run in a race, its winnings in that race shall be forfeited to the horse that finishes next behind it.

(78) A horse shall not be permitted to start when it has not been fully identified by the official identifier. Absolute responsibility for bringing the correct horse to the paddock rests with the trainer. Violation of any part of this rule shall be grounds for disciplinary action. The stewards may scratch a horse whose recent workouts have not been properly recorded with their office. The trainer is responsible for reporting such workouts.

(79) The racing officials shall have power to call on any person in whose name a horse is entered to produce proof that the horse entered is not the property, either wholly or in part, of any person who is disqualified, or to produce proof of the extent of his interest or property in the horse, and in default of such proof being given to their satisfaction, may declare the horse out of the race.

(80) Entries for purse race, the conditions of which have been previously published, shall close at the time advertised in such publication, and no entry shall be received after that time, but in case races fail to fill additional time may be granted. Race meeting licensees will program all allowances, stakes or handicaps with 6 or more entrants in separate interests and all other races which attract 8 or more entrants in separate interests, with the exception of claiming races for Michigan-breds, which will be programmed with 7 or more interests.

(81) (a) Not more than 2 horses of the same ownership or interest shall be entered in any purse race or overnight event and both may start, or 1 or both may be declared at the option of the owner, but in conformity with the rules governing declarations.

(b) When making a double entry in the same ownership, the owner or trainer shall express a preference; and in no case may 2 horses start in the same ownership to the exclusion of a single entry.

(82) (a) All horses having common ties shall be coupled and run as an entry.

(b) Where 2 horses are coupled as an entry in an overnight race, either may be declared out up to 1 hour before post time for the first race.

(83) If a race be divided, drawing shall be made for new post position.

(84) An entry shall not be made unless the trainer and jockey are licensed by the racing commissioner. A trainer, who is absent from his stable or the grounds where his horses are racing for more than 2 consecutive racing days, and whose horses are entered or are to be entered, shall provide a licensed trainer to assume complete responsibility for the horses being entered or running. Such licensed trainer shall sign in the presence of the stewards a form furnished by the racing commissioner accepting complete responsibility for the horses being entered or running.

(85) If the conditions of any race require an entrance fee, it must accompany the entry.

(86) Every horse entered for a purse must be a starter unless it be declared out.

(87) Any owner who has failed to pay the jockey fee, or arrears against him or any horse owned by him, may be suspended until same is paid.

(88) In the absence of notice to the contrary, entries or declarations for

sweepstakes closing during or on the eve of a race meeting, close at the office of the racing secretary.

(89) (a) An entry and a declaration for a sweepstakes shall not be received after a designated closing hour. If an hour is not designated an entry or declaration may be mailed, telegraphed or telephoned not later than midnight of the day of closing at the track where the race is to be run, if the entry or declaration is received in time for compliance with every other condition of the race.

(b) An entry or declaration in a sweepstakes shall be made in writing by the owner of the horse of the engagement, or by an authorized agent, or an entry may be made by telegram or telephone. A telegraphic or telephonic entry, however, shall be confirmed at the earliest possible opportunity, and before the time for declaring to start, or the horse shall not be allowed to start. The person making an entry in a sweepstakes shall give his name in full and his post office address.

(c) If an irregularity of an entry or declaration in a sweepstakes is asserted to have been made, and a record of the entry or declaration is not on file in the racing secretary's office, satisfactory proof that it was mailed, telegraphed or telephoned shall be presented within a reasonable time or it shall not be received.

(90) A horse shall not be entered in more than 1 race on the same day.

(91) In naming an entry for a produce race, the produce is entered by specifying the dam and sire or sires. If a mare entered in a produce race drops her foal before January 1st, has a dead foal, more than 1 foal, or is barren, the entry of such mare is void and the entrance money, if any, shall be returned.

(92) A person who subscribed to a sweepstakes before the time fixed for naming, can transfer the right of entry under 1 or more of his subscriptions to any person or persons.

(93) A horse shall become a starter in a sweepstakes unless it has been withdrawn by notice to the clerk of the scales not less than 45 minutes before the time appointed for the race.

(95) (a) Any person not having money to his credit with the secretary, before his horse can start, shall pay to the association all entrance money, stakes and arrears then due by him on the horse he intends to start.

(b) An association may allow a horse to start in a race without its entrance money or stake, or its jockey fee for a losing mount for that race. If an association allows this it shall be liable for the same, but may have an order of recovery for the money.

History: 1944 ACS 35, p. 28; 1944 ACS 37, p. 20; 1954 AC, p. 5005; 1954 ACS 10, p. 227, Eff. June 14, 1957; 1954 ACS 15, p. 78, Eff. Aug. 14, 1958; 1954 ACS 22, p. 80, Eff. July 18, 1973; 1954 ACS 84, p. 70, Eff. June 18, 1975.

R 431.11 (k) Declarations.

(96) (a) The declaration of a horse out of an engagement is irrevocable.

(b) A declaration in a sweepstakes shall be made in writing.

(c) A declaration in a purse race shall be made by the owner, trainer or authorized agent to the racing secretary or his assistant at such time as he may appoint.

History: 1944 ACS 35, p. 30; 1954 AC, p. 5007; 1954 ACS 56, p. 35, Eff. Nov. 14, 1968.

R 431.12 (l) Eligibility, allowances, and penalties.

(97) (a) In determining eligibility, allowances and penalties, only reports, records and statistics as published in the daily racing form and monthly chart books or corresponding publications of any foreign country, or sworn statements as provided for in paragraph (b) shall be considered unless otherwise provided by

the published conditions of the race. Interpretation of the conditions of a race shall be made by the racing secretary with approval of the stewards.

(b) A horse which, during the past calendar year, or a horse in a maiden race which, at any time, has started in a race which is not reported in the daily racing form monthly chart book shall not be entered at a Michigan track until the owner has furnished to the racing secretary, at least 48 hours prior to the entry, performance records showing where and when the horse raced, the distance, the weight carried, amount earned, and the horse's finishing position and time. The performance records shall be signed and sworn to by the owner of the horse.

(98) Penalties and allowances are not cumulative, unless so declared by the conditions of the race, and shall take effect at the time of starting, except that in overnight events a horse shall have only the allowance to which it was entitled at the time of entry.

(99) Penalties are obligatory. Allowances are optional as to all or any part thereof, and in overnight events must be claimed at the time of entry.

(101) Allowances to the produce of untried horses shall be claimed before the expiration of the time for naming, and shall not be lost by winning after that time.

(102) (a) No horse shall receive allowances of weight nor be relieved from extra weight for having been beaten in 1 or more races, but this rule shall not prohibit maiden allowances or allowances to horses that have not won a race within a specified period or race of a specified value.

(b) In all overnight races for 2-year-olds, for 3-year-olds or for 4-year-olds and upward, the minimum weight shall be 112 pounds, subject to sex and apprentice allowance. This rule shall not apply to handicaps or for races written for 3-year-olds and upwards.

(103) (a) Michigan bred horses shall be allowed 5 pounds in all overnight races. To qualify as a Michigan bred, a horse shall be registered with the jockey club as foaled in Michigan and, commencing in 1967, shall be the produce of a mare which was in the state of Michigan on December 1st of the year in which said mare was bred and remained in the state until foaling and for not less than a total of 7 months of the foaling year.

(b) Races for bona fide Michigan residents will be run under the following conditions:

(1) An owner shall be a bona fide resident of the state of Michigan for a period of at least 2 years prior to the date of entrance into Michigan-owned races. If the horse is owned by more than 1 interest, all interests may qualify as Michigan residents in accordance with the above.

(2) A horse purchased by a bona fide resident of Michigan less than 30 days prior to the entrance in a Michigan-owned race, unless purchased from another bona fide Michigan resident, shall be declared ineligible. However, a horse claimed by a Michigan resident at any time prior to entering such race shall be eligible. Horses leased from nonresidents of Michigan are not eligible to race in Michigan-owned races.

(3) The racing secretary shall determine the owners eligible for a Michigan-owned race.

History: 1944 ACS 35, p. 30; 1944 ACS 37, p. 20; 1954 AC, p. 5007; 1954 ACS 22, p. 80, Eff. May 13, 1960; 1954 ACS 43, p. 17, Eff. Aug. 14, 1965; 1954 ACS 51, p. 43, Eff. Aug. 15, 1967; 1954 ACS 56, p. 35, Eff. Nov. 14, 1968.

R 431.13 (m) Winnings.

(104) (a) Winnings include all prizes for finishing first up to the time appointed for the start and shall apply to all races but not the value of any prize not of money or not paid in money. Winnings during the year shall be reckoned from January 1st, preceding.

(b) "Winner of a certain sum" means winner of a single race of that value. A horse shall not be penalized for having been beaten in a race.

(c) The winnings of a horse in a stake race shall be computed on the value of the gross earnings on and after January 1, 1961.

(d) In estimating the value of a series of races in which an extra sum of money is won by winning 2 or more of the series, the extra amount shall be estimated in the last race by which it was finally won.

(e) In case of a dead heat, each horse shall be construed to be a winner only of the amount received by the owner.

(f) Foreign winnings shall be calculated on the basis of the normal rate of exchange on the day of winning.

(g) If a race is not run or is void, stakes, forfeits and entrance money shall be returned.

(h) A race may be declared void if no qualified horse covers the course according to rule.

(106) No purse money, prize money or award of any kind shall be distributed until 48 hours after the purse money or award is won, or until results of the saliva and urine tests are returned from the commission-authorized laboratory. It shall be incumbent upon the racing commission to notify the licensee in writing if further delay is necessary.

History: 1944 ACS 35, p. 31; 1954 AC, p. 5008; 1954 ACS 10, p. 227, Eff. June 14, 1957; 1954 ACS 23, p. 26, Eff. Aug. 12, 1960; 1954 ACS 38, p. 57, Eff. May 15, 1964; 1954 ACS 56, p. 36, Eff. Nov. 14, 1968.

R 431.14 (n) Claiming races.

(107) The primary purpose of claiming races will be the classification of horses and not the building up of a racing stable.

(108) (a) In a claiming race a horse is subject to claim for his entered price by any owner, in good standing, who has started a horse at the meeting at which the claim is made. An owner may claim out of his initial race.

(b) A claim may be made by an authorized agent or trainer but an agent or trainer may claim only for the account of those for whom he is licensed as agent.

(c) A person shall not claim his own horse or cause his own horse to be claimed, directly or indirectly, for his own account.

(d) A person shall not claim more than 1 horse from any 1 race. No authorized agent although representing several owners, shall submit more than 1 claim for any 1 race. When a stable consists of horses owned by more than 1 person, trained by the same trainer, not more than 1 claim may be entered on behalf of such stable in any 1 race.

(e) The claiming price of each horse in a claiming race shall be printed in the official program and a claim for the horse shall be for the amount so designated.

(f) A claim shall be made in writing, on a form and in an envelope furnished by the association and approved by the racing commissioner. Both form and envelope shall be filled out completely, and shall be sufficiently accurate to identify the claim, otherwise the claim will be void.

(g) A claim shall be deposited in the claim box at least 15 minutes before post time of the race to which it pertains. The claim box shall be removed from the counter of the racing secretary's office 15 minutes before post time of the race as determined by the official track clock showing post time. If the clock stamp at the counter, which imprints the date, hour and minute, is used to indicate the date and time the claim envelope is deposited, the time so shown on the claim envelope shall be at least 16 minutes prior to post time of the race.

(h) Money or its equivalent shall not be put in the claim box. For a claim to be

valid the person making the claim shall have a credit balance in his account with the association's horsemen's bookkeeper of not less than the amount of the claim.

(i) A claim is irrevocable.

(j) The stewards, or their designated representative, shall open the claim envelopes for each race as soon as, but not until, the horses for the race enter the track on the way from the paddock to post.

(k) Title to a claimed horse shall be vested in the successful claimant at the time the horse becomes a starter. A horse is a starter when the stall doors of the starting gate open in front of it at the time the starter dispatches the horses.

(l) A claimed horse shall run in the interest and for the account of the owner from whom claimed.

(m) A claim not made in compliance with the rules is void. The stewards at any time may require any person filing a claim to make affidavit in writing that he is claiming in accordance with the rules. The stewards, subject to the approval of the racing commissioner, shall be the judges of the validity of a claim.

(n) If a claimed horse is excused by the stewards before the start of the race a claim for such horse is void.

(o) A horse that has been claimed shall be taken, after the race has been run, to the paddock for delivery to the claimant, who shall present written authorization for the claim from the racing secretary. A person shall not refuse to deliver to the person legally entitled thereto a claimed horse, and the horse is disqualified until delivery is made.

(p) If more than 1 valid claim is filed for the same horse, title to the horse shall be determined by lot under the supervision of 1 or more of the stewards.

(q) For a period of 30 days after the claim, a claimed horse shall not start in a race in which the determining eligibility price is less than 25% more than the price at which it was claimed. The day claimed shall not count, but the following calendar day shall be the first day and the horse shall be entitled to enter whenever necessary so that the horse may start on the 31st calendar day following the claim, for any claiming price. This provision does not apply to starter handicaps in which the weight to be carried is assigned by the handicapper. This jurisdiction will honor a similar rule in any other state.

(q1) A horse, claimed in another state before racing in this state, while racing in this state shall pay any additional penalty imposed by these rules.

(r) A claimed horse is not eligible to race in any state other than Michigan for a period of 30 days from the date of claim, or until after the close of the meeting at which it was claimed, whichever period of time is the shorter.

(s) A claimed horse shall not be sold or transferred, wholly or partly to anyone within 30 days after the day it was claimed except in another claiming race.

(t) A claimed horse shall not remain in the same stable or under the care or management of the owner or trainer from whom claimed.

(u) When a horse is claimed its engagements are included.

(v) A person who enters, or allows to be entered, in a claiming race, a horse against which a claim is held, either by mortgage, bill of sale or lien of any kind shall be subject to disciplinary action, unless, when or before entering the horse, the written consent of the holder of the mortgage, bill of sale or lien is filed with the racing secretary.

(w) A person shall not enter a horse in a claiming race without disclosing his true ownership. When a horse is claimed the successful claimant shall register the change with the racing secretary. An allegation of ownership of a horse entered in a claiming race by someone not having peaceful and undisputed possession of it will not be considered after closing time for claims on that race.

(x) A person shall not offer, or enter into an agreement to claim or not to claim, or attempt to prevent another person from claiming, any horse in a claiming race. A person shall not attempt by intimidation to prevent anyone from running a horse in any claiming race. An owner or trainer shall not make an agreement with another owner or trainer for the protection of each other's horses in a claiming race.

(y) If a stable registered at a meeting is eliminated by sale or removal from the grounds, the right to claim is void. When a stable has been eliminated by claiming, the owner so affected may obtain a certificate from the stewards of the meeting and on presentation of that certificate, the owner shall be entitled to claim during the next 30 racing days at any recognized meeting in this state, until he has claimed a horse, or has acquired a horse by some other means. Stables eliminated by fire and other hazards may also be permitted by the stewards to claim under this rule.

(z) An official or other employee of an association shall not give any information as to the filing of claims until the race has been run.

History: 1944 ACS 35, p. 31; 1944 ACS 37, p. 21; 1944 ACS 38, p. 35; 1954 AC, p. 5008; 1954 ACS 3, p. 10, Eff. Aug. 15, 1955; 1954 ACS 6, p. 18, Eff. May 15, 1956; 1954 ACS 10, p. 227, Eff. R 431.15 (o) Dead heats.

(109) When a race results in a dead heat the dead heat shall not be run off; owners shall divide first and second money.

(a) When 2 horses run a dead heat for first place, all prizes to which first and second horses would have been entitled shall be divided equally between them; and this applies in dividing prizes whatever the number of horses running a dead heat. Each horse shall be deemed a winner and liable to penalty for the amount he shall receive. Likewise, when 2 horses run a dead heat for second place, they shall divide the second and third money.

(b) When a dead heat is run for second place and an objection is made to the winner of the race, and sustained, the horses which ran the dead heat shall be deemed to have run a dead heat for the first place.

(c) If the dividing owners cannot agree as to which of them is to have a cup or other prize which cannot be divided, the question shall be determined by lot by the stewards.

History: 1944 ACS 35, p. 32; 1954 AC, p. 5010.

R 431.16 (p) Weights.

(110) When the conditions of a race do not state to the contrary, the weights set up by the jockey club are adopted as weights by the racing commissioner and apply as follows:

Distance	Age	Jan. & Feb.	Mar. & Apr.	May	June	July	Aug.	Sept.	Oct.	Nov. & Dec.
One-Half	2	x	x	x	x	x	105	108	111	114
Mile	3	117	119	121	123	125	126	127	128	129
	4	130	130	130	130	130	130	130	130	130
	5 and up	130	130	130	130	130	130	130	130	130
Six	2	x	x	x	x	x	102	105	108	111
Furlongs	3	114	117	119	121	123	125	126	127	128

	5 and up	126	126	126	126	126	125	125	124	124

Weights for the shorter distances are carried in races of intermediate lengths.

For a race in which horses are all 2 years old, the weight is 122 pounds, and 3 years old or 4 years old, 126 pounds.

Fillies 2 years old are allowed 3 pounds, and mares 3 years old or over are allowed 5 pounds before and 3 pounds after September 1st, except in handicaps, and in races where the conditions expressly state to the contrary.

A horse shall not carry less than 101 pounds in any race, including apprentice allowance. A filly or a mare is entitled to sex allowance.

History: 1944 ACS 35, p. 33; 1944 ACS 37, p. 32; 1954 AC, p. 5010; 1954 ACS 56, p. 38. Eff. Nov. 14, 1968.

R 431.17 (q) Apprentice jockeys.

(111) (a) A male person between the ages of 16 and 25 years, who has never previously been licensed as a jockey in any country and who has of his own free will, and if under age, with the written consent of his parents or guardian, bound himself to an owner or trainer for a term of not less than 3 nor more than 5 years (subject to written extension if made for less than 5 years) by written contract approved by and filed with the racing commissioner, and after at least 1 year service with a racing stable, may claim in overnight races, except handicaps, the following allowances:

(1) An apprentice jockey shall start with 5 pounds allowance; shall continue this allowance for 1 year from the date of his fifth winner. If he has not ridden 40 winners in this 1 year, he shall continue his allowance for a period not to exceed 3 years from the date of his first winner until he has ridden 40 winners.

(2) After the completion of conditions set forth in paragraph (a), for 1 year he may claim 3 pounds when riding horses owned or trained by his original contract employer if his contract has not been permanently transferred or sold since he rode his first winner.

(3) The holder of the contract at the time the apprentice rides his first winner is considered the original contract employer.

(b) A holder of an apprentice contract shall be subject to investigation as to character, ability, facilities and financial responsibility; and, at the time of making the contract, shall own in good faith a minimum of 3 horses in training, or, if a trainer, shall operate in good faith a stable of at least 3 horses.

(c) A contract for an apprentice shall provide for fair remuneration, adequate medical attention and suitable board and lodging for the apprentice; and approved provision shall be made for savings out of his earnings.

(d) Under exceptional circumstances, such as inability of an apprentice to ride because of services in the armed forces of the United States, personal injury in the conduct of his duty, restrictions on racing, or other valid reason which interferes with the allowance of 1 year from riding his first winner, or the 3 year period in riding 40 winners, the racing commissioner may extend the terms of the contract and the allowances provided by the rules of racing. The racing commissioner shall take jurisdiction on an application for extension in a case where personal injuries in the conduct of the apprentice's duty and restrictions on racing occurred at tracks licensed by the racing commissioner. All other applications for extensions shall be acted on by the commission of the state where the contract was originally executed and filed.

(e) An apprentice shall not be permitted to acquire his own contract.

(f) All apprentice contracts described in this rule shall be filed with the racing commissioner within 30 days after execution thereof or upon filing application for license with the racing commissioner. Failure of an owner or trainer to file any such contract or to obtain approval of the racing commissioner thereto, may subject such owner or trainer to revocation or suspension of his license or to such other disciplinary action by the racing commissioner as in his judgment seems proper.

(g) An original apprentice jockey contract shall remain in full force throughout its term. An amendment to the contract shall be a part of and be added to or attached to the copies in the possession of the parties. A copy of the amendment shall be sent to the racing commissioner where the original contract is filed.

(h) An applicant for an apprentice or jockey license who has never ridden in a race shall ride 2 races before being approved.

(i) An apprentice jockey may be granted an apprentice certificate issued by the stewards, in lieu of a traditional apprentice contract. The apprentice certificate grants an apprentice all allowances and conditions granted to an apprentice who is under contract.

History: 1944 ACS 35, p. 34; 1944 ACS 38, p. 35; 1954 AC, p. 5011; 1954 ACS 3, p. 10, Eff. Aug. 15, 1955; 1954 ACS 10, p. 227, Eff. June 14, 1957; 1954 ACS 15, p. 79, Eff. June 18, 1975.

R 431.18 (r) Penalties.

(112) When a race is in dispute, both the horse that finished first and any horse for which the race is authoritatively claimed, shall be liable to all the penalties attached to the winning of that race until the matter is decided.

(113) When winners of claiming races are exempt from penalties, the exemption shall apply to the winners of optional claiming races only if such winner was entered to be claimed.

(114) The handicapper shall append to the weights for every handicap, the day and hour from which winners will be liable to a penalty, if any, and no alteration shall be made after publication except in case of omission through error of the name or weight of a horse duly entered, in which case, by permission of the stewards, the omission may be rectified by the handicapper.

(115) No penalties will be recognized against horses except as to maidens or to jockeys in respect to the apprentice allowance for winning races on minor tracks. In determining which tracks are minor tracks, the racing commissioner may consider tracks not reported in the daily racing form or corresponding foreign publications.

History: 1944 ACS 35, p. 34; 1954 AC, p. 5012; 1954 ACS 15, p. 79, Eff. Aug. 14, 1958; 1954 ACS 22, p. 82, Eff. May 13, 1960.

R 431.19 (s) Equipment.

(116) (a) Permission for change of equipment from that which the horse carried in its last previous race, may be obtained only from the stewards.

(b) Equipment changes shall be made not later than time of entry.

(c) The use of spurs is prohibited.

(d) Whips are limited to 28 inches in length, including popper. Whips shall have a minimum of 3 feathers and shall not have stingers.

(e) A jockey riding in a race shall wear a safety helmet of a type approved by the racing commissioner on recommendation of the stewards and no change shall be made in any such helmet without approval of the stewards. A jockey, apprentice jockey, or any other rider in the course of exercising or ponying a thoroughbred horse shall be required to wear an approved safety helmet.

(f) A whip, blinkers or number cloth shall not be allowed on the scales nor shall a bridle or safety helmet approved by the racing commissioner be weighed.

(g) A horse shall wear head numbers in a race when the track is officially rated sloppy or muddy.

(117) Every horse entering the paddock to race shall be inspected as to its shoeing if any. An unshod horse may race.

History: 1944 ACS 35, p. 34; 1954 AC, p. 5012; 1954 ACS 15, p. 79, Eff. Aug. 14, 1958; 1954 ACS 22, p. 82, Eff. May 13, 1960; 1954 ACS 38, p. 58, Eff. May 15, 1964; 1954 ACS 56, p. 39, Eff. Nov. 14, 1968.

R 431.20 (t) Objections and appeals.

(118) (a) An objection, except a claim of interference during a race, shall be made to the stewards in writing, and signed by the objector. A protest alleging fraud may be made at any time but a protest on grounds of ineligibility, incorrect weight, age or identification shall be made within 48 hours of the race. The stewards, however, may scratch an ineligible horse at any time.

(b) Permission of the stewards is necessary before an objection can be withdrawn.

(c) A person making an objection determined by the stewards or racing commissioner to be unreasonable or frivolous shall pay all the costs and expenses incurred in determining the objection, unless relieved from such expense by the racing commissioner.

(d) An objection to a horse engaged in a race may be made by an owner, trainer, or jockey of some other horse engaged in the same race, or by officials of the meeting.

(119) Proof of the qualifications of any horse against which a protest has been lodged, may be demanded by the stewards, and in default of such proof being given, they may declare the horse disqualified.

(120) Objections to a horse based on what occurred in a race must be made before the numbers of the horses placed in the race have been officially confirmed.

(121) Owners, trainers and jockeys who make unnecessary complaints may be subject to disciplinary action.

(122) If an objection to a horse which has won or which has been placed in the money in a race is declared valid, that horse is disqualified and the other horses in the race are entitled to placing in the order in which they finished.

(123) If by reason of an objection to a horse, a race or place is erroneously awarded to another horse, the owner so wronged is entitled to the money of which he was deprived, and in case of default, the stewards shall disqualify the owner who retains the money.

(124) Pending a decision based on an objection, any price which the horse (against which the objection is lodged) may have won or may win in the race, or any money held by the association as the price of a horse claimed in a race (if involved in the determination of the case), shall be withheld until the objection is determined.

(125) In all cases of fraud, or willful deception, the time limitations shall not apply, provided the stewards are satisfied that the allegations are bona fide and are susceptible of verification; also, the stewards may, on their own initiative, call for proof that a horse neither is disqualified in any respect, nor nominated by, nor the property wholly or in part, of a disqualified person, and in default of such proof, they may declare the horse disqualified.

History: 1944 ACS 35, p. 34; 1944 ACS 37, p. 23; 1954 AC, p. 5012; 1954 ACS 10, p. 227, Eff. June 14, 1957; 1954 ACS 15, p. 79, Eff. Aug. 14, 1958; 1954 ACS 56, p. 39, Eff. Nov. 14, 1968

R 431.21 (u) Causes for disqualifications of jockeys and horses.

(126) A leading horse is entitled to any part of the track, but if any horse swerves or is ridden to either side so as to interfere with or impede another horse, it is a foul, and such horse may be disqualified, if in the opinion of the stewards it altered the finish of the race, whether the foul was willful or the result of careless riding. If the stewards determine the foul was intentional or due to careless riding, they shall recommend to the racing commissioner disciplinary action for the offending jockey.

(127) (a) The stewards, subject to the racing commissioner's approval, are vested with the power to determine the extent of disqualification in case of fouls. They may place the offending horse behind such horses as in their judgment it interfered with, or they may place it last. There shall be no right of appeal to the stewards' ruling of the disqualification or placing of the offending horse after the race is declared official.

(b) When a horse is disqualified under this rule, every horse in the same race belonging wholly or partly to the same owner or trained by the same trainer, in the discretion of the stewards may be disqualified.

(c) The time recorded for the first horse to cross the finish line shall be the official time of the race except as provided for in R 431.62(20).

(128) The stewards must take cognizance of foul riding, whether complaint is made or not, and no complaint shall be received from any person except the jockey, trainer or owner of the horses interfered with.

(129) No person shall assist the jockey in taking his equipment off his horse except by the permission of the stewards.

(130) No person shall throw any covering over any horse at the place of dismounting until its equipment shall have been removed.

(131) (a) A jockey shall weigh in at the same weight as that which he weighed out, and if short of it by 2 pounds or more his mount shall be disqualified and a refund ordered as provided by R 431.9(70).

(b) A horse which does not carry his jockey across the finish line is disqualified.

(c) A jockey who wilfully strikes another jockey or horse with his whip or grabs

the clothing or equipment of another jockey or horse may be suspended or ruled off and his mount disqualified.

History: 1944 ACS 35, p. 35; 1944 ACS 37, p. 23; 1954 AC, p. 5013; 1954 ACS 15, p. 79, Eff. Aug. 14, 1958; 1954 ACS 56, p. 40, Eff. Nov. 14, 1968; 1954 ACS 66, p. 37, Eff. Feb. 2, 1971.

R 431.22 (v) Jockeys.

(132) A jockey shall not wager on any race except on the horse which he rides in which case the wager may be made only through the owner or trainer of such horse. Any jockey who shall be proven, to the satisfaction of the racing commissioner, to have any pecuniary interest in a race horse, or to have engaged in any forbidden wagering transaction, or to have received any remuneration, gratuities or incentive in connection with a horse race from persons other than the owner or trainer of a horse ridden by such jockey shall be subject to disciplinary action up to and including license revocation.

(133) Jockeys having engagements to ride must be in the scale room at the appointed time. After making weights, jockeys must not leave the jockey room until all engagements for the day have been filled. Immediately before mounting, jockeys must test their weights on the scales provided for that purpose and upon failure to make such tests, will be subject to disciplinary action or suspended.

(134) No jockey shall have any ownership interest in any race horse.

(135) A jockey must wear the colors of the owner of the horse he is riding, except by permission of the stewards.

(a) When a horse is warming up before a race its number must be exhibited upon the arm of its rider.

(b) Rescinded.

(136) (a) The fee to a jockey in all races shall be, in the absence of a special agreement, no less than the amounts as set forth:

Gross Purse of Race	Winning Amount	Second Fee	Third Fee	Losing Fee
$ 700	$34.00	$21.00	$19.00	$15.00
800 & 900	37.00	22.00	21.00	17.00
1,000 & 1,100	39.00	24.00	22.00	17.00
1,200 & 1,300	42.00	27.00	23.00	18.00
1,400 & 1,500	44.00	29.00	24.00	19.00
1,600 & 1,700	47.00	32.00	25.00	20.00
1,800 & 1,900	50.00	35.00	27.00	22.00
2,000 & Up	50.00	40.00	30.00	25.00

(b) Such compensation shall be deposited with the horseman's bookkeeper not later than 1:00 p.m. the day of the race unless the owner or trainer has sufficient money in his account.

(c) Whether or not the jockey has earned his fee in the event of a scratch after he has weighed out for the race will be determined by the stewards according to the circumstances in each case.

(137) No jockey shall be allowed a personal valet. The association shall make the necessary arrangements for attendants upon jockeys, and said attendants shall be paid for their services by the association from an assessment levied upon and collected from the jockeys and divided equally among all the valets. The valets shall work by the rotation system prepared by the custodian at the beginning of the meeting and no jockey shall have the same attendant for more than 2 consecutive days.

(138) No person employed in the jockeys' room shall make a bet for himself or place for another a bet on any race under penalty of disciplinary action.

(139) It shall be the duty of the jockey room custodian to see that order, decorum and cleanliness are maintained in the jockey and scale rooms.

The custodian shall assist the clerk of scales as the clerk may desire.

The custodian shall make certain that no person, other than racing officials, qualified commission representatives and the necessary jockey room attendants, is admitted to the jockey room after the designated time on a race day without consent of the stewards for each time of entry.

The custodian shall oversee the care and storage of all racing colors.

The custodian shall oversee the jockey attendants.

The custodian shall report to the stewards any irregularities that occur in his province.

The custodian shall make certain that jockeys are neat in appearance when they leave the rooms to ride in a race or when they leave, under escort, to observe the running of a race.

There shall be no gambling or game of chance permitted in the jockeys' quarters.

(140) Unless fraud has been committed, all jockeys temporarily suspended shall be permitted on the day following such temporary suspension to fulfill all engagements for such day made prior to such suspension.

(141) A jockey shall put forth every reasonable effort and exercise the greatest diligence in riding a race. If in the opinion of the stewards, a jockey does not put forth every reasonable effort or use proper diligence in the riding of a race, such jockey shall be subject to disciplinary action by the racing commission on recommendation of the stewards in accordance with the gravity of the offense. Any disciplinary action imposed on a jockey must be satisfied by the disciplined jockey himself.

(142) Employers retaining the same jockey have precedence according to priority of the retainers as specified in the contracts.

(a) Conflicting claims for the services of a jockey shall be decided by the stewards.

(b) No jockey shall ride against his contract employer in any race unless the horse which he rides is trained by the same trainer as that of his contract employer.

History: 1944 ACS 35, p. 35; 1944 ACS 37, p. 23; 1944 ACS 38, p. 35; 1954 AC, p. 5013; 1954 ACS 15, p. 80, Eff. Aug. 14, 1958; 1954 ACS 38, p. 58, Eff. May 15, 1964; 1954 ACS 47, p. 25, Eff. Aug. 14, 1966.

R 431.23 (w) Jockey agents.

(143) A jockey may make his own engagements, or they may be made by his licensed agent or contract employer.

A jockey agent may act for 1 journeyman jockey and 1 apprentice jockey or he may act for 2 journeymen, upon approval by the stewards.

Licenses are transferable on approval by the racing commissioner.

(a) A jockey agent shall not come on the track or enter the winners circle after a race nor be allowed in the paddock at any time.

(b) A jockey agent shall maintain separate and accurate records of all engagements contracted for riders he represents, and at all times have these records available for examination by the stewards.

(c) Inaccuracies or failure to maintain such records as are satisfactory to the stewards constitutes neglect, the penalty for which shall be such disciplinary

action as may be determined by the racing commissioner on recommendation of the stewards.

(d) When a jockey dismisses a jockey agent, the jockey shall give immediate notice to the stewards in writing, setting forth the reasons for dismissal of the jockey agent. Failure of the jockey to comply shall be punishable by such disciplinary action as may be determined by the racing commissioner on recommendation of the stewards.

History: 1944 ACS 35, p. 36; 1954 AC, p. 5015; 1954 ACS 38, p. 58, Eff. May 15, 1964; 1954 ACS 66, p. 37, Eff. Feb. 2, 1971; 1954 ACS 76, p. 79, Eff. July 18, 1973.

R 431.24 (x) Partnerships.

(144) (a) A partnership shall be registered with the racing commissioner. Partnership papers shall include:

(1) The name and address of each person having an interest in any horse involved.

(2) The relative proportion of such interests.

(3) To whom the winnings are payable.

(4) In whose name each horse shall run.

(5) With whom the power of entry and declaration rests.

(6) The terms of any contingency, lease or other arrangement.

(b) Partnership papers shall be signed by all parties or their authorized agents. In case of an emergency, authority to sign declarations of partners may be given to the racing secretary by a telegram promptly confirmed in writing.

(c) If the racing secretary is unable to communicate with all proper parties in an attempt to obtain a declaration of partnership he may authorize a horse involved in a partnership to enter and to start in a stake race without a declaration of partnership.

(d) An alteration in a recorded partnership registration, to be effective, shall be reported in writing to the racing commissioner and signed by all parties.

(e) All the parties to a partnership and each of them shall be jointly and severally liable for all stakes, forfeits and other obligations.

(f) The part owner of a horse may assign his share or any part of it with the written consent of the other partners and the consent shall be filed with the stewards.

(g) A partner may claim for the partnership, unless otherwise stated in the partnership agreement.

History: 1944 ACS 35, p. 37; 1954 AC, p. 5015; 1954 ACS 22, p. 82, Eff. May 13, 1960; 1954 ACS 56, p. 40, Eff. Nov. 14, 1968.

R 431.25 (y) Corporations.

(145) (a) A corporation having an interest in a horse shall file with the racing commissioner at the time of filing application for an owner's license a statement in duplicate setting forth the names and addresses of all officers, directors, and shareholders of the corporation, together with the amount of the respective holdings of each shareholder and a statement as to whether or not their stock is paid in full, and including the designation of an authorized agent or agents of the corporation. The statement shall be signed by the president of the corporation, attested by its secretary and the corporate seal attached.

(b) A license as an owner shall not be granted to a corporation or the lessees of a corporation unless such corporation has no more than 10 shareholders or members, each of whom shall be the registered and beneficial owner of stock membership in the corporation. A corporation having more than 10 such shareholders may not lease for racing purposes any horse owned or controlled by it. Each shareholder shall file an application for an owner's license.

(c) A corporation which leases horses for racing purposes in this state and also all its shareholders or members shall make and file with the racing commissioner when requested by him, a report containing such information as the commissioner may specify. Upon refusal or failure to file such a report, the racing commissioner may refuse a license to a lessee of such corporation or may revoke any such license he may have granted. A transfer of stock of such corporation or change in the officers or directors shall be reported in writing to the racing commissioner within 48 hours of such change.

History: 1954 ACS 56, p. 40, Eff. Nov. 14, 1968.
Editor's note: Former R 431.25 was rescinded by 1954 ACS 22, p. 82. For text and history of rescinded rule, see 1955 AACS, p. 126.

R 431.25a (z) Partnership and corporation statements.

(145a) Statements of sales and contingencies, or arrangements, by partnerships or corporations, shall declare to whom winnings are payable, in whose name the horse shall run and with whom rests the power of entry or declaration or declaration of forfeit, and a copy of this information shall be transmitted to the racing commissioner.

History: 1954 ACS 56, p. 41, Eff. Nov. 14, 1968.

PART 2. HARNESS RACING

R 431.31 (a) Definitions.

(1) Added money early closing event.—An event closing in the same year in which it is to be contested in which all entrance and declaration fees received are added to the purse.

(2) The age of a horse shall be reckoned from January 1 of the year of foaling. The age of a foal born in November or December, 1970, and of any subsequent year shall be reckoned from January 1 of the succeeding year.

(3) Appeal.—A request for the commission to investigate, consider and review any decisions or rulings of judges or officials of a meeting. The appeal may deal with placings, penalties, interpretations of the rules or other questions dealing with the conduct of races.

(4) Claiming race.—One in which any horse starting therein may be claimed for a designated amount in conformance with the rules.

(5) Classified race.—A race regardless of the eligibility of horses, entries being selected by a committee or person on the basis of ability or performance.

(6) "Conditioned race" means an overnight event for which eligibility is determined according to specified qualifications. The qualifications may be based upon, among other things:

(a) Horses' money winnings in a specified number of previous races or during a specified previous time.

(b) A horse's finishing position in a specified number of previous races or during a specified period of time.

(c) Age.

(d) Sex.

(e) Number of starts during a specified period of time.

(f) Or any 1 or more combinations of the qualifications herein listed.

(g) Use of records or time bars as a condition is prohibited.

(h) Special qualifications for foreign horses that do not have a representative number of starts in the United States or Canada.

(7) Dash.—A race decided in a single trial. Dashes may be given in a series of 2 or 3 governed by 1 entry fee for the series, in which event a horse must start in all

dashes. Positions may be drawn for each dash. The number of premiums awarded shall not exceed the number of starters in the dash.

(8) Declarations.—Declarations shall be taken not more than 4 days in advance for all races except those for which qualifying dashes are provided.

(9) Disqualification.—It shall be construed to mean that the person disqualified is debarred from acting as an official or from starting or driving a horse in a race, or in the case of a disqualified horse, it shall not be allowed to start.

(10) Early closing race.—A race for a definite amount to which entries close at least 6 weeks preceding the race. The entrance fee may be on the installment plan or otherwise, and all payments are forfeits.

(11) Elimination heats.—Heats of a race split according to R 431.40(113) and (114) to qualify the contestants for a final heat.

(12) Entry.—Two or more horses starting in a race when owned or trained by the same person, or trained in the same stable or by the same management. Such horses are coupled as an "entry." A wager on one shall be a wager on all of them. The presiding judge shall be responsible for coupling horses. In addition to the foregoing, horses separately owned or trained may be coupled as an entry where it is necessary to do so to protect the public interest for the purpose of pari-mutuel wagering only. However, where this is done, entries may not be rejected.

(13) Expulsion.—Whenever the penalty of expulsion is prescribed in these rules, it shall be construed to mean unconditional exclusion and disqualification from any participation, either directly or indirectly, in the privileges and uses of the course and grounds of the track licensee.

(14) Extended pari-mutuel meetings.—An extended pari-mutuel meeting is a meeting or meetings, at which no agricultural fair is in progress with an annual total of more than 10 days duration with pari-mutuel wagering.

(15) Futurity.—A stake in which the dam of the competing animal is nominated either when in foal or during the year of foaling.

(16) Guaranteed stake.—Same as a stake, with a guarantee by the party opening it that the sum shall not be less than the amount named.

(17) Handicap.—A race in which performance, sex, or distance allowance is made. Post positions for a handicap may be assigned by the racing secretary. Post positions in a handicap claiming race may be determined by claiming price.

(18) Heat.—A single trial in a race 2 in 3, or 3 heat plan.

(19) In harness.—When a race is made to go "in harness" it shall be construed to mean that the performance shall be to a sulky.

(20) Late closing race.—A race for a fixed amount to which entries close less than 6 weeks and more than 3 days before the race is to be contested.

(21) Length of race and number of heats.—Races or dashes shall be given at a stated distance in units not shorter than a sixteenth of a mile. The length of a race and the number of heats shall be stated in the conditions. If no distance or number of heats are specified all races for 4-year-olds and over shall be a single mile dash.

(22) Maiden.—A stallion, mare or gelding that has never won a heat or race at the gait at which it is entered to start and for which a purse is offered other than a qualifying race.

(23) Match race.—A race which has been arranged and the conditions thereof agreed upon between the contestants.

(24) Matinee race.—A race with no entrance fee and where the premiums, if any, are other than money.

(25) Overnight event.—A race for which entries close not more than 3 days (omitting Sundays) or less before such race is to be contested. In the absence of conditions or notice to the contrary, all entries in overnight events must close not later than 12 noon the day preceding the race.

(26) Protest.—An objection, properly sworn to, charging that a horse is ineligible to a race, alleging improper entry or declaration, or citing any act of an owner, driver, or official prohibited by the rules, and which, if true, should exclude the horse or driver from the race.

(27) Record.—The fastest time made by a horse in a heat or dash which he won or in a performance against time. A standard record is a record of 2.20 or faster for 2-year-olds and 2.15 or faster for all other ages. However, any race winning record in a purse race acquired at a mile distance in 2.20 or faster, shall be considered a standard record and credit shall be given to the sire and dam for an additional performer.

(28) Stake.—A race which shall be contested in a year subsequent to its closing in which the money given by the track conducting the same is added to the money contributed by the nominators all of which except deductions for the cost of promotion, breeders or nominators awards belongs to the winner or winners. In any event, all of the money contributed in nominating, sustaining and starting payments must be paid to the winner or winners.

(29) 2 in 3.—In a 2 in 3 race a horse must win 2 heats to be entitled to first money.

(30) 2-year-olds.—No 2-year-old shall be permitted to start in a dash or heat exceeding 1 mile in distance. Except where elimination heats are required, 2-year-olds may start only in races conditioned not to exceed 2 dashes or in 2 in 3 race which shall terminate in 3 heats. In 2-year-old races any colt may default the end of the second heat or dash and the remaining colt shall be declared the winner.

(31) Walk over.—When only horses in the same interest start, it constitutes a walk over. In a "stake race" a "walk over" is entitled to all the stake money and forfeits unless otherwise provided in the published conditions. To claim the purse the entry must start and go once over the course.

(32) Winner.—The horse whose nose reaches the wire first. If there is a dead heat for first, both horses shall be considered winners. Where 2 horses are tied in the summary, the winner of the longer dash or heat shall be entitled to the trophy. Where the dashes or heats are of the same distance and the horses are tied in the summary, the winner of the faster dash or heat shall be entitled to the trophy.

(33) Wire.—The wire is a real or imaginary line from the center of the judge's stand to a point immediately across, and at right angles to, the track.

(34) Owner.—Includes owner, part owner and lessee of horse or horses.

History: 1954 ACS 27, p. 10, Eff. Aug. 14, 1961; 1954 ACS 43, p. 18, Eff. Aug. 14, 1965; 1954 ACS 78, p. 79, Eff. July 18, 1973.

Editor's note: Former R 431.31 to R 431.46 were rescinded by 1954 ACS 27, p. 10. For text and history of the rescinded rules, see 1954 AC, pp. 5016-5028.

R 431.32 (b) Violations.

(35) Any person licensed by the Michigan state racing commission or any person violating any of its rules or regulations shall be liable to the penalties herein provided, unless otherwise limited in and by the rules and regulations of the Michigan state racing commission.

(36) Any attempt to violate any of the rules and regulations of the Michigan state racing commission falling short of actual accomplishment shall constitute an offense and shall be punishable as if consummated.

(37) The penalties for violation of the rules of the commission shall be as follows:

(a) Denial, revocation or suspension of license.

(b) Monetary fines not exceeding $300.00 for each violation.

(38) The penalties provided above, where applicable, shall be exacted from all persons, whether licensed by the commission or not.

(39) Penalties for violation of any rule of the commission may be imposed by the commissioner on recommendation by the state steward or the judges at each licensed harness racing meeting.

(40) Suspension or exclusion of either husband or wife shall apply in each instance to both husband and wife.

(41) Unpaid fines.—Where monetary fines have been imposed after a final determination and remain unpaid the violator shall be automatically suspended until the fine is paid in full.

(42) The racing commissioner shall be notified of any violation of these rules.

(43) In matters not covered by these rules the state steward, the judges and other officials may render decisions according to the rules of the U.S.T.A. (United States trotting association) when such U.S.T.A. rules are not in conflict with these rules or the laws of the state of Michigan.

History: 1954 ACS 27, p. 12, Eff. Aug. 14, 1961.

R 431.33 (c) Programs.

(44) Contents.—A printed race program shall be published and offered for sale at every licensed harness race meeting. At other than limited pari-mutuel meetings, the program shall provide the name, sex, color, age, sire, dam, owner, trainer, driver and driver's colors of every horse. It shall separately give the number of starts of the current year and previous year and state the number of times the horse was first, second or third in each year and show the money winnings of each year.

(45) The program shall give at least the following particulars of at least the 6 most recent races of each horse:

(a) The date and place of each race.

(b) The condition of the racing strip.

(c) The class of each race and the distance.

(d) The name and time of the winner and the names of the horses finishing second and third.

(e) The post positions and the position at the quarter, half, three-quarter and finish of the race.

(f) Beaten lengths.

(g) A notation of the occurrence and the position in the race of every "break."

(h) The dollar odds of the wagering of said horse, if any.

(i) The name of the driver in each race and a notation by the letter "a" for amateur if his license to drive is other than a full license.

(46) Each program shall carry the speed rating of every pari-mutuel race track, the time and money winnings classification tables, an explanation of the commission rules covering the start and breaking horses as well as the pari-mutuel and daily double rules.

(47) Workouts.—Performances charted as races at training establishments shall be considered workouts and, if reported in the official program at licensed race tracks, shall be reported as "workouts."

(48) Uncharted races.—Where the most recent performance lines are from uncharted meetings they may be combined under the direction of the judges to conserve room in the program for performance lines from charted meetings.

(49) Responsibility for program.—Every licensed harness race track shall designate a program director who shall be responsible for the compilation and publication of the racing program.

(50) Misinformation.—Any person giving, or attempting to give, misleading or

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

inaccurate information of a horse's performance for inclusion in a printed racing program, shall be subject to the penalties provided by these rules.

(51) Horse actual time.—Every licensed harness race track shall utilize a timing device incorporated into the photo finish camera from which the actual time of every contestant in every race may be computed. Such actual time shall be included in the performance lines published by the program director.

(52) Breaks.—The program director shall cause a record to be made of every "break" in a race and the position in the race where same occurred. When a horse is "parked out" on a turn same shall also be recorded and included in the published performance lines.

History: 1954 ACS 27, p. 12. Eff. Aug. 14, 1961.

R 431.34 (d) Paddock.

(53) Requirements.—Every licensed harness racing association or corporation shall maintain a paddock or receiving barn from which all horses shall be raced. The paddock, or receiving barn shall be entirely enclosed with a man-tight fence, and the gate or gates through said fence shall be so manned and controlled that the general public shall be excluded therefrom. A horse ambulance, stone boat and blankets for the humane removal of horses injured on the race track shall be available for paddock use.

(54) Equipment.—During racing hours each licensed racing association shall have such suitable extra equipment in the paddock as may be required for the proper conduct of racing without unnecessary delay.

(55) Blacksmiths.—During racing hours the racing association shall provide the services of a blacksmith, within or adjacent to the paddock. Said blacksmith shall be equipped with all the tools, materials and equipment necessary to replace and refix lost or dislodged shoes.

(56) Drivers stand.—Each racing association shall provide a stand located conveniently to the gate through which horses enter the race track from the paddock or receiving barn, for the use of drivers scheduled to race.

(57) Paddock.—The paddock at all times shall be under the supervision of the paddock judge whose duties are set forth in R 431.35(65).

(58) Equipment check.—Every licensed harness race track shall cause a record to be kept showing the equipment, shoes and harness customarily worn by each horse competing at the track. The equipment, shoes and harness worn by every horse in every night's program shall be checked in the paddock before each race against such record, and all changes from the previous start shall be noted thereon, and the presiding judge notified.

(59) Admission to paddock.—All horses to be raced on a particular day or night, and their drivers, shall be in the paddock or receiving barn at the time prescribed by the judges. Such time, in no event, except with the expressed permission of the steward or presiding judge, shall be later than 1 hour prior to post time of the race in which the horse is entered to start. Horses entered in the races constituting the daily double shall be in the paddock at least 1 hour and 15 minutes before the post time of the first race of the daily double. Except for warm-up trips, no horse shall leave the paddock or receiving barn until called to the post. No person shall be admitted to the paddock or receiving barn except the owners, trainers, drivers and grooms of the horses actually competing in the races of the particular day or night, and such other persons as are specifically authorized by the commission. No driver, trainer or groom, once admitted to the paddock or receiving barn, shall leave the same until the horse or horses on account of the competing of which he was admitted to the paddock or receiving barn, shall have

completed its or their race or races; except, however, that a trainer or driver may leave the paddock or receiving barn, for the purpose of warming up a horse or horses which are to race that particular day or night. Except as hereinbefore provided with respect to drivers and trainers, and with the further exceptions of an owner who has another horse racing in a later race, no person having left the paddock or receiving barn shall be permitted to reenter until all the races of the day's or night's program shall have been completed. Where a horse is racing under a stable name, no more than 2 owners thereof exclusive of the drivers of the stable shall be entitled to admission to the paddock or receiving barn on any 1 racing day. The association shall provide the paddock judge with a list of its personnel eligible for admission to the paddock.

(60) Post parade from paddock.—Fifteen minutes before the post time for a heat or dash, the paddock judge shall cause all horses entered in such heat or dash to be formed in a parade line. Such horses shall be attended by their drivers unless specifically excused by the paddock judge. All horses in a heat or race shall parade from the paddock upon the track and before the grandstand not later than 5 minutes before post time. A horse failing to parade without being excused by the judges may be scratched from the race or its driver or trainer may be penalized. Drivers shall not engage in conversation during the post parade.

History: 1954 ACS 27, p. 13, Eff. Aug. 14, 1961.

R 431.35 (e) Race officials.

(61) Qualification of officials.—In order to qualify as a racing official by these rules, or as a racing secretary, clerk of course or timer, the applicant must satisfy the commission that he:

(a) Is of good character and reputation.

(b) Is of proper temperament.

(c) Has had adequate experience.

(d) Possesses a knowledge of the duties involved and the commission's rules of racing.

(e) Possesses the mental and physical capacity to perform the duties involved.

(62) (a) The state stewards shall be the representatives of the racing commissioner at all race meetings. The state stewards shall supervise all officials, licensees and employees or appointees of the commissioner engaged at the race meetings. The state stewards shall supervise the conduct of the racing and of the pari-mutuel department. The state steward may act in place of an official, or as an additional official or may appoint a substitute official at a race meeting. They may conduct inquiries and recommend to the commissioner the issuance of subpoenas to compel the attendance of witnesses, and the production of all relevant and material reports, books, papers, documents, correspondence and other evidence. They may administer oaths and examine witnesses and shall submit a report of all proceedings thereon.

(b) An applicant for the position of steward shall have been employed as a steward, racing secretary, assistant racing secretary, starter, placing judge, patrol judge or paddock judge at a recognized meet for a period of not less than 60 racing days per year during at least 3 of the 5 preceding calendar years. If no applicant possesses these qualifications, where possible, a person appointed or approved as steward should have had prior experience in another branch of racing, such as an owner, trainer, driver, breeder or veterinarian. Stewards and judges shall be recognized by the United States trotting association.

(63) (a) The names of the track designated judges and other racing officials shall be submitted to the racing commissioner at least 30 days before the start of

the race meeting pursuant to R 431.67(321) and shall thereafter be approved or disapproved by the commissioner.

(b) At Detroit area meetings the 3 stewards or judges shall be employed on a full time basis and shall have joint responsibility and authority in respect to rule infractions and discipline, except that for the purpose of making reports to the United States trotting association, 1 of the 3 shall hold the designation of presiding judge.

(c) If a question which would come under jurisdiction of the stewards is not decided before the close of a meeting, it shall be referred to the racing commissioner for decision after proper notice has been given.

(d) If a question arises which may or may not be covered by these rules or those of the United States trotting association, it shall be determined by the stewards in conformity with justice and the best interests of racing.

(64) Powers of judges.—The judges shall have supervision over all harness racing occupational licensees and over such subordinate officials as patrol judges, starter, paddock judge, clerk of course, and timers and specifically shall have authority to:

(a) To determine all questions of fact relating to the race.

(b) Recommend fines and penalties as prescribed by the state of Michigan commission rules and regulations.

(c) Decide any difference between parties to the race or any contingent matter which shall arise which is not otherwise provided for in the rules.

(d) Declare pools and bets "Off" in case of fraud, or to declare any horse a nonstarter and to direct the refund of all wagers made thereon, from which no appeal will be allowed. All pools and bets shall follow the decision of the judges. Such decisions in respect to pools and bets shall be made at the conclusion of the race upon the observations of the judges and upon such other facts as an immediate investigation will develop. A reversal or change of decision after the official placing at the conclusion of a heat or dash shall not affect the distribution of the betting pools made upon such official placing.

(e) Control the horses, drivers, grooms and every person or machine engaged in any portion of the racing program.

(f) Investigate every apparent or possible interference or rule violation and examine all parties connected with a race under oath as to any such violation of rules or complaint.

(g) Make such decision in the public interest required by extraordinary circumstances not covered by these rules.

(h) Maintain the judges' book, the steward's list and the accident reports.

(i) See that all notices of penalty, rulings and decisions relative to racing are prepared, delivered and posted.

(j) Conduct investigations and hearings as prescribed by these rules.

(k) Conduct drivers meetings as prescribed by these rules.

(l) Supervise entries and declarations to start and the application of preferences to race.

(m) Supervise announcements over the public address system pertaining to the race program.

(n) Control the admittance of persons to judges' stand subject to the direction of the commission.

(o) Direct the coupling of horses accepted for entry where it is necessary to protect the public interest.

(p) Closely observe the performance of all horses and drivers competing at the race meeting.

(q) Determine the result of every race contested before them and place the horses competing therein in the order of their finish.

(r) Investigate any act of cruelty to a horse on the grounds of the race track whether seen by them or reported to them and recommend penalties therefor.

(s) Investigate any accidents on the track to determine the cause thereof and promptly make a full report to the commission and record same in the judges' book.

(t) Exclude from any race, a horse which is improperly equipped, dangerous, unmanageable, unfit to race, or liable to cause accident or injury to another horse or driver in the race.

(u) Where a violation of any rule is committed, to conduct an inquiry promptly and to take such action as may be appropriate and render their report to the commission. Such inquiry must be conducted by at least 2 judges.

(v) Be in the judges' stand at least 15 minutes before the first race and remain there for 10 minutes after the last race of the daily program, and at all times when horses are upon the track during the racing program.

(w) Observe the preliminary warming up of horses and the scoring, noting the behavior of the horses and the drivers, the equipment of the horses and any lameness which might appear as well as the changes of the betting odds shown on the totalisator boards and any other incidents relating to the racing.

(x) Advise the paddock judge of the schedule of post times for the program as set by the mutuel manager and approved by the judges.

(y) Be responsible for locking the pari-mutuel machines immediately upon the horses reaching the official starting point of the race.

(z) Maintain communication with the patrol judges, by telephone from the time the starter picks up the field of horses until all horses pass the finish line. Cause a written record to be made of every "break," violation of rules or incident reported by the patrol judges. A mechanical recording may be made and preserved of all communications between the patrol judges and the main judging stand at all, other than limited, pari-mutuel meetings.

(a-1) Cause the appropriate signs to be posted on the result board to indicate objection or inquiry in event of rule violation or complaint and notify the public address announcer of the horses involved and the nature of the objection. When decision is made, to cause the objection or inquiry sign to be removed, the correct placing of the horses to be shown, and the "Official" sign to be shown.

(a-2) Display the "Photo" sign if there is less than one-half length between contending horses or if a contending horse is on a break at the finish. To examine the photo of the finish before rendering decision on the placing thereof and to cause copies of such photos to be posted and displayed to the public.

(a-3) Sign the judges' book after each race.

(a-4) At race meetings serviced by the film patrol, examine the films each morning of the races conducted the previous evening and in instances of a possible rule infraction show and explain such films to the drivers and horse owners who are involved and preserve such films for use in connection with disciplinary hearings.

(65) The paddock judge shall:

(a) Supervise the assembling of the fields of horses in the race on the track for post parades in accordance with the schedule given to him by the judges.

(b) Supervise the identification of horses in the race.

(c) Supervise the inspection of equipment and shoes; and the head and saddle numbers of each horse during warmups and before the parade.

(d) Supervise the paddock gate men.

(e) Supervise the checking in and out of horses, grooms, owners and drivers, and check the identification of all horses coming in the paddock, including the tattoo number.

(f) Supervise the activities of the paddock blacksmith.

(g) Notify the presiding judge of any change of racing equipment or shoes before the race.

(h) Notify the judges of any incident that could in any way change, delay or affect the routine progress of the racing program.

(i) Keep out unauthorized people.

(j) Inspect and supervise the maintenance of emergency equipment kept in the paddock.

(k) Notify judges of the reason for any horse returning to the paddock after having entered the track for the post parade and before the start of the race.

(l) Notify judges of all trainers and grooms who leave the paddock in an emergency.

(66) All equipment changes shall be cleared through the paddock judge who will call the judges for the necessary permission.

(67) The paddock judge will be responsible for seeing that all horses are lined up and drivers mounted on sulkies before coming on the race track. Horses will be paraded close up and straight in the positions that the horses drew. Any deviation from this rule must be granted by the judges before the horses leave the paddock. All drivers must keep their feet in the stirrups at all times. Grooms will not ride double on the sulky with the driver in front of the grandstand.

(68) Photo finish.—The judges shall determine the order of finish of every race contested at licensed harness race tracks.

Every licensed harness race track shall provide photo finish service of a type and quality approved by the commission as an aid to the judges in determining the order of finish.

Whenever the judges call for a photo finish picture to determine the order of finish they shall cause the word "Photo" to be flashed on the infield board and to remain there until the order of finish is determined.

Whenever a photo finish picture is used to determine the order of finish such picture, or true copies thereof, or projections thereof, shall be posted or projected for public inspection.

In the event of an electrical or mechanical failure of the photo finish camera, or if a distorted, deceptive or otherwise inadequate picture is developed, the judges shall decide the order of finish and such decision shall be final.

(69) Patrol judges.—The commission shall approve not less than 2 patrol judges to serve at every licensed harness race meeting. The patrol judges shall be under the direct supervision of the judges.

(70) Duties.—The patrol judges shall observe all activity on the race track at all times during the racing program. They shall immediately report to the presiding judge:

(a) Any action on the track which could improperly affect the result of a race.

(b) Every violation of the racing rules.

(c) Every violation of the rules of decorum.

(d) The lameness or unfitness of any horse.

(e) Any lack of proper racing equipment.

(71) Telephone contact with judges.—The patrol judges shall be in constant telephonic communication with the judges during the course of every race and shall immediately advise the judges of every rule violation, improper act or unusual happening which occurs at their stations.

(72) Hearings or inquiries.—The patrol judges, when directed by the state steward or the presiding judge shall attend hearings or inquiries on violations and testify thereat under oath.

(73) Duties of the clerk of course.—The clerk of the course shall:

(a) Maintain all official race summaries, records, suspensions and fines; shall prepare and serve all notices relating thereto and provide daily copies thereof to the state steward, the licensed harness race track and to the judges.

(b) Check the eligibility of all horses entered in races as well as the ownership and management thereof.

(c) Check all drivers' licenses and advise program director and judges of fines and suspensions listed thereon and whether such license is a limited one.

(d) Keep the judges' book and record legibly therein:

(1) All horses entered and their eligibility certificate numbers.

(2) Names of owners and drivers and their license numbers.

(3) A record of each heat, giving the position of horse at finish and money won.

(4) Note of drawn or ruled out horses, placing horses.

(5) Record time in minutes, seconds and fifths of seconds.

(e) Check eligibility certificate before the race, and after the race enter all information provided for thereon, including the horse's position in the race as it was chartered. In the event a horse has been placed on the steward's list, such fact and the reason therefor shall be recorded thereon.

(f) Record all protests, fines, penalties and appeals in the judges' book and see that the book is properly signed by the judges, timers, starter and clerk.

(g) Notify owners and drivers of any penalty assessed by the judges or starter and post a copy of such notice in the racing secretary's office.

(74) It shall be the duty of the racing secretary:

(a) To receive and to keep safe the eligibility certificates of all horses competing at the race track, stabled on grounds, owned or cared for by any licensed horseman and to return same to the owner of a horse or his representative upon their departure from the grounds.

(b) To be familiar with the age, class and competitive ability of all horses racing at the track.

(c) Where the rules require, to classify and reclassify horses in accordance therewith.

(d) To list horses in the classes for which they qualify and to cause such lists to be kept current and to be properly displayed in the room in which the declaration box is located for examination by horsemen and others.

(e) To write conditions and schedule the daily racing programs to be presented at the race track and to post them not less than 18 hours before declarations close, and to prepare condition books containing at least a 6 days' racing program which shall be available to horsemen at least 24 hours before the closing declaration on any race program contained therein.

(f) To provide for the listing of horses in such daily program, to examine all entry blanks and declarations; to verify all information set forth therein; to select the horses to start and the also eligible horses from the declarations in accordance with the rules governing these functions.

(g) To examine nominations and declarations in early closing events, late closing, and stake events; to verify the eligibility of all declarations and nominations, and to compile lists thereof for publication.

(75) State veterinarian.—The commission shall designate a duly licensed veterinarian at each licensed harness race track who shall be known as the state veterinarian.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

The state veterinarian, unless otherwise directed by the commission, shall devote his full time to the performance of the duties of his office and shall not render his professional services to any horsemen on the grounds of the track to which he is assigned during the course of the meeting.

The state veterinarian shall examine such horses as the judges may request him to examine and shall report the findings of such examination to the judges.

The state veterinarian shall reexamine and approve for release from the steward's list all horses that have been placed thereon for being lame, sick or injured, before they may be declared in to race again.

The state veterinarian at each track shall thereafter observe the training and warming up of the horses stabled at a licensed race meeting and shall examine any horse which shall appear ill or infirm, and report thereon to the judges.

The state veterinarian shall observe the horses in the paddock and warming up for the racing program and shall investigate into and examine such horses as appear to him, or are reported to him, to be ill or infirm. He shall report his findings to the judges.

The state veterinarian shall supervise the taking of saliva, urine or such other samples from the horses as may be directed by the judges and shall be responsible for the proper storing and delivery thereof to the state laboratory and the maintenance of required records.

The state veterinarian shall examine horses to be scratched from any race and shall certify that such horse is unfit to compete before it may be scratched.

No horse, having been scratched from a race may enter a later race without the certificate of the state veterinarian that such horse has become fit to race.

(76) Starter.—The starter shall be in the starting gate 15 minutes before the first race. He shall have control over the horses and authority to recommend fines and/or suspension of drivers for any violation of the rules from the formation of the parade until the word "go" is given. He shall notify the judges of penalties imposed by him. He shall report violations of the rules by an association or its officers, giving detailed information. He shall sign each sheet of the judges' book verifying the correctness of the record. His services shall be paid for by the association employing him. An assistant starter may be employed when an association deems it necessary.

(77) Wagering or interest by officials.—No person employed or appointed by the racing commission nor any track designated racing official subject to racing commission approval shall place wagers upon the outcome of any harness horse race conducted at a track at which he works or officiates, or have or maintain any interest, direct or indirect, in a horse participating at any licensed meeting where he works or officiates.

(78) Wagering or interest by certain track employees.—No employee of a licensed harness race track whose duties include the classification of horses shall place wagers upon the outcome of any harness horse race conducted at the track where he is employed, nor shall he directly or indirectly be the owner of any horse racing at such meeting, nor shall he participate financially directly or indirectly, in the purchase or sale of any horse racing at such meeting.

History: 1954 ACS 27, p. 14, Eff. Aug. 14, 1961; 1954 ACS 43, p. 18, Eff. Aug. 14, 1965; 1954 ACS 76, p. 80, Eff. July 18, 1973.

R 431.36 (f) Classification and eligibility.

(79) Eligibility.—For the purpose of eligibility, a racing season or racing year shall be construed as the period from December 1 to December 1, instead of the calendar year. For example, winnings during 1962 shall be construed as money won, from December 1, 1961 to December 1, 1962. All races based on winnings

will be programmed "Nonwinners of $_____." Additional conditions may be added.

(79a) Time bars prohibited.—No time records or bars shall be used as an element of eligibility.

(80) Date when eligibility is determined.—Horses must be eligible when entries close but winnings on closing date of eligibility shall not be considered. In mixed races, trotting and pacing, a horse must be eligible to the class at the gait at which it is stated in the entry the horse will perform.

(80a) Conflicting conditions.—In the event there are conflicting published conditions and neither is withdrawn by the member, the more favorable to the nominator shall govern.

(80b) Standards for overnight events.—The racing secretary should prescribe standards to determine whether a horse is qualified to race in overnight events at a meeting.

(80c) Posting of overnight conditions.—Conditions for overnight events must be posted at least 18 hours before entries close at meetings other than extended pari-mutuel meetings.

(81) In considering eligibility of a horse to race and the proper identification of the horse the racing secretary and the judges may be guided by the eligibility certificates issued by the United States trotting association. No horse will be permitted to race at a licensed Michigan pari-mutuel meeting which is 15 years of age or older. No horse may be entered in a race until the owner or trainer has supplied the racing secretary with sufficient accurate information concerning the horse's past performance, breeding, earnings and physical description to satisfy the official program requirements outlined in section (c).

(81a) There shall be an automatic fine of $10.00 on the owner of a horse declared in without possessing a current United States trotting association or validated Canadian trotting association eligibility certification at the gait the horse is declared to race.

(82) Types of races to be offered.—In presenting a program of racing, the racing secretary shall use exclusively the following types of races:

(1) Stakes and futurities.

(2) Early closing and late closing events.

(3) Conditioned races.

(4) Claiming races.

(5) Preferred races limited to the fastest horses at the meeting. These may be free-for-all races, invitational races, invitational handicap races, or preferred conditioned races. Horses to be used in such races shall be posted in the racing secretary's office and listed with the presiding judge. Horses so listed shall not be eligible for conditioned overnight races unless the conditions specifically include horses on the preferred list.

Not more than 10 such races may be conducted during a 6-day period of racing. At tracks which race less than 5 days per week, not more than 10 such races may be conducted during a 6-day period.

Purses offered for such races shall be at least 25% higher than the highest purse offered for a conditioned race programmed the same racing week. No 2-year-old or 3-year-old will be eligible to be placed on the preferred list until it has won 3 races at that track during the year or has won a lifetime of $15,000.00.

(82a) Limitations on conditions.—Conditions shall not be written in such a way that any horse is deprived of an opportunity to race in normal preference cycle. Where the word "preferred" is used in a condition, it shall not supersede date preference.

Digitized by Google

(82b) Dashes and heats.—Any dash or heat shall be considered a separate race for the purpose of conditioned racing.

(82c) Named races.—Named races are not permitted except for preferred races for the fastest horses at a meeting as set forth in subrule (82)(5) above, and invitational 2- or 3-year-old races with a purse at least 25% higher than the highest purse offered for a conditioned race programmed the same racing week.

(82d) Selection or drawing of horses.—For all overnight events, starters and also eligibles shall be drawn by lot from those properly declared in, except that a racing secretary must establish a preference system for races as provided in R 431.41(121). However, where necessary to fill a card, not more than 1 race per day may be divided into not more than 2 divisions after preference has been applied and the divisions may be selected by the racing secretary.

(83) Posting requirements.—Names of all horses shall be posted by gait with the following information:

(1) Lifetime winnings.
(2) Season's winnings.
(3) Winnings at the meeting.
(4) Wins during the season.
(5) Age, gait and sex.
(6) Previous year's earnings.
(7) Date of last win.

(84) Rejection of declaration.—The racing secretary may reject the declaration on any horse whose eligibility certificate was not in his possession on the date the condition book is published.

(84a) The racing secretary may reject the declaration on any horse whose past performance indicates that he would be below the competitive level of other horses declared, provided the rejection does not result in a race being cancelled.

(85) Substitute and divided races.—Substitute races may be provided for each day's program and shall be so designated. Such substitute may be used as part of the next program. Entries in races not filling shall be posted. A substitute race or a race divided into 2 divisions shall be used only if regularly scheduled races fail to fill.

(86) Opportunities to race.—A fair and reasonable racing opportunity shall be afforded both trotters and pacers in reasonable proportion from those available and qualified to race. Claiming races may be carded to the proportion of each week's racing program as the number of claiming authorizations on file with the racing secretary bears to the total number of horses on the grounds which are qualified and available for racing.

(86a) Qualifying races.—A horse winning a qualifying race shall not be deprived by reason of such performance of his right to start in an event limited to maidens.

(87) Entry box.—The entry box shall be opened by the presiding judge at the advertised time and the presiding judge will be responsible to see that at least 1 horseman or an official representative of the horsemen is present. No owner or agent for a horse with a declaration in the entry box shall be denied the privilege of being present. Under the supervision of the judges, all entries shall be listed, the eligibility verified, preference ascertained, starters selected and post positions drawn. If it is necessary to reopen any race, public announcement shall be made at least twice and the box reopened to a definite time.

R 431.37 (g) Identification of horses.

(88) Identification.—No horse will be permitted to race at a licensed harness meeting unless the horse has been properly identified and the responsibility for identification of each horse that starts will rest with the paddock judge and his assistants. When such characteristics are available and known identification will be established by lip tattoo numbers, photographs of "night eyes," color, markings, size, gait or any combination of the aforementioned factors, and if submitted, an eligibility certificate issued by the United States trotting association may be considered as an aid to proper identification.

(89) Misrepresentation.—Any misrepresentation of a material fact concerning the record of a horse entered at a licensed harness racing track shall be deemed a violation of these rules and subject the person or persons responsible therefor to all the penalties of this act.

(90) Examination of horse or records.—Any racing official, track official, owner or driver of a horse may call for information concerning the identity or eligibility of any horse competing at a licensed harness race track, and may demand an opportunity to examine such horse with a view to establish identity or eligibility. No owner or party controlling such horse may refuse to afford such information, or to allow such examination. No person shall demand identification of a horse without cause or to embarrass a race.

History: 1954 ACS 27, p. 20, Eff. Aug. 14, 1961.

R 431.38 (h) Claiming races.

(91) (a) Who may claim.—An owner who has declared a horse programmed to start. An authorized agent may claim for a qualified owner. A claim may be made by an authorized agent or trainer, but an agent or trainer may claim only for the account of those for whom he is licensed as an agent.

(b) Prohibitions.

(1) No person shall claim his own horse nor a horse trained by him.

(2) No person shall claim more than one horse in a race.

(3) No qualified owner or his agent shall claim a horse for another person.

(4) No owner shall cause his horse to be claimed directly or indirectly for his own account.

(92) No person shall offer, or enter into an agreement, to claim or not to claim, or attempt to prevent another person from claiming any horse in a claiming race.

(92a) No person shall enter a horse against which there is a mortgage, bill of sale, or lien of any kind, unless the written consent of the holder thereof shall be filed with the clerk of the course of the association conducting such claiming race.

(92b) Any entry in a claiming race cannot declare for a subsequent race until after the claiming race has been contested.

(92c) A person or persons who shall enter a horse in a claiming race must have the certificate of registration on file in the office of the racing secretary at the time of declaration.

(93) The owner shall have an amount equivalent to the specified claiming price plus the requisite fees for transfer of registration to this credit with the track giving the race.

(94) Owner's consent.—No declarations may be accepted unless written permission of the owner is filed with the racing secretary at the time of declaration.

(95) Program.—The claiming price shall be printed on the program and all claims shall be for the amount so designated and any horse entered in a claiming race may be claimed for the designated amount.

(96) Claim box.—All claims shall be in writing, sealed and deposited at least 15

minutes before the race in a locked box provided for this purpose by the clerk of the course.

(96a) Opening of claim box.—No official shall open said box or give any information on claims filed until after the race. Immediately after the race, the claim box shall be opened and the claim, if any, examined by the judges.

(96b) Multiple claims on same horse.—Should more than 1 claim be filed for the same horse, the owner shall be determined by lot by the judges.

(96c) A horse claimed shall be delivered immediately by the original owner or his trainer to the successful claimant upon authorization by the presiding judge. The horse's halter shall accompany the horse. The horse's shoes or toe weights shall not be removed.

(96d) Refusal to deliver claimed horse.—Any person who refuses to deliver a horse legally claimed out of a claiming race shall be suspended together with the horse until delivery is made.

(97) A horse claimed shall race in all heats or dashes of the event in the interest and for the account of the owner who declared it in the event, but title to the claimed horse is vested in the successful claimant from the time the word "go" is given in the first heat or dash, and the successful claimant becomes the owner of the horse, whether it is alive or dead, sound or unsound, or injured during the race or after it. The successful claimant of a horse programmed to start may acquire ownership of a claimed horse, even though the claimed horse was scratched and did not start in the claiming race from which it was scratched. A horse drawn in to a claiming race is eligible to be claimed. A claimant has until post time to exercise his option with the stewards or judges.

(98) Affidavit by claimant.—The judges may require any person making a claim for a horse to make affidavit that he is claiming said horse for his own account or as authorized agent and not for any other person. Any person making such affidavit wilfully and falsely shall be subject to punishment as hereinafter provided.

(98a) Penalty for 30 days.—If a horse is claimed it shall not start in another claiming race until 30 days have elapsed unless such horse is entered for a claiming price at least 20% greater than the price at which it was claimed. The day following the date of claiming shall be the first day. If a horse is claimed no right, title or interest therein shall be sold or transferred except in a claiming race for a period of 30 days following the date of claiming.

(99) Return of claimed horse to owner or stable.—No horse claimed out of a claiming race shall be eligible to start in any race in the name or interest of the original owner for 30 days, nor shall such horse remain in the same stable or under the care or management of the first owner or trainer, or anyone connected therewith unless reclaimed out of another claiming race.

(100) Claiming price.—The track shall pay the claiming price to the owner at the time the registration certificate is delivered for presentation to the successful claimant.

(100a) A horse owner is not prohibited from determining the price for which his horse shall be entered, except as provided in subrule (98a).

(101) Any person violating any of the provisions of this rule shall be fined, suspended, or expelled.

History: 1954 ACS 27, p. 21, Eff. Aug. 14, 1961; 1954 ACS 43, p. 21, Eff. Aug. 14, 1965; 1954 ACS 76, p. 81, Eff. July 18, 1973.

R 431.39 (i) Entries.

(102) All entries must:

(a) Be made in writing.

Digitized by Google

(b) Be signed by the owner or his authorized agent. Entries signed by a representative of a track member for another person are void.

(c) Give name and address of both the bona fide owner and agent or registered stable name or lessee.

(d) Give name, color, sex, sire and dam of horse.

(e) Name the event or events in which the horse is to be entered.

(103) If any facts on the entry are falsified for the purpose of deception, the guilty party shall be subject to disciplinary action.

(104) If any person shall sell a horse to be free and clear and it appears thereafter that payments were due or to become due in races of any description and for which suspension has been or is subsequently ordered, such seller shall be held for the amount due with the penalty on the same and fined an amount equal to the amount of suspension. Unless the horse has been suspended prior to a sale, a subsequent suspension for unpaid entry fees will have no effect as against a bona fide purchaser for value without notice.

(105) All entries except in overnight events not actually received at the hour of closing shall be ineligible, except entries by letter bearing postmark not later than the following day (omitting Sunday) or entries notified by telegraph, the telegram to be actually received at the office of sending at or before the hour of closing, such telegram to state the color, sex, and name of the horse, the class to be entered; also to give the name and residence of the owner and the party making entry. Whenever an entry or payment in a stake, futurity, or early closing race becomes payable on a Sunday or a legal holiday that falls on Saturday, such payment is to be due on the following Monday and if made by mail the envelope must be postmarked on or before the following Tuesday. If a payment falls on a Monday that is a legal holiday, such payment is due on Tuesday, and if made by mail must be postmarked on or before the following Wednesday.

(106) All entries and payments not governed by published conditions shall be void and any deviation from such published conditions shall be punishable by disciplinary action, and any nominator who is allowed privileges not in accordance with the published conditions of the races, or which, are in conflict with these rules, shall be debarred from winning any portion of the purse, and the said nominator and the racing secretary or other persons who allowed such privileges shall be subject to disciplinary action.

(107) A horse entered in an event to which it is ineligible may be transferred to any event to which he is eligible at the same gait.

(107a) A horse may not be entered for more than 1 race in any 1 day.

(108) All engagements shall be void upon the decease of either party or horse, prior to the starting of the race, so far as they shall effect the deceased party or horse, except when assumed by the estate or where the proprietorship is in more than one person, and any survive.

(109) Every entry shall constitute an agreement that the person making it, the owner, lessee, manager, agent, nominator, driver or other person having control of the horse, and the horse shall be subject to these rules and regulations, and will submit all disputes and questions arising out of such entry to the authority and the judgment of the commission whose decision shall be final.

(110) When entry fees exceed 85% of the advertised purse value, such excess entry fees shall be added to the purse. Where the race is split into divisions, each division shall have a purse value of not less than 75% of the advertised purse. However, entry fees in excess of the amount prescribed above may be used toward the amount that must be added. In all cases the association shall add at least 15% to the advertised purse.

(111) A veterinarian licensed to practice on the premises of a race meet licensee shall maintain a record of all medications which he administers to any horse on the premises of a licensee. The record shall be on a form approved by the racing commissioner and shall include at least the name of the horse, the date of treatment and the name of the trainer. A copy of this record shall be furnished to the owner and trainer of the horse and to the commissioner. Before administering medication, a veterinarian shall determine whether a horse has been or will be entered in a race. If a horse has been or will be entered, the veterinarian shall immediately report to the state veterinarian and the stewards that a medication has been administered. If a medication is administered to a horse that has been or will be entered in a race within the next 4 days off the premises of a race meet licensee, the owner or trainer of that horse shall furnish this record to the office of the commissioner as soon as the horse is brought on the premises of a race meet licensee.

History: 1954 ACS 27, p. 22, Eff. Aug. 14, 1961; 1954 ACS 43, p. 22, Eff. Aug. 14, 1965; 1954 ACS 51, p. 43, Eff. Aug. 15, 1967; 1954 ACS 76, p. 81, Eff. July 18, 1973.

R 431.40 (j) Entries and starters required; split races.

(112) An association must specify how many entries are required for overnight events and after the condition is fulfilled, the event must be contested except when declared off as provided in R 431.42.

In early closing events, or late closing events, if 5 or more horses are declared in to start, the race must be contested, except when declared off as provided in R 431.42.

In early closing event, if less horses are declared in than required to start, and all declarers are immediately so notified, the horse or horses declared in and ready to race shall be entitled to all the entrance money and any forfeits from each horse named.

(113) Elimination heats or 2 divisions.—

(a) In any race where the number of horses declared in to start exceeds 12 on a ½-mile track or 16 on a mile track, the race, at the option of the track conducting same stated before positions are drawn, may be raced in elimination heats. No more than 2 tiers of horses, allowing 8 feet per horse, will be allowed to start in any race.

(b) Where the race is early closing, late closing or an overnight event, the race may be divided by lot and at least 50% added to the advertised purse and raced in 2 divisions; each division racing for ½ of the total increased purse as above provided. If 3 or more divisions are necessary, the track shall add an amount sufficient to allow each division to race for at least 75% of the purse originally advertised.

(c) In any stake race or futurity, where the conditions state that the event shall be raced 1 dash on a race track of less than a mile at an extended pari-mutuel meeting, and where the number of horses declared in to start exceed 12, the race, at the option of the racing association conducting the same, stated before positions are drawn, may be divided by lot and raced in 2 elimination divisions with all money winners from both divisions competing in the final. Each division shall race 1 elimination heat for 20% of the total purse. The remainder of the purse shall be distributed to the money winners in the final.

(114) Elimination plans.—

(a) Whenever elimination heats are required, or specified in the published conditions such race shall be raced in the following manner unless conducted under another section of this rule. That is, the field shall be divided by lot and the

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

first division shall race a qualifying dash for 30% of the purse, the second division shall race a qualifying dash for 30% of the purse and the horses so qualified shall race in the main event for 40% of the purse. The winner of the main event shall be the race winner.

In the event there are more horses declared to start than can be accommodated by the 2 elimination dashes, then there will be added enough elimination dashes to take care of the excess. The percent of the purse raced for each elimination dash will be determined by dividing the number of elimination dashes into 60. The main event will race for 40% of the purse. In event there are 3 or more qualifying dashes, not more than 3 horses will qualify for the final from each qualifying dash.

If 12 horses declare to start, only the first 4 horses in each elimination dash qualify to continue. If 13 horses declare to start the first 4 horses in the division with 6 horses and the first 5 horses in the division with 7 horses qualify. If 14 or more declare to start, only the first 5 horses in each elimination dash qualify to continue.

The judges shall draw the positions in which the horses are to start in the main event, i.e., they shall draw positions to determine which of the 2 dash winners shall have the pole, and which the second position; which of the 2 horses that have been second shall start in third position; and which in fourth, etc. All elimination dashes and the concluding heat must be programmed to be raced upon the same day or night, unless special provisions for earlier elimination dashes are set forth in the conditions.

(b) In any race where the number of horses declared in to start exceeds 12 on a ½-mile track or 16 on a ⅝ or mile track, unless other numbers are specified in the conditions, the race, at the option of the track conducting the same, stated before positions are drawn, may be divided by lot and raced in 2 divisions with all heat winners from both divisions competing in a final heat to determine the race winner. Each division shall race 2 heats for 20% of the purse each heat. The remaining 20% of the purse shall go to the winner of the final heat.

(c) Wherever elimination heats are required, or specified in the published conditions of a stake or futurity, such race may be raced on the 3-heat plan, irrespective of any provisions in the conditions to the contrary. That is, the field shall be divided by lot and the first division shall race for 30% of the purse, the second division shall race for 30%, and the horses qualifying in the first and second divisions shall race the third heat for 30% of the purse. If, after the third heat, no horse has won 2 heats, a fourth heat shall be raced by only the heat winners. The race winner shall receive the remaining 10% of the purse. The number of horses qualifying to return after each elimination heat will be the same as set out in section 3 (a) of this rule.

(115) Overnight events.—Not more than 8 horses shall be allowed to start on a ½-mile track in overnight events and not more than 10 horses on larger tracks at extended pari-mutuel meetings.

(116) Where qualifying races are provided in the conditions of an early closing event, stake or futurity, such qualifying race must be held not more than 5 days prior to contesting the main event (excluding Sunday) and omitting the day of the race.

History: 1954 ACS 27, p. 23, Eff. Aug. 14, 1961.

R 431.41 (k) Declaration to start and drawing horses.

(117) (1) Unless otherwise specified in the conditions, the declaration time shall be 9 a.m. at an extended pari-mutuel meeting. The licensee shall provide a locked box with an aperture through which declarations shall be deposited. At the

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

time specified the presiding judge shall unlock the box, sort the declarations and immediately draw the positions in the presence of the owners or their representatives who may appear, after preference date and eligibility have been ascertained. In races of a duration of more than 1 dash or heat at a pari-mutuel meeting, the judges may draw positions from the stand for succeeding dashes or heats. Declarations by mail or telegraph, actually received and deposited in the box before the time specified to declare in, shall be drawn in the same manner as the others. The drawings shall be final. When a track requires a horse to be declared at a stated time, failure to so declare constitutes a withdrawal from the event.

(2) After a declaration to start has been made a horse shall not be drawn except by permission of the judges. Disciplinary action may be imposed against the horse and the party who violates the rule for drawing a horse without permission. If the person making the declaration fails to honor it and there is no opportunity for a hearing by the judges, this penalty may be imposed by the state steward.

(3) In an early closing event the withdrawing of a horse that has drawn a position in the front tier shall not affect the position of the horses that have drawn in the second tier.

(118) At all extended pari-mutuel meetings, declarations cannot be accepted without at least 1 current charted line showing a performance meeting the qualifying standards of the track for the class of race. Current performance shall be defined as a start within 30 days of the declaration date by horses making their second or subsequent start during the year. A charted line of the last start of the preceding year may be considered current past performance for horses making their first start during the year up until June 15 of such year.

(119) Entries.—When the starters in a race include 2 or more horses owned or trained by the same person, or trained in the same stable or by the same management, they shall be coupled as an "entry" where pari-mutuel wagering is conducted and a wager on 1 horse in the "entry" shall be a wager on all horses in the "entry." If the race is split in 2 or more divisions, horses in an "entry" shall be seeded in separate divisions insofar as possible, but the divisions in which they compete and their post positions shall be drawn by lot. The above provision shall also apply to elimination heats.

(120) Also eligibles.—Not more than 2 horses may be drawn as also eligibles for a race and their positions shall be drawn along with the starters in the race. In the event 1 or more horses is excused by the judges the also eligible horse or horses shall race and take the post position of the horse scratched. No horse may be added to a race as an also eligible unless the horse was drawn as such at the time declarations closed. No horse may be barred from a race to which it is otherwise eligible by reason of its preference due to the fact that it has been drawn as an also eligible. A horse moved into the race from the also eligible list cannot be drawn except by permission of the judges, but the owner or trainer of such a horse shall be notified that the horse is to race and it shall be posted at the racing secretary's office. All horses on the also eligible list and not moved into race by 9:00 a.m. on the day of the race shall be released.

(121) Preference.—Preference shall be given in all overnight events according to a horse's last previous purse race during the current year. The preference date on a horse that has drawn to race and been scratched is the date of the race from which he was scratched.

When a horse is racing for the first time in the current year, the date of the first declaration shall be considered its last race date, and preference applied accordingly.

This rule relating to preference is not applicable for any meeting at which an agriculture fair is in progress.

(122) Steward's list.—

(a) A horse that is unfit to race because he is dangerous, unmanageable, sick, lame, unable to show performance to qualify for races at the meeting, or otherwise unfit to race at the meeting may be placed on a "steward's list" by the judges and declarations on said horse shall be refused, but the owner or trainer shall be notified in writing of such action and the reason as set forth above shall be clearly stated on the notice. When any horse is placed on the steward's list, the clerk of the course shall make a note on the records of such horse, showing the date the horse was put on the steward's list, the reason therefor and the date of removal if the horse has been removed.

(b) The officials at a licensed pari-mutuel meeting will not be required to remove a horse from the steward's list as a result of the horse being allowed to race at a fair or other unlicensed race meeting, although they may take such a race into consideration in establishing the status of the horse.

(123) Driver.—Declarations shall state who will drive the horse and give the driver's colors. No driver shall be changed except by permission of the judges. When a nominator starts 2 or more horses, the judges shall approve or disapprove the second and third drivers.

(124) It shall be the duty of the judges to call a meeting of all horsemen on the grounds before the opening of an extended pari-mutuel meeting for the purpose of their electing a member and an alternate to represent them on matters relating to the withdrawal of horses due to bad track or weather conditions.

(125) In case of questionable track conditions due to weather, the judges shall call a meeting consisting of an agent of the track association, the duly elected representative of the horsemen and 1 of themselves.

(126) Upon unanimous decision by this committee of 3, that track conditions are safe for racing, no unpermitted withdrawals may be made.

(127) (a) Any decision other than unanimous by this committee will allow any entrant to scratch his horse or horses after posting 10% of the purse to be raced for. In the event sufficient withdrawals are received to cause the field to be less than 6, then the track shall have the right of postponement of an early closing event or stake and cancellation of an overnight event.

(b) Said money posted shall be retained by the horsemen's bookkeeper of the meeting and paid in to the state general fund, or refunded to the individual upon a decision of the judges hearing the case as to whether the withdrawal was for good cause.

The above procedure applies only to the withdrawal of horses that have been properly declared in and does not relate to postponement which is covered elsewhere.

History: 1954 ACS 27, p. 24, Eff. Aug. 14, 1961; 1954 ACS 43, p. 22, Eff. Aug. 14, 1965; 1954 ACS 76, p. 81, Eff. July 18, 1973.

R 431.42 (l) Postponement.

(128) In case of unfavorable weather, or other unavoidable cause, the track with the consent of the judges shall postpone races in the following manner:

(a) Early closing races, stakes and futurities. All shall be postponed to a definite hour the next fair day and good track.

(b) Any late closing race, early closing and stake or futurity, except as provided in (d) and (e) below, that cannot be raced during the scheduled meeting shall be declared off and the entrance money and forfeits shall be divided equally among the nominators who have horses declared in the eligible to start.

(c) Any late closing race or early closing race that has been started and remains unfinished on the last day of the scheduled meeting shall be declared ended and

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

the full purse divided according to the summary. In overnight events only that portion of the purse as has been contested will be paid.

(d) Any stake or futurity that has been started and remains unfinished on the last day of the scheduled meeting shall be declared ended and the full purse divided according to the summary.

(e) Unless otherwise provided in the conditions, in order to transfer stakes and futurities to another meeting, unanimous consent must be obtained from the track and from all those having eligibles in the event.

(f) Overnight events may be postponed and carried over not to exceed 2 racing days.

History: 1954 ACS 27, p. 25, Eff. Aug. 14, 1961.

R 431.43 (m) Starting.

(129) With a starting gate:

(a) The starter shall have control of the horses from the formation of the parade until he gives the word "go."

(b) After 1 or 2 preliminary warming up scores, the starter shall notify the drivers to fasten their helmet chin straps and come to the starting gate. During or before the parade the drivers shall be informed as to the number of scores permitted.

(c) The horses shall be brought to the starting gate as near ¼ of a mile before the start as the track will permit.

(d) Allowing sufficient time so that the speed of the gate can be increased gradually, the following minimum speeds will be maintained:

(1) For the first ⅛ mile, not less than 11 miles per hour.

(2) For the next 1/16 of a mile not less than 18 miles per hour.

(3) From that point to the starting point, the speeds will be gradually increased to maximum speed.

(e) On mile tracks horses will be brought to the starting gate at the head of the stretch and the relative speed mentioned in subdivision (d) above will be maintained.

(f) The starting point will be a point marked on the inside rail a distance of not less than 200 feet from the first turn. The starter shall give the word "go" at the starting point.

(g) When a speed has been reached in the course of a start there shall be no decrease except in the case of a recall.

(h) In case of a recall, a light plainly visible to the driver shall be flashed and a recall sounded, but the starting gate shall proceed out of the path of the horses.

(i) There shall be no recall after the word "go" has been given and any horse, regardless of his position, or an accident, shall be deemed a starter from the time he entered into the starter's control unless dismissed by the starter.

(j) The starter shall endeavor to get all horses away in position and on gait but no recall shall be had for a bad actor or a breaking horse.

(k) The starter may sound a recall only for the following reasons:

(1) A horse scores ahead of the gate.

(2) There is interference.

(3) A horse has broken equipment.

(4) A horse falls before the word "go" is given.

(5) Where a horse is approximately 2 lengths or more off the gate or is off stride when the gate reaches the recall pole the field shall be turned.

(6) If the same horse causes a second recall in the same race, he shall be ordered scratched and all monies wagered on the horse shall be refunded.

(l) Disciplinary action may be recommended by the starter for:

(1) Delaying the start.
(2) Failure to obey the starter's instruction.
(3) Rushing ahead of the inside or outside wing of the gate.
(4) Coming to the starting gate out of position.
(5) Crossing over before reaching the starting point.
(6) Interference with another driver during the start.
(7) Failure to come up into position.

A hearing must be granted before any penalty is imposed.

(m) No persons shall be allowed to ride in the starting gate except the starter and his driver or operator.

(n) Use of a mechanical loudspeaker for any purpose other than to give instructions to drivers is prohibited. The volume shall be no higher than necessary to carry the voice of the starter to the drivers.

(130) Horses shall be permitted to take 2 scores before going to the post and upon completion of the second score, the horses shall be gathered, by the starter, and then immediately moved into their positions behind the gate. Horses may be held on the backstretch not to exceed 2 minutes awaiting post time, except when delayed by an emergency.

(131) In the event there are 2 tiers of horses, the withdrawing of a horse that has drawn or earned a position in the front tier shall not affect the position of the horses that have drawn or earned positions in the second tier.

Whenever a horse is drawn from any tier, horses on the outside move in to fill up the vacancy.

(132) If it becomes necessary to start horses without a gate, the starter shall have control of the horses from the formation of the parade until he gives the word "go." He shall be located at the wire or other point of start of the race at which point as nearly as possible the word "go" shall be given. No driver shall cause unnecessary delay after the horses are called. After 2 preliminary warming up scores, the starter shall notify the drivers to form in parade.

(133) The driver of any horse refusing or failing to follow the instructions of the starter as to the parade or scoring ahead of the pole horse may be set down for the heat in which the offense occurs, or for such other period as the starter shall determine, and may be fined. Whenever a driver is taken down the substitute shall be permitted to score the horse once. A horse delaying the race may be started regardless of his position or gait and there shall not be a recall on account of a bad actor. If the word is not given, all the horses in the race shall immediately turn at a signal, and jog back to their parade positions for a fresh start. There shall be no recall after the starting word has been given.

(134) The horses shall be deemed to have started when the word "go" is given by the starter and all the horses must go the course except in case of an accident in which it is the opinion of the judges that it is impossible to go the course. Drivers must be mounted at the finish of the race or the horse must be placed as not finishing.

(135) If in the opinion of the judges or the starter a horse is unmanageable or liable to cause accidents or injury to any other horse or to any driver it may be sent to the barn, but the entry and declaration fees on the horse shall be refunded. When this action is taken the starter will notify the judges who will in turn notify the public.

(136) Bad acting horses.—At meetings where there is no wagering, the starter may place a bad acting horse on the outside at his discretion. At pari-mutuel meetings such action may be taken only where there is time for the starter to

notify the judges who will in turn notify the public prior to the sale of tickets on such horse. If tickets have been sold, the bad acting horse must be scratched under the provision of subrule (135).

(137) The arms of all starting gates shall be provided with a screen or a shield in front of the position for each horse, and such arms shall be perpendicular to the rail.

History: 1954 ACS 27, p. 26, Eff. Aug. 14, 1961; 1954 ACS 43, p. 23, Eff. Aug. 14, 1965; 1954 ACS 78, p. 82, Eff. July 18, 1973.

R 431.44 (n) Drivers-trainers.

(138) Application for license.—Every person desiring to drive a harness horse at a race meeting licensed by the Michigan state racing commission shall be required to obtain a license from the commission. Applications may be filed at the commission office or with the state steward.

(139) Qualification for driver's license.—Every applicant for a license to drive a harness horse at a race meeting licensed by the state of Michigan racing commission in addition to any other requirements heretofore mentioned shall satisfy the commission:

(a) That he has had at least 1 year's training experience and has shown the ability to drive.

(b) That he is familiar with the rules of racing, is at least 16 years of age, is of good moral character and is in sound physical and mental condition.

No person shall be permitted to drive at a race meeting licensed by the Michigan state racing commission without a Michigan state license, but the state steward or the judges at any race meeting may refuse to permit any licensed driver to compete in a race if, in the judgment of such official or officials, he is unfit to drive.

(140) Safety helmets.—Every driver competing in a race or warming up a horse shall wear a safety helmet of a type approved by the racing commission, or a type of equivalent quality, on recommendation of the steward and no change shall be made in any such helmet without the approval of the steward. Chin straps must be fastened at all times.

(141) Physical examination—eye test.—If the steward has any reason to believe that an applicant for a driver's license has faulty vision or is otherwise physically unfit, he may require the applicant to submit himself to an eye examination or a complete physical examination. Failure to undergo such examination or to receive a satisfactory rating on such an examination will be grounds for denial of the license.

(142) Officials may not drive.—No officer, director or employee of a licensed Michigan harness racing track shall drive in a race at a track with which he is associated, except in nonbetting races.

(143) Driver's colors.—No driver or trainer shall be allowed to drive in any race or public performance, or otherwise appear on the race track during the racing program unless wearing his own or his owner's registered colors, and no driver may appear in colors registered in the name of another, without the special permission of the judges. No driver or trainer wearing colors may appear at any betting booth or window at a race track, or at any bar or restaurant dispensing alcoholic beverages.

(144) Driver's meeting.—Before the first heat or race at any meeting is contested the racing officials and the drivers shall meet at a time and place to be designated by the judges. Notice of the time and place of such meeting shall be published on the bulletin board in the office of the racing secretary at least 48

hours prior to the meeting, and shall be announced over the public address system 1 hour prior to the meeting.

The officials will announce any special rules affecting the race meeting and shall construe such of the rules of racing as shall be requested. At the conclusion of such meeting all drivers shall be presumed to be familiar with the rules of racing.

No driver will be permitted to drive unless he shall have attended such meeting or have met with the officials thereafter by appointment and at their convenience.

(145) Examination of license.—No driver will be permitted to drive in a race at a licensed harness racing meeting until he has presented his Michigan state racing commission driver's license to the clerk of course for examination.

(146) Substitutions of drivers.—If the judges believe a driver is unreliable, unfit or incompetent to drive, or if he refuses to comply with the direction of the judges, or is reckless or unmannerly in his conduct, he may be removed and another driver substituted any time after the positions have been drawn in a race. Compensation of such substitute driver may be fixed in the discretion of the judges.

(147) Without limiting the generality thereof the license of any driver may be suspended, revoked or money fine imposed at any time for:

(a) Violation of any rule of the racing commissioner.

(b) Failure to obey the instructions of a racing official appointed or designated by the racing commissioner.

(c) Any act or conduct detrimental to the sport including, but not limited to:

(1) Failure to drive in a race when programmed unless excused by the judges.

(2) Loud, boisterous, offensive or profane language.

(3) Consumption of intoxicating beverages or unfit condition to drive.

(4) Assault upon any other person, fighting in silks or disturbing the peace.

(5) Smoking in silks while on the race track.

(6) Warming up a horse without silks at any time after the admission gates are open.

(7) Failure to participate in post parade, unless specifically excused by the judges.

(148) Drivers shall, when directed by the judges, submit to a breath analyzer test and if the results thereof show a reading of a more than .05% of alcohol in the blood, such person shall not be permitted to drive, and an investigation will be started to determine if there has been a violation of subrule (147)(c)(3).

History: 1954 ACS 27, p. 27, Eff. Aug. 14, 1961; 1954 ACS 76, p. 82, Eff. July 18, 1973.

R 431.45 (o) Racing and track rules.

(149) Although a leading horse is entitled to any part of the track except after selecting his position in the home stretch, neither the driver of the first horse or any other driver in the race shall do any of the following things, which shall be considered a violation of driving rules:

(a) Change either to the right or left during any part of the race when another horse is so near him that in altering his position he compels the horse behind him to shorten his stride, or causes the driver of such other horse to pull him out of his stride.

(b) Jostle, strike, hook wheels, or interfere with another horse or driver.

(c) Cross sharply in front of a horse or cross over in front of a field of horses in a reckless manner endangering other drivers.

(d) Swerve in and out or pull quickly.

(e) Crowd a horse or driver by "putting a wheel under him."

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(f) "Carry a horse out" or "sit down in front of him," take up abruptly in front of other horses so as to cause confusion or interference among the trailing horses, let a horse pass inside needlessly, or do any other act which constitutes what is popularly known as "helping."

(g) Commit any act which shall impede the progress of another horse or cause him to "break."

(h) Change course after selecting a position in the home stretch and swerve in or out, or bear in or out, in such manner as to interfere with another horse or cause him to change course or take back.

(i) Drive in a careless or reckless manner.

(j) Lay off a normal pace and leave a hole when it is well within the horse's capacity to keep the hole closed.

(k) Fail to set and maintain a pace reasonable for that class of horse.

(150) All complaints by drivers of any foul driving or other misconduct during the heat must be made at the termination of the heat, unless the driver is prevented from doing so by an accident or injury. At the conclusion of each heat or dash, every driver shall return in the sulky to the judges' stand to be dismissed by the judges. Any driver desiring to enter a claim of foul or other complaint of violation of the rules, must before dismounting indicate to the judges his desire to enter such claim or complaint and forthwith upon dismounting shall proceed to the telephone or judges' stand where and when such claim, objection, or complaint shall be immediately entered. The judges shall not cause the official sign to be displayed until such claim, objection, or complaint shall have been entered and considered.

(150a) Frivolous foul claim.—Any person or persons lodging an objection determined by the stewards or racing commissioner to be unreasonable or frivolous must pay all the costs and expenses incurred in determining the objection, unless relieved from such expense by the Michigan racing commissioner.

(151) If any of the above violations is committed by a person driving a horse coupled as an entry in the betting, the judges shall set both horses back, if, in their opinion, the violation may have affected the finish of the race. Otherwise, penalties may be applied individually to the drivers of any entry.

(152) In case of interference, collision or violation of any of the above restrictions, the offending horse may be placed behind all the unoffending horses in that heat or dash, and in the event such collision or interference prevents any horse from finishing the heat or dash, the offending horse may be disqualified from receiving any winnings; and the driver may be fined, suspended or expelled.

(153) (a) Every heat in a race must be contested by every horse in the race and every horse must be driven to the finish. If the judges believe that a horse is being driven, or has been driven, with design to prevent his winning a heat or dash which he was evidently able to win, or is being raced in an inconsistent manner, or to perpetrate or to aid a fraud, they shall consider it a violation and the driver, and anyone in concert with him to so affect the outcome of the race or races, may be subject to disciplinary action. The judges may substitute a competent and reliable driver at any time. The substituted driver shall be paid at the discretion of the judges and the fee retained from the purse money due the horse, if any.

(b) In the event a drive is unsatisfactory due to lack of effort or carelessness, and the judges believe that there is no fraud, gross carelessness, or a deliberate inconsistent drive they may recommend a penalty under this subsection not to exceed 10 days' suspension, or a $100.00 fine.

(c) In the event a penalty is placed on a driver under either subdivision (a) or (b) above, the horse must be placed on the steward's list and may not be removed

therefrom until it goes in a qualifying race and qualifies in a time comparable to the class of the horse.

(154) If in the opinion of the judges a driver is for any reason unfit or incompetent to drive or refuses to comply with the directions of the judges, or is reckless in his conduct and endangers the safety of horses or other drivers in the race, he may be removed and another driver substituted at any time after the positions have been assigned in a race, and the offending driver shall be subject to disciplinary action. The substitute driver shall be properly compensated.

(155) If for any cause other than being interfered with or broken equipment, a horse fails to finish after starting in a heat, that horse shall be ruled out.

(156) Loud shouting or other improper conduct is forbidden in a race.

(157) Drivers will be allowed whips not to exceed 4 feet 8 inches, plus a snapper not longer than 8 inches.

(157a) The use of a goading device, chain, mechanical device or appliance other than the ordinary whip or crop upon a horse in a race is prohibited. Brutal or indiscriminate use of the whip or crop is prohibited. A fine of not more than $100.00 or suspension for a violation of this rule may be levied by the stewards or judges.

(157b) The owner and trainer shall equip a sulky used in a race with uncolored or colorless wheel discs on the inside and outside of the wheel of a type approved by the racing commissioner. The stewards or judges may order the use of mud guards at pari-mutuel tracks according to weather conditions.

(158) No horse shall wear hopples in a race unless he starts in the same in the first heat, and having so started, he shall continue to wear them to the finish of the race, and any person found guilty of removing or altering a horse's hopples during a race, or between races, for the purpose of fraud, shall be suspended or expelled. Any horse habitually wearing hopples shall not be permitted to start in a race without them except by the permission of the judges. Any horse habitually racing free legged shall not be permitted to wear hopples in a race except with the permission of the judges. No horse shall be permitted to wear a head pole protruding more than 10 inches beyond its nose.

(159) Breaking.—

(a) When any horse or horses break from their gait in trotting or pacing, their drivers shall at once, where clearance exists, take such horse to the outside and pull it to its gait.

(b) The following shall be considered violations of section 11 (a):

(1) Failure to properly attempt to pull the horse to its gait.

(2) Failure to take to the outside where clearance exists.

(3) Failure to lose ground by the break.

(c) If there has been no failure on the part of the driver in complying with 11 (b), (1), (2) and (3), the horse shall not be set back unless a contending horse on his gait is lapped on the hind quarter of the breaking horse at the finish.

(d) The judges may set any horse back 1 or more places if in their judgment any of the above violations have been committed.

(160) If in the opinion of the judges, a driver allows his horse to break for the purpose of fraudulently losing a heat, he shall be subject to disciplinary action.

(161) To assist in determining the matters contained in sections 11 and 12, it shall be the duty of 1 of the judges to call out every break made, and the clerk shall at once note the break and character of it in writing.

(162) The time between heats and for any distance up to and including a mile shall be not less than 25 minutes; for any distance between 1 and 2 miles, 30 minutes.

(163) Horses called for a race shall have the exclusive right of the course, and all other horses shall vacate the track at once, unless permitted to remain by the judges.

(164) In the case of accidents, only so much time shall be allowed as the judges may deem necessary and proper.

(165) The driver of a horse must be responsible for that horse when the horse comes on the track, when the horse is in the paddock and until such time as the horse has completed racing and has left the track. It shall be the responsibility of a driver, when warming up another horse, to select a driver to parade his horse.

(166) Drivers in colors will be under the jurisdiction of the paddock judge and will not be permitted to talk to anyone except their owners, their stable employees, officials and other drivers in colors.

(167) Once entering the paddock area, trainers, drivers and grooms shall remain in such restricted area until they have completed their duties for the night's racing. The one exception to this ruling is that trainers and drivers may leave the area for the purpose of warming up horses not yet required to be in the paddock.

(168) Drivers in colors will not be permitted in the grandstand area.

History: 1954 ACS 27, p. 28, Eff. Aug. 14, 1961; 1954 ACS 43, p. 23, Eff. Aug. 14, 1965; 1954 ACS 76, p. 82, Eff. July 18, 1973.

R 431.46 (p) After the race.

(169) Horses involved in a win photo shall be turned in front of the grandstand until the results of the photo are posted.

(170) After the race, drivers must return, in the sulky, to the judges' stand and salute the judges, and shall dismount or leave the track only when permission to do so shall have been granted by the judges. The winner will enter the winner's circle and will be in the custody of the person responsible for taking him to the paddock for saliva test.

(171) All winners must report to the veterinarian after the race for a saliva and urine test. The veterinarian may, at the discretion of the judges, make test on any other horse or horses in the race.

(172) Any driver wishing to claim foul must do so immediately upon returning to the patrol judge's stand on the first turn. After lodging an objection at the patrol judge stand, the driver shall immediately go to the draw gate phone and converse with the judges concerning the objection.

(173) All horses starting a race must finish except in case of an accident. Offense subject to suspension and fine.

(174) Horses must not be moved in or out of the grounds, or moved from stall to stall without receiving approval of the stable superintendent.

History: 1954 ACS 27, p. 30, Eff. Aug. 14, 1961.

PART 3. MUTUELS

R 431.51 (a) General rules.

(274) There will be no exchange of tickets after purchaser has left sales window.

(275) No minors shall be allowed to wager.

(276) Wagers shall be paid when a race is declared official by the stewards. A race shall be deemed official when the official sign is purposely displayed or such announcement made. Any subsequent ruling of the stewards with regard to the award of purse money shall have no bearing on the mutuel payoff.

(277) Tickets altered or mutilated in any way will be void and worthless. Torn tickets, if properly identifiable will be honored at the mutuel department information window.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(278) Responsibility for cashing winning tickets and passing upon the validity of torn tickets rests with the racing association until September 1 of the year following the race meeting at which such tickets were sold.

(279) No winning ticket shall pay less than $2.20 on a wager of $2.00 and the minimum value of winning tickets of a higher denomination shall be in direct proportion thereto. No licensee shall use any part of the state tax or the state's share of the breakage to make up any minus pool.

(280) Should there be any error in calculation where the public is underpaid the amount of the underpay shall be added to the same pool on the next race. If such an error should result in the public being overpaid, the amount of the overpay will be chargeable against the funds of the racing association.

(281) Payments will be made only on the first 3 horses passing the finish line, according to the official order of finish, except in the case of a dead heat for show in which case payments will be made on the first 4 horses.

(282) If a horse be excused from racing for any reason whatsoever after the betting thereon has begun, or becomes locked in the starting gate, the money bet on that horse shall be refunded; except that when the horse is part of an entry or the "field," there shall be no refund, provided that the entry or the "field," as the case may be, has at least 1 actual starter.

(283) (a) A thoroughbred race meeting licensee in a city area shall retain as his commission 15% of all moneys wagered and shall pay to the state treasurer from his commission 8% of all moneys wagered on pari-mutuel wagering, plus ½ of the breaks, as defined in subrule (290).

A thoroughbred race meeting licensee outside a city area shall retain as his commission 15% of all moneys wagered and shall pay to the state treasurer from his commission 6% of all moneys wagered on pari-mutuel wagering, plus ½ the breaks.

(b) Each harness race meeting licensee shall retain as his commission 15% of all moneys wagered and shall pay to the state treasurer from his commission 5% of all moneys wagered on pari-mutuel wagering, plus ½ the breaks.

DAILY DOUBLE

(284) The daily double is not a parlay and has no connection with or relation to the mutuel betting. All tickets on the daily double will be calculated in an entirely separate pool.

(285) All daily double tickets will be to WIN (straight) only.

(286) If no ticket is sold combining the winners of the daily double, the pool shall then be apportioned equally between those having tickets including the winner of the first half (or race) of the daily double and those having tickets including the winner in the second half (or race) of the daily double in the same manner in which a place pool is calculated and distributed.

(287) (a) Should any horse entered in either the first or second half of a daily double and not coupled with a starter be scratched, excused by the stewards, or prevented from racing before the race in the first half of a daily double is run, then all money wagered on any horse or horses so excused or prevented from racing shall be deducted from the daily double pool and refunded to the purchaser or purchasers of tickets on the horse so excused or prevented from racing.

(b) Should any horse or horses not coupled with a starter be scratched, excused by the stewards or prevented from racing because of the failure of the stall doors or starting gate to open in the last half of a daily double and after the first race in a daily double has been declared official, all tickets including such horse or horses shall become consolation tickets and shall be paid a price per dollar denomination determined as follows:

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

The net daily double pool (the gross daily double pools less tax) shall be divided by the total purchase price of all tickets designating the winner of the first daily double race and the quotient obtained shall constitute the price to be paid. The total amount payable on consolation tickets shall be deducted from the net daily double pool.

(288) Subrules numbered (274) to (287) will be printed in type no smaller than 6 point in size in the daily program sold by each racing association. Subrules numbered (274) to (313)(f) will be posted for the benefit of the public in at least 2 places in the betting area of each racing association and in at least 4 places in those racing associations providing a club house area.

(a) Mutuel department rules printed in the program or posted for the public, shall be preceded by the following:

All payoffs by the pari-mutuel departments of race meeting licensees licensed by the Michigan racing commission are subject to the regulations of the United States government and the internal revenue service.

(289) Should any emergency arise in connection with the operation of the mutuel department not covered by these rules and an immediate decision is necessary, the mutuel manager shall make the decision and a prompt report of the facts will be made to the racing commission.

(a) If an error is made in posting the odds or the payoff figures on the public board, it shall be corrected promptly and only the correct amounts shall be used in the payoff; irrespective of the error that may have appeared on the public board. If because of mechanical failure it is impossible to promptly correct the posted payoff, a statement shall be made over the public address system stating the facts and corrections.

(290) Breakage shall at all times be computed at 10 cents and defined as the cents over any multiple of 10 otherwise payable to a patron on a wager of $1.00.

(291) A copy of all calculating sheets and daily double take-off sheets shall be in the hands of the state auditors before the result of each race is declared official.

(292) If for any reason the tote ticket machines are locked before the usual closing time, they shall remain closed and all payoffs on said race computed on the sums wagered at that time.

(293) Racing commission employees and officials, association racing officials, the mutuel department manager, state auditors and mutuel department calculating room employees are not permitted to wager. Penalty for such violation shall be dismissal. No jockey and no driver in colors shall enter the betting area.

(294) If a race is cancelled by the stewards after wagering begins on that race, all said money shall be refunded. If for any reason the first half (or race) of a daily double is cancelled and declared "no race," full and complete refund will be made of the daily double pool. If for any reason the second race of a daily double is cancelled and declared "no race," the net daily double pool shall be paid equally to the holders of the daily double tickets which include the winner of the first half of a daily double.

(295) In all races with 5 or more separate interests which start, racing associations shall provide win, place and show betting; in all races with 4 separate interests which start they shall provide win and place betting; in races of 3 or 2 separate interests which start they shall provide only win betting; except in stake races which shall be regulated in this respect by the stewards or judges. Pari-mutuel tickets shall be sold accordingly.

(296) If, through accident or otherwise a horse or horses should be withdrawn and the starting field reduced where it be necessary to cancel the show or place pool, said pool will be refunded. However, holders of combined tickets shall have

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

action for that portion of the ticket not called off and a refund on the portion called off.

(297) All race tracks in the Detroit area under the jurisdiction of the commission are required to install and maintain mechanically operated totalisators and result boards in plain view of patrons. Any racing association in the Detroit area which maintains a daily average mutuel handle of $250,000.00 or over for at least 3 years within any given 5-year period will be required before the following year to install the large type display board which shows the public the total amount wagered on each horse in each of the 3 pools.

(298) No pari-mutuel tickets shall be sold except at regular ticket windows, properly designated by signs showing the types of tickets sold at such windows, or through authorized messengers. No such tickets shall be exchanged.

(299) Payment on winning pari-mutuel tickets shall be made only upon presentation and surrender of such tickets.

(300) All winning pari-mutuel tickets must be presented for payment to the racing association concerned before September 1 of the year following the year of their purchase and after that date to the state board of escheats, Lansing, Michigan.

(301) Mutuel sellers' windows shall open at least 30 minutes before the first race and at least 20 minutes before each other race. Mutuel cashiers' windows shall open as soon as possible after the "official" results have been posted.

(302) The pari-mutuel machines will be locked by the state steward immediately upon the start of the race through an electrical control in the steward's stand. If the start of the race is delayed more than 2 minutes beyond the official post time as shown on the results board without adequate reason or explanation, the state steward may at his discretion lock the pari-mutuel machines before the start of the race.

(303) No association shall be responsible for ticket sales not completed before the machines are locked.

(304) Daily double machines will be locked by the state steward at the same time as the regular pari-mutuel machines.

(305) Mutuel cashiers' windows shall remain open until 30 minutes after the last race.

(306) Bookmaking, or betting other than through the pari-mutuel system conducted by a duly licensed racing association is strictly prohibited. Bookmaking is a criminal offense and is punishable under state statutes by a fine or imprisonment or both.

(307) No refunds of money paid for pari-mutuel tickets to be made as directed by the rules of the commission shall be made except upon the presentation and surrender of the tickets.

(308) Pool calculations:

The pari-mutuel pools shall be calculated and distributed as follows:

(a) In any race, the win, place, show and daily double pools are treated separately and calculated independently of each other.

(b) In all pools the net amount for distribution shall be all sums deposited in the pari-mutuel pool less 15% of the total deposits plus the breaks as defined in subrule (290) and in section 14 of Act No. 27, Public Acts of 1959, as amended.

(c) Win pool. The net pool divided by the amount wagered on the horse finishing first, determines the payoff per dollar, including profit and wager.

When 2 horses finish first in a dead heat, the money in the win pool is divided the same as in a place pool calculation.

(d) Place pool. The amounts wagered on horses finishing first and second are deducted from the net pool to determine the profit. This profit is divided in half,

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j
Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

and the halves, in turn, divided by the 2 amounts mentioned above. This determines the profit per dollar, to which is added the wager.

When 2 horses finish second in a dead heat, ½ of the profit is allocated to the tickets representing wagers on the horse finishing first, and the remaining half is allocated equally to the wagers on horses finishing in the dead heat for second.

When 2 horses in the "field" or coupled as an entry run first and second, the place pool shall be distributed the same as in a win pool.

(e) Show pool. The amounts wagered on the horses finishing first, second and third, are deducted from the net pool to determine the profit. This profit is divided into 3 equal parts, and each part, in turn, divided by the 3 amounts mentioned above. This determines the profit per dollar, to which is added the wager.

When 2 horses finish third in a dead heat, ⅓ of the profit is allocated to the tickets representing wagers on the horse finishing first, ⅓ to the wagers on the horse finishing second, and the remaining ⅓ equally to the wagers on the horses finishing in the dead heat for third.

When 2 horses in the "field" or coupled as an entry finish first and second, first and third, or second and third, ⅔ of the profit is allocated to the tickets representing wagers on the "field" or entry, and the remaining ⅓ to the wagers on the other horse.

When 1 horse in the "field" or coupled as an entry finishes first or second, and the other part of the entry or "field" finishes third in a dead heat with another horse, ½ of the profit is allocated to the tickets representing wagers on the "field" or entry, ⅓ to the horse finishing first or second, and the remaining ⅙ to the wagers on the horse finishing third in the dead heat with the "field" or entry.

When 3 horses in the "field" or coupled as an entry run first, second, and third, the place and show pools shall be distributed the same as a win pool.

(f) When only 2 horses finish, the show pool, if any, shall be distributed the same as in a place pool.

(g) When only 1 horse finishes, the place and show pools, if any, shall be distributed the same as in a win pool.

(h) In any race in which no horse finishes, all money wagered on the race shall be refunded upon presentation and surrender of pari-mutuel tickets sold thereon.

(i) No disqualified horse shall be considered in any mutuel payoff.

(309) The daily double pools shall be calculated and distributed as follows:

(a) The net pool divided by the amount wagered on the winning combination determines the payoff per dollar, including profit and wager.

(b) If no ticket is sold including the winner of the first race of the daily double, the net pool shall be paid to the holders of tickets which include the winner of the second race of the daily double.

(c) If no ticket is sold including the winner of the second race of the daily double, then the net pool shall be paid to the holders of tickets which include the winner of the first race of the daily double.

(d) If no ticket is sold including the winner of either race, then the net pool shall be paid to the holders of tickets, which include the horses finishing second in the 2 races of the daily double.

(e) If no ticket is sold which would require distribution of the daily double pool, the association shall make a complete and full refund of the pool.

(f) In the event of a dead heat either in the first race or second race of the daily double, 2 winning combinations result. The amounts wagered on both winning combinations are deducted from the net pool to determine the profit. This profit is divided in half, and the halves, in turn, divided by the 2 amounts mentioned

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

above. This determines the profit per dollar, to which is added the amount of the wager.

(g) In the event of a dead heat in both races of the daily double, 4 winning combinations result. The amounts wagered on these 4 winning combinations are deducted from the net pool to determine the profit. This profit is divided into 4 equal parts, and each part, in turn, divided by the 4 amounts mentioned above. This determines the profit per dollar, including profit and wager.

(h) Should there be any error in calculation in connection with the daily double in which the public is underpaid the amount of the underpay shall be added to the daily double pool on the following racing day, unless such error occurs on the final day of the race meeting in which case the amount of the underpay shall be added to the win pool of the final race for the same day. Should there be any error in calculation in connection with the daily double in which the public is overpaid, rule 7 shall apply.

(i) Before the running of the second half of the daily double, the payoff prices of each combination coupled with the first winner shall be prominently posted, unless the first race of the daily double has resulted in a dead heat in which case the prices will not be posted and an announcement to this effect will be made over the loud speaker.

(310) (Rescinded.)

(311) (Rescinded.)

(312) Messenger service:

No messengers may be employed by any racing association for the purpose of carrying bets for patrons or for purchasing or cashing pari-mutuel tickets for patrons except under the following conditions:

(a) Permission for such messenger service must be obtained from the racing commissioner at least 10 days in advance of the start of the race meeting.

(b) A detailed plan for the employment of such messengers must be submitted to the racing commission in triplicate at least 20 days before the start of the race meeting and must be approved by the racing commission and by the auditor general.

(c) Any increased auditing cost incurred by the state of Michigan as a result of such messenger service must be paid by the racing association and payment must be made to the auditor general within 30 days following the conclusion of the race meeting.

(d) All messengers to be employed in such an approved messenger service must be listed by name in the messenger service plan and must submit a completed racing commission registration form before their employment as messengers.

(e) Messengers shall wear distinctive uniforms and shall give receipts to all patrons purchasing pari-mutuel tickets through them, and winning tickets shall be paid by such messengers only upon surrender of such receipts. No wager shall be accepted by any messenger after 7 minutes before official post time. No wager on the daily double shall be accepted by a messenger after 15 minutes before the official post time of the first race. Messengers will be required to purchase tickets only from certain specified pari-mutuel machines which are not in service for sales to the general public. Receipt books and other records in connection with such messenger service shall at all times be available to the auditors representing the state. The racing association shall retain the details of all transactions and make them available for examination by the auditors representing the state.

(f) Any overages resulting from such messenger service must be turned in to the state board of escheats before September 1 of the year following the race

meeting at which such overages occurred. Any shortages resulting from such messenger service must be paid from the funds of the racing association.

(313) No advance sale of pari-mutuel tickets on any future races, except the next succeeding race on the program at any given time, will be permitted on the grounds of any licensed racing association, unless specific approval for such advanced ticket sale is granted by the racing commission on the basis of a plan for such sale submitted by the racing association at least 10 days prior to the start of each race meeting.

(313a) Come-back or telegraph bets shall not be accepted by any licensed racing associations.

History: 1944 ACS 35, p. 48; 1954 AC, p. 5028; 1954 ACS 6, p. 18, Eff. May 15, 1956; 1954 ACS 10, p. 228, Eff. June 14, 1957; 1954 ACS 22, p. 82, Eff. May 13, 1960; 1954 ACS 43, p. 24, Eff. Aug. 14, 1965; 1954 ACS 47, p. 25, Eff. Aug. 14, 1966; 1954 ACS 66, p. 37, Eff. Feb. 2, 1971.

R 431.51b Pari-mutuel betting requiring commissioner's permission.

(313b) The following forms or variations of pari-mutuel betting may be placed in effect at any licensed track in the state of Michigan only upon written permission of the racing commissioner: optional twin double, quinella, perfecta and big perfecta.

History: 1954 ACS 47, p. 25, Eff. Aug. 14, 1966; 1954 ACS 66, p. 37, Eff. Feb. 2, 1971.

R 431.51c Optional twin double.

(313c) (a) The optional twin double is a form of pari-mutuel wagering. Each bettor has the option to:

1. Attempt to select the winners of each of 4 races as may be designated by the track licensee with the approval of the commissioner, or

2. After successfully selecting the first 2 winners of the designated races, present winning tickets for payment.

Bettors wishing to participate in the optional twin double first purchase a ticket (initial ticket) designating their selections in the first and second optional twin double races. If both selections win, that ticket (successful initial ticket) may be exchanged for a second ticket (exchange ticket) at no further cost, designating their selections in the third and fourth optional twin double races, or such successful initial ticket may be presented for payment at the option of the bettor. Those tickets presented for payment (successful initial tickets) shall be paid at a price per dollar denomination determined as follows:

The net optional twin double pool (gross optional twin double pool less commission and any consolation payoffs) shall be divided by the total purchase price of all successful initial tickets. The quotient obtained shall constitute the price to be paid.

The total amount paid to ticket holders electing the option of payment of successful initial tickets shall be deducted from the net optional twin double pool, and further participation of such tickets in the optional twin double pool shall terminate. Also, the total amount represented by any successful initial tickets which are not exchanged or presented for payment before the start of the third optional twin double race shall be deducted from the net optional twin double pool and entered in the "outs" book in the same manner as any other uncashed winning ticket and shall be valid for the period specified by statute. The balance of the optional twin double pool shall be divided among holders of exchange tickets (combining the winners of the third and fourth optional twin double races) as in a straight pool.

The optional twin double pool shall be held entirely separate from all other pools and is in no way part of the daily double. Inasmuch as the purpose of the

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

optional twin double pool is to select the winners of all 4 races of the optional twin double, or to exercise the option as previously stated, a bettor who selects a horse which starts but does not win is no longer eligible, subject only to the contingency that no other bettor in the pool has selected the winner of that race, as referred to in subdivision (g).

(b) Sales of initial tickets shall be only from daily double pari-mutuel vending machines in denominations of $2.00 or more and shall commence only after completion of the first race of the regular program and terminate at the start of the first optional twin double race, when the machines shall be locked.

(c) Exchange tickets shall be issued only from daily double pari-mutuel vending machines and only in exchange for successful initial tickets.

Exchange tickets shall be $2.00 denomination only and if issued in exchange for higher denomination successful initial tickets shall be issued only in sufficient quantity to equal such higher denomination in whatever designated combinations specified by the holder presenting such higher denomination successful initial ticket. Issuance of exchange tickets shall commence only after the results of the second optional twin double race are officially announced and must be terminated at the start of the third optional twin double race when the machines shall be locked. Such period of time is hereinafter referred to as the exchange period.

At the option of the bettor, "successful initial tickets" (tickets combining the winners of the first and second optional twin double races) may be presented for payment after the result of the second optional twin double race is officially announced.

In the event that an incorrect exchange ticket is issued, such incorrect exchange ticket must be turned in to the state chief auditor prior to the running of the second half. Said ticket shall be deducted from both the exchange and individual combination totals. The ticket shall be voided and filed with the performance worksheets and a report, including the seller's name, shall be made to the commissioner of the complete incident.

(d) The probable payoff prices of possible winning combinations shall be posted after the third optional twin double race.

(e) The design of initial tickets and exchange tickets shall be clearly and immediately distinguishable from each other and from daily double and other pari-mutuel tickets.

(f) After a horse is scratched no further tickets may be issued designating such horse and:

1. If a horse or horses not coupled with a starter are scratched from the first or second optional twin double races before the running of the first optional twin double race, all initial tickets selecting the horse scratched shall be refunded and the money deducted from the gross pool and the first optional twin double race shall not be started within 3 minutes of the public announcement of such scratch.

2. Should any horse or horses not coupled with a starter be scratched or be declared a non-starter in the second optional twin double race after the first optional twin double race has been run, all tickets combining the scratched horse with the winner of the first optional twin double race shall become consolation tickets and shall be paid a price per dollar denomination determined as follows: the net optional twin double pool (the gross optional twin double pool less tax) shall be divided by the total purchase price of all initial tickets designating the winner of the first optional twin double race and the quotient obtained shall constitute the price to be paid.

Further participation of such consolation tickets in the optional twin double pool shall terminate. The total amount payable on consolation tickets shall be deducted from the net optional twin double pool.

3. If any horse or horses not coupled with a starter be scratched or be declared a non-starter in the third optional twin double race all exchange tickets combining the scratched horse shall become consolation tickets and shall be paid a price per dollar denomination determined as follows: the net optional twin double pool (the gross optional twin double pool less commission and all prior distributions) shall be divided by the total purchase price represented by all exchange tickets and the quotient obtained shall be the price to be paid. Further participation of such consolation tickets in the optional twin double pool shall terminate. The total amount payable on consolation tickets shall be deducted from the net optional twin double pool. When a horse is scratched from the third optional twin double race such race shall not be started within 3 minutes of the announcement of such scratch.

4. Should any horse or horses not coupled with a starter be scratched or be declared a non-starter in the fourth optional twin double race all exchange tickets combining the scratched horses with the winner of the third optional twin double race shall become consolation tickets and shall be paid a price per dollar denomination determined as follows:

The net optional twin double pool (the gross optional twin double pool less commission and previous consolation awards) shall be divided by the total purchase price represented by all exchange tickets designating the winner of the third optional twin double race and the quotient obtained shall constitute the price to be paid. Further participation of such consolation tickets in the optional twin double pool shall terminate. The total amount payable on consolation tickets shall be deducted from the net optional twin double pool. When a horse is scratched from the fourth optional twin double race before the start of the third optional twin double race, the third optional twin double race shall not be started within 3 minutes of the announcement of such scratch.

(g) 1. If no initial ticket is sold designating the winner of the first optional twin double race, or the first optional twin double race is cancelled or declared "no race," the optional twin double shall be declared off and the gross pool refunded.

2. If no initial ticket is sold combining the winners of the first and second optional twin double races, or the second optional twin double is cancelled or declared "no race," the net pool shall be distributed to holders of initial tickets designating the winner of the first optional twin double race as in a straight pool and the optional twin double shall terminate.

3. If no exchange ticket is issued designating the winner of the third optional twin double race or if the third optional twin double race is cancelled or declared "no race," the net pool less commission and prior distributions shall be distributed to holders of exchange tickets and successful initial tickets as in a straight pool and the optional twin double shall terminate.

4. If no exchange ticket is issued combining the winners of the third and fourth optional twin double races, or the fourth optional twin double race is cancelled or declared "no race," the net pool shall be distributed to holders of exchange tickets designating the winner of the third optional twin double race.

(h) 1. In the event of a dead heat in either or both of the first and second optional twin double races all initial tickets combining a winner in both such races shall be eligible for exchange.

2. In the event of a dead heat in the third optional twin double race and no exchange ticket combines the winner of the fourth optional twin double race with a winner of the third optional twin double race, the net pool shall be distributed to holders of exchange tickets designating a winner of the third optional twin double race as in a straight pool dead heat.

3. In the event of a dead heat in either or both of the third or fourth optional twin double races, holders of exchange tickets combining winners in both such races shall be entitled to a distribution calculated as in a straight pool dead heat.

4. In the event of a dead heat between a covered and an uncovered horse in the second race of the second half of the optional twin double no consolation payoff will be made. Holders of tickets on the covered horse, representing the only winners of 4 consecutive races, will share in the distribution of the optional twin double pool.

Coupled entries and fields are permitted in optional twin double races. A scratch of less than all horses in a coupled entry or field, however, shall not affect the status of a ticket selecting such coupled entry or field. Horses coupled or in a field shall be considered as 1 horse for optional twin double distributions and calculations on dead heats shall include only 1 of such horses in each coupled entry or field in the distribution.

(j) Sale of optional twin double tickets by 1 individual to another or by any means other than through pari-mutuel machines shall be deemed illegal gambling and is prohibited.

(k) These rules shall be prominently displayed throughout the betting area of each track conducting the optional twin double and printed copies of these rules shall be distributed to patrons upon request by the track.

History: 1954 ACS 47, p. 25, Eff. Aug. 14, 1968.

R 431.51d Quinella.

(313d) The principle of a quinella is in effect a contract by the purchaser of a quinella ticket to select the first 2 horses to finish in the race. The order in which the horses finish is immaterial. All tickets on the quinella will be calculated in an entirely separate pool.

(a) In case of a dead heat between 2 horses for first place, the combination shall be the winner of the quinella pool.

(b) In case of a dead heat between 2 horses for second place, the quinella shall be figured as a place pool, the holders of tickets combining the winning horse and either of the 2 horses finishing second participating in the payoff.

(c) In the event of a dead heat for second place, if no ticket is sold on 1 of the 2 winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the winning combination.

(d) If no ticket is sold on the winning combination of a quinella pool the net pool shall be apportioned equally between those having tickets including the horse finishing first and those having tickets including the horse finishing second in the same manner in which a place pool is calculated and distributed.

(e) If no ticket is sold that would require distribution of a quinella pool to winners as above defined, the association shall distribute the net pool as a win pool to those selecting either horse.

(f) In the event of late scratches after the sale of quinella tickets has started, all quinella tickets combining the scratched horse or horses will be refunded and the money will be deducted from the gross pool.

(g) In the event of an entry or field horses finishing first and second, the net quinella pool shall be disbursed to holders of tickets selecting the entry or field horses to win, combined with the horse finishing third.

History: 1954 ACS 47, p. 28, Eff. Aug. 14, 1968; 1954 ACS 66, p. 37, Eff. Feb. 2, 1971.

R 431.51e Perfecta.

(313e) (1) The perfecta (also known as exacta or correcta) is a contract by the purchaser of a ticket combining 2 horses in a single race, selecting the 2 horses that

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

will subsequently finish first and second in that race. Payment of the ticket shall be made only to the purchaser who has selected the same order of finish as officially posted. The perfecta is not a parlay and has no connection with or relation to the win, place and show betting and will be calculated as an entirely separate pool.

(2) If no ticket is sold on the winning combination of a perfecta pool, the net pool shall be distributed as a place pool between holders of tickets selecting the winning horse to finish first and holders of tickets selecting the second horse to finish second, or both. If no ticket is sold that would require this distribution of a perfecta pool, the pool shall be distributed as a win pool to those persons who have selected the horse which finished first to run first. If no ticket is sold that would require distribution of a perfecta pool as hereinbefore provided, those persons who have selected the horse finishing second to run second shall share in the distribution of the pool as a win pool.

(3) If no ticket is sold that would require distribution of a perfecta pool to winner as above defined, the association shall make a complete and full refund of perfecta pool.

(4) In case of a dead heat between 2 horses for first place, the combination shall be the winner of the perfecta pool. In case of a dead heat between 2 horses for second place, the perfecta pool shall be figured as a place pool, the holders of tickets combining the winning horse and either of the 2 horses finishing second participating in the payoff.

(5) In case of a dead heat for second place, if no ticket is sold on 1 of the 2 winning combinations, the entire net pool shall be calculated as a win pool and distributed to those holding tickets on the other winning combination. If no tickets combine the winning horse with either of the place horses in the dead heat, the perfecta pool shall be calculated and distributed as a place pool to holders of tickets representing any interest in the net pool.

(6) In case of an entry finishing first and second or mutuel field horses running first and second, the net perfecta pool shall be distributed to holders of tickets selecting the entry to win combined with the horse finishing third.

History: 1954 ACS 47, p. 28, Eff. Aug. 14, 1966; 1954 ACS 66, p. 38, Eff. Feb. 2, 1971.

R 431.51f Big perfecta.

(313f) (1) The big perfecta (also known as big exacta or big correcta) is a form of pari-mutuel wagering in which the bettor selects 4 horses that will finish first and second in each of 2 races as may be designated by the track licensee with approval of the commissioner, in the exact order as officially posted.

(2) Each bettor purchasing big perfecta tickets shall designate his 2 selections as the first 2 horses to finish in that order in the first race of the 2 designated races.

(3) After official declaration of the first 2 horses to finish in the first race of the big perfecta, each bettor holding a ticket combining the first 2 horses in the exact order of finish, before the running of the second half of the big perfecta race shall exchange such winning ticket for a big perfecta exchange ticket at the big perfecta windows and at such time shall select the 2 horses to finish in the second race of the big perfecta in the exact order as officially posted. No further money shall be required of the holder of the ticket in order to make the exchange.

(4) No big perfecta exchange ticket on the second race shall be issued except upon surrender of the big perfecta ticket from the first race. The big perfecta pool obtained from the sales of big perfecta tickets on the first race shall be held, subject to these rules, and divided among the winning tickets of the big perfecta exchange tickets, subject to these rules to the contrary. Big perfecta windows shall be open for the purpose of making the exchange as described only after the first

Digitized by Google

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

race has been declared official and such windows shall close at official post time at the start of the second race of the big perfecta races.

(5) If a winning big perfecta from the first race is not presented for exchange within the time provided, the bettor forfeits all rights to any distribution or refund except if the second half of the big perfecta is cancelled or declared "no race" or if no exchange ticket includes either the first or second horse of the second half of the big perfecta.

(6) In case of late scratches after the sale of big perfecta tickets has started in the first race, all tickets on the scratched horse will be refunded.

(7) If a horse is scratched in the second half of the big perfecta, all exchange tickets combining the scratched horse become consolation tickets and shall be paid a price per dollar denomination calculated as follows: the net big perfecta pool (gross pool less commission) shall be divided by the total purchase price of all tickets combining the winners of the first race of the big perfecta. The quotient obtained shall be the price to be paid to holders of exchange tickets combining the scratched horse in the second half of the big perfecta. The entire consolation pool (number of eligible tickets times the consolation price) plus the breakage shall be deducted from the big perfecta pool.

(8) If no big perfecta ticket is sold as a winning combination in the first race of the big perfecta, the big perfecta pool shall be divided among those having tickets including the horse finishing first or second, and such distributions shall be calculated and made as a place pool. In such an instance the big perfecta race shall end and the pool be closed for the day.

(9) If no big perfecta exchange ticket is sold on the winning combination, the net pool shall then be apportioned equally between those having tickets including the horse finishing first and those having tickets including the horse finishing second in the same manner in which a place pool is calculated and distributed. If no such big perfecta exchange ticket is sold, the pool shall be distributed as a win pool to those persons who have selected the horse which finished first to run first. If no big perfecta exchange ticket is sold that would require distribution of the big perfecta pool as defined in this paragraph, those persons who have selected the horse which finished second to run second shall share in the distribution of the pool as a win pool.

(10) If no exchange ticket includes either the first or second horse of the second half of the big perfecta, the entire net pool shall be distributed as a straight pool to all holders of exchange tickets and winning combinations of the first half that have not been exchanged.

(11) In case of a dead heat for place in the first race of the big perfecta, all big perfecta tickets combining the first horse and either of the place horses shall be eligible for exchange for the big perfecta exchange tickets.

(12) In case of a dead heat for place in the second race of the big perfecta, the big perfecta pool shall be divided, calculated and distributed as a place pool and distributed to the holders of the big perfecta exchange tickets combining the first horse and either of the place horses. In case of a dead heat to place, and there are no tickets sold on 1 combination, the other combination having the winning horses shall be declared the winner. If no exchange tickets combine the winning horse with either of the place horses in the dead heat, the big perfecta pool shall be calculated and distributed as a place pool to holders of tickets representing any interest in the net pool.

(13) If for any reason the second race of the big perfecta is cancelled or declared "no race," the pool shall be calculated as a straight pool and shall be distributed among the holders of the tickets combining the first 2 horses of the

first race of the big perfecta, players of the first race of the big perfecta otherwise eligible for the big perfecta exchange tickets, and also distributed to holders of the big perfecta exchange tickets.

(14) In case of an entry finishing first and second or field horses running first and second, the net big perfecta pool shall be distributed to holders of tickets selecting the entry or field horses to win combined with the horse finishing third.

(15) In case of an entry or field horses finishing first and second in the first half of the big perfecta, holders of tickets selecting the entry or field horses to win, combined with the horses finishing third, shall be eligible to exchange tickets for the second half of the big perfecta.

(16) In case an entry or field horses finish first and second in the second half of the big perfecta, the net big perfecta pool shall be disbursed to holders of tickets selecting the entry or field horses to win, combined with the horse finishing third.

(17) The sale of big perfecta tickets other than through pari-mutuel machines shall be deemed illegal and is prohibited.

History: 1954 ACS 66, p. 38, Eff. Feb. 2, 1971.

R 431.51g Big Q.

(313g) (1) The Big Q is a form of pari-mutuel wagering, consisting of selecting the quinella, or the first 2 horses to finish in each of 2 consecutive races. Pari-mutuel wagering tickets shall be sold upon the first race of the 2 races only. The division of the pool shall be calculated as in a straight pool, subject to the provisions of these rules.

(2) A bettor purchasing Big Q tickets shall designate his 2 selections as the first 2 horses to finish in the first race of 2 races.

(3) After the official declaration of the first 2 horses to finish the first of the Big Q races, a bettor holding a ticket combining the 2 horses to finish shall exchange such winning ticket for a Big Q exchange ticket at the Big Q windows before the running of the second race. At that time the holder shall select the first 2 horses to finish in the second race of the Big Q. Further money shall not be required of the ticketholder for the exchange.

(4) A Big Q exchange ticket upon the second race shall not be issued except upon the surrender of the Big Q ticket from the first race as provided in this rule. The Big Q pool obtained from sales of Big Q tickets upon the first race shall be held and divided among the winning tickets of the Big Q exchange tickets, subject to these rules. Big Q windows shall be open for the purpose of making the exchange only after the first race has been declared official. The windows shall close at post time at the start of the second race of the Big Q races.

(5) If a winning Big Q ticket from the first race is not presented for exchange within the time provided, the bettor forfeits all rights to any distribution or refund, unless the second half of the Big Q is cancelled or declared "no race," or if no exchange tickets include either the first or second horse of the second half of the Big Q.

(6) If a horse is scratched in the first race of the Big Q races, all Big Q tickets on the scratched horse shall be refunded.

(7) If a horse is scratched in the second race of the Big Q races, all exchange tickets combining the scratched horse shall become consolation tickets and shall be paid a price per dollar denomination calculated as follows: The net Big Q pool (gross pool less commission) shall be divided by the total purchase price of all tickets combining the winnings of the first race of the Big Q. The quotient thus obtained shall be the price to be paid to holders of exchange tickets combining the scratched horse in the second race of the Big Q. The entire consolation pool

(number of eligible tickets times the consolation price) plus the breakage shall be deducted from the net Big Q pool.

(8) If a Big Q ticket is not sold as a winning combination in the first race of the Big Q, the Big Q pool shall be divided among those having tickets including the horse finishing first or second and the distributions shall be calculated and made as a place pool. The Big Q race shall then end and the pool be closed for the day.

(9) If a Big Q exchange ticket is not sold on the winning combination, the net pool shall be apportioned equally between those having tickets including the horse finishing second in the same manner in which a place pool is calculated and distributed.

(10) If a Big Q exchange ticket combines only 1 of the 2 winners and no Big Q exchange tickets combine the other winner, the entire pool shall be distributed as a straight pool to the holders of those tickets.

(11) If no exchange ticket includes either the first or second horse of the second half of the Big Q, the entire net pool shall be distributed as a straight pool to all holders of exchange tickets and winning combinations of the first half that have not been exchanged.

(12) If there is a dead heat for place in the first race of the Big Q races, all Big Q tickets combining the first horse and either of the place horses shall be eligible for exchange for Big Q exchange tickets.

(13) If there is a dead heat for place in the second race of the Big Q races, the Big Q pool shall be divided, calculated and distributed as a place pool to the holders of Big Q exchange tickets combining the first horses and either of the place horses. If there is a dead heat to place and there are no tickets sold on 1 combination, then the other combination having winning horses shall be declared the winner.

(14) If no exchange tickets combine the winning horse with either of the place horses in the dead heat, the Big Q pool shall be calculated and distributed as a place pool to holders of tickets combining either of the place horses. If any exchange tickets combine both horses in the dead heat for place, the Big Q pool shall be calculated and distributed as a place pool to holders of these tickets.

(15) If for any reason the first race of the Big Q races is cancelled or declared "no race," full refund shall be made from the Big Q pool.

(16) If for any reason the second of the Big Q races is cancelled or declared "no race," the pool shall be calculated as a straight pool and distributed among the holders of tickets combining the first 2 horses of the first race of the Big Q otherwise eligible for Big Q exchange tickets and also distributed to holders of the Big Q exchange tickets.

(17) If there is a dead heat for the winning horses in either of the two consecutive races for the Big Q, the calculation of distribution of the Big Q pool shall be made in the manner in which any ordinary quinella pool would be made if there were a dead heat for the win despite the number of horses involved in the dead heat.

(18) The sale of Big Q tickets other than through pari-mutuel machines, including the sale by 1 individual to another, is prohibited.

History: 1954 ACS 76, p. 83. Eff. July 18, 1973.

R 431.51h Trifecta.

(313h) (1) The trifecta is a form of pari-mutuel wagering consisting of selecting the 3 horses that will finish first, second and third in a single race.

(2) Trifecta tickets shall be sold in not less than $2.00 denominations and only from 3 number issuing machines.

(3) Races in which trifecta pools shall be conducted shall be approved by the racing commissioner and shall be clearly designated in the program.

(4) The design of trifecta tickets shall be clearly and immediately distinguishable from other pari-mutuel tickets.

(5) If less than 3 horses finish, a payoff shall be made on tickets selecting the actual finishing horses in order, ignoring the balance of the selection.

(6) Payment of the ticket will be made only to the purchaser who has selected the same order of finish as officially posted.

(7) The trifecta is not a parlay and has no connection with the win, place or show betting, and will be calculated in an entirely separate pool.

(8) If a horse is scratched or declared a nonstarter, no further trifecta tickets shall be issued designating that horse. All tickets previously issued designating that horse shall be refunded and money deducted from the gross pool.

(9) If a ticket is not sold on a winning combination of a trifecta pool, the net pool shall be apportioned equally between those having tickets selecting the first and second place horses. If a ticket is not sold selecting the first and second horses, the net pool shall be apportioned equally between those having tickets selecting the horse or horses that finished first in the trifecta race. Those having selected the second horse for second and the third horse for third with any other horses shall divide the net pool and be paid the same payoff price.

(10) If there is a dead heat for first place, the winning combination shall include the first 2 horses as finishing in either position, and the horse finishing third. If there is a dead heat to place, the winning combination shall be the horse finishing first and the 2 horses finishing in a dead heat for place, as finishing in either position. If there is a dead heat for third, the winning combination shall be the horse finishing first, the horse finishing second, and the 2 horses finishing in a dead heat for third, as finishing in either position. The aggregate number of tickets shall divide the net pool and be paid the same payoff price.

History: 1954 ACS 76, p. 84, Eff. July 18, 1973.

R 431.51i Triple crown.

(313i) (1) The triple crown is a contract by the purchaser of a ticket combining 3 horses, 1 in each of 3 consecutive races, as may be designated by the track licensee with approval of the commissioner, with the bettor selecting the horses that will finish first in each race. Payment of winning tickets shall be made only to the holders of the tickets who have selected the same order of finish as officially posted, except in the event of a scratch or as otherwise provided in these rules.

(2) Triple crown has no connection with, or relation to, the win, place, and show betting pools and shall be calculated as an entirely separate pool, and the ticket shall be labelled a triple crown ticket.

(3) If no ticket is sold combining the third winner, the net pool shall be distributed to the holders of tickets selecting the winners of the first 2 races of the triple crown.

(4) If no ticket is sold combining the winner of the second race with the winner of the first race of the triple crown, then the net pool shall be distributed to holders of winning tickets of the first race of the triple crown as a separate win pool.

(5) If no ticket is sold that would require distribution of the net triple crown pool as above defined, the net pool shall be apportioned equally to holders of tickets selecting the winning horse in either the second or third race of the designated triple crown races.

(6) If a horse is scratched or declared a nonstarter before the first race of the designated triple crown races, all tickets designating such horse shall be refunded and the money deducted from the gross pool.

(7) If a horse in the second race of the designated triple crown races is scratched after the first race of the designated triple crown races is declared official, then all tickets combining the scratched horse with the winner of the first race of the designated triple crown races shall become consolation tickets and shall be paid a price per dollar computed in the following manner: The net triple crown pool shall be divided by the total purchase price of all tickets designating the winner of the first race of the triple crown and the quotient obtained shall constitute the price to be paid of consolation ticket holders. The amount paid to all holders to a consolation ticket, and the breakage derived thereof, shall be subtracted from the net pool.

(8) If a horse in the third race of the designated triple crown races is scratched after the first and second races of the designated triple crown have been declared official, then all tickets combining the scratched horse with the winners of the first race and second race of the designated triple crown races shall become consolation tickets and shall be paid a price per dollar computed in the following manner: The net triple crown pool shall be divided by the total purchase price of all tickets designating the winners of the first and second races of the triple crown and the quotient obtained shall constitute the price per dollar to be paid to consolation tickets, and the breakage derived thereof, shall be subtracted from the net pool.

(9) In the event of a dead heat to win in either the first, second, or third race of the designated triple crown races, the tickets selecting the 3 winners of the triple crown races, counting both horses who finished in the dead heat to win as winners, shall be paid a price per dollar computed in the following manner: The total amount wagered on the 2 winning combinations shall be deducted from the total net pool and the remainder shall be divided into 2 equal parts. The amount wagered on each of the 2 winning combinations shall, as in a place pool calculation, be divided separately into its share of the net pool and the price per dollar derived shall constitute the per dollar payoff for each winning combination. In the event 1 combination has no winning ticket sold, then the holders of the other winning combinations shall, as in a win pool calculation, divide the net pool.

(10) In the event of a dead heat to win in 2 separate races or all 3 races of the designated triple crown races or a triple dead heat in any of the designated triple crown races, all tickets selecting the 3 winners of the triple crown races, counting all horses who finish in the dead heats to win or, in the triple dead heat, as winners, shall be paid a price per dollar computed in the following manner: The total number of all winning combinations shall, as in a win pool calculation, be divided into the net pool and the price per dollar derived shall constitute the per dollar payoff, with all holders of winning combinations receiving the same payoff price.

History: 1954 ACS 90, p. 43, Eff. Mar. 16, 1977.

R 431.51j Superfecta.

(313j) (1) The superfecta is a contract by the purchaser of a ticket to select in order the first, second, third, and fourth place horses in the designated superfecta race, as designated by the track licensee with the approval of the commissioner. Payment of winning tickets shall be made only to the holders of the tickets who have selected the same order of finish as officially posted, except in the event of a scratch or as otherwise provided in these rules.

(2) Superfecta wagering has no connection with, or relation to, the win, place,

and show betting pools, and shall be calculated as an entirely separate pool. The ticket shall be labelled a superfecta ticket.

(3) If a horse is scratched or excused from racing, additional tickets shall not be sold designating such horse, and all tickets previously sold designating such horse shall be refunded and the money deducted from the gross pool.

(4) If no ticket is sold designating, in order, the first 4 horses, or if only 3 horses finish, the net pool shall be distributed equally among holders of tickets designating the first 3 horses, in order; if no ticket is sold designating, in order, the first 3 horses, or if only 2 horses finish, the net pool shall be distributed equally among holders of tickets designating the first 2 horses, in order; and if no ticket is sold designating, in order, the first 2 horses, the net pool shall be distributed equally among holders of tickets designating the winner.

(5) If no ticket is sold designating the winner to win, the superfecta shall be declared off and the gross pool refunded.

(6) In the event of a dead heat or dead heats, all tickets designating the correct order of finish, crediting each horse in a dead heat as finishing in either position dead heated, shall be winning tickets, and the aggregate number of winning tickets shall be divided into the net pool for the purpose of determining the payoff.

(7) Coupled entries and fields are prohibited in superfecta races.

History: 1954 ACS 90, p. 44, Eff. Mar. 16, 1977.

R 431.52 (b) Daily double.

(296) Only 1 daily double program will be permitted during any single racing program.

(297) The daily double is not a parlay, and has no connection with or relation to the mutuel betting. All tickets on the daily double will be calculated in an entirely separate pool.

(298) No exchange of tickets will be permitted after purchaser thereof has left the sales window.

(299) All tickets will be to win (straight) only.

(300) In order to win a daily double, it is necessary for the purchaser of a daily double ticket to select the winners of each of the 2 races specified for the daily double. If either of his selections fails to win, his ticket is voided, except as otherwise provided.

(301) If no ticket is sold combining the winners of the daily double, the pool shall then be apportioned equally between those having tickets including the winner of the first half (or race) of the daily double and those having tickets including the winner in the second half (or race) of the daily double in the same manner in which a place pool is calculated and distributed.

(302) If no ticket is sold including the winner of the first half (or race) of the daily double, then the entire pool will be paid to the holders of tickets which include the winner of the second half (or race) of the daily double.

(303) Likewise, if no ticket is sold including the winner of the second half (or race) of the daily double, the entire pool will be paid to the holders of tickets which include the winner of the first half (or race) of the daily double.

(304) If no ticket is sold including a winner of either half (or race) of the daily double, then the pool shall be paid to the holders of tickets which include the horses finishing second in the 2 halves (or races) of the daily double.

(305) If no ticket is sold which would require distribution of the daily double pool to a winner under subrules (301), (302), (303), and (304), a complete and full refund of the daily double shall be made.

(306) If for any reason the first half (or race) of the daily double is cancelled and declared "no race," full and complete refund will be made of the daily double pool.

(307) If for any reason the second race of the daily double be cancelled and declared "no race," the net daily double pool shall be paid to the holders of daily double tickets which include the winner of the first race.

(308) In the event a horse is scratched in the second half of the daily double after the first race has been run, a separate pool shall be made including all the tickets which combine the horse scratched, and the holders of tickets which include the winners of the first race and the scratched horse shall be paid in the same manner as the pool is calculated for a straight pool.

(309) If holder of ticket loses in first half (or race) of daily double and horse is scratched in second half (or race) no money will be refunded.

(310) If a dead heat should result in either the first or second half of the daily double, a total pool shall be figured as a place pool.

(311) Before the running of the second half of the daily double, the payoff prices of each combination coupled with the first winner shall be prominently posted.

(312) Should the first half of the daily double result in a dead heat, there shall be no payoff prices posted due to the complicated calculations involved. Announcement to this effect shall be made on the loudspeaker.

(313) Daily double windows will close 15 minutes before post time of the first race each day, unless daily double machines are in use in which event the daily double windows will close 5 minutes before post time of the first race each day.

History: 1944 ACS 35, p. 49; 1954 AC, p. 5030.

PART 4. GENERAL PROVISIONS

R 431.61 (a) Expelling and ruling off.

(314) Every person or horse expelled or ruled off at any recognized meeting for unlawful, corrupt or fraudulent or improper practices or conduct shall be barred from the courses licensed by the racing commissioner.

(a) When a person is ruled off the course or expelled, every horse wholly or partly owned by him shall also be ruled off or expelled, so long as his sentence continues. He shall not be qualified, whether acting as agent or otherwise, to subscribe for, or to enter or to run any horse for any race in either his own name or that of any other person, and no horse of which he is wholly or partly the owner, or which is under his care, management, training, or superintendence, or in the winnings of which he has any interest, shall be qualified to be entered or run in any race. And, if an entry from any person, or of any horse that stands ruled off or expelled, is received, such entry shall be void, and the money, if any, paid for such entry refunded. Any money or prize won under said entry shall be returned.

(b) A horse or stable entry which is ordered refused at any recognized meeting because of inconsistent racing or other cause shall not be permitted to race on any track where these rules are in force during the continuance of such ruling.

(c) When a person is ruled off for any fraudulent practice in relation to a particular horse, wholly or partly belonging to him, he shall return all money or prizes which such horse has fraudulently won.

(d) When a license is revoked by the Michigan racing commission the former holder of such license remains disqualified in the state of Michigan until such time as he is restored to good standing by the commission.

R 431.62 (b) Corrupt practices.

(1) The intent of this rule is to protect the integrity of horse racing, to safeguard the health of the horse and to protect the interest of the general public and the racing participants through the prohibition or control of drugs and medications which could affect the racing condition or performance of a horse.

(2) As used in this rule:

(a) "Drug" means any medication or metabolic derivative thereof, which is a narcotic, or which could serve as a local anesthetic or tranquilizer, or which could stimulate or depress the circulatory, respiratory or central nervous system of a horse. A horse which has been entered to race shall not carry a drug in its body.

(b) "Controlled medication" means Phenylbutazone and Lasix intended for use in the cure and treatment of a horse. The prescription and use of either medication shall be reported to the commissioner by the veterinarian on forms prescribed by the commissioner. A horse that has been administered a controlled medication may be entered to race as provided in this rule.

(3) The following conditions apply to controlled medications and their use:

(a) A controlled medication may be administered by a veterinarian or an oral controlled medication may be administered by a trainer acting under the direction of a veterinarian. In either event, the veterinarian shall report the administration to the commissioner on forms prescribed by the commissioner.

(b) A horse which has been entered to race shall not carry Lasix in its body unless the commissioner has determined that the horse is a bleeder which means a horse that bleeds from the nose after or during a race or workout.

(c) Controlled medications shall not be administered to a 2-year-old horse which has been entered to race.

(d) If a horse has been administered a controlled medication, the horse shall continue to utilize and be administered the medication prior to entry in a race, unless the commissioner approves racing for that horse without the use of controlled medication.

(e) On the day of the race, the commissioner, or his representative, shall disclose to the public horses entered to race which have been administered a controlled medication.

(4) Personnel and facilities as prescribed by the racing commissioner for the securing of saliva or urine or other samples from horses and for the chemical analysis of such samples shall be required at all meetings. The samples shall be taken from such horses as may be ordered by the commissioner, stewards or harness judges.

(5) If the chemical analysis of saliva, urine or any other sample taken from a horse indicates the presence of a drug or controlled medication which was not reported, this shall be prima facie evidence that the drug or unreported controlled medication has been administered to the horse.

(6) When a positive report is received from the state chemist identifying a drug or controlled medication which was not reported, the stewards shall conduct a thorough investigation and then hold a hearing. The stable shall remain in good standing pending the outcome of the hearing and until a ruling has been made, except that the horse identified with the positive report shall not run during the investigation and hearing.

(7) The trainer shall be responsible for and be the absolute insurer of the condition of the horses entered for his stable regardless of the acts of third parties except as provided in R 431.10(84) in part 1.

(8) If the chemical analysis of a sample indicates the presence of a drug or unreported controlled medication, the trainer of the horse and any other person

shown to have the care or attendance of the horse or shown to have administered or conspired to have administered the drug or unreported controlled medication is subject to disciplinary action. A trainer or veterinarian who fails to comply with the controlled medication regulations is subject to disciplinary action. The owner of the horse shall not participate in the purse distribution of that race and the horse shall be declared unplaced for every purpose except for pari-mutuel wagering. A trophy received by the owner of the horse shall be returned.

(9) If an owner, trainer, assistant trainer, groom, stable attendant or other licensed person should interfere with, or use abusive or insulting language to, the state veterinarian or his assistants appointed by the racing commissioner, and while in the discharge of their duties, such person is subject to disciplinary action.

(10) The containers employed in the taking of saliva, urine or other specimens or samples shall be properly prepared and sealed by the laboratory before their use. The seal of the container shall be broken by the state veterinarian or his designated assistant in the presence of the owner or trainer or his groom or other authorized representative of the owner or trainer.

(11) The owner, the trainer or his groom or other representative shall also be present when a saliva, urine or other sample is taken from the horse and shall remain until the sample is sealed in his presence. The official sample tag attached to the sealed container in which the sample is placed shall be signed by the owner, trainer or authorized representative as witness to the taking of the sample and the sealing of the container in which it was placed. Wilful failure to be present at or refusal to allow the taking of any sample as required by these rules, or any act or threat to impede or prevent or otherwise interfere therewith, shall subject the person or persons guilty thereof to disciplinary action by the stewards or judges, and the matter shall be referred to the racing commissioner for such further penalty as in his discretion he may determine.

(12) An electrical, mechanical or other appliance, other than the ordinary whip, shall not be used for the purpose of stimulating a horse or affecting his speed in a race or work, nor shall anyone have such appliance in his possession. Any person so offending is subject to disciplinary action.

(13) In thoroughbred racing only, a horse shall not be qualified to start in a race shod with ordinary or training shoes. If a person starts a horse so shod, he and the horse may be ruled off. Bar plates may be used by the consent of the stewards.

(14) If the stewards or judges are satisfied that a race was ridden or driven corruptly, or that the jockey or driver was instructed or induced to so ride or drive, all persons guilty of complicity in the offense shall be ruled off.

(15) A person shall be ruled off the course:

(a) Who corruptly gives or offers money, shares in a bet or other benefit to any person having official duties in relation to a race, or any jockey or driver corruptly accepts or offers to accept money, share in a bet or other benefits.

(b) Who wilfully enters or causes to be entered, or to start for any race, a horse which he knows to be disqualified.

(c) Who fraudulently offers or receives any amount of money for declaring an entry out of a purse or stakes.

(d) Without making it known to the officials, who is a part owner or acts as trainer of a horse in which a jockey or driver possesses any interest, or makes any bet with or on behalf of any jockey or driver, unless on a horse he is driving or riding; or offers or gives, except through his employer, or the owner or trainer of the horse driven or ridden, a jockey or driver any present, money or other reward in connection with his driving or riding of any race.

(e) If he is a jockey or driver who accepts a ticket or makes a bet on any horse other than the one he rides or drives.

(f) If the racing commissioner determines that he is guilty of any other corruption or fraudulent practices on the turf in this or any other country.

(16) A horse that has been the subject of fraudulent practice may be disqualified, the stewards or judges of the meeting disqualifying the horse for no longer period than the duration of the meeting, and reporting the circumstances to the racing commissioner for such action as he deems proper.

(17) A person who orders or performs a nerve operation at or above the ankle, or a tumor (re-nerving) operation in the same area on a horse on the grounds of any track under jurisdiction of the racing commissioner shall be denied all privileges of the grounds, and if licensed shall have his license revoked.

(18) A person who needles a horse for the purpose of administering a stimulant or blocking a nerve or ordering it done on the grounds of any track under the jurisdiction of the racing commissioner shall have his license revoked or be denied all the privileges of the grounds, or both. The possession of any hypodermic syringe or needle on the grounds of any racing association, except by a duly registered veterinarian, is expressly prohibited. In special circumstances or emergency, upon written request, the stewards may grant permission for temporary possession of a hypodermic syringe or needle on the grounds of a racing association.

(19) An owner or trainer racing at a track under jurisdiction of the racing commissioner is expected to do his betting at the race track. An owner or trainer found betting away from the track shall be required to vacate his stalls at once.

(20) If a horse establishes a track record in a race and it later develops that the chemical analysis of the sample taken indicates the presence of a drug, which could affect the racing condition or the performance of a horse in a race, the track record shall be null and void.

History: 1944 ACS 35, p. 51; 1944 ACS 37, p. 25; 1954 AC, p. 5031; 1954 ACS 15, p. 80, Eff. Aug. 14, 1958; 1954 ACS 22, p. 82, Eff. May 13, 1960; 1954 ACS 51, p. 44, Eff. Aug. 15, 1967; 1954 ACS 76, p. 84, Eff. July 18, 1973; 1954 ACS 84, p. 70, Eff. June 18, 1975.

R 431.63 (c) Hearings and right to appeal.

(316) Upon the filing of a written complaint, under oath, in the office of the racing commissioner, with regard to the actions or omissions of anyone issued an occupational license, the commissioner may suspend the occupational license. The suspension shall be for a period of not more than 10 days, during which time the suspended licensee may demand in writing a hearing before the commissioner. The commissioner shall give prompt notice of a time and place for the hearing, at which he shall hear the complainant and the applicant or occupational licensee in reference to the complained of act or omission. Any applicant or licensee at any hearing may be represented by counsel and may present evidence in his own behalf. Pending the hearing and final determination thereon, the action of the commissioner in suspending the license shall remain in full force and effect. If the licensee does not demand a hearing, the commissioner on his own motion may set a hearing with regard to the actions or failure to act of the licensee. In the conduct of the hearing the commissioner shall not be bound by the technical rules of evidence, but all evidence offered before him shall be reduced to writing, and such evidence together with the exhibits, if any, and the findings of the commissioner shall be permanently preserved and shall constitute the record of the commissioner in the case. Within 10 days after the conclusion of the hearing, the commissioner shall make a written final order setting forth the reasons for the action taken by him, and a copy thereof shall be served on the occupational licensee or applicant.

If any person be aggrieved by an order of suspension, exclusion, ruling off,

other disciplinary action or administrative action taken by the racing commissioner, employee of the racing commission, or by any action, decision, or recommendation of the stewards or judges of any racing association, such person may have a review of the decision before the racing commissioner by requesting a hearing in writing and the racing commissioner shall, upon receipt of such request, set a time and place for said hearing and shall give notice in writing to the last known address, to the party aggrieved, of the time and place of such hearing and such written notice shall contain a specification of the charges, grounds, decision, or action to be reviewed.

If the commissioner shall have reason to believe that there has not been compliance with the provisions of the racing act, he may on his own motion give notice to the parties and hold a hearing for the purpose of determining the facts and the rights of the parties. Such notice shall contain a statement of the matter to be considered.

An official record shall be made of all hearings before the commissioner, but it shall not be necessary to transcribe shorthand notes unless requested for purposes of a rehearing or court review, in which case the parties requesting the transcript of the record will be required to pay the further cost of such record.

History: 1944 ACS 35, p. 52; 1954 AC, p. 5032; 1954 ACS 22, p. 83, Eff. May 13, 1960.

R 431.64 (d) Badges.

(317) Badges for admission to the track and/or barn area of a licensed association shall not be issued to anyone requiring an occupational license until after applicant has been licensed or has received from the racing commission a license fee receipt and temporary barn area permit.

Any owner, trainer, jockey or driver making application for badges for any person who is known to be a tout or a person known to be in bad repute, or in any way misrepresenting to secure a badge; or if he gives, sells or loans his badge to another person, he will be subject to disciplinary action. The owner and trainer will be held responsible for all badges issued to his name, or in the name of the stable.

Admission to the barn area of any licensed thoroughbred racing association will be restricted to persons carrying a Michigan racing commission photo identification card. Photo identification cards will be issued only to racing commission employees and officials, employees and officials of licensed Michigan racing associations, and their concessionaires, licensed trainers, owners, grooms, jockeys, exercise boys, apprentices, jockey agents, authorized agents, stable foremen, hot walkers, blacksmiths, veterinarians and vendors. Local or state police officers, firemen, state or local inspectors, or other public officials acting in the performance of their duties, or employees of utility firms shall be exempt from these provisions, provided, however, if they are any of these exempted persons they must show their credentials to the gatekeepers and explain the purpose of their visits.

History: 1944 ACS 35, p. 52; 1954 AC, p. 5033; 1954 ACS 3, p. 10, Eff. Aug. 15, 1955; 1954 ACS 22, p. 83, Eff. May 13, 1960.

R 431.65 (e) Occupational licenses.

(318) (a) A trainer is responsible that he himself, every employee under his jurisdiction, and any owner for whom he trains shall apply and obtain an occupational license as provided for in section 11 of the racing law of 1959.

(b) A person 18 years of age or under shall not be granted an occupational license except upon presentation of proof of age and, if employed by anyone other than a parent, working papers as required by the Michigan child labor law.

(c) An occupational license shall not be granted for a longer period than 1 year, and every license shall expire on December 31 of the year for which it is issued. In case of an emergency, the stewards may permit a jockey or trainer to ride or train pending action on his license application. A boy who has never ridden in a race may be allowed to ride twice before applying for a license.

(d) An application for a license shall be completely and correctly filled out, signed and sworn to. Any omission or misrepresentation will be deemed sufficient cause for refusal or revocation of a license by the racing commissioner.

(e) An owner or trainer harboring or employing an unlicensed person shall be subject to disciplinary action.

(f) In granting or refusing an occupational license application, the racing commissioner will take into account the financial responsibility, experience, character, general fitness of the applicant as well as his record of law abidance and compliance with the rules and regulations of the racing commissioner.

(g) A trainer who is a licensed owner or part owner may use a stable name as owner or part owner. However, a trainer may not be licensed as a trainer other than in his legal name. A stable name shall not be used, if in the judgment of the stewards, it is being used for advertising purposes.

(h) Licenses shall be granted only to those persons actually participating in racing at a Michigan race track.

(i) The stable name shall be carried on the official program with the name of at least 1 owner; and, if the stable name represents more than 1 owner, it shall be indicated by the use of the name of 1 owner and the words "et al."

(j) On and after January 1, 1966, stable names shall be cleared with the office of the national association of state racing commissioners.

(k) An occupational licensee of the racing commissioner shall permit a search of his clothing, person, riding equipment, automobile and the premises occupied by him on the licensed premises at any time he is required to do so, on proper identification, by the racing commissioner, stewards, or any person or agency duly authorized by the racing commissioner to make such search.

(l) A fine imposed by the racing commissioner or stewards is payable within 48 hours after its imposition. A licensee who fails to pay such fine is automatically suspended on the second day after imposition of the fine and remains suspended until the fine is paid.

History: 1944 ACS 35, p. 53; 1954 AC, p. 5033; 1954 ACS 22, p. 84, Eff. May 13, 1960; 1954 ACS 43, p. 26, Eff. Aug. 14, 1965; 1954 ACS 56, p. 41, Eff. Nov. 14, 1968.

R 431.66 (f) Purses.

(319) Purses for all races run on Michigan tracks shall be for an amount approved by the Michigan racing commission.

History: 1944 ACS 35, p. 53; 1954 AC, p. 5033.

R 431.67 (g) General rules.

(320) It shall be the duty of each and every licensee of the Michigan racing commission, and the officers, officials and employees of said licensee to observe and enforce the rules of racing and the regulations may be amended, altered, repealed, or supplemented by new and additional rules and regulations, in the discretion of the commission, upon giving the licensee 5 days' notice thereof. Every license to hold a race meeting is granted upon the condition that the licensee therein named shall accept, observe and enforce said rules and regulations and any amendments or additions thereto.

(321) Each race meeting licensee shall submit to the racing commission a complete list of racing officials not less than 30 days prior to the dates approved

by the racing commission for the racing to begin on said tracks. This list must contain, in addition to the names and addresses of officials, the position each one is to fill.

(322) At least 85% of all employees of any race meeting licensee, except employees of the racing secretary's office, shall have been residents or registered voters of this state for at least 2 years at the time of their employment. Annually, all employees shall furnish affidavits of compliance with this section to the race meeting licensee by whom they are employed.

(323) Change in stock ownership—In order that the office of the racing commission have in its files at all times a complete and up-to-date list of racing association owners and/or stockholders, with the amount of their holdings, it shall be the obligation of each racing association to inform the racing commission in writing within 48 hours of any transfer of stock or change in ownership, with full details of such transfer or change. Failure to comply with this requirement may be deemed sufficient cause, in the discretion of the racing commissioner, to deny a license for a horse racing meeting or to revoke a license if such has already been issued.

(324) Members of the Michigan racing commission and its representatives shall have the right of full and complete entry to any and all points of the grounds of the associations licensed to conduct racing in Michigan.

(325) Each association conducting racing on any track shall, before publishing, submit to the Michigan racing commission the conditions upon which all races are proposed to be conducted, together with the stake, purse or reward, all of which shall be subject to the approval of the commission.

Rule (326) is herewith revoked.

(327) No association giving a race meeting under a license issued by the Michigan racing commission shall permit bets to be made on the grounds of said association on any race run outside of said grounds and no foreign book or gambling device of any kind shall be permitted on said grounds.

(328) No association shall permit the making of handbooks on its grounds. Any owner, trainer, jockey, driver, or other person interested in any horse or horses at said meeting, who shall bet with or through any such handbook, shall be ejected and suspended from the grounds, and thereafter refused admission to the grounds of all other licensed associations in Michigan.

(329) If any owner, trainer, jockey, driver, stable employee or other person solicits bets from the public by correspondence or other methods, to be made on any horse which is to run on a track in Michigan, such person or persons shall be ruled off of all licensed tracks in the state of Michigan.

(330) The distribution of any handbills or other forms of literature pertaining to or suggestive of advance information except regular daily newspapers or recognized turf publications, on any horse, or the outcome of any future race, is strictly forbidden on the grounds of any licensed track in the state of Michigan.

(331) Rescinded.

(332) All associations conducting racing in the state of Michigan shall arrange for proper policing of all grounds, so as to insure the public and employees ample protection at all times.

(333) The association shall also provide ample office space with proper conveniences, to be used exclusively by the Michigan racing commission and officials and its employees.

(334) No telephone, telegraph, teletype, semaphore, signal device, radio, television or other method of electrical, mechanical, manual or visual communication shall be installed within the enclosure of any licensee, until same has been approved by the commission.

(a) All public telephones and telegraph wires at the track, or on the grounds of the licensee conducting the meeting, shall be closed 30 minutes before the first race of the day. No calls or messages shall be allowed to be made or received after the telephones and telegraph wires are closed until after the last race has been finished except by officials of the commission, by duly authorized officers and officials of the licensee, or duly accredited members of the press.

(b) It shall be the duty of the licensee to prohibit unauthorized persons from using its telephones during the period from 30 minutes prior to the first race to 15 minutes after the last race of the day.

(c) Each race meeting licensee shall, upon request of the commission, furnish the commission with a written description or blueprint, as requested by the commission, showing the location of all equipment used or permitted to be used for the transmission of information within, to, or from its premises, together with all telephones, teletype, and telegraph or other wires, and radio and television equipment upon or entering its premises.

(335) The association shall remunerate the officials appointed by the Michigan racing commission, and assigned to duty on the grounds of said associations.

(336) Minors 12 years of age and older may be permitted to enter the tracks as spectators only and only if accompanied by a parent. This rule, however, shall not preclude any association from making a more restrictive rule against admission of minors at the association's discretion.

(337) No thoroughbred race meeting licensee shall have more than 9 races a day with pari-mutuel betting, except on opening and closing days and Saturdays and holidays, when 10 races may be scheduled, with the provision that all such 10 race programs shall have the same post time. One race for Michigan-bred horses shall be scheduled on each program.

(338) No power of attorney shall be valid for any purpose unless registered with the racing commissioner.

(339) In granting a license to any new or existing racing association to conduct race meetings the commissioner will consider especially the following matters:

(a) Opportunity for the sport to properly develop.

(b) Avoidance of competition with established tracks.

(c) Extent of community support for the promotion and continuance of the tracks.

(d) The character and reputation of the men identified with the undertaking.

(340) Racing associations shall at all times maintain their race tracks in good condition and with a special consideration for the comfort and safety of the public, of the horses stabled, exercising or entered to race thereat, and of all those whose business requires their attendance thereat; and to this end shall have available adequate and proper implements to maintain a uniform track, weather conditions permitting.

(341) Racing associations shall furnish and maintain at least 1 man ambulance and at least 1 horse ambulance each day that their tracks may be open for racing or exercising horses, equipped, ready for immediate duty, and to be placed at an entrance to the racing strip, so that no time may be lost in answering calls.

(342) Post time for the first race each day at thoroughbred race meetings will be not later than 3:30 p.m. and at harness race meetings not later than 8:30 p.m. Post time for the first race each day shall be not later than the time advertised as first race post time by the racing association.

PART 5. QUARTER HORSE RACING

R 431.71 (a) Definitions.

(343) "Age" of a horse is reckoned as beginning the first day of January of the year in which the horse is foaled.

(344) "Arrears" includes all sums due for entrance money, subscriptions, fees, fines, and any default incident to these rules or the rules of the racing authority of any other state or country.

(345) "Authorized agent" means an agent licensed as such by the racing commissioner and whose authority to act for, and on behalf of, another person is evidenced by an authorization filed with the commissioner.

(346) "Breeder" means an owner of a dam at the time of service.

(347) "Course" or "grounds" means the entire premises under control of the race meeting licensees for the conduct of racing.

(348) "Declaration" or "scratch" means the withdrawal of a horse from a race.

(349) "Disciplinary action" means revocation of a license, suspension, ruling off, fine or reprimand, or any combination thereof. "Ruling off" means to bar from the course.

(350) "Entry" means a horse entered in a race, or 2 or more horses which are entered in a race and are coupled because of common ties. "Common ties" are all horses owned wholly or partly by the same owner or the spouse of an owner, or trained by the same trainer.

(351) "Equipment" when applied to a horse means whips, blinkers, tongue straps, muzzles, hoods, nose bands, bits, shadow rolls, martingales, breast plates, bandages, boots, and plates.

(352) "Foul" means any action by any horse or jockey that tends to hinder or interfere with another horse or jockey during the running of a race.

(353) "Horse" includes a horse, mare, gelding, colt, or filly. A "Michigan-bred horse," for purposes of breeders' awards and state supplements, is defined by section 13(5) of Act No. 27 of the Public Acts of 1959, as amended, being §431.43 of the Michigan Compiled Laws.

(354) "Jockey" means a race rider who, having proved his riding ability to the satisfaction of the stewards, is licensed by the racing commissioner.

(355) "Maiden" is a horse which at the time of starting never has won a race recognized by the American quarter horse association (AQHA). A maiden which has been disqualified after finishing first is still to be considered a maiden.

(356) "Month" means a calendar month.

(357) "Nominator" means the person in whose name a horse is nominated for a sweepstakes or handicap race.

(358) "Owner" includes an owner and lessee of a horse or horses and may be 1 or more persons, individually, in a partnership, as a corporation, or in any other authorized form of collective ownership or control.

(359) "Post" means a station on the race course from which the race is started.

(360) "Post position" means a position assigned by lot to a horse for the start of a race.

(361) "Post time" means the time set for arrival at the starting point of the horses in a race. The post time shall be shown a reasonable time prior to the race on a clock device provided for that purpose, prominently displayed, and clearly readable from the grandstand.

(362) "Quarter horse race" means a race in which each horse participating is a quarter horse (i.e., meeting the requirements of, and being registered with, the AQHA) and is ridden by a jockey.

(363) "Race" means a contest of speed among quarter horses for a purse, stake, or reward. Races include those described in the following paragraphs:

(a) "Allowance race" means a race in which the respective weights to be carried are based upon amounts of money or number of races a horse has won over a specific period of time.

(b) "Claiming race" means a race in which a horse may be claimed pursuant to these rules.

(c) "Graded race" means a race in which horses are arbitrarily classified by the racing secretary on the basis of past performance.

(d) "Handicap" means a race in which weights are assigned to the horses by the handicapper for the purpose of equalizing their chances of winning.

(e) "Invitational race." An invitational stakes race or an invitational handicap race in which owners do not contribute to the purse, but which is advertised in the regular stakes program, shall also be considered a stakes race if it carries a minimum purse of $10,000.00.

(f) "Maiden race" means a race for horses which at the time of starting have never won a race recognized by the AQHA. A horse that is moved into first place through a disqualification is no longer considered a maiden.

(g) "Match race" means a race between 2 horses, the property of 2 different owners, on terms agreed to by them.

(h) "Optional claiming race" means a race restricted to horses previously raced for a stated price or less and those designated not to be claimed by the option designated in the conditions of the race. In cases of horses which are entered to be claimed, the race shall be considered a claiming race and for horses entered under the option, the race shall be considered an allowance or purse race.

(i) "Overnight race" means a race for which the entries close 48 hours before the time set for the first race of the day on which such race is to be run.

(j) "Produce race" or "futurity" means a race to be contested by the produce of horses which are named or identified before the closing time of nominations.

(k) "Purse race" means a race for money or other prize to which the owners of the horses engaged do not contribute an entry fee of more than $50.00.

(l) "Race on the flat" means a race run over a course on which no jumps or other obstacles are placed.

(m) "Stakes race" or "sweepstakes" means a race in which owners or nominators, or both, of horses entered or engaged for the race contribute $50.00 or more to a purse for which money or other prizes may be added. Nominations shall close more than 72 hours before time for the first race of the day on which such stakes are to be run. A race with a purse of less than $2,000.00 shall not be considered a stakes or feature race.

(n) "Starter race" means an overnight event, under allowance or handicap conditions, restricted to horses which have previously started for the designated claiming price or less, as stated in the conditions of the starter race.

(o) "Trial race" means a race designated primarily to determine the class of competing horses. A trial may be run as a purse race or stakes, or it may be run as a time trial with no purse at all.

(364) "Racing association" or "race meeting licensee" means a person, association, or corporation licensed by the state of Michigan to conduct horse racing for any stake, purse, or reward.

(365) "Racing day" means a period of 24 hours beginning at midnight and including the time of a race meeting.

(366) "Recognized meeting" means (a) a race meeting held under sanction of law or the AQHA, or both, and reported in accepted turf publications, or (b) a

meeting held in a foreign country, with the sanction of a turf authority whose jurisdiction over racing is recognized by the racing commissioner.

(367) "Starter" means a horse in front of whom the stall doors of the starting gate open at the time the official starter dispatches the field.

(368) "Subscription" means the act of nominating to a stakes race.

(369) "Time of a race meeting" means the total consecutive period for which a license is granted by the racing commissioner.

(370) "Weight for age" means standard weight according to accepted scales.

History: 1954 ACS 91, p. 79, Eff. May 21, 1977.

R 431.72 (b) Race officials.

(371) Officials of a race meeting are as follows: 3 stewards, 3 placing judges, patrol judges, clerk of scales, paddock judge, starter, racing secretary, who may also be a handicapper, timer, veterinarian representing the racing commissioner, and horse identifier.

(372) (a) Two stewards shall be named by the racing commissioner and shall serve as his personal representatives in the stand. All other officials, with the exception of the veterinarian representing the racing commissioner, shall be appointed by the association holding the meeting. All of the officials, including the stewards, are subject to the approval of the racing commissioner. The racing commissioner reserves the right to demand a change of personnel for what he deems good and sufficient reasons. The successor to officials so replaced shall be subject to the approval of the racing commissioner.

(b) In case of emergency, the stewards during a meeting may approve a substitute to fill any of the offices.

(c) An applicant for the position of steward shall have been employed as steward, racing secretary, assistant racing secretary, starter, placing judge, patrol judge, paddock judge, or clerk of scales at a recognized meet for a period of not less than 60 racing days per year during not less than 3 of the 5 preceding calendar years. If no applicant possesses these qualifications then, wherever possible, a person appointed or approved as steward should have prior experience in another branch of racing, such as owner, trainer, jockey, breeder, or veterinarian.

(373) (a) An official or employee who has a direct connection with the running of a race shall not wager money or any other thing of value on the result of a race, nor shall he solicit a stake or present from anyone racing at the meeting.

(b) A person other than the stewards and placing judges shall not be allowed in their respective stands during the running of a race, except with permission of the stewards.

(c) A person other than the stewards shall not be in the stewards' stand when a decision is being made on a foul claim or stewards' inquiry.

(d) A person other than those employed in the developing or projection of visual recordings of a race shall not be in the projection room while the stewards are viewing pictures to decide a foul claim or inquiry.

(e) A racing official shall not be the owner or part owner of a horse racing at a track where he is serving.

History: 1954 ACS 91, p. 81, Eff. May 21, 1977.

R 431.73 (c) Stewards.

(374) The laws of Michigan and the rules of racing supersede the conditions of a race or the regulations of a race meeting, and in matters pertaining to racing the orders of the stewards supersede the orders of the officials of the race meeting licensee.

(375) The stewards have general supervision over all other officials of a race meeting, owners, trainers, jockeys, grooms, and other occupational licensees.

(376) In the performance of their duties, the stewards shall have unrestricted access to all areas used and under the jurisdiction of other racing officials and to all areas used by occupational licensees for racing purposes.

(377) A complaint against a racing official may be made to the stewards or to the racing commissioner. Complaints made directly to the stewards shall be reported to the racing commissioner in writing together with a report of any action which has been taken by them.

(378) Before a race has been declared official, the stewards have the authority to declare a race void and order wagers made on any horse refunded upon reaching a determination that an occurrence before or during a race calls for such action by them in the public interest.

(379) A race meeting licensee shall make a complete visual recording of each race as it is run. Such recordings shall be by motion picture cameras or other means approved by the racing commissioner. A race meeting licensee shall also provide the necessary equipment to promptly show the recordings to the stewards to assist them in making rulings on inquiries, claims of fouls, or other questions pertaining to the race before the race is declared official. Such recordings shall in all cases be considered only as aids to the stewards and the stewards may render decisions without viewing the recordings.

(380) A visual recording of a race shall be preserved by the race meeting licensee in a secure manner for 1 year after the close of the meeting or for a period to be set by the stewards. Specific recordings shall be delivered to the stewards at any time during the meeting and to the racing commissioner or his authorized representative at any time upon request.

(381) For the purpose of educating and protecting jockeys, the race meeting licensee shall show such visual recordings of races, as the stewards deem necessary, to jockeys on the racing day following the races in question.

(382) The stewards shall keep a record of all complaints, infractions of rules, penalties, and dispositions thereof and shall furnish the racing commissioner with a copy of each immediately after each occurrence.

(383) Entries and declarations shall be under the supervision of the stewards. They may refuse entries and when, in their opinion, safety or the best interests of racing require, they may limit entries. A declaration shall not be made without permission of the stewards.

(384) The stewards may interpret the rules of racing and make decisions on all questions arising with reference to entries and the conduct of racing.

(385) The stewards, for cause, may disqualify a horse in any race and may determine the extent of disqualification.

(386) The stewards may demand proof that a horse is not disqualified in any particular or owned in whole or part by a disqualified person. In default of proof satisfactory to them, the stewards may declare the horse disqualified.

(387) The stewards may take disciplinary action against anyone they have authority to supervise, including all occupational licensees.

(388) (a) If a question which would come under the jurisdiction of the stewards is not decided before the close of a meeting, it shall be referred to the racing commissioner for decision after proper notice has been given.

(b) In matters not covered by these rules, the stewards and other officials may, in making decisions, consider the rules of the American quarter horse association (AQHA) if such rules are not in conflict with these rules or the laws of the state of Michigan.

(c) If a question arises which may or may not be covered by these rules it shall be determined by the stewards in conformity with justice and the best interests of racing.

(389) A ruling involving horses registered by the AQHA or affecting personnel engaged in quarter horse racing shall be filed with the AQHA as well as other recognized turf authorities.

History: 1954 ACS 91, p. 81, Eff. May 21, 1977.

R 431.74 (d) Racing secretary.

(390) The racing secretary shall discharge all duties, express or implied, required by the rules of racing, and he shall report to the stewards all violations of the rules or regulations of the meeting.

(391) Printed for each racing day shall be a program compiled by the racing secretary which shall contain the names of the horses that are to run in each of the races for that day, and other information usually set forth in such programs. The official program shall be filed with the AQHA along with required daily race reports, which are to be accompanied by photo-finish film strips recording the time of each horse to $\frac{1}{100}$ of a second.

(392) The racing secretary, or his designated representative, shall record all winning races on proper forms attached to the AQHA registration certificate not later than the day following the winning race. A certificate of eligibility issued by the director of agriculture must accompany the AQHA registration certificate at time of entry of a Michigan-bred horse in a race restricted to Michigan-breds.

(393) If the number of entries to a purse race is in excess of the number of horses that may, because of track limitations, be permitted to start, the starters for the race shall be determined by lot in the presence of those making the entries, and the post positions shall be in the order in which they are drawn; the same methods shall be employed in determining the starters and post positions in split races.

(394) (a) The racing secretary shall keep a list of horses eliminated from races and they shall have preference in any race of similar conditions for which they may be entered thereafter. If a horse appears in the entries and is also entered the following day such entries shall not be given consideration on the preferred list.

(b) The racing secretary shall designate the price spread and the distances and shall publish daily a current list of horses having preference and the price spread and distances of the races to which the preference pertains.

(395) Horses winning races at recognized, authentic county, district, or state fairs in Michigan shall not be penalized for such winnings in races run hereafter under the jurisdiction of the Michigan racing commissioner. The maiden allowance, however, shall be lost by the winning of a race at any fair conducted under the sanction of the AQHA.

(396) If the entries to an overnight race exceed the safe number of starters for the distance as determined by the stewards and the race is not divided, as many as 6 of those which were not drawn shall be placed on the overnight as "also eligibles." If any of the entries are withdrawn at scratch time, as many as required of the "also eligibles" shall be drawn into the race by lot.

The owner or trainer of all "also eligibles" shall, if he does not intend to start, so notify the racing secretary not later than scratch time the day of the race.

(397) Declarations in overnight races shall be made to the racing secretary the day of the race at the appointed time.

(398) In overnight races horses that are physically disabled shall be excused first. If more than 10 interests remain in the first 2 races, or more than 8 interests

remain in the remainder of the races, owners or trainers may declare out to those numbers by the specified scratch time of the day of the race, such right to be determined by lot when necessary.

(399) A horse that has been excused from starting on account of physical disability or sickness shall not be entered until declared fit by the veterinarian representing the racing commissioner.

History: 1954 ACS 91, p. 82, Eff. May 21, 1977.

R 431.75 (e) Handicapper.

(400) The handicapper shall append to the weights for every handicap the day and hour from which winners shall be liable for a penalty, and no alterations shall be made after publication except in case of omission, through error, of the name and weight of a horse duly entered, in which case, by permission of the stewards, the omission may be rectified by the handicapper.

History: 1954 ACS 91, p. 83, Eff. May 21, 1977.

R 431.76 (f) Paddock judge.

(401) The paddock judge shall keep a record of all equipment a horse carried in his previous race and a change is permissible only with consent of the stewards. A designated veterinarian shall be in the paddock for each race. A horse shall be saddled in the paddock and shall be in the paddock not less than 20 minutes before post time.

History: 1954 ACS 91, p. 83, Eff. May 21, 1977.

R 431.77 (g) Placing judges.

(402) (a) The placing judges shall occupy the judges' stand as the horses pass the finish line, and place the horses. In placing the horses the judges shall consider only the respective noses of the horses. Their decision shall be prompt, and shall be final unless a disqualification occurs or their decision is overruled by the stewards. The stewards may correct any mistakes.

(b) As an aide to the judges, every licensed quarter horse track shall provide a photo-finish timing camera which records the time to $\frac{1}{100}$ of a second on the photo-finish film strip. Photo-finish pictures shall be posted or projected for public inspection at the discretion of the commissioner or the stewards.

History: 1954 ACS 91, p. 83, Eff. May 21, 1977.

R 431.78 (h) Patrol judges.

(403) The patrol judges for each race shall take their stations at the places designated by the stewards. They shall be subject to the orders of the stewards and report to them all of their pertinent observations in each race, and shall file written reports if so requested by the stewards.

History: 1954 ACS 91, p. 83, Eff. May 21, 1977.

R 431.79 (i) Clerk of scales.

(404) (a) The clerk of scales shall weigh all jockeys out and in. He shall accurately record and publish any scratch, overweight, or change of jockey, weight, or racing colors, as compared with those stated on the official program, and shall promptly supply all proper racing officials and the mutuel department with all pertinent changes.

(b) The clerk of scales shall report to the racing secretary or his representative, after each race, the weights carried by each horse, with the name of each horse's

jockey and the overweight, if any. He shall also report the post time and running time in each race and other information which may from time to time be required.

(c) The clerk of scales shall promptly report to the stewards an infraction of the rules with respect to weight, weighing, or riding equipment.

(d) A jockey's weight shall include his clothing, boots, goggles, saddle and its attachments, saddle cloth, or other equipment required by the stewards. The following items shall not be included in the jockey's weight: whip, head number, number cloth, bridle, bit, reins, or safety helmet.

(e) Seven pounds is the limit of overweight a horse may carry. If the weight of a rider exceeds the weight the horse is to carry, the jockey shall declare the amount of overweight to the clerk of scales at the time designated by the stewards and the clerk of scales shall have the overweight posted and announced immediately. The failure of a jockey to comply with this rule shall be reported to the stewards.

History: 1954 ACS 91, p. 84, Eff. May 21, 1977.

R 431.80 (j) Commissioner's veterinarian.

(405) (a) The commissioner's veterinarian and such assistants he may require shall examine each horse listed in the overnight entries to determine its eligibility and fitness to race, the time of such examination to be within the discretion of the commissioner's veterinarian on the day of the race. The trainer shall have an attendant present when the commissioner's veterinarian comes to his stable to make a pre-race examination.

(b) The commissioner's veterinarian shall supervise the taking of urine, saliva, or such other samples from the horses as may be directed by the stewards and shall be responsible for the proper storing and delivery thereof to the state laboratory and the maintenance of required records.

(c) The commissioner's veterinarian shall examine such horses as the stewards may request him to examine and reexamine and approve for release from the stewards' list all horses that have been placed thereon for being lame, sick, or injured before they may be entered to race again.

(406) A veterinarian employed by the commissioner or by an association shall not, during the period of his employment, treat or prescribe for a quarter horse for compensation or otherwise, except in case of emergency, in which case a full and complete report shall be made to the stewards. An owner or trainer shall not employ or pay compensation to any such veterinarian, either directly or indirectly, during the period for which he is so employed by the commissioner or an association.

(407) (a) A veterinarian licensed to practice on the grounds of a race meeting licensee shall maintain personal veterinary records which accurately record all medications and which include: name of the horse treated, date of the treatment, and name of the trainer. Such records shall be made available to the stewards or their representatives on request.

(b) The veterinarian shall report to the commissioner's veterinarian or the stewards internal medication given by him to a horse known by him to be entered in a race, or by his direction given to a horse known by him to be entered in a race. The trainer shall also make such report to the commissioner's veterinarian or the stewards. If a forbidden drug is administered internally before scratch time to a horse which is entered to race, such fact shall be reported by the trainer or the veterinarian to the stewards or their representatives before scratch time. If administration is made after scatch time, it shall be reported to the stewards or their representatives immediately.

History: 1954 ACS 91, p. 84, Eff. May 21, 1977.

R 431.81 (k) Starting the race.

(408) (a) All horses shall parade and carry their weight from the paddock to the starting post. A horse failing to do so may be disqualified by the stewards.

(b) After entering the track not more than 12 minutes shall be consumed in the parade of the horses to the post except in cases of unavoidable delay. After passing the stand once, horses shall be allowed to break formation and canter, warm up, or go as they please to the post. When the horses have reached the post, they shall be started without unnecessary delay.

(409) The horses are in the hands of the starter after they leave the paddock until the start, subject to such action as the stewards may take in excusing horses, and are not entitled to further care by their attendants, except in case of accident the starter may permit jockeys to dismount and horses to be cared for during the delay, otherwise no jockey shall dismount. Unruly horses shall be placed on the schooling list.

(410) (a) The starter is required to load horses in the starting gate in order of post position. An exception to this procedure shall receive the approval of the stewards.

(b) A horse is a starter for a race when the stall doors of the starting gate open in front of the horse at the time the starter dispatches the field.

(411) The starter may recommend the fining or suspension of a jockey to the stewards.

(412) Horses shall be schooled under the supervision of the starter or his assistant, who shall report to the racing secretary horses that are schooled sufficiently to start. Unruly horses shall be placed on the schooling list and shall not start until approved by the starter. The schooling list shall be respected in all cases.

(413) A horse before becoming a starter may be excused by the stewards because of physical disability, incorrigibility, or because it is improperly entered in the race.

(414) If a horse is excused by the stewards before becoming a starter, or if the doors at the front of the stall gate do not open when the starter dispatches the field, thus causing a horse to be left, or if a horse is disqualified for bringing in underweight, the money bet on a horse or horses thus eliminated shall be deducted from the pool and refunded to the purchasers of tickets on such horse or horses. However, if 1 horse of an entry or 1 of the horses grouped in the field leaves the stall gate and brings in proper weight there shall be no refund on the entry or on the field.

(415) The track shall be responsible for setting the starting gate so that races actually are run at designated distances. Surveys of the straightaway grade shall be filed with the racing commissioner and the AQHA.

History: 1954 ACS 91, p. 84, Eff. May 21, 1977.

R 431.82 (l) Entries and starters.

(416) If the name of a horse is changed, the new name and the former name shall be published in the official entries until after the horse has started 3 times. The violation of any part of this rule may be sufficient cause for ruling off.

(417) (a) A person who subscribes to a sweepstakes, enters a horse, or in any way participates in a race or racing under these rules, is subject to these rules upon all questions relating thereto.

(b) A horse shall not be qualified to run for a purse or sweepstakes unless it has been, and continues to be, duly entered for the same; and, unless otherwise specified in the conditions of a race, or disqualified by violation of the racing

rules, a horse eligible at the time of entry shall continue to be qualified except in an overnight event for which it shall also be eligible at the time of the start.

(418) (a) An owner or trainer, or his authorized representatives, shall not enter or start a horse that:

(1) Is an habitual bleeder.

(2) Has been trachea-tubed.

(3) Has been nerved at or above the ankle.

(419) (a) A horse shall be eligible at time of starting.

(b) A horse shall not be allowed to start unless duly registered and approved by the racing commissioner.

(c) A horse shall not be allowed to start unless an AQHA registration certificate is on file in the office of the racing secretary, except that the stewards, for good cause, may waive this requirement if the horse is otherwise properly identified.

(d) An entry shall not be received for any horse not stabled upon the grounds of the association where the race is run, unless its stabling elsewhere has been approved by the association.

(e) In entering a horse it shall be clearly identified by stating its age, name, color, whether it is a horse, mare, or gelding, the names of its sire and dam, and if the sire or dam is unnamed, such further pedigree or description as will distinguish the horse intended to be entered from all other horses. If its dam is covered by more than one stallion, the names of all of them shall be given in order of service. A horse entered in a claiming race that is monorchid, cryptorchid, or ridgling, may be so described on the entry blank.

(f) An alteration shall not be made in an entry after the time fixed for closing, but an entry in a race may be corrected with the consent of the stewards.

(g) A horse registered with the AQHA which is racing or participating in race training at a licensed track shall, upon request, be tattoo branded on the inside of the upper lip with an official identification number. The number shall be placed on the horse's registration certificate and shall become part of its identifying features.

(h) The refusal by an owner or trainer to comply with such request shall automatically disqualify such horse from participation in racing until there is compliance with the request and may constitute grounds for disciplinary action.

(i) The stewards may require a determination of the age of a horse, if the age on the registration certificate is in doubt, by a tooth examination made by the commissioner's veterinarian. An animal which through such examination does not correspond in age to the foaling date shown on its registration shall be barred from racing until such registration is examined and corrected.

(j) Joint subscriptions and entries may be made by 2 or more owners.

(k) If a horse is sold by private sale, or at public auction, the written acknowledgement of both parties is necessary to prove that it was transferred with its engagements. A copy of such acknowledgement shall be filed with the racing secretary.

(l) The trainer is responsible for the weight carried by his horse.

(420) An entry, subscription, or rights of entry under it, shall not become void on the death of the nominator or subscriber.

(421) The entrance money, starting and subscription fees, in every race, shall go to the winner, unless otherwise specified in its conditions; but if from any cause a race is not run, stakes or entrance money, if paid, shall be refunded.

(422) An entry in a purse race shall be in the name of a person having an ownership interest in the horse, and shall be made in writing by the owner or trainer, or by his authorized agent, and the full name of every person having an

ownership interest in a horse or an interest in its winnings except the trainer's percentage, shall be registered with the secretary before the horse starts at any meeting. Failure to comply with this rule shall be punished by disciplinary action or suspension, and if an objection because of such default is duly made and sustained against a horse that has run in a race, its winnings in that race shall be forfeited to the horse that finished behind it.

(423) A horse shall not be permitted to start if it has not been fully identified by the official identifier. Absolute responsibility for bringing the correct horse to the paddock rests with the trainer. Violation of any part of this rule shall be grounds for disciplinary action. The stewards may scratch a horse whose recent workouts have not been properly recorded with their office. The trainer is responsible for reporting such workouts.

(424) The racing officials shall have power to call on any person in whose name a horse is entered to produce proof that the horse entered is not the property, either wholly or in part, of a person who is disqualified, or to produce proof of the extent of his property interest in the horse, and in default of such proof being given to their satisfaction, may declare the horse out of the race.

(425) Entries for a purse race, the conditions of which have been previously published, shall close at the time advertised in such publication, and an entry shall not be received after that time, but in case races fail to fill additional time may be granted. Race meeting licensees shall program all allowances, stakes, or handicaps with 6 or more entrants in separate interests and all other races which attract 8 or more entrants in separate interests, with the exception of claiming races for Michigan-breds, which shall be programmed with 7 or more interests.

(426) Not more than 2 horses of the same ownership or interest shall be entered in a purse race or overnight event. Both may start, or 1 or both may be declared at the option of the owner, but only in conformity with the rules governing declarations. If making a double entry in the same ownership, the owner or trainer shall express a preference; and in no case may 2 horses start in the same ownership to the exclusion of a single entry.

(427) (a) All horses having common ties shall be coupled and run as an entry.

(b) If 2 horses are coupled as an entry in an overnight race, either may be declared out up to 1 hour before post time for the first race.

(428) If a race is divided, drawing shall be made for new post positions.

(429) A horse shall not start unless the trainer and owner are licensed by the racing commissioner. A trainer, with the stewards' permission, may start a horse once for an absent owner under a temporary owner's license pending that owner's completion of the regular licensing procedure. A trainer, who is absent from his stable or the grounds where his horses are racing for more than 2 consecutive racing days, and whose horses are entered or are to be entered, shall provide a licensed trainer to assume complete responsibility for the horses being entered or running. Such licensed trainer shall sign in the presence of the stewards a form furnished by the racing commissioner accepting complete responsibility for the horses being entered or running.

(430) If the conditions of any race require an entrance fee, it must accompany the entry.

(431) A horse entered for a purse shall be a starter unless it is declared out.

(432) An owner who has failed to pay the jockey fee or arrears against him on a horse owned by him, may be suspended until same is paid.

(433) In the absence of notice to the contrary, entries or declarations for sweepstakes closing during, or on the eve of, a race meeting, shall be made at the office of the racing secretary.

(434) (a) An entry and a declaration for a sweepstakes shall not be received after a designated closing hour. If an hour is not designated, an entry or declaration may be mailed, telegraphed, or telephoned not later than midnight of the day of closing at the track where the race is to be run, if the entry or declaration is received in time for compliance with each other condition of the race.

(b) An entry or a declaration in a sweepstakes shall be made in writing by the owner of the horse or by an authorized agent, or an entry may be made by telegram or telephone. A telegraphic or telephonic entry, however, shall be confirmed at the earliest possible opportunity, and before the time for declaring to start, or the horse shall not be allowed to start. The person making an entry in a sweepstakes shall give his name in full and his post office address.

(c) If an irregularity of an entry or declaration in a sweepstakes is asserted, and a record of the entry or declaration is not on file in the racing secretary's office, satisfactory proof that the entry or declaration was mailed, telegraphed, or telephoned shall be presented within a reasonable time or the assertion shall not be considered.

(435) A horse shall not be entered in more than 1 race on the same day.

(436) In naming an entry for a produce race, the produce is entered by specifying the dam and sire or sires. If a mare entered in a produce race drops her foal before January 1, has a dead foal, more than 1 foal, or is barren, the entry of such mare is void and the entrance money, if any, shall be returned.

(437) A person who subscribed to a sweepstakes before the time fixed for naming, can transfer the right of entry under 1 or more of his subscriptions to any person or persons otherwise qualified under these rules.

(438) A horse shall become a starter in a sweepstakes unless it has been withdrawn by notice to the clerk of the scales not less than 45 minutes before the time appointed for the race.

(439) (a) A person not having money to his credit with the secretary, shall, before his horse may start, pay to the association all entrance money, stakes, and arrears then due by him or on the horse he intends to start.

(b) If the association allows a horse to start in a race without its entrance money or stake, or its jockey fee for a losing mount for that race, having been paid, it shall be liable for it, but it may have an order of recovery for the same.

History: 1954 ACS 91, p. 85, Eff. May 21, 1977.

R 431.83 (m) Declarations.

(440) (a) The declaration of a horse out of an engagement is irrevocable.

(b) A declaration in sweepstakes shall be made in writing.

(c) Declaration in a purse race shall be made by the owner, trainer, or authorized agent, to the racing secretary or his assistant at such time as he may appoint.

History: 1954 ACS 91, p. 87, Eff. May 21, 1977.

R 431.84 (n) Eligibility, allowances, and penalties.

(441) (a) In determining eligibility, allowances, and penalties, only reports, records, and statistics as published in the "Daily Racing Form," "The Quarter Running Horse Chart Book," corresponding publications of any foreign country, or sworn statements as provided for in subrule (b) shall be considered unless otherwise provided by the published conditions of the race. Interpretation of the conditions of a race shall be made by the racing secretary with approval of the stewards.

(b) A horse which, during the past calendar year, or a horse in a maiden race which, at any time, has started in an approved race which is not reported in AQHA records shall not be entered at a Michigan track until the owner has furnished to the racing secretary, not less than 48 hours prior to the entry, performance records showing where and when the horse raced, the distance, the weight carried, amount earned, and the horse's finishing position and time. The performance records shall be signed and sworn to by the owner of the horse.

(442) Penalties and allowances are not cumulative, unless so declared by the conditions of the race, and shall take effect at the time of starting, except that in overnight events a horse shall have only the allowance to which it was entitled at the time of entry.

(443) Penalties are obligatory. Allowances are optional as to all or any part thereof, and in overnight events shall be claimed at the time of entry.

(444) Allowances to the produce of untried horses shall be claimed before the expiration of the time for naming, and shall not be lost by winning after that time.

(445) (a) A horse shall not receive allowances of weight or be relieved from extra weight if it is beaten in 1 or more races. This rule does not prohibit maiden allowances or allowances to horses that have not won a race within a specified period or race of a specified value.

(b) In all overnight races for 2-year-olds, for 3-year-olds, and for 4-year-olds and up, the minimum weight shall be 116 pounds. This rule shall not apply to handicaps or races written for 3-year-olds and up, but, for AQHA awards purposes, horses carrying less than 116 pounds $\frac{1}{10}$ of a second shall be added to the official time for each 4 pounds, or fraction thereof, less than 116 pounds.

(446) If the conditions of the race specify, Michigan-bred horses may be allowed 5 pounds in overnight races.

History: 1954 ACS 91, p. 88, Eff. May 21, 1977.

R 431.85 (o) Winnings.

(447) (a) Winnings include all prizes up to the time appointed for the start, and shall apply to all races, but not the value of a prize not money or not paid in money. Winnings during the year shall be reckoned from the preceding January 1.

(b) The winnings of a horse shall be computed on the value of the gross earnings.

(c) In estimating the value of a series of races in which an extra sum of money is won by winning 2 or more of the series, the extra amount shall be estimated in the last race by which it was finally won.

(d) In case of a dead heat, each horse shall be construed to be a winner only of the amount received by the owner.

(e) Foreign winnings shall be calculated on the basis of the normal rate of exchange on the day of winning.

(f) If a race is not run or is void, stakes, forfeits, and entrance money shall be returned.

(g) A race shall be declared void if no qualified horse covers the course according to the rules.

(448) Purse money, prize money, or award of any kind shall not be distributed until 72 hours after the purse money or award is won, or until results of the saliva, urine, or other tests, are returned from the commissioner's authorized laboratory. It shall be incumbent upon the racing commissioner to notify the licensee in writing if further delay is necessary.

History: 1954 ACS 91, p. 88, Eff. May 21, 1977.

R 431.86 (p) Claiming races.

(449) The primary purpose of claiming races shall be the classification of horses and not the building up of a racing stable.

(450) (a) In a claiming race a horse is subject to claim for his entered price by any owner, in good standing, who has started a horse at the meeting at which the claim is made. An owner may claim out of his initial race.

(b) A claim may be made by an authorized agent or trainer but an agent or trainer may claim only for the account of those for whom he is licensed as agent.

(c) A person shall not claim his own horse or cause his own horse to be claimed, directly or indirectly, for his own account.

(d) A person shall not claim more than 1 horse from 1 race. An authorized agent, although representing several owners, shall not submit more than 1 claim for 1 race. If a stable consists of horses owned by more than 1 person trained by the same trainer, not more than 1 claim may be entered on behalf of such stable in 1 race.

(e) The claiming price of each horse in a claiming race shall be printed in the official program and a claim for the horse shall be for the amount so designated.

(f) A claim shall be made in writing on a form and placed in an envelope furnished by the association and approved by the racing commissioner. Both form and envelope shall be filled out completely, and shall be sufficiently accurate to identify the claim, otherwise the claim shall be void.

(g) A claim shall be deposited in the claim box not less than 10 minutes before post time of the race to which it pertains. The claim box shall be removed from the counter of the racing secretary's office 10 minutes before post time of the race as determined by the official track clock showing post time. If the clock stamp at the counter which imprints the date, hour, and minute, is used to indicate the date and time the claim envelope is deposited, the time shown on the claim envelope shall be not less than 10 minutes prior to post time of the race.

(h) Money or its equivalent shall not be put in the claim box. For a claim to be valid the person making the claim shall have a credit balance in his account with the association's horsemen's bookkeeper of not less than the amount of the claim.

(i) A claim is irrevocable.

(j) The stewards, or their designated representative, shall open the claim envelopes for each race as soon as, but not until, the horses for the race enter the track on the way from the paddock to post.

(k) Title to a claimed horse shall be vested in the successful claimant at the time the horse becomes a starter. A horse is a starter if the stall doors of the starting gate open in front of it at the time the starter dispatches the horses.

(l) A claimed horse shall run in the interest and for the account of the owner from whom claimed.

(m) If a quarter horse is claimed, the racing secretary shall collect the required AQHA transfer fee from the claimant. The fee shall be forwarded to the AQHA with the registration certificate and a report showing the date claimed, name, and address of the person claiming the horse.

(n) A claim not made in compliance with these rules is void. The stewards at any time may require any person filing a claim to make an affidavit in writing that he is claiming pursuant to these rules. The stewards, subject to the approval of the racing commissioner, shall be the judges of the validity of a claim.

(o) If a claimed horse is excused by the stewards before the start of the race, a claim for such horse is void.

(p) A horse that has been claimed shall be taken, after the race has been run, to the paddock for delivery to the claimant, who shall present written authorization

Digitized by Google

for the claim from the racing secretary. A person shall not refuse to deliver to the person legally entitled thereto a claimed horse, and the horse is disqualified until delivery is made.

(q) If more than 1 valid claim is filed for the same horse, title to the horse shall be determined by lot under the supervision of 1 or more of the stewards.

(r) For a period of 30 days after the claim, a claimed horse shall not start in a race in which the determining eligibility price is less than 25% more than the price at which it was claimed. The day claimed shall not count, but the following calendar day shall be the first day and the horse shall be entitled to enter whenever necessary so that the horse may start on the thirty-first calendar day following the claim, for any claiming price. This provision does not apply to starter handicaps in which the weight to be carried is assigned by the handicapper. This jurisdiction shall honor a similar rule in any other state.

(s) A horse, claimed in another state before racing in this state, while racing in this state shall pay any additional penalty imposed by these rules.

(t) A claimed horse is not eligible to race in any state other than Michigan for a period of 30 days from the date of claim, or until after the close of the meeting at which it was claimed, whichever period of time is the shorter.

(u) A claimed horse shall not be sold or transferred, in whole or in part, to anyone within 30 days after the day it was claimed except in another claiming race.

(v) A claimed horse shall not remain in the same stable or under the care or management of the owner or trainer from whom claimed. If a horse is claimed its engagements are included.

(w) A person who enters, or allows to be entered, in a claiming race, a horse against which is held a mortgage, bill of sale, or lien of any kind shall be subject to disciplinary action, unless when, or before, entering the horse, the written consent of the holder of the mortgage, bill of sale or lien is filed with the racing secretary.

(x) A person shall not enter a horse in a claiming race without disclosing its true ownership. If a horse is claimed, the successful claimant shall register the change with the racing secretary. An allegation of ownership of a horse entered in a claiming race by someone not having peaceful and undisputed possession of it shall not be considered after closing time for claims on that race.

(y) A person shall not offer, or enter into an agreement to claim or not to claim, or attempt to prevent another person from claiming, a horse in a claiming race. A person shall not attempt by intimidation to prevent anyone from running a horse in a claiming race. An owner or trainer shall not make an agreement with another owner or trainer for the protection of each other's horses in a claiming race.

(z) If a stable registered at a meeting is eliminated by sale or removal from the grounds the right to claim is void. If a stable has been eliminated by claiming, the owner so affected may obtain a certificate from the stewards of the meeting and on presentation of that certificate, the owner shall be entitled to claim during the next 30 racing days at any recognized meeting in this state, until he has claimed a horse, or has acquired a horse by some other means. Stables eliminated by fire and other hazards may also be permitted by the stewards to claim under this rule.

(451) An official or other employee of an association shall not give any information as to the filing of claims until the race has been run.

History: 1954 ACS 91, p. 88. Eff. May 21, 1977.

R 431.87 (q) Dead heats.

(452) (a) If a race results in a dead heat, the dead heat shall not be run off; owners shall divide first and second money.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

(b) If 2 horses run a dead heat for first place, all prizes to which first and second horses are entitled shall be divided equally between them; and this applies to dividing prizes regardless of the number of horses running a dead heat. Each horse shall be deemed a winner and liable to penalty for the amount he shall receive. Likewise, if 2 horses run a dead heat for second, they shall divide the second and third money.

(c) If a dead heat is run for second place, and an objection is made to the winner of the race which is sustained, the horses which ran the dead heat shall be deemed to have run a dead heat for the first place.

(d) If the dividing owners cannot agree as to which of them is to have a cup or other prize which cannot be divided, the question shall be determined by lot by the stewards if the racing association chooses not to offer duplicate awards.

History: 1954 ACS 91, p. 90, Eff. May 21, 1977.

R 431.88 (r) Apprentice jockeys.

(453) There shall not be an apprentice jockey classification or weight allowance.

History: 1954 ACS 91, p. 90, Eff. May 21, 1977.

R 431.89 (s) Penalties.

(454) If a race is in dispute, both the horse that finished first and a horse for which the race is authoritatively claimed, shall be liable to all the penalties attached to the winning of that race until the matter is decided.

(455) If winners of claiming races are exempt from penalties, the exemption shall apply to the winners of optional claiming races only if such winner was entered to be claimed.

(456) The handicapper shall append to the weights for every handicap, the day and hour from which winners will be liable to a penalty, if any, and an alteration shall not be made after publication except in case of omission through error of the name or weight of a horse duly entered, in which case, by permission of the stewards, the omission may be rectified by the handicapper.

(457) Penalties shall not be levied against horses, except as to maiden allowances, for winning races on minor tracks. In determining which tracks are minor tracks, the racing commission may consider tracks not reported in the daily racing form or corresponding publications.

History: 1954 ACS 91, p. 90, Eff. May 21, 1977.

R 431.90 (t) Equipment.

(458) (a) Permission for change of equipment from that which the horse carried in its last race may be obtained only from the stewards.

(b) Equipment changes shall be made not later than time of entry.

(c) The use of spurs is prohibited.

(d) Whips are limited to 28 inches in length, including popper. Whips shall have a minimum of 3 feathers and shall not have stingers.

(e) A jockey riding in a race shall wear a safety helmet of a type approved by the racing commissioner on recommendation of the stewards and a change shall not be made in such helmet without the approval of the stewards. A jockey or other rider in the course of exercising or ponying a quarter horse shall be required to wear an approved safety helmet.

(f) A whip, blinkers, or number cloth shall not be allowed on the scales nor shall a bridle or safety helmet approved by the racing commissioner be weighed.

(g) A horse shall wear head numbers in a race if the track is officially rated sloppy or muddy.

(459) A horse entering the paddock to race shall be inspected as to its shoeing, if any. An unshod horse may race.

History: 1954 ACS 91, p. 91, Eff. May 21, 1977.

R 431.91 (u) Objections and appeals.

(460) (a) An objection, except a claim of interference during a race, shall be made to the stewards in writing and signed by the objector. A protest alleging fraud may be made at any time but a protest on grounds of ineligibility, incorrect weight, age or identification shall be made within 48 hours of the race. The stewards, however, may scratch an ineligible horse at any time.

(b) Permission of the stewards is necessary before an objection can be withdrawn.

(c) A person making an objection determined by the stewards or racing commissioner to be unreasonable or frivolous shall pay all the costs and expenses incurred in determining the objection, unless relieved from such expense by the racing commissioner.

(d) An objection to a horse engaged in a race may be made by an owner, trainer, or jockey of some other horse engaged in the same race, or by officials of the meeting.

(461) Proof of the qualifications of any horse against which a protest has been lodged may be demanded by the stewards and, in default of such proof being given, they may declare the horse disqualified.

(462) Objections to a horse based on what occurred in a race shall be made before the numbers of the horses placed in the race have been officially confirmed.

(463) Owners, trainers, and jockeys who make unnecessary complaints may be subject to disciplinary action.

(464) If an objection to a horse which has won or which has been placed in the money in a race is declared valid, that horse is disqualified and the other horses in the race are entitled to placing in the order in which they finished.

(465) If by reason of an objection to a horse a race or place is awarded to another horse, the money for such race shall be redistributed in accordance with the final placing and the stewards shall disqualify any owner who retains any money erroneously awarded prior to the final ruling.

(466) Pending a decision based on an objection, a prize which the horse against which the objection is lodged may have won or may win in the race, or any money held by the association as the prize of a horse claimed in a race, if involved in the determination of the case, shall be withheld until the objection is determined.

(467) In all cases of fraud, or willful deception, the time limitations shall not apply if the stewards are satisfied that the allegations are bona fide and are susceptible of verification; also, the stewards may, on their own initiative, call for proof that a horse is neither disqualified in any respect, nor nominated by, nor the property wholly or in part of, a disqualified person, and in default of such proof, they may declare the horse disqualified.

History: 1954 ACS 91, p. 91, Eff. May 21, 1977.

R 431.92 (v) Causes for disqualifications of jockeys and horses.

(468) A leading horse is entitled to any part of the track, but if a horse swerves or is ridden to either side so as to interfere with or impede another horse, it is a

foul, and such horse may be disqualified, if in the opinion of the stewards it altered the finish of the race, whether the foul was willful or the result of careless riding. If the stewards determine the foul was intentional or due to careless riding, they shall recommend to the racing commissioner disciplinary action for the offending jockey.

(469) (a) The stewards, subject to the racing commissioner's approval, are vested with the power to determine the extent of disqualification in case of fouls. They may place the offending horse behind such horses as in their judgment it interfered with, or they may place it last.

(b) If a horse is disqualified under this rule, a horse in the same race belonging, in whole or in part, to the same owner or trained by the same trainer, in the discretion of the stewards may be disqualified.

(c) The time record for the first horse to cross the finish line shall be the official time of the race except as provided in R 431.62(20).

(470) The stewards shall take cognizance of foul riding, whether complaint is made or not, and a complaint shall not be received from any person except the jockey, trainer, or owner of the horses interfered with.

(471) A person shall not assist the jockeys in taking their equipment off their horses except by the permission of the stewards.

(472) A person shall not throw any covering over any horse at the place of dismounting until its equipment shall have been removed.

(473) (a) A jockey shall weigh in at the same weight as that which he weighed out, and if short of it by 2 pounds or more his mount shall be disqualified and a refund ordered pursuant to R 431.81(414).

(b) A horse which does not carry its jockey across the finish line is disqualified.

(c) A jockey who willfully strikes another jockey or horse with his whip or grabs the clothing or equipment of another jockey or horse may be suspended or ruled off and his mount disqualified.

History: 1954 ACS 91, p. 92, Eff. May 21, 1977.

R 431.93 (w) Jockeys.

(474) A jockey shall not wager on any race except on the horse which he rides, in which case the wager may be made only through the owner or trainer of such horse. A jockey who shall be proven, to the satisfaction of the racing commissioner, to have any pecuniary interest in a race horse, or to have engaged in any forbidden wagering transaction, or to have received any remuneration, gratuities, or incentive in connection with a horse race from persons other than the owner or trainer of a horse ridden by such jockey shall be subject to disciplinary action, including license revocation.

(475) Jockeys having engagements to ride shall be in the scale room at the appointed time. After making weights, jockeys shall not leave the jockey room until all engagements for the day have been filled. Immediately before mounting, jockeys shall test their weights on the scales provided for that purpose and upon failure to make such tests, shall be subject to disciplinary action or suspended.

(476) A jockey shall not have an ownership interest in any race horse.

(477) (a) A jockey shall not wear colors other than those of the owner of the horse he is riding except by permission of the stewards.

(b) If a horse is warming up before a race its number shall be exhibited upon the arm of its rider.

(478) The fee to a jockey in all races shall be, in the absence of a special agreement, not less than the amounts as set forth:

(a) A jockey shall be paid a basic fee of $15.00 for each mount. In addition to the basic $15.00 mount fee, a jockey shall receive a fee of $10.00 for each winning ride, a fee of $4.00 for each second-place finish, and a fee of $2.00 for each third-place finish. Jockeys riding in stakes race finals shall receive 10% of the winnings of their mount.

(b) The $15.00 mount fee shall be deposited with the horsemen's bookkeeper at the time of entry unless the owner or trainer has sufficient money in his account.

(c) Whether the jockey has earned his fee in the event of a scratch after he has weighed out for the race shall be determined by the stewards according to the circumstances in each case.

(479) A jockey shall not be allowed a personal valet. If valets are employed, the association shall make the necessary arrangements for these attendants upon jockeys, and said attendants shall be paid for their services by the association from an assessment levied upon, and collected from, the jockeys and divided equally among all the valets. The valets shall work by the rotation system prepared by the custodian at the beginning of the meeting.

(480) A person employed in the jockeys' room shall not make a bet for himself or place for another a bet on any race, under penalty of disciplinary action.

(481) (a) It shall be the duty of the jockey room custodian to see that order, decorum, and cleanliness are maintained in the jockey and scale rooms.

(b) The custodian shall assist the clerk of scales as the clerk may desire.

(c) The custodian shall make certain that persons other than racing officials, qualified commissioner representatives, and the necessary jockey room attendants, are not admitted to the jockey room after the designated time on a race day without consent of the stewards for each time of entry.

(d) The custodian shall oversee the care and storage of all racing colors.

(e) The custodian shall oversee the jockey attendants.

(f) The custodian shall report to the stewards any irregularities that occur in his province.

(g) The custodian shall make certain that jockeys are neat in appearance when they leave the rooms to ride in a race or when they leave, under escort, to observe the running of a race.

(h) There shall be no gambling or game of chance permitted in the jockeys' quarters.

(482) Unless fraud has been committed, all jockeys temporarily suspended may on the day following such temporary suspension, fulfill all engagements for such day made prior to such suspension.

(483) A jockey shall put forth every reasonable effort and exercise the greatest diligence in riding a race. If, in the opinion of the stewards, a jockey does not put forth every reasonable effort or use proper diligence in the riding of a race, such jockey shall be subject to disciplinary action by the racing commissioner in accordance with the gravity of the offense. Disciplinary action imposed on a jockey shall be satisfied by the disciplined jockey himself.

(484) Employers retaining the same jockey have precedence according to priority of the retainers as specified in the contracts.

(1) Conflicting claims for the services of a jockey shall be decided by the stewards.

(2) A jockey shall not ride against his contract employer in a race unless the horse which he rides is trained by the same trainer as that of his contract employer.

R 431.94 (x) Jockey agents.

(485) (a) Jockeys may make their own engagements, or they may be made by a licensed agent or a contract employer. A jockey agent may act for 2 jockeys only upon approval by the stewards.

(b) A jockey agent shall not come on the track, enter the winner's circle after a race, or be allowed in the paddock at any time.

(c) A jockey agent shall maintain separate and accurate records of all engagements contracted for riders he represents, and at all times have these records available for examination by the stewards.

(d) Inaccuracies in, or failure to maintain, such records as are satisfactory to the stewards constitutes neglect, the penalty for which shall be such disciplinary action as may be determined by the racing commissioner on recommendation of the stewards.

(e) If a jockey dismisses a jockey agent, the jockey shall give immediate notice to the stewards in writing, setting forth the reasons for dismissal of the jockey agent. Failure of the jockey to comply shall be punishable by such disciplinary action as may be determined by the racing commissioner on recommendation of the stewards.

History: 1954 ACS 91, p. 93, Eff. May 21, 1977.

R 431.95 (y) Partnerships.

(486) (a) A partnership shall be registered with the racing commissioner. Partnership papers shall include:

(1) The name and address of each person having an interest in any horse involved.

(2) The relative proportion of such interests.

(3) To whom the winnings are payable.

(4) In whose name each horse shall run.

(5) With whom the power of entry and declaration rests.

(6) The terms of any contingency, lease, or other arrangement.

(b) Partnership papers shall be signed by all parties or their authorized agents. In case of an emergency, authority to sign declarations of partners may be given to the racing secretary by a telegram promptly confirmed in writing.

(c) If the racing secretary is unable to communicate with all proper parties in an attempt to obtain a declaration of partnership, he may authorize a horse involved in a partnership to enter and to start in a stake race without a declaration of partnership.

(d) An alteration in a recorded partnership registration, to be effective, shall be reported in writing to the racing commissioner and signed by all parties.

(e) Each of the parties to a partnership shall be jointly and severally liable for all stakes, forfeits, and other obligations.

(f) The part owner of a horse may assign his share, or any part of it, with the written consent of the other partners and the consent shall be filed with the stewards.

(g) A partner may claim for the partnership, unless otherwise stated in the partnership agreement.

History: 1954 ACS 91, p. 93, Eff. May 21, 1977.

R 431.96 (z) Corporations.

(487) (a) A corporation having an interest in a horse shall file with the racing commissioner at the time of filing application for an owner's license, a statement

in duplicate setting forth the names and addresses of all officers, directors, and shareholders of the corporation, together with the amount of the respective holdings of each shareholder and a statement as to whether their stock is paid in full, and including the designation of an authorized agent or agents of the corporation. The statement shall be signed by the president of the corporation, attested by its secretary, and the corporate seal attached.

(b) A license as an owner shall not be granted to a corporation unless such corporation has not more than 10 shareholders or members, each of whom shall be the registered and beneficial owner of stock membership in the corporation. Each shareholder shall file an application for an owner's license.

(c) A corporation which leases horses for racing purposes in this state and also all its shareholders or members shall make and file with the racing commissioner, if requested by him, a report containing such information as the commissioner may specify. Upon refusal or failure to file such a report, the racing commissioner may refuse a license to a lessee of such corporation or may revoke any such license he granted. A transfer of stock of such corporation or change in the officers or directors shall be reported in writing to the racing commissioner within 48 hours of such change.

(488) Statements of sales and contingencies, or arrangements, by partnerships or corporations, shall declare to whom winnings are payable, in whose name the horse shall run, and with whom rests the power of entry or declaration or declaration of forfeit, and a copy of this information shall be transmitted to the racing commissioner.

History: 1954 ACS 91, p. 94, Eff. May 21, 1977.

R 431.97 (aa) Miscellaneous.

(489) A quarter horse race meeting licensee shall not have more than 10 races a day with pari-mutuel betting. Not less than 1 race for Michigan-bred horses shall be scheduled on each full quarter horse program. A quarter horse race meeting licensee may have more than the number of races a day as herein set forth only upon special permission of the racing commissioner. If Sunday racing is permitted, the first race shall not start before 2 p.m. The national anthem shall be played before the first race is run on all racing days.

History: 1954 ACS 91, p. 94, Eff. May 21, 1977.

PART 6. APPALOOSA RACING

R 431.98 Definitions.

(490) "Age" of a horse is reckoned as beginning the first day of January of the year in which the horse is foaled.

(491) "Appaloosa race" means a race in which each horse participating is an appaloosa, that is, meeting the requirements of, and being registered with, the appaloosa horse club (ApHC) and is ridden by a jockey.

(492) "Arrears" includes all sums due for entrance money, subscriptions, fees, fines, and any default incident to these rules or the rules of the racing authority of any other state or country.

(493) "Authorized agent" means an agent licensed as such by the racing commissioner and whose authority to act for, and on behalf of, another person is evidenced by an authorization filed with the commissioner.

(494) "Breeder" means an owner of a dam at the time of foaling.

(495) "Course" or "grounds" means the entire premises under control of the race meeting licensees for the conduct of racing.

(496) "Declaration" or "scratch" means the withdrawal of a horse from a race.

(497) "Disciplinary action" means revocation of a license, suspension, ruling off, fine or reprimand, or any combination thereof. "Ruling off" means to bar from the course.

(498) "Entry" means a horse entered in a race, or 2 or more horses which are entered in a race and are coupled because of common ties. "Common ties" are all horses owned wholly or partly by the same owner or the spouse of an owner, or trained by the same trainer.

(499) "Equipment," when applied to a horse, means whips, blinkers, halters designed to prevent flipping, tongue straps, muzzles, hoods, nose bands, bits, shadow rolls, martingales, breast plates, bandages, boots, and plates.

(500) "Foul" means any action by any horse or jockey that tends to hinder or interfere with another horse or jockey during the running of a race.

(501) "Horse" includes a horse, mare, gelding, colt, or filly.

(502) "Jockey" means a race rider who, having proved his riding ability to the satisfaction of the stewards, is licensed by the racing commissioner.

(503) "Maiden" is a horse which at the time of starting never has won a race approved by the appaloosa horse club (ApHC). A maiden which has been disqualified after finishing first is still to be considered a maiden.

(504) "Month" means a calendar month.

(505) "Nominator" means the person in whose name a horse is nominated for a sweepstakes or handicap race.

(506) "Owner" includes an owner and lessee of a horse or horses and may be 1 or more persons, individually, in a partnership, as a corporation, or in any other authorized form of collective ownership or control.

(507) "Post" means a station on the race course from which the race is started.

(508) "Post position" means a position assigned by lot to a horse for the start of a race.

(509) "Post time" means the time set for arrival at the starting point of the horses in a race. The post time shall be shown a reasonable time prior to the race on a clock device, provided for that purpose, prominently displayed, and clearly readable from the grandstand.

(510) "Race" means a contest of speed among appaloosa horses for a purse, stake, or reward. Races include those described in the following subdivisions:

(a) "Allowance race" means a race in which the respective weights to be carried are based upon amounts of money or number of races a horse has won over a specific period of time.

(b) "Claiming race" means a race in which a horse may be claimed pursuant to these rules.

(c) "Graded race" means a race in which horses are arbitrarily classified by the racing secretary on the basis of past performance.

(d) "Handicap" means a race in which weights are assigned to the horses by the handicapper for the purpose of equalizing their chances of winning.

(e) "Invitational race." An invitational stakes race or an invitational handicap race in which owners do not contribute to the purse, but which is advertised in the regular stakes program, shall also be considered a stakes race if it carries a minimum purse of $10,000.00.

(f) "Maiden race" means a race for horses which at the time of starting have never won a race approved by the ApHC. A horse that is moved into first place through a disqualification is no longer considered a maiden.

(g) "Match race" means a race between 2 horses, the property of 2 different owners, on terms agreed to by them.

(h) "Optional claiming race" means a race restricted to horses previously raced for a stated price or less and those designated not to be claimed by the option designated in the conditions of the race. In cases of horses which are entered to be claimed, the race shall be considered a claiming race, and for horses entered under the option the race shall be considered an allowance or purse race.

(i) "Overnight race" means a race for which the entries close 48 hours before the time set for the first race of the day on which such race is to be run.

(j) "Produce race" or "futurity" means a race to be contested by the produce of horses which are named or identified before the closing time of nominations.

(k) "Purse race" means a race for money or other prize to which the owners of the horses engaged do not contribute an entry fee of more than $50.00.

(l) "Race on the flat" means a race run over a course on which no jumps or other obstacles are placed.

(m) "Schooling race" means any race run without ApHC approval.

(n) "Stakes race" or "sweepstakes" means a race in which owners or nominators, or both, of horses entered or engaged for the race contribute $50.00 or more to a purse for which money or other prizes may be added. Nominations shall close more than 72 hours before time for the first race of the day on which such stakes are to be run.

(o) "Starter race" means an overnight event, under allowance or handicap conditions, restricted to horses which have previously started for the designated claiming price or less, as stated in the conditions of the starter race.

(p) "Trial race" means a race designated primarily to determine the class of competing horses. A trial may be run as a purse race or stakes, or it may be run as a time trial with no purse at all.

(511) "Racing association" or "race meeting licensee" means a person, association, or corporation licensed by the state of Michigan to conduct horse racing for any stake, purse, or reward.

(512) "Racing day" means a period of 24 hours beginning at midnight and including the time of a race meeting.

(513) "Recognized meeting" means (a) a race meeting held under sanction of law or the ApHC, or both, and reported in accepted turf publications, or (b) a meeting held in a foreign country, with the sanction of a turf authority whose jurisdiction over racing is recognized by the racing commissioner.

(514) "Starter" means a horse in front of which the stall doors of the starting gate open at the time the official starter dispatches the field.

(515) "Subscription" means the act of nominating to a stakes race.

(516) "Time of a race meeting" means the total consecutive period for which a license is granted by the racing commissioner.

(517) "Weight for age" means standard weight according to accepted scales.

History: 1954 ACS 95, p. 78, Eff. May 9, 1978.

R 431.98a Race officials.

(518) Officials of a race meeting are as follows: 3 stewards, 3 placing judges, patrol judges, clerk of scales, paddock judge, starter, racing secretary, who may also be a handicapper, timer, veterinarian representing the racing commissioner, and horse identifier.

(519) (a) Two stewards shall be named by the racing commissioner and shall serve as his personal representatives in the stand. All other officials, with the exception of the veterinarian representing the racing commissioner, shall be appointed by the association holding the meeting. All of the officials, including the stewards, are subject to the approval of the racing commissioner. The racing

commissioner reserves the right to demand a change of personnel for what he deems good and sufficient reasons. The successor to officials so replaced shall be subject to the approval of the racing commissioner.

(b) In case of emergency, the stewards during a meeting may approve a substitute to fill any of the offices.

(c) An applicant for the position of steward shall have been employed as steward, racing secretary, assistant racing secretary, starter, placing judge, patrol judge, paddock judge, or clerk of scales at a recognized meet for a period of not less than 60 racing days per year during not less than 3 of the 5 preceding calendar years. If no applicant possesses these qualifications then, wherever possible, a person appointed or approved as steward should have prior experience in another branch of racing, such as owner, trainer, jockey, breeder, or veterinarian.

(520) (a) An official or employee who has a direct connection with the running of a race shall not wager money or any other thing of value on the result of a race, nor shall he solicit a stake or present from anyone racing at the meeting.

(b) A person other than the stewards and placing judges shall not be allowed in their respective stands during the running of a race, except with permission of the stewards.

(c) A person other than the stewards shall not be in the stewards' stand when a decision is being made on a foul claim or stewards' inquiry.

(d) A person other than those employed in the developing or projection of visual recordings of a race shall not be in the projection room while the stewards are viewing pictures to decide a foul claim or inquiry.

(e) A racing official shall not be the owner or part owner of a horse racing at a track where he is serving.

History: 1954 ACS 95, p. 79, Eff. May 9, 1978.

R 431.98b Stewards.

(521) The laws of Michigan and the rules of racing supersede the conditions of a race or the regulations of a race meeting, and in matters pertaining to racing the orders of the stewards supersede the orders of the officials of the race meeting licensee.

(522) The stewards have general supervision over all other officials of a race meeting, owners, trainers, jockeys, grooms, and other occupational licensees.

(523) In the performance of their duties, the stewards shall have unrestricted access to all areas used and under the jurisdiction of other racing officials and to all areas used by occupational licensees for racing purposes.

(524) A complaint against a racing official may be made to the stewards or to the racing commissioner. Complaints made directly to the stewards shall be reported to the racing commissioner in writing together with a report of any action which has been taken by them.

(525) Before a race has been declared official, the stewards have the authority to declare a race void and order wagers made on any horse refunded upon reaching a determination that an occurrence before or during a race calls for such action by them in the public interest.

(526) A race meeting licensee shall make a complete visual recording of each race as it is run. Such recordings shall be by motion picture cameras or other means approved by the racing commissioner. A race meeting licensee shall also provide the necessary equipment to promptly show the recordings to the stewards to assist them in making rulings on inquiries, claims of fouls, or other questions pertaining to the race before the race is declared official. Such recordings shall in all cases be considered only as aids to the stewards and the stewards may render decisions without viewing the recordings.

(527) A visual recording of a race shall be preserved by the race meeting licensee in a secure manner for 1 year after the close of the meeting or for a period to be set by the stewards. Specific recordings shall be delivered to the stewards at any time during the meeting and to the racing commissioner or his authorized representative at any time upon request.

(528) For the purpose of educating and protecting jockeys, the race meeting licensee shall show such visual recordings of races, as the stewards deem necessary, to jockeys on the racing day following the races in question.

(529) The stewards shall keep a record of all complaints, infractions of rules, penalties, and dispositions thereof and shall furnish the racing commissioner with a copy of each immediately after each occurrence.

(530) Entries and declarations shall be under the supervision of the stewards. They may refuse entries and when, in their opinion, safety or the best interests of racing require, they may limit entries. A declaration shall not be made without permission of the stewards.

(531) The stewards may interpret the rules of racing and make decisions on all questions arising with reference to entries and the conduct of racing.

(532) The stewards, for cause, may disqualify a horse in any race and may determine the extent of disqualification.

(533) The stewards may demand proof that a horse is not disqualified in any particular or owned in whole or part by a disqualified person. In default of proof satisfactory to them, the stewards may declare the horse disqualified.

(534) The stewards may take disciplinary action against anyone they have authority to supervise, including all occupational licensees.

(535) (a) If a question which would come under the jurisdiction of the stewards is not decided before the close of a meeting, it shall be referred to the racing commissioner for decision after proper notice has been given.

(b) In matters not covered by these rules, the stewards and other officials may, in making decisions, consider the rules of the appaloosa horse club (ApHC) if such rules are not in conflict with these rules or the laws of the state of Michigan.

(c) If a question arises which may or may not be covered by these rules it shall be determined by the stewards in conformity with justice and the best interests of racing.

(536) A ruling involving horses registered by the ApHC or affecting personnel engaged in appaloosa racing shall be filed with the ApHC as well as other recognized turf authorities.

History: 1954 ACS 95, p. 80, Eff. May 9, 1978.

R 431.98c Racing secretary.

(537) The racing secretary shall discharge all duties, express or implied, required by the rules of racing, and he shall report to the stewards all violations of the rules or regulations of the meeting.

(538) Printed for each racing day shall be a program compiled by the racing secretary which shall contain the names of the horses that are to run in each of the races for that day, and other information usually set forth in such programs. The official program shall be filed with the ApHC along with required daily race reports, which are to be accompanied by photo-finish film strips recording the time of each horse to ⅟₁₀₀ of a second.

(539) The racing secretary or his designated representative shall record all winning races on proper forms attached to the ApHC registration certificate not later than the day following the winning race. A certificate of eligibility issued by the director of agriculture shall accompany the ApHC registration certificate at time of entry of a Michigan-bred horse in a race restricted to Michigan-breds.

(540) If the number of entries to a purse race is in excess of the number of horses that may, because of track limitations, be permitted to start, the starters for the race shall be determined by lot in the presence of those making the entries, and the post positions shall be in the order in which they are drawn; the same methods shall be employed in determining the starters and post positions in split races.

(541) (a) The racing secretary shall keep a list of horses eliminated from races and they shall have preference in any race of similar conditions for which they may be entered thereafter. If a horse appears in the entries and is also entered the following day, such entries shall not be given consideration on the preferred list.

(b) The racing secretary shall designate the price spread and the distances and shall publish daily a current list of horses having preference and the price spread and distances of the races to which the preference pertains.

(542) Horses winning races at recognized, authentic county, district, or state fairs in Michigan shall not be penalized for such winnings in races run hereafter under the jurisdiction of the Michigan racing commissioner. The maiden allowance, however, shall be lost by the winning of a race at any fair where racing is approved by the ApHC.

(543) If the entries to an overnight race exceed the safe number of starters for the distance as determined by the stewards and the race is not divided, as many as 6 of those which were not drawn shall be placed on the overnight as "also eligibles." If any of the entries are withdrawn at scratch time, as many as required of the "also eligibles" shall be drawn into the race by lot.

The owner or trainer of all "also eligibles" shall, if he does not intend to start, so notify the racing secretary not later than scratch time the day of the race.

(544) Declarations in overnight races shall be made to the racing secretary the day of the race at the appointed time.

(545) In overnight races horses that are physically disabled shall be excused first. If more than 10 interests remain in the first 2 races, or more than 8 interests remain in the remainder of the races, owners or trainers may declare out to those numbers by the specified scratch time of the day of the race, such right to be determined by lot when necessary.

(546) A horse that has been excused from starting on account of physical disability or sickness shall not be entered until declared fit by the veterinarian representing the racing commissioner.

History: 1954 ACS 95, p. 81, Eff. May 9, 1978.

R 431.98d Handicapper.

(547) The handicapper shall append to the weights for every handicap the day and hour from which winners shall be liable for a penalty, and no alterations shall be made after publication except in case of omission, through error, of the name and weight of a horse duly entered, in which case, by permission of the stewards, the omission may be rectified by the handicapper.

History: 1954 ACS 95, p. 82, Eff. May 9, 1978.

R 431.98e Paddock judge.

(548) The paddock judge shall keep a record of all equipment a horse carried in his previous race and a change is permissible only with consent of the stewards. A designated veterinarian shall be in the paddock for each race. A horse shall be saddled in the paddock and shall be in the paddock not less than 20 minutes before post time.

History: 1954 ACS 95, p. 82, Eff. May 9, 1978.

R 431.98f Placing judges.

(549) (a) The placing judges shall occupy the judges' stand as the horses pass the finish line, and place the horses. In placing the horses the judges shall consider only the respective noses of the horses. Their decision shall be prompt, and shall be final unless a disqualification occurs or their decision is overruled by the stewards. The stewards may correct any mistakes.

(b) As an aid to the judges, every licensed appaloosa track shall provide a photo-finish timing camera which records the time to 1/100 of a second on the photo-finish filmstrip. Photo-finish pictures shall be posted or projected for public inspection at the discretion of the commissioner or the stewards.

History: 1954 ACS 95, p. 82, Eff. May 9, 1978.

R 431.98g Patrol judges.

(550) The patrol judges for each race shall take their stations at the places designated by the stewards. They shall be subject to the orders of the stewards and report to them all of their pertinent observations in each race, and shall file written reports if so requested by the stewards.

History: 1954 ACS 95, p. 82, Eff. May 9, 1978.

R 431.98h Clerk of scales.

(551) (a) The clerk of scales shall weigh all jockeys out and in. He shall accurately record and publish any scratch, overweight, or change of jockey, weight, or racing colors as compared with those stated on the official program, and shall promptly supply all proper racing officials and the mutuel department with all pertinent changes.

(b) The clerk of scales shall report to the racing secretary, or his representative, after each race, the weights carried by each horse, with the name of each horse's jockey and the overweight, if any. He shall also report the post time and running time in each race and other information which may from time to time be required.

(c) The clerk of scales shall promptly report to the stewards an infraction of the rules with respect to weight, weighing, or riding equipment.

(d) A jockey's weight shall include his clothing, boots, goggles, saddle and its attachments, saddle cloth, or other equipment required by the stewards. The following items shall not be included in the jockey's weight: whip, head number, number cloth, bridle, bit, reins, or safety helmet.

(e) Seven pounds is the limit of overweight a horse may carry. If the weight of a rider exceeds the weight the horse is to carry, the jockey shall declare the amount of overweight to the clerk of scales at the time designated by the stewards and the clerk of scales shall have the overweight posted and announced immediately. The failure of a jockey to comply with this rule shall be reported to the stewards.

History: 1954 ACS 95, p. 82, Eff. May 9, 1978.

R 431.98i Commissioner's veterinarian.

(552) (a) The commissioner's veterinarian and such assistants he may require shall examine each horse listed in the overnight entries to determine its eligibility and fitness to race, the time of such examination to be within the discretion of the commissioner's veterinarian on the day of the race. The trainer shall have an attendant present when the commissioner's veterinarian comes to his stable to make a pre-race examination.

(b) The commissioner's veterinarian shall supervise the taking of urine, saliva, or such other samples from the horses as may be directed by the stewards and shall be responsible for the proper storing and delivery thereof to the state laboratory and the maintenance of required records.

(c) The commissioner's veterinarian shall examine such horses as the stewards may request him to examine and reexamine and approve for release from the stewards' list all horses that have been placed thereon for being lame, sick, or injured before they may be entered to race again.

(553) A veterinarian employed by the commissioner or by an association shall not, during the period of his employment, treat or prescribe for an appaloosa for compensation or otherwise, except in case of emergency, in which case a full and complete report shall be made to the stewards. An owner or trainer shall not employ or pay compensation to any such veterinarian, either directly or indirectly, during the period for which he is so employed by the commissioner or an association.

(554) (a) A veterinarian licensed to practice on the grounds of a race meeting licensee shall maintain personal veterinary records which accurately record all medications and which include: name of the horse treated, date of the treatment, and name of the trainer. Such records shall be made available to the stewards or their representatives on request.

(b) The veterinarian shall report to the commissioner's veterinarian or the stewards internal medication given by him to a horse known by him to be entered in a race, or by his direction given to a horse known by him to be entered in a race. The trainer shall also make such report to the commissioner's veterinarian or the stewards. If a forbidden drug is administered internally before scratch time to a horse which is entered to race, such fact shall be reported by the trainer or the veterinarian to the stewards or their representatives before scratch time. If administration is made after scratch time, it shall be reported to the stewards or their representatives immediately.

History: 1954 ACS 95, p. 83. Eff. May 9, 1978.

R 431.98j Starting the race.

(555) (a) All horses shall parade and carry their weight from the paddock to the starting post. A horse failing to do so may be disqualified by the stewards.

(b) After entering the track not more than 12 minutes shall be consumed in the parade of the horses to the post except in cases of unavoidable delay. After passing the stand once, horses shall be allowed to break formation and canter, warm up, or go as they please to the post. When the horses have reached the post, they shall be started without unnecessary delay.

(556) The horses are in the hands of the starter after they leave the paddock until the start, subject to such action as the stewards may take in excusing horses, and are not entitled to further care by their attendants, except in case of accident the starter may permit jockeys to dismount and horses to be cared for during the delay, otherwise no jockey shall dismount. Unruly horses shall be placed on the schooling list.

(557) (a) The starter is required to load horses in the starting gate in order of post position. An exception to this procedure shall receive the approval of the stewards.

(b) A horse is a starter for a race when the stall doors of the starting gate open in front of the horse at the time the starter dispatches the field.

(558) The starter may recommend the fining or suspension of a jockey to the stewards.

(559) Horses shall be schooled under the supervision of the starter or his assistant, who shall report to the racing secretary horses that are schooled sufficiently to start. Unruly horses shall be placed on the schooling list and shall not start until approved by the starter. The schooling list shall be respected in all cases.

(560) A horse before becoming a starter may be excused by the stewards because of physical disability, incorrigibility, or because it is improperly entered in the race.

(561) If a horse is excused by the stewards before becoming a starter, or if the doors at the front of the stall gate do not open when the starter dispatches the field, thus causing a horse to be left, or if a horse is disqualified for bringing in underweight, the money bet on a horse or horses thus eliminated shall be deducted from the pool and refunded to the purchasers of tickets on such horse or horses. However, if 1 horse of an entry or 1 of the horses grouped in the field leaves the stall gate and brings in proper weight there shall be no refund on the entry or on the field.

(562) The track shall be responsible for setting the starting gate so that races actually are run at designated distances. Surveys of the straightaway grade shall be filed with the racing commissioner.

History: 1954 ACS 95, p. 83, Eff. May 9, 1978.

R 431.98k Entries and starters.

(563) If the name of a horse is changed, the new name and the former name shall be published in the official entries until after the horse has started 3 times. The violation of any part of this rule may be sufficient cause for ruling off.

(564) (a) A person who subscribes to a sweepstakes, enters a horse, or in any way participates in a race or racing under these rules, is subject to these rules upon all questions relating thereto.

(b) A horse shall not be qualified to run for a purse or sweepstakes unless it has been, and continues to be, duly entered for the same; and, unless otherwise specified in the conditions of the race, or disqualified by violation of the racing rules, a horse eligible at the time of entry shall continue to be qualified except in an overnight event for which it shall also be eligible at the time of the start.

(565) An owner or trainer, or his authorized representatives, shall not enter or start a horse that:

(1) Is an habitual bleeder.

(2) Has been trachea-tubed.

(3) Has been nerved at or above the ankle.

(566) (a) A horse shall be eligible at time of starting.

(b) A horse shall not be allowed to start unless duly registered and approved by the racing commissioner.

(c) A horse shall not be allowed to start unless an ApHC registration certificate is on file in the office of the racing secretary, except that the stewards, for good cause, may waive this requirement if the horse is otherwise properly identified.

(d) An entry shall not be received for any horse not stabled upon the grounds of the association where the race is run, unless its stabling elsewhere has been approved by the association.

(e) In entering a horse it shall be clearly identified by stating its age, name, color, whether it is a horse, mare, or gelding, the names of its sire and dam, and if the sire or dam is unnamed, such further pedigree or description as will distinguish the horse intended to be entered from all other horses. If its dam is covered by more than 1 stallion, the names of all of them shall be given in order of service. A

horse entered in a claiming race that is monorchid, cryptorchid, or ridgling, may be so described on the entry blank.

(f) An alteration shall not be made in an entry after the time fixed for closing, but an entry in a race may be corrected with the consent of the stewards.

(g) A horse registered with the ApHC which is racing or participating in race training at a licensed track shall, upon request, be tattoo branded on the inside of the upper lip with an official identification number. The number shall be placed on the horse's registration certificate and shall become part of its identifying features.

(h) The refusal by an owner or trainer to comply with such request shall automatically disqualify such horse from participation in racing until there is compliance with the request and may constitute grounds for disciplinary action.

(i) The stewards may require a determination of the age of a horse, if the age on the registration certificate is in doubt, by a tooth examination made by the commissioner's veterinarian. An animal which through such examination does not correspond in age to the foaling date shown on its registration shall be barred from racing until such registration is examined and corrected.

(j) Joint subscriptions and entries may be made by 2 or more owners.

(k) If a horse is sold by private sale, or at public auction, the written acknowledgement of both parties is necessary to prove that it was transferred with its engagements. A copy of such acknowledgement shall be filed with the racing secretary.

(l) The trainer is responsible for the weight carried by his horse.

(567) An entry, subscription, or rights of entry under it, shall not become void on the death of the nominator or subscriber.

(568) The entrance money, starting and subscription fees, in every race, shall go to the winner, unless otherwise specified in its conditions; but if from any cause a race is not run, stakes or entrance money, if paid, shall be refunded.

(569) An entry in a purse race shall be in the name of a person having an ownership interest in the horse, and shall be made in writing by the owner or trainer, or by his authorized agent, and the full name of every person having an ownership interest in a horse or an interest in its winnings except the trainer's percentage, shall be registered with the secretary before the horse starts at any meeting. Failure to comply with this rule shall be punished by disciplinary action or suspension, and if an objection because of such default is duly made and sustained against a horse that has run in a race, its winnings in that race shall be forfeited to the horse that finished behind it.

(570) A horse shall not be permitted to start if it has not been fully identified by the official identifier. Absolute responsibility for bringing the correct horse to the paddock rests with the trainer. Violation of a part of this rule shall be grounds for disciplinary action. The stewards may scratch a horse whose recent workouts have not been properly recorded with their office. The trainer is responsible for reporting such workouts.

(571) The racing officials shall have power to call on any person in whose name a horse is entered to produce proof that the horse entered is not the property, either wholly or in part, of a person who is disqualified, or to produce proof of the extent of his property interest in the horse, and in default of such proof being given to their satisfaction, may declare the horse out of the race.

(572) Entries for a purse race, the conditions of which have been previously published, shall close at the time advertised in such publication, and an entry shall not be received after that time, but in case races fail to fill, additional time may be granted. Race meeting licensees shall program all allowances, stakes, or handicaps

with 6 or more entrants in separate interests and all other races which attract 8 or more entrants in separate interests, with the exception of claiming races for Michigan-breds, which shall be programmed with 7 or more interests.

(573) Not more than 2 horses of the same ownership or interest shall be entered in a purse race or overnight event. Both may start, or 1 or both may be declared at the option of the owner, but only in conformity with the rules governing declarations. If making a double entry in the same ownership, the owner or trainer shall express a preference; and in no case may 2 horses start in the same ownership to the exclusion of a single entry.

(574) (a) All horses having common ties shall be coupled and run as an entry.

(b) If 2 horses are coupled as an entry in an overnight race, either may be declared out up to 1 hour before post time for the first race.

(575) If a race is divided, drawing shall be made for new post positions.

(576) A horse shall not start unless the trainer and owner are licensed by the racing commissioner. A trainer, with the stewards' permission, may start a horse once for an absent owner under a temporary owner's license pending that owner's completion of the regular licensing procedure. A trainer who is absent from his stable or the grounds where his horses are racing for more than 2 consecutive racing days, and whose horses are entered or are to be entered, shall provide a licensed trainer to assume complete responsibility for the horses being entered or running. Such licensed trainer shall sign in the presence of the stewards a form furnished by the racing commissioner accepting complete responsibility for the horses being entered or running.

(577) If the conditions of any race require an entrance fee, it shall accompany the entry.

(578) A horse entered for a purse shall be a starter unless it is declared out.

(579) An owner who has failed to pay the jockey fee or arrears against him on a horse owned by him may be suspended until same is paid.

(580) In the absence of notice to the contrary, entries or declarations for sweepstakes closing during, or on the eve of, a race meeting, shall be made at the office of the racing secretary.

(581) (a) An entry and a declaration for a sweepstakes shall not be received after a designated closing hour. If an hour is not designated, an entry or declaration may be mailed, telegraphed, or telephoned not later than midnight on the day of closing at the track where the race is to be run, if the entry or declaration is received in time for compliance with each other condition of the race.

(b) An entry or a declaration in a sweepstakes shall be made in writing by the owner of the horse or by an authorized agent, or an entry may be made by telegram or telephone. A telegraphic or telephonic entry, however, shall be confirmed at the earliest possible opportunity, and before the time for declaring to start, or the horse shall not be allowed to start. The person making an entry in a sweepstakes shall give his name in full and his post office address.

(c) If an irregularity of an entry or declaration in a sweepstakes is asserted, and a record of the entry or declaration is not on file in the racing secretary's office, satisfactory proof that the entry or declaration was mailed, telegraphed, or telephoned shall be presented within a reasonable time or the assertion shall not be considered.

(582) A horse shall not be entered in more than 1 race on the same day.

(583) In naming an entry for a produce race, the produce is entered by specifying the dam and sire or sires. If a mare entered in a produce race drops her foal before January 1, has a dead foal, more than 1 foal, or is barren, the entry of such mare is void and the entrance money, if any, shall be returned.

(584) A person who subscribed to a sweepstakes before the time fixed for naming, can transfer the right of entry under 1 or more of his subscriptions to any person or persons otherwise qualified under these rules.

(585) A horse shall become a starter in a sweepstakes unless it has been withdrawn by notice to the clerk of the scales not less than 45 minutes before the time appointed for the race.

(586) (a) A person not having money to his credit with the secretary shall, before his horse may start, pay to the association all entrance money, stakes, and arrears then due by him or on the horse he intends to start.

(b) If the association allows a horse to start in a race without its entrance money or stake, or its jockey fee for a losing mount for that race, having been paid, it shall be liable for it, but it may have an order of recovery for the same.

History: 1954 ACS 95, p. 84, Eff. May 9, 1978.

R 431.98l Declarations.

(587) (a) The declaration of a horse out of an engagement is irrevocable.

(b) A declaration in sweepstakes shall be made in writing.

(c) Declaration in a purse race shall be made by the owner, trainer, or authorized agent, to the racing secretary or his assistant at such time as he may appoint.

History: 1954 ACS 95, p. 86, Eff. May 9, 1978.

R 431.98m Eligibility, allowances, and penalties.

(588) (a) In determining eligibility, allowances, and penalties, only reports, records, and statistics as published in the daily racing form, ApHC chart books, corresponding publications of any foreign country, or sworn statements as provided for in subrule (b) shall be considered unless otherwise provided by the published conditions of the race. Interpretation of the conditions of a race shall be made by the racing secretary with approval of the stewards.

(b) A horse which, during the past calendar year, or a horse in a maiden race which, at any time, has started in an approved race which is not reported in ApHC records shall not be entered at a Michigan track until the owner has furnished to the racing secretary, not less than 48 hours prior to the entry, performance records showing where and when the horse raced, the distance, the weight carried, amount earned, and the horse's finishing position and time. The performance records shall be signed and sworn to by the owner of the horse.

(589) Penalties and allowances are not cumulative, unless so declared by the conditions of the race, and shall take effect at the time of starting, except that in overnight events a horse shall have only the allowance to which it was entitled at the time of entry.

(590) Penalties are obligatory. Allowances are optional as to all or any part thereof, and in overnight events shall be claimed at the time of entry.

(591) Allowances to the produce of untried horses shall be claimed before the expiration of the time for naming, and shall not be lost by winning after that time.

(592) (a) A horse shall not receive allowances of weight or be relieved from extra weight if it is beaten in 1 or more races. This rule does not prohibit maiden allowances or allowances to horses that have not won a race within a specified period or race of a specified value.

(b) In all overnight races for 2-year-olds, for 3-year-olds, and for 4-year-olds and up, the minimum weight shall be 116 pounds. This rule shall not apply to handicaps or races written for 3-year-olds and up.

(593) If the conditions of the race specify, Michigan-bred horses may be allowed 5 pounds in overnight races.

History: 1954 ACS 95, p. 86, Eff. May 9, 1978.

R 431.98n Winnings.

(594) (a) Winnings include all prizes up to the time appointed for the start, and shall apply to all races, but not the value of a prize not money or not paid in money. Winnings during the year shall be reckoned from the preceding January 1.

(b) The winnings of a horse shall be computed on the value of the gross earnings.

(c) In estimating the value of a series of races in which an extra sum of money is won by winning 2 or more of the series, the extra amount shall be estimated in the last race by which it was finally won.

(d) In case of a dead heat, each horse shall be construed to be a winner only of the amount received by the owner.

(e) Foreign winnings shall be calculated on the basis of the normal rate of exchange on the day of winning.

(f) If a race is not run or is void, stakes, forfeits, and entrance money shall be returned.

(g) A race shall be declared void if no qualified horse covers the course according to the rules.

(595) Purse money, prize money, or award of any kind shall not be distributed until 72 hours after the purse money or award is won, or until results of the saliva, urine, or other tests are returned from the commissioner's authorized laboratory. It shall be incumbent upon the racing commissioner to notify the licensee in writing if further delay is necessary.

History: 1954 ACS 95, p. 87, Eff. May 9, 1978.

R 431.98o Claiming races.

(596) The primary purpose of claiming races shall be the classification of horses and not the building up of a racing stable.

(597) (a) In a claiming race, a horse is subject to claim for his entered price by any owner in good standing who has started a horse at the meeting at which the claim is made. An owner may claim out of his initial race.

(b) A claim may be made by an authorized agent or trainer, but an agent or trainer may claim only for the account of those for whom he is licensed as agent.

(c) A person shall not claim his own horse or cause his own horse to be claimed, directly or indirectly, for his own account.

(d) A person shall not claim more than 1 horse from 1 race. An authorized agent, although representing several owners, shall not submit more than 1 claim for 1 race. If a stable consists of horses owned by more than 1 person trained by the same trainer, not more than 1 claim may be entered on behalf of such stable in 1 race.

(e) The claiming price of each horse in a claiming race shall be printed in the official program and a claim for the horse shall be for the amount so designated.

(f) A claim shall be made in writing on a form and placed in an envelope furnished by the association and approved by the racing commissioner. Both form and envelope shall be filled out completely, and shall be sufficiently accurate to identify the claim, otherwise the claim shall be void.

(g) A claim shall be deposited in the claim box not less than 10 minutes before post time of the race to which it pertains. The claim box shall be removed from the counter of the racing secretary's office 10 minutes before post time of the race as determined by the official track clock showing post time. If the clock stamp at

the counter which imprints the date, hour, and minute, is used to indicate the date and time the claim envelope is deposited, the time shown on the claim envelope shall be not less than 10 minutes prior to post time of the race.

(h) Money or its equivalent shall not be put in the claim box. For a claim to be valid the person making the claim shall have a credit balance in his account with the association's horsemen's bookkeeper of not less than the amount of the claim.

(i) A claim is irrevocable.

(j) The stewards, or their designated representative, shall open the claim envelopes for each race as soon as, but not until, the horses for the race enter the track on the way from the paddock to post.

(k) Title to a claimed horse shall be vested in the successful claimant at the time the horse becomes a starter. A horse is a starter if the stall doors of the starting gate open in front of it at the time the starter dispatches the horses.

(l) A claimed horse shall run in the interest and for the account of the owner from whom claimed.

(m) If an appaloosa horse is claimed, the racing secretary shall collect the required ApHC transfer fee from the claimant. The fee shall be forwarded to the ApHC with a completed application for transfer. The date claimed, name, and address of the person claiming the horse shall be added to the back of the foal certificate and it shall be signed by a steward.

(n) A claim not made in compliance with these rules is void. The stewards at any time may require any person filing a claim to make an affidavit in writing that he is claiming pursuant to these rules. The stewards, subject to the approval of the racing commissioner, shall be the judges of the validity of a claim.

(o) If a claimed horse is excused by the stewards before the start of the race, a claim for such horse is void.

(p) A horse that has been claimed shall be taken, after the race has been run, to the paddock for delivery to the claimant, who shall present written authorization for the claim from the racing secretary. A person shall not refuse to deliver to the person legally entitled thereto a claimed horse, and the horse is disqualified until delivery is made.

(q) If more than 1 valid claim is filed for the same horse, title to the horse shall be determined by lot under the supervision of 1 or more of the stewards.

(r) For a period of 30 days after the claim, a claimed horse shall not start in a race in which the determining eligibility price is less than 25% more than the price at which it was claimed. The day claimed shall not count, but the following calendar day shall be the first day and the horse shall be entitled to enter whenever necessary so that the horse may start on the thirty-first calendar day following the claim, for any claiming price. This provision does not apply to starter handicaps in which the weight to be carried is assigned by the handicapper. This jurisdiction shall honor a similar rule in any other state.

(s) A horse claimed in another state, before racing in this state, while racing in this state shall pay any additional penalty imposed by these rules.

(t) A claimed horse is not eligible to race in any state other than Michigan for a period of 30 days from the date of claim, or until after the close of the meeting at which it was claimed, whichever period of time is the shorter.

(u) A claimed horse shall not be sold or transferred, in whole or in part, to anyone within 30 days after the day it was claimed except in another claiming race.

(v) A claimed horse shall not remain in the same stable or under the care or management of the owner or trainer from whom claimed. If a horse is claimed its engagements are included.

(w) A person who enters, or allows to be entered, in a claiming race, a horse against which is held a mortgage, bill of sale, or lien of any kind shall be subject to disciplinary action, unless when, or before, entering the horse, the written consent of the holder of the mortgage, bill of sale, or lien is filed with the racing secretary.

(x) A person shall not enter a horse in a claiming race without disclosing its true ownership. If a horse is claimed, the successful claimant shall register the change with the racing secretary. An allegation of ownership of a horse entered in a claiming race by someone not having peaceful and undisputed possession of it shall not be considered after closing time for claims on that race.

(y) A person shall not offer, or enter into an agreement to claim or not to claim, or attempt to prevent another person from claiming, a horse in a claiming race. A person shall not attempt by intimidation to prevent anyone from running a horse in a claiming race. An owner or trainer shall not make an agreement with another owner or trainer for the protection of each other's horses in a claiming race.

(z) If a stable registered at a meeting is eliminated by sale or removal from the grounds the right to claim is void. If a stable has been eliminated by claiming, the owner so affected may obtain a certificate from the stewards of the meeting and on presentation of that certificate, the owner shall be entitled to claim during the next 30 racing days at any recognized meeting in this state, until he has claimed a horse, or has acquired a horse by some other means. Stables eliminated by fire and other hazards may also be permitted by the stewards to claim under this rule.

(598) An official or other employee of an association shall not give any information as to the filing of claims until the race has been run.

History: 1954 ACS 95, p. 87, Eff. May 9, 1978.

R 431.98p Dead heats.

(599) (a) If a race results in a dead heat, the dead heat shall not be run off; owners shall divide first and second money.

(b) If 2 horses run a dead heat for first place, all prizes to which first and second horses are entitled shall be divided equally between them; and this applies to dividing prizes regardless of the number of horses running a dead heat. Each horse shall be deemed a winner and liable to penalty for the amount it shall receive. Likewise, if 2 horses run a dead heat for second, they shall divide the second and third money.

(c) If a dead heat is run for second place, and an objection is made to the winner of the race which is sustained, the horses which ran the dead heat shall be deemed to have run a dead heat for the first place.

(d) If the dividing owners cannot agree as to which of them is to have a cup or other prize which cannot be divided, the question shall be determined by lot by the stewards if the racing association chooses not to offer duplicate awards.

History: 1954 ACS 95, p. 89, Eff. May 9, 1978.

R 431.98q Apprentice jockeys.

(600) There shall not be an apprentice jockey classification or weight allowance.

History: 1954 ACS 95, p. 89, Eff. May 9, 1978.

R 431.98r Penalties.

(601) If a race is in dispute, both the horse that finished first and a horse for which the race is authoritatively claimed, shall be liable to all the penalties attached to the winning of that race until the matter is decided.

(602) If winners of claiming races are exempt from penalties, the exemption shall apply to the winners of optional claiming races only if such winner was entered to be claimed.

(603) The handicapper shall append to the weights for every handicap, the day and hour from which winners will be liable to a penalty, if any, and an alteration shall not be made after publication except in case of omission through error of the name or weight of a horse duly entered, in which case, by permission of the stewards, the omission may be rectified by the handicapper.

(604) Penalties shall not be levied against horses, except as to maiden allowances, for winning races on minor tracks. In determining which tracks are minor tracks, the racing commissioner may consider tracks not reported in the daily racing form, ApHC chart books, or corresponding publications.

History: 1954 ACS 95, p. 89, Eff. May 9, 1978.

R 431.98s Equipment.

(605) (a) Permission for change of equipment from that which the horse carried in its last race may be obtained only from the stewards.

(b) Equipment changes shall be made not later than time of entry.

(c) The use of spurs is prohibited.

(d) Whips are limited to 28 inches in length, including popper. Whips shall have a minimum of 3 feathers and shall not have stingers.

(e) A jockey riding in a race shall wear a safety helmet of a type approved by the racing commissioner on recommendation of the stewards and a change shall not be made in such helmet without the approval of the stewards. A jockey or other rider in the course of exercising or ponying an appaloosa shall be required to wear an approved safety helmet.

(f) A whip, blinkers, or number cloth shall not be allowed on the scales nor shall a bridle or safety helmet approved by the racing commissioner be weighed.

(g) A horse shall wear head numbers in a race if the track is officially rated sloppy or muddy.

(606) A horse entering the paddock to race shall be inspected as to its shoeing, if any. An unshod horse may race.

History: 1954 ACS 95, p. 89, Eff. May 9, 1978.

R 431.98t Objections and appeals.

(607) (a) An objection, except a claim of interference during a race, shall be made to the stewards in writing and signed by the objector. A protest alleging fraud may be made at any time but a protest on grounds of ineligibility, incorrect weight, age, or identification shall be made within 48 hours of the race. The stewards, however, may scratch an ineligible horse at any time.

(b) Permission of the stewards is necessary before an objection can be withdrawn.

(c) A person making an objection determined by the stewards or racing commissioner to be unreasonable or frivolous shall pay all the costs and expenses incurred in determining the objection, unless relieved from such expense by the racing commissioner.

(d) An objection to a horse engaged in a race may be made by an owner, trainer, or jockey of some other horse engaged in the same race, or by officials of the meeting.

(608) Proof of the qualifications of any horse against which a protest has been lodged may be demanded by the stewards, and in default of such proof being given, they may declare the horse disqualified.

(609) Objections to a horse based on what occurred in a race shall be made before the numbers of the horses placed in the race have been officially confirmed.

(610) Owners, trainers, and jockeys who make unnecessary complaints may be subject to disciplinary action.

(611) If an objection to a horse which has won or which has been placed in the money in a race is declared valid, that horse is disqualified and the other horses in the race are entitled to placing in the order in which they finished.

(612) If by reason of an objection to a horse a race or place is awarded to another horse, the money for such race shall be redistributed in accordance with the final placing and the stewards shall disqualify any owner who retains any money erroneously awarded prior to the final ruling.

(613) Pending a decision based on an objection, a prize which the horse against which the objection is lodged may have won or may win in the race, or any money held by the association as the prize of a horse claimed in a race, if involved in the determination of the case, shall be withheld until the objection is determined.

(614) In all cases of fraud, or willful deception, the time limitations shall not apply if the stewards are satisfied that the allegations are bona fide and are susceptible of verification; also, the stewards may, on their own initiative, call for proof that a horse is neither disqualified in any respect, nor nominated by, nor the property wholly or in part of, a disqualified person, and in default of such proof, they may declare the horse disqualified.

History: 1954 ACS 95, p. 90, Eff. May 9, 1978.

R 431.98u Causes for disqualifications for jockeys and horses.

(615) A leading horse is entitled to any part of the track, but if a horse swerves or is ridden to either side so as to interfere with or impede another horse, it is a foul, and such horse may be disqualified, if in the opinion of the stewards it altered the finish of the race, whether the foul was willful or the result of careless riding. If the stewards determine the foul was intentional or due to careless riding, they shall recommend to the racing commissioner disciplinary action for the offending jockey.

(616) (a) The stewards, subject to the racing commissioner's approval, are vested with the power to determine the extent of disqualification in case of fouls. They may place the offending horse behind such horses as in their judgment it interfered with, or they may place it last.

(b) If a horse is disqualified under this rule, a horse in the same race belonging, in whole or in part, to the same owner or trained by the same trainer, in the discretion of the stewards, may be disqualified.

(c) The time record for the first horse to cross the finish line shall be the official time of the race, except as provided in R 431.62(20).

(617) The stewards shall take cognizance of foul riding, whether complaint is made or not, and a complaint shall not be received from any person except the jockey, trainer, or owner of the horses interfered with.

(618) A person shall not assist the jockeys in taking their equipment off their horses except by the permission of the stewards.

(619) A person shall not throw any covering over any horse at the place of dismounting until its equipment shall have been removed.

(620) (a) A jockey shall weigh in at the same weight as that which he weighed out and, if short of it by 2 pounds or more, his mount shall be disqualified and a refund ordered pursuant to R 431.98j(561).

(b) A horse which does not carry its jockey across the finish line is disqualified.

(c) A jockey who willfully strikes another jockey or horse with his whip or grabs the clothing or equipment of another jockey or horse may be suspended or ruled off and his mount disqualified.

History: 1954 ACS 95, p. 90, Eff. May 9, 1978.

R 431.98v Jockeys.

(621) A jockey shall not wager on any race except on the horse which he rides, in which case the wager may be made only through the owner or trainer of such horse. A jockey who shall be proven, to the satisfaction of the racing commissioner, to have any pecuniary interest in a race horse, or to have engaged in any forbidden wagering transaction, or to have received any remuneration, gratuities, or incentive in connection with a horse race from persons other than the owner or trainer of a horse ridden by such jockey shall be subject to disciplinary action, including license revocation.

(622) Jockeys having engagements to ride shall be in the scale room at the appointed time. After making weights, jockeys shall not leave the jockey room until all engagements for the day have been filled. Immediately before mounting, jockeys shall test their weights on the scales provided for that purpose and upon failure to make such tests, shall be subject to disciplinary action or suspended.

(623) A jockey shall not have an ownership interest in any race horse.

(624) (a) A jockey shall not wear colors other than those of the owner of the horse he is riding except by permission of the stewards.

(b) If a horse is warming up before a race its number shall be exhibited upon the arm of its rider.

(625) The fee to a jockey in all races shall be, in the absence of a special agreement, not less than the amounts as set forth:

(1) A jockey shall be paid a basic fee of $15.00 for each mount. In addition to the basic $15.00 mount fee, a jockey shall receive a fee of $10.00 for each winning ride, a fee of $4.00 for each second-place finish, and a fee of $2.00 for each third-place finish. Jockeys riding in stakes race finals shall receive 10% of the winnings of their mount.

(2) The $15.00 mount fee shall be deposited with the horsemen's bookkeeper at the time of entry unless the owner or trainer has sufficient money in his account.

(3) Whether the jockey has earned his fee in the event of a scratch after he has weighed out for the race shall be determined by the stewards according to the circumstances in each case.

(626) A jockey shall not be allowed a personal valet. If valets are employed, the association shall make the necessary arrangements for these attendants upon jockeys, and said attendants shall be paid for their services by the association from an assessment levied upon, and collected from, the jockeys and divided equally among all the valets. The valets shall work by the rotation system prepared by the custodian at the beginning of the meeting.

(627) A person employed in the jockeys' room shall not make a bet for himself or place for another a bet on any race, under penalty of disciplinary action.

(628) (a) It shall be the duty of the jockey room custodian to see that order, decorum, and cleanliness are maintained in the jockey and scale rooms.

(b) The custodian shall assist the clerk of scales as the clerk may desire.

(c) The custodian shall make certain that persons other than racing officials, qualified commissioner representatives, and the necessary jockey room attendants, are not admitted to the jockey room after the designated time on a race day without consent of the stewards for each time of entry.

(d) The custodian shall oversee the care and storage of all racing colors.

(e) The custodian shall oversee the jockey attendants.

(f) The custodian shall report to the stewards any irregularities that occur in his province.

(g) The custodian shall make certain that jockeys are neat in appearance when they leave the rooms to ride in a race or when they leave, under escort, to observe the running of a race.

(h) There shall be no gambling or game of chance permitted in the jockeys' quarters.

(629) Unless fraud has been committed, all jockeys temporarily suspended may, on the day following such temporary suspension, fulfill all engagements for such day made prior to such suspension.

(630) A jockey shall put forth every reasonable effort and exercise the greatest diligence in riding a race. If, in the opinion of the stewards, a jockey does not put forth every reasonable effort or use proper diligence in the riding of a race, such jockey shall be subject to disciplinary action by the racing commissioner in accordance with the gravity of the offence. Disciplinary action imposed on a jockey shall be satisfied by the disciplined jockey himself.

(631) Employers retaining the same jockey have precedence according to priority of the retainers as specified in the contracts.

(1) Conflicting claims for the services of a jockey shall be decided by the stewards.

(2) A jockey shall not ride against the jockey's contract employer in a race unless the horse which the jockey rides is trained by the same trainer as that of the jockey's contract employer.

History: 1954 ACS 95, p. 91, Eff. May 9, 1978.

R 431.98w Jockey agents.

(632) (a) Jockeys may make their own engagements, or they may be made by a licensed agent or a contract employer. A jockey agent may act for 2 jockeys only upon approval by the stewards.

(b) A jockey agent shall not come on the track, enter the winner's circle after a race, or be allowed in the paddock at any time.

(c) A jockey agent shall maintain separate and accurate records of all engagements contracted for riders he represents, and at all times have these records available for examination by the stewards.

(d) Inaccuracies in, or failure to maintain, such records as are satisfactory to the stewards constitutes neglect, the penalty for which shall be such disciplinary action as may be determined by the racing commissioner on recommendation of the stewards.

(e) If a jockey dismisses a jockey agent, the jockey shall give immediate notice to the stewards in writing, setting forth the reasons for dismissal of the jockey agent. Failure of the jockey to comply shall be punishable by such disciplinary action as may be determined by the racing commissioner on recommendation of the stewards.

History: 1954 ACS 95, p. 92, Eff. May 9, 1978.

R 431.98x Partnerships.

(633) (a) A partnership shall be registered with the racing commissioner. Partnership papers shall include:

(1) The name and address of each person having an interest in any horse involved.

Digitized by Google

(2) The relative proportion of such interests.
(3) To whom the winnings are payable.
(4) In whose name each horse shall run.
(5) With whom the power of entry and declaration rests.
(6) The terms of any contingency, lease, or other arrangement.

(b) Partnership papers shall be signed by all parties or their authorized agents. In case of an emergency, authority to sign declarations of partners may be given to the racing secretary by a telegram promptly confirmed in writing.

(c) If the racing secretary is unable to communicate with all proper parties in an attempt to obtain a declaration of partnership, he may authorize a horse involved in a partnership to enter and to start in a stake race without a declaration of partnership.

(d) An alteration in a recorded partnership registration, to be effective, shall be reported in writing to the racing commissioner and signed by all parties.

(e) Each of the parties to a partnership shall be jointly and severally liable for all stakes, forfeits, and other obligations.

(f) The part owner of a horse may assign his share, or any part of it, with the written consent of the other partners and the consent shall be filed with the stewards.

(g) A partner may claim for the partnership, unless otherwise stated in the partnership agreement.

History: 1954 ACS 95, p. 92. Eff. May 9, 1978.

R 431.98y Corporations.

(634) (a) A corporation having an interest in a horse shall file with the racing commissioner at the time of filing application for an owner's license, a statement in duplicate setting forth the names and addresses of all officers, directors, and shareholders of the corporation, together with the amount of the respective holdings of each shareholder and a statement as to whether their stock is paid in full, and including the designation of an authorized agent or agents of the corporation. The statement shall be signed by the president of the corporation, attested by its secretary, and the corporate seal attached.

(b) A license as an owner shall not be granted to a corporation unless such corporation has not more than 10 shareholders or members, each of whom shall be the registered and beneficial owner of stock membership in the corporation. Each shareholder shall file an application for an owner's license.

(c) A corporation which leases horses for racing purposes in this state and also all its shareholders or members shall make and file with the racing commissioner, if requested by him, a report containing such information as the commissioner may specify. Upon refusal or failure to file such a report, the racing commissioner may refuse a license to a lessee of such corporation or may revoke any such license he granted. A transfer of stock of such corporation or change in the officers or directors shall be reported in writing to the racing commissioner within 48 hours of such change.

(635) Statements of sales and contingencies, or arrangements, by partnerships or corporations, shall declare to whom winnings are payable, in whose name the horse shall run and with whom rests the power of entry or declaration or declaration of forfeit, and a copy of this information shall be transmitted to the racing commissioner.

History: 1954 ACS 95, p. 93, Eff. May 9, 1978.

R 431.98z Miscellaneous.

(636) An appaloosa race meeting licensee shall not have more than 10 races a day with pari-mutuel betting. Not less than 1 race for Michigan-bred horses shall be scheduled on each full appaloosa program. An appaloosa race meeting licensee may have more than the number of races a day as herein set forth only upon special permission of the racing commissioner. If Sunday racing is permitted, the first race shall not start before 2 p.m. The national anthem shall be played before the first race is run on all racing days.

DEPARTMENT OF LICENSING AND REGULATION

ATHLETIC BOARD OF CONTROL

GENERAL RULES

(By authority of Act No. 205 of the Public Acts of 1939, being §431.101 et seq. of the Michigan Compiled Laws)

R 431.101 Definitions; club promotions.

Rule 1. (1) As used in these rules:

(a) "Board" refers to the Michigan state athletic board of control.

(b) "Club" is used to designate a club, corporation, individual, organization or association holding a promoter's license, as required by law.

(c) "Purse" is used in designating the price, percentage or other remuneration for which contestants are competing.

(2) General rules for club promotions are applicable to boxing and wrestling clubs alike.

History: 1944 AC, p. 79; 1954 AC, p. 5201.

R 431.102 Boxing weights and classes.

Rule 2. (1) Flyweight.....112 pounds or under
Bantamweight.....over 112 to 118 pounds
Featherweight.....over 118 to 126 pounds
Lightweight.....over 126 to 135 pounds
Welterweight.....over 135 to 147 pounds
Middleweight.....over 147 to 160 pounds
Light Heavyweight.....over 160 to 175 pounds
Heavyweight..... all over 175 pounds

(2) No contests shall be scheduled between contestants where the weight difference is greater than the allowance shown in the following table:

112 pounds—118 pounds—not more than 3 pounds
118 pounds—126 pounds—not more than 5 pounds
126 pounds—135 pounds—not more than 7 pounds
135 pounds—147 pounds—not more than 9 pounds
147 pounds—169 pounds—not more than 11 pounds
160 pounds—175 pounds—not more than 12 pounds

(3) In cases of infraction of the law, the rules and regulations, orders of the Michigan state athletic board of control, or the failure to fulfill any contract or agreement, it shall rest with the commissioner to impose such penalties as prescribed by section 21 of Act No. 39 of the Public Acts of 1952, being §431.121 of the Michigan Compiled Laws.

(4) Within 8 hours prior to entering the ring the contestants shall be weighed in the presence of each other, an inspector and a representative of the club; or by special agreement and permission of the board, the weighing-in may be done in the dressing room of the arena the evening of the contests.

(a) In the event of a postponement for 1 calendar day, no "weigh-in" shall be required on the date of the contest.

(b) In the event of a postponement for more than 1 calendar day, the original requirements and provisions as to physical examination, physical fitness and weight provided for in contract as to the original date of the contest shall again be in full force and effect as to such postponed date.

(5) At the official weighing-in of all contestants duly accredited newspaper representatives must, upon request, be admitted.

History: 1944 AC, p. 79; 1944 ACS 38, p. 5; 1954 AC, p. 5201.

R 431.103 Equipment.

Rule 3. (1) The ring shall not be less than 16 feet square or more than 24 feet within the ropes. The ring floor to extend beyond the ropes not less than 24 inches. The ring posts shall not be nearer to the ring ropes than 18 inches. The ring floor shall be padded with felt, corrugated paper, matting or other soft material to a thickness of not less than 2 inches; padding to extend beyond the ring ropes, and over the edge of the platform, with a top covering of canvas, duck or similar material tightly stretched and laced to the ring platform. Material that tends to gather in lumps or ridges shall not be used.

(2) The height of the ring shall not be more than 4 feet above the floor of the arena, and shall be provided with suitable steps for use of the contestants. Ring posts shall be of metal, not more than 3 inches in diameter, extending from the floor of the arena to a height of 58 inches above the ring floor, and shall be properly padded.

(3) The ring ropes shall be 3 in number, not less than 1 inch in diameter; the lower rope 24 inches above the ring floor; the second rope 36 inches above the ring floor; and the third rope 48 inches above the ring floor. Ropes shall be wrapped in soft material.

(4) The gong shall be not less than 10 inches in diameter; the timer to use a metal hammer in indicating the beginning and the ending of rounds, so that the contestants and referee can hear same: provided, however, that any device serving the purposes required hereof as has been previously approved by the commissioner may be used.

(5) The entire ring platform shall be cleared of all obstructions, including buckets, stools, etc., the instant the gong indicates the beginning of the round, and none of these articles shall be placed on the ring floor until the round ends or the contest terminates. No advertising of any kind may be displayed over or around the ring unless written permission of the commissioner is obtained.

(6) Gloves shall be examined by the inspector and the referee; if found to be imperfect they shall be changed before the contest starts.

(7) No breaking, roughing or twisting of gloves shall be permitted. If gloves to be used have been used before, they must be whole, clean, and in sanitary condition. All clubs shall have on hand an extra set of gloves to be used in case gloves are broken or in any way impaired during the course of a contest.

(8) Gloves for the main event shall be put on in the ring after the referee has first inspected the bandaged hands of both contestants, unless otherwise specified by the commissioner.

(9) Bandages shall be restricted to soft gauze not more than 5 yards in length, 1½ inches in width, held in place by not more than 3 feet of surgeon's tape for each hand, in all classes up to and including middleweights. In all other classes (light heavyweight and heavyweight) bandages shall be restricted to 10 yards in length, 2 inches wide, held in place by not more than 6 feet of surgeon's tape for each hand. One winding of surgeon's tape not over 1½ inches wide, placed directly on the hand to protect that part of the hand near the wrist is permitted; such tape may cross the back of the hand twice but is not to extend within 1 inch of the knuckles. Bandages shall be adjusted in the dressing room under the direction and supervision of an inspector.

(10) There shall be provided by the club: A sufficient number of buckets for the use of all contestants; powdered resin for the canvas; stools for the seconds; a box partially filled with water absorbing material in each contestant's corner; a stretcher at ringside at all times; and 1 seat in each of the 4 corners for a representative of the board.

(11) Standard make scales shall be furnished by the club and shall be thoroughly tested and approved previous to each contest.

History: 1944 AC, p. 79; 1944 ACS 38, p. 6; 1954 AC, p. 5201.

R 431.104 Officials.

Rule 4. The officials for every contest shall consist of 1 or more referees; 2 judges (when assigned especially by the commissioner); a timekeeper, an announcer and a physician. All of the foregoing officials shall be licensed by the board and shall possess valid licenses when officiating.

History: 1944 AC, p. 80; 1944 ACS 38, p. 7; 1954 AC, p. 5202.

R 431.105 Referees; yearly license fee $25.00.

Rule 5. (1) The chief official of all contests shall be the referee, who shall have general supervision over the contest; he shall take his position within the ring at the start of every contest.

(2) The referee shall, before each contest begins, ascertain from each contestant the name and identity of his chief second, and shall thereafter hold said chief second responsible for the conduct of his assistant seconds.

(3) At the beginning of each contest the referee shall summon contestants together for final instructions; at which time each contestant may be accompanied by his chief second only. The contestants, after receiving instructions, shall shake hands and retire to their respective corners; they shall not again shake hands until the beginning of the last round.

All referees must take an annual physical examination similar to that given to all applicants for boxers' and wrestlers' licenses. If such examination indicates the referee is physically or otherwise disabled or incapacitated, such fact should be reported immediately, in writing, by the examining physician to the board.

(4) No persons other than the contestants, the referee and the physician (when summoned by the referee) shall enter the ring during the progress of a round.

(5) The referee shall inspect the gloves and make sure that no foreign substances have been applied to either the gloves or the bodies of the contestants which might be of detriment to either contestant.

(6) The referee shall not touch the contestants except on the failure of 1 or both to obey the "break" command.

(7) When the referee is of the opinion that contestants are stalling or faking, he shall immediately warn them. If in his opinion, after proper warning has been given, the contestants continue to stall or pull their punches, the referee shall wait until the round terminates before halting the bout. No contest shall be stopped, except as hereinafter provided, during the progress of a round.

The referee may consult with the judges as to whether or not the contestants are stalling or faking; after such consultation the referee shall abide by the majority decision determined. If judges have not been assigned, the referee shall be the sole judge as to whether or not the contestants are stalling or faking. In the event it is determined that either contestant is stalling or faking, the contest shall be terminated and announced as "No contest."

In such event, either or both contestants shall be disqualified and his or their purses shall be turned over to the board, pending a hearing thereon.

(8) Under no circumstances shall a contest be held or commenced without a physician licensed by the board being present at the ringside. The referee shall, before starting a contest, ascertain the identity and location of the physician.

(9) If, in the opinion of the referee, a contestant is unable to continue due to his physical condition, he shall halt the contest and award the decision to his opponent.

If a contestant is knocked down 3 times in any 1 round the contest should be stopped at that point and awarded to the opponent.

(10) In such event, it shall be the duty of the physician to enter the ring immediately and examine the losing contestant. After such examination, the physician shall make a written report stating therein his opinion as to the contestant's physical condition. Said report shall be mailed to the board's office by the physician.

(11) During the rest period between rounds, a contestant or his chief second may request the referee to summon the physician for the purpose of advising as to the physical condition of the contestant, and in the event the physician determines the contestant should not continue the referee shall abide thereby and designate the other contestant the winner.

(12) In the event a contestant is knocked out or injured, it shall be the duty of the physician to immediately examine and administer aid to the contestant within the ring, and direct the procedure as to treatment, etc. Under no circumstances shall the referee or seconds handle the contestant without first being directed to do so by the physician.

(13) When a contestant is knocked down, it is mandatory that he take a minimum 8 second count. The referee shall order the opponent to retire to the farthest neutral corner of the ring, pointing to the corner, and immediately begin the count over the contestant who is down. He shall audibly announce the passing of the seconds, accompanying the count with motions of his arm, the downward motion indicating the end of each second.

The timekeeper shall arise and strike with his hammer on the edge of the platform at the end of each second or by other effective signalling method indicate to the referee the correct one-second intervals for his count.

Should the opponent fail to remain in the corner the referee shall cease counting until he has returned to it, and pick up the count from the timekeeper where he left off.

If the contestant taking the count is still down when the referee calls the count of 10, the referee shall wave both arms to indicate that he has been knocked out, and shall raise the hand of the opponent as the winner. The referee's count is the official count.

If the round ends during the count, the timekeeper shall sound the gong once, thus indicating the termination of the round and that the contestant who is down has not been counted out.

If a contestant is unable, or refuses to continue when the gong sounds to begin the next round, a technical knockout decision shall be awarded to his opponent in the round started by the gong.

Should a contestant who is "down" arise before the count of 10 is reached and go down immediately without being struck, the referee and timekeeper shall resume the count where it left off. A contestant who goes down without being struck and stays down shall be disqualified.

(14) A contestant who has been knocked or has fallen through the ropes and over the edge of the ring platform during a contest shall not be assisted back into the ring. Should the contestant stall for time outside the ropes the referee shall

start the count without waiting for him to reenter the ring, and if he is not on his feet in the ring within 10 seconds, shall declare him "knocked out."

The other contestant shall retire to the farthest neutral corner and remain there until the count is completed or his opponent is on his feet in the ring.

(15) Referees shall penalize contestants for:

(a) Holding an opponent or deliberately maintaining a clinch.

(b) Hitting with inside or butt of the hand, or head, the wrist or elbow (including the so-called back-hand blow).

(c) Hitting or "flicking" with open glove.

(d) Wrestling or roughing at the ropes, or gripping ropes when avoiding or throwing punches.

(e) Striking deliberately at that part of the body over the kidneys.

(f) The use of the pivot blow and rabbit punch.

(g) Hitting on the break.

(h) Deliberately spinning an opponent into the ropes so that he is partially outside the ropes.

(16) It shall be the duty of the referee who penalizes a contestant with the loss of a round for any of the above violations to notify each of the judges in an audible tone relative to the loss and the judges are herewith instructed to mark their cards accordingly. The judges are directed not to charge contestants with the loss of a round for the above reasons unless specifically requested to do so by the referee.

(17) Boxing referees shall be paid according to the following scale:

Pay Scale-Referees (Boxing)

$ 0 to $ 750	$ 15
$ 751 to $ 1,000	$ 20
$ 1,001 to $ 1,500	$ 30
$ 1,501 to $ 2,000	$ 40
$ 2,001 to $ 3,000	$ 50
$ 3,001 to $ 5,000	$ 75
$ 5,001 to $ 10,000	$100
$10,001 to $ 25,000	$125
$25,001 to $ 50,000	$150
$50,001 to $100,000	$300

In cases where 2 or more referees are used, the referee's pay will be divided equally.

In the event 2 referees are assigned, the compensation shall be divided equally.

History: 1944 AC, p. 80; 1944 ACS 38, p. 7; 1954 AC, p. 5202.

R 431.106 Judges; yearly license fee $10.00.

Rule 6. (1) The judges shall be stationed at the ringside. It shall be their duty to watch every phase of each contest and to make a decision.

(2) The decisions of the judges shall be based primarily on effectiveness, taking into account the following points:

(a) A clean, forceful hit, landed on any vulnerable part of the body above the belt should be credited in proportion to its damaging effect.

(b) Aggressiveness is next in importance and points should be awarded to the contestant who sustains the action of a round by the greatest number of skillful attacks.

(c) Defensive work is relatively important and points should be given for cleverly avoiding or blocking a blow.

(d) Points should be awarded where ring generalship is conspicuous. This comprises such points as the ability to quickly grasp and take advantage of every opportunity offered; the capacity to cope with all kinds of situations which may arise; to foresee and neutralize an opponent's method of attack; to force an opponent to adopt a style of boxing at which he is not particularly skillful.

(e) It is advisable to deduct points when a contestant persistently delays the action of a contest by clinching and lack of aggressiveness.

(f) A contestant should be given credit for sportsmanlike actions in the ring, close adherence to the spirit as well as the letter of the rules and for refraining from taking technical advantage of situations unfair to the opponent.

(g) Where judges (professional) are assigned by the commission, the fee will be as follows: up to and including

$ 3,000	$ 5.00
$ 3,001—$ 10,000	$10.00
$ 10,001—$ 50,000	$25.00
$ 50,001—$100,000	$35.00
$100,001—and over	$50.00

(3) A contestant shall be charged with the loss of a round in which the referee gives him a second warning for a foul. Any such penalty, however, shall not be imposed by the judges on their cards until they are advised by the referee.

(4) If a contestant is warned 3 or more times for low hitting during the progress of a boxing contest, a special report covering every phase of the violation is to be sent to the board. No bouts are to be terminated because of blows delivered below the belt. (See R 431.108 regarding low blows for further instructions.)

History: 1944 AC, p. 82; 1944 ACS 38, p. 9; 1954 AC, p. 5204.

R 431.107 Scoring decisions.

Rule 7. (1) The referee shall decide all questions arising during a contest which are not specifically covered by these rules and shall also render his decision at the conclusion of the contest, in conjunction with the judges, providing judges are assigned thereto.

(2) In the event of a knock-out, the contestant who has scored the knock-out shall be declared the winner. In such event the score cards shall be marked "K. O." and the round in which the knock-out occurred, indicated.

(3) In order to arrive at a true conclusion, every phase should be carefully observed and noticed as the round progresses, the winner of the round to be the contestant receiving the greatest number of points scored in the round. At the end of the contest, the contestant who has to his credit the greatest number of points is to be declared the winner. Each round is to be accounted for on the official score cards in figures.

(4) The 10 point must system shall be used. The score to be in ratio of merit and demerit of the difference displayed by the contestants. For a draw or even round 10 points shall be given each contestant—the difference in ratio as 10 to 9, 10 to 8, 10 to 7, etc., as the case may be. The winner of each round must be awarded 10 points.

(5) At the conclusion of each contest, the referee and judges shall total the points for each contestant and indicate the winner by writing his name on the card.

(6) Referees and judges shall be discreet at all times and should not discuss their decisions with anyone during a contest.

R 431.108 Rule regarding low blows.

Rule 8. All contestants are required to equip themselves with an abdominal protector of the type that will obviate the infliction of a damaging blow and thus preclude all claims of fouls. All such protectors must be submitted to and approved by the inspector in charge. It is the duty of the referee to count contestants out who fall to the floor, claiming a foul as the result of a low blow.

History: 1944 AC, p. 82; 1944 ACS 38, p. 9; 1954 AC, p. 5205.

R 431.109 Physicians.

Rule 9. (1) At weighing-in time each contestant shall be given a thorough medical examination by a physician who has been licensed by the board.

(2) In the event a contestant, upon examination, is discovered to be unfit for competition through physical injury, faulty heart action, the presence of any infectious or contagious disease, or any weakness or disability that should bar him, said contestant shall be rejected and the inspector in charge duly notified.

(3) The physician shall certify to the inspector in charge, in writing, over his signature, that the contestants examined by him are in good physical condition to engage in physical competition and the inspector shall forward same to the office of the board.

(4) It shall be the duty of the physician to report all instances where contestants have been injured during a contest or have applied for medical aid after competing.

(5) Physicians shall give contestants a thorough eye examination at weighing-in time; if a contestant's vision is found to be defective, same shall be immediately reported to the inspector in charge.

(6) The physician shall sit at the immediate ringside at all contests or exhibitions and no contest or exhibition shall be allowed to proceed unless the physician is in his seat. The physician shall not leave until after the decision in the final contest, and he shall notify the inspector in charge of the dressing rooms of his departure. He shall be prepared to assist if any serious emergency arises.

(7) Under no circumstances shall a contest be held or commenced without a physician licensed, or approved, by the board, being present at the ringside. The referee shall before starting a contest ascertain the identity and location of the physician.

(8) During the rest period between rounds the referee, either contestant, or their chief seconds may request the referee to summon the physician for the purpose of advising as to the physical condition of the contestant, and in the event the physician determines the contestant should not continue, the referee shall abide thereby and designate the other contestant the winner.

(9) In the event a contestant is knocked out or injured it shall be the duty of the physician to immediately enter the ring and examine and administer aid to said contestant and to direct the procedure as to treatment, etc. Under no circumstances shall the referee or seconds handle the contestant without first being directed to do so by the physician.

(10) If, in the opinion of the referee, a contestant is unable to continue due to his physical condition, he shall halt the contest and award the decision to his opponent. In such event it shall be the duty of the physician to immediately enter the ring and examine the contestant. After such examination, the physician shall make a written report, stating therein his opinion as to the contestant's physical condition. Said report shall be mailed to the board's office within 24 hours.

If, in the opinion of the referee, a contestant has suffered a dangerous cut or injury, he may halt the bout temporarily, examine the fighter, and summon the

physician for purposes of examination. If the physician permits the contestant to continue, the referee may order the bout continued.

(11) Physicians are directed to advise contestants at weighing-in time that they are subject to another physical examination before entering the ring.

(12) Boxers frequently partake of a hearty meal directly after the weighing-in ceremonies and physicians are requested to advise contestants with respect thereto.

(13) Physicians are directed to examine contestants for possible so-called "pink-eye" infections and reject those suffering from this ailment.

(14) A contestant rejected by a physician for disability will be automatically suspended until such time as the disability no longer exists. Clubs and physicians shall be held responsible for the physical and mental condition of contestants upon entering the ring. Neglect in such matters may result in serious injury and will result in disciplinary action by the board.

(15) The compensation of physicians shall be as follows:

(a) Where net receipts are $1,000.00 and under—Boxing at least $10.00; Wrestling at least $5.00.

(b) Where net receipts exceed $1,000.00 but are under $1,500.00—Boxing at least $15.00; Wrestling at least $10.00.

(c) Where net receipts exceed $1,500.00 but are under $2,000.00—Boxing at least $20.00; Wrestling at least $15.00.

(d) Where net receipts exceed $2,000.00—Boxing at least $25.00; Wrestling at least $15.00.

History: 1944 AC, p. 83; 1944 ACS 38, p. 10; 1954 AC, p. 5206.

R 431.110 Timekeeper; yearly license fee $1.00.

Rule 10. (1) He shall be seated outside the ring near the gong; and shall indicate the beginning and ending of each round by striking the gong with a hammer.

(2) He shall provide himself with a whistle and a stop watch, which shall have been properly examined and certified to be accurate, prior to the contest.

(3) Ten seconds before the beginning of each round the timekeeper shall give warnings to the second of contestants by the blowing of a whistle.

(4) In the event a contest terminates before the scheduled limit of rounds, the timekeeper shall inform the announcer of the exact duration of the contest.

(5) In the event a knock-down occurs, the timekeeper shall arise and strike with his hammer on the edge of the platform at the end of each second, or by other effective signalling method indicate to the referee the correct 1-second intervals for the count. Should the opponent fail to remain in the corner, the referee shall cease counting until he has returned to it and then pick up the count from the timekeeper. Should the round end during the count, the timekeeper shall sound the gong once, thus indicating the termination of the round and that the contestant has not been counted out. Should a contestant who is "down," arise before the count of 10 is reached and go down immediately without being struck, the referee and timekeeper shall resume the count where left off. The referee's count shall be the official count.

(6) The compensation of timekeepers shall be as follows:

$ 0—$ 3,000	$ 5.00
$ 3,001—$ 10,000	$10.00
$ 10,001—$ 50,000	$15.00
$ 50,001—$100,000	$20.00
$100,001—and over	$25.00

These fees are for both knockdown timekeeper and bell timekeeper.

History: 1944 AC, p. 83; 1944 ACS 38, p. 11; 1954 AC, p. 5207.

R 431.111 Announcer; yearly license fee $1.00.

Rule 11. (1) The announcer shall announce the names of contestants, their correct weights, the decisions of the referee and judges, and other matters as directed by the board's representative in charge. Clubs shall provide proper facilities for announcing rounds.

(2) At the termination of each bout, announcers are to collect the decision slips from the judges and referee and hand same to the representative of the board at the ringside; after which said representative shall inform the announcer as to the decision. He shall announce the decision as indicated.

(3) The compensation of announcers shall be as follows:

$ 0—$ 3,000	$ 5.00
$ 3,001—$ 10,000	$10.00
$ 10,001—$ 50,000	$15.00
$ 50,001—$100,000	$20.00
$100,001—and over	$25.00

History: 1944 AC, p. 84; 1944 ACS 38, p. 11; 1954 AC, p. 5207.

R 431.112 Seconds; yearly license fee $2.00.

Rule 12. (1) Seconds and managers, acting as seconds, shall be neatly attired when in the ring and shall wear white jerseys or sweaters with sleeves.

(2) A second holding only a second's license shall not attempt to act as a manager or assist in any way in procuring matches. All seconds must pass written examination provided by board before being licensed.

(3) Seconds shall not be more than 3 in number and shall not coach or in any way assist their principal during a round or by word or action attempt to heckle or annoy his opponent. They shall remain seated in place and be silent. Before each contest, the referee shall be informed of the name and identity of each contestant's chief second.

(4) Seconds shall not enter the ring until the timekeeper indicates the termination of a round and are prohibited from spraying or forcefully throwing water on a contestant during a round. They shall leave the ring enclosure at the time of the timekeeper's whistle 10 seconds before the beginning of each round. They shall leave the ring platform and remove all obstructions, buckets, stools, etc., promptly when the gong sounds for the beginning of each round.

(5) Seconds shall see to it that their principals expectorate in the receptacle provided therefor and shall be careful so as not to splash water on those at the ringside.

(6) During the rest period between rounds a contestant or his chief second may request the referee to summon the physician for the purpose of advising as to the physical condition of the contestant, and in the event the physician determines the contestant should not continue the referee shall designate the other contestant the winner.

(7) In the event a contestant is knocked out or injured, it shall be the duty of the physician to immediately examine and administer aid to the contestant within the ring, and direct the procedure as to treatment, etc. Under no circumstances shall the referee or seconds handle the contestant without first being directed to do so by the physician.

(8) Seconds are prohibited from throwing a towel in the ring or by any other means indicate defeat of their principal.

(9) No relative of a contestant shall be allowed to act as his second unless special permission is obtained in writing from the board. In no case shall a woman be allowed to act as a second.

(a) Every chief second working in a boxer's corner is to have the following first aid supplies:

(i) Two clean white towels.

(ii) Sterile gauze pads.

(iii) Sterile cotton.

(iv) Sterile cotton Q tips in container.

(v) Ammonia inhalants (not smelling salt bottle).

(vi) Bottle of adrenalin chloride.

(vii) Tube of vaseline (to be used over cuts only).

(viii) Ice bag with ice.

(ix) Sponge.

(b) During the 1-minute rest period the chief second shall advise and direct activities of the fighter. In order not to confuse the fighter during rounds, the remaining seconds in the corner should work quietly.

(c) A fighter should be seated on a stool with hands in lap, not on ropes, close enough to corner for support of back and head but leaning back slightly against ropes. Second should not permit fighter to slump body and impair breathing. A chief second directs the movements of his assistants in the corners at all times.

(d) In the event a boxer should become nauseated during the progress of the bout, the second should advise the physician in charge.

(e) A second who has been suspended may not officiate or assist in any way during time of suspension. It is necessary that the seconds have up-to-date licenses at all times before officiating.

(f) A second who breaks or displaces the padding in a glove so that the gloves will fit the contestants will be subject to indefinite suspension. A second when tying the gloves on a contestant must be sure that the knots are at the back of the hand, and laces secured.

(g) Seconds shall not assist a contestant who has been knocked through the ropes and over the ring's edge until the referee has completed his count or until the doctor has completed his examination.

(h) A second shall not administer alcoholic stimulants to a contestant during the progress of the bout. Seconds should remain seated and silent during the progress of a round.

(i) Any second who wilfully knows he is working with a suspended contestant will be subject to discipline by the board.

(10) Violations of the above provisions shall be followed by ejection of offenders from the ring corner and may result in the disqualification of their principal.

History: 1944 AC, p. 84; 1944 ACS 38, p. 11; 1954 AC, p. 5207.

R 431.113 Contestants; yearly license fee $3.00.

Rule 13. (1) Contestants shall sign full legal name to all contracts and papers filed with the board.

(2) Contestants may assume and use ring names, but the right to use any certain name is subject to the approval of the commissioner, and may be denied either at the time of granting license or later, should reason for such denial be brought before him.

(3) Contestants who have signed for matches are subject to examination at any time during training at the discretion of the commissioner.

(4) Contestants shall report to the inspector in the dressing room at least 1 hour before they are due in the ring.

(5) All contestants must wear the new type full protector in all contests in which they participate.

(6) Contestants signed to engage in a contest shall appear equipped with 2 pairs of regulation trunks which shall be of different colors. These trunks shall be of solid colors, except that they may be ornamented with a stripe around the belt and down the sides of a color which contrasts with the trunks. Same may bear a suitable emblem or insignia, provided it is not of a commercial or advertising nature. The contestants shall not wear the same colors in the ring and the colors to be worn shall be allotted by the inspector at the time the contestant reports prior to the contest. The belt of the trunks shall not extend above the waistline.

(7) Shoes shall be of soft material and shall not be fitted with spikes, cleats, hard soles or heels. Socks, rolled down to the top of the shoes, may be of any color.

(8) No other apparel than above specified may be worn in the ring during a contest, unless otherwise permitted by the board.

(9) Contestants shall be clean and present a tidy appearance and be cleanly shaved. The use of grease or other substances that might handicap an opponent is prohibited.

(10) Any contestant absenting himself from a contest or exhibition in which he has signed or has been signed by his duly licensed manager to appear, without being previously excused by the commissioner or his representative, will be automatically suspended.

(11) A boxer competing in a contest of 4 rounds or less may box again after 48 hours have elapsed. A boxer competing in a contest of 6 rounds may box again after 4 days. A boxer competing in a contest of 8 rounds may box again after 5 days. A boxer competing in a contest of 10 rounds or more may box again after 6 days.

(12) No persons shall be permitted in contestants' dressing rooms except their managers, seconds and representatives of the board and press.

(13) Neither by word nor act shall a contestant at the termination of a bout indicate to the spectators his belief that he has won or lost. When the decision has been announced, both contestants and their seconds shall at once leave the ring and retire to their dressing rooms.

(14) A contestant shall be deemed "down" when any part of his body except his feet touches the ring floor or he is hanging helplessly over the ropes and the referee has begun to count over him.

(15) In the event a contestant, due to injuries or illness, is unable to take part in a contest or exhibition for which he is under contract, he, (or his manager) shall immediately forward to the office of the board a physician's report of same and shall also notify the board as to his whereabouts in order that a physician designated by the commissioner may examine him.

History: 1944 AC, p. 85; 1944 ACS 38, p. 13; 1954 AC, p. 5209.

R 431.114 Championships.

Rule 14. (1) Champions shall box only in decision contests but may be permitted to engage in non-title contests upon sanction of the board.

(2) The title of a champion shall be at stake in all cases where the official weighing-in indicates his opponent to be within the maximum weight limit of the class.

(3) Contestants prior to competing for a Michigan title shall have been bona fide residents of the state for at least 6 months.

(4) Belts presented to the state champions by the board remain the property of the board and shall be forwarded to the board's office by the holder thereof whenever the title is being defended.

(5) State champions shall at all times, within a period of 30 days, be prepared to defend their titles against challengers recognized as such by the board.

History: 1944 AC, p. 85; 1944 ACS 38, p. 13; 1954 AC, p. 5209.

R 431.115 Managers; yearly license fee $15.00.

Rule 15. (1) All contracts between managers and contestants shall be in writing and true copies thereof shall be filed with the board. Should either party of the contract be a minor, same shall be executed by a duly appointed legal guardian. Managers who contract for bouts covering minors and who do not have power of attorney or guardianship approval will be suspended for an indefinite period.

(2) Managers shall not sign a contract for the appearance of any contestant with whom they have not a written contract on file with the board.

(3) A manager may not act as second for a contestant on whom he does not have a contract filed without obtaining a second's license.

History: 1944 AC, p. 86; 1944 ACS 38, p. 14; 1954 AC, p. 5210.

R 431.116 Matchmakers; yearly license fee $25.00.

Rule 16. (1) Matchmakers shall observe all rules and requirements with respect to weight agreements and weighing-in.

(2) Matchmakers will be held responsible by the board if they make matches in which 1 of the principals is out-classed. Persistent lack of judgment in this respect will be regarded as sufficient cause for the cancellation of a matchmaker's license. No matchmaker or promoter is to hold a contract or part thereof on any boxer.

(3) At least 10 days prior to the proposed date of every contest, the matchmaker for same shall file with the board a written request for permission to stage same. Said request shall indicate the names and records of the proposed contestants for the main bout. In the event the contest is approved by the board, the matchmaker shall, within 24 hours of notification of same, file with the board true copies of contracts for same. At least 7 days prior to the proposed date of every contest the matchmaker shall file with the board true copies of all contracts for the complete program.

(4) Under no circumstances shall promoters or matchmakers give publicity to a program unless same has been approved by the board.

(a) A telegram received from a manager or contestant acknowledging a contract will be construed by its wording to be legal, however, all contracts covering anticipated bouts must be in the commission office 7 days prior to the date of the contest. The commission will rule on any waiver in this case.

(b) The making of secret agreements contrary to the terms of the contracts so filed is prohibited under penalty of suspension, fine, or both, of all parties thereto.

History: 1944 AC, p. 86; 1944 ACS 38, p. 14; 1954 AC, p. 5210.

R 431.117 Clubs; yearly license fee.

Rule 17. (1) It is unlawful for any person, club, corporation or association to hold or conduct boxing contests or wrestling exhibitions in this state without first obtaining a license and permit from the Michigan state athletic board of control.

(2) Applications for said license and permit shall be made on blank forms provided by the board. Said forms shall be completely and legibly filled in.

(3) No promoter's license shall be issued except to actual promoters. A license shall not be granted to the owner of a building in which boxing contests or wrestling exhibitions are to be held unless such owner is also the promoter of same.

(4) No license shall be issued unless the application for same is accompanied by an approved surety bond. Said bond shall run to the Michigan state athletic board of control and shall contain the requirements specified in section 15 of Act No. 205 of the Public Acts of 1939, being §431.115 of the Michigan Compiled Laws and shall further guarantee the fulfillment of all contracts entered into by the licensee and the payment of all ring officials.

(5) The license certificate issued by the board shall be enclosed in a suitable frame and shall be posted up and at all times displayed in a conspicuous place in the box office on the premises covered by said license.

(6) All clubs are held responsible and must correct any violation of commission rules or board of health rules regarding the sanitary conditions in respect to dressing rooms, showers, water bottles, towels, etc. Club physicians and state inspectors are to make a particular examination at every boxing and wrestling show for violation of these rules and if any are discovered they must be reported to the commission immediately.

History: 1944 AC, p. 86; 1944 ACS 38, p. 14; 1954 AC, p. 5210.

R 431.118 Tickets.

Rule 18. (1) The printing of tickets for any proposed contest or exhibition under the jurisdiction of the board is prohibited until such time as the order for same has been submitted to and approved by the commissioner, or his authorized representative.

(2) All press tickets shall be marked "PRESS" in large letters; shall be consecutively numbered to correspond to the seats and shall not be issued to exceed the seating capacity of the press row.

(3) All complimentary tickets shall be marked "COMPLIMENTARY" in large letters; said tickets shall be limited to 2% of the seating capacity of the arena; provided, however, the board may authorize said percentage to be exceeded. In such event the state tax shall be collected on all complimentary tickets issued in excess of the stated 2%, tax to be computed on the value of such tickets according to their location.

(4) No "service" or other charges shall be assessed or collected on complimentary tickets unless otherwise approved by the board. Clubs may assess and collect a stated contribution for a stated charity provided same has been submitted to and approved by the commissioner, in which event said fund so collected shall be turned over to the board and by it forwarded to the charity.

(5) It shall be the duty of the club to instruct all ushers to see to it that spectators secure the seats to which their ticket stubs entitle them and that anyone occupying a seat unlawfully is directed to vacate and, if necessary, ejected therefrom.

(6) It shall be the duty of every club to have filed with the board or the chief inspector of the district in which the club is located, at least 24 hours prior to the date of every contest or exhibition a sworn manifest of its order to the printer, indicating the total number and description of all tickets printed.

(7) Clubs shall display in a conspicuous place in each of their box offices a diagram or chart which will readily acquaint all concerned with the location of all reserved seats.

(8) Any club doing business directly or indirectly with managers or boxers under suspension may have its license revoked.

(9) Clubs are prohibited from selling any ticket for any price other than the price printed thereon, or to change the price of tickets at any time after the tickets for the contest or exhibition have been placed on sale, or to sell any ticket at any time during the exhibition or contest for less than tickets for similar seats were sold

or offered for sale before the exhibition or contest without the consent of the board. Clubs shall exercise extraordinary caution to prevent speculation in tickets.

(10) Tickets for reserved seats shall be printed with the usual stub and there shall be a new set printed for every exhibition. General admission tickets shall be printed with a stub to be retained by the purchaser and shall be consecutively numbered. No exchange of tickets shall be made except at the box office. Tickets in the hands of agencies or branch box offices shall be returned to the principal box office not later than 1 hour after the contest has started. No tickets shall be redeemed after the contest has taken place.

(11) There shall be prominently displayed in at least 4 places in every building wherein wrestling and boxing contests and exhibitions are conducted, the following notice: "NO SMOKING." Failure on the part of clubs to strictly enforce compliance with such notice subjects them to disciplinary action by the board.

(12) A 4-round emergency bout shall be provided by the club, to be used at the discretion of the commissioner or his authorized representative. In the event said bout is used, the contestants of same shall be compensated at least $40.00 each. In the event said bout is not used, the contestants shall be paid their actual expenses.

History: 1944 AC, p. 86; 1944 ACS 38, p. 15; 1954 AC, p. 5211.

R 431.125 Inspectors (professional boxing).

Rule 25. (1) Upon entering the arena the inspector will acquaint himself with the promoter and all personnel associated with the show.

(2) Same as amateur boxing.

(3) Check to see that all liquid refreshments are sold only in paper containers.

(4) Check dressing rooms and wash rooms for cleanliness and sanitation. If not clean, order promoter to clean them.

(5) Advise promoter that ushers must enforce "no smoking" rule.

(6) The ring should be thoroughly checked. See that the ropes are tight enough and that the mat extends to the edge of the ring and is of sufficient thickness. See that the bell is in good working order and that it rings loudly. There must be a stretcher under the ring or beside it. Advise the referee and doctor of location of stretcher. Check aisle space.

(7) Assist the doctor in the examination of the contestants. The inspector in charge should weigh the contestants and should follow the rule book to prevent too great a discrepancy in weights between contestants in any bout. It is also the duty of the inspector to fill in figures on doctor's report as to physical condition (blood pressure, pulse, temperature, etc.). This report must be signed by the doctor.

(8) There must be at least 1 licensed second in each corner. Check licenses of contestants, seconds and officials, and if a license has expired, see that a new application is made and collect the proper fee. (See rule book.) In the event the required pictures are not presented by the applicant, take an additional $5.00 from the applicant and explain to him that the $5.00 will be returned to him upon receipt of his pictures by the athletic board office. Each second should be made to wear a clean white jersey or a clean white sweater. All applications must be completely filled in whether for new licenses or renewals.

(9) Each boxer must be equipped with a full cup and his trunks must be clean and in good condition. Tattered trunks shall not be permitted.

(10) Get all bouts out without delay and do not allow more than 1 intermission. Do not permit any bouts to begin unless there is a doctor at ringside. There shall be no shouting of instructions by seconds during progress of a round.

(11) Check unsold tickets and prepare ticket report. The ticket report is prepared from printer's manifest and the unsold tickets on hand. From the manifest the inspector enters the number of tickets printed, the established price and the amount of state tax per ticket on the ticket report. The unsold tickets are then counted and entered on ticket report. Deducting the number of unsold tickets on hand from the number of tickets printed will result in the number of tickets sold, to be entered on ticket report. Compilation of report should be made from these figures.

(12) Collect state tax, officials' and contestants' pay. Pay contestants as called for in contracts.

(13) Prepare inspector's report and forward to board office. With ticket report include printer's manifest, doctor's report, receipted contracts and state tax.

(14) Be sure to make complete report of any infractions of rules or regulations or unusual happenings. If show was without incident, mention this fact.

History: 1944 ACS 38, p. 15; 1954 AC, p. 5211.

R 431.131 Amateur.

Rule 31. Unless otherwise specified or directed, all amateur boxing and wrestling contests or exhibitions shall be conducted under the rules and regulations of the Michigan state athletic board of control, and the rules and regulations of the amateur athletic union of the United States as approved by the board.

History: 1944 AC, p. 87; 1944 ACS 38, p. 16; 1954 AC, p. 5212.

R 431.132 Special amateur rules.

Rule 32. (1) As provided in Act No. 205 of the Public Acts of 1939, being §431.101 et seq. of the Michigan Compiled Laws, the Michigan state athletic board of control is charged with the sole direction, and control of all boxing and wrestling contests and exhibitions within the state; amateur clubs and contestants, must comply strictly with the law, rules and regulations of said board.

(2) Every club promoting amateur boxing shall secure a promoter's license for same, as required by section 17 of Act No. 205 of the Public Acts of 1939.

(3) All officials officiating at amateur boxing contests shall be licensed as required by section 13 of Act No. 205 of the Public Acts of 1939.

(4) At least 10 days prior to the proposed date of any amateur boxing program, a written request for sanction of same shall be filed with the Michigan state athletic board of control, and at least 5 days prior to the date of the contest the club promoting same shall file with the board the names of the contestants they intend to use in said program, together with their addresses and approximate weights.

(5) In the event the aforementioned request is granted by the board, the club requesting same shall be notified thereof and a referee, judges (if requested) and inspectors shall be assigned by the commissioner. The inspector in charge shall have complete supervision and control over the entire program.

(6) It shall be the duty of every promoter of amateur boxing, at its own expense, to have in attendance a physician licensed by the board. (The rules heretofore set forth pertaining to physicians shall apply to amateur contests.)

(7) All amateur boxers must be insured against possible injury through the Michigan association of the amateur athletic union. The insurance fee must be paid to the Michigan association of the amateur athletic union office prior to the date of the show.

(8) Every club promoting amateur boxing or wrestling shall furnish the state inspector in charge a sworn statement indicating the total amount paid each contestant for expenses and all other expenses of the program.

(9) Contestants in all amateur contests and exhibitions shall weigh in stripped in the presence of an inspector and shall be examined by a physician licensed by the board on the day of the contest at a place and hour designated by the club—same to be done each day of tournament competition. The club shall notify the board of weighing-in time when filing the list of contestants.

(10) Only soft cotton or linen bandages are to be used for the protection of the hands. One roll of 2-inch cotton gauze or linen bandage, not to exceed 10 yards in length, may be used for each hand. The use of 1 thickness of soft surgeon's adhesive tape, 1 inch wide, which can be lapped over each other not more than 1 inch, sufficient to clinch same will be permitted only around the wrist. No tape, cotton, or other substance than the bandage herewith prescribed may be used between the fingers or over the knuckles.

(11) The 8-second count is mandatory in all amateur contests.

(12) All amateur boxers before turning professional must have clearance through the A.A.U.; otherwise they will be refused professional status by the athletic board of control.

(13) To participate in amateur boxing all individual boxers must be registered with the Michigan association of the amateur athletic union. It is the responsibility of the trainers and coaches to register their athletes with the Michigan association of the amateur athletic union. Each competitor must fill out and sign a white registration card with the 25 cent fee and send it to the Secretary of the Michigan Association of the Amateur Athletic Union, 3910 Livernois Avenue, Detroit 10, Michigan.

History: 1944 AC, p. 87; 1944 ACS 38, p. 16; 1954 AC, p. 5212.

R 431.133 Rules for inspectors (amateur boxing).

Rule 33. (1) Inspectors are to wear arm bands on left arm above the elbow with lettering to be clearly exposed to view.

(2) Check to see that all doormen know that boxing commission official cards are to be honored for admittance at all times.

(3) Check to see that all liquid refreshments are sold only in paper containers.

(4) Check dressing rooms and wash rooms for cleanliness and sanitation. If not clean, order promoter to clean them before letting show start.

(5) Advise promoter that ushers must enforce "no smoking" rule.

(6) The ring should be thoroughly checked. See that the ropes are tight enough and that the mat extends to the edge of the ring and is of sufficient thickness. See that the bell is in good working order and that it rings loudly. There must be a stretcher under the ring or beside it. Check aisle space.

(7) Assist the doctor in the examination of the contestants. The inspector in charge should weigh the contestants and should follow the green book to prevent too great a discrepancy in weights between contestants in any bout.

(8) Get all bouts out without delay and do not allow more than 1 intermission unless in the semi-finals or finals of a tournament. Do not permit any bouts to begin unless there is a doctor at the ringside.

(9) Give the doctor's report to the A.A.U. official who is present or mail it to the Michigan A.A.U., 3910 Livernois Avenue, Detroit 10, Michigan.

(10) Prepare inspector's report and forward to athletic board office. Be sure to make complete report of any infractions of rules or regulations or unusual happenings. If show was without incident mention this fact.

(11) Inspectors should not leave the arena until all bouts are completed and in the event of injury, the inspector should not leave until the doctor has advised him that the injured man is all right.

Amateur Weights
Championship weights:

Flyweight	112 lbs.
Bantamweight	119 lbs.
Featherweight	125 lbs.
Lightweight	132 lbs.
Light welterweight	139 lbs.
Welterweight	147 lbs.
Light middleweight	156 lbs.
Middleweight	165 lbs.
Light heavyweight	178 lbs.
Heavyweight	over 178 lbs.

(12) The following limitations of weights are placed on boxing bouts other than championships and tournaments:

Between flyweights	(112 lbs.) 3 lbs.
Between bantamweights	(119 lbs.) 3 lbs.
Between featherweights	(125 lbs.) 5 lbs.
Between lightweights	(132 lbs.) 5 lbs.
Between light welterweights	(139 lbs.) 5 lbs.
Between welterweights	(147 lbs.) 6 lbs.
Between light middleweights	(156 lbs.) 6 lbs.
Between middleweights	(165 lbs.) 7 lbs.
Between light heavyweights	(178 lbs.) 7 lbs.
Between heavyweights	No limitation

For example: A flyweight weighing 110 lbs. could not box an opponent weighing over 113 lbs.; if he weighs 112 lbs., his opponent could not exceed 115 lbs., etc.

Pay Scale For Amateur Boxing Referees

Under $500 gross gate	$15.00
$ 501 to $ 750 gross gate	$17.50
$ 751 to $1,000 gross gate	$20.00
$1,001 to $1,500 gross gate	$22.50
$1,501 to $2,000 gross gate	$25.00
$2,001 to $2,500 gross gate	$30.00
Over $2,501 gross gate	$35.00

Plus 9 cents round trip per mile outside city limits.

(13) Licenses for amateur judges, doctors, announcers and timekeepers shall be issued by the athletic board of control. Fee for same will be $1.00.

(14) All amateur boxing and wrestling contests must be sanctioned by the Michigan association of the amateur athletic union. An application for sanction must be filed with the secretary of the Michigan association of the amateur athletic union at least 2 weeks prior to the contest.
Address correspondence to:

Secretary of Michigan A.A.U.
3910 Livernois Avenue
Detroit 10, Michigan

WRESTLING

R 431.141 Conduct of matches.

Rule 1. (1) All wrestling exhibitions are to be sanctioned by the Michigan athletic board of control. Exhibitions shall be conducted only by duly licensed promoters, or by promoters receiving special permission from the commissioner. (Charity shows, etc.)

(2) Length of matches shall be determined by agreement of promoter and contestant and approved by the board. Likewise the conditions of each match, i.e. number of falls, etc., shall be agreed upon by the principals involved.

(3) There shall be no interval between matches except before the main bout and intermission not to exceed 10 minutes shall be permitted.

Wrestlers shall not leave the ring between falls but will be given a rest period, not to exceed 5 minutes.

(4) The board shall appoint the referee and all other officials of contests and exhibitions.

History: 1944 AC, p. 88, superseded by R 431.141—R 431.147; 1944 ACS 38, p. 18; 1954 AC, p. 5214.

R 431.142 Ring and arena.

Rule 2. (1) The ring shall be constructed as described under rule 4 and padded to provide maximum protection to the wrestlers.

A mat cover of soft material is to be used. Such covers must be laundered after each program and must be free of any grit, dirt, or resin.

(2) The arena or auditorium shall be clean, well ventilated and properly lighted.

Proper toilet facilities are to be provided for both men and women.

Adequate police protection, where considered necessary, must be maintained for the public, officials and contestants.

The sale of beverages in bottles is strictly prohibited. The contents must be poured into a paper container by the vendor.

"No smoking" signs must be properly posted.

History: 1944 ACS 38, p. 18; 1954 AC, p. 5215.

R 431.143 Wrestlers.

Rule 3. (1) All wrestlers appearing in Michigan must apply for license to the board or its representatives, before their initial appearance. The license shall be valid for 1 year from date of issue and subject to revocation at the discretion of the board. Contestants shall be given a physical examination within 1 hour of their bout by a physician licensed by the board. The participants in all contests and exhibitions must be properly trained and in fit physical condition. The board and the attending physician are to be the sole judges of such condition and if any contestant is adjudged not physically fit or trained properly he shall be denied permission to participate until deemed fit.

(2) Contestants must be properly clothed in neat and clean athletic clothing that is in keeping with good public taste. Trunk and tights are to be well-fitted and whole, with a high waist band.

All contestants' skin must be clean and free of grease or any other sort of lotion or foreign substance. The fingernails must be trimmed well below the tips.

Shoes must be of soft tops with soft soles and laces with no metallic eyelets.

(3) Any hold, grip, lock or trip is allowed except: strangle hold, scratching, gouging the eyes, biting, striking with the knuckles of a closed fist, kicking, pulling hair, shutting off the breath by covering the nose and mouth at the same time or deliberately throwing an opponent out of the ring.

Repeated use of the above foul methods by the wrestler after proper warning by the referee shall be a basis for disqualification and loss of a fall. Repeated use may be a basis for disqualification and loss of the bout and possible suspension.

The referee shall warn a contestant to break an illegal hold and then immediately begin to count in a clear voice. Failure by the offender to break by the count of 4 will constitute the loss of a fall.

Under no circumstances are wrestlers to contest outside the ring. Should they roll off the mat and under the ropes they shall be ordered to the middle of the mat by the referee and signalled to begin anew.

Upon ordering the contestants to return to the ring, the referee shall begin a count of 10. Failure of either or both to return by the end of the count constitutes the loss of a fall.

In the event a wrestler accidentally falls from the ring his opponent shall go to a neutral corner and remain until the contestant outside has returned or has been counted out. The referee shall not begin his count until the man in the ring is in a neutral corner. Should the referee be forced to stop his count and order him to the corner again, the count will begin anew. Failure of a wrestler to permit his opponent to reenter the ring may be a basis for disqualification.

The use of foul or vile language in the ring is strictly prohibited.

When a contestant has fallen or been thrown to the mat the referee shall at his discretion begin the count. His opponent must permit the fallen wrestler to regain his feet before closing with him. Failure to do so may be a basis for disqualification.

Any wrestler who deliberately molests, hits or physically abuses a spectator or uses foul language shall be suspended and his purse held up subject to action by the board.

The referee and/or the board physician alone shall have power to determine the necessity for the use of tape on the hands or any parts of the arm of a contestant.

Under no circumstances shall any wrestler lay his hands on a referee, and under no circumstances should the referee manhandle the wrestler unless in self protection.

The referee's instructions given before the bout must be complied with and his decisions are final. He represents the board and is given power in the ring to conduct the contests and exhibitions and to enforce the rules and regulations thereof. If circumstances arise concerning any contest or exhibition not covered by the rules, the referee shall have the discretion and authority to make a decision. He may recommend to the board, in writing, that the purse of either contestant be held up and/or that the license of either be suspended or revoked.

(4) Both shoulders of a contestant pinned to the mat for an audible count of 3 seconds by the referee constitutes a fall. Flying or rolling falls shall not count. Concession or submission as the result of punishment via a legitimate hold shall constitute a fall.

In the event neither contestant has scored more falls than his opponent at the conclusion of the time allotted for the contest, the referee shall call the bout a draw.

No contestant shall be permitted to grasp or hang on to the clothing, mats or ropes for support in gaining a fall or avoiding a fall. If after being warned by the referee either wrestler repeats this practice, he may be disqualified.

The referee may at his discretion declare any bout to be no contest.

The referee shall have the right to stop a bout at any time because of injury or weak physical condition of 1 of the contestants. He may request the board physician to examine the injured contestant and if deemed unable to continue, the bout shall be awarded to the other wrestler.

History: 1944 ACS 38, p. 19; 1954 AC, p. 5215.

R 431.144 Referees.

Rule 4. (1) The referee shall be licensed by the board, said licenses to be good for 1 year from date of issue.

(2) Any applicant for a referee's license must present credentials to the board that he has had experience which qualifies him to be a referee.

(3) They shall be assigned by the board or its duly appointed representative and shall be responsible to the commissioner.

(4) The referee will have complete authority over the conduct of the contestants of each bout and shall have the power to disqualify, render decisions, and recommend suspension or holding up of a wrestler's purse. He will also work in close cooperation with the inspector assigned to each match. His recommendation for suspension and/or holding up of a wrestler's purse must be made in writing to the board within 3 days of the bout in question.

(5) The approved dress in the ring for referees is a white and clean tee shirt, white duck trousers and soft shoes.

(6) Referees shall be paid the following:

$25.00	for anything under $ 500
$30.00	from $ 501 to $ 750
$35.00	from $ 751 to $1,000
$45.00	from $1,001 to $1,500
$50.00	from $1,501 to $2,000
$60.00	from $2,001 to $2,500
$70.00	from $2,501 to $3,000

Maximum rate of $100.00

History: 1944 ACS 38, p. 20; 1954 AC, p. 5216.

R 431.145 Other officials.

Rule 5. (1) The inspector assigned by the board or its appointed representative shall be appointed by the commissioner. It is his responsibility to see that all wrestlers are examined by the board physician prior to the contest; that all are licensed; that the ring and arena meet the standards of the board; to examine the ticket manifest and to count all paid admissions; to collect the state tax; and see that all licensed state officials connected with the match are paid.

He will work in close cooperation with the referee to insure proper conduct of the match.

Any recommendations he may make for suspension or holding up of a wrestler's purse must be made, in writing, to the board within 3 days of the match in question. Any unusual circumstances that arise or events that occur at a duly sanctioned match must be reported to the board in writing.

(2) A physician licensed by the board must be in attendance at any sanctioned match. He shall determine the fitness of any wrestler to compete after a complete physical examination. If the referee requests, he must examine any injured wrestler to determine his condition to continue a bout. He will remain until all bouts are completed.

(3) Any announcer, second or timekeeper working at a duly sanctioned wrestling match must be licensed by the board and assigned by same.

History: 1944 ACS 38, p. 20; 1954 AC, p. 5217.

R 431.146 Tag team matches.

Rule 6. (1) A tag team match is a match between a team of 2 wrestlers against another team of 2 wrestlers with a 60 minute time limit or best 2 out of 3 team falls, with 2 minutes rest between team falls. Team falls occur only when both men from 1 team have lost a fall.

(2) The match begins with 1 man from each team wrestling with each other while their respective team partners remain on the apron of the ring outside of the ring ropes. A man cannot enter the ring unless his partner is defeated or he is able to touch with partner's hand to relieve him. He must have hold of a regulation 3 foot double rope with a knot in 1 end and the other end looped over the ring post of his team's corner.

(3) At the time of a tag contact between partners, the man outside the ropes must have both feet on the apron floor and must reach over the top rope only to make the contact.

(4) The referee must see to it that the wrestler in the ring after tagging his partner, retires to the outside of the ring before his partner can enter the ring. During a team fall, partners may relieve each other as often as they desire, but when once pinned a contestant must leave the ring to return only when a new team fall begins. Not more than 2 wrestlers are permitted to be in the ring at the same time during the contest. The referee shall disqualify any wrestler who enters the ring during the contest without being tagged by his partner. If neither team has been able to win 2 falls at the expiration of the time limit, the team having the most falls to its credit is to be declared the winner.

(5) It shall be a foul for a contestant, while awaiting his turn on the apron, to assist his partner or to interfere with his opponent.

(6) It shall also be a foul for a contestant, while awaiting his turn, to release his hold on the rope in his corner for any reason whatsoever until officially relieved by his partner or the referee.

(7) After 1 warning of the above infractions, the referee is to disqualify the offender. In all other instances the rules governing wrestling exhibitions shall prevail.

History: 1944 ACS 38, p. 21; 1954 AC, p. 5217.

R 431.147 Miscellaneous.

Rule 7. (1) Special permission to stage battle-royals must be requested of the board.

(2) All wrestling contests or exhibitions (for prizes or purses or where an admission fee is charged or received) held or given in connection with any theatrical performance, carnival, side show, circus, picnic, at fairs, smokers or any other amusements, are strictly prohibited except by special permission of the board.

History: 1944 ACS 38, p. 21; 1954 AC, p. 5218.

DEPARTMENT OF MANAGEMENT AND BUDGET

BUREAU OF STATE LOTTERY

LOTTERY RULES

(By authority of section 11 of Act No. 239 of the Public Acts of 1972, as amended, being §432.11 of the Michigan Compiled Laws)

R 432.1 Definitions.

Rule 1. (1) "Act" means Act No. 239 of the Public Acts of 1972, as amended, being §§432.1 to 432.47 of the Michigan Compiled Laws.

(2) "Agent" means a person who has been licensed to sell lottery tickets under the act.

(3) "Bank" means a bank, banking association or trust company organized under the authority of this state or the United States whose principal place of business is within the state.

(4) "Main bank" means the principal office of a bank or that bank designated as the principal contact with the bureau for subordinate banks.

(5) "Ticket" means a lottery ticket issued by the bureau for sale to the general public.

(6) The terms defined in the act have the same meanings when used in these rules.

History: 1954 ACS 79, p. 101, Eff. Apr. 2, 1974.

R 432.2 Deputies, employees, and contractors.

Rule 2. (1) There shall be a chief deputy commissioner who shall act on the commissioner's behalf in his absence.

(2) None of the individuals referred to in section 31 of the act may have any interest, direct or indirect, in dealing in the lottery or in the ownership or leasing of any property or premises used by or for the lottery.

(3) An individual or organization or employees of an organization under contract with the bureau is not eligible to win any prize in any lottery operated by the bureau during the period of the contract if the individual, organization or employee has access to any bureau data, books and records, electronic data processing programs, systems designs or other information which are not open to the general public.

History: 1954 ACS 79, p. 101, Eff. Apr. 2, 1974.

R 432.3 License eligibility; application.

Rule 3. (1) In addition to the requirements of section 23 of the act, the commissioner shall consider the following additional factors in determining the eligibility of any prospective licensee or renewal of a license as an agent:

(a) The honesty and integrity of the applicant.

(b) The veracity of the information supplied in the application for lottery sales agent's license.

(c) The applicant's indebtedness to the state or any local government.

(d) The business experience and general fitness of the applicant.

(2) Licenses shall be issued only to:

(a) Residents of this state.

(b) Corporations incorporated in this state or authorized to do business in this state.

(c) Partnerships in which at least 1 of the partners resides in this state.

(d) Unincorporated businesses or other entities which are authorized to do business in this state.

(3) A person interested in obtaining a license as an agent shall file an application for lottery sales agent's license with the bureau on application forms which may be obtained from the bureau.

History: 1954 ACS 79, p. 101, Eff. Apr. 2, 1974.

R 432.4 License revocation.

Rule 4. (1) The license is evidence of an agency revocable at will by either the bureau or the agent. Revocation of the agency shall be effective 30 days after notice of the revocation has been mailed by the revoking party. On or before the thirtieth day following notice of revocation, the license shall be surrendered to the bureau.

(2) The agent's license also may be immediately suspended or revoked or its renewal rejected for any of the following causes, or any combination of the same:

(a) Whenever the agent's application for a license contains false or misleading information.

(b) Whenever the agent violates any of the provisions of the act or the rules, instructions and directives of the commissioner or bureau.

(c) Whenever the agent's business address is changed.

(d) Whenever an agent commits any act which seriously impairs his reputation for honesty and integrity.

(e) Whenever the agent does not display lottery point of sale material in a manner which can be readily seen by the public or fails to make handout materials readily available to the public.

(f) Whenever the agent is delinquent in making required accounting or fails to pay promptly all moneys owed the state.

(g) Whenever the agent has been convicted of a crime other than a traffic offense.

(h) Whenever the agent has been arrested for bookmaking or other form of illegal gambling, whether or not convicted of such in a court of law.

(i) Whenever the agent has been found guilty of any fraud or misrepresentation.

(j) Whenever the agent fails to take reasonable security precautions with regard to the handling of lottery tickets and other materials.

(k) Whenever the commissioner finds that the agent's experience, character and general fitness are such that his participation as an agent is inconsistent with the public interest, convenience and necessity, or for any other reason within the permissible discretion of the commissioner.

(3) Upon termination of an agent's license for any reason, the agent shall appear at his assigned bank on a date designated by the bureau for the purpose of rendering his final lottery accounting. Upon the failure of any agent to settle his account on or before the designated date, the bank shall immediately notify the bureau which shall take steps at once to impose such penalties and to exercise such enforcement powers as may be provided for by law.

(4) The agent shall surrender immediately to the appropriate bureau official his agent's license and other lottery materials supplied to him by the bureau.

History: 1954 ACS 79, p. 101, Eff. Apr. 2, 1974.

R 432.5 License fee.

Rule 5. (1) The fee for a license as an agent shall be in an amount determined by the commissioner and is payable at the time of license issuance. The fee is intended to cover the cost of licensing and is not refundable.

(2) A license renewal fee may be charged annually in an amount determined by the commissioner. The fee is intended to cover the cost of the licensing renewal operation.

History: 1954 ACS 79, p. 102, Eff. Apr. 2, 1974.

R 432.6 Conditions of licensing.

Rule 6. Upon issuance of a license the agent agrees to the following conditions:

(a) To be bound by and comply with the act and any rules, instructions and directives of the bureau.

(b) To make tickets available for sale to the public during normal business hours.

(c) To refrain from purchasing any winning ticket from its original purchaser or from subsequent purchasers.

(d) To maintain authorized displays, notions, drop boxes and other material used in conjunction with sales in accordance with instructions issued by the bureau.

(e) To accept responsibility for all tickets accepted from the bureau or its authorized distributors. All unsold tickets and receipts from sales, less the appropriate commission, shall be returned to the bureau or an authorized depository by the stated deadline. Tickets not returned by the deadline shall be considered to have been purchased by the agent.

(f) To maintain current and accurate records of all operations in conjunction with sales in conformity with rules, instructions and directives of the bureau. The records shall be available to representatives of the bureau upon request for inspection and audit.

(g) That a person under 18 years of age shall not sell tickets.

(h) That tickets will not be sold at any price greater than that price stated on the ticket.

(i) That he shall hold the bureau and the state harmless from any liability arising in connection with sales.

History: 1954 ACS 79, p. 102, Eff. Apr. 2, 1974.

R 432.7 Nontransferability of license.

Rule 7. The commissioner shall be notified in writing at least 20 days prior to any proposed business change or substantial change in ownership thereof. A substantial change in ownership under this rule means a transfer of 50% or more of the equity of any business licensed pursuant to these rules. If the business to which a license is issued changes its business location, that license terminates as of the date of the change, and a new application for a license shall be made. Every change of business location shall be reported in writing to the commissioner at least 20 days prior to the change.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.8 Bonding of agents.

Rule 8. The bureau may require a surety bond from any agent in such amount as it may determine so as to avoid any monetary loss to the state because of an agent's activities in the sale of tickets. The bond is a condition of becoming or continuing as an agent. The bureau may require a financial statement revealing

the financial condition of any person or organization seeking to become or continue as an agent. In lieu of any surety bond which the bureau may require, it may also seek any other guarantee or surety consistent with the act, including a blanket bond.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.9 License expiration and renewal.

Rule 9. An agent's license remains in full force and effect until the termination date indicated upon the license, but in no case more than 1 year from the date of issuance of the license. The license may be terminated before the expiration date by the commissioner in accordance with these rules.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.10 Special licenses.

Rule 10. (1) A special license may be issued subject to such special conditions or limitations as the commissioner deems prudent and determines to be consonant with the dignity of the state, the general welfare of the people and the dignity and integrity of the bureau. These limitations or conditions include, but are not limited to:

(a) License period.

(b) Hours or days of sale.

(c) Location of sale.

(d) Specific business or organization which may sell tickets.

(e) Specific sporting, charitable, social or other special events where lottery tickets may be sold.

(f) Special selling or dispensing methods.

(2) Agents holding special licenses are subject to all rules promulgated by the bureau.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.11 Sales by bureau directly.

Rule 11. The bureau may sell tickets at any central or branch office or selling point it establishes in the state.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.12 Stolen tickets.

Rule 12. An agent is responsible for all tickets consigned to him. If tickets are stolen, the agent shall report the theft to the bureau and to local or state police authorities before settlement day at the bank. The agent shall pay for the stolen tickets on the settlement date and subsequently file a notarized affidavit stating the facts of the case and ask for a refund in the amount he has paid to the bureau for the stolen tickets. He shall furnish a copy of the police report covering the theft. Following an investigation by the bureau and police authorities, the bureau shall issue a refund to the agent if his claim is verified.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.13 Sale, inspection, compensation, depositories, and ticket purchases.

Rule 13. (1) Tickets shall be sold only on the premises at the specific location named in the license or attachments thereto.

(2) An agent shall allow inspections of his premises at any time upon reasonable request of authorized inspectors of the bureau. The inspections may be made without prior notice to the agent.

(3) An agent is entitled to a commission for tickets sold by him in an amount to be determined from time to time by the commissioner. Changes in the commission amount shall be announced by the commissioner at least 60 days before the effective date and included in a directive issued to all agents.

(4) The commissioner shall promulgate details of any bonus program for agents in directives which shall be distributed to all agents.

(5) An agent shall deposit to the credit of the state treasurer, in a bank designated by the commissioner, all moneys received by him from the sale of tickets, less the amount retained as compensation and shall file with the bureau, or its designated agents, reports of receipts and transactions in the sale of tickets in such form and containing such information as the bureau may require. In this connection, an agent shall refer to directives and instructions to authorized agents made available by the bureau.

(6) All tickets, accepted by an agent from the bureau or its authorized representatives, are deemed to have been purchased by the agent, unless returned to the bank from which they were obtained within the time specified and the purchase price paid to the state, less the appropriate commission. The agent is responsible for lost, stolen, missing or loose tickets not returned in undetached sequential order. If tickets are sold out of sequence, the agent shall pay for all tickets preceding the last ticket sold out of sequence.

(7) The agent or his authorized representative is restricted to his assigned bank and shall properly identify himself to the bank prior to the receipt of tickets. The bureau may disqualify any person authorized by the licensed agent as his representative.

(8) The bureau may distribute tickets direct to agents where, in the commissioner's opinion, it is necessary to maintain continued sales activity.

History: 1954 ACS 79, p. 103, Eff. Apr. 2, 1974.

R 432.14 Banks; agents; safekeeping.

Rule 14. (1) Designated banks shall be subject to the following procedure:

(a) The bureau shall make arrangements for safekeeping and record keeping activities with designated banks throughout the state.

(b) The bureau will deliver weekly to the banks, for safekeeping, tickets for the state lottery.

(c) Authorized agents of the bureau shall obtain lottery tickets from the banks.

(d) An agent shall deposit moneys in the designated bank for the account of the state treasurer. An agent shall deposit with the designated bank all unsold tickets and records of sales for the bureau.

(e) Claim centers shall deposit winner claim forms with the banks for transmittal to the bureau.

(f) The bank shall maintain records of deposit, custodial and safekeeping activities as required by the bureau.

(2) A bank is entitled to compensation as determined by the commissioner and designated in a directive distributed to all participating banks. Any change in the amount of compensation shall be announced at least 60 days in advance of the effective date in a directive issued to all banks.

(3) A bank shall not sell tickets or make payments to claimants.

(4) A bank shall not distribute tickets to an agent who has failed to clear his account with respect to tickets delivered to that agent for the preceding week.

(5) An agent shall be assigned a designated bank and the bank shall be notified of the agent's authorization.

(6) The bureau may act as a safekeeping depository for tickets and moneys.

History: 1954 ACS 79, p. 104, Eff. Apr. 2, 1974.

R 432.15 Lottery tickets.

Rule 15. (1) Tickets shall be prepared for sale to the public by the bureau. The price of a ticket shall be determined from time to time by the commissioner and shall be announced by directives, advertising and other means calculated to give reasonable notice to the public.

(2) Upon instructions of the bureau, banks shall allocate tickets to agents and shall collect unsold tickets. When picking up or returning tickets, an agent shall complete all related agent forms as set forth in a directive. An agent shall sign for all consigned tickets, and prior to making deposits, shall complete agent forms supplied by the assigned bank.

(3) Tickets for a particular weekly lottery may not be sold after an agent has accounted to the bank for that particular week.

(4) The sale of a valid lottery ticket is final and ticket returns shall not be accepted by an agent.

(5) Tickets which are not accounted for by an agent on the settlement date, regardless of the reason, shall be deemed sold to the agent.

(6) The commissioner shall establish a schedule and procedure for disposition of unsold tickets.

(7) Tickets printed in error or mutilated by the bureau in any way shall be returned to the bureau for credit.

History: 1954 ACS 79, p. 104, Eff. Apr. 2, 1974.

R 432.16 Claiming of prizes.

Rule 16. (1) The commissioner shall designate claim centers for the lottery program and advertise their locations.

(2) Holders of winning lottery tickets for a minor prize may take their ticket to a claims center or directly to the bureau for processing. Ticket processing shall be in accordance with directives and instructions issued by the commissioner from time to time. If a special drawoff is required to determine the exact amount won, the bureau shall notify the claimant when and where to appear for the drawoff and where to present his winning ticket for validation.

(3) A claim shall be entered in the name of a single legal entity as claimant, either 1 individual or 1 organization. A claim may be entered in the name of an organization only if the organization possesses a federal employer's identification number (FEIN) issued by the internal revenue service and such number is shown on the claim form. Groups, family units, organizations or clubs who do not possess a federal employer's identification number shall designate 1 individual in whose name the claim is to be entered.

(4) A claimant shall fill out a claim form, present the form with the winning ticket and receive a copy of the claim form as his receipt.

(5) When processing tickets for minor prizes, or for major prizes when especially authorized to do so by the bureau, the claims center shall retain 1 copy of the claim form and forward the winning ticket and 2 copies of the claim form to the bureau for validation. Upon validation a state treasurer's warrant shall be forwarded to the claimant in payment of the amount due. If a claim is not validated as proper, the claim shall be denied and the claimant promptly notified.

History: 1954 ACS 79, p. 105, Eff. Apr. 2, 1974.

R 432.17 Ownership of lottery tickets.

Rule 17. (1) A lottery ticket that has been legally issued initially by an authorized sale by a licensed agent is a bearer instrument. The person whose name is entered on the claim form is considered the bearer of the ticket, notwith-

standing that the name of another person may appear on the ticket face or reverse side. Payment of any prize shall be made to the bearer, and all liability of the bureau, the state, their employees and agents terminates upon payment.

(2) At the commissioner's discretion, payment to the person whose name is entered on the claim form may be withheld pending investigation upon receipt of an assertion in writing and supported by proper evidence that another person is entitled to payment or upon assertion that the ticket was not legally issued initially.

(3) Payment of prizes shall be made only to the single claimant in whose name the claim was originally entered. Multiple payees are not permitted. If a claim is erroneously entered with multiple claimants, the claimants shall designate 1 of them as the individual recipient of the prize or, if they fail to designate an individual recipient, the bureau may designate any 1 of the claimants as the sole recipient. In either case, the claim shall then be considered as originally entered in the name of the designated individual and payment of any prize won shall be made only to that single individual.

(4) Upon the death of a prize winner who has not yet collected the full amount of his prize, the bureau shall continue payment to the estate of the winner until the full amount is paid unless instructed by an appropriate court order to make payment to another recipient. Payment of prize money shall not be accelerated before its normal date of payment because of the death of the prize winner.

(5) Mutilated tickets shall be validated only if adequate portions of the ticket remain intact reasonably to insure the authenticity of the ticket.

(6) A ticket holder may not assign or sell his ticket or right to any prize to another party once he has identified himself to the bureau as a prize winner or potential prize winner.

(7) The prize on a winning ticket may be claimed at any time within 1 year from the drawing date shown on the ticket. However, the prize awarded shall be in accordance with the prize structure in effect at the time the claim is approved for payment, regardless of what prize structure may have been in effect on the date the ticket was purchased or on the drawing date indicated thereon.

History: 1954 ACS 79, p. 105, Eff. Apr. 2, 1974.

R 432.18 Payment of prizes.

Rule 18. (1) Payment of prizes shall be made as soon as reasonably possible after the claim has been filed, verified and the claimant has been identified to the satisfaction of the commissioner.

(2) The commissioner shall establish a schedule for payment of certain major prizes in installments, rather than a lump sum.

(3) Payment of prizes by mail, when applicable, shall be made to the claimant at the address that the claimant makes available to the bureau on the claim form.

(4) When a drawing or ceremony is conducted, winners shall receive payment in full, or, if applicable, the first installment of a prize, at the drawing or ceremony. Payment shall be made by state treasurer's warrant or by special check.

(5) The state, its agents, officers and employees, the bureau, its agents, officers and employees are discharged of all liability upon payment of a prize to the bearer of a winning lottery ticket.

History: 1954 ACS 79, p. 106, Eff. Apr. 2, 1974.

R 432.19 Disposition of funds from sale of tickets.

Rule 19. (1) Weekly, the bureau shall receipt into the central accounting division of the department of management and budget the gross amount resulting

from sales, the selling commissions, the bank fees, the net income generated and the amount to be restricted for payment of prizes. Prize payments shall be made from such restricted moneys as authorized by vouchers issued by the bureau. All moneys remaining after payment of sales commissions, bank fees and prize allocations become part of the general fund of the state.

(2) All moneys received by the bureau from the licensing of agents shall be deposited into the account of the state treasurer. The bureau shall receipt into central accounting each week the amount received from licensing operations.

(3) The commissioner shall specify the frequency of the transfer of net revenue designated for the general fund and the amount to be so transferred. The transfer shall be made quarterly when practicable, but at least annually. The final transfer for each fiscal year shall cover the period through June 30 and shall be completed before the close of the state's books for that fiscal year.

History: 1954 ACS 79, p. 106, Eff. Apr. 2, 1974.

R 432.20 Drawings.

Rule 20. (1) The commissioner shall detail the types of drawings and drawing procedures in a directive. All drawings shall be conducted in a public place and selection of winners shall be based on chance. Any new drawings or changes in drawing procedures shall be included in the directives or amendments thereto. The commissioner shall make every attempt to keep the public informed of drawing procedures and changes in the procedures.

(2) All drawings to determine the awarding of prizes shall be open to the public. The time and place of drawings shall be made known to the public in advance to the extent practicable.

(3) Information regarding the time and place of future drawings, the winning numbers in previous drawings and other information of public interest, including descriptive information regarding current games, shall be disseminated to agents, interested parties and the public through brochures, pamphlets, newsletters, reports and other means to the extent practicable.

(4) When a determining drawing is to be held, ticket holders or those otherwise qualified for the drawing shall be asked to attend in person. If qualified contestants cannot or do not choose to attend in person, the following options shall be made available:

(a) A qualified contestant may authorize a representative to stand in for him at a drawing, so long as validation and identification requirements for that drawing are satisfied.

(b) A bureau employee may represent a qualified contestant at a drawing. Any prize won shall be presented to the original qualifier upon satisfaction of validation and identification requirements for that drawing.

(c) In the case of questionable qualification or representation, the commissioner may determine whether withholding of payment of any prize won or assignment to another drawing is appropriate.

(5) When the number of contestants in a determining drawing is variable, the commissioner may limit the number of contestants in any particular drawing for administrative or practical reasons.

History: 1954 ACS 79, p. 106, Eff. Apr. 2, 1974.

R 432.21 Prize structure.

Rule 21. (1) The prize structure shall be determined by the commissioner from time to time and shall be consistent with the act. Every attempt shall be made to inform the public, agents and interested parties of the existing prize

structure of any lottery game, and reasonable notice shall be given in advance of any changes in the prize structure. When possible, the current prize structure shall be listed on the ticket itself or in informational materials available at sales locations.

(2) Periodic bonus promotions offering special prizes shall be detailed in special directives. Information regarding bonuses shall be disseminated to the extent possible through the news media, advertising, point of sale materials and other practicable means. The time of announcement of promotions shall be determined by the commissioner.

(3) The commissioner may award prizes of cash or merchandise as door prizes at drawings or special events. Numbers shall be drawn at random to determine door prize winners according to procedures determined by the commissioner from time to time and announced in appropriate directives.

R 432.22 Subscription program.

Sec. 22. (1) The subscription program offers an alternate method for participation in the lottery through the advance payment for 1 set of numbers eligible to win all prizes as outlined in the bureau's prize structure. At the time of application, subscribers can indicate a choice of 1 set of numbers which shall be assigned to them if available. If not available, an alternate choice or the closest available set of numbers shall be assigned.

(2) Membership in the subscription program may be secured for varying periods of time as specified by the commissioner in appropriate directives. All funds paid for memberships shall be in United States currency or at an equivalent exchange rate. The subscription program is subject to all rules of the bureau except for the following:

(a) Regardless of when a membership application and payment is submitted, a membership is not effective until processing is complete and a membership card is sent to the member. Failure to receive a membership card does not affect the effective date of membership. Undeliverable membership cards shall be retained by the bureau and shall represent active memberships.

(b) The member shall retain his membership card and present it to the bureau upon request.

(c) The membership shall be owned and prizes awarded to the individual or organization designated on the membership card.

(d) A membership in the subscription program is nontransferable. Once an application has been processed by the bureau, changes in ownership are not permitted other than to correct administrative errors made in processing the application or to reflect a legal name change of a member.

(3) Bureau records shall be used in the official determination of lottery numbers issued to members and all prizes awarded shall be based on such records.

(4) Once a membership card has been issued to a subscriber, funds remitted to the bureau as payment for the membership are not refundable. When refunds are made prior to the issuance of a membership card, a $1.00 fee shall be deducted for handling.

(5) Checks remitted to the bureau as payment for membership which are dishonored for any reason shall result in immediate cancellation of the membership.

(6) A membership shall be issued only in the name of an individual or single legal organizational entity. The bureau shall hold applications filed for multiple

ownership until the name of an individual is obtained. Applications in the names of multiple owners are not acceptable unless the legal status of the multiple owners or organization is evidenced by a federal employer's identification number at the time the application is submitted.

(7) Following each weekly drawing the bureau shall notify subscription plan winners in the following manner:

(a) Checks shall be mailed to the winners in the amount of the prize to which they are entitled unless a drawoff is necessary to determine the amount of the prize.

(b) The bureau shall notify winners by telephone or certified mail of their eligibility for participation in a drawoff and which specific drawoff they are to attend.

(8) The rules of the bureau pertaining to agent and bank transactions shall not apply to the subscription program.

(9) Subscription program application forms are available from the bureau and at licensed agents throughout the state. There is no charge for the subscription application form, nor shall anyone offer them for sale at any price or for any valuable consideration.

(10) A licensed agent is entitled to a commission for subscription system memberships issued when the applications for membership received by the bureau contain an agent's lottery number. A licensed agent is entitled to a commission for renewals of the original memberships processed under his agent's number. Payments shall be made on a quarterly basis and shall be based on the data recorded by the bureau regarding membership applications received and processed during the period.

History: 1954 ACS 79, p. 107, Eff. Apr. 2, 1974.

BINGO RULES

(By authority conferred on the commissioner of state lottery by section 13 of Act No. 382 of the Public Acts of 1972, being §432.113 of the Michigan Compiled Laws)

R 432.101 Definitions.

Rule 101. (1) "Act" means Act No. 382 of the Public Acts of 1972, as amended, being §§432.101 to 432.120 of the Michigan Compiled Laws.

(2) "Bingo card" means a card bearing numbers or other designations, 5 or more in 1 line.

(3) "Regular bingo game" means game played with permanent cards.

(4) "Special bingo game" is played with disposable cards or regular cards.

(5) "Regular cards" means hard cards used to play regular bingo games or designated special bingo games.

(6) "Extra regular cards" means such cards as afford additional opportunities to play in regular bingo games.

(7) "Gross receipts" means all moneys connected with participation in bingo games, the sale of supplies and other miscellaneous receipts.

(8) "Operator" means a person in charge of the bingo game, listed on the application for license or on the amended statement.

(9) "Worker" means a person 18 years of age and over and a member of the organization participating in the operation of bingo games, not listed on the license, including, but not limited to, sellers and callers, but not players.

(10) "Door fee" or "admission fee" means the charge for entering a bingo hall in which a player receives at least 1 regular bingo card.

(11) "Special cards" means cards which players use for any game designated as a special bingo game.

(12) "Operator bingo license" means a valid operator's license.

(13) "Vendor bingo license" means a valid supplier's license.

(14) "Licensee" means an organization holding either a valid operator or vendor bingo license.

(15) "Receptacle" means a container, such as blower and cage, which holds the balls or objects used in bingo games.

(16) "Master board" means a board with holes numbered 1 to 75. As the numbers are drawn and announced by the caller, they are placed on the board, the number on the ball matching the numbered hole on the board.

(17) "To bingo" means that a player has the winning combination required to win the game.

(18) "Call" means announcement of numbers on balls or objects drawn from the receptacle.

(19) "Premises" means any land, building, enclosure or part thereof used for the purpose of conducting bingo games.

(20) "Directive" means the instructional and procedural statements which the commissioner has the authority to issue and shall issue to bingo vendors, operators or affected parties from time to time.

(21) The terms defined in the act have the same meanings when used in these rules.

History: 1954 ACS 80, p. 68, Eff. July 11, 1974.

R 432.102 Employees and contractors.

Rule 102. (1) Employees of the bureau shall not have any interest, direct or indirect, in dealing in bingo games or the ownership or leasing of any property or premises used by or for bingo games.

(2) A consultant or person under contract with the bureau shall not have any interest in the ownership or leasing of any property or premise used by or for bingo.

History: 1954 ACS 80, p. 69, Eff. July 11, 1974.

R 432.103 License eligibility; application.

Rule 103. (1) In addition to the requirements of section 4 of the act, the commissioner shall consider the following additional factors in determining the eligibility of a prospective licensee or renewal of a licensee as an operator:

(a) The honesty and integrity of the applicant.

(b) The veracity and accuracy of the information on the application.

(c) The applicant's indebtedness to the state or a local government.

(2) A person interested in obtaining a bingo license as an operator shall file an application for a bingo license with the bureau. Applications may be obtained from the bingo division of the bureau.

(3) The fee for becoming licensed as a bingo operator shall be paid by check or money order. All fees are refundable if the application is rejected or denied.

History: 1954 ACS 80, p. 69, Eff. July 11, 1974.

R 432.104 Conditions of licensing of an operator.

Rule 104. Upon issuance of a license, the licensee agrees to the following conditions:

(a) To be bound by and comply with the act and the rules, instructions and directives of the bureau.

(b) To maintain current and accurate records of all operations in conjunction with bingo games in conformity with rules, instructions and directives of the bureau. The records shall be available to representatives of the bureau upon request for inspection or audit.

(c) Regular bingo license holders shall file a financial statement monthly on a form provided by the bureau. This form shall be signed by the person in charge of bookkeeping, the organization secretary or bingo chairman and shall be notarized. Statements shall be mailed by the tenth of each month. Special bingo license holders shall file a financial statement on a form provided by the bureau. This form shall be signed by the person in charge of bookkeeping, the organization secretary or bingo chairman and shall be notarized. Statements shall be filed within 30 days of the last authorized bingo day.

(d) That a license may be revoked, suspended or its renewal rejected for the use of false or misleading information in obtaining a license.

(e) To conduct the games at the specific location designated on the license and on the days and hours approved by the bureau.

(f) To secure a bond if required by the bureau.

(g) To hold the bureau and the state harmless from any liability, including but not limited to taxes and legal expenses arising in connection with the operation and conduct of bingo games.

(h) To deposit all moneys derived from the conduct of bingo in banks located within the state. When moneys are deposited into a checking account, the account shall be designated "special bingo checking account" and when deposited into an interest bearing account, the account shall be designated "special bingo savings account."

(i) To notify the bureau in writing within 20 days of changes respecting facts set forth in an application. If a change in any fact set forth in an application occurs after the issuance of a license, the change shall be reported to the bureau within 10 days after the date of change.

History: 1954 ACS 80, p. 69, Eff. July 11, 1974.

R 432.105 Gaming activity.

Rule 105. A bona fide member of a licensed organization may not participate in the management or operation of bingo games if he has been a professional gambler or gambling promoter, indicted or convicted for any illegal gambling activity, or has paid tax under the internal revenue code for wagering or gambling activity.

History: 1954 ACS 80, p. 69, Eff. July 11, 1974.

R 432.106 Regular licenses.

Rule 106. (1) Jointly held licenses shall not be issued.

(2) Upon application, the commissioner may issue a regular bingo license entitling the licensee to conduct bingo once a week for a $100.00 fee, and 12 times a year for a $10.00 fee. All licenses expire on the last day of February.

(3) An organization may not be granted both a $100.00 and $10.00 regular license. An organization holding a $100.00 or $10.00 regular license may not be granted a $5.00 special license. If granted a $100.00 or $10.00 regular bingo license, an organization may obtain in addition 2 special $50.00 licenses.

History: 1954 ACS 80, p. 70, Eff. July 11, 1974.

R 432.107 Special licenses.

Rule 107. (1) Upon application, the commissioner may issue a special bingo license entitling the licensee to conduct bingo on 1 occasion for a $5.00 fee and up to 7 consecutive days for a $50.00 fee.

(2) If a special bingo game cannot be held on the date approved by the bureau because of weather conditions or any other emergency conditions, the organization may fix a new date for the game within a 48-hour period. The new date shall be scheduled within 7 days of the original date. Written notification of the new date shall be filed with the bureau immediately.

(3) Two special licenses may be granted annually. At least a 30-day interval shall elapse before a second special license may be granted.

(4) Organizations granted a $5.00 special license may not hold a regular license during a calendar year.

History: 1954 ACS 80, p. 70, Eff. July 11, 1974.

R 432.108 Conduct during games.

Rule 108. (1) Authorized equipment, including all bingo related paraphernalia, used in the conduct of bingo, shall be maintained in good repair and sound working condition.

(2) The utilization of equipment and the methods of play shall be such that each player is afforded an equal opportunity to win.

(3) All objects or balls used during the game shall be present in the receptacle before each game is begun, and shall be verified by 2 bingo players before the occasion starts.

(4) All numbers and letters announced shall be clearly audible to all players present.

(5) Once removed, an object or ball may not be returned to the receptacle until the conclusion of the game.

(6) When more than 1 room is used for any 1 game, the receptacle and the caller shall be in the room where the greatest number of players are present, and all numbers shall be clearly audible to the players in all rooms.

(7) A licensee, its members or agents, shall not accept in payment for a bingo game, a check or money order, nor tender other than cash legal tender nor cash any checks out of bingo funds.

(8) The officers of a licensed organization shall designate an official to be in full charge of and primarily responsible for the proper utilization of all moneys derived from the conduct of bingo in accordance with the bingo act and rules. The person shall be listed on the bingo application. The member in charge shall be familiar with the act, the ordinances of the local government agency, the rules of the bureau and the terms of the license. He shall be present on the premises continuously during all bingo games.

(9) All bingo players at regular licensed bingo games shall have an admission card to be eligible to play.

(10) Bingo admission cards, regular hard cards or special bingo cards may not be given to a bingo worker for service rendered.

(11) Bingo games may not be held between the hours of 12 midnight and 10:00 a.m.

(12) The master board is the only official scorer. A light board may be used but is not official.

History: 1954 ACS 80, p. 70, Eff. July 11, 1974.

R 432.109 Vendor bingo license.

Rule 109. (1) The commissioner shall consider the following factors in determining the eligibility of a prospective licensee or for renewal of a license as a vendor:

(a) The honesty and integrity of the applicant.

(b) The veracity and accuracy of the information supplied in the application for a vendor's license.

(c) The applicant's indebtedness to the state or any local government.

(d) The business experience of the applicant and general fitness of the applicant.

(2) Licenses shall be issued only to:

(a) Corporations incorporated in this state or authorized to do business in this state.

(b) Partnerships in which at least one of the partners resides in this state.

(c) Unincorporated businesses or other entities which are authorized to do business in this state.

(3) A vendor desiring a vendor's license shall file an application for a bingo vendor's license with the bureau on application forms which may be obtained from the bureau.

(4) Any subsequent changes in the information given in the application shall be furnished immediately to the bureau.

History: 1954 ACS 80, p. 71, Eff. July 11, 1974.

R 432.110 Authorized sales representatives.

Rule 110. (1) A list of authorized representatives shall be furnished to the bureau containing the following information:

(a) Names of sales representatives.

(b) Home and business addresses of sales representatives.

(c) Dates of birth and social security numbers of sales representatives.

(d) Sales territories.

(2) An itemized list of all products offered or to be offered for sale or lease to licensed bingo operators shall be filed with the bureau, including, but not limited to the following:

(a) Catalogs, brochures, advertising copy.

(b) Retail and sale price at which merchandise is offered.

(c) All information regarding any changes in personnel or equipment shall be submitted to the bureau within 20 days from the time of change.

History: 1954 ACS 80, p. 71, Eff. July 11, 1974.

R 432.111 Payment of fees.

Rule 111. The fee for bingo vendor's license shall be paid at the time the license application is submitted. If the application is rejected, the fee shall be refunded. A license renewal fee is charged annually, payable on or before the license expiration date on the last day of February.

History: 1954 ACS 80, p. 71, Eff. July 11, 1974.

R 432.112 Conditions of licensing of a vendor.

Rule 112. (1) Upon issuance of a license, the applicant agrees to the following conditions:

(a) To maintain current and accurate records of all operations in conjunction with selling bingo equipment in conformity with the act, rules and directives of the bureau. The records shall be available to representatives of the bureau upon request for inspection or audit.

(b) That the vendor bingo license may be revoked, suspended or its renewal rejected whenever the applicant knowingly uses false or misleading information in obtaining a license.

(c) That he shall not attempt to assign or transfer the license.

(d) That all bingo equipment will be sold only at the prices approved by the bureau.

(e) That a person who is directly or indirectly connected with the manufacture, sale or distribution of bingo equipment or supplies, or his agents, servants or employees shall not conduct, participate, advise or assist in the conduct of bingo or render any service to anyone conducting, participating or assisting in the conduct of bingo.

(f) To report any change in the information given in the application occurring after the issuance of the license to the bureau within 20 days of the date of the change. Failure to report any change constitutes sufficient cause for denial of a pending license or suspension or revocation of a license which has been granted.

(g) To keep his books and records in up-to-date and adequate condition at all times to enable the bureau to determine the gross sale of all bingo equipment to licensed organizations.

(h) A licensed bingo vendor or authorized representative, during the term of a license, shall not sell or distribute bingo equipment to other than organizations licensed to conduct bingo, except by special permission of the commissioner.

(i) A licensed bingo vendor or authorized representative may not be present during the conduct of bingo for the purpose of transacting business, or demonstrating equipment, for up to ½ hour before and ½ hour after the bingo games.

(j) A report of all bingo transactions shall be filed upon notification and on forms provided by the bureau, except when otherwise specified by the commissioner.

(2) A bingo vendor license shall be prominently displayed on the licensee's premise and made immediately accessible to authorized representatives of the bureau or law enforcers.

(3) The form of vendor license and vendor report forms shall be prescribed by the bureau.

History: 1954 ACS 80, p. 71, Eff. July 11, 1974.

R 432.113 Bingo equipment.

Rule 113. (1) Authorized equipment.

(a) Hand operated or blower type bingo cage.

(b) Master board with holes numbered 1 to 75.

(c) Hard cards, with bingo numbers printed on 1 side only.

(d) Disposable cards, with bingo numbers printed on 1 side only.

(e) Bingo balls of the same type, weight, color and size.

(f) Automatic fingertip or shutter cards.

(g) Authorized bingo equipment shall be purchased from licensed bingo vendors and must be maintained in good working condition.

(2) Unauthorized equipment.

(a) Push-out cards.

(b) Raffle drums.

(c) Poker chips and slugs.

(d) Roll tickets and roll ticket holders.

(e) Multi-colored, striped, two-tone or any other assortment of colored balls.

(f) Cash books.

(g) Bingo legal forms.

(h) Tip books.

(i) Jar tickets.

(3) The licensee shall not conduct any bingo game with equipment which it does not own absolutely, or for which it pays any consideration directly or

indirectly, or under the guise of a service charge, except that a licensee shall not agree to purchase its supplies in consideration of receiving the use of any equipment, goods or supplies without charge, except as provided in these rules; nor shall he agree to pay a percentage of the receipts or net profits from the game for the use of the equipment.

(4) Licensed organizations may loan other licensed organizations their facilities and equipment free of charge, if this arrangement is in the form of a written agreement approved by the commissioner.

History: 1954 ACS 80, p. 72, Eff. July 11, 1974.

R 432.114 Bingo operation.

Rule 114. (1) Hard bingo cards, used in regular games, may be sold for not more than 25¢ each. Disposable cards, used in special games may be sold for not more than 25¢ for 1 card.

(2) At least 1 hard card shall be given to a player when he pays admission. The admission charge may not exceed $1.00. No more than 4 hard cards may be given to a player paying the admission fee. Admission cards shall be a different color than regular extra cards. The right to participate in a bingo game is sold by the sponsor.

(3) Licensees holding a $100.00 license may conduct an unlimited number of games on each authorized date. Those holding a $10.00 license may not hold over 25 games on 1 date.

(4) Licensees holding a $50.00 or $5.00 license may conduct an unlimited number of games on each authorized date, except when restricted by the commissioner.

(5) A person shall not solicit or receive any gift or donation on the premises during the conduct of an occasion of bingo.

(6) Lottery tickets may be sold before, after and during bingo games if the organization is licensed to sell tickets on the premise where bingo is being conducted.

(7) Games of chance other than bingo and sale of Michigan lottery tickets shall not be conducted or allowed on any occasion when bingo is played, whether lawful or unlawful, whether any separate or additional charge or wager is required or not.

(8) Concession items and items pertaining to playing bingo may be sold during the bingo occasion.

(9) When a bingo licensee conducts bingo on a premise licensed by the liquor control commission, dispensing of alcoholic beverages and use of the property is under the jurisdiction of the liquor control commission.

(10) Concession workers may be under 18 years of age.

(11) Persons under 18 years of age shall not be permitted to participate in bingo as a player, or permitted to operate or assist in the conduct of a game of bingo.

(12) Organizations shall prominently display bingo rules and prize structure during all games, by means of a display poster or by means of a program that is distributed to the player.

(13) When bingo is played, all cards shall be purchased, all winners determined and all prizes awarded within the same day.

(14) Bingo cards for regular or special games may be selected only by the player who is to use the cards.

(15) A player may switch cards between games; however, a player may not switch during any bingo game being called. Cards may never be switched or transferred between players.

(16) The bingo operator may show the face of the hard or disposable cards to the player when they are being sold. Opportunities shall be printed only on one side of the card.

(17) Bingo cards not being played should be turned in.

(18) Bingo workers and operators may not play in games of bingo in which they are working or assisting. Workers who wish to play may work only until game time and then play if they pay admission the same as all other players.

(19) Numbered balls or objects shall be drawn from a receptacle and called. The caller and receptacle shall be located so that 2 players or more can observe the number that is drawn from the receptacle before the number is called. Card holders shall cover the numbers called and the game is won by the person who first covers a previously designated arrangement of numbers on a card.

(20) Designated floor men shall check the winning cards on all bingos, including coveralls, jackpots and special games. Players at another table may act as witnesses to the verification of the winning numbers on all coverall games.

(21) Members of auxiliaries of licensed organizations may assist in the conduct of bingo games.

History: 1954 ACS 80, p. 72, Eff. July 11, 1974.

R 432.115 Prizes.

Rule 115. (1) Winning numbers.

(a) The combinations required to win a game shall be clearly announced before each game is begun.

(b) Each player is entitled to call for a verification of all numbers drawn at the time a winner is announced.

(c) A verification of the numbers appearing on the winning card at the time a winner is determined shall be made in the immediate presence of 1 or more disinterested players. Any disinterested player shall be permitted to observe the verification.

(d) A player must bingo on the last number called.

(2) In games divided into multiple prizes, the winning arrangements and the amount of each prize shall be audibly announced to the players immediately prior to each multiple game.

(3) When more than 1 player is found to be the winner on the call of the same number in the same game, the designated prize shall be divided as announced by the operator prior to the start of play.

(4) Prizes shall not exceed the sum or value of $500.00 in any single game of bingo, and the aggregate amount of all prizes offered or given on all games played on a single occasion cannot exceed $2,000.00. Prizes in a single game may be paid in steps, but not to exceed the $500.00 aggregate amount. For licenses holding a $10.00 regular license, the prizes may not exceed a $10.00 value per game.

(5) When a merchandise prize is awarded in a game of bingo, for auditing purposes, its value is the cost to the licensee, or if donated, its current retail price. The retail value of all prizes shall be included in the $2,000.00 maximum prize value for each occasion of bingo.

(6) The current retail price of merchandise prizes donated to the licensee cannot be reported as an expenditure in the financial statement of the bingo operation. Such prizes shall be reported as donations on the financial statements.

(7) Merchandise prizes may not be redeemable or convertible into cash directly or indirectly by the licensee.

(8) Alcoholic beverages may not be awarded as prizes.

History: 1954 ACS 80, p. 73, Eff. July 11, 1974.

R 432.116 Advertising.

Rule 116. (1) A bingo game may not be advertised by means of commercial newspaper, radio, television, sound truck or by means of billboards, posters, handbills or other means addressed to the general public except by special permission of the commissioner. Signs not exceeding 60 square feet each may be displayed on or adjacent to the premise where the games are to be held.

(2) If special permission is granted to advertise, the advertisement shall include the purpose for which net proceeds will be used by the licensee, and also the time and location of the game.

(3) Newspaper bingo directory. To provide the player with information about bingo games, this type of advertising is permitted with the following restrictions:

Size Restriction	Contents Restriction
1 column—1 inch	Name of organization
Type size—6 or 9 point	Address, Street and City of game
No more than 5 lines	Day of the week and time

History: 1954 ACS 80, p. 74, Eff. July 11, 1974.

R 432.117 Locations.

Rule 117. (1) Licensees may conduct bingo only on the premises named on the license.

(2) Premises may not be rented or allowed to be used unless all of the terms and conditions of rental or use, including the rental of chairs, tables, and janitor service, are set forth in a written agreement submitted, approved, and on file with the bureau.

(3) A renter or owner of premises, used for the conduct of bingo, shall not use the word "Bingo," "Keno," "Lotto," "Skillo," or other words whose meaning is capable of conveying the suggestion that bingo is or will be conducted or played either as part of the name of the renter or as the name of the premises or place within the premises to be rented or used for the conduct or playing of bingo.

(4) A fee beyond that which is normally charged for rental in the written agreement may not be charged, and under no circumstances shall a hall be rented to a licensed organization on a percentage basis.

(5) A payment may not be made to the renter or owner except by check, drawn on a special bingo checking account, and the licensee shall pay within 48 hours after holding the bingo.

(6) Licensees cannot lend money to or borrow money from any lessor or any person who is connected with the lessor either directly or indirectly.

(7) A single premise shall not be used for more than 5 regular bingo occasions each week. A single premise includes all components or buildings comprising 1 architectural entity or serving a unified functional purpose.

History: 1954 ACS 80, p. 74, Eff. July 11, 1974; 1954 ACS 86, p. 96, Eff. Feb. 6, 1976.

R 432.118 Books of accounts; receipts; disbursements.

Rule 118. (1) Moneys deposited in the special bingo checking account may be used only for the following purposes:

(a) The payment of necessary and reasonable bingo expenses incurred in connection with the conduct of bingo, which consists of bingo supplies and equipment, rent, bookkeeping or accounting services according to the schedule of compensation prescribed by the bureau, janitorial services and utility supplies, license fees, cash prizes and the purchase of merchandise prizes.

(b) The disbursement or transfer of net proceeds derived from the conduct of bingo into 1 or more special bingo savings accounts, pending a disbursement for 1 or more of the lawful purposes of the licensed organization.

(c) The transfer of net proceeds derived from the conduct of bingo into the accounts of the organization. The holding of profits for more than 1 year without transfer is prohibited.

(2) All moneys withdrawn from the special bingo checking account shall be only by checks having preprinted consecutive numbers, signed by the duly authorized person or persons and made payable to a specific person, firm, partnership, corporation or account. A check shall not be made payable to cash or bearer, or drawn in blank.

(3) Funds on deposit in a special bingo savings account may be disbursed only by transfer back into the special bingo checking account.

(4) The books of account shall be kept up to date. Deposit books, savings account pass books, canceled checks, checkbooks, deposit slips, bank statements, and all other books of account shall be available at all bingo occasions and other times as required by and for examination by the bureau.

(5) All documents supporting the entries made in the books of account shall be kept by the licensee for not less than 6 years. These documents include, but are not limited to, bank statements, canceled checks, deposit slips, and invoices for all expenditures.

(6) Payments for services may not exceed these amounts:

(a) Preparing and mailing monthly financial statements, $5.00 per month.

(b) Opening books for bingo game account, $15.00.

(c) Supervising bookkeeping and accounting system without making entries or preparing reports, $5.00 per month.

(d) Bona fide members of a licensed organization, serving as bingo operators and workers, may be paid up to $5.00 for their services per occasion. Any larger payment for services shall receive special approval by the commissioner. The payments shall be shown on the financial statement.

History: 1954 ACS 80, p. 74, Eff. July 11, 1974.

MILLIONAIRE PARTY RULES

(By authority conferred on the commissioner of state lottery by section 13 of Act No. 382 of the Public Acts of 1972, as amended, being §432.113 of the Michigan Compiled Laws)

R 432.201 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 382 of the Public Acts of 1972, as amended, being §432.101 et seq. of the Michigan Compiled Laws.

(b) "Bureau" means the bureau of state lottery, as created by Act No. 239 of the Public Acts of 1972, as amended, being §432.1 et seq. of the Michigan Compiled Laws.

(c) "Commissioner" means the commissioner of state lottery, as defined by section 3 of Act No. 239 of the Public Acts of 1972, being §432.3 of the Michigan Compiled Laws.

(d) "Concession" means a business which is limited to the sale of food and beverages for human consumption.

(e) "Directive" means the instructional and procedural statements which the commissioner shall issue periodically to suppliers, operators, or affected parties.

(f) "Imitation money" means play money which has a nominal value that is greater than the value of the currency for which it was exchanged or is exchangeable.

(g) "Licensee" means an organization holding either a valid operator's license or valid supplier's license.

(h) "Millionaire party" means an event at which wagers are placed with imitation money upon games of chance customarily associated with a gambling casino.

(i) "Millionaire party license" means a valid operator's license.

(j) "Premises" means any land, building enclosure, or part thereof used for the purpose of conducting a millionaire party. The term also means all components or buildings comprising 1 architectural entity or serving a unified functional purpose.

(k) "Operator" means the person in charge of the millionaire party listed on the license application.

(l) "Raffle" means a drawing conducted by the licensee held in conjunction with a millionaire party, at which preannounced prizes are awarded.

(m) "Supplier's license" means a valid supplier's license for either bingo equipment or millionaire party equipment.

(n) "Worker" means a person not less than 18 years of age and a member, for not less than 6 months, of the organization participating in the millionaire party and not listed on the license.

History: 1954 ACS 94, p. 103. Eff. Jan. 19, 1978.

R 432.202 Conflict of interest.

Rule 2. (1) Employees of the bureau of state lottery shall not have an interest, direct or indirect, in dealing in millionaire party games or in the ownership or leasing of any property or premises used by or for millionaire party games.

(2) A consultant, or person under contract with the bureau, shall not have an interest in the ownership or leasing of any property or premises used by or for millionaire parties.

History: 1954 ACS 94, p. 103. Eff. Jan. 19, 1978.

R 432.203 Millionaire party license; eligibility; application; fee.

Rule 3. (1) In addition to the requirements of section 4 of the act, the commissioner shall consider the following additional factors in determining the eligibility of an applicant for a millionaire party license.

(a) The reputed honesty and integrity of the applicant.

(b) The veracity and accuracy of the information on the application.

(c) The applicant's indebtedness to the state or a local government.

(d) Any pending lawsuit or bankruptcy proceeding involving or affecting the applicant.

(2) A person interested in obtaining a millionaire party license shall file an application for such license with the bureau on an application form obtained from the bingo division of the bureau.

(3) The fee for a millionaire party license is $50.00 per 1 day occasion or $100.00 for 3 consecutive days, which shall be paid by check or money order. Fees are refundable if the application is rejected or denied.

History: 1954 ACS 94, p. 103. Eff. Jan. 19, 1978.

R 432.204 Millionaire party license; conditions.

Rule 4. Upon issuance of a millionaire party license, the licensee agrees to the following conditions:

(a) To be bound by, and comply with, the act and with the rules, instructions, and directives of the bureau.

(b) To maintain current and accurate records of all operations in conjunction with millionaire party games in conformity with bureau rules, instructions, and directives.

History: 1954 ACS 94, p. 104, Eff. Jan. 19, 1978.

R 432.205 Millionaire party license; granting; display.

Rule 5. (1) Two $50.00 1-day millionaire party licenses or 1 $100.00 3-consecutive-day millionaire party license may be granted to an applicant annually. Upon application, the commissioner may issue a license for a period which exceeds the 3-day license. In the event that an extension is granted, it shall not exceed 24 hours. A fee of $50.00 shall be charged for the additional 24-hour period. In all other cases, at least a 30-day interval shall elapse from the date of a license before a second license may be granted. Only 1 3-day license shall be issued at the same location in a 7-day period.

(2) A millionaire party license shall be displayed at a conspicuous location upon the premises.

History: 1954 ACS 94, p. 104, Eff. Jan. 19, 1978.

R 432.206 Maintenance and utilization of equipment; official in charge; prohibited hours.

Rule 6. (1) Authorized equipment, including paraphernalia used in the conduct of millionaire parties, shall be maintained in good repair and sound working condition.

(2) The utilization of equipment and the methods of play shall be such that each player is afforded an equal opportunity to win.

(3) The officers of a licensed organization shall designate at least 1 official in full charge of, and primarily responsible for, the proper utilization of all moneys derived from the conduct of a millionaire party in accordance with the act and these rules. The official in charge shall be named on the millionaire party application. The official shall be familiar with the act, local ordinances, the rules of the bureau, and the terms of the license. The official shall be present on the premises continuously during the millionaire party.

(4) Millionaire parties may not be conducted between the hours of 2 a.m. and 12 noon, or during hours prohibited by local ordinance.

History: 1954 ACS 94, p. 104, Eff. Jan. 19, 1978.

R 432.207 Games and equipment generally.

Rule 7. (1) Only games of chance in which participants compete against the licensee are permitted.

(2) All equipment used and games played at a millionaire party shall be approved by the commissioner.

(3) Approved millionaire party equipment shall be purchased or rented from licensed suppliers and shall be maintained in good working condition.

(4) Approved party equipment and games include, but are not limited to, the following:

(a) All wheels.

(b) Roulette.

(c) All dice games.

(d) Twenty-one or blackjack.

(e) Raffle conducted by the millionaire party licensee as prescribed by subrule (10) of this rule.

(5) The following equipment and games shall not be used at a millionaire party:
(a) Horse race films.
(b) Jar tickets, jarco tickets, break open tickets, or other illegal lottery.
(c) Slot machines.
(d) The game of bingo or bingo equipment.
(e) Poker.

(6) The licensee shall not conduct a millionaire party game with equipment which the licensee does not own or does not rent from a licensed supplier. The licensee shall not pay any consideration for the rental of equipment above and beyond the agreed rental price, directly or indirectly, or under the guise of a service charge. A charge for the delivery of millionaire party equipment may be made not to exceed the fee charged by commercial carriers. A licensee shall not agree to purchase its supplies in consideration of receiving the use of any equipment, goods, or supplies, without charge, except as provided in these rules; nor shall the licensee agree to pay to anyone a percentage of the receipts or net profits from the game for the use of the equipment.

(7) The licensee shall notify the player either by posted rule, with letters a minimum 1 inch in size, or by program, of the method of playing millionaire party games.

(8) In all dice games, the size of the dice shall be a minimum of ¾ inch.

(9) The dealer shall stand on 17 and shall draw to 16 when dealing twenty-one or blackjack.

(10) When a raffle is conducted in conjunction with the millionaire party, the price of the raffle ticket shall not exceed $1.00. All tickets shall be preprinted, giving the name of the organization, prizes to be awarded, and date and location of the drawing. It shall include a place to record the name and address of the purchaser.

(11) The name of the owner shall be affixed to all gambling paraphernalia.

(12) The bureau of state lottery inspection label shall be affixed to all approved equipment.

History: 1954 ACS 94, p. 104, Eff. Jan. 19, 1978.

R 432.208 Millionaire party operation.

Rule 8. (1) Licensees holding a millionaire party license shall conduct only the type of games and use only the equipment authorized by rule of the commissioner.

(2) State lottery tickets may be sold before, after, and during millionaire party games if the organization is licensed to sell tickets on the premises where the millionaire party is being conducted.

(3) Only imitation money shall be used by the participants of a millionaire party. Chips may also be used as imitation money.

(4) When a millionaire party is conducted on premises licensed by the liquor control commission, the dispensing of alcoholic beverages and the use of property relative to the dispensing of alcoholic beverages are under the jurisdiction of the liquor control commission.

(5) Concession workers may be nonmembers of the licensed organization.

(6) Persons under 18 years of age shall not be permitted to wager.

(7) Organizations shall prominently display the notice that a person participating in the millionaire party games may not receive prizes having an aggregate value greater than $500.00 per occasion.

(8) When a millionaire party is conducted, all winners shall be determined, and all prizes awarded, within the time specified on the license.

(9) A wager may not be placed upon an athletic event or upon a game involving personal skill.

(10) A wager may not be placed on a contest other than a game of chance taking place at the location during the time approved for the event.

(11) Players in the game shall not be permitted to directly compete against each other, other than as participants in an auction sale or a raffle.

(12) Workers and operators may not play in millionaire party games in which they are working or assisting. Workers may play when not working, after paying admission fees and all other fees in the same manner as other players.

(13) Members of auxiliaries of licensed organizations may assist in the conduct of millionaire party games. An organization may use workers of another organization by special permission from the commissioner. This request shall be submitted in writing. Reimbursement for these workers shall not exceed the provision specified in R 432.212(3).

(14) A player shall not be permitted to sell or exchange imitation money for legal currency with another player.

History: 1954 ACS 94, p. 105, Eff. Jan. 19, 1978.

R 432.209 Prizes.

Rule 9. (1) Prizes may be distributed by participation in an auction sale or by placing a play money value on prizes that are displayed.

(2) The total value of all prizes offered or given on all games played on a single millionaire party occasion shall not exceed $2,000.00, excluding the cost of raffle prizes. A person participating in the event may not be awarded prizes having an aggregate value greater than $500.00. This limitation does not preclude another person or persons receiving a similar prize. Raffle prizes are not included in this restriction.

(3) For auditing purposes, the value of merchandise prizes awarded in a millionaire party is the cost to the licensee, or, if donated, its current cost price. The value of all prizes shall be included in the $2,000.00 maximum prize value for each occasion of a millionaire party.

(4) The current price of merchandise prizes donated to the licensee shall not be reported as an expenditure in the financial statement of the millionaire party operation. Such prizes shall be reported as donations on the financial report.

(5) Cash prizes shall not be awarded except as raffle prizes.

(6) State lottery tickets may be used as prizes.

History: 1954 ACS 94, p. 105, Eff. Jan. 19, 1978.

R 432.210 Advertising.

Rule 10. (1) Advertising shall include the complete name of the licensee and the purpose for which the net proceeds will be used, and shall give notice of the personal limitation of $500.00 in winnings.

(2) The millionaire party may be described in the licensee's advertisement as a Las Vegas party.

History: 1954 ACS 94, p. 106, Eff. Jan. 19, 1978.

R 432.211 Locations; rentals.

Rule 11. (1) Licensees may conduct a millionaire party only on the premises named on the license.

(2) Premises may not be rented or allowed to be used unless all of the terms and conditions of rental or use, including the rental of chairs, tables, janitor service, and security guard, are set forth in a written agreement submitted to, and approved by, the bureau.

(3) A fee beyond that which is the normal charge for rental of the premises, as set forth in the written agreement, shall not be charged, and a hall shall not be rented to a licensed organization on a percentage basis.

(4) A hall or premises owner, or an employee of the hall where the millionaire party is being conducted, shall not participate in the game as a worker or operator.

(5) A licensee shall not lend money to, or borrow money from, a landlord, or from a person who is connected with the landlord, either directly or indirectly.

(6) A landlord shall be paid only by check drawn on the checking account of the licensee. The payment shall be made within 48 hours following the party.

(7) Millionaire party equipment shall not be included in the rental of the premises.

History: 1954 ACS 94, p. 106, Eff. Jan. 19, 1978.

R 432.212 Disposition of proceeds; retention of documents; payment of operators and workers.

Rule 12. (1) The entire net proceeds of a millionaire party shall be devoted exclusively to the lawful purposes of the licensee. The following necessary and reasonable expenses incurred in connection with the conduct of the party may be paid:

(a) Rental of premises.
(b) Purchase or rental of supplies and equipment.
(c) Workers services, not to exceed $8.00 per occasion per worker.
(d) Janitorial services.
(e) Security services.
(f) License fee.
(g) Merchandise prizes.
(h) Advertising expenses.
(i) Miscellaneous supplies and any other related expenses.

(2) A report of all millionaire party transactions shall be filed on forms provided by the bureau by the fifteenth of the month following the month during which the party was held, and shall be kept by the licensee for not less than 6 years. All documents supporting the entries made in the report include, but are not limited to, canceled checks, deposit slips, and invoices for all expenditures.

(3) Bona fide members of a licensed organization, serving as millionaire party operators and workers, may be paid up to $8.00 for their services per occasion. Additional gratuities, such as free admission or extra play money shall not be granted.

History: 1954 ACS 94, p. 106, Eff. Jan. 19, 1978.

R 432.213 Supplier's license; eligibility; issuance; application; changes in information.

Rule 13. (1) The commissioner shall consider the following factors in determining the eligibility of an applicant for a supplier's license or for renewal of a supplier's license.

(a) The reputed honesty and integrity of the applicant.

(b) The veracity and accuracy of the information supplied in the application for a supplier's license.

(c) The applicant's indebtedness to the state or a local government.

(d) The business experience of the applicant and general fitness of the applicant.

(e) A pending lawsuit or bankruptcy proceeding involving or affecting the applicant.

(2) Supplier's licenses shall be issued only to:

(a) Corporations incorporated in this state or authorized to do business in this state.

(b) Partnerships in which at least 1 of the partners resides in this state.

(c) Unincorporated businesses or other entities which are authorized to do business in this state.

(3) Applicants for a supplier's license shall file an application for such license with the bureau on application forms which may be obtained from the bureau.

(4) Subsequent changes in the information given in the application shall be furnished immediately to the bureau.

History: 1954 ACS 94, p. 106, Eff. Jan. 19, 1978.

R 432.214 List of authorized representatives; list of products; information as to changes in personnel or equipment.

Rule 14. (1) A list of authorized representatives shall be furnished to the bureau, containing the following information:

(a) Names of sales representatives.

(b) Home and business addresses of sales representatives.

(c) Dates of birth and social security numbers of sales representatives.

(2) An itemized list of all products offered, or to be offered, for sale or rent to licensed millionaire party operators shall be filed with the bureau, including, but not limited to, the following:

(a) Catalogs, brochures, and advertising copy.

(b) Sale price or rental price at which merchandise is offered.

(3) All information regarding any changes in personnel or equipment shall be submitted to the bureau prior to change.

History: 1954 ACS 94, p. 107, Eff. Jan. 19, 1978.

R 432.215 Supplier's license; payment or refund of fee.

Rule 15. The fee for a bingo and millionaire party supplier's license shall be paid at the time the license application is submitted. If the application is rejected, the fee shall be refunded. A license renewal fee is charged annually, payable on or before the license expiration date on the last day of February.

History: 1954 ACS 94, p. 107, Eff. Jan. 19, 1978.

R 432.216 Supplier's license; conditions; display; forms.

Rule 16. (1) Upon issuance of a supplier's license, the licensee agrees to the following conditions:

(a) To maintain current and accurate records of all operations in conjunction with selling or renting bingo and millionaire party equipment in conformity with the act, and with the rules and directives of the bureau. The records shall be available to representatives of the bureau, upon request, for inspection or audit.

(b) That the supplier's license may be revoked or suspended, or its renewal rejected, whenever the applicant uses false or misleading information in obtaining a license, violates the act, or violates a rule or directive of the bureau.

(c) That he shall not attempt to assign or actually transfer the license.

(d) That all bureau-approved equipment shall be sold or rented only at the prices submitted to the bureau by the supplier. The name of the supplier shall be affixed to all gambling devices.

(e) To report any change in the information given in the application occurring after the issuance of the license to the bureau prior to change. Failure to report any change constitutes sufficient cause for denial of a pending license, or for suspension or revocation of a license which has been granted.

(f) To keep his books and records in up-to-date and adequate condition at all times to enable the bureau to determine the sale price and rental consideration of bingo and millionaire party equipment to licensed organizations, and any other information requested by the bureau.

(g) A licensed supplier or the authorized representative of a licensed supplier, during the term of a license, shall not sell or distribute equipment to other than organizations licensed to conduct bingo or millionaire parties, except by special permission of the commissioner.

(h) A licensed supplier or the authorized representative of a licensed supplier may not be present during the conduct of a millionaire party for the purpose of transacting business or demonstrating equipment for up to 1 hour before, and 1 hour after, the millionaire party games.

(i) A report of all millionaire party transactions shall be filed on forms provided by the bureau and submitted quarterly on the fifteenth day of the months of March, June, September, and December.

(2) The supplier's license shall be prominently displayed on the licensee's premises and made immediately accessible to authorized representatives of the bureau or to law enforcement personnel.

(3) The form of the supplier's license and supplier report forms shall be prescribed by the bureau.

(4) The supplier's license shall cover 1 specific business location. The location is determined by the address from which equipment is delivered or billed.

DEPARTMENT OF COMMERCE

LIQUOR CONTROL COMMISSION

RETAIL LICENSEES SELLING ALCOHOLIC BEVERAGES FOR CONSUMPTION ON PREMISES

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.7 of the Michigan Compiled Laws)

R 436.1 Minors.

Rule 1. (1) A licensee shall not allow any person under the age of 18 years to purchase, sell, serve, consume or have alcoholic liquor in his possession.

(2) A licensee shall not allow any person under the age of 18 years to work or entertain on a paid or voluntary basis on the licensed premises where alcoholic liquor is being served. This rule shall not apply where the person is under the direct supervision and control of his parent or guardian.

History: 1944 AC, p. 432; 1954 AC, p. 5301; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972.

R 436.2 Intoxicated persons.

Rule 2. No licensee shall sell or serve any alcoholic liquor to any person in an intoxicated condition. No licensee shall permit any person in an intoxicated condition to consume any alcoholic liquor upon the licensed premises.

No licensee shall be in an intoxicated condition upon the licensed premises or allow an intoxicated person to frequent, loiter or be employed upon the licensed premises.

History: 1944 AC, p. 432; 1944 ACS 30, p. 8; 1954 AC, p. 5301.

R 436.3 Improper conduct.

Rule 3. No licensee, his agent, or employee shall engage in any illegal occupation or illegal act on or beyond his licensed premises.

(a) No licensee, his agent, or employee shall refuse, fail or neglect to cooperate with any law enforcement officer in the performance of such officer's duties to enforce the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, and the rules promulgated thereunder.

(b) No licensee, his agent, or employee shall allow in or upon his licensed premises any improper conduct, disturbances, lewdness, immoral activities, indecent, profane or obscene language, songs, entertainment, literature, pictures or advertising material, or cause to have printed or distributed any lewd, immoral, indecent, or obscene literature, pictures or advertising material.

(c) No licensee, his agent or employee shall suffer or allow in or upon his licensed premises the annoying or molesting of patrons or employees by other patrons or employees, nor any accosting and/or soliciting for immoral purposes.

(d) No licensee, his agent, or employee shall permit his licensed premises to be frequented by or to become the meeting place, hangout, or rendezvous for known prostitutes, homosexuals, vagrants, or those who are known to engage in the use, sale or distribution of narcotics or in any other illegal occupation or business: provided, that no licensee shall be disciplined hereunder until he has been warned by the commission or the law enforcing agency having jurisdiction thereof, and has failed for a period of not more than 5 days to comply with the requirements of this rule.

History: 1944 AC, p. 432; 1944 ACS 14, p. 7; 1944 ACS 30, p. 8; 1954 AC, p. 5301; 1954 ACS 72, p. 77, Eff. Aug. 2, 1972.

R 436.4 Gambling and gaming.

Rule 4. (1) A licensee shall not allow unlawful gambling on the licensed premises.

(2) A licensee shall not allow any gambling devices on the licensed premises which are prohibited by the statutes of the state of Michigan.

History: 1944 AC, p. 432; 1944 ACS 5, p. 16; 1944 ACS 5, p. 19; 1944 ACS 12, p. 24; 1954 AC, p. 5301; 1954 ACS 23, p. 26, Eff. Aug. 12, 1960; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972; 1954 ACS 97, p. 82, Eff. Oct. 12, 1978.

R 436.5 Rescinded.

History: 1944 AC, p. 432; 1944 ACS 5, p. 17; 1944 ACS 12, p. 24; 1954 AC, p. 5302; rescinded 1954 ACS 87, p. 71, Eff. May 29, 1976.

R 436.6 Sanitation.

Rule 6. (1) All licensed establishments shall be equipped with hot and cold running water from a source approved by an authorized health department.

(2) General cleanliness:

(a) All bars, tables, counters, coolers, extra beer tap rods, refrigerators, and all other fixtures or equipment, and all basements, rooms or other places used to serve or store beer, wine or liquor, shall be kept in a clean and sanitary manner at all times.

(b) All beer coils, lines, barrels, tubes and any other draught beer equipment shall be thoroughly cleansed as often as may be necessary to keep them in a clean and sanitary condition. Beer shall not be drawn through tubes with rubber inner linings.

(c) All air intakes on pressure pumps used in drawing of draught beer shall be piped in such a manner that only clean air will be used.

(d) All open windows, doors and other openings to the outside shall be screened and protected against flies.

(3) Licensees and employees shall wear clean clothing and be clean about their person. No person who has an infectious disease in a communicable form, or who is a carrier of such an infectious disease, shall be employed where food or beverages are prepared, handled, stored, or served. (See section 470 of Act No. 328 of the Public Acts of 1931, being §750.470 of the Michigan Compiled Laws).

(4) Utensil cleansing:

(a) Equipment: All licensed establishments shall be equipped with 2 tanks and 1 power spray or 3 tanks for the purpose of washing, rinsing, disinfecting and sterilizing all bar and table service.

(b) All dishes, glasses, mugs, steins, cups and table service used in the serving of food or beverages shall be effectively washed and cleansed in clean hot water of not less than 110 degrees Fahrenheit. Such wash water shall contain an effective detergent or cleansing agent. Immediately after washing and before using, the dishes, glasses and other utensils shall be effectively sanitized.

(i) Effectively washed and cleansed dishes, glasses, and silverware or utensils shall be interpreted to mean that the dish, glass, silverware, or utensil is free of film and foreign material including lipstick, lipmarks and fingerprints on the food and lip contact areas. Discolorations, due to water spots, are considered undesirable, but do not constitute a violation of this rule.

(ii) Effectively sanitized dishes, glasses, silverware, or cooking utensils shall not exceed a bacterial count of 100 per unit, based upon the average count of at least 4 dishes, glasses, or other representative utensils. The bacterial count shall be determined by the standard plate count and swab method.

(c) Following sanitizing, all dishes, glasses, silverware, and utensils shall be drained in an inverted position on sanitary drain racks, trays or boards, with protection from flies, dust, and other contamination during storage.

(5) Toilets:

(a) All licensed establishments dispensing alcoholic beverages shall provide properly designated flush toilets for each sex. Such toilets shall be so constructed as to assure complete privacy as to segregation of sexes. Toilets shall be easily accessible, with no entrance through a kitchen or living quarters. Each toilet shall have outside ventilation, or be vented thereto (vents to be 6 inches in diameter).

(b) The minimum floor space of each toilet shall be 5 feet by 7 feet or 35 square feet. The floor of each toilet shall be made of a nonabsorbent material which shall extend 8 inches on the walls above the floor level and be equipped with a drain.

(c) Toilets for men shall have the following equipment: One wash bowl with running water, 1 intermittent or flush type wall urinal (minimum length 3 feet), 1 flush stool complete with cover (same to be segregated from urinal by a partition) for each 100 patrons based on seating capacity of establishment, individual sanitary towels, plenty of soap, sanitary toilet paper and a metal receptacle for accumulated waste.

(d) Toilets for women shall have the same equipment as for men except urinal, the amount of equipment to be determined the same as for men.

(e) All toilets and wash rooms, including walls, floors, ceilings and fixtures shall be kept in a clean and sanitary condition; walls and ceilings shall be painted with a light colored waterproof oil paint or enamel.

(6) The foregoing rules shall in no way be construed as to prevent any county, township, city or village from setting up by ordinance, more restrictive regulations governing such establishments within their jurisdiction.

(7) The sentences, sections and provisions of these rules are declared to be severable, and any portion which is declared inoperative for any reason by a court of competent jurisdiction shall in no way affect the remaining sentences, sections, or provisions of these rules.

History: 1944 AC, p. 432; 1944 ACS 5, p. 16; 1944 ACS 25, p. 8; 1954 AC, p. 5302.

R 436.7 Display of license, permit, and signs.

Rule 7. (1) All licenses, permits, and signs issued by the Michigan liquor control commission must be framed under glass and shall be prominently displayed in full view of the licensed premises.

(2) The licensee shall sign all licenses required to be signed by him before placing same on display as required herein.

History: 1944 AC, p. 432; 1954 AC, p. 5303.

R 436.8 Sale, possession, or consumption only of liquor covered by license.

Rule 8. (1) No licensee shall sell, offer or keep for sale, furnish or possess or permit any patron upon his premises to consume any alcoholic liquor except that which he is authorized to sell by his license.

(2) No licensee shall sell any alcoholic liquor for consumption off the premises unless he has been issued a license permitting such sale by the Michigan liquor control commission.

History: 1944 AC, p. 432; 1944 ACS 30, p. 9; 1954 AC, p. 5303.

R 436.9 Removal of liquor from premises.

Rule 9. No licensee shall permit alcoholic liquor sold for consumption on the premises to be removed therefrom. (Section 28 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended.)

History: 1944 AC, p. 433; 1954 AC, p. 5303.

R 436.10 Hours and days of operation.

Rule 10. (1) No licensee shall sell or serve any alcoholic beverages between the hours of 2:00 a.m. and 12:00 noon, on any Sunday, and no licensee shall sell or serve any alcoholic beverages between the hours of 2:00 a.m. and 7:00 a.m., on any other day, and the time herein specified shall be the legally established time for municipal affairs of the local community in which the licensed establishment is located.

(2) No licensee shall permit his premises to be occupied by persons other than himself or his bona fide employees from 2:30 a.m. to 12:00 noon on any Sunday or from 2:30 a.m. to 7:00 a.m. on any other day, unless such licensee shall first obtain a permit approved by the chief of police, sheriff or other chief law enforcing officer in his community and the liquor control commission authorizing such licensee to remain open for a stated specific purpose for such other hours and during such periods of time as the commission may determine. Such permit must be displayed adjacent to the liquor license. In the case of class "A" hotels, class "B" hotels, and clubs this section shall apply only to that portion of the premises wherein alcoholic beverages are served.

(3) No licensee shall sell, give away or furnish and no person shall knowingly and wilfully buy any spirits between the hours of 2:00 a.m. and 12:00 midnight on any Sunday, nor on any primary election day, general election day or municipal election day until after the polls are closed, or at any other time when sale of such spirits is prohibited in conformity with the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, or the rules promulgated thereunder. The legislative body of any city, village or township may prohibit the sale of all alcoholic beverages on any Sunday, legal holiday, primary election day, general election day or municipal election day. (Also see referendum provision section 18a of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, and see section 19, subsection 18, of the law for hours of operation at Christmastime.)

(4) No licensee shall accept the delivery of alcoholic liquor or permit the loading and removal of empty cases, kegs, barrels or bottles at his licensed premises on any Sunday.

(5) No licensee shall permit the consumption of spirits on his licensed premises between 2:30 a.m. and 12:00 midnight on any Sunday, nor the consumption of beer or wine under 16% alcohol by volume between the hours of 2:30 a.m. and 12:00 noon on any Sunday. No licensee shall permit the consumption of any alcoholic beverages upon his licensed premises between the hours of 2:30 a.m. and 7:00 a.m. on any other day. Further, no licensee shall permit the consumption of any alcoholic beverages upon his licensed premises at any other time when sale of such alcoholic beverages is prohibited in conformity with the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, or the rules promulgated thereunder.

(6) The provisions of this rule do not apply to consumption of alcoholic beverages in the bedrooms of bona fide guests of licensed hotels or in the bedrooms of bona fide members of licensed clubs.

History: 1944 AC, p. 433; 1944 ACS 3, p. 19; 1944 ACS 12, p. 24; 1944 ACS 30, p. 9; 1944 ACS 36, p. 29; 1954 AC, p. 5303; 1954 ACS 10, p. 228, Eff. June 14, 1957.

R 436.11 Back rooms.

Rule 11. No licensee other than a hotel or club shall have or maintain any rooms in connection with his licensed premises not open to the public or to observation from the main portion of his premises excepting rooms used for

toilets and kitchens. Further, no licensee shall have or permit any inside connection, entrance, doorway or aperture between his licensed premises and the premises of any other person, except where prior written approval for such connection, entrance, doorway or aperture has been granted by the liquor control commission in its discretion.

History: 1944 AC, p. 433; 1944 ACS 30, p. 10; 1944 ACS 36, p. 29; 1954 AC, p. 5304; 1954 ACS 9, p. 14, Eff. Feb. 14, 1957; 1954 ACS 23, p. 26, Eff. Aug. 12, 1960.

R 436.12 Living quarters.

Rule 12. No licensee other than a class "A" hotel, class "B" hotel or club licensee shall have living quarters or any room containing any equipment for living quarters connected with his licensed premises, and all entrances, doorways and other apertures between said licensed premises and living quarters must be securely and permanently sealed, unless permission is specifically granted by the liquor control commission in the form of a living quarters permit.

History: 1944 AC, p. 433; 1944 ACS 12, p. 25; 1944 ACS 25, p. 7; 1954 AC, p. 5304; 1954 ACS 23, p. 26, Eff. Aug. 12, 1960.

R 436.13 Illumination.

Rule 13. The minimum intensity of illumination prevailing in all parts of licensed establishments, at table-top level, shall be 1 footcandle; provided, however, that said rule shall not apply to cabarets during the actual floor shows or stage performances, and provided that during such floor shows or stage performances lights shall not be dimmed more than a total of 2 hours between 8:00 p.m. and 2:00 a.m.

History: 1944 AC, p. 433; 1944 ACS 5, p. 18; 1954 AC, p. 5304; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.14 Dancing, entertainment, and dance-entertainment permits.

Rule 14. (1) A licensee shall not permit or allow dancing upon the licensed premises unless the licensee shall have first obtained a dance permit. A licensee shall not permit or allow entertainment upon the licensed premises unless the licensee shall have first obtained an entertainment permit. Such permits shall be approved by the chief of police, sheriff, or other chief law enforcing officer in the local community, the local governing body, and the liquor control commission. Local governing body approval is not required in cities of 1,000,000 population or more. Dancing shall not be allowed under a dance permit unless there shall be a minimum floor space of 100 square feet in the establishment. Such dance space shall be well marked and defined and no tables or chairs or other obstacles shall be allowed during the time that dancing is permitted thereon. Dance or entertainment permits shall be displayed adjacent to the liquor license.

(2) Entertainment, such as dancing, monologues, dialogues, or other types of performing shall not be allowed in any licensed establishment unless the licensee shall have obtained an entertainment permit, except for orchestras, piano playing, and the playing of any other type of musical instruments or singers, or both.

(3) All entertainers shall comply with the labor laws of the state of Michigan.

(4) Disorderly conduct or lewd, obscene, or immoral language or exhibitions, dancing, or entertainment shall not be permitted.

(5) A licensee shall not allow smoking or drinking on the dance floor.

(6) If the licensee offers entertainment wherein performers are required to change costumes or attire, the licensee shall provide and make use of separate dressing facilities set aside for use of male and female performers. Public restrooms on the licensed premises shall not be used as the separate dressing facilities required by this subrule.

History: 1944 AC, p. 433; 1944 ACS 5, p. 17; 1944 ACS 12, p. 25; 1944 ACS 28, p. 16; 1944 ACS 32, p. 5; 1954 AC, p. 5304; 1954 ACS 97, p. 83, Eff. Oct. 12, 1978.

R 436.15 Employees mingling with patrons.

Rule 15. No licensee shall permit any person engaged in the serving of food or alcoholic liquor in his establishment to eat, drink, or mingle with the patrons.

History: 1944 AC, p. 433; 1954 AC, p. 5305.

R 436.16 Outdoor service.

Rule 16. Any licensee having tables out-of-doors may serve the type of alcoholic liquor permitted by his license at such tables, provided that such tables are immediately adjacent to the indoor premises.

History: 1944 AC, p. 433; 1954 AC, p. 5305.

R 436.17 Licensee only to operate under license.

Rule 17. No licensee shall permit the sale of alcoholic liquor upon any portion of his premises for which he may have leased, sold, or transferred the right of possession to another person not licensed by this commission.

History: 1944 AC, p. 433; 1954 AC, p. 5305.

R 436.18 Sale, possession, or consumption only of alcoholic liquor legally purchased.

Rule 18. (1) No licensee shall accept an original package of alcoholic liquor nor purchase or possess any alcoholic liquor which does not bear Michigan liquor control commission stamps.

(2) No licensee shall sell, offer or keep for sale, furnish or possess or permit any person upon his licensed premises to consume any spirits which have not been purchased by him or his authorized agent at his authorized state liquor store or any beer or wine which has not been purchased from a wholesaler, brewery or winery licensed by the Michigan liquor control commission, provided that the provision of this rule shall not apply to B-hotel licensees.

History: 1944 AC, p. 433; 1944 ACS 30, p. 10; 1954 AC, p. 5305; 1954 ACS 20, p. 15, Eff. Nov. 14, 1959.

R 436.19 Rescinded.

History: 1944 AC, p. 434; 1944 ACS 30, p. 10; 1954 AC, p. 5306; rescinded 1954 ACS 64, p. 55, Eff. Sept. 1, 1970.

R 436.19(1) Sales for cash only.

Rule 19(1). Every sale of alcoholic liquor made by licensee shall be for cash only, except customers' charge accounts with specially designated merchants, bona fide registered guests of hotels, passengers holding authorized credit cards from railroads or railroad credit bureaus, industrial accounts of class "C's" and taverns, whose major business is food, such credit not to exceed 30 days, and sales by private clubs to bona fide members thereof.

History: 1944 ACS 12, p. 25; 1954 AC, p. 5306; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.20 Reuse of bottles or containers.

Rule 20. No licensee shall use or allow the use of any bottle or container other than the original bottle or container in which alcoholic liquor was purchased, nor allow the use of any mark or label which does not clearly and truthfully represent the contents of said bottle or container.

History: 1944 AC, p. 434; 1954 AC, p. 5306.

R 436.21 Price list.

Rule 21. Every licensee shall have on his licensed premises, a printed list or menu showing the various types of alcoholic drinks which he offers for sale and the prices of such drinks shall be indicated thereon.

History: 1944 AC, p. 434; 1944 ACS 12, p. 25; 1944 ACS 30, p. 10; 1954 AC, p. 5306.

R 436.22 Beer on tap.

Rule 22. (1) All licensees shall place an unilluminated sign not less than 6 by 15 inches nor more than 22 by 28 inches in plain view on the premises stating the brands of beer on draught, and licensees shall serve only such brands as are requested by patrons.

(2) Brands of beer on draught shall also be indicated by tap markers, and no licensee shall draw from any tap any other brand of beer than that designated by the marker.

History: 1944 AC, p. 434; 1954 AC, p. 5306.

R 436.23 Advertising on licensed premises.

Rule 23. (1) No signs or other matter advertising any brand of alcoholic liquor shall be erected or placed upon the outside of any building occupied by any licensee licensed to sell alcoholic liquor at retail.

(2) The advertising of any particular brand of alcoholic liquor within the licensed premises of a retailer shall be limited to unilluminated signs of not to exceed 22 by 28 inches.

(3) Advertising of spirits on the premises of a retail licensee is prohibited.

History: 1944 AC, p. 434; 1954 AC, p. 5306.

R 436.24 Political advertising.

Rule 24. All political advertising designed to advance or promote the candidacy of any individual seeking public office at the hands of the electorate, such as posters, signs, placards, handbills, or any other matter purporting to bring the public's attention to such candidacy, except nominating petitions, is prohibited in licensed establishments.

History: 1944 AC, p. 434; 1954 AC, p. 5306.

R 436.25 Advertising by licensees.

Rule 25. (1) Any licensee may advertise the sale of alcoholic liquor sold by that licensee, but such advertising shall not specify or include the price at which any alcoholic liquor may be obtained at retail or the various brands sold.

(2) A retail licensee of the liquor control commission shall not advertise upon any article which has a utility or secondary use or purpose aside from its actual advertising value, nor shall any retail licensee give away any article or thing of value as advertising or in connection with the licensed business, except as provided in R 436.41. This rule does not apply to book matches, nor does it apply to ordinary calendars which can be used only for calendars and to which no article or thing of value is attached.

History: 1944 AC, p. 434; 1954 AC, p. 5306; 1954 ACS 97, p. 83, Eff. Oct. 12, 1978.

R 436.26 Assistance from other licensees.

Rule 26. No licensee or any agent or employee thereof shall accept any aid or assistance by gifts, loan or money, free merchandise, treats, discounts, premiums or rebates or property of any description or other valuable things, from any manufacturer, wholesaler, warehouseman, or their agents.

History: 1944 AC, p. 434; 1954 AC, p. 5307.

R 436.27 Contributions.

Rule 27. No manufacturer, wholesaler, warehouseman, specially designated distributor or any other licensee shall directly or indirectly make any contribution or donation of any kind to any other licensee or specially designated distributor, nor to any club, lodge, order, or any fraternal, social, patriotic or religious organization for tickets, grand openings, anniversaries or otherwise, and no licensee or specially designated distributor shall directly or indirectly solicit or accept any such contribution or donation.

History: 1944 AC, p. 434; 1954 AC, p. 5307.

R 436.28 Sales to registered truck drivers.

Rule 28. No licensee shall sell, give or furnish any alcoholic beverage to a registered truck driver employed by a licensed manufacturer, wholesaler or importer while such truck driver is on duty or in the course of his employment.

History: 1944 AC, p. 434; 1954 AC, p. 5307.

R 436.29 Transfer of license.

Rule 29. (1) No licensee shall sell or transfer his license, or any interest therein, without the consent of the liquor control commission. Nor shall any person or persons obtain a license in his or their name for the use and benefit of another person whose name does not appear on the license.

(2) No licensee shall transfer location of his license, nor make any alterations in the physical structure of his licensed premises, nor install any additional bars, without the consent of the liquor control commission being first duly obtained.

History: 1944 AC, p. 435; 1944 ACS 12, p. 25; 1954 AC, p. 5307.

R 436.30 Licensed premises.

Rule 30. Licensed premises shall be construed to mean any and all portions of any building or structure, rooms or enclosures therein, or real estate leased, used, controlled and/or operated by a licensee in the conduct of the business for which he is licensed by the commission at the address for which the license is issued.

History: 1944 ACS 12, p. 25; 1954 AC, p. 5307.

R 436.31 Storage of alcoholic beverages off the licensed premises prohibited.

Rule 31. No licensee shall permit alcoholic beverages to be kept or stored upon any premises other than those licensed and under the control of the Michigan liquor control commission without the consent of said commission being first duly obtained in writing.

History: 1944 ACS 12, p. 25; 1944 ACS 30, p. 10; 1954 AC, p. 5307.

R 436.32 Inspections and audits.

Rule 32. The premises of any licensee shall be open at all reasonable times for the inspection of auditors, accountants, inspectors and other law enforcement agencies, and all stocks and books and records appertaining to the business of the licensee shall likewise be available for examination and inspection by such officers and agents at all reasonable times.

History: 1944 ACS 12, p. 25; 1954 AC, p. 5307.

R 436.33 Orders of commission.

Rule 33. No licensee shall fail, refuse or neglect to obey any written order of the commission issued relative to the operation of his licensed establishment.

History: 1944 ACS 30, p. 10; 1954 AC, p. 5308.

R 436.34 Public notice of suspension.

Rule 34. At the time of the suspension of any license by the commission there shall be placed in a conspicuous place in the front door or window of the licensed establishment, a placard furnished by the commission showing that the license of that establishment has been suspended by the commission and such placard shall also show the number of days and the reason for the suspension. No licensee shall remove, alter, obscure or destroy said placard.

History: 1944 ACS 30, p. 10; 1954 AC, p. 5308.

R 436.35 Sales prohibited during period of suspension.

Rule 35. No licensee shall sell, serve, or allow consumption of any alcoholic beverages upon the licensed premises during the period his license is suspended by the commission.

History: 1944 ACS 30, p. 11; 1954 AC, p. 5308.

R 436.36 Capacity of establishments.

Rule 36. (1) A licensee shall post in a conspicuous place a sign stating the total capacity of each public room of the licensed establishment.

(2) Total capacity of each public room shall be determined by the following method:

(a) Where tables or booths are provided, there shall be no more than 1 customer for each 15 square feet of total area.

(b) Where tables or booths are not used, there shall be no more than 1 customer for each 6 square feet of total area.

(c) Where there is a combination of tables or booths and an open area, the provisions of both subdivisions (a) and (b) shall be used.

(d) Where seating is provided at a bar, there shall be no more than 1 seat for each 20 inches of bar length.

History: 1954 ACS 87, p. 71, Eff. May 29, 1976.

R 436.37 Nudity prohibited; applicability to electronic reproduction.

Rule 37. (1) An on-premise licensee shall not suffer or allow in or upon the licensed premises a person who exposes to public view the pubic region, anus, or genitals, as well as other types of nudity prohibited by statute or local ordinance.

(2) An on-premise licensee shall not suffer or allow in or upon the licensed premises the showing of films, television, slides, or other electronic reproduction depicting scenes wherein any person exposes to public view the pubic region, anus, or genitals, as well as other types of nudity prohibited by statute or local ordinance. This prohibition shall not apply to any publicly broadcast television transmission from a federally licensed station.

History: 1954 ACS 93, p. 43, Eff. Nov. 15, 1977.

R 436.39 Explicit sexual activity prohibited; applicability to electronic reproduction.

Rule 39. (1) An on-premise licensee shall not suffer or allow in or upon the licensed premises a person who performs, or simulates performance of, the following explicit sexual activities: sexual intercourse, masturbation, sodomy, bestiality, fellatio, or cunnilingus.

(2) An on-premise licensee shall not suffer or allow in or upon the licensed premises the showing of films, television, slides, or other electronic reproduction depicting scenes wherein a person performs, or simulates performance of, the following explicit sexual activities: sexual intercourse, masturbation, sodomy,

bestiality, fellatio, or cunnilingus. This prohibition shall not apply to any publicly broadcast television transmission from a federally licensed station.

History: 1954 ACS 93, p. 43, Eff. Nov. 15, 1977.

R 436.41 Contests; tournaments.

Rule 41. (1) An on-premise licensee shall not do any of the following:

(a) Allow contests in conjunction with dancing or entertainment in which the licensee gives away anything of value in excess of $50.00 per day, except upon written order of the commission.

(b) Accept or retain anything of value from a person in exchange for sponsoring or promoting a contest or tournament.

(2) An on-premise licensee shall not allow any of the following:

(a) A contest or tournament of any kind in which the sale, use, or consumption of alcoholic liquor is a necessary part of the contest or tournament.

(b) A contest or tournament of any kind in which alcoholic liquor is given as a prize to the participants of the contest or tournament.

History: 1944 AC, p. 435; 1944 ACS 12, p. 28; 1944 ACS 30, p. 11; 1954 AC, p. 5308; rescinded 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

RETAIL LICENSEES SELLING BEER AND WINE FOR CONSUMPTION OFF PREMISES

(By authority of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws)

R 436.51 Explanation of duties of licensee.

Rule 1. (1) Definition: "Specially designated merchant" to mean any person to whom the commission grants a license to sell beer and/or wine containing not more than 16% of alcohol by volume at retail for consumption off the premises.

(2) Sale and delivery only from licensed premises: No specially designated merchant may take orders for beer or wine and have delivery of same made to the purchaser by the wholesaler or brewery. All alcoholic beverages must be sold and/or delivered from the stock carried on his licensed premises.

(3) Size of containers permitted: No specially designated merchant shall have on his licensed premises, quarter barrels, half barrels or barrels of beer, unless such specially designated merchant shall have installed in his licensed establishment proper cooling equipment for the storage of such quarter barrels, half barrels or barrels of beer. No specially designated merchant shall have bottles or containers of wine of a capacity of greater than 1 gallon on his licensed premises.

(4) Open bottles of beer or wine: Specially designated merchants shall not permit on their licensed premises, any bottles of beer or wine which have been opened; nor shall such licensees open or uncap bottles for purchasers.

(5) Consumption on licensed premises forbidden: Specially designated merchants shall not permit the consumption of beer and/or wine on their licensed premises.

(6) Licenses for the sale of beer and wine for consumption off the premises are intended to be retail outlets for persons desiring to purchase beer and wine for home consumption. The law does not intend that these licensees should provide places on their premises for customers to drink beer and/or wine, nor that such liquor should be consumed on the public highways or adjacent property. Therefore, it is regarded as evidence of a violation of the provisions of these licenses for the retailer to furnish bottle openers, or to uncap bottles for purchasers, or to permit the consumption of the alcoholic liquor purchased, on or adjacent to the premises of the licensee.

History: 1944 AC, p. 435; 1944 ACS 12, p. 28; 1944 ACS 38, p. 33; 1954 AC, p. 5308; 1954 ACS 9, p. 14, Eff. Feb. 14, 1957.

R 436.52 Minors.

Rule 2. (1) A licensee shall not allow any person under the age of 18 years to purchase, sell, serve, consume or have alcoholic liquor in his possession.

(2) A licensee shall not allow any person under the age of 18 years to work or entertain on a paid or voluntary basis on the licensed premises where alcoholic liquor is being served. This rule shall not apply where the person is under the direct supervision and control of his parent or guardian.

History: 1944 AC, p. 435; 1954 AC, p. 5309; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972.

R 436.53 Intoxicated persons.

Rule 3. (1) No licensee shall sell any alcoholic liquor to any person in an intoxicated condition.

(2) No licensee shall be in an intoxicated condition upon the licensed premises or allow an intoxicated person to frequent, loiter, or be employed on the licensed premises.

History: 1944 AC, p. 435; 1944 ACS 30, p. 14; 1954 AC, p. 5309.

R 436.54 Improper conduct.

Rule 4. (1) No licensee, his agent, or employee shall engage in any illegal occupation or illegal act on or beyond his licensed premises.

(2) No licensee, his agent, or employee shall refuse, fail or neglect to cooperate with any law enforcement officer in the performance of such officer's duties to enforce the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, and the rules promulgated thereunder.

(3) No licensee, his agent, or employee shall allow in or upon his licensed premises any improper conduct, disturbances, lewdness, immoral activities, indecent, profane or obscene language, songs, entertainment, literature, pictures or advertising material, or cause to have printed or distributed any lewd, immoral, indecent, or obscene literature, pictures or advertising material.

(4) No licensee, his agent or employee shall suffer or allow in or upon his licensed premises the annoying or molesting of patrons or employees by other patrons or employees, nor any accosting and/or soliciting for immoral purposes.

(5) No licensee, his agent, or employee shall permit his licensed premises to be frequented by or to become the meeting place, hangout, or rendezvous for known prostitutes, homosexuals, vagrants, or those who are known to engage in the use, sale or distribution of narcotics or in any other illegal occupation or business, provided, that no licensee shall be disciplined hereunder until he has been warned by the commission or the law enforcing agency having jurisdiction thereof, and has failed for a period of not more than 5 days to comply with the requirements of this rule.

History: 1944 AC, p. 435; 1944 ACS 14, p. 8; 1944 ACS 30, p. 14; 1954 AC, p. 5309.

R 436.55 Gambling and gaming.

Rule 5. A licensee shall not allow in the licensed premises slot machines, baffle boards, punch or pull boards or dice games or gambling or gaming devices or paraphernalia of any kind or gambling or gaming of any kind.

History: 1944 AC, p. 435; 1944 ACS 5, p. 18; 1944 ACS 5, p. 19; 1944 ACS 12, p. 28; 1954 AC, p. 5309; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972.

R 436.56 Display of license, permit, and signs.

Rule 6. (1) All licenses, permits, and signs issued by the Michigan liquor control commission must be framed under glass and shall be prominently displayed in full view of the licensed premises.

(2) The licensee shall sign all licenses required to be signed by him before placing same on display as required herein.

History: 1944 AC, p. 435; 1954 AC, p. 5309.

R 436.57 Sale, possession only of liquor covered by license.

Rule 7. No licensee shall sell, offer or keep for sale, furnish or possess any alcoholic liquor except that which he is authorized to sell by his license.

History: 1944 AC, p. 436; 1954 AC, p. 5310.

R 436.58 Hours and days of operation.

Rule 8. (1) No licensee shall sell, make delivery or transfer possession of any alcoholic beverages between the hours of 2:00 a.m. and 12:00 noon, on any Sunday, or between the hours of 2:00 a.m. and 7:00 a.m., on any other day. Further, no licensee shall sell, make delivery or transfer possession of any alcoholic beverages at any other time when sale of such alcoholic beverages is prohibited in conformity with the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws, or the rules promulgated thereunder.

(2) The legislative body of any city, village or township may, by resolution or ordinance, prohibit the sale of alcoholic beverages on any Sunday, legal holiday, primary election day, general election day or municipal election day. (For referendum provision see section 18a of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.18a of the Michigan Compiled Laws. See section 19e of the law for hours of operation at Christmastime.)

History: 1944 AC, p. 436; 1944 ACS 12, p. 27; 1944 ACS 15, p. 7; 1944 ACS 30, p. 14; 1954 AC, p. 5310; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.59 Deliveries on Sunday.

Rule 9. No licensee shall accept the delivery of alcoholic liquor or permit the loading and removal of empty cases, kegs, barrels or bottles at his licensed premises on Sunday.

History: 1944 AC, p. 436; 1954 AC, p. 5310.

R 436.60 Connection with premises of another person.

Rule 10. No licensee shall have or permit any inside connection, entrance, doorway or aperture between his licensed premises and the premises of any other person, except where prior written approval for such connection, entrance, doorway or aperture has been granted by the liquor control commission.

History: 1944 AC, p. 436; 1944 ACS 30, p. 14; 1944 ACS 39, p. 13; 1954 AC, p. 5310; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.61 Living quarters.

Rule 11. No licensee shall have living quarters or any room containing any equipment for living quarters connected with his licensed premises, and all entrances, doorways and other apertures between said licensed premises and living quarters must be securely and permanently sealed, unless permission is specifically granted by the liquor control commission in the form of a living quarters permit.

History: 1944 AC, p. 436; 1944 ACS 12, p. 27; 1954 AC, p. 5310; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.63 Licensee only to operate under license.

Rule 13. No licensee shall permit the sale of alcoholic liquor upon any portion of his premises for which he may have leased, sold, or transferred the right of possession to another person not licensed by this commision.

History: 1944 AC, p. 436; 1954 AC, p. 5310.

R 436.64 Sale or possession only of alcoholic liquor legally purchased.

Rule 14. (1) No licensee shall accept an original package of alcoholic liquor nor purchase or possess any alcoholic liquor which does not bear Michigan liquor control commission stamps.

(2) No licensee shall sell, offer or keep for sale, furnish or possess any alcoholic liquor which has not been purchased by him or his authorized agent from a wholesaler, brewery or winery licensed by the Michigan liquor control commission.

History: 1944 AC, p. 436; 1944 ACS 30, p. 15; 1954 AC, p. 5310.

R 436.65 Rescinded.

History: 1944 AC, p. 436; 1944 ACS 30, p. 15; 1954 AC, p. 5310; rescinded 1954 ACS 64, p. 55, Eff. Sept. 1, 1970.

R 436.66 Reuse of bottles or containers.

Rule 16. No licensee shall use or allow the use of any bottle or container other than the original bottle or container in which alcoholic liquor was purchased, nor allow the use of any mark or label which does not clearly and truthfully represent the contents of said bottle or container.

History: 1944 AC, p. 436; 1954 AC, p. 5311.

R 436.67(1) Sales for cash only.

Rule 17(1). Every sale of alcoholic liquor made by a licensee shall be for cash only, except customers' charge accounts with specially designated merchants.

History: 1944 ACS 12, p. 27; 1954 AC, p. 5311.

R 436.67(2) Political advertising.

Rule 17(2). All political advertising designed to advance or promote the candidacy of any individual seeking public office at the hands of the electorate, such as posters, signs, placards, handbills, or any other matter purporting to bring the public's attention to such candidacy, except nominating petitions, is prohibited in licensed establishments.

History: 1944 ACS 12, p. 27; 1954 AC, p. 5311.

R 436.68 Advertising on licensed premises.

Rule 18. (1) No signs or other matter advertising any brand of alcoholic liquor shall be erected or placed upon the outside of any building occupied by any licensee licensed to sell alcoholic liquor at retail.

(2) The advertising of any particular brand of beer or wine within the licensed premises of a retailer shall be limited to unilluminated signs of not to exceed 22 by 28 inches. Advertising of spirits on the premises of a retail licensee is prohibited.

(3) Retail licensees selling beer and/or wine of an alcoholic content of less than 16% by volume, for consumption off the premises may display such beer and/or wine within their licensed premises, but no beer or wine may be displayed in the windows of such premises.

History: 1944 AC, p. 436; 1954 AC, p. 5311.

R 436.69 Advertising by licensees.

Rule 19. (1) Any licensee may advertise the sale of alcoholic liquor sold by him but such advertising shall not specify or include the price, or any reference thereto, at which any alcoholic liquor may be obtained at retail nor the various brands sold. Such advertising shall not offer any prize for the completion of any contest.

(2) No retail licensee of the liquor control commission shall advertise upon any article which has a utility or secondary use or purpose aside from its actual advertising value, nor shall any retail licensee give away any article or thing of value as advertising or in connection with his business if the purpose of such advertising or merchandising is designed to stimulate or increase the sale of alcoholic liquors; provided, however, that this rule shall not apply to book matches, nor to ordinary calendars which can be used only for calendars and to which no article or thing of value is attached.

History: 1944 AC, p. 436; 1944 ACS 28, p. 16; 1954 AC, p. 5311.

R 436.70 Assistance from other licensees.

Rule 20. No licensee shall accept any aid or assistance by gifts, loan of money, free merchandise, treats, discounts, premiums or rebates or property of any description or other valuable things, from any manufacturer, wholesaler, or warehouseman.

History: 1944 AC, p. 437; 1944 ACS 30, p. 15; 1954 AC, p. 5312.

R 436.71 Contributions.

Rule 21. No manufacturer, wholesaler, warehouseman, specially designated distributor or any other licensee shall directly or indirectly make any contribution or donation of any kind to any other licensee or specially designated distributor, nor to any club, lodge, order, or any fraternal, social, patriotic or religious organization for tickets, grand openings, anniversaries or otherwise, and no licensee or specially designated distributor shall directly or indirectly solicit or accept any such contribution or donation.

History: 1944 AC, p. 437; 1954 AC, p. 5312.

R 436.73 Transfer of license.

Rule 23. No licensee shall sell or transfer his license, or any interest therein, without the consent of the liquor control commission; nor shall any person or persons obtain a license in his or their name for the use and benefit of another person whose name does not appear on the license. No licensee shall transfer location of his license, make any alterations in the physical structure of his licensed premises, or change the character of the business for which the license was granted without the consent of the commission being first duly obtained.

History: 1944 AC, p. 437; 1944 ACS 12, p. 27; 1944 ACS 30, p. 15; 1954 AC, p. 5312.

R 436.74 Licensed premises.

Rule 24. Licensed premises shall be construed to mean any and all portions of any building or structure, rooms or enclosures therein, or real estate leased, used, controlled and/or operated by a licensee in the conduct of the business for which he is licensed by the commission at the address for which the license is issued.

History: 1944 ACS 12, p. 27; 1954 AC, p. 5312.

R 436.75 Storage of alcoholic beverages off the licensed premises prohibited.

Rule 25. No licensee shall permit alcoholic beverages to be kept or stored upon any premises other than those licensed and under the control of the Michigan liquor control commission without the consent of said commission being first duly obtained in writing; nor shall any licensee store empty or full cases or containers in front of his licensed establishment.

History: 1944 ACS 12, p. 27; 1944 ACS 30, p. 15; 1954 AC, p. 5312.

R 436.76 Inspections and audits.

Rule 26. The premises of any licensee shall be open at all reasonable times for the inspection of auditors, accountants, inspectors and other law enforcement agencies, and all stocks and books and records appertaining to the business of the licensee shall likewise be available for examination and inspection by such officers and agents at all reasonable times.

History: 1944 ACS 12, p. 28; 1954 AC, p. 5312.

R 436.77 Delivery to purchaser.

Rule 27. Specially designated merchants may make deliveries of the alcoholic liquors permitted to be sold under the terms of their license from their stores to the residence or other location of a purchaser; provided, however, that no such delivery shall be made into the hands of a person less than 21 years of age nor payment therefor accepted from such a person.

History: 1944 ACS 12, p. 28; 1954 AC, p. 5312.

R 436.78 Orders of commission.

Rule 28. No licensee shall fail, refuse or neglect to obey any written order of the commission issued relative to the operation of his licensed establishment.

History: 1944 ACS 30, p. 15; 1954 AC, p. 5312.

R 436.79 Public notice of suspension.

Rule 29. At the time of the suspension of any license by the commission there shall be placed in a conspicuous place in the front door or window of the licensed establishment, a placard furnished by the commission showing that the license of that establishment has been suspended by the commission and such placard shall also show the number of days and the reason for the suspension. No licensee shall remove, alter, obscure or destroy said placard.

History: 1944 ACS 30, p. 15; 1954 AC, p. 5313.

R 436.80 Sales prohibited during period of suspension.

Rule 30. No licensee shall sell any alcoholic beverages during the period his license is suspended by the commission.

History: 1944 ACS 30, p. 16; 1954 AC, p. 5313.

R 436.81 Containers or carriers.

Rule 31. No licensee shall permit any alcoholic beverage to be removed from his licensed premises in any container or carrier other than those provided by the manufacturer for such alcoholic beverage. This prohibition shall not apply to paper bags customarily furnished by the retailer.

History: 1954 ACS 28, p. 37, Eff. May 15, 1961.

R 436.90 Rescinded.

History: 1944 AC, p. 437; 1944 ACS 12, p. 28; 1944 ACS 30, p. 16; 1954 AC, p. 5313; rescinded 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

SPECIALLY DESIGNATED DISTRIBUTORS SELLING SPIRITS FOR CONSUMPTION OFF PREMISES

(By authority of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws)

R 436.91 Definition.

Rule 1. "Specially designated distributor" to mean a person engaged in an established business licensed by the commission to distribute alcoholic liquor other than wine under 16% alcohol by volume and beer in the original package for the commission for consumption off the premises.

History: 1944 ACS 12, p. 19; 1954 AC, p. 5313.

R 436.92 Purchase of liquor from commission only.

Rule 2. All liquors must be purchased from state liquor stores for cash and on such purchases specially designated distributors shall be allowed a discount of 10% deducted from the sale price as established by the commission.

History: 1944 ACS 12, p. 19; 1954 AC, p. 5313.

R 436.93 Prices fixed by commission.

Rule 3. (1) A specially designated distributor must sell alcoholic liquor at a price fixed by the commission and in accordance with the rules of the commission.

(2) The prices of alcoholic liquor sold at retail in state liquor stores and by specially designated distributors shall be uniform.

History: 1944 ACS 12, p. 19; 1954 AC, p. 5313.

R 436.94 Transportation of liquor.

Rule 4. Specially designated distributors shall transport their liquor from the state stores to their establishments either personally or by a delivery service designated by the commission.

History: 1944 ACS 12, p. 19; 1954 AC, p. 5313.

R 436.95 Sales for cash.

Rule 5. All alcoholic liquor shall be sold for cash only.

History: 1944 ACS 12, p. 19; 1954 AC, p. 5314.

R 436.96 Sale and delivery only from licensed premises.

Rule 6. No specially designated distributor may take orders for alcoholic liquor and have delivery of same made to the purchaser from the state liquor store. All alcoholic liquor sold and/or delivered must be from the stock carried on his licensed premises.

History: 1944 ACS 12, p. 19; 1944 ACS 38, p. 33; 1954 AC, p. 5314.

R 436.97 Delivery to purchaser.

Rule 7. Specially designated distributors shall make no deliveries of alcoholic spirits from their stores to the residence or other location of a purchaser, unless the purchaser thereof shall have appeared and placed such order in person and made payment for same at the licensee's establishment. Deliveries shall not be made into the hands of a person less than 21 years of age.

History: 1944 ACS 12, p. 19; 1944 ACS 30, p. 11; 1954 AC, p. 5314.

R 436.98 Sale, possession only of liquor covered by license.

Rule 8. No specially designated distributor shall sell or have in his possession on the licensed premises any alcoholic liquors except those purchased from the liquor control commission for resale unless such specially designated distributor is also a specially designated merchant, in which case he may sell and display beer

and wine having an alcoholic content of 16% by volume or less in accordance with the rules governing specially designated merchants.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5314.

R 436.99 Stock of liquors.

Rule 9. Specially designated distributors shall carry a representative stock of all types of alcoholic liquor sold by the commission.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5314.

R 436.100 Storage of liquor off the licensed premises prohibited.

Rule 10. No licensee shall permit alcoholic beverages to be kept or stored upon any premises other than those licensed and under the control of the liquor control commission without the consent of said commission being first duly obtained in writing.

History: 1944 ACS 12, p. 20; 1944 ACS 30, p. 11; 1954 AC, p. 5314.

R 436.101 Displays of liquor.

Rule 11. Specially designated distributors may place only 1 bottle of each brand and size on display. Where space is limited, reserve stock may be placed in line directly in back of the front display bottle, so that just 1 bottle of each size and brand is in view of the customers. Displays of alcoholic liquor in the window or in back of a soda bar are prohibited.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5314; 1954 ACS 23, p. 27, Eff. Aug. 12, 1960.

R 436.102 Open bottles of liquor.

Rule 12. Specially designated distributors shall not permit on their licensed premises any bottles of alcoholic liquor on which the seal has been broken.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5314.

R 436.103 Reuse of bottles or containers.

Rule 13. No specially designated distributor shall use or allow the use of any bottle or container other than the original bottle or container in which alcoholic liquor was purchased, nor allow the use of any mark or label which does not clearly and truthfully represent the contents of said bottle or container.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5314.

R 436.104 Display of license; permit.

Rule 14. (1) All licenses and permits issued by the Michigan liquor control commission must be framed under glass and shall be prominently displayed in full view on the licensed premises.

(2) The licensee shall sign all licenses required to be signed by him before placing same on display as required herein.

History: 1944 ACS 12, p. 20; 1954 AC, p. 5315.

R 436.105 Price list.

Rule 15. Specially designated distributors shall place conspicuously upon their licensed premises, the current printed price book furnished by the liquor control commission in which all alcoholic liquors sold by state liquor stores and by specially designated distributors and the prices thereof are indicated.

History: 1944 ACS 12, p. 20; 1944 ACS 30, p. 11; 1954 AC, p. 5315.

R 436.106 Advertising by licensees.

Rule 16. (1) No specially designated distributor shall display or distribute any reading matter not furnished or authorized by the commission, nor any sample labels, packages, novelties or other advertising matter or equipment relating to any alcoholic liquors.

(2) No liquor advertising signs shall be displayed by a specially designated distributor on the exterior of his establishment except those signs which are furnished or approved by the commission. No such signs approved by the commission may be used in conjunction with any other outside sign.

(3) The only signs allowed to be displayed on the inside of the establishment of a specially designated distributor are those furnished or approved by the commission, which may be placed in the display window or door glass of the establishment.

(4) Any licensee may advertise the sale of alcoholic liquor sold by him, but such advertising shall not specify or include the price, or any reference thereto, at which any alcoholic liquor may be obtained at retail nor the various brands sold. Such advertising shall not offer any prize for the completion of any contest.

(5) No retail licensee of the liquor control commission shall advertise upon any article which has a utility or secondary use or purpose aside from its actual advertising value, nor shall any retail licensee give away any article or thing of value as advertising or in connection with his business if the purpose of such advertising or merchandising is designed to stimulate or increase the sale of alcoholic liquors; provided, however, that this regulation shall not apply to book matches, nor to ordinary calendars which can be used only for calendars and to which no article or thing of value is attached.

(6) No type of seasonal advertising of alcoholic liquor nor any decorative carton, container, wrapper, tag or similar accessory for alcoholic liquor shall use as part of its copy or subject matter any reference to holy days, nor any religious picture or religious symbol commonly associated with such day. No such advertising, carton, container, wrapper, tag or similar accessory shall depict the decorated Christmas tree, reindeer, Santa Claus or gifts at a fireplace, nor shall the words: "Easter, Christmas, Noel, Yule, Santa Claus or St. Nicholas" or derivations or contractions thereof be used in connection therewith.

(7) Advertising material which in any way associates juveniles with alcoholic liquor is prohibited.

History: 1944 ACS 12, p. 20; 1944 ACS 25, p. 6; 1944 ACS 28, p. 16; 1944 ACS 39, p. 12; 1954 AC, p. 5315.

R 436.107 Political advertising.

Rule 17. All political advertising designed to advance or promote the candidacy of any individual seeking public office at the hands of the electorate, such as posters, signs, placards, handbills, or any other matter purporting to bring the public's attention to such candidacy, except nominating petitions, is prohibited in licensed establishments.

History: 1944 ACS 12, p. 21; 1954 AC, p. 5315.

R 436.108 Definition of licensed premises.

Rule 18. Licensed premises shall be construed to mean any and all portions of any building or structure, rooms or enclosures therein, or real estate leased, used, controlled and/or operated by a licensee in the conduct of the business for which he is licensed by the commission at the address for which the license is issued.

History: 1944 ACS 12, p. 21; 1954 AC, p. 5315.

R 436.109 Living quarters.

Rule 19. No licensee shall have rooms or equipment for living quarters connected with his licensed establishment and all entrances, doorways and other apertures between said licensed premises and living quarters must be securely and permanently sealed, unless permission is specifically granted by the liquor control commission in the form of a living quarters permit.

History: 1944 ACS 12, p. 21; 1954 AC, p. 5316; 1954 ACS 23, p. 28, Eff. Aug. 12, 1960.

R 436.110 Connection with premises of another person.

Rule 20. No licensee shall have or permit any inside connection, entrance, doorway or aperture between his licensed premises and the premises of any other person, except where prior written approval for such connection, entrance, doorway or aperture has been granted by the liquor control commission.

History: 1944 ACS 12, p. 21; 1944 ACS 30, p. 11; 1944 ACS 39, p. 13, 1954 AC, p. 5316; 1954 ACS 23, p. 28, Eff. Aug. 12, 1960.

R 436.111 Hours and days of operation.

Rule 21. No specially designated distributor shall sell at retail, give away, furnish or transfer possession of any spirits between the hours of 11:00 p.m. and 7:00 a.m. on any day; provided that spirits shall not be sold at retail, given away or furnished on any Sunday, nor on any primary election day, general election day or municipal election day until after the polls are closed; and provided further that spirits shall not be sold at any other time when the sale of such spirits is prohibited in conformity with the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, or the rules promulgated thereunder. (See section 19, subsection 18 of the liquor control act for hours of operation at Christmastime.)

History: 1944 ACS 12, p. 21; 1944 ACS 30, p. 12; 1954 AC, p. 5316.

R 436.112 Minors.

Rule 22. (1) A licensee shall not allow any person under the age of 18 years to purchase, sell, serve, consume or have alcoholic liquor in his possession.

(2) A licensee shall not allow any person under the age of 18 years to work or entertain on a paid or voluntary basis on the licensed premises where alcoholic liquor is being served. This rule shall not apply where the person is under the direct supervision and control of his parent or guardian.

History: 1944 ACS 12, p. 21, 1954 AC, p. 5316; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972.

R 436.113 Intoxicated persons.

Rule 23. (1) No specially designated distributor shall sell any alcoholic liquor to any person in an intoxicated condition.

(2) No licensee shall be in an intoxicated condition upon the licensed premises or allow an intoxicated person to frequent, loiter or be employed upon the licensed premises.

History: 1944 ACS 12, p. 21; 1944 ACS 30, p. 12; 1954 AC, p. 5316.

R 436.114 Liability of licensee for sale to minors or intoxicated persons.

Rule 24. In connection with R 436.112 and R 436.113 above set forth, the liability of the licensee as set forth in section 22 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, should be carefully noted.

History: 1944 ACS 12, p. 21; 1954 AC, p. 5316.

R 436.115 Improper conduct.

Rule 25. (1) No licensee, his agent, or employee shall engage in any illegal occupation or illegal act on or beyond his licensed premises.

(2) No licensee, his agent, or employee shall refuse, fail or neglect to cooperate with any law enforcement officer in the performance of such officer's duties to enforce the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, and the rules promulgated thereunder.

(3) No licensee, his agent, or employee shall allow in or upon his licensed premises any improper conduct, disturbances, lewdness, immoral activities, indecent, profane or obscene language, songs, entertainment, literature, pictures or advertising material, or cause to have printed or distributed any lewd, immoral, indecent, or obscene literature, pictures or advertising material.

(4) No licensee, his agent, or employee shall suffer or allow in or upon his licensed premises the annoying or molesting of patrons or employees by other patrons or employees, nor any accosting and/or soliciting for immoral purposes.

(5) No licensee, his agent, or employee shall permit his licensed premises to be frequented by or to become the meeting place, hangout, or rendezvous for known prostitutes, homosexuals, vagrants, or those who are known to engage in the use, sale or distribution or narcotics or in any other illegal occupation or business, provided that no licensee shall be disciplined hereunder until he has been warned by the commission or the law enforcing agency having jurisdiction thereof, and has failed for a period of not more than 5 days to comply with the requirements of this rule.

History: 1944 ACS 12, p. 22; 1944 ACS 14, p. 8; 1944 ACS 30, p. 12; 1954 AC, p. 5317.

R 436.116 Gambling and gaming.

Rule 26. A licensee shall not allow in the licensed premises slot machines, baffle boards, punch or pull boards or dice games or gambling or gaming devices or paraphernalia of any kind or gambling or gaming of any kind.

History: 1944 ACS 12, p. 22; 1954 AC, p. 5317; 1954 ACS 23, p. 28, Eff. Aug. 12, 1960; 1954 ACS 73, p. 59, Eff. Oct. 31, 1972.

R 436.117 Assistance or subsidies forbidden.

Rule 27. No specially designated distributor shall solicit, accept or receive either directly or indirectly, any rebate, special discount, premium, gratuity or anything of value from any distillery, winery, wholesaler, jobber, agent or any representative thereof, or from any other person, in consideration of said distributor giving special consideration of any description to any particular brand or kind of wine or other spirits; nor shall he solicit, accept or receive any rebates, refunds or adjustments for any broken or damaged bottles or cases from any vendors or vendors' representatives.

History: 1944 ACS 12, p. 22; 1944 ACS 30, p. 12; 1954 AC, p. 5317.

R 436.118 Interest in business of vendor.

Rule 28. No manufacturer, warehouseman or wholesaler shall have any financial interest, directly or indirectly, in the establishment, maintenance, operation or promotion of the business of any other vendor. No manufacturer, warehouseman or wholesaler, nor any stockholder thereof shall have any interest by ownership in fee, leasehold, mortgage or otherwise, directly or indirectly, in the establishment, maintenance, operation or promotion of the business of any other vendor. No manufacturer, warehouseman or wholesaler shall have any interest directly or indirectly by interlocking directors in a corporation or by interlocking stock ownership in a corporation in the establishment, maintenance, operation, or promotion of the business of any other vendor.

History: 1944 ACS 12, p. 22; 1954 AC, p. 5317.

R 436.119 Contributions.

Rule 29. No manufacturer, wholesaler, warehouseman or any other licensee shall directly or indirectly make any contribution or donation of any kind to any other licensee, nor to any club, lodge, order, or any fraternal, social, patriotic or religious organization for tickets, grand openings, anniversaries or otherwise, and no licensee shall directly or indirectly solicit or accept any such contribution or donation.

History: 1944 ACS 12, p. 22; 1954 AC, p. 5318.

R 436.120 Inspections and audits.

Rule 30. The premises of a specially designated distributor shall be open at all reasonable times for the inspection of auditors, accountants, inspectors and other agents or employees of the commission, and of members of state and local law enforcement agencies, and all stocks and books and records appertaining to the business of a specially designated distributor shall likewise be available for examination and inspection by such officers and agents at all reasonable times.

History: 1944 ACS 12, p. 22; 1954 AC, p. 5318.

R 436.121 Licensee only to operate under license.

Rule 31. No licensee shall permit the sale of alcoholic liquor upon any portion of his premises for which he may have leased, sold, or transferred the right of possession to another person not licensed by this commission.

History: 1944 ACS 12, p. 22; 1954 AC, p. 5318.

R 436.122 Transfer of license.

Rule 32. (1) No licensee shall sell or transfer his license, or any interest therein, without the consent of the liquor control commission; nor shall any person or persons obtain a license in his or their name for the use and benefit of another person whose name does not appear on the license.

(2) No licensee shall transfer location of his license, make any alterations in the physical structure of his licensed premises, or change the character of the business for which the license was granted without the consent of the commission being first duly obtained.

History: 1944 ACS 12, p. 22; 1944 ACS 30, p. 12; 1954 AC, p. 5318.

R 436.123 Orders of commission.

Rule 33. No licensee shall fail, refuse or neglect to obey any written order of the commission issued relative to the operation of his licensed establishment.

History: 1944 ACS 30, p. 12; 1954 AC, p. 5318.

R 436.124 Public notice of suspension.

Rule 34. At the time of the suspension of any license by the commission there shall be placed in a conspicuous place in the front door or window of the licensed establishment, a placard furnished by the commission showing that the license of that establishment has been suspended by the commission and such placard shall also show the number of days and the reason for the suspension. No licensee shall remove, alter, obscure or destroy said placard.

History: 1944 ACS 30, p. 13; 1954 AC, p. 5318.

R 436.125 Sales prohibited during period of suspension.

Rule 35. No licensee shall sell any alcoholic beverages during the period his license is suspended by the commission.

History: 1944 ACS 30, p. 13; 1954 AC, p. 5318.

SPECIAL LICENSES FOR SALE OF BEER AND WINE AT RETAIL FOR CONSUMPTION ON PREMISES

(By authority of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws)

R 436.571 Applicability.

Rule 1. The commission's rules governing retail licensees selling alcoholic beverages for consumption on the premises, as heretofore promulgated and as revised on the 6th day of October, 1947, are hereby made applicable to special licenses for the sale of beer and wine at retail for consumption on the premises.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5388.

R 436.572 Definition.

Rule 2. A special beer and wine license is a license for the sale of beer and wine at retail not exceeding 16% alcoholic content by volume for consumption on the premises only, for a specific occasion and a limited period of time.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5388.

R 436.573 Fee.

Rule 3. The fee for a special beer and wine license is $25.00 per day, except that the fee for such license issued to any bona fide nonprofit association, duly organized and in continuous existence for 1 year prior to the filing of its application, shall be $15.00.

History: 1944 ACS 12, p. 23; 1944 ACS 30, p. 13; 1954 AC, p. 5388.

R 436.574 Qualifications.

Rule 4. Only nonprofit, religious, fraternal, civic or patriotic organizations may make application for such license and all profits derived from the sale of beer and/or wine must go to the organization itself and not to any individual.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5388.

R 436.575 Applications.

Rule 5. All applications for special beer and wine licenses must be received in the offices of the Michigan liquor control commission, Lansing, Michigan, at least 10 days prior to the date the license is desired. All applications must be signed by both the president and secretary of the organization making application and their respective signatures must be affixed thereto in the presence of 2 witnesses and notarized. Further, a sworn affidavit showing the length of time said organization has been in existence must accompany the application.

History: 1944 ACS 12, p. 23; 1944 ACS 30, p. 13; 1954 AC, p. 5389.

R 436.576 Resolution.

Rule 6. A certified copy of the resolution of the membership or board of directors authorizing the application must accompany the application to the commission.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5389.

R 436.577 Approval of sheriff or chief of police required.

Rule 7. The written approval of the sheriff or chief of police under whose jurisdiction the premises proposed to be licensed are located must be obtained upon the application before having the bond executed.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5389.

R 436.578 Bond.

Rule 8. A surety bond of $1,000.00 must be furnished with each application. The bond must remain in effect for 60 days after the expiration of the special license.

History: 1944 ACS 12, p. 23; 1954 AC, p. 5389.

R 436.579 Place and time of operation.

Rule 9. The special license may be used only at the premises for which issued and only during the time stipulated on the license.

History: 1944 ACS 12, p. 24; 1954 AC, p. 5389.

R 436.580 Return of license.

Rule 10. The license must be returned to the Michigan liquor control commission at Lansing within 48 hours after its expiration date or no further licenses will be issued to the organization.

History: 1944 ACS 12, p. 24; 1954 AC, p. 5389.

R 436.581 Number of licenses permitted each year.

Rule 11. Not in excess of 5 such special licenses may be granted to any organization, including any women's auxiliary thereof, in any 1 calendar year.

History: 1944 ACS 12, p. 24; 1944 ACS 30, p. 13; 1954 AC, p. 5389.

DEPARTMENT OF COMMERCE

LIQUOR CONTROL COMMISSION

LICENSING QUALIFICATIONS

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.7 of the Michigan Compiled Laws)

R 436.1101 Definitions.

Rule 1. As used in these rules:

(a) "Established merchant" means a person who owns or who has owned a drugstore, patent medicine store, supermarket, grocery store, delicatessen store, party store, meat market, or a department store which includes 1 or more of the aforementioned businesses, and who has owned that business for 1 year at some location.

(b) "Neighborhood shopping center" means 1 commercial establishment, or a group of commercial establishments organized or operated as a unit, related in location, size, and type of shop to the trade area that the unit serves, and which provides not less than 50,000 square feet of gross leasable retail space and which provides 5 private off-street parking spaces for each 1,000 square feet of gross leasable retail space.

(c) "Privately held corporation" means a corporation whose stock is not traded on a stock exchange or in over-the-counter transactions. A subsidiary of a corporation whose stock is traded on a stock exchange or in over-the-counter transactions is not a privately held corporation.

History: 1954 ACS 94, p. 108, Eff. Mar. 15, 1978.

R 436.1103 Application for license; forms; required information.

Rule 3. (1) An application for a license shall be made to the commission in Lansing on forms approved by the commission.

(2) An applicant for a license shall provide to the commission, or representatives of the commission, all information necessary for investigation and processing of the application.

History: 1954 ACS 94, p. 109, Eff. Mar. 15, 1978.

R 436.1105 Application for license; denial; grounds.

Rule 5. (1) An applicant for a license shall provide in the application or demonstrate at a hearing all of the following:

(a) If an individual, that the applicant is the legal age for consumption of alcoholic liquor in this state; if a partnership, that all partners are the legal age for consumption of alcoholic liquor in this state; or if a privately held corporation, that all stockholders are the legal age for consumption of alcoholic liquor in this state, unless the stock of such stockholders is held in a fiduciary relationship.

(b) The existence of adequate financial resources for establishment and operation of the proposed licensed business in proportion to the type and size of the proposed licensed business.

(c) The existence of an adequate physical plant or plans for an adequate physical plant appropriate for the type and size of the proposed licensed business.

(d) That the location of the proposed licensed business shall adequately service the public.

(2) The commission shall consider the following factors in determining whether an applicant may be issued a license:

(a) The applicant's management experience in the alcoholic liquor business.

(b) The applicant's general management experience.

(c) The applicant's general business reputation.

(d) The opinions of the local residents, local legislative body, or local law enforcement agency with regard to the proposed business.

(e) The applicant's moral character.

(f) The order in which the competing initial application forms are submitted to the commission.

(g) Past criminal convictions of the applicant for crimes involving moral turpitude, violence, or alcoholic liquor.

(h) The applicant's excessive use of alcoholic liquor.

(i) The effects that the issuance of a license would have on the economic development of the area.

(j) The effects that the issuance of a license would have on the health, welfare, and safety of the general public.

(3) An applicant for a new license, or for a transfer of location of an existing license, shall be denied if the commission is notified in writing that the applicant does not meet all appropriate state and local building, plumbing, zoning, fire, sanitation, and health laws and ordinances as certified to the commission by the appropriate law enforcement officials.

(4) The commission shall not issue a license to a municipally owned facility except where the municipality is a co-licensee, or where the license is issued to a concessionaire of the municipality.

History: 1954 ACS 94, p. 109, Eff. Mar. 15, 1978.

R 436.1107 Renewal of license.

Rule 7. (1) A license, which is not in active operation, shall be placed in escrow with the commission. The commission shall not renew a license placed in escrow until such time as the license is put into active operation.

(2) A licensee shall have only 1 year after the expiration of the license to renew the license and put the license into active operation, except upon written order of the commission after a showing of good cause. If the licensee fails to renew the license within 1 year after its expiration, and the commission does not extend the length of time for renewal, all rights to the license shall terminate.

(3) If the commission extends the length of time for which a licensee may renew the license, the licensee shall pay the required license fee for each elapsed licensing year prior to placing the license in active operation.

(4) A licensee shall pay the required license fee prior to the commission's renewal of the license.

History: 1954 ACS 94, p. 109, Eff. Mar. 15, 1978.

R 436.1109 Application for license by corporation; requirements.

Rule 9. (1) A corporation applying for a license shall file with the commission all of the following:

(a) If incorporated outside of this state, a copy of its current articles of incorporation and a current certificate of good standing from the state of incorporation.

(b) If a Michigan corporation, a copy of the current articles of incorporation as approved by the corporation and securities bureau.

(c) A certified copy of the minutes of a meeting of its board of directors which named the persons authorized to sign the application, bond, and other papers required by the commission.

(d) An affidavit stating the identity of its current corporate officers and the members of the board of directors.

(e) An affidavit stating whether or not the corporation is a privately held corporation. If the corporation is a privately held corporation, it shall also file with the commission an affidavit stating the number of shares of stock which it has issued, to whom the stock was issued, the amount of stock issued to each stockholder, the date of the issuance of the stock and the individual certificate numbers of the stock issued.

(2) The commission shall not renew a license of a corporation unless the corporate charter is current.

(3) A corporate licensee making application for another license is required to meet the provisions of this rule only once, provided it amends its filing to keep it current under this rule.

History: 1954 ACS 94, p. 110, Eff. Mar. 15, 1978.

R 436.1111 Application for license by partnership; requirements.

Rule 11. (1) Each general partner of a partnership shall sign the application, bond, and other papers filed in connection with securing a new license or transferring an existing license. This requirement may be waived by the commission upon a showing of good cause.

(2) A limited partnership applying for a license shall furnish a copy of the partnership agreement.

History: 1954 ACS 94, p. 110, Eff. Mar. 15, 1978.

R 436.1113 Wholesale license; minimum qualifications; corporate stock transfer.

Rule 13. (1) Prior to the issuance of a wholesale license, an applicant shall meet all of the following minimum qualifications:

(a) The applicant shall be the holder of the required basic permit issued under the federal alcohol administration act.

(b) If an individual, the applicant shall be of good moral character; if a partnership, each partner shall be of good moral character; or if a privately held corporation, all stockholders, officers, and members of the board of directors shall be of good moral character.

(c) The applicant shall have facilities in which to store beer and wine on the licensed premises.

(d) If an individual, submit his or her fingerprints; if a partnership, submit the fingerprints of each partner; or if a privately held corporation, submit the fingerprints of stockholders who own 10% or more of the corporate stock, and the fingerprints of all officers.

(2) If a person who has not been fingerprinted by the commission applies to transfer to himself or herself 10% or more of the corporate stock, in the aggregate, of a privately held licensed wholesale corporation, the person shall be investigated and fingerprinted prior to the commission approving the stock transfer.

History: 1954 ACS 94, p. 110, Eff. Mar. 15, 1978.

R 436.1115 Retail license; minimum qualifications; corporate stock transfer.

Rule 15. (1) Prior to the issuance of a retail license, an applicant shall meet all of the following minimum qualifications:

(a) If an individual, the applicant shall be of good moral character; if a partnership, each partner shall be of good moral character; or if a privately held corporation, all stockholders, officers and members of the board of directors shall be of good moral character.

(b) If an individual, submit his or her fingerprints; if a partnership, submit the fingerprints of each partner; or if a privately held corporation, submit the fingerprints of those stockholders who own 10% or more of the corporate stock and the fingerprints of all officers.

(2) If a person who has not been fingerprinted by the commission applies to transfer to himself or herself 10% or more of the corporate stock, in the aggregate, of a privately held licensed retail corporation, the person shall be fingerprinted and investigated prior to the commission approving the stock transfer.

History: 1954 ACS 94, p. 110, Eff. Mar. 15, 1978.

R 436.1117 Retail license; participating agreement.

Rule 17. An applicant for a retail license shall not enter into a participating agreement, except in either of the following situations:

(a) Where the commission approves the participating agreement after a showing of good cause by the applicant.

(b) Where the nonlicensee receives not more than 10% of the gross sales of the proposed licensed business.

History: 1954 ACS 94, p. 111, Eff. Mar. 15, 1978.

R 436.1119 Retail license; agreements or contracts.

Rule 19. (1) Preliminary agreements, leases, security agreements, or land contracts between an applicant for a retail license and a secured party or landlord shall not contain restrictive clauses which prohibit the license from being transferred to another location, or which dictate the disposition of the license upon the expiration of the lease.

(2) An agreement to buy and sell a business licensed to sell alcoholic liquor at retail, wherein there is not a total cash transaction, and which includes both the personal property and the real estate, shall include a separate statement listing the personal property and the real estate, and the terms and price of each.

(3) A security agreement between a buyer and a seller of a licensed retail business, or between a debtor and a secured party, shall not include the license or alcoholic liquor.

History: 1954 ACS 94, p. 111, Eff. Mar. 15, 1978.

R 436.1121 On-premise license; requirements.

Rule 21. (1) An applicant for an on-premise license, except for a special license, shall have a minimum down payment of 25% of the purchase price of the proposed licensed business, excluding the real estate and any alcoholic liquor. The commission may waive this requirement upon a showing of good cause.

(2) All funds used in purchasing the proposed licensed business shall belong to the applicant individually, and shall come from any of the following approved sources:

(a) Money accumulated by the applicant from legitimate and verifiable sources.

(b) Money derived from government-chartered lending institutions, whether personal or secured, so long as the security is not the proposed license.

(c) Gifts or loans, or both, derived from members of the applicant's immediate family, provided such gifts or loans have come from other approved sources and the family member giving the gift or loan is of good moral character.

(d) Loans derived from the federal veterans administration.

(e) Any combination of the above sources of funds.

(f) Any other source approved by the commission after a showing of good cause by the applicant.

History: 1954 ACS 94, p. 111, Eff. Mar. 15, 1978.

R 436.1123 Resort license; minimum qualifications.

Rule 23. (1) An applicant for a resort license shall meet all of the following minimum qualifications:

(a) The proposed licensed establishment shall serve food and have dining facilities to seat not less than 100 persons.

(b) The proposed licensed establishment shall offer 1 of the following:

(i) Some type of recreational or entertainment activity on the premises or, in the alternative, some type of recreational or entertainment activity shall be available to the public in close proximity to the proposed licensed establishment.

(ii) Sleeping facilities, meeting or conference rooms, or convention facilities.

(2) An applicant for a resort license shall submit 2 pictures, measuring 5 inches by 7 inches, to the commission if the application is for a completed building. One picture shall show the interior of the proposed licensed establishment and 1 picture shall show the exterior of the proposed licensed establishment. If the application is made for a proposed licensed establishment which is still to be constructed, the applicant shall submit 1 copy of the floor plan of the proposed licensed establishment.

History: 1954 ACS 94, p. 111, Eff. Mar. 15, 1978.

R 436.1125 Resort license; limitation.

Rule 25. The commission shall not consider issuing a resort license where an on-premise license is available under the quota provisions of the act. The commission may waive this rule upon a showing of good cause.

History: 1954 ACS 94, p. 111, Eff. Mar. 15, 1978.

R 436.1127 Club license; requirements.

Rule 27. (1) An applicant for a club license shall file with the commission all of the following:

(a) A certified copy of the resolution requesting a license adopted at a bona fide club meeting.

(b) A copy of the constitution, charter, and bylaws of the club.

(c) An affidavit certifying that there are no racial disqualifications for membership or guest privileges contained in the charter, constitution, franchise, bylaws, membership application, or related documents under which the club operates.

(2) An applicant for a club license shall have its minutes recorded in English and available for inspection.

History: 1954 ACS 94, p. 112, Eff. Mar. 15, 1978.

R 436.1129 SDM license; issuance and transfer; limitation; waiver; applicability.

Rule 29. (1) For the issuance of a new, or the transfer of location of an existing, specially designated merchant license, the following are approved types of businesses: a grocery store, party store, food specialty store, meat market,

delicatessen store, drugstore, patent medicine store, marina, or department store which includes 1 or more of the aforementioned stores, specially designated distributor, class C, B-hotel, club, tavern, and A-hotel licensed establishments.

(2) The commission shall not issue a new, or transfer location of an existing, specially designated merchant license to an applicant operating an approved type of business who also holds, or a partner or stockholder thereof who holds, interest, directly or indirectly, in a nonapproved type of business on, or contiguous to, the proposed licensed premises, unless 50% or more of the combined monthly gross sales of the approved and nonapproved businesses are of goods and services customarily marketed by the approved type of business. For the purposes of this subrule, combined monthly gross sales shall be sales exclusive of all taxes collected by a retailer on sales and shall be computed for an accounting period of not less than 180 consecutive days. The commission may approve an application under this rule subject to the condition that compliance with the rule shall be demonstrated at the end of the 180-day accounting period. Failure to comply with the provisions of this subrule at the end of the 180-day accounting period shall result in a cancellation of the license.

(3) The commission shall not issue a specially designated merchant license, nor allow a change in the nature of an existing business licensed with a specially designated merchant license to either of the following:

(a) An applicant who has gasoline pumps in operation on, or adjacent to, the proposed licensed premises.

(b) An applicant who holds any interest in gasoline pumps in operation on, or adjacent to, the proposed licensed premises.

(4) In cities, incorporated villages, or townships of 3,000 population or less, the commission may, in its discretion, waive the provisions of subrule (1), subrule (2), and subrule (3), if the applicant for a license has and maintains a minimum inventory on the premises, excluding alcoholic liquor, of not less than $10,000.00 at cost, of those goods and services customarily marketed by approved types of businesses. The commission shall accept as a method for determining the population of a city, incorporated village, or township, those means prescribed in R 436.1141(1).

(5) This rule does not apply to the renewal of an existing specially designated merchant license in operation, nor to a new specially designated merchant license or the transfer of location of a specially designated merchant license conditionally approved by the commission, prior to the effective date of this rule.

History: 1954 ACS 94, p. 112, Eff. Mar. 15, 1978; 1954 ACS 96, p. 104, Eff. June 23, 1978.

ment shall be as prescribed in section 17a of the act. This rule may be waived by the commission for 1 of the following:

(a) Where the existing specially designated distributor has purchased less than $10,000.00 in spirits from the commission during the last full calendar year.

(b) Where the existing specially designated distributor has a B-hotel or A-hotel license.

(c) Where the proposed location and the existing specially designated distributor's licensed establishment are separated by a major thoroughfare of not less than 4 lanes of traffic.

(d) Where the proposed licensed establishment is located in a neighborhood shopping center, wherein no existing specially designated distributor license is located and where the proposed location is located not less than 1,000 feet from any existing specially designated distributor license. The method of measurement shall be as prescribed in section 17a of the act.

History: 1954 ACS 94, p. 112, Eff. Mar. 15, 1978; 1954 ACS 96, p. 105, Eff. June 23, 1978

R 436.1135 SDD license; limitations upon issuance or transfer; waiver; applicability.

Rule 35. (1) The commission shall not issue a new, or transfer location of an existing, specially designated distributor license to an applicant who is an established merchant who also holds, or a partner or stockholder thereof who holds, interest, directly or indirectly, in a business on, or contiguous to, the proposed licensed premises which is not included in the definition of established merchant, unless 60% or more of the combined monthly gross sales of the approved and nonapproved businesses are of goods and services customarily marketed by the established merchant's type of business. For the purposes of this subrule, combined monthly gross sales shall be exclusive of all taxes collected by a retailer on sales and shall be computed for an accounting period of not less than 180 consecutive days. The commission may approve an application under this rule subject to the condition that compliance with the rule shall be demonstrated at the end of the 180-day accounting period. Failure to comply with the provisions of this subrule at the end of the 180-day accounting period shall result in cancellation of the license.

(2) The commission shall not issue a specially designated distributor license, nor allow a change in the nature of an existing business licensed with a specially designated distributor license to either of the following:

(a) An applicant who has gasoline pumps in operation on, or adjacent to, the proposed licensed premises.

(b) An applicant who holds any interest in gasoline pumps in operation on , or adjacent to, the proposed licensed premises.

(3) In cities, incorporated villages, or townships of 3,000 population or less, the commission may, in its discretion, waive the provisions of subrule (1) and subrule (2), if the applicant for license has and maintains a minimum inventory on the premises, excluding alcoholic liquor, of not less than $12,500.00, at cost, of those goods and services customarily marketed by approved types of businesses. The commission shall accept as a method for determining the population of a city, incorporated village, or township, those means prescribed in R 436.1141(1).

(4) Subrule (1), subrule (2), and subrule (3) do not apply to the renewal of an existing specially designated distributor license in operation, nor to a new specially designated distributor license or the transfer of location of a specially designated distributor license conditionally approved by the commission, prior to the effective date of this rule.

(5) The commission shall not approve the transfer of location of a specially designated distributor license outside of the governmental unit for which it was issued, except upon a showing of good cause.

(6) Upon a showing of good cause, the commission may, in its discretion, waive the quota restrictions of R 436.1141 provided all of the following conditions are met:

(a) The applicant is in a city, incorporated village, or township of 3,000 population or less. The commission shall accept as a method for determining the population of a city, incorporated village, or township, those means prescribed in R 436.1141(1).

(b) The only existing specially designated distributor license is held in conjunction with an A-hotel or B-hotel license.

(c) Only 1 such waiver may be granted by the commission in the city, incorporated village, or township.

History: 1954 ACS 94, p. 113, Eff. Mar. 15, 1978.

R 436.1141 SDD license; population requirement.

Rule 41. (1) In cities, incorporated villages, or townships, only 1 specially designated distributor license shall be issued by the commission for every 3,000 population, or fraction thereof. The commission shall accept any 1 of the following means of determining the population of a city, incorporated village, or township:

(a) Federal decennial census.

(b) Special census taken pursuant to section 6 of Act No. 279 of the Public Acts of 1909, being §117.6 of the Michigan Compiled Laws.

(c) Special census taken pursuant to section 7 of Act No. 245 of the Public Acts of 1975, being §141.907 of the Michigan Compiled Laws.

(d) Latest population estimates and projections prepared by the United States department of commerce, social and economic statistics administration, bureau of the census.

(2) The quota requirement may be waived at the discretion of the commission if there is no existing specially designated distributor licensee within 2 miles, measured along the nearest traffic route, of the applicant.

History: 1954 ACS 94, p. 113, Eff. Mar. 15, 1978.

R 436.1143 SDD license; transfer of location.

Rule 43. An applicant who requests a transfer of location of an existing specially designated distributor license into an area in which there are applications

for new specially designated distributor licenses on file with the commission shall not be given priority if the proposed transfer of location is within 2,640 feet of the location of the establishments proposed by the new applicants. The method of measurement shall be as prescribed in section 17a of the act.

History: 1954 ACS 94, p. 113, Eff. Mar. 15, 1978; 1954 ACS 96, p. 106, Eff. June 23, 1978.

R 436.1145 Watercraft license; minimum qualifications.

Rule 45. An applicant for a watercraft license shall meet all of the following minimum qualifications before being granted a license:

(a) The watercraft shall have a current certificate of inspection issued by either the state waterways commission or the United States coast guard under title 46 of the United States Code.

(b) The watercraft carries paying passengers on regularly scheduled routes between predetermined geographical points.

(c) The license shall only be used to service paying passengers on regularly scheduled routes between predetermined geographical points.

History: 1954 ACS 94, p. 113, Eff. Mar. 15, 1978.

R 436.1147 Aircraft license; minimum qualifications.

Rule 47. An applicant for an aircraft license shall meet all of the following minimum qualifications before being granted a license:

(a) The aircraft shall be approved by the civil aeronautics board for carrying paying passengers on regularly scheduled routes or on charter routes, and shall be in excess of 12,500 pounds gross weight.

(b) The license shall only be used to service paying passengers on regularly scheduled routes or chartered routes between predetermined geographical points.

History: 1954 ACS 94, p. 114, Eff. Mar. 15, 1978.

R 436.1149 Class C or SDD license; hardship transfer.

Rule 49. (1) The commission shall not consent to a hardship transfer of class C or specially designated distributor licenses under section 17 of the act if the hardship shown by the licensee existed when the license was issued, except upon a showing of good cause.

(2) A person who has been granted approval for a hardship transfer of class C or specially designated distributor licenses under section 17 of the act shall be prohibited from holding such classes of licenses for a period of 5 years thereafter, as either an individual, partner, or stockholder, except upon a showing of good cause.

History: 1954 ACS 94, p. 114, Eff. Mar. 15, 1978.

R 436.1151 Inspection and search; seizure of evidence.

Rule 51. A licensee shall make the licensed premises available for inspection and search by commission investigators and law enforcement officers empowered to enforce the provisions of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws and the commission's rules during regular business hours or when the licensed premises are occupied by the licensee or a clerk, servant, agent, or employee of the licensee. Evidence of a violation discovered during an inspection or search may be seized and used in appropriate administrative or court proceedings.

SPECIAL PERMITS FOR HOSPITALS AND INSTITUTIONS

(By authority conferred on the liquor control commission by section 16 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.16 of the Michigan Compiled Laws)

R 436.1251 Special permits for hospitals and institutions.

Rule 1. The commission may issue special permits to hospitals, charitable institutions, and military establishments within the state for the purchase of spirits for their own use from a designated state liquor store at a discount of 22% from the retail prices established by the commission.

History: 1954 ACS 83, p. 47, Eff. June 6, 1975.

ADVERTISING

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.7 of the Michigan Compiled Laws)

R 436.1301 Definitions.

Rule 1. (1) The terms defined in the Michigan liquor control act and in the commission rules have the same meaning when used in these rules.

(2) "Cooperative advertising" means a joint effort between licensees to advertise alcoholic liquors. Cooperative advertising includes any contributions by 1 licensee to another licensee or a third person to defray a part of the cost of advertising alcoholic liquor.

(3) "Licensee" means a person who is licensed by the commission to manufacture and sell, or sell or warehouse any alcoholic liquor in the manner provided by the act or the clerk, agent, or employee of such person.

(4) "Temporary bin display" means a display of beer or wine for exhibition on the premises of a retail licensee, licensed only for off-premises sales. The temporary bin display shall consist of a freestanding device constructed of paper, cardboard, or other paper-like material, if the display does not furnish anything of value to the retail licensee other than the display itself.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1303 Beer.

Rule 3. Beer shall not be advertised in this state unless the advertising is in accordance with these rules and the federal malt beverage regulations published in 27 C.F.R., part 7, subpart F, 1936, as amended, as of January 1, 1975, which are incorporated herein by reference. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at cost.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1305 Wine.

Rule 5. Wine shall not be advertised in this state unless the advertising is in accordance with these rules and the federal wine regulations published in 27 C.F.R., part 4, subpart G, 1935, as amended, as of January 1, 1975, which are incorporated herein by reference. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at cost.

R 436.1307 Spirits.

Rule 7. Distilled spirits shall not be advertised in this state unless the advertising is in accordance with these rules and the federal distilled spirits regulations published in 27 C.F.R., part 5, subpart H, 1969, as of January 1, 1975, which are incorporated herein by reference. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at cost.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1309 Advertising approval.

Rule 9. (1) The commission reserves the right to review and reject advertising not in accordance with these rules. Upon written order of the commission a manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall furnish full information as to the advertising to enable the commission to review the same.

(2) Advertising in newspapers and periodicals, by all licensees except retail licensees, shall be limited to those published not less than quarterly and having a second class mailing permit, except upon written order of the commission.

(3) Alcoholic liquor shall not be advertised in a publication or program for a special occasion, except upon written order of the commission 30 days in advance of the event.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1311 Prohibited advertising.

Rule 11. An advertisement or label affixed to a container, covering, carton, or case of containers of alcoholic liquor shall not depict or make reference in any manner to minors.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1313 Inside advertising signs and displays.

Rule 13. (1) Advertising signs of beer and wine for use inside the premises of a retail licensee shall be limited to an unilluminated sign not to exceed a total area of 1,000 square inches.

(2) Any other sign attached to, or a necessary part of, a sign shall be included in the 1,000 square inches limitation.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1315 Retail advertising space.

Rule 15. (1) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall not sell or in any manner furnish to a retail licensee and a retail licensee shall not accept:

(a) Advertising which has the name of the retail licensee on the advertising.

(b) Money or other valuable consideration for advertising space in or upon the premises of the retail licensee.

(2) Alcoholic liquor shall not be advertised on the licensed premises by placing the alcoholic liquor or an advertisement of alcoholic liquor in a window facing outside the licensed premises.

History: 1954 ACS 84, p. 72, Eff. Oct. 3, 1975.

R 436.1317 Brand promotion.

Rule 17. A manufacturer of beer, a manufacturer of wine, an outstate seller of beer, an outstate seller of wine, or a wholesaler or his licensed representatives may

do the following in the establishment of an off-premise retail licensee with merchandise owned by the off-premise retail licensee:

(a) Build a display of his brands.

(b) Mark the price on his brands.

(c) Rotate his brands.

(d) Place his brands on shelves.

History: 1954 ACS 84, p. 73, Eff. Oct. 3, 1975.

R 436.1319 Cooperative advertising.

Rule 19. (1) There shall not be cooperative advertising:

(a) Between a manufacturer, an outstate seller of beer, an outstate seller of wine, and a retail licensee.

(b) Between a wholesaler and a retail licensee.

(c) Between a manufacturer, an outstate seller of beer, an outstate seller of wine, and a wholesale licensee.

(2) A manufacturer, an outstate seller of beer, or an outstate seller of wine may:

(a) Pay the cost of painting the trucks of a wholesale licensee.

(b) Supply brand logo decals and advertising mats to a wholesale licensee without cost.

(c) Use the name of his wholesaler in his advertising.

(3) The name of a retail licensee shall not appear in the advertising of a manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler.

History: 1954 ACS 84, p. 73, Eff. Oct. 3, 1975.

R 436.1321 Contests and advertising articles.

Rule 21. (1) There shall not be advertising of alcoholic liquor connected with offering a prize or award on the completion of a contest, except upon prior written approval of the commission.

(2) Spirits shall not be advertised on the premises of a retail licensee, except as provided in these rules or upon prior written approval of the commission.

(3) There shall not be advertising of alcoholic liquor on anything which has any value, use, or purpose other than the actual advertising value, except upon written order of the commission.

(4) Advertising material which does not contain the name of a retail licensee and does not have a secondary value, but explains the production, sale, or consumption of alcoholic liquor may be published and distributed in this state.

(5) Alcoholic liquor recipe literature which does not contain the name of a retail licensee may be published and distributed in this state.

(6) All gambling devices, including punch boards and games of any description used for advertising purposes, are prohibited.

(7) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler may sell novelty items bearing brand logo type, upon written order of the commission. These novelty items shall not be sold below their cost by the manufacturer, outstate seller of beer, outstate seller of wine, or wholesaler.

(8) A licensee licensed to sell alcoholic liquor for consumption on the premises shall not sell, give, or furnish to anyone, novelty items bearing brand logo type on the licensed premises, nor shall the licensee use novelty items on the licensed premises except upon written order of the commission.

History: 1954 ACS 84, p. 73, Eff. Oct. 3, 1975; 1954 ACS 97, p. 84, Eff. Oct. 12, 1978.

athletic team under his own license name. The name of the sponsor may appear on the team uniform.

(2) A licensee shall not aid or assist another licensee by sponsoring or equipping athletic teams and a licensee shall not accept such aid or assistance.

History: 1954 ACS 84, p. 73, Eff. Oct. 3, 1975.

R 436.1325 Calendars and matchbooks.

Rule 25. (1) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall not give anything of value to a customer.

(2) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler may give a calendar and matchbooks to a customer if nothing of value is attached to, or given with, the calendar or matchbooks.

(3) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall not sell, give, or furnish a retail licensee with calendars or matchbooks to be given to the customers of the retail licensee, except upon written order of the commission.

(4) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler may advertise on calendars.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1327 Outside signs.

Rule 27. (1) Advertising of a brand of alcoholic liquor shall not be placed or erected on the outside of the licensed premises of a retail licensee.

(2) A manufacturer or a wholesaler may place or erect advertising of its brands on its licensed premises.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1329 Displays.

Rule 29. (1) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall not sell or in any manner furnish or install, and a retail licensee shall not accept, a permanent display in the licensed premises of a retail licensee.

(2) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler may furnish a temporary bin display with a capacity of up to 6 cases of 24 12-ounce or 0.375-liter containers or the equivalent in other sizes of beer or wine on the premises of a retail licensee.

(3) The advertising on a temporary bin display shall be excluded from the 1,000 square inches limitation on inside retail advertising signs.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1331 Dispenser signs.

Rule 31. (1) Alcoholic liquor dispensing equipment shall have the brand of alcoholic liquor designated by a sign on the dispenser or on the tap.

(2) A licensee shall not draw from a dispenser or tap a brand of alcoholic liquor other than that brand designated by the dispenser sign or tap marker.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1333 Prices and brands.

Rule 33. (1) A retail licensee may advertise that he sells alcoholic liquor.

(2) A retail licensee shall not advertise the brands or the prices of alcoholic liquor off the licensed premises.

(3) A manufacturer, an outstate seller of beer, an outstate seller of wine, or a wholesaler may advertise the brands of alcoholic liquor he is licensed to sell.

(4) A manufacturer of beer or wine, an outstate seller of beer, an outstate seller of wine, or a wholesaler shall not advertise the price of beer or wine.

(5) A wholesaler may give a price list to the retail licensee which states the brands and prices of the beer and wine that he is licensed to sell.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975

R 436.1335 Political advertising.

Rule 35. (1) Political advertising on the inside or outside of the licensed premises is prohibited except by a licensed hotel, auditorium, or hall which may have displays of signs or posters on the licensed premises during the convention of the delegates of an established political party.

(2) Nominating and recall petitions are allowed on the licensed premises.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1337 Advertising collars.

Rule 37. Retail licensees licensed to sell spirits for consumption off the premises may place an advertising collar around the bottle neck to call customer attention to a new brand. This may be done only on those brands of alcoholic liquor approved for special order by the commission. The vendor of spirits may furnish the collar and indicate the price of the new brands on the collar.

History: 1954 ACS 84, p. 74, Eff. Oct. 3, 1975.

R 436.1339 Rescissions.

Rule 39. Rules 15 to 23 and 25 to 28 of the rules entitled, "Rules and Regulations Governing the Relationship Between Licensed Manufacturers, Wholesalers of Alcoholic Liquors, Their Sales Representatives and Retail Licensees," being R 436.535 to R 436.543 and R 436.545 to R 436.548 of the Michigan Administrative Code and appearing on pages 5384 to 5386 of the 1954 volume of the Code, are rescinded.

sanitary condition. The commission may by written order establish specific equipment requirements.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1607 Agricultural product compliance with law.

Rule 7. Agricultural products processed by a manufacturer of beer shall comply with state laws and rules of the Michigan department of agriculture.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1609 Outstate sellers of beer.

Rule 9. (1) A person shall be the holder of the required basic permit or be a manufacturer of beer doing business under an approved brewer's notice issued under the federal alcohol administration act before being issued an outstate seller of beer license.

(2) An outstate seller of beer license shall be issued pursuant to these rules and the act to the following persons:

(a) A person located in the United States who imports and sells foreign beer in this state.

(b) A manufacturer located outside of this state but in the United States who manufactures and packages its own beer.

(3) A subsidiary controlled by a parent company shall obtain a separate license in its own name and designate the name of the controlling company.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1611 Labels and advertising.

Rule 11. (1) The sale of beer is prohibited in this state unless:

(a) The beer is packaged, marked, branded and labeled in accordance with these rules.

(b) The beer label truthfully describes the contents of the container in accordance with these rules and the federal malt beverage regulations published in 27 C.F.R. 1936, as amended. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at a cost of 50 cents per copy.

(2) A manufacturer, outstate seller of beer, or wholesaler responsible for labeling shall furnish proof upon request that valid certificates of approval for the label have been obtained from and are unrevoked under the provisions of the federal labeling requirements as published in 27 C.F.R. 1936, as amended.

(3) Advertisement of the alcoholic content of a beer is prohibited.

(4) A removable tap marker or sign shall be placed on a draft beer dispenser. The cost of a tap marker or sign shall be subject to commission orders.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1613 Gifts of beer and consumption on licensed premises.

Rule 13. (1) A manufacturer may give away beer only for consumption on the licensed premises.

(2) A wholesaler shall not give away beer or allow consumption of beer on the licensed premises.

(3) A tap room maintained by a manufacturer for dispensing or serving of alcoholic beverages shall be closed to the public at 9:00 p.m. daily and shall not open before 8:00 a.m. except as provided by section 19e of the Michigan liquor control act.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1615 Sales and transportation by manufacturers; warehouse licensees.

Rule 15. (1) A manufacturer shall confine its beer sales to beer manufactured by it on its licensed premises.

(2) A manufacturer shall not buy from or sell to any other manufacturer wort or extract to be used in the manufacture of beer without a written order of approval by the commission.

(3) A manufacturer shall not manufacture beer at 1 plant owned and operated by it and transport the beer to another plant owned and operated by it, for the purpose of processing, aging or bottling the beer without a written order of approval by the commission.

(4) A manufacturer shall not have any beer manufactured or placed in containers by another manufacturer for resale without a written order of approval by the commission.

(5) A manufacturer of beer shall obtain a manufacturer's warehouse license.

History: 1954 ACS 72, p. 78, Eff. Aug. 2, 1972.

R 436.1617 Sales and shipments by outstate sellers of beer.

Rule 17. No beer shall be sold, shipped and delivered into this state except as follows:

(a) An outstate seller of beer shall sell, ship and deliver beer in this state to a licensed wholesaler at its warehouse address. A wholesale licensee shall not accept delivery at other than its warehouse address.

(b) A corporation licensed as an outstate seller of beer which produces and packages its own beer may ship packaged beer into this state to the manufacturing plant of its wholly owned subsidiary corporation.

History: 1954 ACS 72, p. 79, Eff. Aug. 2, 1972.

R 436.1621 Excise tax on outstate beer.

Rule 21. The excise tax on outstate beer for shipment or delivery into this state for resale shall be due and payable at the Lansing office of the commission.

History: 1954 ACS 72, p. 79, Eff. Aug. 2, 1972.

R 436.1623 Refunds of excise tax.

Rule 23. (1) A claim for a refund of the excise tax shall be submitted on a form approved by the commission.

(2) Refund of the excise tax shall be allowed for the following:

(a) Beer shipped to military installations in this state.

(b) Beer spoiled before leaving the manufacturer's premises.

(c) Other reasonable grounds approved by the commission.

History: 1954 ACS 72, p. 79, Eff. Aug. 2, 1972.

R 436.1625 Price schedules and temporary price reductions.

Rule 25. (1) A manufacturer or wholesaler shall file with the commission in Lansing a schedule of net cash prices to the retail licensee for all brands of case and keg beer for its market area.

(2) A manufacturer or wholesaler shall file with the commission in Lansing beer package price reductions for its market area. The price reduction shall be filed before its effective date and shall continue for at least 180 days after the effective date.

(3) The beer package price for any market area may be increased during the 180-day period for the following reasons:

R 436.1629 Barrel deposit and refund.

Rule 29. (1) A manufacturer, an outstate seller of beer, or a wholesaler of beer shall collect a barrel deposit of $10.00 for a barrel, ½ barrel, and ¼ barrel of beer.

(2) A cash refund of $10.00 for a barrel, ½ barrel, and ¼ barrel of beer shall be made to a licensee who has made the deposit and returned the barrels for refund.

History: 1954 ACS 72, p. 79, Eff. Aug. 2, 1972; 1954 ACS 97, p. 84, Eff. Sept. 30, 1978.

R 436.1631 Invoices and bills of lading of outstate sellers of beer.

Rule 31. (1) An outstate seller of beer shall furnish the wholesalers 2 copies of all invoices.

(2) A wholesaler shall retain 1 copy of the invoice and forward 1 copy of the invoice to the commission.

(3) A truck driver of the outstate seller of beer shall have in his possession invoices and bills of lading for inspection by commission representatives and law enforcement agencies.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1633 Damage refunds.

Rule 33. A refund or other adjustment on beer containers shall not be made to a retail licensee by a manufacturer or wholesaler unless:

(a) A keg of beer shows evidence of leakage.

(b) A keg of beer is flat or not salable at the time of tapping.

(c) Other reasonable grounds approved by a written order of the commission.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972; 1954 ACS 81, p. 108, Eff. Nov. 20, 1974.

R 436.1635 Deliveries.

Rule 35. A manufacturer or wholesaler shall not offer for sale or deliver beer to a retail licensee between 12:00 midnight on Saturday and 12:00 midnight on Sunday, except to a holder of a special license issued by the commission.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1641 Manufacturers' and wholesalers' reports and records.

Rule 41. (1) A monthly report of operations of a manufacturer shall be made on forms approved by the commission and filed in the Lansing office of the commission. The records shall be maintained in order for 4 years, after which deletions may be made but a 4-year record shall always be retained.

(2) A wholesaler shall maintain records of its transactions, including distribution of beer. The records shall be maintained for 4 years, after which deletions may be made but a 4-year record shall always be retained.

(3) A manufacturer or wholesaler shall maintain complete records of expenses and compensation of salesmen and representatives for 4 years.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1643 Reports of outstate sellers of beer.

Rule 43. An outstate seller of beer shall file a monthly sales report with the commission on a form approved by the commission and which shall include the following:

(a) Sales and deliveries of beer into this state during the preceding month.

(b) The date, location, name of wholesaler, the brand and quantities shipped.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1645 Inspection and enforcement.

Rule 45. (1) Upon order of the commission a commission representative or employee of the Michigan department of agriculture may inspect premises of an out-of-state manufacturer of beer which is sold or to be sold in this state.

(2) The books, records and premises of all licensees shall be available to the commission representative at all reasonable times. The licensee shall give any assistance and provide the facilities required for the inspection and analysis.

(3) The commission may demand a sample of any beer, shipped into this state and offered for sale or sold, for analytical and inspection purposes.

(4) The commission reserves the right to confiscate beer or other alcoholic beverages unless the beverage complies with these rules and the act. The beer confiscated shall be subject to disposition by order of the commission.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1651 Prohibited acts.

Rule 51. (1) A licensee shall not fail, neglect or refuse to make a report required by these rules or refuse to permit commission representatives to examine its books, federal tax stamps, records, invoices or other papers pertaining thereto, or any stock of beer in its possession or custody, or make an incomplete, false or fraudulent report or do anything to avoid a full disclosure of the amount of beer subject to tax.

(2) A licensee shall not falsely label a container in which beer is placed for sale, or use or give a false or fictitious name, or use or give a false or fictitious address in an application or form required by these rules, or otherwise commit a fraud in an application, record or report.

(3) Tied-in sales of beer and wine are prohibited.

History: 1954 ACS 72, p. 80, Eff. Aug. 2, 1972.

R 436.1659 Rescissions.

Rule 59. (1) Rules entitled "Rules and Regulations Applying to the Manufacture and Sale of Beer and/or Malt Beverages as Applied to Licensed Manufacturers and Distributors," being R 436.150 to R 436.250 of the Michigan Administrative Code, and appearing on pages 5320 to 5333 of the 1954 volume of the Code, page 129 of the 1955 Annual Supplement to the Code, and page 1525 of the 1960 Annual Supplement to the Code, are rescinded.

(2) Rules 36, 37, and 39 of the rules entitled "Rules and Regulations Governing the Relationship between Licensed Manufacturers, Wholesalers of Alcoholic

WINES

(By authority conferred on the liquor control commission by sections 7 and 16a of Act No. 8 of the Public Acts of the Extra Session of 1933, being §§436.7 and 436.16a of the Michigan Compiled Laws)

R 436.1701 Definitions.

Rule 1. (1) "Act" means Act No. 8 of the Public Acts of the Extra Session of 1933, being §436.1 et seq. of the Michigan Compiled Laws.

(2) "Release" means a document on which written permission is granted by the commission to ship wine into this state.

(3) The terms defined in the act and the commission rules have the same meaning when used in these rules.

History: 1954 ACS 64, p. 52, Eff. Sept. 1, 1970; 1954 ACS 89, p. 139, Eff. Oct. 2, 1976.

R 436.1702 Building and health laws and ordinances.

Rule 2. A manufacturer of wine shall conform to all state and local building and health laws and ordinances.

History: 1954 ACS 64, p. 52, Eff. Sept. 1, 1970.

R 436.1703 Equipment.

Rule 3. A manufacturer of wine shall possess the necessary equipment for a satisfactory operation which shall be maintained in a good working order and in a sanitary condition. The commission may by written order establish specific equipment requirements.

History: 1954 ACS 64, p. 52, Eff. Sept. 1, 1970.

R 436.1705 Outstate sellers of wine.

Rule 5. (1) A person shall be the holder of the required basic permit issued under the federal alcoholic administration act before being issued an outstate seller of wine license.

(2) An outstate seller of wine license shall be issued to a person pursuant to these rules and the act to the following:

(a) A person located in the United States who imports and sells foreign wine in this state.

(b) A person located outside of this state but in the United States who ships and sells bulk wine to licensed Michigan manufacturers for only blending and rectifying purposes or bottled wine direct to a minister, priest or rabbi for sacramental purposes.

(c) A person located outside of this state but in the United States who bottles wine manufactured by another person. This person shall have a certificate or affidavit of identity from the manufacturer. This licensed person shall be responsible for the quality of wine shipped into and sold in this state.

(d) A manufacturer located outside of this state but in the United States who produces and bottles its own wine.

(3) A subsidiary company controlled by a parent company shall obtain a separate license in its own name and designate the name of the controlling company.

History: 1954 ACS 64, p. 52, Eff. Sept. 1, 1970.

R 436.1706 Rescinded.

History: 1954 ACS 64, p. 52, Eff. Sept. 1, 1970; rescinded 1954 ACS 83, p. 47, Eff. May 2, 1975.

R 436.1707 Federal standards of identity for wine.

Rule 7. The standards of identity for the several classes and types of bottled wine shall be the federal standards of identity, published in title 27, part 4, subpart C, C.F.R., 1935, as amended, as of June 1, 1975, which are incorporated herein by reference. The commission may by written order establish other standards of identity. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at cost.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970; 1954 ACS 85, p. 37, Eff. Nov. 6, 1975.

R 436.1708 Manufacturing wine pursuant to federal wine regulations.

Rule 8. (1) Wine shall be manufactured pursuant to the federal wine regulations published in title 26, part 240, subparts F, O, P, Q, R, S, T, U, V, W, X, Z, UU, VV, XX, YY, and ZZ, C.F.R., 1954, as amended, as of June 1, 1975, which are incorporated herein by reference. Copies of the federal regulations are on file and available to the public in the Lansing office of the commission at cost.

(2) Substandard, imitation base, or nonstandard wine may be sold in this state by written order of the commission.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970; 1954 ACS 85, p. 37, Eff. Nov. 6, 1975.

R 436.1711 Inspections.

Rule 11. Upon order of the commission any commission representative or employee of the Michigan department of agriculture may inspect any premises of an out-of-state producer, manufacturer or bottler of wine which is sold or to be sold in this state.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970.

R 436.1712 Fruit and agricultural products; compliance with law.

Rule 12. Fruit and agricultural products processed by a licensee shall comply with state laws and rules of the Michigan department of agriculture.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970.

R 436.1714 Tax reduction.

Rule 14. A Michigan manufacturer may purchase fruit, fruit juice or fruit juice concentrate from any Michigan processor of Michigan fruit if the processor is under the supervision and rules of the Michigan department of agriculture. Wine produced from these purchases is eligible for a tax reduction as provided in section 16a of the act.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970.

R 436.1716 Bottling.

Rule 16. (1) Wine may be bottled or sold or both in Michigan in containers of any size permitted by the federal alcohol administration act and approved by written order of the commission.

(2) For tax purposes a variance in content will be permitted within a fraction of a fluid ounce in bottles of champagne, carbonated or sparkling wines in order that a 26 ounce container may be registered as a ⅛ of a gallon or 25.6 ounce container, or a 13 ounce container may be registered at 1/16 of a gallon or 12.8 ounce container.

(3) Imported wine may be delivered into this state and sold in containers of any size permitted by the federal alcohol administration act and approved by written order of the commission.

(4) A Michigan manufacturer shall not bottle bulk domestic or imported wine for sale in any state without a written order of approval from the commission.

(5) A Michigan manufacturer shall not manufacture or bottle wine for any other manufacturer without a written order of approval from the commission.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970.

R 436.1717 Wine losses; restraining orders; record; container marks.

Rule 17. (1) A maximum of 3% loss of the aggregate quantity of wine on hand at the beginning of the fiscal year, July 1, and received in bond during the fiscal year may be deducted from inventory by a manufacturer if the loss is substantiated by physical inventory and the actual loss is recorded as such on forms furnished by the commission. A maximum of 6% loss may be deducted from inventory of wine produced by fermentation on bonded winery premises during a fiscal year if the loss is substantiated by inventory and proper records.

(2) Application shall be made to the commission for approval of any loss in excess of the allowances in subrule (1) showing causes and full particulars of the loss.

(3) If wine has not been manufactured in accordance with R 436.1708, the commission may issue a written order restraining a wine manufacturer from selling, offering for sale, using for blending purposes or otherwise using the wine, whether it is in the finished state, or in the course of manufacture, and the order shall remain in force until rescinded or otherwise disposed of by the commission.

(4) A manufacturer shall keep a complete record of all wines manufactured, on forms prescribed by the commission.

(5) A barrel, cask, vat or other container used by a manufacturer before bottling for the storage of wine shall be given an individual number and the number, together with particulars of the capacity of the barrel, cask, vat or other container, shall be painted thereon in a conspicuous manner.

History: 1954 ACS 64, p. 53, Eff. Sept. 1, 1970.

R 436.1719 Requirements for sale of bottled wine.

Rule 19. (1) Bottled wine shall not be offered for sale, kept for sale, sold, delivered, or otherwise introduced into this state unless:

(a) The wine is bottled, packaged, marked, branded, and labeled pursuant to these rules.

(b) The wine label truthfully describes the contents of the container in accordance with these rules and the federal wine regulations published in title 27, part 4, subpart D, C.F.R., 1935, as amended, as of June 1, 1975, which are incorporated herein by reference. Copies of the federal regulations are on file and available at cost to the public in the Lansing office of the commission.

(c) The wine has received a registration number of approval from the commission.

(2) Bottled wine shall not be shipped, delivered, or otherwise introduced into this state unless it is accompanied by an invoice, manifest, or other shipping document listing the quantity of bottled wine by brand name and corresponding

registration number of approval which is being shipped, delivered or introduced into this state.

(3) A manufacturer, rectifier, or outstate seller of wine responsible for labeling shall furnish proof upon request that valid certificates of approval for the label have been obtained from and are unrevoked under the federal labeling requirements as published in title 27, part 4, subpart D, C.F.R., 1935, as amended, as of June 1, 1975.

(4) A shipment of bottled wine from a manufacturer or an outstate seller of wine shall be made only to a licensed wholesaler at the address of the licensed premises except upon written order of the commission.

History: 1954 ACS 64, p. 54, Eff. Sept. 1, 1970; 1954 ACS 85, p. 37, Eff. Nov. 6, 1975; 1954 ACS 89, p. 139, Eff. Oct. 2, 1976.

R 436.1720 Invoice for bottled wine.

Rule 20. (1) When an outstate seller of wine sells bottled wine in this state:

(a) One copy of the invoice listing the quantity of bottled wine by brand name and corresponding registration number of approval shall immediately be submitted to the commission and 2 copies of the same invoice shall immediately be submitted to the wholesaler by the outstate seller of wine.

(b) Two copies of the invoice, manifest, or other shipping document shall accompany the bottled wine into the state and be delivered to the wholesaler receiving the shipment. The wholesaler shall state on a copy of the invoice the date of payment for the bottled wine, the type of instrument used for payment, and the check number or other identification number listed on the instrument used for payment. This invoice shall be submitted to the commission as provided in R 436.1725.

(2) If a wholesaler receives a shipment of bottled wine and the invoice, manifest, or other shipping document accompanying the bottled wine is incorrect, the wholesaler shall immediately send a copy of the invoice, manifest, or other shipping document to the commission accompanied by an affidavit stating the reasons why the invoice, manifest, or other shipping document is incorrect and listing the actual contents of the shipment by quantity, brand and size of bottle.

(3) When a person who resides in this state buys bottled wine for delivery into this state for personal use and not for resale, the person shall submit a copy of the invoice to the commission with the proper tax payment before the bottled wine is brought into this state.

History: 1954 ACS 89, p. 140, Eff. Oct. 2, 1976.

R 436.1721 Requirements for sale of bulk wine.

Rule 21. (1) A manufacturer or outstate seller of wine may sell bulk wine of any alcoholic content for blending purposes and nonbeverage purposes without an additional license.

(2) Bulk wine shall not be offered for sale, kept for sale, sold, delivered or otherwise introduced into this state unless it is approved for sale by the commission and accompanied by a release form, a supply of which shall be furnished by the commission upon request. The release shall be signed by an outstate seller of wine or an authorized agent of the outstate seller of wine.

(3) When bulk wine is received by a consignee on a release issued by the commission, the consignee shall immediately submit to the commission a copy of the invoice listing the shipment. Upon request the consignee shall readily make available to a commission inspector a copy of the release, the bill of lading, and a copy of the vendor's invoice.

History: 1954 ACS 64, p. 54, Eff. Sept. 1, 1970; 1954 ACS 89, p. 140, Eff. Oct. 2, 1976.

R 436.1722 Transportation of wine.

Rule 22. (1) All instruments of transportation including railroads, steamship lines, express companies, common carriers, or other transporting companies are prohibited from accepting or delivering wine to any person in this state except in accordance with the following:

(a) A copy of a release approved by a representative of the commission shall accompany the bill of lading for shipments of bulk wine made to a person or licensee in this state.

(b) A release is not required when bottled wine of any kind is shipped with a bill of lading addressed to or in care of the commission.

(2) A truck driver of a manufacturer or outstate seller of bottled wine shall have invoices and bills of lading available for inspection by commission representatives and law enforcement agencies.

History: 1954 ACS 64, p. 54, Eff. Sept. 1, 1970; 1954 ACS 89, p. 140, Eff. Oct. 2, 1976.

R 436.1723 Tax credit for damaged bottled wine.

Rule 23. If an outstate seller of wine or a manufacturer of wine wishes to receive a tax credit for bottled wine damaged in transit to the wholesaler, the outstate seller of wine or manufacturer of wine shall submit to the commission an affidavit listing the invoice number containing the shipment, the amount of wine damaged, the brand of wine damaged, and to whom the shipment was made. The commission may require verification that the wine was damaged before authorizing a tax credit.

History: 1954 ACS 64, p. 54, Eff. Sept. 1, 1970; 1954 ACS 89, p. 141, Eff. Oct. 2, 1976.

R 436.1724 Sacramental wine.

Rule 24. (1) A manufacturer, outstate seller of wine, or wholesaler may sell wine to a church for use only in sacramental or religious rites.

(2) A manufacturer, outstate seller of wine, or wholesaler who sells wine for sacramental or religious rites shall file a quarterly report with the commission on a form approved by the commission listing the amount of such sales. The report shall be submitted to the commission by January 15, April 15, July 15, and October 15 of each year.

History: 1954 ACS 64, p. 54, Eff. Sept. 1, 1970; 1954 ACS 89, p. 141, Eff. Oct. 2, 1976.

R 436.1725 Reports of manufacturers, wholesalers, and outstate sellers.

Rule 25. (1) By the fifteenth day of each month each manufacturer of wine shall submit a monthly report of operations for the preceding month on forms approved by the commission. Payment for the proper amount of tax due shall be included with the report. The report shall be in the form of an affidavit and shall require, among other things, the following:

(a) Total sales and deliveries of wine made in this state.

(b) Total sales and deliveries of wine made outside of this state. Invoices made on sales and deliveries of wine made outside of this state shall accompany the report.

(2) By the fifteenth of each month each outstate seller of wine shall submit a monthly sales report to the commission for the preceding month on a form approved by the commission. Payment for the proper amount of tax due shall be included with the report. The report shall be in the form of an affidavit and shall require, among other things, the total sales and deliveries of wine made in this state during the preceding month.

(3) Each outstate seller of wine shall submit a quarterly report to the commission on a form approved by the commission. The report shall be submitted by January 15, April 15, July 15, and October 15 of each year. The report shall be in the form of an affidavit and shall require, among other things, the following:

(a) Total sales and deliveries of wine made into this state during the preceding quarterly period and the amount of tax due.

(b) The date upon which each shipment was made, the name and location of the licensee who received the wine, the invoice number of the shipment, and the brand and the quantities delivered.

(4) Each wholesaler of wine shall submit a quarterly report to the commission. The report shall be submitted by January 15, April 15, July 15, and October 15 of each year. One copy of each invoice received by the wholesaler from an outstate seller of wine which lists wine shipped by the outstate seller of wine to the wholesaler shall be included with the quarterly report. The report shall be in the form of an affidavit and shall require, among other things, the following:

(a) Total purchases and shipments received by the wholesaler from outstate sellers of wine during the preceding quarterly period and the amount paid.

(b) The date upon which each shipment was received by the wholesaler from an outstate seller of wine, the name and location of each outstate seller of wine from whom the wholesaler received wine, the invoice number of the shipment and the brand and quantities shipped.

History: 1954 ACS 89, p. 141, Eff. Oct. 2, 1976.

R 436.1726 Price schedule.

Rule 26. A manufacturer or wholesaler shall file with the commission in Lansing on or before January 1, April 1, July 1, and October 1 of each year a schedule of the prices to the retailer. The prices shall not be changed during that quarterly period, unless approved by written order of the commission.

History: 1954 ACS 89, p. 142, Eff. Oct. 2, 1976.

R 436.1727 Records.

Rule 27. (1) The production and sales records of the manufacturer shall be maintained in order and available for inspection for the 4 most recent years.

(2) A wholesaler of wine shall maintain records of its purchases and sales of alcoholic liquor. The records shall be maintained and available for inspection for the 4 most recent years.

(3) A manufacturer or wholesaler of wine shall maintain complete records of the expenses of their licensed salesmen and representatives and complete records of the total compensation paid to their licensed salesmen and representatives. These records shall be maintained and available for inspection for the 4 most recent years.

History: 1954 ACS 64, p. 55, Eff. Sept. 1, 1970; 1954 ACS 89, p. 142, Eff. Oct. 2, 1976.

R 436.1728 Inspection; analysis; enforcement.

Rule 28. (1) The books, records and premises of all licensees shall be available to the commission representative at all times. The licensees shall give any assistance and provide the facilities required for the inspection and analysis.

(2) The commission may demand a sample of any wine shipped into this state and offered for sale or sold for analytical and inspection purposes.

(3) The commission reserves the right to confiscate wine or other alcoholic beverage unless the beverage complies with these rules and the act. The wine confiscated shall be subject to disposition by order of the commission.

R 436.1731 Reception rooms.

Rule 31. The wine room maintained by a manufacturer, defined in section 2j of the act, for dispensing or serving of alcoholic beverages shall be closed to the public at 9:00 p.m. daily and shall not open before 8:00 a.m. the following day.

History: 1954 ACS 64, p. 55, Eff. Sept. 1, 1970.

R 436.1735 Prohibited acts; penalties.

Rule 35. (1) A licensee shall not fail, neglect, or refuse to submit a report required by these rules or submit a false or incomplete report required by these rules.

(2) A licensee shall not refuse to permit a commission representative to examine the wine books, records, invoices, or other papers kept by the licensee in regard to the licensed business.

(3) A licensee shall not falsely label a container in which wine is placed for sale, or use or give a false or fictitious name, or use or give a false or fictitious address in an application or form required by these rules, or otherwise make a material misrepresentation in an application, record or report.

(4) A licensee shall not engage in tied-in sales of beer, wine, or beer and wine.

(5) Bottled wine or wine containers shall not be returned to a wholesaler or manufacturer except as provided by written order of the commission.

(6) A licensee who violates these rules may be subject to a fine, suspension, or revocation of the license.

History: 1954 ACS 64, p. 55, Eff. Sept. 1, 1970; 1954 ACS 89, p. 142, Eff. Oct. 2, 1976.

R 436.1749 Rescissions.

Rule 49. The following rules are rescinded:

(a) Rule 19 of the rules entitled "Retail Licensees Selling Alcoholic Beverages for Consumption on the Premises," being R 436.19 of the Michigan Administrative Code, and appearing on page 5306 of the 1954 volume of the Code.

(b) Rule 15 of the rules entitled "Retail Licensees Selling Beer and Wine for Consumption off the Premises," being R 436.65 of the Michigan Administrative Code, and appearing on page 5310 of the 1954 volume of the Code.

(c) Rules entitled "Manufacture, Importation, Transportation, Standards of Identity and Quality, Labeling, Possession and Sale of Wines," being R 436.251 to R 436.422 of the Michigan Administrative Code, and appearing on pages 5333 to 5370 of the 1954 volume of the Code.

History: 1954 ACS 64, p. 55, Eff. Sept. 1, 1970.

SPIRITS

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, being §436.7 of the Michigan Compiled Laws)

R 436.1801 Definitions.

Rule 1. The terms defined in the Michigan liquor control act and the commission rules have the same meaning when used in these rules.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1803 Building and health laws and ordinances.

Rule 3. A manufacturer of spirits shall comply with all state and local building and health laws and ordinances.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1805 Equipment.

Rule 5. A manufacturer of spirits shall possess the necessary equipment for a satisfactory operation which shall be maintained in good working order and in a sanitary condition. The commission may establish specific equipment requirements by written order.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1807 Agricultural product compliance with law.

Rule 7. Agricultural products processed by a manufacturer of spirits shall comply with state laws and rules of the department of agriculture.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1809 Sellers of alcohol.

Rule 9. (1) A seller of alcohol license is required for the sale of alcohol in this state.

(2) A seller of alcohol license shall be issued, pursuant to the act and commission rules, to the following:

(a) A person who is the holder of the required basic permit issued under the federal alcohol administration act.

(b) A person who has paid the annual license fee and furnished the surety bond set by written order of the commission.

(3) A seller of alcohol licensee may sell an unlimited quantity of alcohol to the following:

(a) A licensed distiller, rectifier or manufacturer of wine, for fortifying and blending purposes.

(b) A licensed industrial manufacturer for use in manufacturing products for nonbeverage purposes.

(4) A seller of alcohol licensee may sell a limited quantity of alcohol to persons holding a federal tax free alcohol permit, such quantity to be set by written order of the commission.

(5) A shipment into this state from a seller of alcohol licensee shall have a release from the commission.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1811 Industrial manufacturers.

Rule 11. (1) An industrial manufacturer license is required to secure alcohol and bulk alcoholic liquors for exclusive use in manufacturing products for nonbeverage purposes.

(2) An industrial manufacturer license shall be issued, pursuant to the act and commission rules, to the following:

(a) A person who is the holder of the required basic permit issued under the federal alcohol administration act.

(b) A person who has paid the annual license fee and furnished the surety bond set by written order of the commission.

(3) An industrial manufacturer licensee shall buy alcohol only from the commission or from a licensee of the commission.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1813 Limited alcohol buyers.

Rule 13. (1) A limited alcohol buyer license is required to secure alcohol for medicinal, mechanical, chemical or scientific purposes.

(2) A limited alcohol buyer license shall be issued, pursuant to the act and commission rules, to a person who has paid the annual fee set by written order of the commission.

(3) A limited alcohol buyer licensee shall buy alcohol only from the commission or from a licensee of the commission.

History: 1954 ACS 83, p. 48, Eff. May 2, 1975.

R 436.1815 Transportation.

Rule 15. Railroads, steamship lines, express companies, and common carriers of other transporting companies are prohibited from accepting or delivering spirits to any person in this state except in accordance with the following:

(a) A copy of a release approved by a representative of the commission shall accompany the bill of lading for shipments of spirits made to a person or licensee in this state.

(b) A release is not required when bottled spirits are shipped with a bill of lading addressed to or in care of the commission.

History: 1954 ACS 83, p. 49, Eff. May 2, 1975.

R 436.1817 Warehouse receipts.

Rule 17. A person shall not sell, offer for sale or in any manner assign or transfer in this state warehouse receipts for spirits, wherever the spirits are located, except as follows:

(a) An isolated transaction in which a warehouse receipt for spirits is sold, offered for sale or delivered by a bona fide owner or pledgee thereof, such sale or offer for sale or delivery not being made in the course of repeated or successive transactions of a like character by the owner or pledgee, and the owner or pledgee not being a dealer or issuer or salesman of such warehouse receipts.

(b) A sale of warehouse receipts for spirits by a manufacturer.

(c) A sale made to a bank, trust company, insurance company, or broker or dealer in warehouse receipts for spirits.

History: 1954 ACS 83, p. 49, Eff. May 2, 1975.

R 436.1819 Prohibited acts by licensees.

Rule 19. (1) A licensee shall not fail, neglect or refuse to make a report required by these rules or refuse to permit commission representatives to examine his books, federal tax stamps, records, invoices or other papers pertaining thereto, or any stock of spirits in his possession or custody, or make an incomplete, false or fraudulent report or do anything to avoid a full disclosure of the amount of spirits subject to tax.

(2) A licensee shall not falsely label a container in which spirits are placed for sale, or use or give a false or fictitious name, or use or give a false or fictitious address in an application or form required by these rules, or otherwise commit a fraud in an application, record or report.

History: 1954 ACS 83, p. 49, Eff. May 2, 1975.

R 436.1821 Damaged goods.

Rule 21. No rebates, refunds or adjustments on broken containers, damaged goods, or for other reasons, shall be made by a licensee to any other licensee except by written order of the commission.

History: 1954 ACS 83, p. 49, Eff. May 2, 1975.

R 436.1823 Rescissions.

Rule 23. The following rules are rescinded:

(a) The rules entitled "Rules and Regulations Governing Vendors and Agents Engaged in the Promotion of the Sale of Distilled Spirits in the State of Michigan," being R 436.131 to R 436.141 of the Michigan Administrative Code, and appearing on page 5319 of the 1954 volume of the Code.

(b) Rules entitled "Regulations for the Sale and Control of Alcohol, Spirits, Cologne Spirits, Whiskies, Brandies, High Wines, Low Wines for Beverage, Nonbeverage, Industrial, Medicinal, Mechanical, Chemical, Scientific and Tax Free Purposes," being R 436.431 to R 436.439 and R 436.450 of the Michigan Administrative Code, and appearing on pages 5371 to 5375 of the 1954 volume of the Code.

(c) Rule 6 of the rules entitled "Wines," being R 436.1706 of the Michigan Administrative Code and appearing on page 5788 of the 1970-71 Annual Supplements to the Code.

History: 1954 ACS 83, p. 49, Eff. May 2, 1975.

VENDOR REPRESENTATIVE AND SALESMAN

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, and section 230 of Act No. 380 of the Public Acts of 1965, being §§436.7 and 16.330 of the Michigan Compiled Laws)

R 436.1851 Definitions.

Rule 51. (1) The terms defined in the liquor control act, Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §§436.1 to 436.58 of the Michigan Compiled Laws, have the same meaning when used in these rules unless otherwise indicated.

(2) "Salesman" means a person employed by a vendor of spirits, manufacturer of beer, manufacturer of wine, outstate seller of beer, outstate seller of wine or wholesaler licensed by the commission to sell, deliver, promote or otherwise assist in the sale of alcoholic liquor in this state.

(3) "Sample of alcoholic liquor" means a bottle or can not exceeding 33.82 United States fluid ounces.

(4) "Vendor representative" means the person authorized by the manufacturer of beer, manufacturer of wine, outstate seller of wine, outstate seller of beer, or vendor of spirits and licensed by the commission to represent him in transactions with the commission.

(5) "Vendor of spirits" means a person selling spirits to the commission.

History: 1954 ACS 83, p. 50, Eff. May 2, 1975.

R 436.1853 Licenses.

Rule 53. (1) A vendor of spirits, manufacturer of beer, manufacturer of wine, outstate seller of beer, outstate seller of wine or wholesaler shall not employ a person to sell, deliver, promote or otherwise assist in the sale of alcoholic liquor in this state unless the person is licensed by the commission as a vendor representative or salesman and issued an identification card.

(2) The license fee shall be set by written order of the commission. The license shall be renewable on May 1, 1975, and every 3 years thereafter.

(3) A person shall not sell alcoholic liquor to the commission or to a wholesaler unless represented by a licensed vendor representative.

(4) A vendor representative shall obtain a separate license for each vendor of spirits, manufacturer of beer, manufacturer of wine, outstate seller of wine or outstate seller of beer represented.

(5) A person shall be at least 18 years of age before being issued a license.

History: 1954 ACS 83, p. 50, Eff. May 2, 1975.

R 436.1855 Identification cards.

Rule 55. (1) A vendor representative or salesman shall show his commission identification card upon request of a commission representative or law enforcement officer.

(2) A vendor representative or salesman shall show his commission identification card upon request before offering for sale or selling alcoholic liquor to a retail licensee.

History: 1954 ACS 83, p. 50, Eff. May 2, 1975.

R 436.1857 Common carriers.

Rule 57. A person employed by a common carrier is not required to be licensed under these rules.

History: 1954 ACS 83, p. 50, Eff. May 2, 1975.

R 436.1859 Prohibited acts.

Rule 59. (1) A vendor representative or salesman shall not:

(a) Grant, allow, pay or rebate cash or any other thing of value to a licensee, an agent, clerk or employee of a licensee, except upon written order of the commission.

(b) Purchase or deliver spirits to retail licensees.

(c) Deliver beer or wine to retail licensees in vehicles not approved by the commission.

(d) Be employed by a retail licensee on a paid or any other basis.

(e) Furnish entertainment or a gratuity of any kind to commission employees. The word "entertainment" shall not be construed to include normal business meals.

(2) A licensee employed to deliver alcoholic liquor shall not consume alcoholic liquor while on duty or in the course of employment.

(3) A vendor representative or salesman shall not advise a licensee on the liquor control act or commission rules.

History: 1954 ACS 83, p. 50, Eff. May 2, 1975.

R 436.1861 Promotions.

Rule 61. A vendor representative and a salesman may promote those brands of alcoholic liquor approved by the commission. This may include the use of the spirit special order form approved by the commission and sample bottles and cans.

History: 1954 ACS 83, p. 51, Eff. May 2, 1975.

R 436.1863 Samples.

Rule 63. (1) A sample of alcoholic liquor shall have affixed on a separate label or on the commercial label the word "Sample" at least ½ inch high.

(2) Only 1 open sample bottle or can of alcoholic liquor may be given to a retail licensee for his personal sampling.

(3) A vendor of spirits, manufacturer of beer, manufacturer of wine, outstate seller of wine, outstate seller of beer, vendor representative, salesman or other

licensees shall not assist in the violation of the liquor control act or commission rules.

History: 1954 ACS 83, p. 51, Eff. May 2, 1975.

R 436.1865 Expenses and expense records.

Rule 65. (1) A vendor representative and salesman of a vendor of spirits, manufacturer of beer, manufacturer of wine, outstate seller of beer, outstate seller of wine or wholesaler shall maintain an accurate record of expenditures for each call on a retail licensee. These records shall be maintained for 4 years and be available for commission inspection.

(2) A vendor representative or salesman of spirits or wine, for promotional purposes, may purchase 1 drink for each customer of an on premise retail licensee only. The drink purchased shall be of the brand represented by the vendor representative or salesman.

(3) A vendor representative or salesman of a manufacturer of beer, a wholesaler of beer or an outstate seller of beer, for promotional purposes, may purchase 1 drink for 1 customer of the on premise licensee. The drink purchased shall be of the brand represented by the vendor representative or salesman.

(4) A licensee employed to deliver alcoholic liquor shall not purchase drinks of alcoholic liquors for a retail licensee while on duty or in the course of employment.

History: 1954 ACS 83, p. 51, Eff. May 2, 1975.

R 436.1869 Rescissions.

Rule 69. The rules of the commission entitled "Rules and Regulations Governing the Relationship between Licensed Manufacturers, Wholesalers of Alcoholic Liquors, their Sales Representatives and Retail Licensees," being R 436.521 to R 436.534, R 436.549 to R 436.555, R 436.558, R 436.560 and R 436.570 of the Michigan Administrative Code and appearing on pages 5383 to 5384 and 5386 to 5388 of the 1954 volume of the Code are rescinded.

History: 1954 ACS 83, p. 51, Eff. May 2, 1975.

HEARING AND APPEAL PRACTICE

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, section 230 of Act No. 380 of the Public Acts of 1965, and section 33 of Act No. 306 of the Public Acts of 1969, being §§436.7, 16.330, and 24.233 of the Michigan Compiled Laws)

R 436.1901 Definitions.

Rule 1. (1) "Act" means Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws.

(2) The terms defined in the act and in the general rules of the commission have the same meaning when used in these rules.

History: 1954 ACS 90, p. 45, Eff. Jan. 25, 1977.

R 436.1903 Hearings; transcripts.

Rule 3. (1) All hearings shall be open to the public.

(2) A copy of the transcript of the testimony taken at a hearing before the commission shall be available upon written request to the commission and payment of the commission's prescribed fees which shall be set by written order of the commission.

History: 1954 ACS 90, p. 45, Eff. Jan. 25, 1977.

R 436.1905 Violations; violation report; complaint; notice of hearing.

Rule 5. (1) Alleged violations of the act or commission rules shall be stated on a violation report form and shall be submitted to the licensing and enforcement division of the commission.

(2) A complaint specifying the particular section of the act or commission rules allegedly violated by the licensee may be prepared for the licensing and enforcement division at the direction of an assistant attorney general.

(3) Each complaint shall be assigned a number which shall be placed on all papers filed in the proceedings.

(4) The complaint shall be served by the licensing and enforcement division on the licensee in person or by mail to the licensed address not less than 20 days before the scheduled hearing date. The licensed address shall be the address of the licensed establishment unless the licensee has submitted in writing to the commission a different address for the receipt of mail. The complaint shall advise the licensee of the licensee's right to request a copy of the violation report.

(5) Notice of hearing on a complaint which indicates the date scheduled for the hearing shall be served by the licensing and enforcement division on the licensee at the address of the licensee as specified in subrule (4) not less than 10 days before the date of hearing.

(6) The hearing notice shall advise the licensee of the licensee's right to be represented by an attorney at the hearing.

(7) The complaint and notice of hearing on the complaint shall be substantially in accordance with forms prescribed by the commission.

History: 1954 ACS 90, p. 45, Eff. Jan. 25, 1977.

R 436.1907 Waiver of hearing; acknowledgment of violation.

Rule 7. (1) A licensee who is cited in a complaint for an alleged violation of the act or commission rules may waive the right to a hearing on the complaint and acknowledge the violation or violations specified in the complaint.

(2) The waiver and acknowledgment constitute an authorization to the hearing commissioner to enter, without a hearing, an order which the hearing commissioner deems appropriate.

(3) The waiver of the right to hearing and acknowledgment of the violation shall be on the reverse side of the complaint form and as prescribed by the commission. The waiver and acknowledgment form shall provide that the licensee may explain, on a separate sheet of paper, any mitigating circumstances which the licensee believes should be considered in disposing of the violation.

History: 1954 ACS 90, p. 45, Eff. Jan. 25, 1977.

R 436.1909 Violation hearing.

Rule 9. (1) A hearing commissioner shall conduct the violation hearing on the complaint. Findings of fact, conclusions of law, and an order shall be mailed to the licensee and the licensee's attorney of record within 20 days after the completion of the hearing, except upon written order of the commission extending the time period.

(2) In violation hearings where the licensee is not represented by an attorney at law, the hearing commissioner shall open the hearing by advising the licensee of the following rights:

(a) Right to present evidence.

(b) Right to cross-examine commission witnesses.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1910 Violation rehearing.

Rule 10. (1) After a violation hearing a licensee who alleges new evidence may request a rehearing before the hearing commissioner who issued the original order. A request for a rehearing shall be submitted in writing to the commission in Lansing within 20 days after the date of the mailing of the original order.

(2) If a request for a rehearing in a violation matter is granted by the hearing commissioner, the licensee or the licensee's attorney of record shall be notified of the rehearing not less than 10 days prior to the date of the rehearing.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1911 Costs.

Rule 11. Where the hearing commissioner renders a decision that a violation occurred, the hearing commissioner may assess actual costs of the proceeding against the licensee.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1913 Personal appearance of licensee.

Rule 13. (1) At a violation hearing, depending on the form of license, there shall personally appear 1 of the following:

(a) The individual licensee.

(b) At least 1 co-licensee.

(c) At least 1 partner of a partnership licensee.

(d) At least 1 officer of a corporate licensee.

(2) Subrule (1) may be waived by the hearing commissioner where a formal appearance has been filed by an attorney at law in good standing in this state.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1915 Failure to personally appear at violation hearings.

Rule 15. (1) If a proper appearance by a licensee is not made at a scheduled violation hearing in accordance with R 436.1913 the presiding hearing commissioner may:

(a) Grant an adjournment without testimony being taken.

(b) Order testimony taken and then adjourn the proceedings until rescheduled.

(c) Order the immediate suspension of the license until a proper appearance is made at a rescheduled hearing.

(d) Issue a decision of default.

(e) Proceed with the hearing and render a decision.

(2) If an adjournment is granted after testimony is taken and the licensee, at a rescheduled hearing, desires to cross-examine the commission witnesses who have already testified, the commission witnesses shall be produced by, and at the expense of, the licensee under the provisions of the commission rules.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1917 Violation appeal hearings; appeal board.

Rule 17. (1) A licensee aggrieved by an order of a hearing commissioner as a result of a complaint may request a violation appeal hearing which may be granted at the discretion of the appeal board.

(2) The violation appeal board consists of the 3 administrative commissioners who shall conduct violation appeal hearings.

(3) A request for a violation appeal hearing shall identify the date of the violation hearing, the order which was issued as a result of the violation hearing, and the licensee's reasons for requesting an appeal.

(4) The request for a violation appeal hearing shall consist of 4 copies which shall be sent, by certified mail, to the Lansing office of the commission accompanied by a check or money order for $25.00 within 20 days from the date of the mailing of the order from which the appeal is taken.

(5) An appeal based on a claim of error shall specify all findings of fact and conclusions of law claimed to be erroneous, with a brief statement of the grounds for claiming error.

(6) A request for a violation appeal hearing, which is sent to the commission after 20 days from the date of the mailing of the order from which the appeal is taken, may be granted in the discretion of the commission if the delay is not due to the culpable negligence of the licensee appellant.

(7) An answer to a request for an appeal from a violation may be prepared by an assistant attorney general prior to the date of the appeal hearing.

History: 1954 ACS 90, p. 46, Eff. Jan. 25, 1977.

R 436.1919 Appeal notice.

Rule 19. If a request for a violation appeal hearing is granted, the appeal board shall notify the licensee, or the licensee's attorney of record, of the appeal hearing not less than 10 days prior to the date of the appeal hearing.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1921 Violation appeal hearings; burden of proceeding.

Rule 21. (1) Violation appeal hearings which are granted by the appeal board shall be limited to the official record of the original hearing.

(2) In violation appeal hearings, the licensee has the burden of proceeding with reasons and arguments for revision or reversal of the order of the hearing commissioner.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1923 Violation appeal hearing decision.

Rule 23. (1) The decision of the appeal board on a violation appeal hearing shall be mailed to the licensee and the licensee's attorney of record within 30 days after the hearing, except upon written order of the commission extending the time period.

(2) The decision of the appeal board shall be in writing and shall do 1 of the following:

(a) Affirm the order of the hearing commissioner.

(b) Modify the order of the hearing commissioner.

(c) Rescind the order of the hearing commissioner.

(d) Remand the case back to the hearing commissioner who issued the original order.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1925 Hearings on matters other than violations.

Rule 25. (1) The commission, on its own motion, may order a hearing on a matter within its jurisdiction.

(2) Applications for a license issued under the act or commission rules shall be reviewed by the administrative commissioners. If a license application is denied, the aggrieved license applicant may request an appeal hearing, and the commission shall grant the hearing. The request shall be made to the Lansing office of the commission within 20 days from the date of the mailing of the decision of denial.

(3) The chairman may designate 1 or more commissioners to hear matters other than a violation of the act or commission rules.

(4) In a hearing on matters other than a violation of the act or commission rules, the commission may, in its discretion, determine which party has the burden of proceeding.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1927 Filing of papers.

Rule 27. (1) All documents and papers pertaining to a hearing or appeal hearing shall be filed at the Lansing office of the commission.

(2) The presiding commissioner may allow papers to be filed at a hearing or appeal hearing.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1929 Subpoena.

Rule 29. (1) On written application, the commission or the authorized agent of the commission shall issue a subpoena requiring the attendance of witnesses at the time and place of hearing or appeal hearing. Subpoena and witness fees shall be set by written order of the commission.

(2) The application for subpoena shall indicate the name and address of the witness. The person requesting the issuance of the subpoena is responsible for the service of the subpoena.

History: 1954 ACS 90, p. 47, Eff. Jan. 25, 1977.

R 436.1931 Postponements; continuances.

Rule 31. (1) Requests for postponements shall be made in writing not less than 2 working days before the violation hearing or appeal hearing date unless waived by a commissioner. The written request may be granted by a commissioner or a duly authorized agent of the commission.

(2) Requests for continuance for cause may be granted by the presiding commissioner at the hearing or appeal hearing.

History: 1954 ACS 90, p. 48, Eff. Jan. 25, 1977.

R 436.1933 Attorney at law.

Rule 33. In addition to the appearance required by R 436.1913, a licensee or an aggrieved license applicant may be represented at a hearing by a licensed attorney at law in good standing in this state. The attorney shall file a written appearance with the commission before or at the time of the hearing.

History: 1954 ACS 90, p. 48, Eff. Jan. 25, 1977

R 436.1935 Rescissions.

Rule 35. The following rules are rescinded:

(a) Rules entitled "Rules of Procedure on Appeal to the Appeal Board," being R 436.701 to R 436.711 of the Michigan Administrative Code and appearing on pages 1526 and 1527 of the 1960 Annual Supplement to the Code.

(b) Rules entitled "Rules of Practice and Hearing Procedure Upon Violations," being R 436.751 to R 436.767 of the Michigan Administrative Code and appearing on pages 1527 to 1531 of the 1960 Annual Supplement to the Code.

History: 1954 ACS 90, p. 48, Eff. Jan. 25, 1977

CHURCH OR SCHOOL HEARINGS

(By authority conferred on the liquor control commission by sections 7 and 17a of Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, and section 33 of Act No. 306 of the Public Acts of 1969, being §§436.7, 436.17a, and 24.233 of the Michigan Compiled Laws)

R 436.1951 "Act" defined.

Rule 1. As used in these rules, "act" means Act No. 8 of the Public Acts of the Extra Session of 1933, as amended, being §436.1 et seq. of the Michigan Compiled Laws.

History: 1954 ACS 87, p. 72, Eff. Apr. 16, 1976.

R 436.1953 Notice of application and proposed location.

Rule 3. If the commission determines through investigation that the proposed location of an applicant is within 500 feet of a church or school, as defined in sections 2c or 2y of the act, the clergyman of the church or superintendent of the school shall be notified of the application and the proposed location if the applicant desires 1 of the following:

(a) A new license to sell alcoholic liquor for consumption on the premises or the transfer of location of an existing license to sell alcoholic liquor for consumption on the premises.

(b) A new specially designated distributor license or the transfer of location of existing specially designated distributor license.

(c) A new specially designated merchant license in conjunction with a license to sell alcoholic liquor for consumption on the premises or the transfer of location of an existing specially designated merchant license in conjunction with a license to sell alcoholic liquor for consumption on the premises.

History: 1954 ACS 87, p. 72, Eff. Apr. 16, 1976.

R 436.1955 Filing of objection; copy to applicant; scheduling hearing.

Rule 5. (1) If the church or school objects to the issuance or transfer of location of the license, the governing body of the church or school, by resolution, shall file the specific objections in writing with the Lansing office of the commission within 15 days of receipt of notification, unless granted additional time by the commission.

(2) Upon receipt of the objections, the commission shall send a copy of the objections to the applicant.

(3) The commission shall schedule a hearing pursuant to section 17a of the act within a reasonable period of time after receipt of the objections, unless the governing body of the church or school notifies the commission in writing that the objections have been resolved by the applicant and are being withdrawn.

History: 1954 ACS 87, p. 72, Eff. Apr. 16, 1976.

R 436.1957 Notice of hearing; basis for conduct of hearing.

Rule 7. (1) The governing body of the church or school and the applicant shall receive notice of the hearing not less than 7 days before it is held.

(2) The hearing shall be conducted on the basis of the objections filed by the church or school.

History: 1954 ACS 87, p. 72, Eff. Apr. 16, 1976.

R 436.1959 Burden of proceeding, closing arguments.

Rule 9. (1) The commission may, in its discretion, determine which party shall have the burden of proceeding. The representative of the church or school may make the final argument.

(2) The representative of the church or school shall be prepared to show that the church or school which is objecting meets the definition of section 2c or 2y of the act.

History: 1954 ACS 87, p. 72, Eff. Apr. 16, 1976.

R 436.1961 Hearing; procedures; findings of fact and conclusions of law.

Rule 11. (1) The hearing shall be conducted pursuant to the procedures established for a contested case in Act No. 306 of the Public Acts of 1969, as amended, being §24.201 et seq. of the Michigan Compiled Laws.

(2) The commission shall make findings of fact and conclusions of law.

History: 1954 ACS 87, p. 73, Eff. Apr. 16, 1976.

R 436.1963 Granting of the waiver.

Rule 13. The commission shall waive the provisions of section 17a of the act where the applicant shows by competent, material and substantial evidence that a waiver of section 17a would not adversely affect the operation of the church or school.

History: 1954 ACS 87, p. 73, Eff. Apr. 16, 1976.

DECLARATORY RULINGS

(By authority conferred on the liquor control commission by section 7 of Act No. 8 of the Public Acts of the Extra Session of 1933 and section 63 of Act No. 306 of the Public Acts of 1969, being §§436.7 and 24.263 of the Michigan Compiled Laws)

R 436.1971 Request for declaratory ruling; form; contents.

Rule 1. (1) An interested person, hereinafter called a petitioner, who requests a declaratory ruling as to the applicability to an actual state of facts of a statute, rule, or order administered, promulgated, or issued by the commission shall do so in writing to the Lansing office of the commission.

(2) The written request shall contain the relevant and material facts, along with a reference to the statute, rule, or order applicable.

History: 1954 ACS 91, p. 95, Eff. May 13, 1977.

R 436.1973 Declaratory ruling; notice of issuance; request for information or arguments; hearing.

Rule 3. (1) Upon receipt of a request for a declaratory ruling, the commission shall have 30 days within which to notify the petitioner if a declaratory ruling shall be issued.

(2) If the commission grants the request for a declaratory ruling, the commission:

(a) May request more information from the petitioner.

(b) May request information from other interested parties.

(c) May request information from experts outside the commission.

(d) May request oral or written arguments from interested parties.

(e) May hold a hearing upon proper notice to all interested parties.

(f) Shall issue its declaratory ruling within 90 days after the receipt of the initial request.

History: 1954 ACS 91, p. 96, Eff. May 13, 1977.

DEPARTMENT OF STATE

BUREAU OF DRIVER AND VEHICLE SERVICES

EXPEDITING REGULAR SEARCH PROCESS

(By authority conferred on the secretary of state by section 9407 of Act No. 174 of the Public Acts of 1962, as amended, being §440.9407 of the Michigan Compiled Laws)

R 440.1 Definitions.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 174 of the Public Acts of 1962, as amended, being §440.1101 et seq. of the Michigan Compiled Laws.

(b) "Current certification" means certification to the end of the business day preceding the day of the request.

(c) "Expediting of the regular search process" means the process used by the secretary of state for obtaining information when responding to requests for expediting.

(d) "Personal delivery" means that the person requesting information shall appear personally, or through a representative, at the appropriate office of the secretary of state to obtain filing information relative to the act.

(e) "Request for expediting" means an inquiry which requests the secretary of state to provide information relative to a filing under the act on the day of the inquiry.

(2) The terms and definitions used in the act have the same meaning given therein when used in these rules.

History: 1954 ACS 90, p. 48, Eff. Jan. 15, 1977.

R 440.2 Requests for expediting; identification; method; certification date.

Rule 2. (1) A request for expediting shall be identified as such by the requestor.

(2) A request for expediting may be made by telephone, in person, or by mail.

(3) A request for expediting shall state whether the requestor desires current certification. If the requestor does not so state, the certification date shall be the normal certification date. The normal certification date is the date to which the secretary of state is certifying information by the regular search process as of the day of the request.

History: 1954 ACS 90, p. 48, Eff. Jan. 15, 1977.

R 440.3 Request for expediting; payment; account.

Rule 3. (1) A request for expediting shall not be accepted by the secretary of state by telephone unless the requestor has an account with the secretary of state and authorizes the secretary of state to make a charge to the account for the search.

(2) A request for expediting made in person or by mail shall be accompanied by cash or check, in the correct amount, for the statutory fee, or the requestor shall have an account with the secretary of state and shall authorize the secretary of state to make a charge to the account for the search.

History: 1954 ACS 90, p. 49, Eff. Jan. 15, 1977.

R 440.4 Response to request for expediting; mailing or personal delivery; time.

Rule 4. (1) The response to a request for expediting received by the secretary of state prior to 11:00 a.m. on a business day shall be available for mailing or personal delivery between 3:00 p.m. and 4:30 p.m. on the day the request is received.

(2) A request for expediting received by the secretary of state after 11:00 a.m. shall be considered a request for expediting and shall be processed on the next business day. If there is no personal delivery by the requestor on the day personal delivery is requested, the information shall be mailed.

(3) If the requestor specifies a current certification date in the request for expediting, the information shall be available on the day of the request by personal delivery only.

History: 1954 ACS 90, p. 49, Eff. Jan. 15, 1977.

R 440.5 Personal inspection of information; filing request; time; access to files; charges; separate request for certification, updating, or copying.

Rule 5. (1) A request for personal inspection of information filed with the secretary of state pursuant to the act shall specify a date and time for the personal inspection. The inspection shall be made not less than 3 business days after the request is received by the secretary of state.

(2) A request for personal inspection of files may be made by telephone, in person, or by mail.

(3) The requestor shall only be given access to files specified in writing by the requestor on the date of the request. The charge for personal inspection shall be the statutory fee for expediting of the regular search process, plus the regular statutory fee for each name of a debtor specified in the written request for inspection.

(4) The request for inspection of files shall not include a request for certification, updating, or copying of documents. A separate request shall be made for certification, updating, or copying by the secretary of state, and shall be subject to a separate statutory fee.

History: 1954 ACS 90, p. 49, Eff. Jan. 15, 1977.

R 440.6 Fees.

Rule 6. (1) The department shall charge the statutory fee for expediting of the regular search process, as provided by the act.

(2) Each separate name of a debtor set forth in a request for expediting shall be deemed a separate request for purposes of the statutory fee.

(3) Each time a requestor specifies that a request for expediting is being made, the request shall be deemed a separate request for purposes of the statutory fee.

History: 1954 ACS 90, p. 49, Eff. Jan. 15, 1977.

LIQUOR CONTROL COMMISSION

SIZE CLASSIFICATION RULES

(By authority conferred on the liquor control commission by section 3 of the Initiated Law of 1976, being §445.573 of the Michigan Compiled Laws)

R 445.1 Definitions.

Rule 1. (1) As used in these rules "act" means the Initiated Law of 1976, being §445.571 et seq. of the Michigan Compiled Laws.

(2) The terms defined in the act have the same meaning when used in these rules, unless otherwise indicated.

History: 1954 ACS 97, p. 85, Eff. Dec. 8, 1978.

R 445.3 Size classifications.

Rule 3. (1) The commission may certify beverage containers for beverages other than beer, ale, or other malt drink of whatever alcoholic content.

(2) The commission may certify beverage containers in 1 of the following size classifications: 7 oz.; 12 oz.; 16 oz.; 32 oz.; 64 oz.; 128 oz.; 2 liters.

(3) Additional size classifications may be certified if the beverage container is in compliance with section 2(7) and section 3(2), (3), and (4) of the act.

History: 1954 ACS 97, p. 85, Eff. Dec. 8, 1978.

CORPORATION AND SECURITIES BUREAU

FRANCHISES

(By authority conferred on the department of commerce by section 41 of Act No. 269 of the Public Acts of 1974, being §445.1541 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 445.101 Definitions and explanations of terms.

Rule 101. (1) "Act" means Act No. 269 of the Public Acts of 1974, being §445.1501 et seq. of the Michigan Compiled Laws. Terms defined in the act have the same meanings when used in these rules. Terms defined and explained herein have the same meanings when used in either the act or these rules.

(2) The words "fee or charge" as used in section 3(1) of the act include, but are not limited to:

(a) Present payments, deferred payments, and royalty payments required of the franchisee by the franchisor arising from sales of goods or services offered by the franchisee or its agents or affiliates, or payments as a condition to maintaining the franchise relationship other than payment for goods at a bona fide wholesale price.

(b) Payments for a lease or sale of real property in excess of a fair rental or market value. Among the criteria for evaluation of fair rental or market value shall be the location of the property, the physical attributes of the property, and what other lessees or purchasers have paid for similar property in comparable locations.

(c) Payments for services. These payments are presumed to be in part for the right granted to the franchisee to engage in the franchise business. Ideas,

instruction, training, and other programs are services and not goods, irrespective of whether offered, distributed, or communicated by word of mouth, through instructions or lectures, in written or printed form, by record or tape recording, or any combination thereof.

(d) Payments for ownership. These payments include transfer of a controlling interest in a business entity which holds a franchise, except those transfers where the franchise held is not the principal asset of the transferor and not part of a plan of distribution of franchises.

(e) Minimum purchase or minimum inventory requirements other than at a bona fide wholesale price for which there is a well-established market in this state.

(3) "Initial and deferred franchise fee" means the amount of the franchise fee charged at the time of entry into the business, whether paid in full upon commencement or paid on a deferred basis. For purposes of R 445.801, it does not include royalties or other franchise fees measured by the amount of goods or services sold during the operation of the franchise.

(4) "Prescribed in substantial part by the franchisor," as used in section 2(3)(a) of the act, shall be interpreted in light of the following:

(a) A marketing plan may be determined to be prescribed if the franchise or other written or oral agreement, the nature of the franchise business, or other circumstances permit or require the franchisee to follow an operating plan or standard operating procedure, or their substantial equivalent, promulgated by or for the franchisor. An operating plan or standard operating procedure includes required procedures, prohibitions against certain business practices, or recommended or offered practices, whether or not enforceable with economic sanctions.

(b) A marketing plan may be determined to be prescribed without regard to whether the franchisee is an independent contractor and not the agent of the franchisor, and notwithstanding provisions of a franchise or other agreement purporting to grant the franchisee complete freedom in operating his business.

(c) The presence of any of these factors, among others, indicates that a marketing plan or system is prescribed in substantial part by the franchisor:

(i) Representations by, or requirements of, the franchisor that the franchisee operate a business which can purchase a substantial portion of its goods solely from sources designated or approved by the franchisor.

(ii) Representations by, or requirements of, the franchisor that the franchisee follow an operating plan, standard procedure, training manual, or its substantial equivalent promulgated by the franchisor in the operation of the franchise, violations of which may, under the terms of the agreement, permit the franchisor to terminate or refuse to renew the agreement.

(iii) Representations by, or requirements of, the franchisor that the franchisee is limited as to type, quantity, or quality of any product or service the franchisee may sell, or that limit the franchisee as to the persons or accounts to which he may sell the franchisor's product or service.

(iv) Representations by, or requirements of, the franchisor that the franchisor aid or assist the franchisee in training or in obtaining locations or facilities for operation of the franchisee's business, or in marketing the franchisor's product or service.

(5) A franchisee's business is "substantially associated," as used in section 2(3)(b) of the act, with the franchisor's trademark, service mark, trade name, logotype, advertising, or other commercial symbol designating the franchisor or its affiliate if the franchise or other agreement, the nature of the franchise business, or other circumstances permit or require the franchisee to identify its

Digitized by Google

business to its customers primarily under that trademark, service mark, trade name, logotype, advertising, or other commercial symbol, hereinafter referred to collectively as the "franchisor's mark," or to otherwise use the franchisor's mark in a manner likely to convey to the public that it is an outlet of or represents directly or indirectly the franchisor. The following factors, among others, indicate that the business of a franchisee is substantially associated with the franchisor's mark:

(a) The identification of the franchisor's mark is utilized either by the franchisor or the franchisee to enhance the chances of the franchisee's success in respect to the franchisee's transactions with persons dealing in, or purchasing, the franchisor's products or services.

(b) An agreement or procedure providing for the franchisee to directly or indirectly contribute a portion of its operating revenue to the franchisor for advertising expenses.

(6) "Bona fide wholesale price," as used in section 3(1)(a) of the act, refers to a price which constitutes a fair payment for goods purchased at a comparable level of distribution, and no part of which constitutes a payment for the right to enter into, or continue in, the franchise business. Goods sold at a bona fide wholesale price may include, but are not limited to, goods sold to the franchisee for resale, as well as fixtures, equipment, raw materials, supplies, and other goods used by the franchisee in the conduct of the franchise business. The price charged for a trademarked product does not exceed its bona fide wholesale price merely because the price exceeds the wholesale price of nontrademarked products of comparable quality and specifications. If the trademarked product commands a premium price by virtue of the trademark it carries, the premium does not necessarily constitute the payment of a franchise fee. A payment made directly or indirectly by the franchisee to or for the benefit of the franchisor in excess of the bona fide wholesale price constitutes a franchise fee. Services, rental payments, and the lease of real or personal property are not within the category of "goods," irrespective of whether payment for the services or property constitutes a fair payment for comparable services or property. In a determination as to whether the price of goods arising from a marketing plan or system of a manufacturer, licensor, or a franchisor is a bona fide wholesale price, relevant cost, marketing, pricing, or payment information, among other factors, may be considered.

(7) The existence of a "well-established market," as used in section 3(1)(a) of the act, is a question of fact determined by the presence, among other factors, of the following:

(a) A number of presently existing wholesale and retail outlets of the franchisor or competitors in a similar line of business.

(b) The quantity and price of like or similar products presently sold in an existing geographical area in Michigan.

(c) The ability of the purchaser to resell at the suggested retail price of the manufacturer or wholesaler or at a reasonable markup over the purchaser's cost.

(d) The ability of the purchaser to return any unsold portion of the product without penalty.

(8) The existence of the following factors, among others, which shall be interpreted by considering the previous operating history of the franchisor and its existing franchisees, indicates an offer the terms of which would create an "unreasonable risk" of loss of investment or failure of a franchisee's business as used in section 13(c) of the act to a prospective franchisee:

(a) Offerings whereby a franchisor or an affiliated person has received, or will receive, a substantial portion of his income from the sale of franchises rather than from the sale of goods, services, or continuing royalties relating to the operation of

Digitized by Google

the franchise, and it appears to the administrator that the success of the franchisor's program is based on the sale of franchises rather than the sale of goods and services by the franchisee.

(b) Offerings where the natural person as a franchisor, or the officers, directors, partners, or affiliates of a franchisor, have received or will receive unreasonable front-end compensation from the payment of franchise fees in relation to the present and future services to be provided or the value of the franchise right prior to the establishment of the franchise.

(c) Offerings which permit the franchisor to directly or indirectly convey, assign, or otherwise transfer its responsibility to fulfill contractual obligations to franchisees unless the commitments to establish the franchise have been met or provided for and adequate provision has been made for providing further required contractual services, and the agreement shall so state.

(d) Offerings in which the franchisor is a shell or an undercapitalized corporation.

(e) Offerings which provide excessive compensation to a franchisor in relation to the services, goods, or value provided and their likely profit to the franchisee.

(f) Offerings which involve excessive sales commissions in relation to the likely profit to the franchisee.

(g) Offerings which provide that a franchisor may unilaterally, during the term of the franchise agreement, require unlimited or excessive increases in a royalty payment or require increases in price of goods and services other than on a uniform basis to all persons similarly situated.

(h) Offerings which permit or provide the opportunity for an excessive or improper conflict of interest between the franchisor and franchisee. Dual distribution systems shall not per se be construed as a conflict of interest.

(i) Offerings which permit or provide that the franchisor may receive from the franchisee, or arrange for third parties to receive a note or series of notes, singularly or in combination, not exceeding $15,000.00, without reserving to the franchisee a defense arising out of a default by the franchisor.

(j) Offerings which fail to provide that a franchisor shall, upon demand, furnish the franchisee an accurate annual financial statement, unless the franchisor is filing annual reports pursuant to the securities exchange act of 1934 or is registered under the Michigan franchise investment law.

(9) "Material change," as used in section 19 of the act, includes, but is not limited to:

(a) The termination, closing, or failure to renew, during a 3-month period, of the lesser of 10 or 10% of the franchises of a franchisor, regardless of location, except that franchisors with an excess of 200 existing franchises shall file a report only upon the termination, closing, or nonrenewal of 5% or more of its franchises, or the termination, closing, or failure to renew, during a 3-month period, of the greater of 3 or 10% of the franchises of a franchisor located in the state.

(b) A purchase of franchises by the franchisor in excess of 5% of its existing franchises during 6 consecutive months.

(c) A change in the franchise fees charged by the franchisor.

(d) A significant adverse change in any of the following:

(i) The obligations of the franchisee to purchase items from the franchisor or its designated sources.

(ii) The limitations or restrictions on the goods or services which the franchisee may offer to its customers.

(iii) The obligations to be performed by the franchisor.

(iv) The franchise contract or agreement, including amendments thereto.

(v) The franchisor's accounting system resulting in a 5% or greater change in its net profit or loss in any 6-month period.

(vi) The service, product, or model line.

(10) "Net worth," as used in section 6(2)(a) of the act, means the excess of assets over liabilities, which is derived by the use of generally accepted accounting principles consistently applied and documented in the form of a balance sheet, with the exception that:

(a) Intangible assets shall include only the liquidation value of the intangibles.

(b) Receivables of a franchisor due from its franchisees shall be stated with an appropriate asset offset or reserve for losses.

(c) Lump sum franchise fee receipts, or a portion thereof, shall be offset by a "liability" for accrued obligations to be performed in the future in consideration for receipt of the fees.

(11) "Officer" means the president, vice president, secretary, or treasurer of a corporation, or a person occupying a similar status or performing similar functions.

(12) "Specified number of days" means calendar days, including Saturdays, Sundays, and holidays, unless the act or rule specifically indicates that business days are intended.

(13) Wherever the context of these rules requires, in order to conform to the intent of the act, the term "franchisor," as used herein, shall include subfranchisor.

(14) "Administrator," as used in these rules, means the director of the department of commerce or the director of the corporation and securities bureau.

(15) For the purposes of regulations, agents shall be divided into 2 categories:

(a) Franchise agents who represent only 1 franchisor and who are regulated pursuant to part 6 of these rules.

(b) Franchise agents who represent more than 1 franchisor or who employ persons to assist in the sale of a franchise and who are regulated pursuant to part 7 of these rules.

(c) A franchise agent does not include the following:

(i) A person effecting transactions in a franchise exempted by sections 6(2)(c), (d), (e), (f), (g), (h), (j), or (k) of the act.

(ii) A partner, officer, or director of a franchisor whose personal history is described in the prospectus and who represents the franchisor in effecting the offer or sale of a franchise.

(iii) Other persons excluded by order in the discretion of the administrator from all or part of the requirements of part 6 or 7 of these rules if:

(A) The contact of such person with prospective franchisees is minimal and does not involve a solicitation to purchase a franchise, or

(B) The person is registered under the Michigan uniform securities act, acting with written approval of his registered broker-dealer.

(d) A franchise agent may only be a natural person.

History: 1954 ACS 87, p. 76, Eff. Apr. 10, 1976.

PART 2. REGISTRATION REQUIREMENTS

R 445.201 Documents accompanying application for registration or notification of exemption.

Rule 201. Without limiting the administrator's power to require additional information under section 8(t) of the act, an application for registration of a franchise, or a notification of an exemption pursuant to section 6(2)(a) or (b) of the act, shall be accompanied by:

(a) Upon request of the administrator, a copy of the current articles of incorporation and annual reports and amendments thereto, except that in the case of a partnership, the certificate of co-partnership shall be submitted. In the case of doing business under an assumed name, the assumed name certificate shall be submitted.

(b) A copy of any contractual agreement between the franchisor and franchise broker-agent relating to the sale of a franchise.

(c) A copy of the typical current franchise contract.

(d) A copy of the operations manual and policy manual, or their equivalent. The administrator shall, upon request, retain those portions of the document containing trade or business secrets as a confidential document. The administrator may, in its discretion, return an operations manual and policy manual, or their equivalent, if a determination is made that the document does not contain information necessary to establish legal or economic relationships between the franchisee and franchisor. The administrator may require delivery of portions to each prospective franchisee at least 1 week prior to sale. The franchisor may require execution by that prospective franchisee of an agreement of confidentiality on a form acceptable to the administrator.

(e) Other documents or information necessary to establish the legal and economic relationships to be created between the franchisee and franchisor.

(f) Documents or information filed with the federal trade commission under its franchise disclosure requirements.

(g) An irrevocable consent to service of process, pursuant to the act, in the prescribed form, or in a uniform form satisfactory to the administrator containing substantially the same provisions.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.202 Offering prospectus.

Rule 202. The offering prospectus shall be in the format and contain the information prescribed by the administrator. The form shall be available to the applicant at the administrator's office.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.203 Periodic reports of sales.

Rule 203. When the administrator deems necessary to assure compliance with sections 5 or 6 of the act, it may by order require that a registrant or person exempt pursuant to section 6(2)(a) or (b) of the act file periodic reports of sales in a format prescribed by the administrator.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.204 Conditions regarding sales.

Rule 204. In lieu of entry of a stop order pursuant to section 13 of the act, the administrator may impose conditions regarding the sale of franchises as necessary for the protection of the public.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.205 List of franchisees and current business addresses.

Rule 205. The franchisor shall at all times maintain a list of franchisees with current business addresses and provide the list to the administrator promptly upon request.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.206 Reports required.

Rule 206. Pursuant to the authority granted by sections 8(g), (r), and (t) of the act, the administrator may require franchisors, directly or indirectly offering to sell or selling franchises in this state under section 6(1) of the act, to file with the administrator, within a period of 120 days from the last date of its fiscal year, both of the following:

(a) A copy of their annual report, if any, and audited certified financial statements, or unaudited financial statements prepared by a certified public accountant if the requirement for audited financial statements has been waived by the administrator.

(b) A graphic representation of specific geographical sites sold to franchisees in Michigan in the last fiscal year, either by the franchisor or with franchisor approval of location.

History: 1954 ACS 87, p. 77, Eff. Apr. 10, 1976.

R 445.207 Failure to process application.

Rule 207. For purposes of section 13(h) of the act, an applicant has failed to diligently process an application when 7 consecutive months have elapsed since the submission of an application that has not become effective.

History: 1954 ACS 87, p. 78, Eff. Apr. 10, 1976.

R 445.208 Revising, amending, or supplementing prospectus or operations manual; review.

Rule 208. (1) If the prospectus, operations manual, or a part thereof becomes misleading as to a material fact, or omits to state a material fact necessary in order to make the statement made, in the light of the circumstances under which they are made, not misleading, it shall be revised or supplemented, and the revision or supplement shall be submitted to the administrator prior to use.

(2) The administrator shall promptly review the amendment and advise the registrant when the administrator's objection to the use of the amended prospectus ceases. An offer or sale shall not be made prior to notification by the administrator.

(3) If the registration renewal statement, or an amendment to an application for registration or notification of an exemption, alters the text of the offering prospectus, or of an item, exhibit, or other document previously filed as a part of an application for registration, or notification of an exemption, the changes in the text shall be indicated by means of underscoring or in some other appropriate manner.

History: 1954 ACS 87, p. 78, Eff. Apr. 10, 1976.

R 445.209 Permissible omissions.

Rule 209. The administrator may permit the omission of an item of information or document from a registration statement.

History: 1954 ACS 87, p. 78, Eff. Apr. 10, 1976.

R 445.210 Fees.

Rule 210. (1) The fee for filing an application for registration with the department shall be $500.00. The annual renewal registration fee shall be $250.00. The payment shall be in the form of check or money order made payable to the "State of Michigan" and shall not be postdated.

(2) The fee for filing a notification of exemption with the department for a transaction exempted from registration shall be $100.00 and shall be in the form of check or money order payable to the "State of Michigan" and shall not be postdated. The fee for filing a notification of exemption pursuant to section 6(2)(h), 6(2)(j), or 7 of the act shall be $10.00.

(3) If a company offers 2 or more franchises which are sufficiently similar in nature that it is feasible, in the opinion of the administrator, to combine the required application document and prospectus in a single application for registration, it may, at the request of the franchisor, authorize the filing of a single application for registration covering the similar franchises and the payment of a single filing fee covering the franchises.

(4) If a company offers 2 or more franchises which are sufficiently dissimilar that a single registration would tend to confuse prospective franchisees, the administrator may require separate registrations for each franchise and the payment of a separate fee for each franchise.

History: 1954 ACS 87, p. 78, Eff. Apr. 10, 1976.

R 445.211 Effectiveness of first filings.

Rule 211. (1) A franchise offering which becomes effective between January 13, 1975, and June 30, 1975, shall be registered, unless the administrator approves a different period of registration, for period determined according to the following schedule:

If the Franchisor's Name Commences With:	The Franchise Offering is Registered or Exempted for a Period of:
A through H	15 months from the effective date of registration or exemption
I through P	14 months from the effective date of registration or exemption
Q through Z	13 months from the effective date of registration or exemption

(2) This rule shall not be of force and effect on or after October 1, 1976.

History: 1954 ACS 87, p. 78, Eff. Apr. 10, 1976.

PART 3. ESCROW

R 445.301 Imposition of escrow.

Rule 301. If the department finds that the applicant failed to demonstrate that adequate financial arrangements were made to fulfill obligations to provide real estate, improvements, equipment, inventory, training, or other items included in an offering, the administrator may impose, as a condition to registration or exemption, an escrow of not more than 100% of the franchise fees and other funds paid by the franchisee or subfranchisor until these obligations are fulfilled.

History: 1954 ACS 87, p. 79, Eff. Apr. 10, 1976.

R 445.302 Escrow requirements.

Rule 302. When an escrow is imposed in connection with the registration or exemption of a franchise offering, the account shall comply with the following requirements:

(a) Checks shall be made payable to the depository approved by the administrator.

(b) The account shall be established in a bank or trust company acceptable to the administrator, and the funds shall be kept and maintained in an account separate and apart from the franchisor's business and personal accounts.

(c) All proceeds so deposited shall remain the property of the franchisee and shall not be subject to any liens or charges by the escrow agent, or judgments, garnishments, or creditor's claims against the franchisor until released to the franchisor as hereinafter provided. This escrow is for the benefit of each franchisee in the amount paid by each franchisee.

(d) At the administrator's discretion, a statement indicating the status of the escrow shall be furnished by the bank or trust company to the administrator.

(e) A trust or escrow agreement shall be entered into between the bank or trust company, and the franchisor, which shall state that its purpose is to protect the franchisee or subfranchisor and shall authorize the administrator to inspect the records of the bank or trust company, as trustee, relating thereto, and shall state that, upon order of the administrator or a court of competent jurisdiction, the trustee shall release and pay over the funds, or a portion thereof, to the franchisor, subfranchisor, or franchisee, as directed.

(f) The department, by its administrator, shall execute an acknowledgement on the face of each escrow or trust agreement. This acknowledgement indicates approval on the form and content of the agreement, but shall not be construed to make the department a party thereto.

History: 1954 ACS 87, p. 79, Eff. Apr. 10, 1976.

R 445.303 Purchase receipts.

Rule 303. When an escrow is imposed, the franchisor shall deliver to each franchisee or subfranchisor a purchase receipt in a form approved by the administrator. Purchase receipts shall be consecutively numbered and prepared in quadruplicate: The original given to the franchisee or subfranchisor, the first copy to the depository together with the payment received, the second copy retained by the franchisor, and the third copy sent to the administrator.

History: 1954 ACS 87, p. 79, Eff. Apr. 10, 1976.

R 445.304 Release of escrowed funds.

Rule 304. (1) The administrator shall authorize the depository to release to the franchisor those amounts of the escrowed funds applicable to a specified franchisee or subfranchisor upon a showing satisfactory to the administrator that the franchisor has fulfilled its obligations under the franchise agreement to establish the franchise, or that the escrow is not required for the protection of the franchisee.

(2) An application for an order of the administrator authorizing the release of escrowed funds to the franchisor shall be verified and shall contain:

(a) A statement of the franchisor that required proceeds from the sale of franchises have been placed with the depository in accordance with the terms and conditions of the escrow agreement.

(b) A franchisee's verified statement of completion of franchisor's obligations for release of funds from escrow.

(c) A statement of the depository signed by an appropriate officer setting forth the aggregate amount of escrowed funds placed with the depository when required by the administrator.

(d) The names of each franchisee or subfranchisor and the amount held in escrow for the account of the franchisee or subfranchisor.

(e) A showing that the franchisor, with respect to a franchise, the funds for which are sought to be released, has completely performed obligations, cited by reference to the franchise agreement and its provisions, to provide real estate, improvements, equipment, inventory, training, or other items.

(f) Other information the administrator may reasonably require.

(3) If the administrator finds that any conditions of this ageement have not been satisfied or that any provisions of the Michigan franchise investment law or rules have not been complied with, or the registration of the franchises has been revoked, then the administrator may withhold such authorization for release of funds by the escrow agent to the franchisor and may direct the full return of funds by the escrow agent to the franchisees.

History: 1954 ACS 87, p. 79, Eff. Apr. 10, 1976.

R 445.305 Surety bond in lieu of escrow.

Rule 305. (1) In lieu of the imposition of an escrow, a franchisor at his option may post a surety bond of a surety company in the amount required by the administrator as protection of the franchisees requires.

(2) The surety company must be authorized to transact business in Michigan.

(3) The administrator shall take into consideration the amount of the franchise fees and other fees to be charged as well as the number of franchises to be offered, granted, or sold in determining the initial amount of the surety bond and shall amend the amount as public interest requires, using the same factors.

(4) Should the franchisor fail to complete the obligations under the franchise contract to provide real estate, improvements, equipment, inventory, training, or other items included in the offering, the surety company may pay the appropriate money to the administrator or his designee, as obligee, for the benefit of all franchises in accordance with their contribution of franchise and other fees or amounts.

(5) If the surety bond expires or is cancelled and the franchisor is still under an obligation to provide real estate, improvements, equipment, inventory, training, or other items, the franchisor at his option may either post another surety bond or have an escrow of franchise and other fees imposed by the administrator. Until another surety bond acceptable to the administrator is purchased or escrow is imposed, the franchisor shall not make any new sales.

(6) The state may be a party to the surety bond and shall, through the administrator, review its form and content.

History: 1954 ACS 87, p. 80, Eff. Apr. 10, 1976.

PART 4. EXEMPT TRANSACTIONS

R 445.401 Exemptions based on franchisor's net worth or initial investment.

Rule 401. (1) Franchisors relying on the exemptions provided by sections 6(2)(a) or (b) of the act shall file the information required on the form and accompanying instructions currently prescribed by the administrator, as well as the documents listed in R 445.201.

(2) A franchisor seeking to claim the exemption provided by section 6(2)(a) or (b) of the act shall so state on the cover of its prospectus and agree to abide by the prospectus delivery requirements of section 16 of the act.

History: 1954 ACS 87, p. 80, Eff. Apr. 10, 1976.

R 445.402 Exemptions based on limited number of offerees.

Rule 402. The exemption provided by section 6(2)(k) of the act shall pertain to only those franchisors who:

(a) Do not have more than 1 existing franchise within or without the state prior to the offer of a franchise under this part, and

(b) Provide disclosure to the franchisee offeree as required in sections 5(1)(b) and 5(2) of the act.

History: 1954 ACS 87, p. 80, Eff. Apr. 10, 1976.

R 445.403 Reports to be filed.

Rule 403. (1) Franchisors, directly or indirectly offering to sell or selling franchises in this state under section 6(2)(a) or (b) of the act, shall file with the administrator, within a period of 120 days from the last day of its fiscal year, a copy of their annual report, if any, and an audited certified financial statement or unaudited financial statement prepared by a certified public accountant if the requirement for submission of an audited financial statement has been waived by the administrator.

(2) A franchisor, directly or indirectly offering to sell or selling franchises in this state under section 6(2)(a), (b), or (j) of the act, shall file with the administrator, within a period of 120 days from the last day of its fiscal year, graphic representations of the geographical locations sold to the franchisees in the state in the last fiscal year.

History: 1954 ACS 87, p. 80, Eff. Apr. 10, 1976.

R 445.404 Material changes to be reported.

Rule 404. Franchisors whose franchises are exempted under section 6(2)(a) or (b) of the act shall be required, as a condition of maintenance of the exemption after confirmation thereof as required by the act, to notify the administrator, in writing, within 30 days after the occurrence of any material fact or material change affecting the franchisor.

History: 1954 ACS 87, p. 81, Eff. Apr. 10, 1976.

R 445.405 Sales and offers by existing franchisees.

Rule 405. (1) A franchisee seeking to offer or sell a franchise for his own account, whose franchisor is currently registered or exempted under section 6(2)(a) or (b) of the act, shall comply with the following disclosure requirements by providing:

(a) The offeree with a copy of the franchisor's current prospectus.

(b) Full access to the books and records of the franchise in the actual or constructive possession of the franchisee.

(c) Full disclosure relating to the risks of the franchise of which the selling franchisee knows and which are not readily apparent to an offeree considering the purchase of that franchise.

(d) Additional material information relating to the franchisor known to the present franchisee.

(2) A franchisee seeking to offer or sell a franchise for his own account, whose franchisor is not currently registered under the act but was so registered or exempted under section 6(2)(a) or (b) of the act in the past, shall comply with the following disclosure requirements by providing:

(a) The offeree with the most recent prospectus of the franchisor used in this state or elsewhere.

(b) The offeree with access to the material reports and correspondence in the actual or constructive possession of the franchisee, from the franchisor, relating to the economic or legal relationship between the franchisee and the franchisor, from the date of the last prospectus to the present.

(c) Additional material information relating to the franchisor known to the present franchisee.

(d) Full access to the books and records of the franchise in the actual or constructive possession of the franchisee.

(e) Full disclosure relating to the risks of the franchise of which the selling franchisee knows and which are not readily apparent to an offeree considering purchase of that franchise.

(3) A franchisee seeking to offer or sell a franchise for his own account, whose franchisor is not now and has not been registered or exempted under section 6(2)(a) or (b) of the act, shall comply with the following disclosure requirements by providing:

(a) Full access to the books and records of the franchise in the actual or constructive possession of the franchisee.

(b) Full disclosure relating to the risks of the franchise of which the selling franchisee knows and which are readily apparent to an offeree considering purchase of that franchise.

(c) Additional material information relating to the franchisor known to the present franchisee.

(4) The franchisee shall, if requested by the franchisor, furnish an affidavit that he has complied with the above disclosure requirements.

(5) The exemptions provided by this section shall not be available to a franchisee who wishes to divide or subdivide his territory, exclusive or otherwise, and sell more than 1 portion or division, except upon written authorization of the administrator.

History: 1954 ACS 87, p. 81, Eff. Apr. 10, 1976.

PART 5. FINANCIAL STATEMENTS

R 445.501 Accounting principles.

Rule 501. A financial statement required to be filed in connection with an application for registration under section 6(1) of the act or for an exemption under section 6(2)(a) or (b) of the act shall be prepared in accordance with generally accepted accounting principles. A financial statement shall be audited by an independent certified public accountant, except when the particular form or these rules permit the use of an unaudited statement for an interim period or generally.

History: 1954 ACS 87, p. 81, Eff. Apr. 10, 1976.

R 445.502 Balance sheet; profit and loss statement; audit; auditor's opinion.

Rule 502. (1) The financial statement required to be filed by a franchisor refers to:

(a) A balance sheet as of a date within 90 days prior to the date of the application.

(b) A profit and loss statement for each of the 3 fiscal years preceding the date of the balance sheet and for the period, if any, between the close of the last of the fiscal years and the date of the balance sheet, unless this requirement is waived or modified by the administrator.

(2) If the balance sheet referred to in subrule (1)(a) is not audited, there shall be filed, in addition, an audited balance sheet as of the end of the franchisor's last fiscal year, unless such last fiscal year ended within 90 days of the date of the application, in which case there shall be filed an audited balance sheet as of the end of the franchisor's next preceding fiscal year.

(3) The profit and loss statement shall be audited up to the date of the last audited balance sheet filed, if any, unless this requirement is waived or modified by the administrator.

(4) The auditor's opinion shall be filed with the statement when an audited financial statement filing is required.

History: 1954 ACS 87, p. 82, Eff. Apr. 10, 1976.

R 445.503 Waiver of audit; conditions and restrictions.

Rule 503. (1) The administrator may, in his discretion, waive the requirement of audited statements:

(a) For small franchisors when a certified financial statement is not required for protection of the public, and the franchisor agrees to furnish a certified audit within a reasonable time.

(b) In extraordinary cases, if the statements have been prepared by an independent certified public accountant, and the administrator is otherwise satisfied as to the reliability of the statements and as to the ability of the franchisor to perform future commitments.

(2) A waiver shall ordinarily be granted only upon a showing that the franchisor has not had prior audited statements; that the close of the most recent or current fiscal year is so near the time of filing of the application that it would be unreasonably costly or impractical to provide audited statements with the application; and that audited statements shall be furnished within a reasonable time after the end of the most recent or current fiscal year. In those cases, the administrator may impose an impound condition and other conditions and restrictions, as in his discretion, he deems appropriate.

(3) The use of an unaudited financial statement as provided herein does not relieve the applicant or any person from liability for false and misleading statements contained in a financial statement.

(4) In all instances in which the requirement for audited financial statements has been waived for a specified period of time, a franchisee who purchases a franchise during that period shall be entitled to damages or rescission under the same terms as provided under section 31 of the act if, upon availability of audited financial statements or any other valid basis, it is revealed that material adverse financial conditions existed at the time of the purchase which were not disclosed, and the prospectus shall so state.

History: 1954 ACS 87, p. 82, Eff. Apr. 10, 1976.

R 445.504 Exempt franchisor.

Rule 504. A financial statement of a franchisor exempt from registration under section 6(2)(a), (b), or (j) of the act shall be certified and audited by an independent certified public accountant, unless that requirement is waived by the administrator as not in the public interest or for the protection of investors.

History: 1954 ACS 87, p. 82, Eff. Apr. 10, 1976.

R 445.505 Disclosure.

Rule 505. (1) Whenever an unaudited financial statement is utilized pursuant to this rule, it shall be accompanied by the following written disclosure or a substantially equivalent statement, immediately adjacent thereto, in 10-point type:

"THIS FINANCIAL STATEMENT IS PREPARED WITHOUT AN AUDIT. INVESTORS IN OR SELLERS OF FRANCHISES SHOULD BE ADVISED THAT A CERTIFIED PUBLIC ACCOUNTANT HAS NOT AUDITED THESE FIGURES OR EXPRESSED HIS OPINION WITH REGARD TO THEIR CONTENTS OR FORM."

(2) If an unaudited financial statement is referred to orally, it shall be accompanied by an oral statement containing a caveat approximating the language in subrule (1).

History: 1954 ACS 87, p. 82, Eff. Apr. 10, 1976.

R 445.506 Delays; updated statement or information.

Rule 506. (1) If amendments or other delays cause a financial statement to become more than 4 months old as of the effective date of the registration statement:

(a) An updated financial statement, as of a date within 4 months of the effective date, shall be filed if the franchisor fails to have an established record of earnings or is currently showing losses or a weak financial condition.

(b) A paragraph containing later information as to sales, net income, and financial condition may be added in lieu of updating the financial statement, in the discretion of the administrator, when the franchisor has an established record of earnings and is in sound financial condition.

(2) A financial statement shall be not more than 6 months old as of the effective date of the registration statement.

(3) If a delay carries the effective date beyond the end of the franchisor's fiscal year, and by applying due diligence the registrant and accountant may complete the audit prior to the effective date, a certified statement shall be filed as of the end of the fiscal year.

History: 1954 ACS 87, p. 83, Eff. Apr. 10, 1976.

R 445.507 Certified public accountant's opinion.

Rule 507. The certified public accountant's opinion shall comply with the following requirements:

(a) The opinion filed with the administrator shall be dated and manually signed, and shall identify the financial statement covered by the opinion.

(b) The opinion shall state whether the audit was made in accordance with generally accepted auditing standards, and shall disclose auditing procedures generally recognized as normal or deemed necessary under the circumstances of the particular case which have been omitted, and the reasons for the omission.

(c) The opinion shall state clearly:

(i) The opinion of the accountant with respect to the financial statement covered by the report and the accounting principles and practices reflected therein.

(ii) The opinion of the accountant as to any changes in accounting principles or practices which have a material effect on the financial statement.

(d) The opinion shall state, specifically and clearly, matters to which the accountant takes exception, and, to the extent practicable, the effect of each exception on the related financial statement, given either in the auditor's opinion or in a footnote to the financial statement.

History: 1954 ACS 87, p. 83, Eff. Apr. 10, 1976.

R 445.508 Certified public accountant's statement.

Rule 508. A financial statement filed with the administrator shall include a manually signed and dated statement of the certified public accounting firm approving the use of its name and its opinion in the prospectus and registration statement.

History: 1954 ACS 87, p. 83, Eff. Apr. 10, 1976.

R 445.509 Change in accountants.

Rule 509. If the independent certified public accountant who has been engaged as the principal accountant to audit the franchisor's financial statements was not the principal accountant for the franchisor's most recently filed certified financial statements:

(a) The franchisor shall furnish the administrator with a statement of the date when the current independent accountant was engaged and whether, in the 18 months preceding the engagement, there were any disagreements with the former principal accountant on a matter of accounting principles or practices, financial statement disclosure, or auditing procedure, which, if not resolved to the satisfaction of the former accountant, would have caused that accountant to make reference in connection with its opinion to the subject matter of the disagreement.

(b) The franchisor shall request the former accountant to furnish the franchisor with a letter stating whether it agrees with statements contained in the letter of the franchisor and, if not, stating the respects in which it does not agree.

(c) The franchisor shall furnish such a letter to the administrator, together with its own.

History: 1954 ACS 87, p. 83, Eff. Apr. 10, 1976.

R 445.510 Disclosure of accountant's interest.

Rule 510. When a report pursuant to this act or these rules is prepared by an independent public accountant or certified public accountant who holds, or intends to acquire, a position or interest in the applicant or registrant covered by the report, full disclosure thereof shall be made to the administrator and, where appropriate, full disclosure shall be made in the prospectus.

History: 1954 ACS 87, p. 84, Eff. Apr. 10, 1976.

R 445.511 Consolidated and separate statements.

Rule 511. (1) When a franchisor owns, directly or beneficially, a controlling financial interest in another corporation, the financial statement required to be filed shall reflect, on a consolidated basis, the financial condition of the franchisor and each of its subsidiaries.

(2) A separate financial statement shall be required for each franchisor or subfranchisor filing for registration or exemption in this state.

(3) A company controlling 80% or more of a franchisor shall be required to file its financial statement for review by the administrator, and the financial statement shall not be included as part of the prospectus except as provided by R 445.512.

(4) A consolidated and separate financial statement shall be prepared in accordance with generally accepted accounting principles.

History: 1954 ACS 87, p. 84, Eff. Apr. 10, 1976.

R 445.512 Statement of controlling company.

Rule 512. A complete financial statement of a company controlling the franchisor shall be required when the controlling company guarantees to assume the duties and obligations of the franchisor under the franchise agreement. If the franchisor wishes to file a controlling company financial statement, the controlling company shall guarantee the obligations of the franchisor or post an acceptable surety bond at the discretion of the franchisor. Such surety bond must be purchased from a surety company authorized to transact business in the state of Michigan and in an amount required by the administrator as protection of the public requires. The amount may be amended by the administrator on the basis of

the amount of fees and the number of franchises sold. If the surety bond is terminated or cancelled while the franchisor is still under an obligation to provide real estate, improvements, equipment, inventory, training or other items, another surety bond acceptable to the administrator must be purchased or a guarantee acceptable to the administrator of the franchisor's obligations must be given before additional sales can be made.

History: 1954 ACS 87, p. 84, Eff. Apr. 10, 1976.

R 445.513 Books and records.

Rule 513. (1) The franchisor, unless exempt pursuant to section 6(2)(e) or (k) of the act, shall make and keep current the following books and records relating to the purchase or sale of franchises:

(a) Records of original entry containing an itemized daily record of purchases and sales of franchises, receipts of cash, other debits and credits.

(b) Copies of contracts of purchase or sale.

(c) Records of payments made to persons, directly or indirectly, in connection with the offer, sale, or purchase of a franchise, itemizing the persons to whom payments were made, the date and amount of each payment, the reason for the payment, and the transaction from which payment arose.

(d) Individual registration records for each franchisee, with name and address, aggregate amount to be paid, and terms of the payment.

(2) A franchisor shall preserve these records for not less than 6 years.

History: 1954 ACS 87, p. 84, Eff. Apr. 10, 1976.

R 445.514 Special financial reports.

Rule 514. The administrator may at any time require the filing of a special financial report by a franchisor currently registered under section 6(1) of the act or exempt under section 6(2)(a) or (b) of the act if it finds that the filing is in the public interest.

History: 1954 ACS 87, p. 84, Eff. Apr. 10, 1976.

PART 6. FRANCHISE AGENTS

R 445.601 Registration required; limitation on representation; agent as natural person.

Rule 601. (1) A franchise agent may not participate in the offer or sale of a franchise currently registered or exempted under section 6(1) or 6(2)(a) or (b) of the act, unless the franchise agent is registered with the administrator on the appropriate forms filed by the franchisor or a franchise agent. A franchise agent, except an agent working exclusively for another franchise agent pursuant to part 7, may not represent more than 1 franchisor, unless the administrator specifically authorized by order the multiple employment on terms and conditions as are appropriate to the public interest.

(2) A franchise agent may only be a natural person.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.602 Application for registration; examination; registration order.

Rule 602. (1) An application for franchise agent registration shall be on the form and contain the information specified by the administrator. In the alternative, a uniform form, with any necessary supplement satisfactory to the administrator, may be submitted.

(2) An application for franchise agent registration shall be accompanied by a completed fingerprint record on a form prescribed by the administrator, unless this requirement is waived by the administrator.

(3) An applicant for registration as a franchise agent may be required to pass a written examination, testing his knowledge of the franchise investment law and other appropriate laws or rules. This examination and the minimum passing grade may be varied for any class of applicants.

(4) A registration order shall be issued to the franchisor or franchise agent registered pursuant to part 7. Upon termination of employment for any cause, the order shall promptly be returned to the administrator for cancellation.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.603 Failure to complete, or withdrawal of, application.

Rule 603. If an applicant for agent registration fails to complete, or withdraw, an application within 3 months of the date of filing, the administrator may deny the application. The administrator may deny a request to withdraw an application.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.604 Agent registration or application; denial, suspension, or revocation.

Rule 604. The administrator may, by order, deny, suspend, or revoke an agent registration or application if it finds that the applicant or franchise agent has engaged in conduct set forth in R 445.704.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.605 Effective date of registration; expiration; renewal.

Rule 605. (1) A franchise agent's registration may become effective on any date during the year.

(2) A franchise agent's registration expires on the date of the expiration of the registration or exemption of the franchisor, or on the date of the expiration of the franchise agent registration pursuant to part 7, whichever is applicable.

(3) An agent's registration may be renewed if the franchisor or subfranchisor provides to the administrator, on the form prescribed by the administrator, a list of all franchise agents, including therewith current home and business addresses and telephone numbers, or may be renewed by a franchise agent as provided in R 445.705.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.606 Sales on behalf of multiple franchisors.

Rule 606. In the event that a company controls more than 1 franchisor, franchise agents of these companies may offer franchises on behalf of each franchisor if the agent files an application for franchise agent registration to act on behalf of each franchisor.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.607 Concurrent registration.

Rule 607. A franchise agent may not be concurrently registered with a franchisor or subfranchisor and a franchise agent pursuant to part 7 except as provided herein.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

R 445.608 Franchise compliance officer.

Rule 608. (1) A franchisor, subfranchisor, or franchise agent employing franchise agents shall designate a franchise compliance officer, whose responsibility it shall be to:

(a) Determine that the activities of its franchise agents are in compliance with the statutes and rules of the state.

(b) Prepare and forward to the administrator a compliance manual which shall thereafter be distributed to each franchise agent.

(c) Insure that each agent is at all times familiar with the act and rules thereunder, and the compliance manual.

(2) The compliance manual shall consist of a copy of the act, rules, and instructions necessary to relate the statutes and rules to the franchise being offered and the procedures of the offering.

(3) Should an agent be terminated by a franchisor, or voluntarily terminate his employment due to actions involving a violation of the franchise investment law or rules thereunder, the franchise compliance officer shall promptly report the termination and the cause therefor on the form prescribed by the administrator.

History: 1954 ACS 87, p. 85, Eff. Apr. 10, 1976.

PART 7. FRANCHISE AGENTS

R 445.701 Registration order as condition to commencing activities; expiration of registration; effective date of renewal registration.

Rule 701. A franchise agent pursuant to this part shall receive a registration order from the administrator prior to commencing those activities which constitute that person to be a franchise agent. Registrations expire on March 31, following effectiveness, unless otherwise ordered by the administrator. A renewal registration is effective on the date prescribed by the administrator by order.

History: 1954 ACS 87, p. 86, Eff. Apr. 10, 1976.

R 445.702 Initial or renewal registration; filing and contents of application.

Rule 702. (1) A franchise agent may obtain an initial or renewal registration by filing with the administrator an application, together with a consent to service of process on the form prescribed by the administrator. This application shall contain the information the administrator requires relating to the following:

(a) The qualifications and business history of the applicant and its partners, officers, directors, or other persons occupying similar status or performing similar functions or a person, directly or indirectly, controlling the franchise agent.

(b) The applicant's financial condition.

(c) The applicant's proposed form of doing business.

(d) Past misconduct on the part of the applicant or its partners, officers, or directors.

(e) Other information necessary for the protection of the public.

(2) An application for franchise agent registration shall be accompanied by a complete fingerprint record of the partners, officers, and directors of the franchise agent who shall be engaged in offers or sales of franchises in this state, the principal officer of the franchise agent, and the compliance officer on a form prescribed by the administrator, unless this requirement is waived or modified by the administrator.

R 445.703 Failure to complete, or withdrawal of, application.

Rule 703. If an applicant for franchise agent registration fails to complete, or withdraws, an application within 3 months of the date of filing, the administrator may deny the application. The administrator may deny a request to withdraw an application.

History: 1954 ACS 87, p. 86, Eff. Apr. 10, 1976.

R 445.704 Denial, suspension, or revocation of registration.

Rule 704. The administrator may, by order, deny, suspend, or revoke a registration of a franchise agent if the administrator finds that the order is in the public interest and the applicant or registrant or a person directly or indirectly controlling the applicant or registrant:

(a) Has filed an application for registration which, as of its effective date or as of any date after filing in the case of an order denying effectiveness, was incomplete in a material respect or contained a statement which was, in light of the circumstances under which it was made, false or misleading with respect to a material fact.

(b) Has violated or failed to comply with the act, or a rule or an order under the act.

(c) Has been convicted of a misdemeanor involving moral turpitude, or of a felony.

(d) Is the subject of a final administrative order of a state or federal agency relating to, or is permanently or temporarily enjoined by a court of competent jurisdiction from engaging in or continuing any conduct or practice involving any aspect of, the securities, franchise, real estate, or insurance business.

(e) Is the subject of an order of the administrator denying, suspending, or revoking registration as a broker-dealer, agent, investment advisor, or franchise agent under part 6 or 7 of these rules or other similar registration.

(f) Is the subject of an order entered by the securities or franchise administrator of another state, or by the securities and exchange commission, denying or revoking registration as a broker-dealer, agent, or investment advisor, or the substantial equivalent of these terms, or is the subject of an order of the securities and exchange commission suspending or expelling that person from a national securities exchange or national securities association registered under the securities exchange act of 1934, or is the subject of a United States post office fraud order.

(g) Has engaged in dishonest or unethical business practices, including, but not limited to, the following practices:

(i) Recommending to a franchisee the purchase, sale, or exchange of a franchise without reasonable grounds to believe that the recommendation is suitable for the person.

(ii) Acting as agent for both buyer and seller without fully disclosing the relationship to both parties.

(iii) Charging the franchisee or franchisor more than a reasonable commission in connection with the sale.

(iv) Personally borrowing money from a present or prospective franchisee.

(v) Effecting transactions not reported to the franchisor.

(vi) Operating an account under a name not registered with the administrator.

(vii) Representing to a franchisee that, as a condition of realizing significant earnings from the franchise, the franchisee may have to recruit others who may likewise invest in a franchise or distributorship, or require that the franchisee shall so recruit.

(h) Is insolvent, either because liabilities exceed assets or because obligations cannot be met as they mature.

(i) Is not qualified on the basis of factors such as training, experience, or knowledge of the franchise business.

(j) Has failed to supervise franchise agents in its employment as defined in part 6 to insure that sales are made only to persons for whom the franchise is a suitable investment.

(k) Has failed to pay the proper filing fee. The administrator may enter only a denial order under this subdivision, and it shall vacate the order when the deficiency has been corrected.

History: 1954 ACS 87, p. 86, Eff. Apr. 10, 1976.

R 445.705 Renewal of registration.

Rule 705. A franchise agent pursuant to this part may apply for renewal of its registration by filing with the administrator a complete list of franchise agents pursuant to part 6 employed, including therewith current home and business addresses and telephone numbers, a report of activities in the form designated by the administrator, and a statement of financial condition prepared in accordance with generally accepted accounting principles.

History: 1954 ACS 87, p. 87, Eff. Apr. 10, 1976.

R 445.706 Records.

Rule 706. Every franchise agent pursuant to this part shall make and keep current the following books and records relating to his business:

(a) Records of original entry detailing the sale of the franchise, to whom sold, the aggregate price, the initial payment, the installment payments, if any, and the commission paid to the franchise agent or its employees.

(b) An individual registration record for each franchisee, including name, home and business address, telephone numbers, occupation, aggregate amount paid, terms of payment, and the name of its selling franchise agent employee.

(c) A copy of advertising used by the agent in the offer of franchises, including, but not limited to, radio, newspapers, TV, letters and brochures.

(d) The records, books, and memoranda that relate to a franchise sale, and the records required to be kept under the act and rules, for a period of not less than 6 years after the sale.

History: 1954 ACS 87, p. 87, Eff. Apr. 10, 1976.

R 445.707 Special financial reports.

Rule 707. The administrator may, at any time, require the filing of a special financial report by a franchise agent if it finds that the filing is in the public interest.

History: 1954 ACS 87, p. 88, Eff. Apr. 10, 1976.

R 445.708 Surety bond.

Rule 708. (1) A franchise agent whose net worth, derived by the use of generally accepted accounting principles, does not exceed $100,000.00 shall file with the administrator a surety bond in the amount of $25,000.00 on a form provided by the administrator, and shall maintain the bond in that amount at all times while registered as a franchise agent.

(2) If a franchise agent fails to maintain the minimum net worth of $100,000.00, or fails to file or to maintain its bond, the franchise agent shall immediately cease business and notify the administrator of this failure.

(3) If a suit is brought to enforce liability on the bond, the franchise agent shall promptly notify the adminsitrator thereof. If the bond principal amount is reduced by any recovery against it, the bond shall be immediately restored to $25,000.00.

(4) Prior to the disbursement of funds, a court shall require a claimant to publicize the claim against the franchise agent's bond in a manner reasonably calculated to inform other franchisees of the pendency of the action and to permit intervention and filing of claims.

(5) The bond shall also be for the use and benefit of persons who may have a cause of action in this state by reason of embezzlement, defalcation, or misappropriation of securities or funds by the principal, its agents, and employees.

(6) The administrator may exempt a registered franchise agent from this bond requirement, or may vary its terms, only if justified and appropriate under special circumstances.

History: 1954 ACS 87, p. 88, Eff. Apr. 10, 1976.

R 445.709 Notification of agent's termination.

Rule 709. Within 7 days after an agent for a franchise agent terminates his employment or is terminated, notice of termination shall be filed by the franchise agent on a form prescribed by the administrator, setting forth fully the reasons for termination. If an agent is terminated for cause, including a violation of the act or rules, the notice shall set forth the cause of termination.

History: 1954 ACS 87, p. 88, Eff. Apr. 10, 1976.

R 445.710 Escrow account.

Rule 710. The franchise agent shall not receive funds from franchise sales or other business conducted on behalf of the franchisor or subfranchisor. Payments from the sale of a franchise shall be made only to an escrow account designated by the franchisor or the subfranchisor for deposit.

History: 1954 ACS 87, p. 88, Eff. Apr. 10, 1976.

PART 8. ADVERTISING

R 445.801 Contents of advertisement.

Rule 801. (1) Pursuant to section 24 of the act, advertising, as defined in section 2(1) of the act, to be used to offer a franchise shall be filed in the office of the administrator in duplicate not less than 10 business days prior to the publication.

(2) An advertisement shall not contain a statement or inference that a purchase of a franchise is a safe investment or that failure, loss, or default is impossible or unlikely, or that earnings or profits are assured.

(3) An advertisement, other than the offering prospectus used pursuant to section 6(1) or 6(2)(a) or (b) of the act, shall not contain a projection of future franchisee earnings, unless the projection is:

(a) Based on a past earning record, over a reasonable period of time, of all franchisees operating under conditions, including location, substantially similar to conditions affecting the franchise being offered, including terminations, cancellations, reacquisitions, nonrenewals, and other operational failures, together with existing operational franchise data.

(b) For a reasonable period only.

(c) Substantiated by data which clearly supports the projection.

(d) Accompanied by a chart showing the estimated break-even point of the franchise operation.

Digitized by Google

(e) Accompanied by appropriate caveats relating to the projection.

(f) Based upon reasonable assumptions clearly set out immediately adjacent to the projection.

(4) An advertisement shall contain the name and address of the person responsible for sponsoring or placing the advertisement, and shall identify the franchisor.

(5) If the advertisement contains an indorsement or recommendation of the franchise by a public figure, whether express or implied, the advertisement shall state that the celebrity has received, or shall receive, consideration to indorse this franchise, unless the name of the celebrity appears in the title of the franchise and the title is prominently disclosed.

(6) An advertisement of a franchise offered pursuant to exemptions under section 6(2)(c), (d), (e), (f), (g), (h), (j), or (k) of the act shall disclose fairly and accurately the relevant facts concerning the liabilities created thereunder as are necessary to make the advertisement not misleading in light of the advertising and other material to be furnished by the franchisor to the franchisee prior to the sale of the franchise.

(7) An advertisement which refers to a registered franchise under section 6(1), or to an exempted franchise under section 6(2)(a) or (b) of the act, shall contain, in letters of not less than 8-point type, the following legend:

"PURSUANT TO THE MICHIGAN FRANCHISE INVESTMENT LAW, SALES MAY NOT BE MADE UNLESS A PROSPECTUS HAS BEEN DELIVERED 1 WEEK PRIOR TO ENTERING INTO A FRANCHISE AGREEMENT OR PAYING CONSIDERATION."

(8) The franchisor shall disclose in any advertising placed in the communications media the required total initial and deferred franchise fee, or range of fees.

History: 1954 ACS 87, p. 88, Eff. Apr. 10, 1976.

R 445.802 Exempt communications; contents.

Rule 802. (1) A notice, circular, or other communication which is published or transmitted only after a registration or exemption pursuant to section 6(2)(a) or (b) of the act need not be filed with the administrator if the franchise is effective and the notice, circular, or communication contains only the statements required or permitted to be included therein by the following provisions of this rule.

(2) A communication shall include, subject to the requirements of these rules, the following items of information which need not follow the numerical sequence of this subrule:

(a) The name of the franchisor.

(b) An identification of the type of business to be conducted by the franchisee.

(c) The total initial and deferred franchise fee required to be made on a franchise purchase or, if the amount of the fee varies, the method of its determination or the probable price range.

(d) The name and address of the sender of the communication.

(e) The logotype or symbol of the franchisor, if desired by the franchisor.

(f) A statement, in letters of not less than 8-point type, that:

"PURSUANT TO THE MICHIGAN FRANCHISE INVESTMENT LAW, SALES MAY NOT BE MADE UNLESS A PROSPECTUS HAS BEEN DELIVERED 1 WEEK PRIOR TO ENTERING INTO A FRANCHISE AGREEMENT OR PAYING CONSIDERATION."

(g) The correct legal name and address of the individual or organization from whom an offering prospectus may be obtained.

(3) A franchisor making an offering in reliance upon the exemptions of section 6(2)(e) or (f) of the act need not file advertising with the administrator unless this exemption is revoked by order of the administrator.

History: 1954 ACS 87, p. 89, Eff. Apr. 10, 1976.

R 445.803 False, fraudulent, misleading, and deceptive advertising.

Rule 803. (1) The following practices shall constitute, without limitation, false, fradulent, misleading, and deceptive advertising in connection with the offer or sale of a franchise:

(a) Failure to disclose in any communications media advertising the required total initial and deferred franchise fee for the franchise, or misrepresent, in any way, the fee.

(b) Misrepresentation of the training or management assistance available to the franchisee. The failure to disclose that little or none is provided, unless this requirement is waived by the administrator, constitutes a misrepresentation.

(c) Misrepresentation or causing confusion or misunderstanding regarding the source, sponsorship, approval, or certification of franchised goods or services.

(d) Dissemination of an advertisement in a language other than English without including therein the required disclosures or limitations on the offer advertised in the language principally used in the advertisement.

(e) Obtaining leads to prospective franchisees by placing classified advertisements designated or captioned "men wanted to train for . . . ," "help wanted," "employment," "business opportunities," or by words or terms of similar import, so as to represent directly or by implication that employment is being offered when, in fact, it is not.

(f) Designation or reference to sales representatives as "registrars," "counselors," "advisors," or words of similar import that misrepresent, in any manner, the titles, qualifications, training, experience, or status of salesmen, agents, employees, or other representatives.

(g) Representation in an advertisement that a person receive goods or services "free," "without charge," or any other term of similar import when the product or service is not, in fact, free.

(2) An advertisement of a guarantee or warranty relating to the sale of franchised goods and services to the franchisee, or relating to the repurchase of the goods, shall clearly and conspicuously disclose the following:

(a) The nature and extent of the guarantee, including disclosure of the following:

(i) The product or service being guaranteed.

(ii) The characteristics or properties of the designated product or service covered by or excluded from the guarantee.

(iii) The conditions one claiming under the guarantee shall meet before the guarantor will fulfill its obligation under the guarantee.

(b) The manner in which the guarantor will perform.

(c) The identity of the guarantor.

(3) A franchisor shall not advertise or represent that a product is guaranteed, or that it shall repurchase the product for a specified price, when it cannot promptly fulfill its obligations under the guarantee.

(4) Deceptive price advertising in connection with the offer or sale of a franchise includes, among other practices, the following:

(a) Falsely representing, in any manner, that goods or services are offered for sale at a reduction.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA

(b) Representing that prices being charged are a reduction by "comparing" prices of goods of like kind and quality, where the comparison being made is not with other goods of essentially similar quality, obtainable in the area, and at an established price.

(c) Advertising a special price or limited offer to persons when, in fact, the offer is not limited and is being made to many persons on a mass advertising or marketing basis, or when the price is the same as that charged to those occupying a status similar to that of a franchisee.

History: 1954 ACS 87, p. 89, Eff. Apr. 10, 1976

R 445.804 Modification and republication of advertisement.

Rule 804. The administrator may, by order, require modification of an advertisement deemed false, fraudulent, misleading, or deceptive, and may require, prior to publication of a subsequent advertisement, publication of an advertisement in all media previously used by the franchisor, retracting the prior advertisement. A retraction, in language approved by the administrator, shall be in an advertisement at least as large as that originally used, and shall be as prominently displayed in the media as previously advertised.

History: 1954 ACS 87, p. 90, Eff. Apr. 10, 1976

PART 9. DECEPTIVE OR FRAUDULENT PRACTICES

R 445.901 Enumeration of deceptive or fraudulent practices.

Rule 901. Deceptive or fraudulent practices committed, directly or indirectly, in connection with the offer, sale, or purchase of a franchise include, but are not limited to, the following practices:

(a) Misrepresentation of, or failure to disclose, the required total initial and deferred franchise fee for the franchise.

(b) Misrepresentation of the training and management assistance available to the franchisee, or failure to disclose that little or none is available.

(c) Misrepresentation or failure to disclose that the franchisor does not have significant experience in the sale of the franchised product or service in this state.

(d) Failure to disclose that the franchisor does not have material information about the existence of a market for the product or service, if such is the case, or misrepresentation of that information.

(e) Misrepresentation of, or failure to disclose, the franchisor's efforts to sell or establish more franchises than it is reasonable to expect the market or market area for the particular franchise to sustain.

(f) Misrepresentation of the quantity or quality of the products or services to be sold or distributed through the franchise.

(g) Misrepresentation, or causing confusion or misunderstanding, regarding the source, sponsorship, approval, or certification of franchised goods or services.

(h) Representation that goods are new if they are deteriorated, altered, reconditioned, used, or secondhand, or failure to disclose such a condition.

(i) Misrepresentation of the number of franchisees the franchisor shall appoint or designate to operate within a given territory or shall locate within a given territory, or representation that a franchisee shall be or is the only franchisee appointed or located within a specified franchise territory when, in fact, the franchisee is not.

(j) Misrepresentation by failure to disclose, or otherwise, the termination, cancellation, reacquisition, transfer, or renewal provisions of a franchise agreement.

(k) Falsely claiming or inferring that a primary marketer, other than franchisor of trademark products or services, sponsors or participates, directly or indirectly, in the franchise operation, or that the offeror has an affiliation, or connection with, or is attributed some special status by, the marketer.

(l) Representation that locations for the franchised business, facilities, machines, or other devices are secured, or shall be secured, by the franchisor when, in fact, they are not or shall not be.

(m) Representation that machines, equipment, products, or displays of a brand or kind are of a specific ability or nature when, in fact, they are not.

(n) Misrepresentation or failure to disclose that a person is being offered a franchise in a business, trade, or profession which requires a registration or license to conduct.

(o) Representation, in any manner, that goods or services are offered for sale at a reduced price when they are not.

(p) Representation of a reduction of prices being charged by "comparing" prices of goods of like kind and quality, where the comparison being made is not with other goods of essentially similar quality and obtainable in the area.

(q) Representing a special price or limited offer to persons when, in fact, the offer is not limited and is being made to many persons on a mass advertising or marketing basis, or the price is the same as that charged to those occupying a status similar to that of the franchisee.

FINANCIAL INSTITUTIONS BUREAU

MORTGAGE AND HOME IMPROVEMENT LENDING PRACTICES

(By authority conferred on the commissioner of the financial institutions bureau by section 10 of Act No. 135 of the Public Acts of 1977, being §445.1610 of the Michigan Compiled Laws)

R 445.1001 Definitions and explanation of terms.

Rule 1. (1) As used in these rules:

(a) "Act" means Act No. 135 of the Public Acts of 1977, being §§445.1601 to 445.1614 of the Michigan Compiled Laws.

(b) "Administrative procedures act" means Act No. 306 of the Public Acts of 1969, as amended, being §§24.201 to 24.315 of the Michigan Compiled Laws.

(c) "Branch office" or "service center," for purposes of the act, does not include an electronic funds transfer facility, nor does it include a branch or service center which is exclusively a drive-in branch or drive-in service center.

(d) "Bureau" means the financial institutions bureau of the Michigan department of commerce.

(e) "Denial of an application" includes a loan denied and a loan for which the terms or conditions are varied and not accepted by the applicant.

(f) "Junior lien" means a loan which is secured by other than a first lien, but does not include loans for home improvement purposes or loans secured by liens on multi-family dwellings.

(g) "Multi-family dwelling" means a dwelling designed for occupancy by more than 4 families.

(h) "Neighborhood," as defined in section 1(h) of the act, includes an area designated by a single zip code number under the zoning improvement plan of the United States postal service for any area located within a standard metro-

politan statistical area that has not been assigned a census tract number as defined by the United States bureau of the census.

(i) "Participation in a mortgage loan" does not include a purchase by a credit granting institution of an interest in a pool of mortgage loans.

(2) An individual unit of a condominium or a cooperative shall be considered a single-family dwelling.

(3) A home improvement loan secured by a mortgage shall be considered a home improvement loan and not a mortgage loan.

History: 1954 ACS 96, p. 106, Eff. July 11, 1978.

R 445.1002 Forms, reports, and correspondence; providing requested copies within 2 or 10 business days.

Rule 2. (1) If the loan applicant requests copies of reports, forms, and correspondence pursuant to section 2(6) of the act within 30 days of the date he or she is notified of the denial of a loan application, the credit granting institution shall provide copies of the forms, reports, or correspondence within 2 business days of the receipt of a written request which includes the name and address of the loan applicant and which is signed by the loan applicant. If the request for copies is made later than 30 days after the notification of the denial, the credit granting institutions shall provide the requested copies within 10 business days of the receipt of the request.

(2) A credit granting institution which mails the requested copies of reports, forms, or correspondence shall be deemed in compliance with this rule if the mailing is postmarked before midnight of the second or tenth business day, as applicable, pursuant to subrule (1).

(3) A credit granting institution which fails to provide the copies of documents requested pursuant to this rule within the required time period shall not be considered in violation of the act if the failure to timely provide the copies was unintentional and resulted from a bona fide mistake notwithstanding the maintenance of procedures reasonably adopted to avoid error.

History: 1954 ACS 96, p. 107, Eff. July 11, 1978.

R 445.1003 "Loan inquiry" defined; furnishing copy of pamphlet or other documents.

Rule 3. (1) A "loan inquiry" means a request made in person or by telephone, letter, or other communication device relating to the prospects of obtaining a mortgage loan or home improvement loan.

(2) If a loan inquiry is made other than in person by the inquirer, the credit granting institution is not required to furnish a copy of the pamphlet or other documents prepared pursuant to section 2(9) of the act unless the inquirer gives his or her name and address to the credit granting institution.

History: 1954 ACS 96, p. 107, Eff. July 11, 1978.

R 445.1004 Required pamphlet or document; availability.

Rule 4. The pamphlet or document required to be made available pursuant to section 2(9) of the act shall be made available in the area of the office or service center of the credit granting institution where loan applications or loan inquiries are routinely received by the credit granting institution, and shall be placed where the public may obtain a copy without the aid of an employee of the credit granting institution.

History: 1954 ACS 96, p. 107, Eff. July 11, 1978.

R 445.1005 Notice to inquirers and loan applicants; printing; posting.

Rule 5. (1) The written notice required by section 5 of the act shall be printed 18-point medium face type or larger. The notice shall be headed by the words, "Notice to inquirers and loan applicants," which heading shall be printed all in capital letters and 48-point boldface type or larger.

(2) The written notice required by section 5 of the act shall be posted in a conspicuous place in the area of the office or service center of the credit granting institution where loan applications or loan inquiries are routinely received by the credit granting institution.

History: 1954 ACS 96, p. 107, Eff. July 11, 1978.

R 445.1006 "Down payment as a percentage of the mortgage loan" defined.

Rule 6. For purposes of section 6 of the act:

(a) "Down payment as a percentage of the mortgage loan" means the purchase price minus the gross original principal balance of the mortgage, which difference shall be expressed as a percentage of the purchase price.

(b) If no cash down payment is made, or if the down payment is part cash and part other property, real or personal, the "down payment as a percentage of the mortgage loan" means the appraised value of the property used as security minus the gross original principal balance of the mortgage, which difference shall be expressed as a percentage of the appraised value.

(c) In the case of a refinancing of an existing mortgage loan, "down payment as a percentage of the mortgage loan" means the appraised value of the property used as security minus the principal balance after additional funds have been advanced, which difference shall be expressed as a percentage of the appraised value. If no appraisal is made incident to the refinancing, the last known purchase price may be used in lieu thereof.

History: 1954 ACS 96, p. 108, Eff. July 11, 1978.

R 445.1007 Computing average down payment, average annual percentage rate of interest, and average term of mortgage.

Rule 7. For purposes of section 6(3) of the act, if an average shall be disclosed, it shall be computed using the procedures set forth below. For mortgages loans made during the reporting period, the following procedures apply:

(a) To determine the average down payment, the credit granting institution shall compute the individual down payment percentages for each mortgage loan to be disclosed and compute the arithmetic mean of those percentages.

(b) To determine average annual percentage rate of interest, the credit granting institution shall compute an arithmetic mean of the annual percentage rates disclosed pursuant to the federal truth-in-lending act, 15 U.S.C. 1601 et seq. For loans not covered by the federal truth-in-lending act, the interest rate shall be the annual rate of interest computed on the unpaid balance, and if the interest rate is determined by a contractual formula, the interest rate disclosed shall be the interest rate initially effective under the contractual formula.

(c) To determine the average term of a mortgage loan, the credit granting institution shall compute an arithmetic mean of the terms to maturity of mortgage loans made. When a mortgage loan has a period to full amortization which is longer than the stated term to maturity of the loan, the credit granting institution shall use the stated term to maturity for purposes of computing average term of the mortgage loan.

History: 1954 ACS 96, p. 108, Eff. July 11, 1978.

R 445.1008 Computing total assets of credit granting institution.

Rule 8. The assets of a majority-owned subsidiary of a credit granting institution which makes or purchases loans shall be combined with the assets of the credit granting institution when computing total assets pursuant to section 6(6) of the act, but the loans of that subsidiary may be disclosed separately or on a consolidated basis in the discretion of the credit granting institution.

History: 1954 ACS 98, p. 108, Eff. July 11, 1978.

R 445.1009 Disclosure; forms; approval; modification.

Rule 9. (1) Pursuant to section 6 of the act, a credit granting institution shall disclose information required to be disclosed by the act on forms prescribed by the commissioner or on forms which are substantially similar to the forms prescribed by the commissioner and subject to the approval of the commissioner. A proposed form sent by registered mail to the commissioner shall be deemed approved unless the commissioner determines that the forms are not substantially similar to the forms prescribed by the commissioner and the commissioner disapproves the form within 15 business days from the date of mailing.

(2) Nothing in these rules shall preclude the bureau from modifying the disclosure forms to facilitate the translation of data into machine readable form or from accepting the information to be disclosed pursuant to section 6 of the act from the credit granting institution by way of magnetic media or other machine readable form, provided the credit granting institution submits the information in a format prescribed by the bureau.

(3) A change or modification of the prescribed forms shall not be applicable to a credit granting institution unless the commissioner has given notice to the credit granting institution of the change or modification not less than 90 days prior to the end of the credit granting institution's fiscal year.

History: 1954 ACS 98, p. 108, Eff. July 11, 1978.

R 445.1010 Disclosure; fiscal year.

Rule 10. A credit granting institution subject to the disclosure requirements of the act before July 1, 1979, shall disclose information required by this act for all transactions occurring on or after July 1, 1978, and for each fiscal year thereafter. A credit granting institution subject to the disclosure requirements of the act before July 1, 1979, need only disclose for the period beginning July 1, 1978, and ending with its fiscal year end and for each fiscal year thereafter. A credit granting institution which becomes subject to the disclosure requirements on or after July 1, 1979, shall disclose information required by the act for each fiscal year beginning with its first fiscal year ending after the date it becomes subject to the act and for each fiscal year thereafter.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1011 Disclosure statement; filing.

Rule 11. The credit granting institution shall file the disclosure statement required by section 6 of the act and these rules with the commissioner not later than 90 days after the end of its fiscal year.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1012 Mortgage loans and home improvement loans; disclosure by census tract or zip code.

Rule 12. For purposes of section 6 of the act, mortgage loans and home improvement loans shall be disclosed by census tract or zip code, as appropriate,

according to the location of the property to be used as security for the loan or if the loan is unsecured, according to the location of the structure to be improved.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1013 Loans secured by property outside Michigan made or purchased by credit granting institution; disclosure by zip code.

Rule 13. (1) Whenever disclosure is required by the act, a loan purchased by a credit granting institution secured by property located outside the state of Michigan, and a loan made by a credit granting institution secured solely by property located outside the state of Michigan, shall be disclosed by the zip code number of the area where the property is located.

(2) A credit granting institution with offices in Michigan as well as in other states, in complying with sections 6(2), 6(3), and 6(4) of the act, need only disclose data pertaining to loans which are secured by property located in this state and loans, the proceeds of which are to be used to improve structures located in this state. Loans made by the Michigan office or offices of a credit granting institution secured by property located in other states and loans made to improve structures located in other states shall be disclosed by zip code.

(3) Pursuant to section 6(2) of the act, a credit granting institution may disclose the number and dollar amount of mortgage and home improvement loans made outside standard metropolitan statistical areas by zip code and shall disclose the number and dollar amount of mortgage and home improvement loans by census tract for loans made within a standard metropolitan statistical area in Michigan.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1014 Standard metropolitan statistical area, census tract, and zip code boundaries; use during reporting period.

Rule 14. The standard metropolitan statistical area, census tract, and zip code boundaries in effect on the first day of the reporting period shall be used throughout the reporting period to which a disclosure relates.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1015 Loans originated or purchased by credit granting institution; reporting principal amount or balance; principal balance of purchased home improvement loan.

Rule 15. (1) A credit granting institution shall report the original principal amount of loans originated by the institution and the unpaid principal balances at time of purchase of loans purchased during each fiscal year.

(2) A loan made or purchased jointly or cooperatively shall be reported by each credit granting institution to the extent of its interest in the loan.

(3) The principal balance of a purchased home improvement loan may include unpaid finance charges.

History: 1954 ACS 98, p. 109, Eff. July 11, 1978.

R 445.1016 Mortgage loan foreclosures; disclosures; "foreclosure" defined.

Rule 16. (1) For purposes of section 6(4) of the act, a credit granting institution shall disclose information on mortgage loans foreclosed by it or in which it participated in the foreclosure, regardless of whether it made the loan or purchased the loan, in whole or in part.

(2) For purposes of section 6 of the act, "foreclosure" means the expiration of the period of redemption after the sale of the mortgaged property under a power of sale or judgment of foreclosure, or the receipt by the credit granting institution of a deed in lieu of foreclosure.

History: 1954 ACS 98, p. 110, Eff. July 11, 1978.

R 445.1017 Loans not subject to disclosure provisions of act.

Rule 17. A loan originated or purchased by a credit granting institution when acting in a fiduciary capacity is not subject to the disclosure provisions of this act unless 1 of the purposes of the trust or other entity represented by the fiduciary is to make or purchase mortgage loans.

History: 1954 ACS 98, p. 110, Eff. July 11, 1978.

R 445.1018 Exclusion of certain information in disclosure reports.

Rule 18. (1) For purposes of section 6(3)(a) of the act, a credit granting institution shall not include in its disclosure reports any information on purchased mortgage loans.

(2) For purposes of section 6(3)(a) of the act, a credit granting institution shall not include in its disclosure reports any information on home improvement loans, secured or unsecured.

(3) For purposes of section 6(3)(b) of the act, a credit granting institution shall not include in its disclosure reports any information on home improvement loans purchased from credit granting institutions located in Michigan that are subject to the disclosure provisions of the act.

History: 1954 ACS 98, p. 110, Eff. July 11, 1978.

R 445.1019 Disclosed data; review; report; methods of tabulation and analysis.

Rule 19. In reviewing the data disclosed pursuant to section 6 of the act, the commissioner shall employ whatever methods of tabulation and analysis as the commissioner deems necessary and appropriate in order to prepare the report required pursuant to section 8(2) of the act. The methods of tabulation and analysis may include, but shall not be limited to, the following: frequency distributions, tally sheets, statistical maps, multiple regression analysis, contingency tables, and various tests of significance.

History: 1954 ACS 98, p. 110, Eff. July 11, 1978.

R 445.1020 Disclosure report; public inspection at credit granting institution; copies.

Rule 20. A disclosure report required to be made available by a credit granting institution pursuant to section 6 of the act shall be made available to anyone requesting it for inspection during the hours which the credit granting institution's office is normally open to the public for business. Copies shall be made available to the public at the main office of the credit granting institution at a cost not to exceed the reasonable cost of reproduction. A credit granting institution may make available copies of information disclosed at any additional offices in its discretion and it may disclose on its reports any additional information it deems relevant to its actions and policies as a credit granting institution. Additional information voluntarily disclosed shall be listed separately and identified as additional or supplemental information.

History: 1954 ACS 98, p. 110, Eff. July 11, 1978.

R 445.1021 Information and reports filed with commissioner; public inspection; copies; commissioner's reports; copies.

Rule 21. (1) The commissioner shall make available for public inspection and copying all information filed with the commissioner pursuant to section 6 of the act.

(2) The commissioner shall, upon request, either in person or in writing, and upon the payment of the reasonable cost of duplication, promptly furnish copies of reports filed pursuant to section 6 of the act.

(3) The commissioner shall make available, upon request, copies of supporting data utilized by the commissioner in compiling reports pursuant to section 8 of the act at a cost which shall not exceed the reasonable cost of duplication.

(4) The commissioner shall make a copy of the annual report prepared pursuant to section 8(2) of the act available to any person who makes a written request therefor, at a cost not to exceed the actual and reasonable expense of duplicating the report.

History: 1954 ACS 96, p. 110, Eff. July 11, 1978.

R 445.1022 Complaint; form; completion by bureau personnel.

Rule 22. (1) The commissioner shall provide a complaint form to a person who desires to file a written complaint alleging a violation of the act. The complaint form shall be as set forth in subrule (3). If the commissioner determines that a written complaint letter contains sufficient information, bureau personnel shall complete the complaint form on behalf of the complainant.

(2) The commissioner shall provide copies of the complaint form to each depository credit granting institution in Michigan. The commissioner shall also provide copies of the complaint form to each nondepository credit granting institution upon receipt of notification by the nondepository credit granting institution of its name and address. A credit granting institution may duplicate the complaint form in order to provide sufficient copies of the form for use by its loan applicants.

(3) The complaint form is as follows:

LOAN APPLIED FOR:
☐ Mortgage Loan
☐ Home Improvement Loan

INSTITUTION'S ACTION:
☐ Loan Denied
☐ Loan Terms Varied

REASONS FOR COMPLAINT

☐ I wasn't allowed to file a written loan application.
☐ I made a loan inquiry, but didn't receive a copy of the lender's pamphlet on lending policies.

Digitized by Google
Original from UNIVERSITY OF MINNESOTA
Generated for Susan K Kendall (Michigan State University) on 2018-09-05 17:20 GMT / http://hdl.handle.net/2027/umn.31951d01149929j

- ☐ I asked for and did not receive a copy of the lender's annual disclosure statement. (There may be a charge for the statements.)
- ☐ The notice of my rights under the anti-redlining law was not posted.
- ☐ The lender did not give me a written statement of the reasons why my loan was denied.
- ☐ I did not accept the loan offered to me because the terms of the loan were different from those I applied for. After I rejected the offered loan, the lender did not give me a written statement of the reasons why the terms were different.
- ☐ The lender refused to provide copies of papers relating to my denied loan application or the loan I refused because the terms were different.
- ☐ I believe the lender is offering loan terms in my neighborhood which are different from those offered in other neighborhoods.
- ☐ The property was unfairly appraised because of its neighborhood.

I feel my loan application was treated unfairly because:

- ☐ Of the age of the house on the property.
- ☐ Of the age of neighboring buildings.
- ☐ Of racial or ethnic characteristics in the neighborhood.
- ☐ Of the condition of buildings more than 750 feet from the property being considered.
- ☐ The lender did not consider the existence of community organizations or programs designed to improve the neighborhood.

ADDITIONAL COMMENTS

If you need more space for details please use reverse side of this form.

If you want your loan application reconsidered, send this completed form to your local mortgage review board at:

If you would like your complaint investigated, send this completed form to:

R 445.1023 Complaint form; provision by credit granting institution; request.

Rule 23. The complaint form prescribed by R 445.1022(3) shall be provided by a credit granting institution, upon written request, mailed or delivered to any office of the credit granting institution, or upon a request made in person at the main office of the credit granting institution in the area of the main office where loan applications or loan inquiries are routinely received by the credit granting institution.

History: 1954 ACS 96, p. 112, Eff. July 11, 1978.

R 445.1024 Investigation generally.

Rule 24. An investigation conducted by the commissioner pursuant to section 8 of the act may include an inspection of the credit granting institution's books, records, papers, documents, or things relating to an alleged violation of the act.

History: 1954 ACS 96, p. 112, Eff. July 11, 1978.

R 445.1025 Investigation; commencement; notice to credit granting institution; contents.

Rule 25. To commence an investigation, the commissioner shall notify the credit granting institution, in writing, addressed to the chief executive officer of the credit granting institution, that the commissioner is conducting an investigation of an alleged violation. The notice shall include a statement of the alleged violation and identify the subject matter of the investigation with reasonable specificity so as to enable the credit granting institution to identify and assemble its records relating to the complaint. The notice may include specific questions, the answers to which the commissioner deems necessary to complete the investigation. A copy of the complaint shall be included with the notice required by this rule.

History: 1954 ACS 96, p. 112, Eff. July 11, 1978.

R 445.1026 Notice of commencement of investigation; contents.

Rule 26. The notice of commencement of the investigation shall designate the date and time, not less than 10 days after the date of the notice, at which the commissioner or the commissioner's designated representative shall personally appear at the main office or such other office of the credit granting institution, as designated by the commissioner, to inspect the records, papers, documents, or things relating to the subject matter of the alleged violation. Alternatively, in the discretion of the commissioner, the notice shall request a written response to the investigation, which shall include copies of all relevant documents and which response shall be signed by an officer of the credit granting institution verifying that the response includes all relevant information relating to the subject of the complaint, including answers to specific questions included in the notice of investigation.

History: 1954 ACS 96, p. 112, Eff. July 11, 1978.

R 445.1027 Hearing; parties.

Rule 27. In the discretion of the commissioner, a hearing may be conducted on a complaint. In addition to the person who has made the complaint or that person's designated representative or representatives and the credit granting institution through its designated representative or representatives, parties to a

hearing shall be the bureau and any other person, agency, or organization named or admitted, or properly seeking and entitled of right to be admitted, as a party. The commissioner or the hearing officer may, pursuant to the administrative procedures act, admit other interested persons as parties who appear at the hearing, request admittance as a party, and demonstrate a substantial interest in the outcome of the hearing.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1028 Hearing; applicable law; location; investigation deemed completed; final decision or order.

Rule 28. A hearing conducted pursuant to section 8 of the act shall be conducted in accordance with these rules and with the requirements of the administrative procedures act. The hearing shall be held at a place within the county where the real property which is the subject matter of the complaint is located, unless all parties agree otherwise. An investigation shall be deemed to have been completed if a hearing on the complaint is held within 60 days of the receipt of the written complaint, and a reasonable time thereafter, not to exceed 30 days, shall be allowed for the commissioner to issue a final decision or order.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1029 Hearing; notice; request for notice of hearings; renewal.

Rule 29. If a hearing is to be held on a complaint pursuant to section 8 of the act, a notice of hearing shall be served on the parties not less than 10 days before the scheduled date of the hearing. Interested persons or organizations may, in writing, request the bureau for notice of all hearings to be conducted pursuant to the act. The request may be renewed annually in December of each year by returning a request renewal form, which the bureau shall mail to the last address specified by the person or organization.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1030 Violation of act; fine; recommendation in proposal for decision or decision.

Rule 30. If the proposal for decision issued by the hearing officer, and served upon the parties pursuant to section 81 of the administrative procedures act, or the decision of the commissioner, is that the credit granting institution has violated the act, the proposal for decision or the decision shall contain a recommendation stating whether a fine should be imposed pursuant to section 12 of the act.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1031 Violation of act; finding by commissioner; assessment of fine; hearing.

Rule 31. If the commissioner finds, pursuant to section 8 of the act and these rules, that a credit granting institution is violating or has violated the act and proposes to assess a fine pursuant to section 12 of the act, the commissioner shall provide the credit granting institution an opportunity for a hearing for the purpose of determining the amount of the fine to be assessed. The credit granting institution may consent to the assessment and pay the fine or contest the assessment pursuant to section 12 of the act.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1032 Assessment of fine without investigatory hearing; opportunity for hearing.

Rule 32. If the commissioner proposes to assess a fine pursuant to section 12 of the act, and if an investigatory hearing has not been held prior to the finding that a credit granting institution is violating or has violated the act, an opportunity for a hearing shall be provided to the credit granting institution to present oral and written evidence and arguments on both of the following:

(a) Whether the credit granting institution has violated or is violating the act.

(b) The fine proposed to be assessed for the violation or violations.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1033 Violation of act; finding by a court; assessment of fine without hearing.

Rule 33. Notwithstanding R 445.1032, if a court has found that a credit granting institution is violating or has violated the act, the commissioner need not conduct a hearing on whether the credit granting institution is violating or has violated the act and may assess a fine pursuant to the act and these rules. If a court has found a credit granting institution has not violated the act, the finding of the court shall be binding on the commissioner.

History: 1954 ACS 98, p. 113, Eff. July 11, 1978.

R 445.1034 Proposed assessment of fine; notice.

Rule 34. The commissioner shall serve written notice on the credit granting institution, addressed to the chief executive officer, of the hearing on the proposed assessment of the fine. The notice shall designate the amount of the fine, the violation or violations committed by the credit granting institution, the date, not less than 10 days after the date of the notice, time, and place when a hearing on the proposed assessment of the fine is to be held.

History: 1954 ACS 98, p. 114, Eff. July 11, 1978.

R 445.1035 Proposed assessment of fine; hearing; parties.

Rule 35. Parties to a hearing on the proposed assessment of a fine shall be the credit granting institution through its designated representative or representatives and the bureau. The commissioner or the hearing officer conducting the hearing may admit other interested persons as parties in his or her discretion for the purpose of introducing evidence on the issues set forth in section 12 of the act. In the case of a hearing on a fine proposed to be assessed subsequent to a finding of a violation of the act pursuant to the filing of a complaint, the complainant or its representative shall be provided an opportunity to be a witness at the hearing. To expedite the hearing, the commissioner or the hearing officer, in his or her discretion, may limit the number of witnesses which represent a multi-member group or organization.

History: 1954 ACS 98, p. 114, Eff. July 11, 1978.

R 445.1036 Fine; amount; contest; hearing.

Rule 36. If a credit granting institution contests the amount of the fine proposed to be assessed by the commissioner and requests a hearing, the issues shall be as set forth in section 12 of the act.

History: 1954 ACS 98, p. 114, Eff. July 11, 1978.

445.1037 Hearing; order; payment of fine.

Rule 37. Upon completion of the hearing on the amount of the fine assessed, ıe commissioner shall issue an appropriate order. A fine assessed against a credit ranting institution shall be payable to the "State of Michigan" for deposit in the eneral fund and shall be paid within 30 days from the date of the order unless :ayed by further order of the commissioner or order of the court.

History: 1954 ACS 96, p. 114, Eff. July 11, 1978.

445.1038 Disclosure forms; list of items to be disclosed.

Rule 38. In preparation of the disclosure forms, the following provisions apply:

(a) A credit granting institution which discloses information relating to mort-;age loans pursuant to the federal home mortgage disclosure act of 1975, 12 J.S.C. §2801 et seq., shall furnish a copy of all disclosure statements to the bureau.

(b) A credit granting institution which is not subject to the federal home nortgage disclosure act which must disclose information pursuant to section 6(2))f the act, shall furnish information to the bureau on forms which conform in form ınd substance to those forms required by the federal home mortgage disclosure ıct and the regulations promulgated thereunder.

(c) A credit granting institution subject to the act shall disclose the information ;et forth in this subdivision, pursuant to section 6(3) and 6(4) of the act, by census :ract for neighborhoods located within standard metropolitan statistical areas and by zip code for neighborhoods located outside standard metropolitan statistical areas. If an area within a standard metropolitan statistical area has not been tracted as a census tract by the United States office of management and budget, information shall be disclosed for that area by zip code.

(d) Information disclosed pursuant to section 6(3)(a) of the act shall not include loans purchased by the reporting institution and shall be as follows:

(i) Average downpayment as a percentage of mortgage loans, as defined by these rules, secured by first liens on 1-4 family owner-occupied structures, excluding loans for home improvements and loans insured or guaranteed by the United States government or an agency thereof.

(ii) Average downpayment as a percentage of mortgage loans, as defined by these rules, secured by first liens on multi-family dwellings, excluding loans for home improvements and loans insured or guaranteed by the United States government or an agency thereof.

(iii) Average downpayment as a percentage of mortgage loans, as defined by these rules, secured by first liens on 1-4 family nonowner-occupied structures, excluding loans for home improvements and loans insured or guaranteed by the United States government or an agency thereof.

(iv) Average annual percentage rate, as defined by these rules, of mortgage loans secured by first liens on 1-4 family owner-occupied structures, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(v) Average annual percentage rate, as defined by these rules, of mortgage loans secured by first liens on multi-family dwellings, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(vi) Average annual percentage rate of mortgage loans, as defined by these rules, secured by junior liens on real property, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(vii) Average annual percentage rate of mortgage loans, as defined by these rules, secured by first liens on 1-4 family nonowner-occupied structures, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(viii) Average term of mortgage loans, as defined by these rules, secured by first liens on 1-4 family owner-occupied structures, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(ix) Average term of mortgage loans, as defined by these rules, secured by junior liens on real property, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(x) Average term of mortgage loans, as defined by these rules, secured by first liens on multi-family dwellings, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(xi) Average term of mortgage loans, as defined by these rules, secured by first liens on 1-4 family nonowner-occupied structures, excluding loans for home improvement purposes and loans insured or guaranteed by the United States government or an agency thereof.

(e) A credit granting institution shall disclose, by neighborhood, the number and dollar amount of home improvement loans.

(f) A credit granting institution shall disclose, by neighborhood, the number of loan applications denied and the reasons for denial.

(g) A credit granting institution shall prepare a frequency table to report reasons for denial, by neighborhood, in each of the following categories of loans:

(i) Total home improvement loans, except loans secured by multi-family dwellings.

(ii) Loans secured by junior liens, excluding liens secured by junior liens purchased and loans secured by multi-family dwellings.

(iii) FHA, FMHA, or VA loans, except loans secured by multi-family dwellings.

(iv) Conventional mortgage loans, except loans secured by multi-family dwellings.

(v) Loans on nonowner-occupied structures, except loans secured by multi-family dwellings.

(h) A credit granting institution shall use as the reasons for denial those reasons which the credit granting institution provided to the applicant pursuant to section 2(5) of the act. The frequency table prepared pursuant to subdivision (g) shall be in a format similar to the following, which is provided only as an example:

(i) Inadequate credit record.

(ii) Inadequate employment record.

(iii) Income insufficient to support loan.

(iv) Low appraised value of structure.

(v) Structure's limited useful life.

(vi) Downpayment too low.

(vii) Poor physical condition of neighboring structures.

(viii) Unavailability of mortgage money.

(ix) Application withdrawn.

(x) Loan terms varied and refused.

(xi) Fails to meet minimum ratio of housing expense debt service to income.

(xii) Fails to meet minimum ratio of prescribed total monthly obligations to income.

(xiii) Mortgage insurance denied by external firm.

(xiv) Other structures within 750 feet are considered in poor physical condition or have a probable useful life which is too short.

(xv) Loan applicant fails to meet public program guidelines, for example, those provided by MSHDA, FHA, and VA.

(i) A credit granting institution shall disclose, by neighborhood, the number and total dollar amount of mortgage loans secured by junior liens on real property, excluding loans secured by junior liens purchased and loans secured by liens on multi-family dwellings.

(j) A credit granting institution shall report, for each neighborhood, the appropriate county code, as designated by the national bureau of standards.

(k) A credit granting institution which is subject to the disclosure requirements of the act shall disclose, by neighborhood, the number and total dollar amount of mortgage loans foreclosed for each of the following categories:

(i) Loans secured by junior liens, excluding loans secured by junior liens purchased and loans secured by multi-family dwellings.

(ii) FHA, FMHA, or VA loans, except loans secured by multi-family dwellings.

(iii) Conventional mortgage loans, except loans secured by multi-family dwellings.

(iv) Loans on nonowner-occupied structures, except loans secured by multi-family dwellings.

DEPARTMENT OF TREASURY

CORPORATION TAX APPEAL BOARD

PRACTICE AND PROCEDURE

(By authority conferred upon the corporation tax appeal board by sections 9 and 10 of Act No. 85 of the Public Acts of 1921, as amended, and section 33 of Act No. 306 of the Public Acts of 1969, being §§450.309, 450.310, and 24.233 of the Michigan Compiled Laws)

R 450.1—R 450.22 Rescinded.

History: 1954 ACS 12, pp. 49-54, Eff. Nov. 21, 1957; rescinded 1954 ACS 77, p. 165, Eff. Sept. 26, 1973.

R 450.51 Definitions.

Rule 1. (1) "Board" means the corporation tax appeal board.

(2) "Division" means the corporation franchise fee division.

(3) "Secretary" means the secretary of the corporation tax appeal board.

History: 1954 ACS 77, p. 162, Eff. Sept. 26, 1973.

R 450.52 Business office.

Rule 2. All pleadings required to be filed with the board shall be filed with the secretary in the office of the Department of State, Treasury Building, Lansing, Michigan 48918.

History: 1954 ACS 77, p. 162, Eff. Sept. 26, 1973.

R 450.53 Form and style of papers.

Rule 3. (1) All pleadings filed with the board shall be either printed or typewritten, and if typewritten, shall be on only 1 side of plain white paper. Paper shall be no more than 8½ inches wide and 13 inches long. Copies shall be legible but may be on any weight paper. Citations shall be in italics when printed and underscored when typewritten.

(2) A descriptive caption shall be placed on all papers filed. Where the written signature of a corporation is required it shall be signed in the name of the corporation by an officer active in the management of its corporate affairs whose name and title shall likewise be subscribed. The mailing address of a party filing pleadings under the provisions of these rules shall be typed or printed beneath the party's written signature.

History: 1954 ACS 77, p. 162, Eff. Sept. 26, 1973.

R 450.54 Appeals from determination of tax.

Rule 4. An appeal to the corporation tax appeal board pursuant to section 93 of Act No. 327 of the Public Acts of 1931, as amended, being §450.93 of the Michigan Compiled Laws, shall be initiated by filing a petition of appeal with the board within 10 days after receipt by appellant from the division of its decision on the determination of a franchise fee, as provided in section 93 of the act.

History: 1954 ACS 77, p. 162, Eff. Sept. 26, 1973.

R 450.55 Appeals from redetermination of annual privilege fee.

Rule 5. (1) An appeal to the board pursuant to section 9 of Act No. 85 of the Public Acts of 1921, as amended, being §450.309 of the Michigan Compiled Laws,

shall be initiated by filing a petition of appeal with the board within 30 days after receipt by appellant from the division of its redetermination of the annual privilege fee, as provided in section 9 of the act.

History: 1954 ACS 77, p. 162, Eff. Sept. 26, 1973.

R 450.56 Appeals from ruling on claim for refund.

Rule 6. An appeal to the board pursuant to section 10 of Act No. 85 of the Public Acts of 1921, as amended, being §450.310 of the Michigan Compiled Laws, shall be initiated by filing a petition of appeal for refund with the board within 30 days after receipt by appellant from the division of its ruling on a petition for refund, as provided in section 10 of the act.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.57 Computation of time; extensions; notice.

Rule 7. (1) In determining the computation of the appeal periods of 10 and 30 days respectively, the day of receipt of the decision, redetermination or ruling of the division or notification thereof shall in each case be excluded and the day of filing of the petition of appeal with the board shall be included.

(2) An extension of time for the filing of a petition of appeal shall not be granted by the board. A petition not filed within the time required by this rule shall be rejected by the board and the appeal dismissed. A petition of appeal filed within the appeal period may, thereafter, be amended as provided in R 450.68.

(3) Upon the filing of a petition of appeal with the board, the appellant shall give notice of such filing to the division by complying with R 450.61 and shall request the division to promptly prepare and forward to the secretary a certified copy of the record of the proceedings before the division resulting in the decision, redetermination or ruling from which appeal is taken.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.58 Form of petition of appeal

Rule 8. A petition of appeal from a decision, redetermination or ruling by the division shall be in the form prescribed by the board.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.59 Filing and copies.

Rule 9. The petition of appeal and other pleadings to be filed by the parties with the board shall be deemed properly filed when the original and 6 duplicate copies thereof are deposited with the secretary in the office of the Department of State, Treasury Building, Lansing, Michigan 48918. Distribution of copies will be the responsibility of the secretary.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.60 Docket numbers.

Rule 10. Upon receipt of the original petition of appeal the secretary shall assign a docket number to the case and note the same on all copies before making distribution. The number assigned shall be placed by the parties on all documents and papers thereafter filed in the proceeding.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.61 Notice to parties.

Rule 11. At the time of filing with the secretary under R 450.57 the party filing shall give notice to the adverse party by delivering or mailing a written notice to

the adverse party or his attorney, specifying the pleading filed and the date. Proof of service of notice shall be made by filing an affidavit within 10 days in the office of the secretary.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.62 Answers.

Rule 12. (1) The division shall file an answer or other pleading to the petition of appeal within 15 days from the date of receipt of the petition unless the time for filing be extended by the board upon a proper showing. The answer shall be verified and shall fully advise the appellant and the board of the nature of the defense. It shall contain a specific admission or denial of each material allegation of fact, contained in the petition and a statement of additional facts or affirmative defenses to be relied upon by the division.

(2) Each paragraph contained in the answer shall be numbered to correspond as near as may be with the numbered paragraphs of the petition.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.63 Hearing dates and notices.

Rule 13. (1) Upon the case being at issue on the pleadings, the board shall fix a time for hearing within 60 days thereafter unless for good cause shown the time is extended by order of the board. At the time fixed for hearing the board shall proceed with the disposition of a contested case. The board may make informal disposition at the time set for hearing of a case which is uncontested by virtue of stipulation by the parties, agreed settlement, consent order or default.

(2) The secretary shall mail a written notice of the time and place for hearing to all parties and to their attorneys at least 10 days prior to the day of hearing.

History: 1954 ACS 77, p. 163, Eff. Sept. 26, 1973.

R 450.64 Conduct of hearings.

Rule 14. (1) A hearing before the board shall be public except that the board, for good cause shown, may exclude from the hearing a person having no direct interest therein.

(2) At a hearing before the board, either party shall have the right to be represented by counsel, to present and examine witnesses with the right of cross-examination by the adverse party, and to produce and offer in evidence, books, records, documents and other papers. The board may require the production of books, records and other documents as well as the appearance and testimony of any officer or employee of either party to ascertain facts and information which the board deems pertinent to the issues involved. Failure to comply with an order of the board constitutes grounds for the entry of an order by the board as it deems to be appropriate under the circumstances.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

R 450.65 Continuances.

Rule 15. A continuance will not be granted by the board due to the unexcused absence of a party or his attorney at the time and place of any scheduled hearing but the board may act notwithstanding the unexcused absence.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

R 450.66 Evidence.

Rule 16. (1) The rules of evidence applicable to proceedings in circuit courts in chancery in this state shall apply so far as practicable but the board may admit

ıy evidence which possesses probative value. Recognition shall be given to the ·identiary rules of privilege. The board may exclude incompetent, immaterial ıd unduly repetitious evidence.

(2) The board shall take judicial notice without further identification of the ıntents of original records and documents in the possession of the division when ıly certified copies are offered in evidence and made a part of the record in any ıse before the board in the form of copies or excerpts or by incorporation by ·ference.

(3) A document or article offered in evidence by either party at a hearing ·fore the board shall be marked as an exhibit. An exhibit offered by appellant ıall be marked "Appellant's Exhibit _____" and shall be consecutively ımbered. An exhibit offered by appellee shall be marked "Appellee's Exhibit _____" and shall be consecutively numbered.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

450.67 Stipulations.

Rule 17. At any time before final submission of the case, the parties may agree ; to any fact by stipulating in writing or on the record. Written stipulations of fact ıall be marked as an exhibit and offered in evidence at the hearing but the ontents or any part thereof shall be subject to objection under the rules of vidence at the time the offer is made.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

450.68 Amendments to pleadings.

Rule 18. Pleadings may be amended at any time prior to 10 days before the ay set for the initial hearing of the case. Amendments to pleadings may ıereafter be made only upon motion granted by the chairman of the board. A opy of the amendment or amendments proposed to be filed shall be attached to ıe motion.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

450.69 Briefs.

Rule 19. Briefs and reply briefs may be filed by the parties or their attorneys ıior to submission of the case but if filed thereafter shall be filed within the time lesignated by the chairman of the board. Filing shall be made with the secretary ı accordance with R 450.59.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

450.70 Transcripts.

Rule 20. An official reporter is not provided by the board. Either party lesiring a transcript of the testimony and proceedings at any hearing before the ıoard may make arrangements, at its own expense, for the reporting and ranscription thereof by a competent reporter, if the complete record so reported s transcribed and 3 legible copies are furnished without cost to the board and ·iled with the secretary.

History: 1954 ACS 77, p. 164, Eff. Sept. 26, 1973.

450.71 Supplemental information.

Rule 21. With notice to the adverse party, at any time before issuing its final decision the board may require the division to submit to the board additional information, factors and formulae upon such terms and conditions as the board may impose. The board shall fix a time and place for further hearing and give notice thereof to the parties.

History: 1954 ACS 77, p. 165, Eff. Sept. 26, 1973.

R 450.72 Decisions of the board.

Rule 22. Decisions of the board in a contested case shall be in writing and shall contain findings of fact, conclusions of law and the board's decision or order. In a contested case when all members of the board have not heard or read the evidence, a final decision or order shall not be made by the board until a proposal for decision or order, including findings of fact and conclusions of law, has been served upon the parties and an opportunity has been afforded to each party adversely affected to file exceptions and present written argument to a majority of the board. Each member of the board shall consider the whole record or such portions thereof as may be cited by a party. In each contested case the final decision of the board and 6 duplicate copies shall be filed with the secretary who will make distribution.

History: 1954 ACS 77, p. 165, Eff. Sept. 26, 1973.

R 450.73 Representation of parties.

Rule 23. Practice before the board shall be limited to attorneys in good standing and to duly elected officers of the appellant corporation.

History: 1954 ACS 77, p. 165, Eff. Sept. 26, 1973.

R 450.74 Rescission.

Rule 24. The rules entitled "Rules of Practice and Procedure," being R 450.1 to R 450.22 of the Michigan Administrative Code and appearing on pages 733 to 738 of the 1957 Annual Supplement to the Code, are rescinded.

R 451.301—R 451.407 Rescinded.

History: 1944 AC, pp. 181-183; 1944 ACS 15, p. 5; 1944 ACS 33, p. 17; 1944 ACS 36, p. 11; 1944 ACS 37, pp. 14, 15; 1954 AC, pp. 5514-5519; 1954 ACS 2, p. 12, Eff. May 13, 1955; 1954 ACS 23, p. 33, Eff. Aug. 12, 1960; rescinded 1954 ACS 75, p. 27, Eff. Apr. 3, 1973.

RESIDENTIAL BUILDING CONTRACTORS' DIVISION

(By authority of Act No. 208 of the Public Acts of 1953, being §338.971 et seq. of the Michigan Compiled Laws)

DISHONEST AND UNFAIR DEALING

R 451.501 Agreements.

Rule 1. A residential builder or residential maintenance and alteration contractor shall deliver to his customer an executed copy of all agreements between them, including plans and specifications. It is the responsibility of the licensee to make certain that all such writings are definite in their terms and sufficiently express the intention of the parties with regard to the transaction as to type and amount of work to be done, the type and quality of material to be used and the responsibility of the parties to adhere to applicable building and zoning regulations.

History: 1944 ACS 36, pp. 9-10; 1954 AC, p. 5519.

R 451.502 Cause for revocation.

Rule 2. Any cause for which a license could be denied upon application shall be cause for revocation.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5519.

R 451.503 Conducting licensed business under any other name; licensee's interest in unlicensed organization.

Rule 3. A residential builder or residential maintenance and alteration contractor shall not conduct his business under any other name than the one in which he is licensed, and no licensee or officer or builder of any corporation or partnership licensed as a residential builder or residential maintenance and alteration contractor shall have any interest, direct or indirect, in any unlicensed organization engaged as a builder or residential maintenance and alteration contractor.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5519.

R 451.504 Advertising.

Rule 4. A residential builder or residential maintenance and alteration contractor shall not advertise by line or advertisement or otherwise to sell, erect, construct, alter or repair a residential building or offer to undertake or purport to have the capacity to undertake with another for the sale, erection, construction, alteration or repair of a residential building in a manner indicating that the offer to sell, construct, repair or alter a residential building is being made by a private party, not engaged in the business of a residential builder or residential maintenance and alteration contractor, and no advertisement shall be inserted in any

publication where only a post office box number, telephone number or street address appears. Every residential builder or residential maintenance and alteration contractor shall when advertising his product, either through liner or otherwise, affirmatively and unmistakably indicate that the seller is a business concern and not a private party or owner.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5519.

R 451.505 Special account.

Rule 5. A licensee shall establish a separate and special account, and deposit in that separate and special account all monies paid by the public to the licensee including all deposits and advance construction funds. Disbursements from such special account shall only be made for labor and material on each individual job to the extent of funds accredited for each job.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.506 Books and records.

Rule 6. A residential builder or residential maintenance and alteration contractor shall keep and maintain a complete, accurate set of books and records which shall disclose the licensee's current financial condition. Such books and records shall at all times be open to the inspection of the commission or any person duly authorized by it for such examination.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.507 Financial statement.

Rule 7. Each licensee shall upon demand of the commission, giving 10 days' notice, submit a financial statement showing the current financial status of the licensee, whenever a written complaint is received wherein a violation of the residential builders or residential maintenance and alteration contractors' license law is made the basis of such complaints. A written demand for such financial statement shall be served by delivery of same personally to the licensee or by mailing same by registered mail to the last known business address of such licensee.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.508 Misrepresentation and false promises.

Rule 8. The licensee shall not through its agent or salesmen make substantial misrepresentations or false promises of a character likely to influence, persuade or induce.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.509 Prohibited business practices.

Rule 9. The following business practices by a licensee, his agents or salesmen are prohibited:

(a) Brokerage: Acceptance or performance of contracts procured by a salesman not regularly and exclusively employed by the licensee.

(b) Model home: Acceptance or performance of contracts induced by a promise to the customer of bonuses, whether for sale to be made to others, or for the use or display of the customer's dwelling.

(c) False or misleading statements of acts made or done in the preparation or procurement of credit information, promissory notes or completion slips which are used or to be used in obtaining loans for customers or the proceeds of such loans for the licensees.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.510 Failure to appear at investigation conferences.

Rule 10. Wilful failure or neglect to appear at investigation conferences, when properly requested or notified.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

RULES OF PRACTICE

R 451.531 Investigation.

Rule 21. The commission will investigate upon its own motion and/or upon a written complaint filed in duplicate, the conduct of any licensee who is performing or attempting to perform any acts for which a license may be suspended or revoked, and may request the appearance of its licensee at such informal conference as may be necessary to determine whether there is such cause for complaint as would require formal hearing provided by the act.

Such request for appearance shall be made in writing and sent by mail a reasonable time before the conference to the address appearing on the license and shall set the time and place of the conference. All persons interested in such conference shall have the right to appear and be represented by counsel. Issues of structural defects will not be investigated by conference prior to the receipt of a competent visual inspection report by authorized state or local building inspectors or other persons expert in the work inspected.

History: 1944 ACS 36, p. 9; 1954 AC, p. 5520.

R 451.532 Hearings; fee disputes.

Rule 22. The commission will not conduct any hearings involving disputes over fees and commissions between residential builders and residential maintenance and alteration contractors and real estate brokers, unless such disputes arise out of agreements which have been reduced to writing and which embody the complete agreement between the parties.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5521.

R 451.533 Hearings; procedure.

Rule 23. (1) No hearing for revocation, suspension or denial of application to renew a license shall be held until notice thereof within the time and according to the manner prescribed by section 10 of the act.

(2) The commission may after investigation deny the application of any person for license under this act by mailing written notice of its decision to the address appearing on the application; provided, however, that within 10 days from the date of such notice, applicant may make written request for hearing on such decision. Upon receipt of request for hearing, notice of time and place thereof will be given forthwith by the commission.

(3) Hearings shall be conducted by the commissioner and/or by such deputy commissioner or commissioners as he shall direct.

(4) All hearings shall be public.

(5) Rehearings will be granted in the discretion of the commissioner, after order made, upon application in writing of any licensee showing want of jurisdiction in the proceeding or new facts which if true would make appropriate the amendment or vacation of such order and such rehearing shall be directed only to such new issues or facts after such notice and in the same manner as provided for the conduct of the original hearing.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5521.

R 451.534 Findings of fact.

Rule 24. (1) Within a reasonable time from the completion of hearing, the person or persons conducting the same shall make and file with the commissioner findings of fact and conclusions of law upon each contested issue of fact. Copy of such findings and conclusions will be mailed or delivered upon request to any person interested in said hearing or to his attorney.

(2) In case of rehearing, findings of fact shall be made in the same manner as those for original hearing but shall be limited to the new facts or issues therein.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5521.

R 451.535 Recommendations.

Rule 25. Whenever hearing or rehearing is conducted by deputy commissioner or commissioners, he or they shall include with the findings of fact and conclusions of law, his or their recommendations made to the commissioner for the disposition of the case or the penalty to be imposed. Such recommendations shall not be binding upon the commissioner.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5521.

R 451.536 Orders; amendment or vacation.

Rule 26. (1) Decision and order shall be rendered by the commissioner within a reasonable time from the filing of findings and recommendations, and shall be sent to licensee by registered mail at the address appearing on the license, or, in case licensee has properly notified the commission of a change of address, to the new address so designated.

(2) Any decision and order issued by the commissioner may be amended or vacated after rehearing in accordance with these rules.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5521.

R 451.537 Adjournment or continuance.

Rule 27. Adjournments and continuances will be granted by the commission in its discretion, for good cause shown by any interested party or after stipulation and agreement between all such parties.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5522.

R 451.538 Documents to be filed; formal requirements.

Rule 28. Any documents to be filed with the commission shall be typewritten or in legible handwriting on 1 side of the paper only and shall be tendered in duplicate by mail or in person at the Detroit office of the commission, 2000 Cadillac Square Building, Detroit, Michigan 48226. All documents so filed shall bear the number assigned to the case by the commission.

History: 1944 ACS 36, p. 10; 1954 AC, p. 5522.

DEPARTMENT OF COMMERCE

CORPORATION AND SECURITIES BUREAU

SECURITIES

(By authority conferred on the director of commerce by section 412 of Act No. 265 of the Public Acts of 1964, and sections 9 and 235 of Act No. 380 of the Public Acts of 1965, as amended, being §§451.812, 16.109, and 16.335 of the Michigan Compiled Laws)

PART 1. PROHIBITED PRACTICES

R 451.601.0 Investment advisers.

Rule 601.0. An investment adviser, who is not also a registered broker-dealer, is prohibited from taking or having custody of any securities or funds of any client.

History: 1954 ACS 55, p. 28, Eff. Aug. 14, 1968.

PART 2. REGISTRATION OF BROKER-DEALERS, AGENTS AND INVESTMENT ADVISERS

R 451.601.1 Agents.

Rule 601.1. (1) An agent may only be registered in the employ of a registered broker-dealer, or in the employ of an issuer whose securities are registered or are exempt.

(2) A partner, officer or director of a broker-dealer who represents the broker-dealer in effecting or attempting to effect the purchase or sale of securities in Michigan shall be registered as an agent.

History: 1954 ACS 55, p. 28, Eff. Aug. 14, 1968.

R 451.601.2 Agents; transfers of employment.

Rule 601.2. (1) An agent while registered may transfer from 1 broker-dealer or issuer, to another broker-dealer or issuer. Within 7 calendar days after an agent begins or terminates a connection with a broker-dealer or issuer, or begins or terminates those activities which made him an agent, the agent and the broker-dealer or issuer shall so notify the administrator in writing using the appropriate employment notice or termination notice form.

(2) The registration of an agent is not effective during any period when he is not associated with a particular registered broker-dealer or a particular issuer whose securities are registered or are exempt. Also, an agent is not associated with an issuer and his registration is not effective if the issuer's securities registration statement is no longer effective. However, the agent may again reactivate the effectiveness of his registration during the original term of effectiveness of his registration by transferring to another issuer or broker-dealer.

History: 1954 ACS 55, p. 28, Eff. Aug. 14, 1968.

R 451.601.3 Agent; registration under more than 1 employer.

Rule 601.3. (1) An agent may not be registered under more than 1 broker-dealer or issuer at any time, unless management and control of the employing organizations are substantially identical and the administrator, after reviewing a request to permit double or multiple registration, is convinced that no confusion or avoidance of responsibility will result.

(2) A registered agent who desires to engage in any other activity involving the sale of investments for remuneration shall first notify his employer of the intended activity and secure approval in writing.

History: 1954 ACS 55, p. 28, Eff. Aug. 14, 1968; 1954 ACS 90, p. 50, Eff. Feb. 17, 1977.

R 451.601.4 Broker-dealers' and agents' effective registration dates.

Rule 601.4. The initial registration of a broker-dealer or agent may become effective at any date during the year. A renewal registration is effective July 1 of each year. All registrations expire on the June 30 following effectiveness.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.1 Applications for registration; broker-dealers.

Rule 602.1. An application for broker-dealer registration shall contain the information specified in form BR in the appendix to these rules together with any additional information the administrator may require in connection therewith. In the alternative a uniform form, with any necessary supplement, satisfactory to the administrator and containing substantially the same information may be submitted.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.2 Applications for registration; agents.

Rule 602.2. An application for agent registration shall contain the information specified in form AR in the appendix to these rules together with any additional information the administrator may require in connection therewith. In the alternative a uniform form, with any necessary supplement, satisfactory to the administrator and containing substantially the same information may be submitted.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.3 Applications for registration; investment advisers.

Rule 602.3. An application for investment adviser registration shall contain the information specified in form IR in the appendix to these rules together with any additional information the administrator may require in connection therewith. In the alternative a uniform form, with any necessary supplement, satisfactory to the administrator and containing substantially the same information may be submitted.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.4 Fees; broker-dealers and agents.

Rule 602.4. A broker-dealer filing an initial registration which becomes effective between July 1 and December 31, or filing a renewal registration, shall pay a filing fee of $100.00. A broker-dealer whose initial registration becomes effective between January 1 and June 30, shall pay a filing fee of $50.00. Initial and renewal registration fees for all agents are $10.00, without reduction for periods of less than 1 year.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.5 Fees; broker-dealers' branch offices.

Rule 602.5. A broker-dealer maintaining more than 1 office for the purpose of conducting his business within this state shall pay an additional filing fee of $50.00 for each additional office for a registration which becomes effective between July

1 and December 31, and for a renewal registration. For a registration which becomes effective between January 1 and June 30, the additional filing fee shall be $25.00 for each additional office. An office is a permanent place regularly maintained and used, or held out to be used, by a broker-dealer for the conduct of his business through his agents or employees, whether they are in attendance full time or part time.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968.

R 451.602.6 Broker-dealer's net capital.

Rule 602.6. (1) A securities broker-dealer registered with the United States securities and exchange commission shall maintain net capital and ratio of aggregate indebtedness to net capital in accordance with rule 15c3-1 under the securities exchange act of 1934.

(2) A securities broker-dealer not registered with the United States securities and exchange commission shall have the net capital necessary to comply with all of the following conditions:

(a) The aggregate indebtedness to all other persons of a securities broker-dealer which has been registered with the administrator for at least 1 year shall not exceed 2,000% of its net capital. The aggregate indebtedness to all other persons of a securities broker-dealer which has been registered with the administrator for less than 1 year shall not exceed 1,000% of its net capital.

(b) Except as provided by subdivisions (c) and (d) it shall have and maintain net capital of not less than $10,000.00.

(c) Notwithstanding the provisions of subdivision (b) a broker-dealer shall have and maintain net capital of not less than $5,000.00 if it does not hold funds or securities for, or owe money or securities to, customers, and does not carry accounts of or for customers, except as provided for in paragraph (v) below, and if it conducts its business in accordance with 1 or more of the following conditions, and does not engage in any other securities activities:

(i) It introduces and forwards as a broker all transactions and accounts of customers to another broker or dealer who carries such accounts on a fully disclosed basis, and the introducing broker-dealer promptly forwards all of the funds and securities of customers received in connection with its activities as a broker-dealer.

(ii) It participates in underwritings on a "best efforts" or "all or none" basis in accordance with the provisions of rule 15c2-4(b)(2) under the securities exchange act of 1934, and it promptly forwards to an independent escrow agent customers' checks, drafts, notes, or other evidences of indebtedness received in connection therewith which shall be made payable to that escrow agent.

(iii) It promptly forwards subscriptions for securities to the issuer, underwriter, sponsor, or other distributor of such securities and receives checks, drafts, notes, or other evidences of indebtedness payable solely to the issuer, underwriter, sponsor, or other distributor who delivers the securities purchased directly to the subscriber.

(iv) It effects an occasional transaction in securities for its own investment account with or through another registered broker-dealer.

(v) It acts as broker or dealer with respect to the purchase, sale, and redemption of redeemable shares of registered investment companies, and it promptly transmits all funds and delivers all securities received in connection with such activities.

(vi) It introduces and forwards all customer and all principal transactions with customers to another broker-dealer who carries such accounts on a fully disclosed

basis and promptly forwards all funds and securities received in connection with its activities as a broker-dealer, and does not otherwise hold securities or funds for, or owe money or securities to, customers, and does not otherwise carry proprietary accounts, except as provided in paragraph (iv) above, or customer accounts, and its activities as dealer are limited to holding firm orders of customers and in connection therewith:

(A) In the case of a buy order, prior to executing the customer's orders, purchases as principal the same number of shares or purchases shares to accumulate the number of shares necessary to complete the order, which shall be cleared through another broker or dealer.

(B) In the case of a sell order, prior to executing the customer's order, sells as principal the same number of shares or a portion thereof which shall be cleared through another broker or dealer.

(vii) It effects, but does not clear, transactions in securities as a broker on a registered national securities exchange for the account of another member of that exchange.

(d) Notwithstanding the provisions of subdivision (b) a broker-dealer shall have and maintain net capital of not less than $2,500.00 if it engages in no other securities activities except those prescribed in this subdivision and meets all of the following conditions:

(i) Its transactions are limited to both of the following:

(A) The purchase, sale, and redemption of redeemable shares of registered investment companies, except that it may also effect an occasional transaction in other securities for its own investment account with or through another registered broker-dealer.

(B) The sale of securities for the account of a customer to obtain funds for immediate reinvestment in redeemable securities of registered investment companies.

(ii) It promptly transmits all funds and delivers all securities received in connection with its activities as a broker-dealer, and does not otherwise hold funds or securities for, or owe money or securities to, customers.

(3) A commodity issuer registered with the administrator and a broker-dealer registered with the administrator transacting business primarily in commodity contracts shall have the net capital and cash reserve necessary to comply with the following conditions:

(a) The aggregate indebtedness to all other persons of a registrant which has been registered for at least 1 year shall not exceed 1,500% of its net capital. The aggregate indebtedness to all other persons of a registrant which has been registered for less than 1 year shall not exceed 1,000% of its net capital.

(b) It shall have and maintain net capital of not less than $25,000.00.

(c) It shall have and maintain a reserve of not less than $10,000.00 in a checking or savings account in a bank or savings institution organized under the laws of the United States or of any state or in a certificate of deposit issued by a bank or savings institution so organized.

(4) The administrator, by order which may apply individually or to a class, may establish a lower net capital requirement, a lower cash reserve requirement, or a higher maximum ratio of aggregate indebtedness to net capital, either unconditionally or upon special terms or conditions, for a registrant which satisfies the administrator that because of the special nature of its business and its financial condition, and the safeguards that have been established for the protection of customers' funds, investors would not be adversely affected.

(5) A registrant not in compliance with the aggregate indebtedness, net capital, or cash reserve requirements shall cease soliciting new business and immediately notify the administrator in writing.

(6) For the purposes of this rule and to insure uniform interpretation, the terms "aggregate indebtedness" and "net capital" shall have the respective meanings as defined in rule 15c3-1 under the securities exchange act of 1934. A copy of any pertinent subordination agreement shall be filed with the administrator within 10 days after the agreement has been entered into, and shall meet the requirements of a "satisfactory subordination agreement" as that term is defined in rule 15c3-1.

History: 1954 ACS 55, p. 29, Eff. Aug. 14, 1968; 1954 ACS 90, p. 50, Eff. Feb. 17, 1977.

R 451.602.7 Broker-dealers' bonds; surety.

Rule 602.7. A broker-dealer whose net capital as defined by rule, regardless of whether or not he is exempt from that rule, does not exceed $50,000.00 shall file with the administrator a surety bond in the amount of $10,000.00 on a form provided by the administrator and shall maintain such bond in that amount at all times while registered as a broker-dealer. If a suit is brought to enforce any liability on the bond, the broker-dealer as principal shall promptly notify the administrator thereof; and if the bond principal amount is reduced by any recovery against it, the bond shall be immediately restored to $10,000.00. In addition to causes of action under section 410 of the act, the bond shall also be for the use and benefit of any persons who may have a cause of action in this state by reason of any embezzlement, defalcation or misappropriation of securities or funds by the principal, its agents and employees. The administrator may exempt a registered broker-dealer from this bond requirement or may vary its terms, only if justified and appropriate under special circumstances.

History: 1954 ACS 55, p. 30, Eff. Aug. 14, 1968.

R 451.602.8 Broker-dealers' bonds; cash or securities.

Rule 602.8. In lieu of the bond required under R 451.602.7, a broker-dealer may make a deposit of $10,000.00 or a deposit of securities having a market value of $12,500.00 on the date of deposit which shall be restored to $12,500.00 in the event of any recovery. Such deposit shall consist of securities which are the obligations of and are guaranteed as to both principal and interest by the government of the United States, the government of a state, or a municipality within the United States. The deposit of cash or securities shall be held in trust or in escrow with a state or national bank within Michigan, and subject to an agreement satisfactory to the administrator with the same coverage as is required in a surety bond under R 451.602.7.

History: 1954 ACS 55, p. 30, Eff. Aug. 14, 1968.

R 451.602.9 Commodity issuers' and broker-dealers' bond; surety.

Rule 602.9. (1) A registered commodity issuer and a registered broker-dealer transacting business primarily in commodity contracts shall file with the administrator a surety bond in the amount of $25,000.00 on a form provided by the administrator, and shall maintain the bond in that amount at all times while registered. If an action is brought to enforce any liability on the bond, the registrant as principal shall promptly notify the administrator thereof. If the bond principal amount is reduced by a recovery against it, the bond shall be restored to $25,000.00 immediately. In addition to causes of action under section 410 of the act, the bond shall also be for the use and benefit of any persons who may have a cause of action in this state by reason of any embezzlement, defalcation, or

misappropriation of commodity contracts or funds by the principal, its agents, and employees. If a registrant has net capital in excess of $100,000.00, a surety bond shall not be required.

(2) The administrator, by order which may apply individually or to a class, may establish a lower bond requirement, either unconditionally or under special terms and conditions, for any registrant which satisfies the administrator that because of the special nature of its business and its financial condition, and the safeguards that have been established for the protection of customers' funds, investors would not be adversely affected.

History: 1954 ACS 90, p. 51, Eff. Feb. 17, 1977.

R 451.602.10 Commodity issuer and broker-dealers; bond; fidelity.

Rule 602.10. A commodity issuer, commodity broker-dealer, and a commodity investment adviser registered under the act shall carry fidelity bonds in a form approved by the administrator covering its general partners and employees or covering its officers and employees. The minimum coverage afforded by fidelity bonds shall be $100,000.00 for commodity investment advisers, and $400,000.00 for all other commodity issuers or broker-dealers, unless a lower amount is approved by the administrator.

History: 1954 ACS 90, p. 52, Eff. Feb. 17, 1977.

R 451.602.11 Segregation of customers' funds.

Rule 602.11. (1) All money, securities, and property coming into the custody of a commodity issuer or commodity broker-dealer to margin, guarantee, or secure trades, contracts, and purchases of clients, and all money accruing to clients as the result of trades, contracts, or sales, shall be separately accounted for and be segregated as belonging to the clients. Unless promptly delivered to the client, the money, securities, and property shall be deposited in bank accounts in the case of money, or, in the case of securities and property held in safekeeping, in some place reasonably free from risk of destruction or other loss. When deposited with a bank or trust company, the money shall be deposited under an account name which shows clearly that it is clients' money, and a record shall be maintained by the registrant showing the places in which money, securities, and property of each client is deposited. Any money received in payment for commodities to be delivered in the future shall be deposited in that bank account until actual delivery of the commodity has been made.

(2) A registrant shall not obligate, or permit another person to obligate, the money, securities, or property of a client, except to margin, guarantee, secure, transfer, adjust, or settle trades and contracts made on behalf of the client, or hold, dispose of, or use, or permit another to hold, dispose of, or use, the money, securities, or property of a customer as belonging to the registrant or a person other than the customer. Payment by a depository of interest on the funds maintained in a segregated account to and for the account of a registrant is not a violation of this provision.

(3) A registrant shall promptly furnish, in writing, directly to each client, as of the close of the last business day of each calendar month or as of any regular monthly date selected, both of the following:

(a) A statement which shows clearly the open contracts, with prices at which acquired, and the ledger balance carried for the client's account.

(b) A statement which shows clearly any securities or other property which the client has deposited with the registrant to margin, guarantee, or secure the account, or to pay for commodities not yet delivered.

R 451.602.12 Insolvency of commodity issuer or broker-dealer.

Rule 602.12. A registered commodity issuer or a registered broker-dealer which is insolvent, either in the sense that its liabilities exceed its assets or in the sense that it cannot meet its obligations as they mature, shall cease all business and immediately notify the administrator in writing.

History: 1954 ACS 90, p. 52, Eff. Feb. 17, 1977.

R 451.602.13 Failure to meet delivery dates.

Rule 602.13. A registered commodity issuer or a registered broker-dealer transacting business primarily in commodity contracts, which fails to meet the delivery dates promised to its customers for any reason other than failure of a common carrier to transport the commodity to the customer in accordance with the carrier's normal shipping or promised time, shall notify the administrator in writing and cease accepting new business, unless continuation of business is approved by the administrator.

History: 1954 ACS 90, p. 53, Eff. Feb. 17, 1977.

R 451.602.14 Ten-day delivery exemption.

Rule 602.14. (1) The exemption from registration set forth in section 201(e)(1) of the act is subject to the following conditions:

(a) The person relying on the exemption, or an officer, director, or partner of such a person:

(i) Has not been convicted of a misdemeanor involving moral turpitude, a felony, or a violation of state or federal securities, commodities, or franchise laws.

(ii) Is not permanently or temporarily enjoined by a court of competent jurisdiction from violating state or federal commodities, securities, or franchise laws.

(iii) Is not the subject of an order of the administrator denying, suspending, or revoking registration as a broker-dealer, agent, investment adviser, or commodities issuer.

(iv) Is not the subject of an order of the administrator to cease and desist violations of the act or of the franchise investment law.

(v) Is not the subject of an order entered by the securities, commodities, or franchise administrator of any other state to cease and desist, or the substantial equivalent of that term.

(vi) Is not the subject of an order entered by the securities, commodities, or franchise administrator of any other state, the securities and exchange commission, or the commodity futures trading commission denying or revoking registration as a broker-dealer, municipal securities dealer, agent, investment adviser, futures commission merchant, floor broker, person associated with a futures commission merchant or with an agent of a futures commission merchant, commodity trading adviser, or commodity pool operator, or the substantial equivalent of those terms as defined in the act, the securities exchange act of 1934, or the commodity futures trading commission act of 1974.

(vii) Is not the subject of an order denying, suspending, or expelling such person from a national securities exchange or a national securities association registered under the securities exchange act of 1934.

(viii) Is not the subject of a United States post office fraud order.

(b) There is no advertising by or on behalf of the seller or its agents, except under a plan accepted by the administrator not involving the offer of a commodity as an investment.

(c) A commission or other remuneration is not paid or given directly or indirectly for soliciting a prospective buyer.

(2) The administrator may by order grant the exemption with respect to a person who does not meet the conditions of subrule (1) if the administrator is satisfied that it is in the public interest to do so and that investors will not be adversely affected.

History: 1954 ACS 90, p. 53. Eff. Feb 17, 1977.

R 451.603.1 Broker-dealers' records.

Rule 603.1. (1) A broker-dealer shall make and keep current the following books and records relating to his business:

(a) Blotters, or other records of original entry, containing an itemized daily record of all purchases and sales of securities, all receipts and deliveries of securities (including certificate numbers), all receipts and disbursements of cash, and all other debits and credits.

(b) Ledgers, or other records, reflecting all assets and liabilities, and income, expense, and capital accounts.

(c) Ledger accounts, or other records, itemizing separately as to each cash and margin account of every customer and of such member, broker, or dealer and the partners thereof, all purchases, sales, receipts, and deliveries of securities and commodities for that account and all other debits and credits of that account.

(d) Ledgers, or other records, reflecting the following:

(i) Securities in transfer.

(ii) Dividends and interest received.

(iii) Securities borrowed and securities loaned.

(iv) Monies borrowed and monies loaned, together with a record of the collateral therefor and any substitutions in such collateral.

(v) Securities failed to receive and failed to deliver.

(e) A securities record or ledger reflecting separately for each security as of the clearance date of "long" or "short" positions, including securities in safekeeping, carried by each member, broker, or dealer for his account or for the account of his customers or partners, and showing the location of all securities long and the offsetting position to all securities short and, in all cases, the name or designation of the account in which each position is carried.

(f) A memorandum of each brokerage order, and of any other instruction, given or received for the purchase or sale of securities, whether executed or unexecuted.

(g) A memorandum of each purchase and sale of securities for the account of such member, broker, or dealer, showing the price and, to the extent feasible, the time of execution.

(h) Copies of confirmations of all purchases and sale of securities and copies of notices of all other debits and credits for securities, cash, and other items for the account of customers and partners of such member, broker, or dealer.

(2) A broker-dealer shall preserve, for not less than 6 years, all records required to be made pursuant to subdivisions (a), (b), (c), and (e) of subrule (1), and, for not less than 3 years, all records required to be made pursuant to subdivisions (d), (f), (g), and (h) of subrule (1).

(3) A registered commodities issuer and a broker-dealer transacting business primarily in commodity contracts shall make and keep true, accurate, and current the following books and records relating to its business:

(a) Journals, including cash receipts and disbursements records, and any other records of original entry forming the basis of entries in a ledger.

(b) General and auxiliary ledgers, or other comparable records, reflecting asset, liability, reserve, capital, income, and expense accounts.

(c) A memorandum of each order given by the registrant for the purchase or sale of any commodity contract, of any instruction received by the registrant from a client concerning the purchase, sale, receipt, or delivery of a particular commodity contract, and a memorandum of any modification or cancellation of any such order or instruction. The memoranda shall show the terms and conditions of the order, instruction, modification, or cancellation, shall identify the person connected with the registrant who recommended the transaction to the client and the person who placed the order, and shall show the account for which entered, the date of the entry, and the registrant by or through whom executed where appropriate. An order entered pursuant to the exercise of a power of attorney shall be so designated.

(d) All check books, bank statements, cancelled checks, and cash reconciliations of the registrant.

(e) All bills or statements, or copies thereof, paid or unpaid, relating to the business of the registrant.

(f) All trial balances, financial statements, and internal audit working papers relating to the business of the registrant.

(g) A financial ledger record which shows separately for each customer all charges against and credits of a customer's account, including, but not limited to, funds or securities deposited, withdrawn, or transferred, and charges or credits resulting from losses or gains on closed transactions.

(h) A record of transactions which show separately for each account, including house accounts, all commodity contract transactions executed for the account, including the date, price, quantity, market, commodity, and, when applicable, the delivery date, option expiration date, or other relevant date.

(i) A record or journal which shows separately for each business day complete details of all commodity contract transactions executed on that day, including the date, price, quantity, market, commodity, future if applicable, and the person for whom the transaction was made.

(j) A record of all securities and property received from customers in lieu of money to margin, guarantee, or secure the commodity trades and contracts of the customers. The records shall show separately for each customer a description of the securities or property received, the name and address of the customer, the dates when the securities or property were received, the identity of the depositories or other places where the securities or property are segregated, the dates of deposits and withdrawals from the depositories, and the dates of return of the securities or property to the customer, or other disposition thereof, together with the facts and circumstances of the other disposition.

(k) Originals of all written communications received, and copies of all written communications sent, by the registrant relating to any recommendation made, or proposed to be made, and any advice given, or proposed to be given; any receipt, disbursement, or delivery of funds, commodity contracts, securities, or other property; the placing or execution of any order to purchase or sell any commodity contract; or market information or conditions that affect, or tend to affect, the price of a commodity. The registrant is not required to keep any unsolicited market letters and other similar communication of general public distribution not prepared by or for the registrant.

(l) A record, in permanent form, which shows for each customer the customer's full name, home address, home telephone number, business address, business telephone number, social security number, occupation, marital status, approximate age, approximate income, approximate net worth, investment

objectives, other information concerning the customer's financial situation and needs, and the name and address of any other person guaranteeing the account.

(m) A file for each agent who is or has been employed by the registrant, copies of the agents' application for registration with the administrator, copies of all correspondence sent to or received from the administrator with respect to the agent, a record of disciplinary actions which have been taken against the agent by the registrant, and all administrative, civil, or criminal proceedings in which the agent has been named as a respondent or defendant in connection with commodity or securities activities.

(n) Minutes and other appropriate records with respect to meetings of the board of directors.

(o) A copy of each advertisement used, showing the dates and publications in which the advertisement appeared.

(p) A copy of each notice, circular, investment letter, bulletin, report, analysis, brochure, disclosure document, prospectus, form letter, or other sales literature circulated by the registrant.

(q) A file with a copy of each complaint letter received from customers, together with a copy of the response.

(r) A copy of every confirmation and every statement sent to a customer.

(s) A consolidation record of all commodity transactions outstanding, showing, as to each appropriate classification of each commodity, the position of the registrant and its aggregate liability to its customers.

(4) A registrant shall preserve, for not less than 6 years, all records required to be made pursuant to subdivisions (a), (b), (c), (d), (e), (f), (g), (h), (i), (j), (k), (l), (m), (n), (q), (r), and (s) of subrule (3), and, for not less than 3 years, all records required to be made pursuant to subdivisions (o) and (p) of subrule (3).

History: 1954 ACS 55, p. 30, Eff. Aug. 14, 1968; 1954 ACS 90, p. 53, Eff. Feb. 17, 1977.

R 451.603.2 Broker-dealers' confirmations.

Rule 603.2. A confirmation of each transaction for or with a customer shall be sent to the customer before the close of the next full business day after the transaction is made, unless unusual circumstances are present in which event it shall be sent as promptly as possible. The confirmation shall set forth with particularity all pertinent information including all charges and shall clearly show in what capacity the broker-dealer acted.

History: 1954 ACS 55, p. 31, Eff. Aug. 14, 1968.

R 451.603.4 Broker-dealers' reports.

Rule 603.4. (1) A broker-dealer shall file a detailed balance sheet with the administrator as of a date 6 months, or about 6 months, after the date of the last previous balance sheet filed. This balance sheet, if not pursuant to audit, shall be certified as to correctness by an officer, partner, or the proprietor of the broker-dealer, except that 1 balance sheet submitted during each registration year ending June 30 shall be pursuant to certified audit by independent or certified public accountants. An unaudited balance sheet shall be as of a date not more than 45 days prior to its submittal date, unless an extension of time is granted. An audited balance sheet shall be as of a date not more than 90 days prior to its submittal date, unless an extension of time is granted.

(2) If the net capital, as defined by R 451.602.6, of the broker-dealer does not exceed $100,000.00, the following schedules shall accompany the above balance sheets:

(a) Firm investments priced at current market and extended.

(b) Customers' debit balances, with dates incurred and security positions.

(c) Notes receivable and notes payable, listing all collateral thereto.

(d) Subordinated capital, listing in detail the type and amount of the loan, including securities by name, market price, and total market value, date and maturity of the loan, and the name of the lender.

(3) A broker-dealer may simultaneously file a duplicate copy of the report of financial condition filed with the securities and exchange commission as required by rule 17a-5 under the securities exchange act of 1934 in lieu of 1 of the reports under subrule (1). Submission of such a report, if not certified by a certified public accountant, does not relieve the broker-dealer from filing 1 certified report during the registration year.

(4) A broker-dealer who is a member of a national securities exchange may simultaneously file duplicate copies of balance sheet statements and schedules pertaining thereto filed with the exchange of which he is a member in lieu of the reports under subrule (1), 1 of which shall be pursuant to certified audit by independent or certified public accountants.

(5) If a broker-dealer is a sole proprietorship, a personal balance sheet of the proprietor shall be submitted with, and as of the same date as, the balance sheet of the firm.

(6) The administrator may require at any time the filing of special financial reports by a registered broker-dealer if it finds that such filing is in the public interest and for the protection of investors.

(7) A registered commodity issuer and a registered broker-dealer transacting business primarily in commodity contracts shall file with the administrator monthly, within 10 business days after the close of the month for which the report is made, a report showing all purchases and sales of commodities during the month, and its commodity positions and obligations to customers as of the close of the month, segregated by classification of commodity, as well as a report showing the registrant's net capital position and ratio of aggregate indebtedness to net capital, unless the registration is waived or modified by the administrator.

R 451.604.1 Incomplete applications for registration.

Rule 604.1. If an applicant for registration as a broker-dealer, agent or investment adviser fails to complete or withdraw an application within 7 months from the date of filing, the administrator may commence proceedings to deny on the basis of sections 204(a)(1) and 204(a)(2)(A) of the act.

History: 1954 ACS 55, p. 31, Eff. Aug. 14, 1968.

R 451.604.2 Unethical business practices of broker-dealers and agents.

Rule 604.2. The following are unethical business practices by a broker-dealer or agent within the purview of section 204(a)(2)(G) of the act, without restricting that term to the practices listed herein:

(a) Unreasonable delays attributable to the broker-dealer or agent in delivering securities.

(b) Representation that securities will be listed or that application for listing will be made, without basis in fact for such representation.

(c) Inducing excessive trading in a customer's account, or inducing trading beyond the customer's known financial resources, if done in disregard of the customer's best interests as they reasonably appeared at the time of the transaction and if improper under the then existing circumstances.

(d) Recommending to a customer the purchase, sale, or exchange of any securities without reasonable grounds to believe that the recommendation is suitable for such customer on the basis of information furnished by the customer after such reasonable inquiry as may be necessary under the circumstances concerning the customer's investment objectives, financial situation and needs, and other information known by the broker-dealer or agent.

(e) Executing a transaction on behalf of a customer without authority to do so.

(f) Executing transactions pursuant to general discretionary authority to execute transactions for the account of the customer without first obtaining such general discretionary authority in writing from the customer; however, such written authorization is not required if the discretionary authority relates solely to the execution of an order, as, for example, a limited authority permitting the broker-dealer to seek the best price or time of execution.

(g) Failure to segregate and earmark customers' free securities or securities in safekeeping.

(h) Hypothecation of a customer's securities without having a lien thereon, unless written consent of the customer is first obtained.

(i) Acting on an agency basis for both the seller and the purchaser of a security without disclosing that fact to both on the confirmation.

(j) While acting on an agency basis for a customer in any transaction, charging the customer more than a fair commission or service charge, taking into consideration all relevant circumstances, including market conditions, with respect to the security at the time of the transaction, the expense of executing the order, and the value of any service he may have rendered by reason of his experience in, and knowledge of the security and the market therefor.

(k) Entering into a transaction with a customer in a security at a price not reasonably related to the market price of the security.

(l) In the case of an agent:

(i) Borrowing money from a customer.

(ii) Effecting securities transactions with a customer in a security at a price not reasonably related to the market price of the security.

(iii) Operating an account under a fictitious name, unless done under such circumstances and with such disclosure to his employer broker-dealer and others as would negate wrongful intent.

(m) Extension of credit to a customer in violation of the securities exchange act of 1934 or the regulations of the federal reserve board.

(n) In the offer of a commodity contract or security, failure to reveal the existence of a markup over cost charged by the seller.

History: 1954 ACS 55, p. 31, Eff. Aug. 14, 1968; 1954 ACS 90, p. 58, Eff Feb. 17, 1977.

R 451.604.3 Examination of applicants.

Rule 604.3. (1) An applicant for registration as a broker-dealer which is a proprietorship, and an applicant for registration as an agent, as a condition to obtaining registration, shall take and pass a written examination testing his knowledge of the securities business, the act, and the rules thereunder, which shall be evidence of his qualifications as to training and knowledge. This examination and the minimum passing grade may be varied for any class of applicants. Ordinarily the administrator shall waive this examination requirement in the case of applicants for renewal registrations effective any July 1, or applicants who were registered within the past 6 months, and may waive it in whole or in part in the case of applicants who have passed this examination or a comparable examination within 2 years, who meet certain standards of experience, or whose

R 451.604.4 Outside business of issuer or broker-dealer.

Rule 604.4. A registered commodities issuer or a registered broker-dealer transacting business primarily in commodity contracts shall not engage in any other business without advising the administrator in writing.

History: 1954 ACS 90, p. 57, Eff. Feb. 17, 1977.

R 451.605.1 Disclosure statement.

Rule 605.1. (1) A disclosure statement shall be delivered to each person to whom an offer is made at least 2 days prior to the sale of any commodity contract, unless the administrator, by order, otherwise provides. The administrator may enter such an order if it is satisfied that it is in the public interest to do so and that investors will not be adversely affected.

(2) The disclosure statement shall set forth the following information:

(a) The identity of the commodity issuer, if applicable. The following information should be set forth with respect to the issuer:

(i) Full name.

(ii) Physical address and, if different, mailing address.

(iii) Type of business.

(iv) State of formation.

(v) Full names and titles of the issuer's officers and directors, or partners, as applicable.

(vi) Telephone number.

(b) The identity of the broker-dealer. The following information should be set forth with respect to the broker-dealer:

(i) Full name of the broker-dealer.

(ii) Physical address and, if different, mailing address.

(iii) Type of business entity.

(iv) State of formation.

(v) Full name and title of each of the broker-dealer's officers and directors, or partners, as applicable.

(vi) Telephone number.

(c) A complete description of the commodity contract to be offered including the type of commodity, the type of contract, obligations of the buyer and the seller under the contract, and complete information about the initial and deferred price of the contract or price range if prices vary frequently.

(d) A statement and explanation of the special and general risk to the customer of the investment.

(e) A complete explanation of any deferred payment arrangements relating to the transaction.

(f) Audited financial statements, including a balance sheet, an income statement, and a statement of changes in financial condition. The administrator may waive audit requirements.

(g) If the most recent audited financial statements are more than 6 months old, or if there has been a substantial change in the offeror's financial condition since the date of the audited statements, supplemental unaudited financial statements which are current.

(h) An explanation of how the offeror will cover its obligations or contingent obligations to deliver commodities under the contract, including, but not limited to, the following information:

(i) If the offeror owns physical commodities, a statement of whether the actual commodities are under the physical control of the offeror.

(ii) If the commodities are stored in depositories, the names and addresses of the depositories.

(iii) An explanation of any arrangements under which the offeror will cover by purchasing commodity futures contracts or commodity options.

(i) An explanation of how the offeror's prices are determined for both sales and repurchases, if any, from the investor, and an explanation of how these prices are related to the current spot price of the commodity, if any, including, but not limited to:

(i) Commission on initial investment.

(ii) Commission on resale.

(iii) Maximum markup formula.

(iv) Interest charges.

(v) Storage fees.

(vi) An explanation of the services provided in return for storage fees.

(vii) A statement of the proceeds which would be realized by the investor upon liquidation of the investment on the same day as the initial investment, assuming no change in the market price, and an explanation of how this is computed.

(j) An explanation of any undertaking by the seller to repurchase the commodity contract, or to assist the investor to resell the commodity contract.

(k) An explanation of any guarantees by the seller or a third party and identification of third party guarantors.

(l) A description of any litigation which is pending against the seller.

(m) A description of all enforcement actions which have been taken against the seller, its corporate predecessors, officers, directors, or partners by state or federal regulatory agencies, by securities or commodity exchanges or markets, or by other self-regulatory bodies constituted under federal commodities or securities laws.

(n) An explanation of any bankruptcy proceedings or arrangements with creditors with respect to the seller or its officers, directors, partners, or corporate predecessors.

(o) A history of the business experience of the principal officers of the seller, including information about the length and nature of each person's experience in dealing in commodities.

(p) An explanation of to whom and under what normal terms the investor can liquidate his investment, including a statement as to whether the seller will repurchase the commodity contract, and any conditions or limitations on the seller's obligation to repurchase. An explanation of any limitations of the buyer's legal or practical ability to resell to, or through another dealer.

PART 3. REGISTRATION OF SECURITIES

R 451.702.1 Registration by notification; copies of statement.

Rule 702.1. The administrator may require by order, as a condition to registration by notification in case of a public offering of a substantial amount of securities where an inadequate, or no prospectus or offering circular is proposed to be used, that a copy of the registration statement under section 302(b) of the act be given or sent to each person to whom an offer is made before or concurrently with such offer.

History: 1954 ACS 55, p. 32, Eff. Aug. 14, 1968.

R 451.703.1 Registration by coordination; exhibits.

Rule 703.1. (1) A registration statement by coordination shall be submitted on a form supplied by the administrator or on the uniform application to register securities form, together with any consent to service required by section 414(g) and 3 copies of the latest form of prospectus filed under the securities act of 1933, and, unless the administrator in a specific instance permits otherwise, shall be accompanied by:

(a) A copy of the articles of incorporation and a copy of the bylaws or their substantial equivalents, currently in effect.

(b) A copy of any agreement with or among underwriters.

(c) A copy of any indenture or other instrument governing the issuance of the security to be registered.

(d) A specimen or copy of the security.

(2) The administrator may request other information or copies of other documents filed under the securities act of 1933. A document filed under the act or a predecessor act within 5 years preceding the filing of a registration statement may be incorporated by reference in the registration statement to the extent that the document is currently accurate.

History: 1954 ACS 55, p. 32, Eff. Aug. 14, 1968.

R 451.703.2 Acceleration of effectiveness of registration.

Rule 703.2. If the administrator accelerates effectiveness of a registration by notification, or after all other conditions are met, the administrator accelerates effectiveness of a registration by coordination, it will so advise the registrant by collect telegram stating the date and time of effectiveness. If the administrator does not accelerate effectiveness of a registration by coordination, it will advise the registrant by collect telegram when all other conditions are satisfied and no adverse proceeding is contemplated, whereupon registration becomes effective with effectiveness of the federal registration.

History: 1954 ACS 55, p. 33, Eff. Aug. 14, 1968.

R 451.704.1 Registration by qualification; prospectus.

Rule 704.1. In the case of a registration by qualification, unless the administrator in a specific instance permits otherwise, a prospectus prepared in accord-

ance with prospectus instructions (form PI) and previously filed with the administrator shall be sent or given to each prospective purchaser within a reasonable time before a commitment to purchase is made. If the prospectus or any part thereof becomes misleading as to any material fact, or facts, or omits to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, it shall be revised or supplemented, and the revision or supplementation shall be submitted to the administrator prior to use. A prospectus shall not be used if the administrator has informed the registrant of an objection thereto. A prospectus shall not be used without revision or supplementation for more than 13 months from its date.

History: 1954 ACS 55, p. 33, Eff. Aug. 14, 1968.

R 451.704.2 Registration by qualification; reports and investigations.

Rule 704.2. As a condition of registration by qualification, the administrator may require that a report by an accountant, engineer, appraiser or other professional person be filed, and may require that the estimated cost of such report be deposited in advance by the registrant in an escrow account. The administrator may also designate an employee to make an investigation of the books, records and affairs of any applicant for registration by qualification and may require the estimated cost thereof to be deposited in advance by the applicant in an escrow account. Unless waived by the administrator, a registrant by qualification shall submit a complete audit report of the issuer covering the last fiscal year, certified by independent or certified public accountants.

History: 1954 ACS 55, p. 33, Eff. Aug. 14, 1968.

R 451.705.1 Registration statements; who may file.

Rule 705.1. A registration statement may be filed by the issuer, any other person on whose behalf the offering is to be made, or a registered broker-dealer. A registration statement shall have 1 or more registrants and may ordinarily have no more than 1 issuer but may cover more than 1 class of securities of that issuer.

History: 1954 ACS 55, p. 33, Eff. Aug. 14, 1968.

R 451.705.2 Escrow of securities.

Rule 705.2. (1) As a condition of registration by qualification or coordination, the administrator may require that any security issued or to be issued to a promoter for a consideration substantially different from the public offering price, or to any person for a consideration other than cash, be deposited in escrow. The administrator, or a governmental agency or bank or trust company acceptable to the administrator, may be the depositary.

(2) The conditions of escrow may be any or all of the following:

(a) To prohibit assignment, sale or transfer of the securities for a stated period of time.

(b) To insure that such securities will not share in assets in dissolution or liquidation until and unless the remaining security holders have been paid a liquidating dividend equal to the public offering price.

(c) To permit the administrator, where necessary for the protection of security holders, and after prior notice and opportunity for hearings, to order the cancellation in whole or in part of any such security.

(3) Securities in escrow may be subject to release after lapse of the term of escrow or on a petition including a showing based on an audit by independent certified public accountants that an average net income of 5% a year, for a 2-year period subsequent to the date of escrow, has been earned on the class of securities

in escrow based on the offering price and that the issuer is in sound financial condition. Notwithstanding the foregoing, securities may be released if the public offering is terminated and no securities were sold, or if all of the purchasers join in petitioning for release of the securities from escrow, or other equitable reasons justify the release.

(4) Securities in escrow may not be transferred except by will or pursuant to the laws of descent and distribution, without the consent of the administrator. A request to permit transfer shall be in writing, state the reason and consideration for the transfer, and the transferee shall agree to redeposit the shares in escrow under the same terms.

History: 1954 ACS 55, p. 33, Eff. Aug. 14, 1968.

R 451.705.3 Impoundment of proceeds of sale of securities.

Rule 705.3. (1) As a condition to registration by qualification or coordination, the administrator may require that the proceeds from the sale of the registered security in this state be impounded until the issuer receives a specified amount from the sale of the security in this state or elsewhere, sufficient to accomplish the purposes of the offering, or until certain stipulated requirements are met.

(2) In a new promotional enterprise, the administrator will ordinarily require that 100% of the sales price be impounded and that the 100% be returned to investors entitled thereto upon order of the administrator in case of failure to raise the specified amount within 1 year or during the effectiveness of the registration, or if certain stipulated requirements are not met. In such case, the promoters will be required, by equity investment or otherwise in a manner satisfactory to the administrator, to defray the discount, commission and expenses of the public offering including the expense of the impoundment and possible refunds. Consideration will be given to reduction of this percentage to defray some or all of the public offering costs in any instance of an enterprise with reduced promotional remuneration and advantages. No funds may be released except upon order of the administrator and all funds may be subject to audit before release.

(3) A bank or trust company may act as depositary or escrow agent for the impoundment of proceeds. Checks, drafts and money orders shall be made payable to the depositary. If a broker-dealer is acting as underwriter or selling agent for the issuer, payments may be made directly to such broker-dealer who shall promptly, after payment or settlement, make remittance to the depositary.

(4) A request for the release of impounded funds when requirements are met shall be by petition in writing affirming compliance with the registration and shall be accompanied by a statement from the depositary setting forth the total amount on deposit.

History: 1954 ACS 55, p. 34, Eff. Aug. 14, 1968.

R 451.705.4 Reports by registrants.

Rule 705.4. So long as a securities registration statement is effective a registrant shall file reports as required by order of the administrator.

History: 1954 ACS 55, p. 34, Eff. Aug. 14, 1968.

R 451.705.5 Mutual funds and contractuals.

Rule 705.5. A securities registration statement covering mutual fund shares, periodic payment plan certificates, or face-amount certificates, shall initially be within the unsold authorized amount registered with the securities and exchange commission. The initial Michigan registration statement and subsequent amend-

ments to register additional securities shall cover not more than the amount of securities estimated to be sold in Michigan within the next 2 years, and sales subsequently made in Michigan will be applied thereagainst in determining the unsold allotment under the registration.

History: 1954 ACS 55, p. 34, Eff. Aug. 14, 1968.

R 451.706.1 Incomplete registration statements.

Rule 706.1. If a registrant fails to complete or withdraw a registration statement within 7 months from the date of filing, the administrator may commence proceedings to deny on the basis of section 306(a)(1) and 306(a)(2)(A) of the act.

History: 1954 ACS 55, p. 35, Eff. Aug. 14, 1968.

R 451.706.2 Debt securities and preferred stock; junior equity.

Rule 706.2. An offering of debt securities or preferred stock may be deemed to be on unfair terms within the meaning of section 306(a)(2)(E) of the act unless there are junior securities and surplus of an amount equal to at least 50% of the class of securities being offered. This requirement will be waived only when justified by the normal debt-capital ratios prevailing in the particular industry, the history of interest or dividend coverage, the participation in earnings and management, or the restricted nature of the offering.

History: 1954 ACS 55, p. 35, Eff. Aug. 14, 1968.

R 451.706.3 Open-end investment companies; expense ratio.

Rule 706.3. An application for registration of securities of an open-end management investment company will ordinarily be regarded as an imposition and on unfair terms and subject to denial if the total expenses, exclusive of interest and taxes, exceed 1% of the average net assets of the company for the preceding year. An irrevocable written undertaking by the sponsor, general distributor or management company to absorb any such excess will be considered if its resources appear adequate.

History: 1954 ACS 55, p. 35, Eff. Aug. 14, 1968.

R 451.706.4 Contractuals; 30-day letter.

Rule 706.4. A securities registration statement covering mutual fund periodic payment plan certificates will be deemed to tend to work an imposition and be an offering upon unfair terms unless the registrant furnishes an undertaking to send or cause to be sent by first class mail to each purchaser, at the time the certificate is issued or prior thereto, (a) a separate printed statement showing the sales load, fees, deductions and other charges to be deducted from each installment payment, (b) a duplicate copy of any application or request letter signed by the purchaser at the time he applied for or agreed to purchase, and (c) a letter specifically calling attention to the statement of charges. The letter shall also advise the purchaser that if after making his initial payment, whether for 1 or more installments, he shall for any reason whatever elect to surrender his certificate for cancellation, he will be refunded the full amount paid in by him, if the written request for such cancellation is made within 30 days, or any longer period indicated, after the mailing of such letter, or after the mailing of the certificate when the letter advises the certificate will be mailed at a later date. In lieu of the foregoing, the administrator may accept a satisfactory alternative undertaking. The requirement of this rule is in addition to, and does not preclude the purchaser from pursuing, any remedy afforded by section 410 of the act.

R 451.706.5 Underwriters' discounts, commissions or other compensation.

Rule 706.5. An offering may be deemed to be made with unreasonable amounts of underwriters' and sellers' discounts, commissions or other compensation within the meaning of section 306(a)(2)(F) of the act, if such amounts, exclusive of other expenses attributable to the sale of an offering, exceed 15%, or such lesser percentage as may be indicated based upon the type of security being offered, size of offering, and prevailing market conditions. All other expenses shall be reasonable in kind and amount.

History: 1954 ACS 55, p. 35, Eff. Aug. 14, 1968.

R 451.706.6 Promotional securities or "cheap stock."

Rule 706.6. Securities to be sold or issued, or sold or issued by an issuer which is in the promotional or development stage, to underwriters, promoters or insiders for a consideration less than the proposed public offering price are presumed to be "cheap stock." Registration of securities where cheap stock has been or will be issued may be looked upon with disfavor and as tending to work an imposition, as being an offering upon unfair terms, and as involving an unreasonable amount of promoters' profit and participation or unreasonable amount of underwriters' and sellers' discounts, commissions or other compensation, unless the following minimum conditions are met:

(a) The number of shares shall be justifiable in amount and the consideration therefor shall have a reasonable relationship to the public offering price.

(b) If the shares were or are to be acquired by an underwriter, the difference between the consideration for the shares and the proposed public offering price, when added to the other discounts, commissions and expenses of the sale shall not exceed the maximum customarily allowable therefor.

(c) The shares of cheap stock issued shall not result in a dilution of more than 33⅓% of the value of the shares outstanding in the hands of the public at any time.

(d) The administrator, unless satisfactory earnings history meeting standards comparable to those stated in R 451.705.2(3) is shown, may require all cheap stock to be deposited in escrow under such terms and conditions as the administrator shall prescribe.

(e) The same test shall be applied to cheap stock acquired from selling shareholders unless such shareholders are so lacking in control of the corporate entity as to require different treatment.

History: 1954 ACS 55, p. 35, Eff. Aug. 14, 1968.

R 451.706.7 Promoters' participation.

Rule 706.7. Promoters' participation may be deemed unreasonable under section 306(a)(2)(F) of the act, unless in the case of an issuing company in a promotional or development stage seeking equity public financing, the promoters shall have first made an investment in cash or tangible property of a fair value equal to 15% or more of the minimum or impounded amount of the proposed public financing. Tangible assets turned in by promoters after being held by them less than 1 year will be presumed to have a fair value not greater than the cost to them, however, this presumption may be rebutted.

History: 1954 ACS 55, p. 36, Eff. Aug. 14, 1968.

R 451.706.8 Warrants and stock purchase options.

Rule 706.8. (1) A registration statement covering an offering of capital stock involving warrants or stock purchase options to others than all the purchasers of securities will generally be regarded as not being in the public interest and as being objectionable under subparagraphs (E) and (F) of section 306(a)(2) of the

act unless the requirements hereinafter set forth are met and justify the issuance of the warrants or stock options.

(2) Options to management in the nature of restricted or qualified stock options for incentive purposes will be considered justified if reasonable in number and method of exercise.

(3) Options to employees, or their nominees, pursuant to stock purchase plans or profit sharing plans will be considered justified if reasonable in number and method of exercise.

(4) Options to underwriters will be considered justified if all of the following conditions are met:

(a) When issued to managing underwriters under a firm underwriting agreement if they are not transferable except in cases where the managing underwriter is a partnership and then only among the partnership.

(b) If the number of shares covered by all options or warrants does not exceed 10% of the securities to be outstanding at the completion of the offering.

(c) If the options or warrants do not exceed 5 years in duration and are exercisable no sooner than the twelfth month after issuance with initial exercise price at least equal to offering price.

(d) If the exercise price of the options thereafter is at least equal to the public offering price plus a step-up of the public offering price of either:

(i) Seven percent each year they are outstanding so that the exercise price throughout the second year is 107%; throughout the third year 114%; throughout the fourth year 121%; and throughout the fifth year 128%, or

(ii) Twenty percent at any time after 1 year from the date of issuance.

An election as to either alternative shall be made by the underwriters at the time that the options are issued to the underwriters.

(e) If the options and warrants are issued by a relatively small company, which is in the promotional stage, or which, because of its size, lack of public ownership of its shares, or other facts and circumstances makes it appear to the administrator that the issuance of options is necessary to obtain competent investment banking services, if the direct commissions to the underwriters are lower than the usual and customary commissions would be in the absence of such options.

(f) The prospectus issued in connection with the registration statement contains a full disclosure as to the terms and the reason for the issuance of the options and warrants; and if such reason is in connection with future advisory services to be performed by the underwriter without compensation in consideration for the issuance of the options, a statement to that effect shall be placed in the prospectus.

(g) When it is necessary to include the value of the options in the computation of commissions, the market value of the options shall be used. When no market value exists, an arbitrary value of 20% of the public offering price of the securities to which the options pertain shall be used, unless evidence indicates that a different valuation exists.

(h) The same tests shall be applied to options issued by selling shareholders unless evidence indicates that the selling shareholders are so separated from the corporate entity and so lacking in control of the corporate entity as to require more liberal treatment.

History: 1954 ACS 55, p. 36, Eff. Aug. 14, 1968.

R 451.706.9 Real estate investment trusts (REIT).

Rule 706.9. (1) "Real estate investment trust" means an unincorporated trust or association which intends to comply with sections 856, 857, and 858 of the internal revenue code of 1954, as amended.

(2) A registration statement covering an offering of securities of a real estate investment trust will be regarded as not being in the public interest and as being objectionable under subparagraphs (E) and (F) of section 306(a)(2) of the act unless the requirements of this rule and R 451.706.10 to R 451.706.23 are met.

History: 1954 ACS 55, p. 37, Eff. Aug. 14, 1968.

R 451.706.10 REIT; capital; filing of contracts and trust instruments.

Rule 706.10. (1) A real estate investment trust shall ordinarily have a net capital of not less than $300,000.00 represented by outstanding shares or certificates of beneficial interest.

(2) A copy of all contracts with independent contractors for the management, operation or furnishing of services to tenants of trust properties shall be filed with the administrator accompanied by satisfactory evidence that the fees therein provided are in accord with the prevailing costs for such services in the area in which the property is located.

(3) The declaration of trust, or other instrument forming the trust, shall be filed for record in the office of the register of deeds in the county where the principal business of the trust is located and in any other county where property of the trust is located.

(4) The declaration of trust, or other instrument forming the trust, shall ordinarily provide for the matters set forth in R 451.706.11 to R 451.706.23.

History: 1954 ACS 55, p. 37, Eff. Aug. 14, 1968.

R 451.706.11 REIT; trustees.

Rule 706.11. (1) A real estate investment trust shall have a minimum of 3 trustees all of whom are elected for a term not to exceed 3 years by the outstanding shares of beneficial interest.

(2) No assets of the trust shall be acquired, directly or indirectly, from or through or conveyed to any trustee, investment adviser of the trust, officer, independent contractor of the trust or employee, except for the acquisition of assets at the formation of the trust, or shortly thereafter, and then only if the acquisition price of such assets is based on an independent appraisal acceptable to the administrator; nor may any such person receive a commission or other remuneration, directly or indirectly, in connection with the disposal or acquisition of trust assets.

(3) The declaration of trust, or other instrument forming the trust shall not contain any provisions relieving any trustee from liability to the trust or its security holders to which it or he might otherwise be subject by reason of acts constituting bad faith, wilful misfeasance, gross negligence or reckless disregard of his duties.

(4) A trustee may be removed by the vote or written consent of the holders of ⅔ of the outstanding shares of beneficial interest.

History: 1954 ACS 55, p. 37, Eff. Aug. 14, 1968.

R 451.706.12 REIT; liability of shareholders, beneficial owners, and the trust.

Rule 706.12. The shares or certificates of a real estate investment trust are nonassessable. The shareholders or beneficial owners shall not be personally liable on account of any of the obligations of the trust. Written contracts to which the trust is a party shall include a provision that the shareholders or beneficial owners shall not be personally liable thereon. The trustees shall maintain adequate insurance against possible liability on the part of the trust, ex delicto.

History: 1954 ACS 55, p. 37, Eff. Aug. 14, 1968.

R 451.706.13 REIT; annual and interim reports.

Rule 706.13. (1) A real estate investment trust shall cause to be prepared an annual report consisting of a detailed report of the activities of the trust during the period covered by the report and of a balance sheet, statement of income, and surplus of the trust and an opinion thereon of an independent certified accountant or independent public accountant based on an examination of the books and records of the trust not materially limited in scope, and made in accordance with generally accepted auditing procedures.

(2) The annual report shall be filed with the trustees and the administrator, and a copy thereof delivered to each shareholder or beneficial owner within 120 days after the close of the period covered by the report. The copies delivered to the trustees and administrator shall be manually signed.

(3) An interim report, at least quarterly, containing a current balance sheet which may be unaudited; and other pertinent information regarding the trust and its activities in the quarter covered by the report shall be filed with the administrator within 60 days after the end of the quarter.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.14 REIT; meetings of shareholders and beneficial owners.

Rule 706.14. (1) An annual meeting of the shareholders or beneficial owners of a real estate investment trust shall be held at a convenient location on proper notice to the shareholders, or beneficial owners, following delivery of the annual report required in R 451.706.13.

(2) A special meeting of the shareholders or beneficial owners may be called by the president, or by a majority of the trustees and shall be called by any officer of the trust upon written request of shareholders holding together not less than 25% of the outstanding shares of the trust entitled to vote at such meeting. The call shall state the nature of the business to be transacted and no other business shall be considered.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.15 REIT; inspection of records.

Rule 706.15. The declaration of trust or other instrument forming the real estate investment trust shall provide for inspection of the trust records by the administrator at a reasonable time, and inspection of the trust records by a shareholder or beneficial owner as permitted under Michigan law to the same extent as is permitted a corporate shareholder.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.16 REIT; distributions.

Rule 706.16. A distribution to shareholders or certificate holders of a real estate investment trust shall be accompanied by a statement in writing advising of the source of the funds so distributed. If there is doubt as to this, the communication shall so state, in which event, the necessary statement shall be forwarded to shareholders or certificate holders not later than 60 days after the close of the fiscal year in which the distribution was made.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.17 REIT; changes and termination.

Rule 706.17. (1) No change shall be made in the declaration of trust, or other instrument forming the real estate investment trust, without the vote or written consent of the holders of ⅔ of the outstanding shares of beneficial interest.

(2) The trust may be terminated at any time, by a vote or written consent of the holders of ⅔ of the outstanding shares of beneficial interest.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.18 REIT; investment policy and contracts.

Rule 706.18. (1) The trustees shall have absolute and exclusive control over the management of the real estate investment trust and its property and the disposition thereof. The investment policies intended to be followed by the trustee shall be stated with reasonable particularity in the declaration of trust or other instrument forming the trust.

(2) An investment advisory contract entered into by the trustees initially may not be for more than 3 years, and be terminable by either party on 60 days' notice. An investment advisory contract entered into by the trustees thereafter shall not be for more than 1 year. Total compensation of the investment advisor shall not exceed ½ of 1% annually of the net assets of the trust managed. In case of real property it shall be calculated on the basis of cost less depreciation or, in the judgment of the trustees, fair market value of the net assets of the trust, whichever is less.

History: 1954 ACS 55, p. 38, Eff. Aug. 14, 1968.

R 451.706.19 REIT; expense limitation.

Rule 706.19. (1) There shall be a reasonable limitation on selling and promotional expenses of a real estate investment trust, based on requirements under Michigan law. Selling and promotional expenses shall not be included in the annual expense limitation, and shall include printing costs for the prospectus and other advertising material, initial issue securities sales commissions, legal costs and filing fees related to registration of the securities.

(2) The aggregate annual expenses of every character, exclusive of interest, taxes, maintenance and upkeep of trust assets, payments to independent contractors, compensation to investment adviser, and reasonable sales commissions in the disposition of properties, legal fees relating to the acquisition of real estate, and title insurance or abstract expenses, shall not exceed $5,000.00 or 1% of the average net assets of the trust calculated on a semi-annual or more frequent basis, consistently applied, whichever is greater. If the trust has no investment adviser, or if the compensation of the adviser is less than ½ of 1%, the expenses, including compensation to the adviser may not exceed 1½% annually. Net assets shall be calculated on the basis of cost less depreciation or, in the judgment of the trustees, fair market value of the net assets of the trust, whichever is less. The maximum amount of such expenses shall be stated in the prospectus.

History: 1954 ACS 55, p. 39, Eff. Aug. 14, 1968.

R 451.706.20 REIT; appraisal of real estate acquired.

Rule 706.20. The consideration paid for real property acquired by a real estate investment trust shall ordinarily be based upon fair market value of the property as determined by a real estate appraisal prepared by a qualified, disinterested and independent appraiser. If an appraisal may be required under this or any other provision of these rules, an appraisal may not be required if there is a record of uninterrupted payment of principal and interest for the preceding 5 years on any encumbrance on the property, and the earnings of the property, before depreciation, during the preceding 5 years are such that when capitalized annually at an 8% rate the capitalized figure approximates the purchase price paid or to be paid for the property.

R 451.706.21 REIT; prohibited investments.

Rule 706.21. A real estate investment trust shall not:

(a) Invest more than 5% of its assets in unimproved real property. Unimproved property includes, among other things, vacant land, lots on which the permanent buildings have not been completed, and agricultural or ranching land. Agricultural or ranching land which is purchased at substantially its value for agricultural or ranching land and used as such shall not be regarded as unimproved property.

(b) Invest in commodities.

(c) Invest in a mortgage or trust deed on unimproved real property or in a mortgage or trust deed other than a first mortgage or first trust deed not in a greater percentage of value, as confirmed by a competent independent appraiser, than permitted under local law to a savings and loan association.

(d) Invest more than 1% of its assets in real estate contracts of sale.

(e) Invest in any real property subject to a mortgage, trust deed or other encumbrance to other than a bank, insurance company, pension fund, or other institutional lender, or corporation engaged in the business of mortgage investments, except in the case of a purchase money mortgage.

History: 1954 ACS 55, p. 39, Eff. Aug. 14, 1968.

R 451.706.22 REIT; prohibited activities.

Rule 706.22. A real estate investment trust shall not:

(a) Engage in a short sale or borrow, unsecured, more than 8% of the value of its net assets. The total amount of encumbrance to which all of its real property shall be subject shall not be more than 66⅔% of the fair market value of the property as confirmed by a competent independent appraiser. Real property, subject to FHA or other governmentally insured encumbrances, is not subject to the 66⅔% limitation.

(b) Acquire or convey an interest in property in which a trustee, adviser of the trust, independent contractor or employee for the trust also has an interest, directly or indirectly, except as permitted in R 451.706.11(2).

(c) Engage in trading as compared with investment activities.

(d) Issue securities of more than 1 class.

(e) Issue redeemable securities.

(f) Hold securities in a company holding investments or engaging in activities prohibited by this rule or R 451.706.21.

(g) Engage in underwriting or agency distribution of securities issued by others.

(h) Issue warrants, options or similar evidence of a right to buy its securities, other than to all the shareholders ratably.

(i) Acquire options at a cost of more than 1% of the purchase price of the property involved.

History: 1954 ACS 55, p. 39, Eff. Aug. 14, 1968.

R 451.706.23 REIT; conflicts with internal revenue code.

Rule 706.23. The provisions of the declaration of trust of a real estate investment trust giving the shareholders the right to elect and remove trustees and the right to amend and terminate the declaration of trust are subject to the requirements of the internal revenue code of 1954, as amended, and the rules and regulations promulgated thereunder. If any provision granting or limiting such shareholder right conflicts with the requirements of the internal revenue code of

1954 and the rules and regulations promulgated thereunder, such provisions shall be deemed to be without force and effect. If the provision relating to the election of trustees by the beneficiaries of the trust is deemed to be without force and effect, the trustees in office shall be deemed to be the qualified and acting trustees until such time as a successor trustee or trustees have been named and qualified. However, on or before the next meeting of shareholders, after the trustees have notified the shareholders that any or all shareholders rights create such a conflict and therefore shall be without force and effect, the trustees shall submit to the shareholders for their approval or disapproval, by a majority of those voting, the question as to whether such shareholder right or rights shall be continued.

History: 1954 ACS 55, p. 40, Eff. Aug. 14, 1968.

PART 4. GENERAL PROVISIONS

R 451.801.1 Definitions for rules.

Rule 801.1. As used in these rules:

(a) Except when the context clearly indicates otherwise, terms have the same meaning as given to them in the act.

(b) "Act" means Act No. 265 of the Public Acts of 1964, as amended, being §§451.501 to 451.818 of the Michigan Compiled Laws.

(c) "Administrator" means department of commerce or any other agency authorized by law to enforce the provisions of the act.

History: 1954 ACS 55, p. 40, Eff. Aug. 14, 1968.

R 451.801.2 Definitions.

Rule 801.2. As used in the act and in these rules:

(a) "A specified number of days" means calendar days, including Saturdays, Sundays, and holidays, unless the act or rule specifically indicates that business days are intended.

(b) "Officer" means the president, vice president, secretary, or treasurer of a corporation, or a person occupying a similar status or performing similar functions.

(c) "Commodities contract," as defined by section 401(o) of the act, includes, but is not limited to, an agreement or document evidencing the sale of a commodity for present delivery where the value of the commodity is difficult to ascertain, except by a person expert in the analysis of the commodity, and the commodity is offered for sale to the general public as an investment for future appreciation.

(d) "Goods commonly classified as commodities within the normal course of business dealings" include, but are not limited to:

(i) Precious or semi-precious gems or imitations thereof.

(ii) Warehouse receipts for, casks of, or other containers of whiskey or other alcoholic beverage.

History: 1954 ACS 55, p. 40, Eff. Aug. 14, 1968; 1954 ACS 90, p. 59, Eff. Feb. 17, 1977.

R 451.802.1 Employees' benefit plans.

Rule 802.1. Notification in writing to the administrator pursuant to section 402(a)(10) of the act, of an investment contract or option issued in connection with an employees' stock purchase, option, savings, pension, profit-sharing or similar benefit plan if the employee makes a contribution to that plan, before the issuance thereof shall consist of the submittal of the plan itself or an accurate summary

thereof including information identifying generally the employees or class of employees covered and the effective date. A similar notification shall be filed for any major amendment to the plan. This applies to plans effective January 1, 1965, and thereafter; no notification is required of the granting of specific options or the issuance of specific securities to any person under a plan.

History: 1954 ACS 55, p. 40, Eff. Aug. 14, 1968.

R 451.802.2 Recognized manuals.

Rule 802.2. The administrator recognizes the following securities manuals under section 402(b)(2)(A) of the act:

Moody's Industrial Manual
Moody's Transportation Manual
Moody's Public Utility Manual
Moody's Bank and Finance Manual
Moody's Municipal and Government Manual
Standard and Poor's Corporation Records
Best's Life Insurance Reports
Best's Insurance Reports (fire and casualty)

History: 1954 ACS 55, p. 40, Eff. Aug. 14, 1968.

R 451.802.3 Fifteen-offeree exemption.

Rule 802.3. (1) Only transactions effected in compliance with this rule are exempt under section 402(b)(9) of the act, provided that the administrator may by order and within the limitations of section 402(b)(9) exempt transactions not conforming to this rule. The following transactions, in addition to those designated in section 402(b)(8) are exempt under this rule:

(a) Transactions pursuant to offers of its securities, regardless of type or class, by an incorporated issuer directed to an aggregate of not more than 15 persons in this state during the initial period of 12 months after incorporation, and to an aggregate of not more than 10 persons during any subsequent period of 12 consecutive months.

(b) Transactions pursuant to offers of securities of a particular issuer, regardless of type or class, or of a particular venture, by a nonissuer offeror directed in the case of each issuer or venture, to an aggregate of not more than 10 persons in this state during any period of 12 consecutive months.

(c) Transactions pursuant to offers of certificates of interest or participation in a particular venture by the organizers of a partnership, unincorporated joint venture, voluntary association or trust, or by persons who effect transactions in certificates of interest or participation in oil, gas or mining titles or leases or in payments out of production under such titles or leases, to an aggregate of not more than 25 persons in this state during the initial period of 12 months after formation of the venture, and to an aggregate of not more than 10 persons during any subsequent period of 12 consecutive months, if in each case:

(i) The seller, before consummating sales, makes inquiry and reasonably believes that the buyers in this state as hereinbefore limited are purchasing for investment; and

(ii) No commission or other remuneration is paid or given directly or indirectly for soliciting any of the prospective buyers in this state as hereinbefore limited, unless this requirement is waived by order.

(2) In furtherance of any investigation the administrator may require that an offeror availing himself of an exemption under this rule file a written statement

identifying the issuer or venture and the offeror, describing the securities offered or to be offered, and listing the name and address of every offeree and every purchaser. Failure to file such information within 15 days of request, or filing incomplete or false information, will constitute ground for the administrator to withdraw the exemption as provided in section 402(b)(9)(B) of the act and to start proceedings under section 408 of the act.

History: 1954 ACS 55, p. 41, Eff. Aug. 14, 1968.

R 451.803.1 Sales literature and advertising.

Rule 803.1. (1) A copy of any prospectus, pamphlet, circular, form letter, advertisement, or other sales literature or advertising communication addressed to, or intended for distribution to prospective investors, unless the security or transaction is exempted by section 402 of the act, shall be submitted to the administrator contemporaneous with its use, unless the administrator specifically requires otherwise. It shall not be used if the administrator finds it obsolete or misleading, and has stated its disapproval in writing. The requirement of submittal ordinarily does not apply to the following:

(a) Advertisement in newspapers or periodicals of securities, with respect to which a registration statement is effective, which do no more than state the identity of the issuer of the security; the title of the security, amount offered, and the per-unit offering price to the public; the names and addresses of broker-dealers participating or from whom prospectuses may be obtained; the reason for publication of the advertisement; any hedge clauses necessary to effect compliance with state or federal regulatory requirements; and the date.

(b) Dividend notices.

(c) Advertisements in newspapers or periodicals by registered broker-dealers which do no more than state the name, address, and telephone number of the broker-dealer and like information as to branches; identify securities which he may legally buy, sell, or trade; state where information may be obtained; and state his affiliations with securities and commodities exchanges.

(d) Advertisements in newspapers or periodicals by registered broker-dealers in which no specific security is mentioned. The administrator may withdraw this exemption as to any broker-dealer for cause.

(e) Advertisements appearing in a newspaper or other publication of general, regular, or paid circulation which is not published in this state, or, if published in this state, has had more than ⅔ of its circulation outside this state during the past 12 months.

(f) Radio or television scripts for programs originating outside this state, or if originating within this state and limited to a broadcast of market quotations.

(2) All advertising relating to nonexempt commodity contracts shall be filed with the administrator at least 10 business days prior to publication unless a shorter time is approved by the administrator, and all advertising shall be subject to the following:

(a) An advertisement shall not contain any statement or inference that an investment in a commodity contract is a safe investment, that loss is impossible or unlikely, or that profits are assured.

(b) An advertisement shall contain the name and address of the person responsible for sponsoring the advertisement, and shall state the full name and address of the commodities issuer or commodity broker-dealer, or both, as applicable.

(c) An advertisement shall not directly or indirectly refer to any specific prior recommendations, transactions, or prior offerings of the seller.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(d) An advertisement shall not represent that a report, analysis, or other service will be furnished free unless the report, analysis, or other service actually is or will be furnished free and without any condition or obligation, directly or indirectly.

(e) An advertisement shall not refer to the seller as an exchange or indicate that the seller's name includes the term "exchange" unless the term is used to refer to an existing contract market registered with the commodity futures trading commission.

(f) An advertisement shall not use the term "guarantee" without fully and clearly detailing the guarantee made, and the limitations thereof, and stating the basis upon which the guarantee will be made and the basis for the ability of the guarantor to fulfill the guarantee. If the guarantor is not the seller, the guarantor shall be identified by true name and address.

(g) An advertisement shall not state a past percentage change in the price of a commodity without providing, in the same advertisement, a comparable statement, in similar type size and style, of the price of that commodity each year for the past 5 years and without providing a statement of the price on a month-end basis for each month of the current year and the preceding 6 months of the previous year, and a statement of the price as of the date immediately prior to the date of the advertisement.

(3) For purposes of this rule, "advertisement" means a written or printed communication or a communication by means of recorded telephone message, or spoken on radio, television, or similar communication media, published in connection with an offer to buy or sell a commodity contract, or to provide commodity investment advisory services.

History: 1954 ACS 55, p. 41, Eff. Aug. 14, 1968; 1954 ACS 90, p. 59, Eff. Feb. 17, 1977.

R 451.812.1 Financial statements.

Rule 812.1. When a report pursuant to any of these rules is prepared by an independent or certified public accountant who holds, or intends to acquire, any position or interest in the registrant covered by the report, full disclosure thereof shall be made to the administrator.

History: 1954 ACS 55, p. 42, Eff. Aug. 14, 1968.

R 451.814.1 Irrevocable consent to service of process.

Rule 814.1. An applicant for registration under the act and an issuer which proposes to offer a security in this state through a broker-dealer as his agent shall file, or have on file, with the administrator an irrevocable consent to service of process pursuant to section 414(g) of the act in the prescribed form CA appearing in the appendix to these rules, or a uniform form satisfactory to the administrator containing substantially the same provisions may be filed.

History: 1954 ACS 55, p. 42, Eff Aug. 14, 1968.

R 451.817.1 Rescission.

Rule 817.1. ment for appropriate deposit of cash or securities pursuant to the rule applying thereto.

Exhibit IV. If applicant is a corporation, copy of articles of incorporation as amended to date; or if applicant is a partnership, copy of articles of partnership as amended to date.

Exhibit V. If applicant also operates in states other than Michigan, submit a Business History (Form BH) for each officer or partner in charge of Michigan operations. If applicant operates only in Michigan submit Business History for the proprietor (if a proprietorship), each partner (if a partnership), and each officer and director (if a corporation). Omit any Business History if applicant is a member of the New York Stock Exchange, or if already on file, or if for an individual immediately previously licensed or registered in any capacity under this act.

Exhibit VI. Broker-dealer records and location (Form RL).

Exhibit VII. If applicant is a proprietorship then, unless he has had an effective Michigan registration as a broker-dealer or agent within 6 months prior to the date of filing his application, he shall furnish Michigan State Police and FBI fingerprint cards obtainable at the Lansing office of the department. Also the proprietor may be required to take and pass a written principal's examination (unless he has previously passed a comparable examination) and the Michigan state law examination (unless he has previously passed this examination).

Fee: The registration filing fee for a broker-dealer registration becoming effective between July 1 and December 31, inclusive, of any year is $100.00 plus $50.00 for each office more than 1 maintained in Michigan. These fees are reduced to $50.00 and $25.00 respectively for registrations becoming effective between January 1 and June 30, inclusive, of any year (being for ½ year or less). Make remittances payable to State of Michigan.

(title)

Instructions to Applicants:

Applicant must have passed (1) the written Michigan State Law Examination of the Uniform Securities Act and (2) the General Securities Examination before he can be registered. In lieu of (2), applicant may submit evidence of registration with either the NYSE, ASE, or the NASD, or the passing of a SECO or comparable examination.

Applicant must be at least 21 years of age.

Applications must be accompanied by a $10.00 fee.

Unless the applicant has had an effective Michigan registration as agent within 6 months prior to the date of filing an application, he must furnish Michigan State Police and Federal Bureau of Investigation fingerprint cards. Fingerprint cards are available at the Lansing office of the department, and are to be submitted with the filing of an application.

ANY WILFUL MISREPRESENTATION OR FALSE STATEMENT WILL BE CAUSE FOR DENIAL, SUSPENSION OR REVOCATION OF REGISTRATION AND MAY RESULT IN CRIMINAL PROSECUTION.

CONSENT TO SERVICE (Form CA) MUST BE COMPLETED AND SUBMITTED, UNLESS ALREADY ON FILE WITHIN 10 YEARS.

1. Name, principal business address, and telephone number of applicant:
   _____ _____ (telephone)
   _____
   _____

2. Address and telephone number of each branch office, if any, in this state, and name of the branch manager: (indicate those not yet opened for business.)
   (a) _____ _____ (telephone)
   Manager: _____
   (b) _____ _____ (telephone)
   Manager: _____

ATTACH EXHIBIT LISTING ADDITIONAL BRANCH OFFICES

3. This application is filed as a(an):
   Original _____ Renewal* _____ Amended* _____
   If *, give date of original application: _____
4. State net worth of applicant: $ _____ Date _____
5. State date of applicant's fiscal year end: _____
6. (a) If applicant is a corporation:
   Date of incorporation: _____ State of incorporation: _____
   (If foreign corporation, give date admitted into Michigan: _____)
   (b) If a partnership:
   Date: _____ County: _____ Date of filing certificate: _____
   (c) If an individual (sole proprietorship):
   Date: _____ County _____, in which Assumed Name Certificate (if any) was filed, pursuant to Act 101, P.A. 1907, as amended.
   (d) If none of the above are applicable, give:
   (1) Description of the organization:
   (2) List the name and residence address of each person, including trustee or trustees, who direct, manage, or participate in directing or managing its affairs:

NAME	ADDRESS	TITLE OR POSITION HELD

7. If applicant is NOT a sole proprietorship, give the following information:

All Officers, Directors, Partners, Trustees as well as Controlling Stockholders, holding more than 10%	Positions Held	Age	Residence Address (including street and number)	Shares of Interest Owned Directly or Otherwise

8. Does or will applicant or any person employed by the applicant:
   (a) Furnish "investment supervisory services" defined as the giving of continuous advice to clients as to the investment of funds on the basis of the individual needs of each client? _____.
   If so, state in detail the basis of compensation, how fees will be computed, the period covered by each fee, when fees are payable, and estimate percentage of total business accounted for by such services.
   (b) Furnish investment advice through consultation (not as part of (a), above)? _____.
   If so, state basis of compensation: _____.
   (c) Issue periodic publications relating to securities on a subscription basis? _____.

If so, furnish name of each publication, subscription price, period covered by subscription price, and include as an exhibit copies of the last 4 of such periodicals issued, or, if only a proposed report has been drafted, a sample copy of such report.

(d) Either prepare or issue special reports or analyses relating to securities, not included in any service described above? _____.
If so, state price, fee, or basis of compensation and furnish copies of last 4 reports issued, or, if only a proposed report has been drafted, a sample copy of such report.

(e) Either prepare or issue, not as a part of any service described above, any charts, graphs, formulae, or other devices which clients may use to evaluate securities? _____.
If so, describe such service in detail and state basis of computation of fee and furnish copies of last 4 such items issued, or, if only a proposed draft has been prepared, a sample copy of such draft.

(f) Furnish investment advice in any manner not described above?_____.
If so, describe such service in detail and state basis of compensation.

(g) Engage in any business or profession not described above? _____.
If so, describe each such other business or profession and estimate percentage of total time devoted to each. (If 1 of these is engaging in the business as a Securities Broker-Dealer, contact the department.)

9. Applicant is attaching herewith and incorporating as a part of the application a written commitment that neither the applicant nor any persons connected with the applicant shall have custody or possession or authority to obtain custody or possession of the securities or the funds or any other property of any client.

Yes _____ No _____

10. If applicant is not succeeding to the business of another, give date operations commenced in Michigan or it is expected that they will be commenced in Michigan: _____.

11. If applicant is succeeding to the business of another, give the name and address of the predecessor and the date of succession:

_____ _____
(date)

_____

_____

12. State where applicant has engaged in business as investment adviser and when commenced and when terminated and reasons for termination, and, if any license has been terminated in connection therewith, give the date of termination identifying the authority terminating the license and state the reasons for termination: _____

13. Has the applicant or any of the persons listed in item 7 or item 6(d)(2) or any of its officers, directors, partners, or any person employed by the applicant in connection with the applicant's business ever been:

(a) Convicted of any misdemeanor involving moral turpitude or any felony? _____

(b) Enjoined by any court from engaging in or continuing any conduct or practice involving any aspect of the securities business? _____

(c) The subject of an order by a governmental agency denying, suspending, or revoking registration as an investment adviser or broker-dealer or agent? _____

(d) The subject of a disciplinary order suspending or expelling him from membership in a national exchange or the NASD? _____

If the answer is "yes" to any part of the above question, attach a separate sheet and give full details.

14. Does applicant have written rules and regulations governing employees? _____.

15. State whether applicant is under direct or indirect control with or is controlled by or directly or indirectly controls or holds a substantial interest in any other person or entity operating as an investment adviser, broker-dealer in securities, or investment company: _____

If so, give the names and addresses of such affiliated persons or entity and the nature and extent of such relationship.

16. Outline general plan and character of applicant's business or method of operation: _____

17. Applicant is attaching herewith and incorporating as a part of the application a written commitment that adequate and complete office records will be maintained of securities transactions of any partner, officer, director, person in a control relationship, employee who makes any securities recommendations or determines which recommendations are to be made or who in connection with his duties obtains information concerning securities being recommended.

18. If the Michigan State Securities Law examination has not been passed by the applicant, forms for applying for the examination will be sent upon receipt of properly executed application for registration as an investment adviser. Have you, since January 1, 1965, passed the Michigan State Securities Law examination?

19. Before becoming registered as an investment adviser, evidence must be on file with the bureau that the applicant has passed 1 of the following competency examinations on securities. Check the appropriate box below and for that examination check whether passed or to be passed and give information requested below:

(1) State Securities Law Examination ☐
(2) General Securities Examination administered by NASD ☐
(3) U.S. Securities & Exchange Commission's General Securities Examination ☐

PASSED ☐ and _____ (Name of Examining Authority) is submitting ☐ has submitted ☐ to the bureau the name of the examination passed and the date of passing.

TO BE PASSED ☐ and _____ (Name of Examining Authority), after the examination is passed will submit to the bureau the name of the examination passed and the date of passing.

20. The qualifying examinations will be taken by:

Name	(1)_____	(2)_____	(3)_____
Title	_____	_____	_____
Date	_____	_____	_____

21. The following exhibits are filed herewith:

All the following exhibits are to be filed in complete form in connection with initial registration, and these exhibits are hereby made a part of this application by reference and identification. In the case of a renewal application,

History: 1954 ACS 55, p. 42, Eff. Aug. 14, 1968.

DEBT MANAGEMENT

R 451.1201—R 451.1217 Rescinded.

History: 1954 ACS 62, pp. 45-48, Eff. May 18, 1970; rescinded 1954 ACS 94, p. 121, Eff. Feb. 7, 1978.

DEBT MANAGEMENT

(By authority conferred on the director of the department of commerce by section 22 of Act No. 148 of the Public Acts of 1975, being §451.432 of the Michigan Compiled Laws)

R 451.1221 Definitions.

Rule 1. As used in these rules:

(a) "Act" means Act No. 148 of the Public Acts of 1975, being §451.411 et seq. of the Michigan Compiled Laws, known as the debt management act.

(b) "Firm" means a debt management licensee or exempt person.

(c) "Monthly amortizable amount" means the payment made in equal monthly amounts, extinguishing the fees and charges stated in the contract, less the $25.00 initial fee. No more than 1 monthly fee may be taken in any calendar month.

(d) "Qualified person" means a person who has successfully completed the examination required by section 6(3) of the act.

Open Access, Google-digitized / http://www.hathitrust.org/access_use#oa-google

(e) "Rate" means the percentage of a firm's fees or charges in relation to the debt to be liquidated during the life of the contract.

(f) "Trainee" means a person who has not successfully completed the qualification examination provided by section 6(3) of the act.

History: 1954 ACS 94, p. 114, Eff. Feb. 7, 1978.

R 451.1222 Application for license or exemption order; renewal application.

Rule 2. (1) The application for license or exemption order shall be on the form prescribed by the bureau.

(2) The application shall be accompanied by the financial statements of the applicant for its last fiscal year and as of a date not more than 45 days prior to the filing.

(3) Financial statements, for the purposes of this rule, shall include a balance sheet and income statement prepared in accordance with generally accepted accounting principles.

(4) Payment of fees shall be made by a check payable to the "State of Michigan."

(5) The original application shall be accompanied by a business history form, 3 affidavits of character, and a fingerprint card for each officer and director of an association or corporation, for each partner if a partnership, and for each proprietor, counselor, and office manager. A credit report on the firm shall also be submitted.

(6) Firms that have operated without interruption during the past year under a license or exemption order may file a renewal application on the form prescribed by the bureau.

(7) The application shall request a license or exemption order for each location from which the business of debt management is conducted.

(8) In the event of a change of business form, a new application shall be filed prior to the effective date of the change. The application shall include payment of a new fee as on renewal application.

(9) The bureau shall not accept for filing an applicant with a name that would cause confusion with the name of an existing firm or governmental agency, or cause confusion about services to be received from a licensee.

History: 1954 ACS 94, p. 115, Eff. Feb. 7, 1978.

R 451.1223 Amended application.

Rule 3. (1) A proposed change of name of a firm shall be filed with the bureau for approval prior to effecting the change. The bureau shall not accept a name change that would be confusing with the name of an existing firm or governmental agency, or cause confusion about services to be received from a licensee. An amended application shall be filed contemporaneously with the name change.

(2) A firm shall file an amended application with the bureau within 5 days of the occurrence of any of the following:

(a) If a firm is a corporation, a change in its officers or directors.

(b) If a firm is a partnership, a change in its members.

(c) If a firm is a sole proprietorship, a change in ownership.

(d) Conviction of an officer, director, partner, or sole proprietor of the firm of a felony or misdemeanor involving moral turpitude.

(e) Insolvency, filing in bankruptcy, receivership, or assignment for the benefit of creditors of the licensee.

(3) If a firm transfers its debt management business to another office at a different address, its license shall be deemed to apply to its new office only if the following requirements are met:

(a) The bureau amends its application to reflect the effective date of the transfer.

(b) The firm ceases to conduct debt management business at the old address on the date indicated, and has notified its clients of the change of address not less than 5 days prior to the change.

(c) The surety company has notified the bureau that the bond furnished pursuant to the act shall apply in full force and effect to the new office after the date of the transfer.

(d) The firm has submitted its license certificate or order to the bureau for reissuance to cover the new office, and the license or order has been so reissued.

(4) The firm shall promptly file an amended application upon the occurrence of any material event affecting the accuracy of the information contained in the current application.

(5) When the partnership agreement of a firm provides for the substitution, withdrawal, or addition of members of the partnership without winding up the partnership business, it shall not be necessary to obtain a new license or exemption order because of substitutions, withdrawals, or additions if evidence satisfactory to the bureau is furnished as to the following:

(a) That the surety bond furnished pursuant to the act shall continue in full force and effect.

(b) The financial responsibility, experience, character, and general fitness of new members. The licensee shall furnish an executed business history form, 3 affidavits of character, and a fingerprint card for each new partner.

(c) That the withdrawal or substitution of new partners will not render the partnership insolvent.

(d) That at least ⅔ in number and interest of those who were partners when the license was applied for and issued are continuing as members of the partnership, or that 1 of the original partners remains in a 2-person partnership and a new partner is added simultaneously with the departure of an original partner.

(6) A change in the ownership of a sole proprietorship firm shall operate to terminate the license and require the filing of a new application and the issuance of a new license before continuance of the debt management business.

(7) If the firm seeks to open an additional branch office, it shall amend its current application to reflect the address of the additional office and the name of the office manager. The licensee or exempted person shall file the appropriate forms with the bureau and pay the statutory fee.

History: 1954 ACS 94, p. 115, Eff. Feb. 7, 1978.

R 451.1224 Exemptions.

Rule 4. Persons receiving an order of exemption pursuant to section 4(2), (3), or (4) of the act shall file an annual request for renewal of the exemption on a form prescribed by the bureau.

History: 1954 ACS 94, p. 116, Eff. Feb. 7, 1978.

R 451.1225 Bond; cash or securities in lieu of bond.

Rule 5. (1) Bond coverage in the penal amount of $5,000.00 for each office shall be filed with an original or a renewal application. An extension of an existing bond shall not be acceptable.

(2) If a surety company gives 30 days' notice of termination of a bond, the firm, if continuing in the debt management business, shall furnish a satisfactory new bond before the expiration of the 30 days. Failure to maintain a bond shall be cause for issuance of a summary suspension order.

(3) In lieu of bond, the bureau may approve for a firm which maintains net worth of at least $10,000.00 for each licensed or exempted office the following:

(a) A deposit of cash in a certificate of deposit or savings account, which may be withdrawn only upon order of the bureau.

(b) A deposit in escrow at a Michigan-based bank or savings and loan association of securities which have sufficient trading volume to assure immediate liquidity, which securities may only be removed from escrow upon order of the bureau and over which the bureau is given a stock power. The bureau shall assess a discount of 25% of the market value of the securities in determining the appropriate amount of deposit.

(c) The amount of deposit of cash or securities in lieu of bond and the duration of the deposit shall be determined by, but not be limited to, the following:

(i) The financial condition of the applicant.

(ii) The liabilities of the applicant.

(iii) The number of debtors assisted by the applicant.

(iv) The current asset position of the applicant.

(v) The existence of appropriate fidelity bond.

(vi) The number of employees of the firm.

History: 1954 ACS 94, p. 116, Eff. Feb. 7, 1978.

R 451.1226 Debt management contract; budget analysis format; creditors agreement form.

Rule 6. (1) The applicant shall file a copy of its proposed debt management contract for debtors at the time of filing its application for review and acceptance by the bureau. The contract or revised contract shall not be used without bureau review and letter of acceptance.

(2) The applicant shall file a copy of its proposed budget analysis format with the bureau. This format, as accepted by the bureau, shall be completed for each debtor prior to entry into any contract with the debtor. The format shall contain not less than the following information:

(a) Name and address of the debtor.

(b) Marital status and number of dependents.

(c) All wages, salary, and other income, as well as the source thereof, which shall include, but not be limited to, aid to dependent children, food stamps, welfare, or child support.

(d) Number of exemptions claimed for federal income tax withholding.

(e) Payroll deductions and net take-home pay.

(f) If the debtor is the owner of a home, any encumbrance, tax not included in monthly payment, and monthly payment on the home; if a tenant, monthly rent.

(g) Amount and kind of other fixed periodic payments.

(h) Complete list of living expenses for food, clothing, utilities, auto, insurance, and other expenses.

(i) List of creditors, showing accounts to be adjusted and accounts not to be adjusted.

(j) Information on any existing garnishments and judgments.

(k) Periodic amount available for payment toward the plan.

(3) A true copy of the budget analysis shall be provided to each debtor before a contract is signed.

(4) The applicant shall file a copy of its proposed creditor's agreement form with the bureau. This form shall be accepted as to form and content by the bureau prior to use.

History: 1954 ACS 94, p. 116, Eff. Feb. 7, 1978.

R 451.1227 Books and records.

Rule 7. The firm shall make and keep current the following books and records relating to its business:

(a) Journals or other records of original entry containing an itemized daily record of all payments and receipts for, or on behalf of, debtors of the firm, all receipts and disbursements of cash, and all other debits and credits.

(b) Ledgers or other records reflecting all assets, liabilities, income, expense, and capital accounts.

(c) Ledger accounts or other records, itemizing separately as to each debtor all receipts from the debtor, payments to the firm, and disbursements on behalf of the debtor, the creditor's representative contacted, the response obtained or whether there has been a response within 14 days after the mailing of the creditor consent form, any revised or special conditions or arrangements conditioning the consent, and the date at which the required consents were secured. The record shall also contain a certification by an officer, partner, sole proprietor, or office manager that consents required by section 13(1) of the act have been obtained, the date that the requirement was satisfied, and an identification of the creditors constituting the acceptance base.

(d) A complaint file containing copies of all written complaints made to the firm by debtors.

(e) Personnel files for all employees, listing name, current home address, home phone number, social security number, and a record of all compensation.

History: 1954 ACS 94, p. 117, Eff. Feb. 7, 1978.

R 451.1228 Financial reports; audit.

Rule 8. (1) Each firm shall submit a detailed balance sheet and income statement within 4 months after the end of its fiscal year. The bureau may modify or waive the income statement requirement. These statements, if not pursuant to audit, shall be certified as to correctness by an officer, partner, or proprietor of the firm. If the firm is a sole proprietorship a personal balance sheet of the proprietor shall be submitted with, and as of the same date as, the balance sheet of the firm.

(2) The bureau may at any time require the filing of special financial or other operational reports if it finds that such filing is in the public interest and for the protection of debtors.

(3) If a firm services more than 100 debtors, an audit shall be required of the firm annually. The audit shall be done pursuant to an approved audit plan submitted by an independent accountant and accepted by the bureau in writing.

History: 1954 ACS 94, p. 117, Eff. Feb. 7, 1978.

R 451.1229 Incomplete applications.

Rule 9. If an applicant fails to complete, or, if an applicant withdraws, an application within 6 months from the date of filing, the administrator may summarily deny the application as an inactive filing without prejudice to reapplication.

History: 1954 ACS 94, p. 117, Eff. Feb. 7, 1978.

R 451.1230 Cancellation of contract.

Rule 10. Upon written notice of cancellation of a contract, the firm shall promptly refund to the debtor all the amounts due the debtor. Failure to make prompt repayment shall constitute an unethical business practice, and may constitute grounds for summary suspension. The firm shall not be required to stop

payment of checks to creditors pursuant to this cancellation, and may retain in the account funds relating to lost checks for subsequent reissue to the same creditor.

History: 1954 ACS 94, p. 117, Eff. Feb. 7, 1978.

R 451.1231 Qualifications of applicant; examination; trainees; fee; terms of qualified person; termination of employment.

Rule 11. (1) An applicant for a license or exemption order shall demonstrate education or experience sufficient to provide understanding of laws governing debtor-creditor relationships, business transactions, the debt management act, the rules promulgated pursuant thereto, and an understanding of accounting procedures by the successful completion of an examination administered by the bureau or its designee.

(2) Each officer, partner, or proprietor of an applicant, each person serving in a managerial capacity involving counseling, and each individual counselor to be employed by an applicant shall take and pass an examination administered by the bureau or its designee pursuant to section 6(e) of the act.

(3) Trainees may not serve as office managers, and shall be under the complete supervision of a person who has successfully completed the examination or a person exempted by section 7 of the act.

(4) All persons not exempted from the examination provisions of the act pursuant to section 7 shall successfully complete the examination not later than January 1, 1978.

(5) A nonrefundable fee of $25.00 shall be assessed for each examination.

(6) A qualified person may be transferred from one firm to another, if both of the following apply:

(a) Prior to transfer, the qualified person terminates the employment with the original firm, and that firm and the person file a notice of termination on the form prescribed by the bureau.

(b) The new firm and the person transferring file a notice of employment on the form prescribed by the bureau.

(7) A firm or person shall not refuse to sign a termination form when requested.

(8) If a qualified person's employment is terminated, the employing firm and the person shall file a notice of termination on the form prescribed by the bureau within 7 days of the termination.

(9) If a qualified person has not been employed by a firm for the past 12 months, that person must retake and successfully complete the examination prior to conducting a scheduling, counseling, or budget analysis function, except as a trainee under the direct supervision of a qualified person.

History: 1954 ACS 94, p. 118, Eff. Feb. 7, 1978.

R 451.1232 Change in business form not requiring examination.

Rule 12. A person exempt from the examination requirement of section 6(3) of the act by section 7 of the act shall not be required to complete an examination because of a change in the business form of the firm if there is no interruption of the services provided by the firm.

History: 1954 ACS 94, p. 118, Eff. Feb. 7, 1978.

R 451.1233 Renewal applications.

Rule 13. Renewal applications shall be filed at the central bureau office by December 1 of each year. Failure to file by that date may result in summary suspension until the application is received.

History: 1954 ACS 94, p. 118, Eff. Feb. 7, 1978.

R 451.1234 Dishonest or unethical business conduct.

Rule 14. Dishonest or unethical business conduct, as provided in section 9 of the act, includes, but is not limited to, the following:

(a) Failure to promptly refund a debtor's money upon written cancellation of a contract.

(b) Borrowing money from a debtor.

(c) Giving preference to creditors for the convenience or benefit of the firm rather than the primary benefit of the debtor.

(d) Receiving money from the debtor, except as provided in the contract with the debtor, which contract has been accepted as to form and content by the bureau.

(e) Failing to promptly record on the books of the firm any transaction involving funds of the debtor.

(f) Paying funds of a debtor to a fictitious creditor.

(g) Accepting a rebate, kickback, or other remuneration for payment of a debtor's obligations, except under a plan approved by the bureau and fully disclosed to the debtor.

(h) Using debtors' funds as compensating balances for loans.

(i) Making erasures or changes on the portion of the client account card used for recording payments received from the debtor, on checks issued to creditors, on fees taken, or on the dates of such entries. If a correction is needed, the error shall have 1 line drawn through it and be initialed by a qualified person who did not make the correction or change. All entries should be made with ink, shall be typewritten, or shall be made by other machine entry.

History: 1954 ACS 94, p. 118, Eff. Feb. 7, 1978.

R 451.1235 Posting statutory provision, address, and phone number; filing fee schedule and amendments thereto.

Rule 15. (1) The firm shall prominently post at all offices, in not less than 8-point type, the provisions of sections 13(1), 14(1), and 18 of the act, as well as the address and phone number of the bureau.

(2) The firm shall annually file with the bureau its fee schedule or a schedule of its range of fees, and shall file amendments to that schedule 5 days prior to any change in fees charged to the debtor.

History: 1954 ACS 94, p. 119, Eff. Feb. 7, 1978.

R 451.1236 Employment qualifications.

Rule 16. A firm shall not knowingly employ a person, except as approved by the administrator, as an office manager or counselor who has:

(a) Been convicted of a crime involving moral turpitude, which shall include forgery, embezzlement, obtaining money under false pretenses, larceny, extortion, conspiracy to defraud, or any other like offense.

(b) Violated or failed to comply with a provision of the act, or a rule or order promulgated or issued pursuant to the act.

(c) Had a license to engage in the business of debt management revoked or suspended in this state or another state for any reason other than failure to pay licensing fees.

(d) Defaulted in the payment of money collected for others, including the discharge of debts, because of bankruptcy proceedings. The director may, at his discretion, waive this restriction if provided with evidence of justifiable cause for the bankruptcy, plus convincing evidence of the fitness of the bankrupt party to carry out his or her functions under the act.

R 451.1237 Procedures; review; verification of receipts and disbursements.

Rule 17. (1) Each firm shall prepare and maintain a manual detailing the procedures for compliance with the act.

(2) Each qualified person or trainee of the firm shall be provided with the manual.

(3) An officer, partner, or sole proprietor, or a person under the direct supervision of such a person, shall review the following at least quarterly:

(a) Debtors' accounts.

(b) Checks paid by the firm.

(c) Procedures for handling cash and checks of the firm.

(d) The firm complaint file.

(e) Selected creditor accounts to verify payment.

(f) Selected counselor records and work papers of each counselor to verify the accuracy of counselor guidance to the debtor.

(4) At least annually, the firm or its accountant shall verify the receipts and disbursements with the debtor.

History: 1954 ACS 94, p. 119, Eff. Feb. 7, 1978.

R 451.1238 License.

Rule 18. (1) A license shall be issued for each main office and branch office rendering debt management service.

(2) Whenever a licensee or exempt person discontinues the business of debt management, whether totally or at a specific location, the license certificate, or exemption order, shall be mailed to the bureau's central office within 5 days. An explanation of the reason for discontinuance, a statement of any amounts remaining in the client trust account, and the plan and timetable for disbursement shall accompany the license certificate, or exemption order, unless all accounts are transferred, without interruption in service, to another of the firm's branches.

(3) A license shall not be terminated for a firm unless it is revoked or unless all payments due creditors or debtors have been made, and the bureau issues an order terminating the license.

History: 1954 ACS 94, p. 119, Eff. Feb. 7, 1978.

R 451.1239 Budget analysis.

Rule 19. (1) A copy of the budget analysis shall be retained in the debtor's file for a period of 6 years after the last transaction.

(2) The budget analysis shall be signed by a qualified person of the firm who participated in the preparation of the analysis.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1240 Certification of compliance.

Rule 20. (1) Every contract between a licensee or exempted person and the debtor shall be signed by both parties, and the debtor's copy shall also be manually executed. The copy retained by the licensee or exempted person shall be kept in the debtor's file for 6 years after the date of the last transaction.

(2) Every contract shall specify in detail the amount and method of taking any fees or charges which the debtor shall be assessed during the life of the contract.

(3) Every contract shall set forth, in bold type, the set-up and cancellation fee provisions and amounts, and advise the prospective client to note these carefully before signing the contract.

(4) The bureau may approve the accumulation of debtor's funds in payment of obligations which are required to be paid in large lump sums, such as income and

property taxes, insurance premiums, and house payments. All such accumulations, however, shall be designated for a specific purpose and shall not be used to pay for fees and charges, including the close out fee of the firm.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1241 Reconciliation.

Rule 21. (1) The trust account reconciliation shall contain provisions for recording and identifying the balance in each debtor's account, the balance from the bank statement, the check number and amount of each outstanding check, the date and amount of deposits not yet credited by the bank, the reconciled bank balance, the balance from the checkbook, and a detailed breakdown of any differences.

(2) Remedial action, as provided in section 15(4) of the act, shall be either an immediate replacement of funds, or an immediate cessation of business until sufficient funds are placed in the account.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1242 Receipt; statement of disbursements.

Rule 22. (1) A receipt, as provided in section 16(c) of the act, shall not be required for payments by check or money order made payable to the firm.

(2) The statement prepared in compliance with section 16(e) of the act shall be prepared as of a date no earlier than the date of the first full distribution to creditors under the contract.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1243 Separate remuneration prohibition; waiver or modification.

Rule 23. All requests for waiver or modification of the separate remuneration prohibition of section 19(h) of the act shall be made in writing to the central office of the bureau, setting forth in detail the need for such waiver or modification; the persons or entities from which the benefit will be solicited or sought; the amount or percentage of contribution solicited from donors in the capacity of creditor for a debtor; any relationship, affiliation, or connection creating an actual or potential conflict of interest between the parties involved; and any reciprocal arrangements made or to be made. The bureau shall examine the proposal promptly and shall, within 15 days, notify the licensee or exempted person of its decision, or of the necessity for additional information. All such decisions shall be in writing and shall give the effective date of the declaratory ruling.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1244 Advertising.

Rule 24. (1) Tombstone advertisements which contain only the information provided below shall be exempt from the filing provisions of section 20(1) of the act, unless the bureau, by order, revokes the exemption as to a firm or individual:

(a) Name of the firm.
(b) Address.
(c) Phone number.
(d) Brief description of the service.
(e) Name of the officer, partner, sole proprietor, or office manager, if desired.
(f) Logotype or similar symbol, if desired.

(2) Advertisements filed pursuant to section 20(1) of the act shall be filed in duplicate.

(3) The following items include, but are not limited to, actions which constitute false, misleading, or deceptive advertising:

(a) Failure to clearly identify the firm in all advertising.

(b) Publication or dissemination of advertising which confuses, or tends to confuse, the public as to the actual identity of the firm or service to be performed.

(c) Statement guaranteeing, or otherwise stating or excessively implying, the success of a debt management program for a prospective client.

(d) Representation that services are offered at a reduction from normal or competitive fees, if the statement is not true.

(e) Representation that the fees or charges are otherwise than in the contract and fee schedules on file with the bureau.

(f) Representation that services offered to the prospective client are other than debt management services.

(g) Representation that the firm is sponsored, endorsed, or approved by any organization or governmental agency when, in fact, a written document to that effect, acceptable to the bureau, is not on file with the bureau.

History: 1954 ACS 94, p. 120, Eff. Feb. 7, 1978.

R 451.1245 Charges for other services.

Rule 25. (1) A firm or affiliate thereof shall not charge a debtor for any services or goods, or make other charges, unless the firm or affiliate has filed with the bureau a plan setting forth the basis of charges, and the bureau has determined that such charges in the future do not result in an excessive fee in violation of section 18 of the act.

(2) If a firm or affiliate thereof proposes to alter its plan of charges, the amended plan shall be filed with the bureau and approved prior to use.

History: 1954 ACS 94, p. 121, Eff. Feb. 7, 1978.

R 451.1246 Rescission.

Rule 26. Rules 1201 to 1217 of the rules entitled "Debt Management," being R 451.1201 to R 451.1217 of the Michigan Administrative Code and appearing on pages 5792 to 5795 of the 1970-71 Annual Supplements to the Code, are rescinded.

History: 1954 ACS 94, p. 121, Eff. Feb. 7, 1978.

CONDOMINIUMS

(By authority conferred on the department of commerce by section 31 of Act No. 229 of the Public Acts of 1963, as added, being §559.31 of the Michigan Compiled Laws)

PART 1. GENERAL PROVISIONS

R 451.1301 Definitions; A.

Rule 1301. (1) The terms used in the act have the same meaning given therein when used in these rules.

(2) "Act" means Act No. 229 of the Public Acts of 1963, as amended, being §§559.1 to 559.31 of the Michigan Compiled Laws.

(3) "Administrator" means the agency authorized by law to administer the provisions of the act.

(4) "Advertising material" means a prospectus, pamphlet, circular, form letter, fact sheet, sign, newspaper or magazine ad, or any other sales literature or advertising communication addressed to or intended for distribution to prospective subscribers or purchasers.

(5) "Association of co-owners" means the entity which is responsible for the management and administration of the condominium project and which is comprised of all the co-owners of apartments in the project.

History: 1954 ACS 67, p. 53, Eff. Apr. 27, 1971.

R 451.1302 Definitions; C to G.

Rule 1302. (1) "Co-owner" includes a land contract vendee who is entitled by the terms of his contract to the use and and possession of the apartment.

(2) "Escrow agent" means a commercial escrow depository licensed to do business in this state and regulated either by an agency of this state or the federal government such as a state or national bank, a federal or state savings and loan association, title insurance company or a trust company.

(3) "Escrow agreement" means an agreement:

(a) Signed by a developer and an escrow agent setting forth terms of the escrow of subscriber's funds and the conditions on which the funds shall be paid over to the subscriber or to the developer.

(b) Incorporated by reference into the reservation and subscription or other agreement between the subscriber and developer.

(c) Permitting the escrow agent to require proof of the basis for any forfeiture and which may set forth a course of action to be taken by the escrow agent in case conflicting claims are made upon it.

(4) "Fifty-one percent of the co-owners in number" as used in section 2(j) of the act shall be computed by giving the co-owner of each apartment, regardless of size or whether owned by an individual, a partnership, a corporation or in joint tenancy, 1 vote for each apartment owned and then computing 51% of such number.

(5) "Given description" as used in section 2(a) of the act means only that area underneath a structure itself and does not include any area not underneath the structure.

History: 1954 ACS 67, p. 53, Eff. Apr. 27, 1971; 1954 ACS 68, p. 54, Eff. June 3, 1971.

R 451.1304 Definitions; P to S.

Rule 1304. (1) "Permit to take reservations" means an order issued by the administrator after approval of an application for a permit to take reservations and supporting documentation.

(2) "Reservation and subscription agreement" means an agreement prescribing the obligations of a subscriber and a developer before issuance of a permit to sell.

(3) "Single family residence" as used in section 2(a) of the act does not include a trailer coach as defined in Act No. 243 of the Public Acts of 1959, as amended, being §§125.1001 to 125.1097 of the Michigan Compiled Laws and a condominium project shall not be composed of 1 or more such trailer coaches.

(4) "Subscriber" means a prospective purchaser of a condominium apartment pursuant to a written agreement, whether pursuant to a reservation and subscription or a purchase contract.

History: 1954 ACS 67, p. 53, Eff. Apr. 27, 1971; 1954 ACS 68, p. 54, Eff. June 3, 1971.

R 451.1307 Inapplicability to sales by co-owners.

Rule 1307. A co-owner who is not the developer of a condominium project is not subject to the act or these rules in the offer and sale of his individual apartment.

History: 1954 ACS 67, p. 53, Eff. Apr. 27, 1971.

R 451.1309 Processing of condominium projects.

Rule 1309. (1) Processing a condominium project will ordinarily occur in the following steps:

(a) Submission of an application for a permit to take reservations with exhibits.

(b) Issuance of a permit to take reservations.

(c) Submission of application for approval of master deed and permit to sell and exhibit.

(d) Issuance of a certificate of approval of master deed.

(e) Recording of master deed.

(f) Issuance of a permit to sell.

(2) Approvals or permits regarding a condominium project will be by written order and mailed to the developer or his attorney at the address given in the application.

History: 1954 ACS 67, p. 54, Eff. Apr. 27, 1971.

R 451.1311 Reservation of names.

Rule 1311. The name of a proposed condominium project shall not be such as to confuse or mislead the public. A developer who desires to reserve a name shall make written request to the administrator stating the condominium project name he desires to reserve. If the administrator determines that the name requested is not similar or identical to that of another condominium project and is not likely to mislead the public, the administrator shall reserve the name for the use and benefit of the developer for 45 days after receipt of the request. If the administrator determines that the name might confuse or mislead the public the administrator shall advise the developer within 20 days after receipt of the written request.

History: 1954 ACS 67, p. 54, Eff. Apr. 27, 1971.

R 451.1315 Documents filed with administrator.

Rule 1315. A document filed with the administrator shall be typewritten or in legible handwriting on 1 side of the paper only. One copy of each exhibit or document shall be submitted; however, the administrator may require more than 1 copy of any exhibit or document. All papers filed pursuant to these rules shall become part of the administrator's records.

History: 1954 ACS 67, p. 54, Eff. Apr. 27, 1971.

R 451.1317 Modification of rules.

Rule 1317. The administrator, in order to achieve the purposes intended by the act, may either add to or waive or modify or otherwise condition or change any requirement created by these rules.

History: 1954 ACS 67, p. 54, Eff. Apr. 27, 1971.

PART 2. PERMIT TO TAKE RESERVATIONS

R 451.1321 Applications.

Rule 1321. (1) A developer desiring to advertise a proposed condominium project or to take reservations for the purchase of an apartment before issuance of a permit to sell shall file a request for, and have received from the administrator, a permit to take reservations. A permit to take reservations does not constitute a permit to sell.

(2) Request for a permit to take reservations shall include:

(a) An application for a permit to take reservations in the form prescribed by the administrator, properly and completely filled in and executed.

(b) A copy of the proposed reservation and subscription agreement form.

(c) A copy of the executed escrow agreement.

(d) Proposed advertising, if prepared.

(e) If the project is not to be served by an existing municipal water or sewerage system the developer shall furnish to the administrator:

(i) His proposal for the sewer or water system or both.

(ii) A site feasibility report on a form provided by the administrator.

(iii) Name, address and phone number of the engineer preparing the plan.

(f) A statement of whether any lake, stream, channel or floodplain exists on or near the proposed site.

(g) Evidence satisfactory to the administrator that the project is or will be at the time of approval of the master deed in compliance with local zoning requirements and that the local unit of government has or will issue a building permit for construction of the project.

(3) The reservation and subscription agreement and the escrow agreement may be integrated into 1 document.

(4) The administrator shall issue a permit to take reservations or its intent to deny order within 30 days after receipt by the administrator of an application for a permit to take reservations.

History: 1954 ACS 67, p. 54, Eff. Apr. 27, 1971.

R 451.1322 Reservation and subscription agreements.

Rule 1322. (1) A reservation and subscription agreement shall provide that all funds paid by the subscriber shall be deposited in an escrow account in accordance with an escrow agreement approved by the administrator and that the subscriber may withdraw from the agreement without cause and without penalty, at any time before issuance of a permit to sell and notice thereof.

(2) When the reservation and subscription agreement provides that it automatically becomes a binding purchase contract upon the happening of certain events, the administrator shall require that it not become binding until the lapse of 10 days after notice to the subscriber of issuance of a permit to sell and the furnishing to the subscriber of a copy of the recorded master deed. A waiver of such notice before it is given is void and of no legal effect.

(3) A provision in a purchase agreement for liquidated damages in case of a subscriber's default shall be limited in amount to 5% of the purchase price of the apartment. However, the administrator may either increase or decrease or otherwise condition a provision for liquidated damages. Except as may be approved by the administrator, an agreement shall not permit the developer to receive any escrowed funds until conveyance of title to the subscriber.

History: 1954 ACS 67, p. 55, Eff. Apr. 27, 1971.

R 451.1324 Procedure after issuance of permit.

Rule 1324. A permit to take reservations allows the developer to advertise the project as a proposed condominium and permits him to accept reservations for apartments. Reservation deposits shall be promptly remitted to the escrow agent and held in accordance with the terms of the escrow agreement approved by the administrator. Where the reservation deposit exceeds 50% of the purchase price or the period of holding deposits exceeds 1 year the administrator may require that deposits be invested and interest earned be credited to the subscriber. A

reservation does not constitute a binding contract but is voidable by either party without penalty. A subscriber shall be furnished a copy of the approved signed escrow agreement at the time he signs a reservation and subscription or other agreement.

History: 1954 ACS 67, p. 55, Eff. Apr. 27, 1971.

R 451.1325 Statements of facts for prospective purchasers.

Rule 1325. (1) The administrator may require that a developer of a proposed condominium project submit with his application for a permit to take reservations, a proposed statement of facts for prospective purchasers setting forth the size, nature, location and other facts about the proposed condominium project.

(2) Where the developer proposes to enter into binding contracts of sale before substantially completing the project, or where apartments are offered on the basis of their income-producing capacity a statement of facts for prospective purchasers shall be furnished to all subscribers.

History: 1954 ACS 67, p. 55, Eff. Apr. 27, 1971.

PART 3. GENERAL CONTENTS OF A MASTER DEED

R 451.1331 Condominium subdivision plan; contents.

Rule 1331. A master deed shall contain as an exhibit a condominium subdivision plan. The drawings constituting the plan shall be made by an architect, land surveyor or civil engineer licensed to practice in this state. Drawings shall be reproductions of original drawings, preferably printed in black and white. Reproductions shall be on 24 inch by 36 inch sheets and lettering shall be a minimum of $\frac{3}{16}$ inch freehand, standard pica type or no. 175 Leroy guide. Each sheet shall contain the name and address of the firm responsible for the preparation of that sheet and shall be sealed with the embossed seal or stamp of the professional responsible for the preparation of that sheet. All certificates shall be dated. A complete condominium subdivision plan shall be comprised of a cover sheet, survey plan, site plan, a utility plan and building floor plans, sections and elevations. Where appropriate, plans may be combined, provided this does not impair legibility.

History: 1954 ACS 67, p. 55, Eff. Apr. 27, 1971.

R 451.1332 Condominium subdivision plan; cover sheet.

Rule 1332. A cover sheet shall include:

(a) The name and location of the condominium project.

(b) Name and address of the developer.

(c) Names and addresses of all architectural, engineering or surveying firms involved.

(d) Complete and accurate property description including a description of any beneficial easements serving the project.

(e) Comprehensive sheet index.

(f) Certificate verifying registration of the architect, engineer or surveyor responsible for preparation of the condominium plan.

(g) Certificate verifying that the survey was made on the site, is accurate and could be retraced by a competent land surveyor, that momuments have been placed as indicated on the plans, and that the buildings shown are actually built or are designated as proposed.

(h) Embossed seal or stamp of the registered architect, engineer or surveyor responsible for preparation of the condominium plan.

(i) Certificate for the property owner's consent to establishment of the property as a condominium project.

(j) Mortgagee's or other interested person's certificate of consent to establishment of the property as a condominium project.

(k) Certificate of approval of the master deed to be signed by the administrator.

History: 1954 ACS 67, p. 56, Eff. Apr. 27, 1971.

R 451.1333 Condominium subdivision plan; survey plan.

Rule 1333. A survey plan shall show all details of the survey of the land on which the condominium project is or is to be located and shall be made by a registered land surveyor or engineer licensed to practice in this state. The survey shall be completed showing true north, easements whether of benefit or burden, encroachments, boundaries, property corners and verification of their existence, bearings, distances and curve data necessary to completely traverse the parcel or parcels. A survey bench mark shall be shown with proper symbol and described with the elevation on United States coast and geodetic survey datum or with conversion factor provided. If the bench mark is located more than 200 feet from the site, a permanent bench mark shall be established on the site in accordance with generally accepted standards for establishment of such a bench mark. Concrete monuments shall be set at the major boundary corners of the project unless adequate monuments already exist.

History: 1954 ACS 67, p. 56, Eff. Apr. 27, 1971.

R 451.1334 Condominium subdivision plan; site plans.

Rule 1334. A site plan shall specifically locate the condominium buildings and other improvements. The location shall be identified by reference dimensions on a true north-south, east-west system. Values shall be established on all property corners and the most northwesterly corner of each building. These coordinate values shall be established in the form of latitudes and departures in north-south and east-west directions from an established point, preferably a property corner. Any coordinate value may be assigned to this point initially. "X" coordinates shall be those coordinates parallel to the axis most nearly oriented north to south. The "X" coordinate base shall be the westernmost of these and shall be accurately located with reference to the Michigan coordinate system, prescribed by Act No. 9 of the Public Acts of 1964, being §§54.231 to 54.239 of the Michigan Compiled Laws, or to a monument set during the survey if such coordinates have not been established. "Y" coordinates shall be those coordinates parallel to the axis most nearly oriented east to west. The "Y" coordinate base shall be the northernmost of these and shall be accurately located with reference to the Michigan coordinate system or to a monument set during the survey if such coordinates have not been established. In establishing a coordinate system for a condominium project the architect, engineer or surveyor may designate building north which shall be referenced to the survey monument or markers.

History: 1954 ACS 67, p. 56, Eff. Apr 27, 1971.

R 451.1335 Condominium subdivision plan; utility plans.

Rule 1335. A utility plan shall be a plan of the site showing the location of utility lines, both above and below ground, and stating the source from which location information was obtained. The plan shall show the size and nature of the utility lines and the point at which these lines enter the condominium project and
